SCHEDULE 13G - TO BE INCLUDED IN
STATEMENTS
FILED PURSUANT TO RULE 13d-1(b) or 13d-2(b)

Item 1(a). Name of Issuer:

Allstate Corporation

Item 1(b). Name of Issuer's Principal Executive Offices:

2775 Sanders Road
Northbrook, IL 60062

Item 2(a). Name of Person Filing:

FMR Corp.

Item 2(b). Address or Principal Business Office or, if None, Residence:

82 Devonshire Street, Boston, Massachusetts 02109

Item 2(c). Citizenship:

Not applicable

Item 2(d). Title of Class of Securities:

Common Stock

Item 2(e). CUSIP Number:

020002101

Item 3. This statement is filed pursuant to Rule 13d-1(b) or 13d-2(b) and the person filing, FMR Corp., is a parent holding company in accordance with Section 240.13d-1(b)(ii)(G). (Note: See Item 7).

Item 4. Ownership

(a) Amount Beneficially Owned: 34,049,913

(b) Percent of Class: 4.840%

(c) Number of shares as to which such person has:

(i) sole power to vote or to direct the vote: 4,390,615

(ii) shared power to vote or to direct the vote: 0

(iii) sole power to dispose or to direct the disposition of: 34,049,913

(iv) shared power to dispose or to direct the disposition of: 0

Item 5. Ownership of Five Percent or Less of a Class.

If this statement is being filed to report the fact that as of the date hereof, the reporting person has ceased to be the beneficial owner of more than five percent of the class of securities, check the following (X).

Item 6. Ownership of More than Five Percent on Behalf of Another

Person.

Not applicable

Item 7. Identification and Classification of the Subsidiary Which Acquired the Security Being Reported on By the Parent Holding Company.

See attached Exhibit(s) A, B, and C.

Item 8. Identification and Classification of Members of the Group.

Not Applicable. See attached Exhibit A.

Item 9. Notice of Dissolution of Group.

Not applicable.

Item 10. Certification.

Inasmuch as the reporting persons are no longer the beneficial owners of more than five percent of the number of shares outstanding, the reporting persons have no further reporting obligation under Section 13(d) of the Securities and Exchange Commission thereunder, and the reporting persons have no obligation to amend this Statement if any material change occurs in the facts set forth herein.

Signature

After reasonable inquiry and to the best of my knowledge and belief, I certify that the information set forth in this Schedule 13G in connection with FMR Corp.'s beneficial ownership of the Common Stock of Allstate Corporation at December 31, 2003 is true, complete and correct.

SCHEDULE 13G - TO BE INCLUDED IN STATEMENTS
FILED PURSUANT TO RULE 13d-1(b) or 13d-2(b)

Pursuant to the instructions in Item 7 of Schedule 13G, Fidelity Management & Research Company ("Fidelity"), 82 Devonshire Street, Boston, Massachusetts 02109, a wholly-owned subsidiary of FMR Corp. and an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, is the beneficial owner of

29,528,988 shares or 4.197% of the Common Stock outstanding of Allstate Corporation ("the Company") as a result of acting as investment adviser to various investment companies registered under Section 8 of the Investment Company Act of 1940.

Edward C. Johnson 3d, FMR Corp., through its control of Fidelity, and the funds each has sole power to dispose of the 29,528,988 shares owned by the Funds.

Neither FMR Corp. nor Edward C. Johnson 3d, Chairman of FMR Corp., has the sole power to vote or direct the voting of the shares owned directly by the Fidelity Funds, which power resides with the Funds' Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the Funds' Boards of Trustees.

Fidelity Management Trust Company, 82 Devonshire Street, Boston, Massachusetts 02109, a wholly-owned subsidiary of FMR Corp. and a bank as defined in Section 3(a)(6) of the Securities Exchange Act of 1934, is the beneficial owner of 2,600,697 shares or 0.370% of the Common Stock outstanding of the Company as a result of its serving as investment manager of the institutional account(s).

Edward C. Johnson 3d and FMR Corp., through its control of Fidelity Management Trust Company, each has sole dispositive power over 2,600,697 shares and sole power to vote or to direct the voting of 2,442,797 shares, and no power to vote or to direct the voting of 157,900 shares of Common Stock owned by the institutional account(s) as reported above.

Strategic Advisers, Inc., 82 Devonshire Street, Boston, MA 02109, a wholly-owned subsidiary of FMR Corp. and an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, provides investment advisory services to individuals. As such, FMR Corp.'s beneficial ownership includes 16,033 shares, or 0.002%, of the Common Stock stock outstanding of Allstate Corporation, beneficially owned through Strategic Advisers, Inc.

Members of the Edward C. Johnson 3d family are the predominant owners of Class B shares of common stock of FMR Corp., representing approximately 49% of the voting power of FMR Corp. Mr. Johnson 3d owns 12.0% and Abigail Johnson owns 24.5% of the aggregate outstanding voting stock of FMR Corp. Mr. Johnson 3d is Chairman of FMR Corp. and Abigail P. Johnson is a Director of FMR Corp. The Johnson family group and all other Class B shareholders have entered into a shareholders' voting agreement under which all Class B shares will be voted in accordance with the majority vote of Class B shares. Accordingly, through their ownership of voting common stock and the execution of the shareholders' voting agreement, members of the Johnson family may be deemed, under the Investment Company Act of 1940, to form a controlling group with respect to FMR Corp.

Fidelity International Limited, Pembroke Hall, 42 Crowlane, Hamilton, Bermuda, and various foreign-based subsidiaries provide investment advisory and management services to a number of non-U.S. investment companies (the "International Funds") and certain institutional investors. Fidelity International Limited is the beneficial owner of 1,904,195 shares or 0.271% of the Common Stock outstanding of the Company. Additional information with respect to the beneficial ownership of Fidelity International Limited is shown on Exhibit B.

SCHEDULE 13G - TO BE INCLUDED IN STATEMENTS
FILED PURSUANT TO RULE 13d-1(b) or 13d-2(b)

Pursuant to instructions in Item 7 of Schedule 13G, this Exhibit has been prepared to identify Fidelity International Limited, Pembroke Hall, 42 Crow Lane, Hamilton, Bermuda, a Bermudan joint stock company incorporated for an unlimited duration by private act of the Bermuda Legislature (FIL) and an investment adviser to various investment companies (the "International Funds") and certain institutional investors, as a beneficial owner of the 1,904,195 shares or 0.271% of the Common Stock outstanding of Allstate Corporation.

Prior to June 30, 1980, FIL was a majority-owned subsidiary of Fidelity Management & Research Company (Fidelity), a wholly-owned subsidiary of FMR Corp. On that date, the shares of FIL held by Fidelity were distributed, as a dividend, to the shareholders of FMR Corp. FIL currently operates as an entity independent of FMR Corp. and Fidelity. The International Funds and FIL's other clients, with the exception of Fidelity and an affiliated company of Fidelity, are non-U.S. entities.

A partnership controlled by Edward C. Johnson 3d and members of his family owns shares of FIL voting stock with the right to cast approximately 39.89% of the total votes which may be cast by all holders of FIL voting stock. Mr. Johnson 3d is Chairman of FMR Corp. and FIL. FMR Corp. and FIL are separate and independent corporate entities, and their Boards of Directors are generally composed of different individuals. Other than when one serves as a sub adviser to the other, their investment decisions are made independently, and their clients are generally different organizations.

FMR Corp. and FIL are of the view that they are not acting as a "group" for purposes of Section 13(d) under the Securities Exchange Act of 1934 (the "1934" Act) and that they are not otherwise required to attribute to each other the "beneficial ownership" of securities "beneficially owned" by the other corporation within the meaning of Rule 13d-3 promulgated under the 1934 Act. Therefore, they are of the view that the shares held by the other corporation need not be aggregated for purposes of Section 13(d). However, FMR Corp. is making this filing on a voluntary basis as if all of the shares are beneficially owned by FMR Corp. and FIL on a joint basis.

FIL may continue to have the International Funds or other accounts purchase shares subject to a number of factors, including, among others, the availability of shares for sale at what FIL considers to be reasonable prices and other investment opportunities that may be available to the International Funds.

FIL intends to review continuously the equity position of the International Funds and other accounts in the Company. Depending upon its future evaluations of the business and prospects of the Company and upon other developments, including, but not limited to, general economic and business conditions and money market and stock market conditions, FIL may determine to cease making additional purchases of shares or to increase or decrease the equity interest in the Company by acquiring additional shares, or by disposing of all or a portion of the shares.

FIL does not have a present plan or proposal which relates to or would result in (i) an extraordinary corporate transaction, such as a merger, reorganization, liquidation, or sale or transfer of a material amount of assets involving the Company or any of its subsidiaries, (ii) any change in the Company's present Board of Directors or management, (iii) any material changes in the Company's present capitalization or dividend policy or any other material change in the Company's business or corporate structure, (iv) any change in the Company's charter or by-laws, or (v) the Company's common stock becoming eligible for termination of its registration pursuant to Section 12(g)(4) of the 1934 Act.

FIL has sole power to vote and the sole power to dispose of 1,904,195 shares.

SCHEDULE 13G - TO BE INCLUDED IN STATEMENTS
FILED PURSUANT TO RULE 13d-1(b) or 13d-2(b)
RULE 13d-1(f)(1) AGREEMENT

The undersigned persons, on February 16, 2004, agree and consent to the joint filing on their behalf of this Schedule 13G in connection with their beneficial ownership of the Common Stock of Allstate Corporation at December 31, 2003.

Table of Contents

XSUNX, INC.
NOTES TO THE CONDENSED FINANCIAL STATEMENTS – UNAUDITED
DECEMBER 31, 2015

1. Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2015 are not necessarily indicative of the results that may be expected for the year ended September 30, 2016. For further information refer to the financial statements and footnotes thereto included in the Company's Form 10-K for the year ended September 30, 2015.

Going Concern
The accompanying financial statements have been prepared on a going concern basis of accounting, which contemplates continuity of operations, realization of assets and liabilities and commitments in the normal course of business. The accompanying financial statements do not reflect any adjustments that might result if the Company is unable to continue as a going concern. The Company does not generate significant revenue, and has negative cash flows from operations, which raise substantial doubt about the Company’s ability to continue as a going concern. The ability of the Company to continue as a going concern and appropriateness of using the going concern basis is dependent upon, among other things, additional cash infusion. The Company has obtained funds from its shareholders since its inception through the year ended September 30, 2015. Management believes the existing shareholders and the prospective new investors will provide the additional cash needed to meet the Company’s obligations as they become due, and will allow the development of its business development efforts in the solar PV industry.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of XsunX, Inc. is presented to assist in understanding the Company’s financial statements. The financial statements and notes are representations of the Company’s management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements. Significant estimates made in preparing these financial statements include the estimate of useful lives of property and equipment, the deferred tax valuation allowance, and the fair value of stock options. Actual results could differ from those estimates.

Cash and Cash Equivalents
For purposes of the statements of cash flows, cash and cash equivalents include cash in banks and money markets with an original maturity of three months or less.

Revenue Recognition
Revenue and related costs on construction contracts are recognized using the “percentage of completion method” of accounting in accordance with ASC 605-35, Accounting for Performance of Construction-Type and Certain

Production Type Contracts (“ASC 605-35”). Under this method, contract revenues and related expenses are recognized over the performance period of the contract in direct proportion to the costs incurred as a percentage of total estimated costs for the entirety of the contract, after the contract reaches 10% completion. No revenue is recognized until the percentage of completion reaches 10%. Costs include all direct materials, subcontractor costs, direct labor and those indirect costs related to contract performance, such as indirect labor, supplies, project planning and preparation, tools and repairs. All un-allocable indirect costs and corporate general and administrative costs are charged to the periods as incurred. However, in the event a loss on a contract is foreseen, the Company will recognize the loss as it is determined.

Revisions in cost and profit estimates during the course of the contract are reflected in the accounting period in which the facts, which require the revision, become known. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, estimated profitability, and final contract settlements may result in revisions to costs and income, and are recognized in the period in which the revisions are determined.

The Asset, “Costs and estimated earnings in excess of billings” represents revenues recognized in excess of amounts billed on contracts in progress. The Liability, “Billings in excess of costs and estimated earnings”, represents billings in excess of revenues recognized on contracts in progress. At December 31, 2015, the cost in excess of billings balance was $8,804 and billing in excess of costs was $38,227.

Table of Contents

XSUNX, INC.
NOTES TO THE CONDENSED FINANCIAL STATEMENTS – UNAUDITED
DECEMBER 31, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contract receivables are recorded on contracts for amounts currently due based upon progress billings, as well as any retentions, which are collectible upon completion of the contracts. Accounts payable to material suppliers and subcontractors are recorded for amounts currently due based upon work completed or materials received, as are retention due subcontractors, which are payable upon completion of the contract. General and administrative expenses are charged to operations as incurred and are not allocated to contract costs.

Project Warranties
Customers in our target market of California who purchase solar energy systems are covered by a warranty of up to 10 years in duration for material defects and workmanship. In addition, we provide a pass-through of the major components such as module mounting, inverter and solar panel manufacturers' warranties to our customers, which generally range from 10 to 25 years. The Company has a limited history of project installations and will access potential warranty costs, and other allowances, based on our experience in servicing warranty claims as they may arise in the future. During the three months ended December 31, 2015 the Company did not experience costs related to warranty claims.

Stock-Based Compensation
Share-based Payment applies to transactions in which an entity exchanges its equity instruments for goods or services and also applies to liabilities an entity may incur for goods or services that are to follow a fair value of those equity instruments. We are required to follow a fair value approach using an option-pricing model, such as the Black Scholes option valuation model, at the date of a stock option grant. The deferred compensation calculated under the fair value method would then be amortized over the respective vesting period of the stock option. This has not had a material impact on our results of operations.

Basic and Diluted Net Income (Loss) per Share Calculations
Income (Loss) per Share dictates the calculation of basic earnings per share and diluted earnings per share. Basic earnings per share are computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. The shares for employee options, and convertible notes were used in the calculation of the income per share.

Fair Value of Financial Instruments
Fair Value of Financial Instruments, requires disclosure of the fair value information, whether or not recognized in the balance sheet, where it is practicable to estimate that value. As of December 31, 2015, the balances reported for cash, prepaid expenses, accounts payable, accrued expenses approximate the fair value because of their short maturities.

We adopted ASC Topic 820 for financial instruments measured as fair value on a recurring basis. ASC Topic 820 defines fair value, established a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Table of Contents

XSUNX, INC.
NOTES TO THE CONDENSED FINANCIAL STATEMENTS – UNAUDITED
DECEMBER 31, 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value of Financial Instruments (Continued)

We measure certain financial instruments at fair value on a recurring basis. Assets and liabilities measured at fair value on a recurring basis are as follows at December 31, 2015:

	Total	(Level 1)	(Level 2)	(Level 3)
Liabilities				
Derivative Liability	$556,410	$-	$-	$556,410
Convertible Promissory Notes, net of discount	281,469	-	-	281,469
Total liabilities measured at fair value	$837,879	$-	$-	$837,879

The following is a reconciliation of the derivative liability for which Level 3 inputs were used in determining the approximate fair value:

Balance as of October 1, 2015	$622,201
Fair value of derivative liabilities issued	13,539
Net Gain on conversion and change in derivative liability	(79,330)
Ending balance as of December 31, 2015	$ 556,410

Recent Accounting Pronouncements
Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying condensed financial statements.

3. CAPITAL STOCK

At September 30, 2015, the Company's authorized stock consisted of 2,000,000,000 shares of common stock, with no par value. The Company is also authorized to issue 50,000,000 shares of preferred stock with a par value of $0.01 per share of which 10,000 shares have been designated as Series A Preferred Stock. The rights, preferences and privileges of the holders of the preferred stock are determined by the Board of Directors prior to issuance of such shares.

During the three months ended December 31, 2015, the Company did not issue common stock.

4. STOCK OPTIONS

On May 20, 2014, the Company adopted the 2014 XSUNX, Inc. Stock Option and Award Plan (the "Plan") to enable the Company to obtain and retain the services of the types of Employees, Consultants and Directors who will contribute to the Company's long range success and to provide incentives which are linked directly to increases in share value which will inure to the benefit of all stockholders of the Company. The 2007 Stock Option Plan is superseded by the newly adopted 2014 XSUNX, Inc. Stock Option and Award Plan. Options granted under the Plan may be either Incentive Options or Nonqualified Options and shall be administered by the Company's Board of

Directors ("Board"). Each Option shall be exercisable to the nearest whole share, in installments or otherwise, as the respective Option agreements may provide. Notwithstanding any other provision of the Plan or of any Option agreement, each Option shall expire on the date specified in the Option agreement.

Granted	-		-
Exercised	-		-
Expired	-		-
Outstanding, end of the period	4,500,000	$	0.024
Exercisable at the end of the period	4,500,000	$	0.024
Weighted average fair value of options granted during the period		$	-

The weighted average remaining contractual life of options outstanding issued under the plan as of December 31, 2015 was as follows:

	Exercisable Prices	Stock Options Outstanding	Stock Options Exercisable	Weighted Average Remaining Contractual Life (years)
$	0.014	3,000,000	3,000,000	0.22 years
$	0.045	1,500,000	1,500,000	1.03 years
		4,500,000	4,500,000	

We account for stock-based payment award forfeitures as they occur. The Company did not recognized stock-based compensation expense in the statement of operations during the three months ended December 31, 2015.

5. CONVERTIBLE PROMISSORY NOTES

On September 30, 2014, the amended note dated September 30, 2013 expired. On October 1, 2014, the Company and the Holder of the note entered into an extension of the note on October 1, 2014. The remaining principal balance of $203,496, plus interest of $26,758 and a commitment fee of $22,081 was combined in the extended new note for a balance of $252,335 as of October 1, 2014. No additional cash consideration was provided or exchanged. The maturity date of the note was extended to September 30, 2015. On October 20, 2015, the Company entered into a third extension of the note with mandatory payments of $10,000 per month beginning November 1, 2015 until the note in the amount of $143,033 is paid in full. The note bears interest at 10% annum, and a conversion price of 60% of the lowest volume weighted average price ("VWAP") occurring during the twenty trading days preceding any conversion date by Holder. The balance of the provisions remained substantially the same. During the period the Company paid $20,000 of the principal balance, leaving a remaining balance of $123,033.

On November 20, 2014, the Company issued a 10% unsecured convertible promissory note (the "Note") for the principal sum of up to $400,000 plus accrued interest on any advanced principal funds. The Note matures eighteen months from each advance. The Note may be converted by the lender into shares of common stock of the Company at the lesser of $.0125 per share or fifty percent (50%) of the three lowest trade prices of three separate trading days recorded in the twenty five (25) trading days prior to the conversion of any outstanding funded principal or accrued interest under the Note. The Company recorded debt discount of $201,066 related to the conversion feature of the notes, along with derivative liabilities at inception. On November 20, 2014, the lender advanced $50,000 to the Company under the Note at inception. On various dates from February 18, 2015 through October 27, 2015, the lender advanced an additional $235,000 under the Note. As of December 31, 2015, there remains an aggregate outstanding principal balance of $235,000. During the three months ended December 31, 2015, the Company recognized debt amortization as interest expense in the amount of $21,557.

XSUNX, INC.
NOTES TO THE CONDENSED FINANCIAL STATEMENTS – UNAUDITED
DECEMBER 31, 2015

5. CONVERTIBLE PROMISSORY NOTES (Continued)

Issuance of Convertible Promissory Notes for Services to Related Party
As of December 31, 2015, there remained one unsecured Convertible Promissory Note (the "Note") in the amount of $12,000 to a Board member (the "Holder") issued in exchange for retention as a director during the fiscal year ending September 30, 2014. The Note can be converted into shares of common stock by the Holder for $0.0045 per share. The Note matured on October 1, 2015, and bore a one-time interest charge of $1,200 which was applied to the principal on October 1, 2014. So long as any shares issuable under a conversion are subject to transfer and sale restrictions imposed pursuant to SEC Rule 144 of the Rules promulgated under the Securities Act of 1933, the Company shall, upon written request by Holder, file Form S-8, if applicable, with the U.S. Securities and Exchange commission to register the issued.

For purpose of determining the fair market value of the derivative liability for the embedded conversion, the Company used Black Scholes option valuation model. The significant assumptions used in the Black Scholes valuation of the derivative are as follows:

Risk free interest rate	Between 0.10% and 1.06%
Stock volatility factor	Between 71.53% and 256.58%
Months to Maturity	6 months to 2 years
Expected dividend yield	None

At December 31, 2015, the fair value of the derivative liability was $556,410.

6. NOTE PAYABLE-RELATED PARTY

On August 5, 2014 the Company issued a 10% unsecured promissory note (the "Note") to a related party in the aggregate principal amount of up to $80,000 plus accrued interest on any advanced principal funds. During the period ended December 31, 2015, the Company received advances in the aggregate of $10,000. The principal use of the proceeds from any advance under the Note are intended to assist in the purchase of materials, and services for the solar PV systems that we sell and install. Consideration advanced under the Note matures three months from each advance. The balance as of December 31, 2015 was $10,000.

7. SUBSEQUENT EVENTS

Management has evaluated subsequent events as of the financial statement date according to the requirements of ASC TOPIC 855 and has determined there are no events to be reported.

On February 4, 2016, the Company received an advance in the amount of $25,000 under a 10% unsecured promissory note (the "Note") issued on August 5, 2014 for the principal sum of up to principal amount of up to $80,000 to a related party. The principal use of proceeds from any advance under the Note are intended to assist in the purchase of materials and services in advance of receiving payment for the commercial solar PV systems that we sell and install.

On January 18, 2016 (the "Resignation Date") due to having been acquired by Haynie & Company HJ Associates & Consultants, LLP resigned as the independent registered public accounting firm for XsunX, Inc. (the "Company"). Effective as of January 25, 2016, the board of directors of the Registrant unanimously approved the engagement of

Haynie & Company, Salt Lake City, Utah, ("HC") as its principal independent registered public accounting firm to audit the Registrant's financial statements. The Registrant did not consult HC on any matters described in Item 304(a)(2) of Regulation S-K during the Registrant's two (2) most recent fiscal years or any subsequent interim period prior to engaging HC.

On February 11, 2016, the Company authorized the issuance of 9,641,697 shares of common stock upon the conversion of $18,000 of principal, and $1,765 of accrued interest to the holder of a 10% convertible note originally issued November 20, 2014. The securities above were offered and sold pursuant to an exemption from the registration requirements under Section 4(a) 2 of the Securities Act since among other things the transactions did not involve a public offering.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

CAUTIONARY AND FORWARD LOOKING STATEMENTS

In addition to statements of historical fact, this Quarterly Report on Form 10-Q contains forward-looking statements. The presentation of future aspects of XsunX, Inc. ("XsunX", the "Company" or "issuer") found in these statements is subject to a number of risks and uncertainties that could cause actual results to differ materially from those reflected in such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. Without limiting the generality of the foregoing, words such as "may", "will", "expect", "believe", "anticipate", "intend", or "could" or the negative variations thereof or comparable terminology are intended to identify forward-looking statements. Our actual results could differ materially from those anticipated by these forward-looking statements as a result of many factors, including those discussed under “Item 1A: Risk Factors” in the Company’s Annual Report on Form 10- K.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause XsunX's actual results to be materially different from any future results expressed or implied by XsunX in those statements. Important facts that could prevent XsunX from achieving any stated goals include, but are not limited to, the following:

Some of these risks might include, but are not limited to, the following:

(a) volatility or decline of the Company's stock price;

(b) potential fluctuation in quarterly results;

(c) failure of the Company to earn revenues or profits;

(d) inadequate capital to continue or expand its business, inability to raise additional capital or financing to implement its business plans;

(e) failure to commercialize its technology or to make sales;

(f) rapid and significant changes in markets;

(g) litigation with or legal claims and allegations by outside parties;

(h) insufficient revenues to cover operating costs.

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services. The Company may not be able to attract or retain qualified executives and technology personnel, the Company's products and services may become obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of warrants and stock options, and other risks inherent in the Company's businesses.

The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the factors described in other documents the Company files from time to time with the Securities and Exchange Commission, including the Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K filed by the Company and any Current Reports on Form 8-K filed by the Company.

Management believes the summary data presented herein is a fair presentation of the Company's results of operations for the periods presented. Due to the Company's change in primary business focus and new business opportunities these historical results may not necessarily be indicative of results to be expected for any future period. As such, future results of the Company may differ significantly from previous periods.

Business Overview

XsunX specializes in the sale, design, and installation of solar photovoltaic power generation (PV), and energy saving technologies that provide our clients long term savings, predictability, and control of their energy costs. Our background and experience spans virtually all aspects of solar including technology assessment, design, and development.

11

Table of Contents

The Company has developed a highly skilled team of qualified engineering and specialty contractors with extensive commercial and residential solar experience necessary to service the diverse conditions that can be encountered in the design and installation of PV, and energy saving technologies. The company couples this superior design and delivery capability with factory direct pricing, and zero down financing options to provide our clients with energy saving solutions that can quickly pay for themselves.

Our business development objectives are to capitalize on the demand within the California commercial and residential markets for the installation of solar electric power systems. The demand, underscored in a 2015 market data report from the U.S. Solar Energy Industries Association (SEIA) indicates $11.7 billion dollars was invested into PV system installations in California in 2014 representing a 66% increase over the previous year, and nationally capacity is forecasted to double through the addition of roughly 20,000 megawatts (MW) in the 2015-16 period with California leading the way. Helping to drive these significant solar adoption numbers are continued cost reductions, coupled with government tax and investment incentives providing significant investment incentives for consumers whom we market to in efforts to make sales.

We have historically focused our operations toward commercial rooftop solar power sales. In the second half of 2015 period we began to expand our marketing efforts to include residential sales, however an area in which we believe we can establish distinct marketing and sales advantages is through the sale and delivery of commercial solar carport systems.

While we believe that the commercial and residential rooftop solar will continue to offer sales growth opportunities, non-residential solar carport systems can, in many instances, provide us the opportunity to offer customers larger project sizing, greater electricity savings, and the ability to differentiate XsunX from competitors.

In the 2015 period we established the capabilities to design, directly source all of the major system components, and deliver solar carport systems allowing us to eliminate reliance on costly third party specialty subcontractors whom we believe the majority of our competitors rely on. This has allowed us to reduce our carport structure installation costs by approximate 35%, and the overall PV system cost by approximately 15% which, we believe, provides us with a distinct pricing advantage for solar carports within the greater Southern California markets that we serve.

Market for Solar Power

We believe that a significant demand for our solar power energy solutions is developing, in part, as a result of following propositions:

- We provide the ability to control and predict future energy costs. Our customers invest in the ability to self-generate power to offset and/or eliminate the purchase of third party utility provided electric energy. These investments provide predictability and control of energy costs, and can significantly reduce overall energy costs while insulating clients from rising retail electricity prices.

- Maturity and dependability of solar technologies. The results and benefits from investments in solar power systems have begun to produce long term statistical data. This historical performance data allows investment benefits for near and long term future operations to be accurately estimated. This provides customers greater reliance on future results, and the confidence to make investments.

- Rapid capital recovery of solar investments. Reports provided by U.S. Energy Department indicate that the installed price reductions for solar PV systems are driving record installation demand. These cost reductions for the major components that make up PV systems allow us to provide per watt pricing that, coupled with tax and operating benefits, can often result in capital investment recovery within 3 to 4 years.

Our Approach

We provide customers with a turn-key suite of services and products. Our customer relationship development begins with a financial analysis providing detailed estimated investment benefits and results over the first twenty five years of a solar power systems life span. Through this process we tailor our system designs to maximize the financial benefits and returns for each customer. Our strategy is to develop and deliver systems that can provide the client with the greatest benefits. We then focus on 100% customer satisfaction by consistently matching customer expectations with our performance, and the delivery of our systems.

The key elements of our approach include:

- Lead Generation. We market our services utilizing efforts that include wide area advertising in regional newspapers, door-to-door canvasing, list generation and target marketing, and customer referrals. Our sales development efforts work with prospective customers from initial interest through tailored proposals and, ultimately, signed contracts. We plan to grow our sales efforts and team while continually reviewing market trends, and the adoption of new approaches to engage more customers.

Table of Contents

- Detailed Investment Analysis. We use information related to our customer's energy usage, costs, planned operations, and tax basis to determine optimal solar system and investment sizing. We combine this data and provide customers with 25 year investment projections that detail capital recovery expectations, system performance and energy savings, tax and operating benefits, and property re-sale value improvement estimates.

- Financing. We have established relationships with lenders and have been approved to offer their finance options to prospective customers. Through our lender association network we offer customers financing options that include commercial equipment loans, lease options, power purchase agreements (PPA's), PACE & HERO financing through property tax assessment, and we offer clients the option to apply utility incentives towards system purchase buy-downs thereby reducing up front out of pocket expenditures or the amount of capital financed.

- Design & Engineering. To ensure accuracy we perform our site surveys directly and do not rely on third party services. We then finalize designs that will match proposed financial results, and work with a highly skilled team of qualified engineers with extensive commercial solar experience to ensure compliance with all codes, and best practices for the solar system operation.

- Installation. We make the installation process simple for our customers. Once we complete the design and engineering of a solar energy system, we obtain all necessary building permits. Then, as the general contractor and construction manager, we provide all materials and components and use highly qualified licensed specialty contractors with extensive commercial and solar experience to provide on-site assembly of solar systems, utility interconnections, and roofing or structural work. We manage and ensure local building department approvals, and arrange for interconnection to the power grid with the utility.

- Monitoring, Maintenance, and Service. We provide our customers with real-time facility wide monitoring of both solar energy generation and facility wide energy consumption. In addition to providing clients with a better understanding of their energy usage, and the opportunity to modify their usage to realize savings, these monitoring systems allow us to confirm the continuing proper operation of installed solar energy systems. We also service what we sell and provide customers with a single source for all system maintenance or warranty coordination and service.

Our Customers

Our customers, and key market, are owner occupied commercial facilities. We do not focus on specific industries or business type, but typically we have found manufacturing, storage, warehousing, agricultural, and single story commercial office space facilities offer greater opportunities for the placement of solar systems. While we can offer financing solutions for non-owner occupied facilities the greatest financial benefits can be realized by owner occupied commercial facilities.

We work to identify "best" candidates for our systems and we have found that facilities in excess of 3,000 square feet of roof area, and monthly utility costs in excess of $350 provide the minimum practical entry point for our services. However, "best" candidates typically require a minimum of 29kW (kilowatt) in solar system sizing, and have monthly utility costs in excess of $650. In the 2014 fiscal period we provided proposals for systems ranging in size from 16kW to 1.1MW (megawatt) with 30kW to 100kW providing the largest number of sales opportunities.

The diversity of our customer type presents us with a diverse scope of installation requirements. We routinely encounter installation applications that may require roof mounting, ground or post mounting, carport systems, and custom applications necessary to overcome physical site conditions.

As we work to expand our marketing and customer acquisition efforts we intend to seek sales opportunities for government facilities, and respond to proposal requests for utility scale solar power operations.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED DECEMBER 31, 2015 COMPARED TO THREE MONTHS ENDED DECEMBER 31, 2014.

Revenue and Cost of Sales:

The Company generated revenues in the three months ended December 31, 2015 and 2014 of $203,229 and $243,208 respectively. The decrease in revenue during the three months ended December 31, 2015 was due to the delay in issuance by a local building authority of a permit which resulted in the delay of project progress on contracted sales and billable revenues in the sale of commercial solar PV systems. The costs of goods sold for the three months ended December 31, 2015 and 2014 was $158,721 and $201,052, respectively. The Company to date has had minimal revenue and cost of sales. Management expects to continue to generate revenues, and is working to increase sales as it matures the scope of the Company’s capabilities and brand awareness.

Table of Contents

Selling, General and Administrative Expenses:

Selling, General and Administrative (SG&A) expenses decreased by $9,706 during the three months ended December 31, 2015 to $124,702 as compared to $134,408 for the three months ended December 31, 2014. The decrease in SG&A expenses was related primarily to a decrease in public relations of $7,763, with an overall decrease in other SG&A expenses of $1,943 resulting from the Company's change in business and other expenses during the Company's efforts in marketing and sales of solar PV systems. Management expects SG&A expenses to increase in future periods as the Company continues to expand its marketing, sales, and service efforts.

Other Income/(Expenses):

Other income and (expenses) decreased by $66,723 to $49,576 for the three months ended December 31, 2015, compared to $116,299 for the three months ended December 31, 2014. The decrease was the result of a decrease in interest expense of $3,448 which included an increase in non-cash loss in amortization of debt discount in the amount of $718, with an decrease in non-cash gain on conversion of debt and change of fair value of the derivative instruments of $93,251, a decrease in loss on commitment fees of $22,080, with an increase in gain on sale of asset of $1,000.

Net Income (Loss):

For the three months ended December 31, 2015, our net loss was $(31,423) as compared to a net income of $23,122 for the three months ended December 31, 2014. This increase in net loss primarily stems from the decrease in other income (expenses) associated with the derivative instruments, and an overall decrease in operating expenses, with an increase in gross profit due to an decrease in cost of sales. While management is working to increase sales and revenues as it matures the scope of the Company's capabilities and brand awareness for its commercial solar PV systems, the Company anticipates the trend of losses may continue in future periods until the Company can recognize sales of significance of which there is no assurance.

Liquidity and Capital Resources

We had a working capital deficit at December 31, 2015 of $915,135, as compared to a working capital deficit of $884,516 as of September 30, 2015. The increase of $30,619 in working capital deficit was the result of a decrease in cash, deferred income, derivative liability, and accrued expenses, with an increase in accounts receivable, prepaid expenses, accounts payable, note payable and convertible notes.

Cash flow used by operating activities was $46,413 for the three months ended December 31, 2015, as compared to cash flow used by operating activities of $37,486 for the three months ended December 31, 2014. The increase in cash flow used by operating activities was primarily due to accounts receivable, cost in excess of billing, prepaid expenses, accounts payable, accrued expenses, billing in excess of cost, with an decrease in deferred income .

Cash flow used by investing activities was for the three months ended December 31, 2015 and 2014 were $1,000 and $0, respectively. The net change in investing activities was primarily due to proceeds received of $1,000 from the sale of certain assets in the current period.

Cash provided by financing activities for the three months ended December 31, 2015 was $40,000, as compared to $86,000 for the three months ended December 31, 2014. Our capital needs have primarily been met from the proceeds of private placements, convertible notes, and initial revenues resulting from our change in business operations focused on the sale, design, and installation of Solar Photovoltaic (PV) Systems for commercial and industrial real-estate in in the period.

Our financial statements as of December 31, 2015 have been prepared under the assumption that we will continue as a going concern as of December 31, 2015. Our independent registered public accounting firm has issued their report dated January 8, 2016, that included an explanatory paragraph expressing substantial doubt in our ability to continue as a going concern without additional capital becoming available. Our ability to continue as a going concern ultimately is dependent on our ability to generate a profit which is dependent upon our ability to obtain additional equity or debt financing, attain further operating efficiencies and, ultimately, to achieve profitable operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

For the three months ended December 31, 2015, the Company's capital needs have been met from the use of working capital provided by the proceeds of (i) the Company’s working capital and (ii) the sale of debt proceeds totaling $60,000, and (iii) revenues in the amount of $203,229.

Table of Contents

Short Term

On a short-term basis, while our revenues have begun to develop under our new plan of operations we do not generate revenues sufficient to cover operations at this time. Based on prior history, we may continue to have insufficient revenue to satisfy current and recurring expenses and liabilities. For short term needs we may continue to be dependent on receipt, if any, of offering proceeds and the growth of our revenue.

Capital Resources

We have only common and preferred stock as our capital resources. We have no material commitments for capital expenditures within the next year, however as we work to market and make sales of our commercial solar PV system services, substantial capital may be needed to expand and pay for these activities.

Need for Additional Financing

We do not have capital sufficient to meet our cash needs. We will have to seek loans or equity placements to cover such cash needs. No commitments to provide additional funds have been made by our management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to us to allow it to cover our expenses as they may be incurred.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, result of operations, liquidity or capital expenditures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We do not have any market risk sensitive instruments. Since all operations are in U.S. dollar denominated accounts, we do not have foreign currency risk. Our operating costs are reported in U.S. dollars.

The Company does not invest in term financial products or instruments or derivatives involving risk other than money market accounts, which fluctuate with interest rates at market.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer, principal financial officer, and principal operating officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

As required by SEC Rule 15d-15(e), our management, consisting of our Chief Executive Officer/Principal Accounting Officer carried out an evaluation, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our principal executive officer/ principal accounting officer, concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

Table of Contents

Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control structure and procedures over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f)) under the Exchange Act. The SEC rule making for the Sarbanes-Oxley Act of 2002 Section 404 requires that a company's internal controls over financial reporting be based upon a recognized internal control framework. Our management conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2015 based on the framework set forth in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") that has been modified to more appropriately reflect the current limited operational scope of the Company as a Development Stage company. The Company used the COSO guide - The Internal Control over Financial Reporting - Guidance for Smaller Public Companies to implement the Company's internal control framework. Additionally, the limited scope of operations of the Company means that traditional separation of duties controls are not used by the Company as a result of the limited staffing within the Company. The Company relies on alternative procedures to overcome this non-material control weakness.

Based on that evaluation, our Chief Executive Officer/Principal Accounting Officer concluded that our internal control over financial reporting as of December 31, 2015 was effective. Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

None

Item 1A. Risk Factors

There are no material changes from the risk factors previously disclosed in the Registrant's Form 10-K filed with the Securities and Exchange Commission dated January 8, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mining and Safety Disclosures

None.

Item 5. Other information

Effective October 21, 2015, the Company and the Holder of an Exchange Note with a maturity date of September 30, 2015 entered into a Third Extension and Amendment Agreement ("Agreement"), under which the maturity date was extended 18 months to March 30, 2017 for the remaining principal, interest, and costs totaling $143,033 at the time of the amendment. Under the Agreement the Company agreed to provide monthly payments of $10,000. The balance of terms remained unchanged.

On October 26, 2015 and February 4, 2016, the Company received an advance of $10,000 and $25,000 under a 10% unsecured promissory note (the "Note") issued on August 5, 2014 for the principal sum of up to principal amount of up to $80,000 to a related party. The principal use of proceeds from any advance under the Note are intended to assist in the purchase of materials and services in advance of receiving payment for the commercial solar PV systems that we sell and install.

On October 28, 2015, the Company received an advance in the amount of $50,000 under a 10% unsecured convertible promissory note (the "Note") issued on November 20, 2014 for the principal sum of up to $400,000.

On January 18, 2016 (the "Resignation Date") due to having been acquired by Haynie & Company HJ Associates & Consultants, LLP resigned as the independent registered public accounting firm for XsunX, Inc. (the "Company"). Effective as of January 25, 2016, the board of directors of the Registrant unanimously approved the engagement of Haynie & Company, Salt Lake City, Utah, ("HC") as its principal independent registered public accounting firm to audit the Registrant's financial statements. The Registrant did not consult HC on any matters described in Item 304(a)(2) of Regulation S-K during the Registrant's two (2) most recent fiscal years or any subsequent interim period prior to engaging HC.

On February 11, 2016, the Company authorized the issuance of 9,641,697 shares of common stock upon the conversion of $18,000 of principal, and $1,765 of accrued interest to the holder of a 10% convertible note originally issued November 20, 2014. The securities above were offered and sold pursuant to an exemption from the registration requirements under Section 4(a) 2 of the Securities Act since among other things the transactions did not involve a public offering.
