Item 1: Report to Shareholders

For the six months ended June 30, 2011, the net asset value per Common Share increased 4.4%, while the investment return to our stockholders increased by 4.6%. By comparison, our benchmark, the Standard & Poor's 500 Stock Index (including income), increased 6.0%. For the twelve months ended June 30, 2011, the return on the net asset value per Common Share increased by 31.8%, and the return to our stockholders increased by 33.3%; these compare with an increase of 30.7% for the S&P 500. During both periods, the discount at which our shares traded continued to fluctuate and on June 30, 2011, it was 14.0%.

As detailed in the accompanying financial statements (unaudited), as of June 30, 2011, the net assets applicable to the Company's Common Stock were \$983,696,903 equal to \$32.64 per Common Share.

The increase in net assets resulting from operations for the six months ended June 30, 2011 was \$40,771,302. During this period, the net realized gain on investments sold was \$14,893,026, and the increase in net unrealized appreciation was \$29,476,113. Net investment income for the six months was \$2,058,149, and distributions to Preferred Stockholders amounted to \$5,655,986.

During the six months, 281,208 shares of the Company's Common Stock were repurchased for \$8,015,335 at an average discount from net asset value of 13.9%.

Equity markets turned choppy in the second quarter, trading in a greater-than-average 8% range, reflecting the divergence between continuing positive corporate earnings and an uncertain macro-economic environment. Despite high levels of unemployment and weak house prices, which have both dampened

domestic consumer spending, results have been buoyed by strong demand from emerging markets and ongoing improvements in productivity. Earnings have been enhanced, furthermore, by restructurings and stock buy backs, facilitated by historically low interest rates and greatly improved balance sheets.

We believe that the partisan divide in the Congress that has made it difficult to resolve the debt ceiling issue will be overcome, at least in the near term. More critically, the continued inability of policy makers in Europe to decide who is to be saved, and on what terms, increases the risk of the sovereign debt crisis spreading from peripheral to core countries. While Greece, Ireland, and Portugal play modest roles in the European Union with respect to trade, they are fully integrated within its financial and banking systems. Because of Europe's porous financial borders, the crisis could affect trade, reduce demand for exports, and lead to recession.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend and distribution payments, financial reports and press releases, is on our website and has been updated through June 30, 2011. It can be accessed on the internet at www.generalamericaninvestors.com.

1. **SIGNIFICANT ACCOUNTING POLICIES** - General American Investors Company, Inc. (the "Company"), established in 1940 under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. **SECURITY VALUATION** Equity securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Equity securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ equity securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for options written) on the valuation date. Equity securities traded primarily in foreign markets are valued at the closing price of such securities on their respective exchanges or markets. Corporate debt securities, domestic and foreign, are generally traded in the over-the-counter market rather than on a securities exchange. The Company utilizes the latest bid prices provided by independent dealers and information with respect to transactions in such securities to determine current market value. If, after the close of foreign markets, conditions change significantly, the price of certain securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. **OPTIONS** The Company may purchase and write (sell) put and call options. The Company typically purchases put options and writes call options to hedge the value of portfolio investments while it typically purchases call options and writes put options to obtain market exposure under specified circumstances. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options are reported as a liability on the Statement of Assets and Liabilities. Those that expire unexercised are treated by the Company on the expiration date as realized gains on written option transactions in the Statement of Operations. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid on the closing purchase transaction, as a realized loss on written option transactions in the Statement of Operations. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss on investments in the Statement of Operations. If a put option is exercised, the premium reduces the cost for the securities purchased by the Company and is parenthetically disclosed under cost of investments on the Statement of Assets and Liabilities. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option. See Note 4 for written option activity.

c. **SECURITY TRANSACTIONS AND INVESTMENT INCOME** Security transactions are recorded as of the trade date. Dividends and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments is reported at amortized cost.

d. **FOREIGN CURRENCY TRANSLATION AND TRANSACTIONS** Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies versus U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Company's Board of Directors. The Company does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized

unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between trade and settlement dates on security transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability or the level of government supervision and regulation of foreign securities markets.

e. **DIVIDENDS AND DISTRIBUTIONS** The Company expects to pay dividends of net investment income and distributions of realized capital and currency gains, if any, annually to common shareholders and quarterly to preferred shareholders. Dividend distributions to common and preferred shareholders, which are determined in accordance with Federal income tax regulations, are recorded on the ex-dividend date. Distributions for tax and book purposes are substantially the same. Permanent book/tax differences relating to income and gains are reclassified to paid-in capital as they arise.

f. **FEDERAL INCOME TAXES** The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required. As of and during the period ended June 30, 2011, the Company did not have any liabilities for any unrecognized tax positions. The Company recognizes interest and penalties, if any, related to unrecognized tax positions as income or expense in the Statement of Operations. During the period, the Company did not incur any interest or penalties.

g. **CONTINGENT LIABILITIES** Amounts related to contingent liabilities are accrued if it is probable that a liability has been incurred and an amount is reasonably estimable. Management evaluates whether there are incremental legal or other costs directly associated with the ultimate resolution of a matter that are reasonably estimable and, if so, they are included in the accrual.

h. **INDEMNIFICATIONS** In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

2. **FAIR VALUE MEASUREMENTS** - Various data inputs are used in determining the value of the Company's investments. These are summarized in a hierarchy consisting of the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities (including money market funds which are valued using amortized cost and which transact at net asset value, typically \$1 per share),

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.), and

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in securities. The following is a summary of the inputs used to value the Company's net assets as of June 30, 2011:

Assets	Level 1	Level 2	Level 3	Total
Common stocks	\$1,123,532,602	—	\$17,862,500	\$1,141,395,102
Warrant	3,030,750	—	—	3,030,750
Money market fund	30,925,581	—	—	30,925,581
Total	\$1,157,488,933	—	\$17,862,500	\$1,175,351,433
Liabilities				
Option Written	(\$51,000)	—	—	(\$51,000)

The aggregate value of Level 3 portfolio investments changed during the six months ended June 30, 2011 as follows:

	Level 3
Change in portfolio valuations using significant unobservable inputs	
Fair value at December 31, 2010	\$17,550,000
Net change in unrealized appreciation on investments	312,500
Fair value at June 30, 2011	\$17,862,500

The increase in net unrealized appreciation included in the results of operations attributable to Level 3 assets held at June 30, 2011 and reported within the caption *Net change in unrealized appreciation/depreciation* in the Statement of Operations:

\$312,500

3. PURCHASES AND SALES OF SECURITIES - Purchases and sales of securities (other than short-term securities and options) during the six months ended June 30, 2011 amounted to \$80,802,978 and \$94,350,609, on long transactions, respectively.

4. WRITTEN OPTIONS - Transaction in collateralized put options during the six months ended June 30, 2011 was as follows:

	Contracts	Premiums
Options outstanding, December 31, 2010	—	—
Options written	409	\$357,424
Options expired	(100)	(99,667)
Options exercised	(209)	(163,591)
Options outstanding, June 30, 2011	100	\$94,166

5. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value. With respect to the Common Stock

30,142,086 shares were issued and outstanding; 8,000,000 Preferred Shares were originally issued and 7,604,687 were outstanding as of June 30, 2011.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in a private underwritten offering. The Preferred Shares were noncallable for the 5 year period ended September 24, 2008 and have a liquidation preference of \$25.00 per share plus accumulated and unpaid dividends to the date of redemption. On December 10, 2008, the Board of Directors authorized the repurchase of 1 million Preferred Shares in the open market at prices below \$25.00 per share. The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among the holders of shares of Common Stock and Preferred Stock on an annual basis. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% of the Preferred Stock. In addition, pursuant to Moody's Investor Service, Inc. Rating Agency Guidelines, the Company is required to maintain a minimum discounted asset coverage for its portfolio that equals or exceeds a Basic Maintenance Amount. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure the failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends. In addition, failure to meet the foregoing asset coverage requirements could restrict the Company's ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and will vote, along with the holders of Common Stock, as a single class.

Holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock for an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Stock, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification of shares as a closed-end investment company or changes in its fundamental investment policies.

5. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - (Continued from bottom of previous page.)

The Company presents its Preferred Stock, for which its redemption can be outside of the Company's control, outside of the net assets applicable to Common Stock in the Statement of Assets and Liabilities.

Transactions in Common Stock during the six months ended June 30, 2011 and the year ended December 31, 2010 were as follows:

	Shares		Amount	
	2011	2010	2011	
Increase in par value of shares issued in payment of dividends and distributions (includes 277,555 shares issued from treasury)	—	277,555	—	
Increase in paid-in capital			—	
Total increase			—	
Decrease in par value of shares purchased (average discount from NAV of 13.9% and 14.6%, respectively)	281,208	1,279,476	(\$281,208)	(
Decrease in paid-in capital			(7,734,127)	(2
Total decrease			(8,015,335)	(3
Net decrease			(\$8,015,335)	(\$2

At June 30, 2011, the Company held in its treasury 1,838,786 shares of Common Stock with an aggregate cost in the amount of \$45,318,157.

6. **OFFICERS' COMPENSATION** - The aggregate compensation accrued and paid by the Company during the six months ended June 30, 2011 to its officers (identified on back cover) amounted to \$3,423,750.

7. **BENEFIT PLANS** - The Company has funded (qualified) and unfunded (supplemental) noncontributory defined benefit pension plans

that cover its employees. The plans provide defined benefits based on years of service and final average salary with an offset for a por-

tion of social security covered compensation. The components of the net periodic benefit cost (income) of the plans for the six months

ended June 30, 2011 were:

Service cost	\$212,081
Interest cost	390,208
Expected return on plan assets	(550,361)
Amortization of prior service cost	23,298
Recognized net actuarial loss	223,545
Net periodic benefit cost	\$298,771

The Company recognizes the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability on the Statement of Assets and Liabilities and recognizes changes in funded status in the year in which the changes occur through other comprehensive income.

The Company also has funded (qualified) and unfunded (supplemental) defined contribution thrift plans that are available to its employees. The aggregate cost of such plans for the six months ended June 30, 2011 was \$655,739. The qualified thrift plan acquired

shares and sold 3,306 shares of the Company's Common Stock during the six months ended June 30, 2011 and held 558,429 shares of the Company's Common Stock at June 30, 2011.

8. OPERATING LEASE COMMITMENT - In September 2007, the Company entered into an operating lease agreement for office space that expires in February 2018 and provided for future rental payments in the aggregate amount of approximately \$10,755,000, net of construction credits. The lease agreement contains clauses whereby the Company receives free rent for a specified number of months, a credit towards construction of office improvements, and incurs escalations annually relating to operating costs and real property taxes and to annual rent charges beginning in February 2013. The Company has the option to renew the lease after February 2018 for five years at market rates. Rental expense approximated \$544,400 for the six months ended June 30, 2011. Minimum rental commitments under the operating lease are approximately \$1,075,000 per annum in 2012, \$1,183,000 in 2013 through 2017, and \$99,000 in 2018.

9. LITIGATION - The Company is subject to a legal action arising from a construction worker's personal injury that is covered by the terms of its insurance policies. Defense and legal costs are being funded by the insurer; damages of an amount that is immaterial to the Company are being negotiated at this time. No liabilities or expenses have been incurred by the Company to date.

Purchases of the Company's Common Stock as set forth in Note 5 on page 11, may be at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.

The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and the Company's record for the twelve-month period ended June 30, 2011 are available: (1) without charge, upon request, by calling us at our toll-free number (1-800-436-8401), (2) on the Company's website at www.generalamericaninvestors.com and (3) on the Securities and Exchange Commission's website at www.sec.gov.

In addition to distributing financial statements as of the end of each quarter, General American Investors files a Quarterly Schedule 14c-Holdings (Form N-Q) with the Securities and Exchange Commission ("SEC") as of the end of the first and third calendar quarters. Forms N-Q are available at www.generalamericaninvestors.com and on the SEC's website: www.sec.gov. Also, Forms N-Q may be viewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC-0330. A copy of the Company's Form N-Q may also be obtained by calling us at 1-800-436-8401.

On April 25, 2011, the Company submitted a CEO annual certification to the New York Stock Exchange ("NYSE") on which the principal executive officer certified that he was not aware, as of that date, of any violation by the Company of the NYSE's Corporate Governance standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Company's principal financial officer made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q relating to the Company's disclosure controls and procedures and internal control over financial reporting, as applicable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statements of investments and put options written, as of June 30, 2011, and the related statements of opera-

tions and changes in net assets and financial highlights for the six-month period ended June 30, 2011. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended December 31, 2010 and financial highlights for each of the five years in the period then ended and in our report, dated February 3, 2011 we expressed an unqualified opinion on such financial statements and financial highlights.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of June 30, 2011, an evaluation was performed under the supervision and with the participation of the officers of General American Investors Company, Inc. (the "Registrant"), including the principal executive officer ("PEO") and principal financial officer ("PFO"), to assess the effectiveness of the Registrant's disclosure controls and procedures. Based on that evaluation, the Registrant's officers, including the PEO and PFO, concluded that, as of June 30, 2011, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission; and (2) that material information relating to the Registrant is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no significant changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) The code of ethics disclosure required by Item 2 is not applicable to this semi-annual report.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Investment Company Act of 1940 during the period covered by the report.

(b) Certifications of the principal executive officer and the principal financial officer, as required by Rule 30a-2(b) under the Investment Company Act of 1940.
