PROXY STATEMENT

The enclosed Proxy is solicited by and on behalf of the management of Dillard's, Inc. (a Delaware corporation), for use at the annual meeting of stockholders to be held on Saturday, May 17, 2003, at 10:00 a.m. at the Dillard's Corporate Office, 1600 Cantrell Road, Little Rock, Arkansas, or at any adjournments thereof.

Any stockholder giving a Proxy has the power to revoke it, at any time before it is revoked, by delivering to the Secretary of the Company a written revocation of the Proxy. Proxies solicited herein will be voted in accordance with the directions contained therein, unless the Proxy is received in such form or at such time as to make the stockholder ineligible to vote, or unless properly revoked. If no choice is specified, the shares will be voted in accordance with the recommendations of the Board of Directors as described herein.

If matters of business other than those described in the Proxy properly come before the stockholders at the meeting, the persons named in the Proxy will vote in accordance with their best judgment on such matters. The Proxy solicited herein shall not confer any authority to vote at any meeting of stockholders other than the meeting to be held on May 17, 2003, or any adjournment or adjournments thereof.

The cost of soliciting Proxies will be borne by the Company. The Company will reimburse the stockholders, custodians, nominees and other fiduciaries for their charges and expenses in forwarding proxies to the Company. In addition to solicitation by mail, certain officers and employees of the Company may solicit Proxies by telephone, telegraph and personally. These persons will receive no compensation in addition to their regular salaries. The Company has retained D.F. King & Co., Inc., a professional proxy solicitor, to assist in the solicitation of proxies. The fees of such firm are not expected to exceed \$7,000.

ELECTION OF DIRECTORS

Four Directors representing Class A Stockholders and eight Directors representing Class B Stockholders are to be elected by the Class A Stockholders and the Class B Stockholders, respectively, at a meeting to be held on or about May 1, 2003, for a term of one year and until the election and qualification of their successors. The Proxy Statement will be voted "FOR" the election as Directors of the 12 persons hereinafter identified under the heading "Election as Directors" if not specified otherwise. Management does not know of any nominee who will not serve, but should any nominee be unable or decline to serve, the discretionary authority granted to the Board of Directors will be exercised to vote for a substitute or substitutes. Management has no reason to believe that any substitute nominee will be required.

In 1998, the Company adopted a resolution amending its by-laws to provide that nominees for Class A stockholders shall be of independent persons only. For these purposes, independent persons are those who: has not been employed by the Company or an affiliate in any executive capacity within the last two years; was not, and is not a member of a corporation or firm that is one of the Company's paid advisors; is not employed by a significant customer, supplier or provider of professional services; has not entered into a contract with the Company; is not employed by a foundation or university that receives significant contributions or endowments from the Company; is not a relative of the management of the Company; is not a signatory to any signed shareholder agreements legally binding him to vote with management; and is not the chairman of the Board of Directors. The Chief Executive Officer of Dillard's, Inc. is also a board member.

All of the nominees to represent Class A Stockholders listed below qualify as independent persons as defined in the above resolution.

THE BOARD RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE ELECTION AS DIRECTORS OF THE 12 PERSONS IDENTIFIED.

Compensation of Directors

Directors who are not officers of the Company each receive an annual retainer of \$20,000 in the form of shares of Class A Common Stock. In addition, committee chairmen receive an annual retainer of \$20,000. Directors who are not officers also receive \$1,500 for attendance at each board meeting, \$1,000 for each committee meeting, and actual travel expenses.

Report of Executive Compensation and Stock Option Committees

The following report addressing the Company's compensation policies for executive officers is included in the proxy statement submitted by the Executive Compensation and Stock Option Committees (the "Compensation Committees") to the Company's stockholders.

General

The Compensation Committee, which is composed of independent directors who are not employees of the Company, establishes policies relating to the compensation of employees and oversees the administration of the Company's employee benefit plans. The compensation program of the Company has been designed (1) to provide competitive compensation opportunities that are equivalent to those offered by comparable companies, thereby allowing the Company to attract, hire and retain talented executives who are critical to the Company's long-term success, (2) to provide meaningful compensation to officers by rewarding them for attainment of profitability of the Company, and (3) to align the compensation of executives with the long-term interests of stockholders by awarding stock options to executives. The compensation provided to them.

Edgar Filing: DILLARDS INC - Form DEF 14A

In order to develop a competitive compensation package for the executive officers of the Company, the Compensation Committee compares the Company's compensation package with those of a comparison group. The comparison group is composed of department stores, specialty stores and other public companies that were family-owned or were family-managed. Not all of the companies in the comparison group are included in the Supercomposite Department Stores Index. The Compensation Committee believes that the companies in the comparison group are comparable to the Company in management style and management culture. Although the Compensation Committee has made these comparisons, it also has taken into account that as the Company's number of senior executives has not grown proportionately, so that the number of senior executives of the Company is lower than the number of senior executives at other companies of similar size.

Currently, the Company's compensation program consists of salary, annual cash performance bonus, and long-term incentive opportunities in the form of stock options. The compensation program is focused both on short-term and long-term performance of the Company, rewarding achievement of profitability and growth in stockholder value.

Salary -- Each year the Compensation Committee establishes the salary for all executive officers. Salaries are set at the discretion of the Compensation Committee and are not specifically related to any performance criteria, as are both the cash performance bonus and stock option portions of the compensation program discussed below. The Compensation Committee does, however, base any increase in salary on a regression analysis of salaries paid versus total revenues for the comparison group. For fiscal 2002, the salaries set by the Compensation Committee were below the target salaries produced by this analysis.

Cash Performance Bonus -- Cash performance bonuses may be paid annually to senior management. If a bonus is paid, however, the Company must have income before federal and state income taxes ("pre-tax income") for the year. The Compensation Committee, within ninety (90) days after the start of a fiscal year, identifies the individuals in senior management eligible to receive a cash performance bonus. Bonuses are paid at the end of a fiscal year from a bonus pool, which is equal to one and one-half percent (1-1/2%) of the pre-tax income plus three and one-half (3-1/2%) of the increase in pre-tax income over the prior fiscal year. The Compensation Committee designates the individuals eligible to participate in the cash performance bonus program and also designates the percent of the bonus pool each individual will be entitled to receive. The Compensation Committee retains at all times the authority to adjust downward the amount of bonus any individual receives pursuant to the above-described formula. For fiscal 2002, the Company experienced a pre-tax income of \$99,530,000 and an increase in pre-tax income of \$99,530,000.

The Compensation Committee decided to adjust downward by approximately \$2,055,052 the amount of bonus that named executive officers would receive for fiscal 2002.

Stock Options -- Stock option grants under the Company's 2000 Incentive and Non-Qualified Stock Option Plan are utilized by the Company for long-term incentive compensation for executive officers. These options relate their compensation directly to the performance of the Company's stock. The exercise price of a stock option granted is one hundred percent (100%) of the fair market value of the shares underlying such option at the time of grant and have value to the executive officers only if the Company's stock price increases. The options are exercisable on or after May 14, 2002. When making option grants, the Stock Option Committee and the Compensation Committee do not consider the number of options already held by an executive officer.

As discussed in previous Compensation Committee Reports, the Omnibus Budget Reconciliation Act of 1986 prohibits public corporations from deducting as a business expense that portion of compensation exceeding \$1 million for a named executive officer in the Summary Compensation Table. This deduction limit applies only to "performance-based compensation." The Compensation Committee believes that the necessary steps to ensure that the cash performance bonus portions of the Company's compensation program qualify as performance-based compensation are being taken.

Chief Executive Officer

Edgar Filing: DILLARDS INC - Form DEF 14A

In setting the Chief Executive Officer's compensation, the Compensation Committee makes the same regard to salary, cash performance bonus and stock options as discussed above for the other officers. For fiscal 2002, the increase in the Chief Executive Officer's salary over the resulted in a salary lower than the target salary produced by the regression analysis discussed a

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and persons who own more than 10% of the Company's Class A Common Stock, to file with the Securities Commission and the New York Stock Exchange initial reports of ownership and reports of changes in stock of the Company.

To the Company's knowledge, based solely on a review of copies of reports provided by such Company and written representations of such individuals that no other reports were required, during the period ended February 1, 2003, all Section 16(a) filing requirements applicable to its officers, directors and more than 10% beneficial owners were complied with.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board of Directors. Each member of the Audit Committee is independent as defined under the listing standards of the New York Stock Exchange.

The Audit Committee has reviewed and discussed the audited financial statements for the period ended February 1, 2003 with management and the independent auditors, Deloitte & Touche LLP. Management advised the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The discussions with Deloitte & Touche LLP included the matters required by Statement of Financial Accounting Standards No. 61, as amended (Communications with Audit Committees). Deloitte & Touche LLP provided the Audit Committee the written disclosures and the letter regarding its independence as required by Independence Board Standard No. 1 (Independence Discussions with Audit Committees). The Audit Committee also

INDEPENDENT PUBLIC ACCOUNTANTS

A representative of Deloitte & Touche LLP, the Company's independent public accountant for fiscal year 2002 and the current year, will be present at the meeting, will have the opportunity to make a statement, and also will be available to respond to appropriate questions.

Audit Fees

Deloitte & Touche LLP billed the Company a total of \$567,106 for professional services for the audit of the Company's annual financial statements for the year ended February 1, 2003, and for a review of the financial statements included in the Company's quarterly reports on Form 10-Q for the year ended February 1, 2003.

Financial Systems Design and Implementation Fees

No fees were paid to Deloitte & Touche LLP for any information technology services described in Rule 2-01(c)(4)(ii)(B) of Regulation S-X during 2002.

All Other Fees

The Company paid Deloitte & Touche LLP an aggregate of \$1,202,157 for all services provided by Deloitte & Touche LLP other than the audit and financial systems design and implementation described above.

The Audit Committee of the Board of Directors has considered whether the provision of services described above under "Financial Systems Design and Implementation Fees" and "All Other Fees" is compatible with maintaining the independence of Deloitte & Touche LLP.

STOCKHOLDER PROPOSAL CONCERNING GLOBAL HUMAN RIGHTS STANDARDS

The New York City Pension Funds, 1 Centre Street, New York, NY 10007, owner of 295,482 shares of Common Stock, Christian Brothers Investment Services, Inc., 90 Park Avenue, 29th Floor, New York, NY 10017, owner of 48,500 shares of Class A Common Stock and Aaron Merle Epstein, 13455 Ventura Boulevard, Sherman Oaks, CA 91423, owner of 185 shares of Class A Common Stock have indicated that they intend to propose the following resolution for action at the meeting:

"Whereas, Dillard's, Inc. currently has extensive overseas operations, and

Whereas, reports of human rights abuses in the overseas subsidiaries and suppliers of some U.S.-based corporations has led to an increased public awareness of the problem of "sweatshop" conditions, and the denial of labor rights in U.S. corporate overseas operations;

Edgar Filing: DILLARDS INC - Form DEF 14A

Whereas, corporate violations of human rights in these overseas operations can lead to negative protests, and a loss of consumer confidence which can have a negative impact on shareholder value, and

Whereas, a number of corporations have implemented independent monitoring programs with respect to religious organizations to strengthen compliance with international human rights norms and supplier factories, and

Whereas, these standards incorporate the conventions of the United Nations' International Labor Organization on workplace human rights which include the following principles:

- 1) All workers have the right to form and join trade unions and to bargain collectively. (ILO Conventions 87 and 98)
- 2) Workers representatives shall not be the subject of discrimination and shall have the right to elect representatives in workplaces necessary to enable them to carry out their representation functions. (ILO Convention 151)
- 3) There shall be no discrimination or intimidation in employment. Equality of opportunity shall be provided regardless of race, color, sex, religion, political opinion, age, national origin, or other distinguishing characteristics. (ILO Convention 100 and 111)
- 4) Employment shall be freely chosen. There shall be no use of force, including bonded or indentured labor. (ILO Conventions 29 and 105)
- 5) There shall be no use of child labor. (ILO Convention 138), and,

Whereas, independent monitoring of corporate adherence to these standards is essential to ensure that the company's commitment to human rights is to be taken seriously if consumer and investor confidence in our company's commitment to human rights is to be maintained.

Therefore, be it resolved that shareholders request that the company commit itself to the highest ethical code of corporate conduct based on the aforementioned ILO human rights standards by its international operations and in its own international production facilities and commit to a program of outside, independent monitoring and compliance with these standards."

THE BOARD OF DIRECTORS FAVORS A VOTE AGAINST THE ADOPTION OF THIS PROPOSAL FOR THE FOLLOWING REASONS:

The Company recognizes the importance, as both an ethical and a business responsibility, of providing assurances that the products it sells are manufactured in accordance with all applicable human rights and welfare of workers around the world are respected.

The Company has always been committed to the highest ethical conduct and strict compliance with the law in all its business dealings, including its relationships with its many suppliers. The Company is deeply concerned about the issues raised in the Proposal and believes it has already adequately addressed such issues as described below.

Products sold at the Company's stores are supplied by independent suppliers who also operate their own retail stores and chains. To a much lesser degree, the Company is also supplied by source agents and buying agents for the Company. The Company does not engage directly in manufacturing.

The Company has previously addressed the concerns raised in the Proposal by implementing the following policies and procedures:

The Company has developed a formal business policy (the "Policy") which focuses on the highest ethical conditions of, and legal compliance by, foreign vendors. The Policy was distributed to all of the Company's foreign vendors to restate and reemphasize the Company's longstanding philosophy that merchandise purchased by the Company will be manufactured with the use of legal labor. In addition, under the Policy the Company reserves the right not to contract with and to terminate contracts with vendors who violate basic human rights.

Edgar Filing: DILLARDS INC - Form DEF 14A

In furtherance of the Policy, the Company's agreements with foreign buying agents (including its buying office) include prohibitions against illegal child labor and other forms of illegal manufacturing, shipping, customs and environmental practices. Under the contract, a buying agent must use its best efforts to ensure that each vendor is in full compliance with any current, applicable law of either the country of manufacture or the United States governing the use of child labor, and/or governing the importation into the United States of merchandise produced or imported, as well as any other similar human rights statute, regulation or law. Buying agents must also implement policies and procedures which the Company implements to ensure that all such statutes, regulations and procedures are followed. If a buying agent discovers a violation of such prohibitions, the buying agent must immediately notify the Company of such violation(s) or evidence of violation(s), so that appropriate action can be taken to rectify such violation(s). Under these agreements, among other things, buying agents are required to periodically inspect factories to ensure compliance with these standards. Additionally, Company employees personally inspect selected factories to verify compliance.

The Company's philosophy also appears in the Company's Purchase Order Terms, Conditions and Instructions, which is the Company's standard form of purchase order and which is applicable to all transactions between the Company and all of its suppliers. The document explicitly requires each supplier to warrant and represent that its merchandise is manufactured in compliance with applicable law, including later adopted, law of either the country of manufacture or the United States governing the use of child labor, prison labor, and/or governing the importation into the United States of merchandise, as well as child labor as well as any other similar human rights statute, regulation or law.

The Company has previously issued a press release announcing its business policy, which contains prohibitions against workplace abuse and also contains the steps taken by the Company to enforce the policy. Furthermore, the Company has furnished a copy of that policy to interested parties and will continue to so provide copies of that policy.

The Company believes that it has already addressed the concerns raised in the Proposed Resolution through its expenditure of valuable time and funds. As the above reflects, the Company is committed to ensuring that its suppliers treat their employees properly.

FOR THE ABOVE REASONS, THE BOARD RECOMMENDS VOTING AGAINST THE PROPOSAL.

INDEXED OPTIONS PROPOSAL

The Trust for the International Brotherhood of Electrical Workers' Pension Benefit Fund, 1125 Fifteenth Street N.W., Washington, D.C. 20005 owner of 3,790 shares of Class A Common Stock have indicated they intend to propose the following resolution for action at the meeting:

"Resolved, that the shareholders of Dillard's (the "Company") request that the Board of Directors adopt an executive compensation policy that all future stock option grants to senior executives shall be performance-based. For the purposes of this resolution, a stock option is performance-based if the option exercise price is linked to an industry peer group stock performance index so that the options have value only if the Company's stock price performance exceeds the peer group performance level."

Statement of Support: As long-term shareholders of the Company, we support executive compensation policies and practices that provide challenging performance objectives and serve to motivate executives to achieve corporate value maximization goals. It is our opinion that stock option grants can and do often provide a performance-based compensation well beyond those merited. It is also our view that stock option grants with performance-based targets often reward executives for stock price increases due solely to a general market rise, rather than to extraordinary company performance.

Indexed stock options are one type of option whose exercise price moves with an appropriate index composed of a company's primary competitors. The resolution requests that the Company's Board of Directors consider senior executive stock option plans link the options exercise price to an industry performance

Edgar Filing: DILLARDS INC - Form DEF 14A

with a peer group of companies selected by the Board, such as those companies used in the statement to compare 5 year price performance.

Implementing an indexed stock option plan would mean that our Company's participating executive payouts only if the Company's stock price performance was better than that of the peer group average exercise price to a market index, indexed options reward participating executives for competition. Indexed options would have value when our Company's stock price rises in excess average or declines less than its peer group average stock price decline. By downwardly adjusting price of the option during a downturn in the industry, indexed options remove pressure to re-price. In short, superior performance would be rewarded.

At present, stock options granted by the Company are not indexed to peer group performance standards. As stock owners, we feel strongly that our Company would benefit from the implementation of a stock option plan that rewarded superior long-term corporate performance. We urge your support for this important governance proposal.

THE BOARD OF DIRECTORS FAVORS A VOTE AGAINST THE ADOPTION OF THIS PROPOSAL FOR THE FOLLOWING REASONS:

The Board believes that adopting a compensation policy that requires the Company to grant stock options under conditions such as those contained in the shareholder proposal is inconsistent with competitive industry practices and, therefore, could place the Company at a substantial disadvantage in recruiting and retaining top talented executives.

In addition, indexing options in the manner set forth in the proposal -- disconnecting the value of the options from increases or decreases in the Company's stock price -- could undermine the entire incentive purpose of the stock options. For example, the Company's stock price could decrease, but less so than the contemplated peer group, which would cause the Company's executives' options to have value and confer an economic benefit on the executives even though the shareholders would suffer a loss. This clearly is not a result that aligns the interests of the Company's executives with those of its shareholders, but instead disjoins those interests.

In addition to introducing potential competitive disadvantages and disjoining incentive from shareholder value, implementing the shareholder proposal would have negative financial consequences for the Company and its shareholders. Internal Revenue Code Section 162(m) limits the deductibility of compensation over \$1 million paid to certain executives. Specific performance-based compensation meeting IRS requirements is excluded from the calculation to determine whether the \$1 million cap has been exceeded. If the exercise price of a stock option is less than the fair market value of the stock on the date of grant of the option, all compensation arising from the exercise would fail to qualify as performance-based compensation and would be includable as compensation subject to the \$1 million limit on deductibility. The shareholder proposal thereby potentially increases the Company's tax expense, to the ultimate disadvantage of shareholders.

Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and Financial Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation," provide the accounting and financial reporting guidance relative to the exercise of stock options. Assuming the exercise price of the senior executives' stock options were indexed to the share price under the shareholder proposal, the stock option plan would be treated as a variable plan and compensation would be measured, for all individuals who received grants under the plan, at each reporting period when an option is exercised. Because the Company applies APB No. 25 to the compensation expense recorded on the financial statement, the calculation would be based on the intrinsic value method, the difference between the exercise price and the exercise price of the stock at the reporting date. This accounting treatment could reduce the Company's operating results if the Company's operating results outperform the industry peer group index, such that if the stock price declines and the exercise price does not fluctuate the difference would cause additional compensation expense to be recorded in future periods.

Moreover, the Compensation Committee--which is comprised of independent directors--has implemented various measures to make sure that compensation provides executives with the appropriate incentives.

Edgar Filing: DILLARDS INC - Form DEF 14A

protecting shareholders. In fact, options granted under the Company's current incentive plan are performance-based compensation: because an option's exercise price is equal to the fair market value underlying the option on the date of grant, executives receive an economic benefit from stock option grants if the stock price increases subsequent to a grant. As such, stock option grants under the incentive plan motivate executives to maximize long-term corporate value and directly link executives' interests with those of the shareholders.

In summary, the Board believes that implementation of the shareholder proposal could have significant competitive and financial consequences and could undermine the incentive purpose of stock option grants to the detriment of the Company and its shareholders. The Board believes the right balance is currently achieved in the granting of stock options to executives under the incentive plan.

FOR THE ABOVE REASONS, THE BOARD RECOMMENDS VOTING AGAINST THE PROPOSAL.
