Eaton Vance Corp.

Report for the Three Months Ended January 31, 2013

Boston, MA, February 20, 2013 Eaton Vance Corp. (NYSE: EV) today reported adjusted earnings per diluted share⁽⁴⁾ of \$0.50 for the first quarter of fiscal 2013, an increase of 6 percent over the \$0.47 of adjusted earnings per diluted share in the first quarter of fiscal 2012 and a decrease of 6 percent from the \$0.53 of adjusted earnings per diluted share in the fourth quarter of fiscal 2012.

As determined under U.S. generally accepted accounting principles (GAAP), the Company earned \$0.38 in the first quarter of fiscal 2013, \$0.40 in the first quarter of fiscal 2012 and \$0.45 in the fourth quarter of fiscal 2012. Adjusted earnings differed from GAAP earnings due to adjustments in connection with increases in the estimated redemption value of non-controlling interests in affiliates redeemable at other than fair value, which reduced GAAP earnings by \$0.09, \$0.07 and \$0.08 per diluted share in the first quarter of fiscal 2013, the first quarter of fiscal 2012 and the fourth quarter of fiscal 2012, respectively. In the first quarter of fiscal 2013, adjusted earnings per diluted share also differed from GAAP earnings per diluted share due to the application of the two-class method of computing earnings per share in connection with the special dividend declared in the first quarter of fiscal 2013, which reduced GAAP earnings per diluted share by \$0.03.

Net inflows of \$5.4 billion into long-term funds and separate accounts in the first quarter of fiscal 2013 compare to net outflows of \$1.1 billion in the first quarter of fiscal 2012 and net inflows of \$2.2 billion in the fourth quarter of fiscal 2012. As shown in Attachment 5, the sharp improvement in net flow results year-over-year reflects strong net inflows into floating-rate income and implementation service mandates and reduced net outflows from equity strategies. The Company's annualized internal growth rate (net inflows into long-term assets divided by beginning of period long-term assets managed) was 11 percent in the first quarter of fiscal 2013.

"The first quarter of fiscal 2013 was a period of growth and investment for Eaton Vance," said Thomas E. Faust Jr., Chairman and Chief Executive Officer. "Strong net flows, the support of rising markets and increased contributions from our strategic initiatives should position us for improved earnings results over coming quarters."

Consolidated assets under management were \$247.8 billion on January 31, 2013, a new all-time high. This represents an increase of 29 percent from managed assets of \$191.7 billion on January 31, 2012 and an increase of 24 percent from the \$199.5 billion of managed assets on October 31,

(1) Although the Company reports its financial results in accordance with GAAP, management believes that certain non-GAAP financial measures, while not a substitute for GAAP financial measures, may be effective indicators of the Company's performance over time. Adjusted net income and adjusted earnings per diluted share reflect the add back of adjustments in connection with changes in the estimated redemption value of non-controlling interests in our affiliates redeemable at other than fair value (non-controlling interest value adjustments), closed-end structuring fees and other items management deems non-recurring or non-operating, such as special dividends. See reconciliation provided in Attachment 2 for more information on adjusting items.

2012. Consolidated assets under management on January 31, 2013 included \$36.3 billion managed by the former Clifton Group Investment Management Company (Clifton), which was acquired by the Company's subsidiary Parametric Portfolio Associates LLC (Parametric) on December 31, 2012.

Consolidated assets under management on January 31, 2013 included \$119.2 billion in long-term funds, \$83.3 billion in institutional separate accounts, \$16.2 billion in high-net-worth separate accounts, \$28.9 billion in retail managed accounts and \$0.2 billion in cash management fund assets. Average consolidated assets under management were \$216.2 billion in the first quarter of fiscal 2013, up 15 percent from \$187.4 billion in the first quarter of fiscal 2012 and up 10 percent from \$196.6 billion in the fourth quarter of fiscal 2012. The sequential increase in ending assets under management in the first quarter of fiscal 2013 primarily reflects the acquisition of \$34.8 billion of assets from Clifton, long-term net inflows of \$5.4 billion and market price appreciation of \$8.2 billion.

As shown in Attachment 6, consolidated gross sales and other inflows were \$19.4 billion in the first quarter of fiscal 2013, up 69 percent from \$11.5 billion in the first quarter of fiscal 2012 and up 35 percent from \$14.4 billion in the fourth quarter of fiscal 2012. Gross redemptions and other outflows were \$14.1 billion in the first quarter of fiscal 2013, up 11 percent from \$12.6 billion in the first quarter of fiscal 2012 and up 15 percent from \$12.3 billion in the fourth quarter of fiscal 2012.

Attachments 5 and 6 summarize the Company's assets under management and asset flows by investment mandate and investment vehicle. Attachment 7 summarizes the Company's assets under management by investment affiliate.

As of January 31, 2013, 49 percent-owned affiliate Hexavest, Inc. (Hexavest) managed \$14.5 billion of client assets, an increase of 20 percent from the \$12.1 billion of managed assets on October 31, 2012. Net inflows into Hexavest-managed funds and separate accounts were \$1.9 billion in the first quarter of fiscal 2013 and have totaled \$2.7 billion since Eaton Vance acquired its interest in Hexavest on August 6, 2012. Attachment 9 summarizes assets under management and asset flow information for Hexavest. Other than Eaton Vance-sponsored funds for which Hexavest is advisor or sub-advisor, the managed assets of Hexavest are not included in Eaton Vance consolidated totals.

First Quarter Fiscal 2013 vs. First Quarter Fiscal 2012

In the first quarter of fiscal 2013, revenue increased 8 percent to \$318.5 million from revenue of \$295.6 million in the first quarter of fiscal 2012. Investment advisory and administrative fees were up 10 percent, reflecting a 15 percent increase in average assets under management and lower average effective fee rates, primarily as a result of the Clifton acquisition. Performance fees contributed \$1.6 million and \$0.3 million to investment advisory and administrative fees in the first quarter of fiscal 2013 and the first quarter of fiscal 2012, respectively. Distribution and service fees were down 2 percent on a combined basis, reflecting lower managed assets in fund share classes that are subject to distribution and service fees.

Expenses increased 7 percent to \$217.8 million in the first quarter of fiscal 2013 from \$202.8 million in the first quarter of fiscal 2012, reflecting increases in compensation, distribution, fund-related and other expenses, offset by lower service fees and reduced amortization of deferred sales commissions. Increases in compensation expense reflect increases in sales- and operating income-based incentives, higher employee headcount and increases in base salaries and benefits, offset by a decrease in stock-based compensation. Gross sales and other inflows, which drive sales-based

incentives, were up 69 percent year-over-year, while pre-bonus adjusted operating income, which drives operating-income based incentives, was up 8 percent over the same period. The decrease in stock-based compensation reflects revised retirement provisions of newly granted employee stock options. The increase in distribution expense reflects an increase in commissions paid on certain Class A share fund sales and marketing support payments made to third-party intermediaries, offset by a decrease in promotional expenses. The increase in fund-related expenses can be attributed to an increase in expenses borne by the Company on funds for which it receives an all-in fee partly offset by lower fund subsidies on start-up funds. Other expenses increased 6 percent from the prior year, as increases in information technology and professional fees were offset by a decrease in facilities-related expenses. The decrease in service fee expense

and amortization of deferred sales commissions largely reflects changes in product mix away from fund share classes to which these expenses apply.

Operating income was up 8 percent to \$100.7 million in the first quarter of fiscal 2013 from \$92.8 million in the first quarter of fiscal 2012.

Non-operating expense was \$5.8 million in the first quarter of fiscal 2013 compared to net non-operating income of \$5.7 million in the first quarter of fiscal 2012. The decrease in non-operating income (expense) reflects an \$8.5 million decrease in gains and other investment income recognized by the Company's consolidated collateralized loan obligation entity (CLO) and a \$3.0 million decrease in gains and other investment income earned on the Company's investments in sponsored products.

The Company's effective tax rate, calculated as a percentage of income before income taxes and equity in net income of affiliates, was 37.9 percent in the first quarter of fiscal 2013. Excluding the impact of CLO entity income (expense) borne by other beneficial interest holders, the Company's effective tax rate was 36.7 percent for the quarter.

Equity in net income of affiliates increased \$1.7 million from the first quarter of fiscal 2012, and includes \$2.0 million related to the Company's interest in Hexavest.

Net income attributable to non-controlling and other beneficial interests was \$12.3 million in the first quarter of fiscal 2013 compared to \$17.6 million in the first quarter of fiscal 2012. As shown in Attachment 3, the change can be primarily attributed to a decline in the financial performance of the Company's consolidated CLO entity. Included in net income attributable to non-controlling and other beneficial interests in the first quarter of fiscal 2013 and 2012 were \$10.6 million and \$8.1 million, respectively, of non-controlling interest value adjustments relating to our Parametric subsidiary, based on an annual December 31 enterprise value measurement.

Weighted average diluted shares outstanding increased 4.2 million shares, or 4 percent, in the first quarter of fiscal 2013 over the first quarter of fiscal 2012. The change reflects an increase in the total number of shares outstanding due to exercise of employee stock options and an increase in the dilutive effect of in-the-money options resulting from the 32 percent increase in the average share price over the prior year period.

First Quarter Fiscal 2013 vs. Fourth Quarter Fiscal 2012

In the first quarter of fiscal 2013, revenue increased 3 percent to \$318.5 million from revenue of \$309.9 million in the fourth quarter of fiscal 2012. Investment advisory and administrative fees were up 3 percent in the first quarter of

fiscal 2013 compared to the fourth quarter of fiscal 2012, reflecting a 10 percent increase in average assets under management and lower average effective fee rates, primarily as a result of the Clifton acquisition. Performance fees contributed \$1.6 million and \$3.7 million to investment advisory and administrative fees in the first quarter of fiscal 2013 and the fourth quarter of fiscal 2012, respectively. Distribution and service fee revenue increased 1 percent on a combined basis, reflecting an increase in average managed assets in fund share classes that are subject to such fees.

Expenses increased 7 percent to \$217.8 million in the first quarter of fiscal 2013 from \$203.5 million in the fourth quarter of fiscal 2012, reflecting increases in compensation, distribution, fund-related and other expenses, higher amortization of deferred sales commissions and a decrease in service fee expense. The increase in compensation expense reflects an increase in headcount, higher base salaries and benefits, and increases in sales-based incentives. Gross sales and other inflows, which drive sales-based incentives, were up 35 percent in the first quarter of fiscal 2013 compared to the fourth quarter of fiscal 2012. The increase in distribution expense primarily reflects an increase in marketing support payments made to third-party intermediaries and an increase in commissions paid on certain Class A share fund sales. The increase in amortization of deferred sales commissions largely reflects an increase in Class C share amortization. Fund-related expenses increased 7 percent from the fourth quarter of fiscal 2012 due to higher expenses borne by the Company on funds for which it receives an all-in fee, as well as an increase in sub-advisory fees paid.

Operating income was down 5 percent to \$100.7 million in the first quarter of fiscal 2013 from \$106.3 million in the fourth quarter of fiscal 2012.

Non-operating expense was \$5.8 million in the first quarter of fiscal 2013 compared to net non-operating income of \$4.0 million in the fourth quarter of fiscal 2012. The decrease in non-operating income (expense) is primarily attributable to a \$10.9 million decrease in gains and other investment income recognized by the Company's consolidated CLO entity and a \$0.3 million decrease in gains and other investment income earned on the Company's investments in sponsored products, offset by a \$1.4 million decrease in interest expense recognized by the Company's consolidated CLO entity.

Equity in net income of affiliates increased by \$1.4 million in the first quarter of fiscal 2013 compared to the fourth quarter of fiscal 2012, primarily reflecting an increase in the equity in net income related to the Company's investments in sponsored products. Equity in net income of affiliates for the first quarter of fiscal 2013 and the fourth quarter of fiscal 2012 includes \$2.0 million and \$1.9 million, respectively, related to Hexavest.

Net income attributable to non-controlling and other beneficial interests totaled \$12.3 million in the first quarter of fiscal 2013 and \$21.3 million in the fourth quarter of fiscal 2012. As shown in Attachment 3, the decrease can be primarily attributed to a decrease in the financial performance of the Company's consolidated CLO entity. Included in net income attributable to non-controlling and other beneficial interests in the first quarter of fiscal 2013 and the fourth quarter of fiscal 2012 were \$10.6 million and \$9.9 million of non-controlling interest value adjustments relating, respectively, to our Parametric and Atlanta Capital subsidiaries based on a December 31 and October 31 enterprise value measurement.

Weighted average diluted shares outstanding increased 3.6 million shares, or 3 percent, in the first quarter of fiscal 2013 over the fourth quarter of fiscal 2012. The change reflects an increase in the total number of shares outstanding due to exercise of employee stock options and an increase in the dilutive effect of in-the-money options resulting from the 13 percent increase in the average share price over the prior quarter.

Balance Sheet Information

Cash and cash equivalents totaled \$218.3 million on January 31, 2013, with no outstanding borrowings against the Company's \$300 million credit facility. The Company paid a special dividend of \$1.00 per share, which totaled \$119.8 million, in the first quarter of fiscal 2013. During the first quarter of fiscal 2013, the Company used \$13.3 million to repurchase and retire approximately 0.5 million shares of its Non-Voting Common Stock under its repurchase authorization. Approximately 3.5 million shares of the current 8.0 million share repurchase authorization remains unused.
