  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
- 
-

**Item 8.01. Other Events.**

On November 20, 2007, based upon increases in operating, maintenance and capital costs, New Jersey Natural Gas Company (NJNG), a wholly-owned subsidiary of New Jersey Resources Corporation, filed a petition with the New Jersey Board of Public Utilities (BPU), to increase base rates for delivery service by approximately \$58.4 million, which includes a return on equity component of 11.375 percent. Base rates are the portion of the customers' bill designed to cover NJNG's delivery costs including, operating and maintenance expenses and a reasonable return on its regulated investments.

NJNG's current gas delivery rates will remain in effect until the BPU takes action on the filing. It is typical for a base rate case to take up to a year to review, process and resolve. New base rates, if any, ultimately approved by the BPU may differ from what has been proposed in the November 20, 2007 filing.

Separately, NJNG announced its intention to notify the BPU that it will provide residential and small commercial sales customers with refunds totaling approximately \$30 million. NJNG is able to offer these savings as a result of cost control activities, including hedging and strategic storage management, as well as lower prices for natural gas on the wholesale market.

A copy of the press release, dated as of November 20, 2007, announcing the filing of the base rate case is attached as Exhibit 99.1 to this report and is incorporated herein by reference.

**Item 9.01. Financial Statements and Exhibits**

- (a) Financial statements of businesses acquired: Not applicable.
- (b) Pro forma financial information: Not applicable.
- (c) Exhibits:
