Item 7.01 Regulation FD Disclosure

The following information is furnished pursuant to Regulation FD.

Emerson 3-Month Orders

(Percentage change versus prior year; trailing 3-month averages, excluding acquisitions and divestitures, including currency translation)

	March '17	April '17	May '17
Automation Solutions	0 to 5	0 to 5	5 to 10
Commercial & Residential Solutions	0 to 5	0 to 5	5 to 10
Total Emerson	0 to 5	0 to 5	5 to 10

May 2017 Orders Comments

Emerson trailing three-month orders increased 8 percent. Underlying orders increased 9 percent excluding unfavorable currency translation of 1 percent.

Automation Solutions orders increased high-single digits. North American oil and gas markets were the primary driver of growth, led by upstream and midstream MRO. Strong turnaround bookings and capital spending by U.S. shale customers has driven upstream, while midstream reflects favorable trends in automation upgrades and infrastructure build-out. Outside of North America, orders were mixed, with growth in Europe and Latin America partially offset by slight decreases in Asia and Middle East/Africa.

Commercial & Residential Solutions orders increased high-single digits reflecting steady demand in North American air conditioning and refrigeration markets. Professional tools in oil and gas and construction related markets remained favorable. Europe and Asia both had strong growth, with broad strength in Asia reflecting steady demand in air conditioning and refrigeration markets as well as continued strong electric heat pump activity in China.
