

GENERAL ELECTRIC CO
Form 10-Q
July 30, 2012

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

Commission file number 001-00035

GENERAL ELECTRIC COMPANY
(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of
incorporation or organization)

14-0689340
(I.R.S. Employer Identification No.)

3135 Easton Turnpike, Fairfield, CT
(Address of principal executive offices)

06828-0001
(Zip Code)

(Registrant's telephone number, including area code) (203) 373-2211

(Former name, former address and former fiscal year,
if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

There were 10,558,844,000 shares of common stock with a par value of \$0.06 per share outstanding at July 1, 2012.

Forward-Looking Statements

This document contains “forward-looking statements” – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” or “will.” Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include: current economic and financial conditions, including volatility in interest and exchange rates, commodity and equity prices and the value of financial assets; potential market disruptions or other impacts arising in the United States or Europe from developments in the European sovereign debt situation; the impact of conditions in the financial and credit markets on the availability and cost of General Electric Capital Corporation’s (GECC) funding and on our ability to reduce GECC’s asset levels as planned; the impact of conditions in the housing market and unemployment rates on the level of commercial and consumer credit defaults; changes in Japanese consumer behavior that may affect our estimates of liability for excess interest refund claims (GE Money Japan); pending and future mortgage securitization claims and litigation in connection with WMC, which may affect our estimates of liability, including possible loss estimates; our ability to maintain our current credit rating and the impact on our funding costs

and competitive position if we do not do so; the adequacy of our cash flow and earnings and other conditions which may affect our ability to pay our quarterly dividend at the planned level; GECC's ability to pay dividends to GE at the planned level; the level of demand and financial performance of the major industries we serve, including, without limitation, air and rail transportation, energy generation, real estate and healthcare; the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks, including the impact of financial services regulation; strategic actions, including acquisitions, joint ventures and dispositions and our success in completing announced transactions and integrating acquired businesses; the impact of potential information technology or data security breaches; and numerous other matters of national, regional and global scale, including those of a political, economic, business and competitive nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.

(a) Represents the adding together of all affiliated companies except General Electric Capital Corporation (GECC or (b) Financial Services), which is presented on a one-line basis.

Represents GECC earnings from continuing operations attributable to the Company, net of GECC dividends paid to GE.

See accompanying notes. Separate information is shown for "GE" and "Financial Services (GECC)." Transactions between GE and GECC have been eliminated from the "Consolidated" columns and are discussed in Note 19.

Earnings from continuing operations attributable				
to the Company	3,658	3,570	6,909	6,968
Earnings (loss) from discontinued operations,				
net of taxes, attributable to the Company	(553)	194	(770)	229
Consolidated net earnings attributable to the Company	\$ 3,105	\$ 3,764	\$ 6,139	\$ 7,197

(a) Segment revenues includes both revenues and other income related to the segment. Segment profit excludes results reported as discontinued operations, earnings attributable to noncontrolling interests of consolidated subsidiaries, GECC preferred stock dividends declared and accounting changes. Segment profit excludes or includes interest and other financial charges and income taxes according to how a particular segment's management is measured – excluded in determining segment profit, which we sometimes refer to as “operating profit,” for Energy Infrastructure, Aviation, Healthcare, Transportation and Home & Business Solutions; included in determining segment profit, which we sometimes refer to as “net earnings,” for GE Capital. Results of our run-off

insurance operations previously reported in Corporate items and eliminations are now reported in GE Capital.

See accompanying notes.

Notes to Condensed, Consolidated Financial Statements (Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed, consolidated financial statements represent the consolidation of General Electric Company (the Company) and all companies that we directly or indirectly control, either through majority ownership or otherwise. See Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 (2011 consolidated financial statements), which discusses our consolidation and financial statement presentation. As used in this report on Form 10-Q (Report), “GE” represents the adding together of all affiliated companies except General Electric Capital Corporation (GECC or Financial Services), which is presented on a one-line basis; GECC consists of General Electric Capital Corporation and all of its affiliates; and “Consolidated” represents the adding together of GE and GECC with the effects of transactions between the two eliminated. Unless otherwise indicated, we refer to the caption revenues and other income simply as “revenues” throughout Item 1 of this Form 10-Q.

On February 22, 2012, we merged our wholly-owned subsidiary, General Electric Capital Services, Inc. (GECS), with and into GECS’ wholly-owned subsidiary, GECC. The merger simplified our financial services’ corporate structure by consolidating financial services entities and assets within our organization and simplifying Securities and Exchange Commission and regulatory reporting. Upon completion of the merger, (i) all outstanding shares of GECC common stock were cancelled, (ii) all outstanding GECS common stock and all GECS preferred stock held by the Company were converted into an aggregate of 1,000 shares of GECC common stock, and (iii) all treasury shares of GECS and all outstanding preferred stock of GECS held by GECC were cancelled. As a result, GECC became the surviving corporation, assumed all of GECS’ rights and obligations and became wholly-owned directly by the Company.

Because we wholly-owned both GECS and GECC, the merger was accounted for as a transfer of assets between entities under common control. Transfers of net assets or exchanges of shares between entities under common control are accounted for at historical value, and as if the transfer occurred at the beginning of the period.

Our financial services segment, GE Capital, comprises the continuing operations of GECC, which includes the run-off insurance operations previously held and managed in GECS. Unless otherwise indicated, references to GECC and the GE Capital segment in this Form 10-Q Report relate to the entity or segment as they exist subsequent to the February 22, 2012 merger. In addition, during the first quarter of 2012, we announced the planned disposition of the Consumer mortgage lending business in Ireland (Consumer Ireland). This disposition is reported as a discontinued operation, which requires retrospective restatement of prior periods to classify the assets, liabilities and results of operations as discontinued operations.

On January 28, 2011, we sold the assets of our NBC Universal (NBCU) business in exchange for cash and a 49% interest in a new entity, NBCUniversal LLC (see Note 2). Results of our formerly consolidated subsidiary, NBCU, and our current equity method investment in NBCUniversal LLC (NBCU LLC) are reported in the Corporate items and eliminations line on the Summary of Operating Segments.

We have reclassified certain prior-period amounts to conform to the current-period presentation. Unless otherwise indicated, information in these notes to the condensed, consolidated financial statements relates to continuing operations.

Accounting Changes

On January 1, 2012, we adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2011-05, an amendment to Accounting Standards Codification (ASC) 220, Comprehensive Income. ASU 2011-05 introduces a new statement, the Consolidated Statement of Comprehensive Income, which begins with net earnings and adds or deducts other recognized changes in assets and liabilities that are not included in net earnings, but are reported directly to equity, under GAAP. For example, unrealized changes in currency translation adjustments are included in the measure of comprehensive income but are excluded from net earnings. The amendments became effective for the first quarter 2012 financial statements. The amendments affect only the display of those components of equity categorized as other comprehensive income and do not change existing recognition and measurement requirements that determine net earnings.

On January 1, 2012, we adopted FASB ASU 2011-04, an amendment to ASC 820, Fair Value Measurements. ASU 2011-04 clarifies or changes the application of existing fair value measurements, including: that the highest and best use valuation premise in a fair value measurement is relevant only when measuring the fair value of nonfinancial assets; that a reporting entity should measure the fair value of its own equity instrument from the perspective of a market participant that holds that instrument as an asset; to permit an entity to measure the fair value of certain financial instruments on a net basis rather than based on its gross exposure when the reporting entity manages its financial instruments on the basis of such net exposure; that in the absence of a Level 1 input, a reporting entity should apply premiums and discounts when market participants would do so when pricing the asset or liability consistent with the unit of account; and that premiums and discounts related to size as a characteristic of the reporting entity's holding are not permitted in a fair value measurement. Adopting these amendments had no effect on the financial statements. For a description of how we estimate fair value and our process for reviewing fair value measurements classified as Level 3 in the fair value hierarchy, see Note 1 in our 2011 consolidated financial statements.

See Note 1 in our 2011 consolidated financial statements for a summary of our significant accounting policies.

Interim Period Presentation

The condensed, consolidated financial statements and notes thereto are unaudited. These statements include all adjustments (consisting of normal recurring accruals) that we considered necessary to present a fair statement of our results of operations, financial position and cash flows. The results reported in these condensed, consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. It is suggested that these condensed, consolidated financial statements be read in conjunction with the financial statements and notes thereto included in our 2011 consolidated financial statements. We label our quarterly information using a calendar convention, that is, first quarter is labeled as ending on March 31, second quarter as ending on June 30, and third quarter as ending on September 30. It is our longstanding practice to establish interim quarterly closing dates using a fiscal calendar, which requires our businesses to close their books on either a Saturday or Sunday, depending on the business. The effects of this practice are modest and only exist within a reporting year. The fiscal closing calendar from 1993 through 2013 is available on our website, www.ge.com/secreports.

2. ASSETS AND LIABILITIES OF BUSINESSES HELD FOR SALE AND DISCONTINUED OPERATIONS

Assets and Liabilities of Businesses Held for Sale

In the second quarter of 2012, we committed to sell a portion of our Business Properties portfolio (Business Property) in Real Estate, including certain commercial loans, the origination and servicing platforms and the servicing rights on loans previously securitized by GECC. Upon closing, we will also expect to deconsolidate substantially all Real Estate securitization entities as servicing rights related to these entities will be transferred to the buyer.

In the second quarter of 2011, we committed to sell our GE Capital Consumer business banking operations in Latvia.

Summarized financial information for businesses held for sale is shown below.

(In millions)	June 30, 2012	At December 31, 2011
Assets		
Cash and equivalents	\$ 135	\$ 149
Financing receivables – net	2,794	412
Property, plant and equipment – net	56	81
Other	54	69
Assets of businesses held for sale	\$ 3,039	\$ 711
Liabilities		
Short-term borrowings	\$ 223	\$ 252
Other	60	93
Liabilities of businesses held for sale	\$ 283	\$ 345

NBCU

On January 28, 2011, we sold the assets of our NBCU business in exchange for cash and a 49% interest in a new entity, NBCU LLC. With respect to our 49% interest in NBCU LLC, we hold redemption rights, which, if exercised, would require NBCU LLC or Comcast Corporation to purchase (either directly or indirectly) half of our ownership interest after three and a half years and the remaining half after seven years, subject to certain exceptions, conditions and limitations. Our interest in NBCU LLC also is subject to call provisions, which, if exercised, allow Comcast to purchase our interest (either directly or indirectly) at specified times subject to certain exceptions. The redemption prices for such transactions are based on a contractually specified formula, the determination of which involves valuations from two or more independent appraisers separately selected by GE and Comcast. As an input to the formula, the appraisers will determine the aggregate common equity market value of NBCU LLC following the completion of a hypothetical IPO, which is then adjusted for a control premium and a value-sharing adjustment with Comcast based on specified formulas. Differences in valuation methodologies, market comparables and various other assumptions made by the appraisers can have a significant impact on any final transaction value. See Note 2 in our 2011 consolidated financial statements for additional information related to the NBCU transaction.

At June 30, 2012 and December 31, 2011, the carrying amount of our equity investment in NBCU LLC was \$18,253 million and \$17,955 million, respectively, reported in the "All other assets" caption in our Condensed Statement of Financial Position. At June 30, 2012 and December 31, 2011, deferred tax liabilities related to our NBCU LLC investment were \$4,960 million and \$4,880 million, respectively, and were reported in the "Deferred income taxes" caption in our Condensed Statement of Financial Position.

(11)

Discontinued Operations

Discontinued operations primarily comprised GE Money Japan (our Japanese personal loan business, Lake, and our Japanese mortgage and card businesses, excluding our investment in GE Nissen Credit Co., Ltd.), our U.S. mortgage business (WMC), our U.S. recreational vehicle and marine equipment financing business (Consumer RV Marine), Consumer Mexico, Consumer Singapore, our Consumer home lending operations in Australia and New Zealand (Australian Home Lending) and Consumer Ireland. Associated results of operations, financial position and cash flows are separately reported as discontinued operations for all periods presented.

Summarized financial information for discontinued operations is shown below.

(In millions)	Three months ended June 30		Six months ended June 30	
	2012	2011	2012	2011
Operations				
Total revenues	\$ (348)	\$ 124	\$ (349)	\$ 331
Earnings (loss) from discontinued operations before income taxes	\$ (380)	\$ (39)	\$ (438)	\$ (39)
Benefit (provision) for income taxes	121	37	127	33
Earnings (loss) from discontinued operations, net of taxes	\$ (259)	\$ (2)	\$ (311)	\$ (6)
Disposal				
Gain (loss) on disposal before income taxes	\$ (308)	\$ (52)	\$ (502)	\$ (41)
Benefit (provision) for income taxes	14	248	43	276
Gain (loss) on disposal, net of taxes	\$ (294)	\$ 196	\$ (459)	\$ 235
Earnings (loss) from discontinued operations, net of taxes(a)	\$ (553)	\$ 194	\$ (770)	\$ 229

(a) GECC earnings (loss) from discontinued operations, net of taxes, is presented combined with GE earnings (loss) from discontinued operations, net of taxes, on the Condensed Statement of Earnings.

(In millions)	At	
	June 30, 2012	December 31, 2011
Assets		
Cash and equivalents	\$ 113	\$ 121
Financing receivables – net	234	521
Other	1,143	1,079
Assets of discontinued operations	\$ 1,490	\$ 1,721

Liabilities			
Deferred income taxes	\$	230	\$ 205
Other		1,710	1,424
Liabilities of discontinued operations	\$	1,940	\$ 1,629

Assets at June 30, 2012 and December 31, 2011 primarily comprised cash, financing receivables and a deferred tax asset for a loss carryforward, which expires principally in 2017 and in part in 2019, related to the sale of our GE Money Japan business.

(12)

GE Money Japan

During the third quarter of 2007, we committed to a plan to sell our Japanese personal loan business, Lake, upon determining that, despite restructuring, Japanese regulatory limits for interest charges on unsecured personal loans did not permit us to earn an acceptable return. During the third quarter of 2008, we completed the sale of GE Money Japan, which included Lake, along with our Japanese mortgage and card businesses, excluding our investment in GE Nissen Credit Co., Ltd. In connection with the sale, we reduced the proceeds from the sale for estimated interest refund claims in excess of the statutory interest rate. Proceeds from the sale were to be increased or decreased based on the actual claims experienced in accordance with loss-sharing terms specified in the sale agreement, with all claims in excess of 258 billion Japanese yen (approximately \$3,000 million) remaining our responsibility. The underlying portfolio to which this obligation relates is in runoff and interest rates were capped for all designated accounts by mid-2009. In the third quarter of 2010, we began making reimbursements under this arrangement.

Our overall claims experience developed unfavorably through 2010. We believe that the level of excess interest refund claims was impacted by the challenging global economic conditions, in addition to Japanese legislative and regulatory changes. In September 2010, a large independent personal loan company in Japan filed for bankruptcy, which precipitated a significant amount of publicity surrounding excess interest refund claims in the Japanese marketplace, along with substantial legal advertising. We observed an increase in claims during the latter part of 2010 and the first two months of 2011. Since February and through the end of 2011, we experienced substantial declines in the rate of incoming claims, though the overall rate of reduction was slower than we expected. The September 2010 bankruptcy filing referenced above had a significant effect on the pace of incoming claim declines and it is difficult to predict the pace and pattern at which claims will continue to decelerate. During the first half of 2012, we recorded increases to our reserve of \$336 million to reflect an excess of claims activity over our previous estimates and, based on recent experience, revisions to our assumptions about the level of future claim activity. We continue to closely monitor and evaluate claims activity. At June 30, 2012, our reserve for reimbursement of claims in excess of the statutory interest rate was \$695 million.

The amount of these reserves is based on analyses of recent and historical claims experience, pending and estimated future excess interest refund requests, the estimated percentage of customers who present valid requests, and our estimated payments related to those requests. Our estimated liability for excess interest refund claims at June 30, 2012 assumes the pace of incoming claims will continue to decelerate, average exposure per claim remains consistent with recent experience, and we continue to see the impact of loss mitigation efforts. Estimating the pace and pattern of decline in incoming claims has a significant effect on the total amount of our liability. While the pace of incoming claims continues to decline, it is highly variable and difficult to predict. Holding all other assumptions constant, for example, adverse changes of 20% and 50% in assumed incoming daily claim rate reduction would result in an increase to our reserves of approximately \$100 million and \$350 million, respectively.

Uncertainties about the likelihood of consumers to present valid claims, the runoff status of the underlying book of business, the financial status of other personal lending companies in Japan, challenging economic conditions and the impact of laws and regulations make it difficult to develop a meaningful estimate of the aggregate possible claims exposure. Additionally, the Japanese government is currently considering the introduction of proposed legislation to develop a framework for collective legal action proceedings. Recent trends, including the effect of consumer activity, market activity regarding other personal loan companies, higher claims severity and potential Japanese legislative actions, may continue to have an adverse effect on claims development.

GE Money Japan losses from discontinued operations, net of taxes, were \$327 million and an insignificant amount in the three months ended June 30, 2012 and 2011, respectively, and \$354 million and \$1 million in the six months ended June 30, 2012 and 2011, respectively.

(13)

WMC

During the fourth quarter of 2007, we completed the sale of WMC, our U.S. mortgage business. WMC substantially discontinued all new loan originations by the second quarter of 2007, and is not a loan servicer. In connection with the sale, WMC retained certain representation and warranty obligations related to loans sold to third parties prior to the disposal of the business and contractual obligations to repurchase previously sold loans as to which there was an early payment default. All claims received by WMC for early payment default have either been resolved or are no longer being pursued.

Pending repurchase claims based upon representations and warranties made in connection with loan sales were \$2,731 million at June 30, 2012, \$705 million at December 31, 2011 and \$347 million at December 31, 2010. Pending claims represent those active repurchase claims that identify the specific loans tendered for repurchase and, for each loan, the alleged breach of a representation or warranty. The amounts reported reflect the purchase price or unpaid principal balances of the loans at the time of purchase and do not give effect to pay downs, accrued interest or fees, or potential recoveries based upon the underlying collateral. Historically, a small percentage of the total loans WMC originated and sold has been tendered for repurchase, and of those loans tendered, only a limited amount has qualified as “validly tendered,” meaning the loans sold did not satisfy contractual obligations. The increase in loan repurchase claims in the second quarter was driven by an increase in activity by securitization trustees and certain investors in residential mortgage-backed securities issued beginning in the second quarter of 2006, and, we believe, may reflect applicable statutes of limitations considerations.

WMC is a party to nine lawsuits involving repurchase claims on loans included in six private-label securitizations. Seven of these actions were commenced in the second quarter of 2012, one was commenced in July 2012 and one began in the third quarter of 2011. Five of the actions were initiated by WMC. Adverse to WMC in these cases are affiliates of either Deutsche Bank National Trust Company (Deutsche Bank) or US Bank National Association, solely in their capacity as trustees for the securitization trusts at issue in the cases. In two actions commenced by Deutsche Bank, it purports to assert approximately \$850 million of claims beyond those included in WMC’s previously discussed pending claims at June 30, 2012, based on loan sampling. WMC intends to defend itself vigorously.

Reserves related to contractual representations and warranties were \$491 million and \$140 million at June 30, 2012 and March 31, 2012, respectively, and reflect an increase to reserves in the second quarter of 2012 of \$351 million due to higher pending claims and an increase in estimated future loan repurchase requests. The amount of these reserves is based upon pending and estimated future loan repurchase requests, the estimated percentage of loans validly tendered for repurchase, and WMC’s historical loss rates on loans repurchased. Assuming a 10% increase in our estimated loss rate and 50% increases to our estimates of future loan repurchase requests and estimated percentage of loans repurchased would result in an increase to our reserves of approximately \$500 million. Our reserve reflects our judgment, based on currently available information, and a number of assumptions, including economic conditions, claim activity, pending and threatened litigation and indemnification demands, and other activity in the mortgage industry.

Uncertainties surrounding economic conditions, the ability and propensity of mortgage holders to present valid claims, governmental actions, pending and threatened litigation against WMC, including increased activity by securitization trustees, indemnification demands and other activity in the mortgage industry make it difficult to develop a meaningful estimate of aggregate possible claims exposure. Actual losses could exceed the reserve amount if actual claim rates, governmental actions, litigation and indemnification activity, or losses WMC incurs on repurchased loans differ from our assumptions.

WMC revenues (loss) from discontinued operations were \$(351) million and an insignificant amount in the three months ended June 30, 2012 and 2011, respectively, and \$(358) million and an insignificant amount in the six months ended June 30, 2012 and 2011, respectively. In total, WMC's losses from discontinued operations, net of taxes, were \$227 million and \$1 million in the three months ended June 30, 2012 and 2011, respectively, and \$236 million and \$3 million in the six months ended June 30, 2012 and 2011, respectively.

(14)

Other Financial Services

In the first quarter of 2012, we announced the planned disposition of Consumer Ireland and classified the business as discontinued operations. Consumer Ireland revenues from discontinued operations were \$2 million and \$4 million in the three months ended June 30, 2012 and 2011, respectively, and \$6 million and \$8 million in the six months ended June 30, 2012 and 2011, respectively. Consumer Ireland earnings (loss) from discontinued operations, net of taxes, were \$2 million and \$(23) million in the three months ended June 30, 2012 and 2011, respectively, and \$(186) million (including a \$131 million loss on disposal) and \$(44) million in the six months ended June 30, 2012 and 2011, respectively.

In the second quarter of 2011, we entered into an agreement to sell our Australian Home Lending operations and classified it as discontinued operations. As a result, we recognized an after-tax loss of \$148 million in 2011. We completed the sale in the third quarter of 2011 for proceeds of approximately \$4,577 million. Australian Home Lending revenues from discontinued operations were an insignificant amount and \$101 million in the three months ended June 30, 2012 and 2011, respectively, and \$1 million and \$215 million in the six months ended June 30, 2012 and 2011, respectively. Australian Home Lending earnings (loss) from discontinued operations, net of taxes, were an insignificant amount and \$(117) million in the three months ended June 30, 2012 and 2011, respectively, and \$2 million and \$(80) million in the six months ended June 30, 2012 and 2011, respectively.

In the first quarter of 2011, we entered into an agreement to sell our Consumer Singapore business for \$692 million. The sale was completed in the second quarter of 2011 and resulted in the recognition of a gain on disposal, net of taxes, of \$319 million. Consumer Singapore revenues from discontinued operations were \$1 million and \$2 million in the three months ended June 30, 2012 and 2011, respectively, and \$1 million and \$31 million in the six months ended June 30, 2012 and 2011, respectively. Consumer Singapore earnings from discontinued operations, net of taxes, were \$1 million and \$319 million in the three months ended June 30, 2012 and 2011, respectively, and \$1 million and \$326 million in the six months ended June 30, 2012 and 2011, respectively.

In the fourth quarter of 2010, we entered into agreements to sell our Consumer RV Marine portfolio and Consumer Mexico business. The Consumer RV Marine and Consumer Mexico dispositions were completed during the first quarter and the second quarter of 2011, respectively, for proceeds of \$2,365 million and \$1,943 million, respectively. Consumer RV Marine revenues from discontinued operations were an insignificant amount and \$6 million in the three months ended June 30, 2012 and 2011, respectively, and an insignificant amount and \$11 million in the six months ended June 30, 2012 and 2011, respectively. Consumer RV Marine earnings from discontinued operations, net of taxes, were \$1 million and \$2 million in the three months ended June 30, 2012 and 2011, respectively, and an insignificant amount and \$2 million in the six months ended June 30, 2012 and 2011, respectively. Consumer Mexico revenues (losses) from discontinued operations were \$(1) million and \$12 million in the three months ended June 30, 2012 and 2011, respectively, and an insignificant amount and \$67 million in the six months ended June 30, 2012 and 2011, respectively. Consumer Mexico earnings (loss) from discontinued operations, net of taxes, were \$(2) million and \$17 million in the three months ended June 30, 2012 and 2011, respectively, and \$(4) million and \$33 million in the six months ended June 30, 2012 and 2011, respectively.

3. INVESTMENT SECURITIES

Substantially all of our investment securities are classified as available-for-sale. These comprise mainly investment grade debt securities supporting obligations to annuitants, policyholders and holders of guaranteed investment contracts (GICs) in our run-off insurance operations and Trinity, investment securities at our treasury operations and investments held in our Commercial Lending and Leasing (CLL) business collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries. We do not have any securities classified as held to maturity.

(a) Substantially collateralized by U.S. mortgages. Of our total residential mortgage-backed securities (RMBS) portfolio at June 30, 2012, \$1,626 million relates to securities issued by government-sponsored entities and \$811

million relates to securities of private label issuers. Securities issued by private label issuers are collateralized primarily by pools of individual direct mortgage loans of financial institutions.

The fair value of investment securities increased to \$47,931 million at June 30, 2012, from \$47,374 million at December 31, 2011, primarily due to the impact of lower interest rates and additional purchases in our CLL business of investments collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries.

(a) Includes gross unrealized losses at June 30, 2012 of \$(200) million related to securities that had other-than-temporary impairments previously recognized.

We regularly review investment securities for impairment using both qualitative and quantitative criteria. We presently do not intend to sell the vast majority of our debt securities that are in an unrealized loss position and believe that it is not more likely than not that we will be required to sell these securities before recovery of our amortized cost. We believe that the unrealized loss associated with our equity securities will be recovered within the foreseeable future. The methodologies and significant inputs used to measure the amount of credit loss for our investment

securities during the six months ended June 30, 2012 have not changed from those described in our 2011 consolidated financial statements. See Note 3 in our 2011 consolidated financial statements for additional information regarding these methodologies and inputs.

During the second quarter of 2012, we recorded pre-tax, other-than-temporary impairments of \$33 million, of which \$32 million was recorded through earnings (\$16 million relates to equity securities) and \$1 million was recorded in accumulated other comprehensive income (AOCI). At April 1, 2012, cumulative impairments recognized in earnings associated with debt securities still held were \$602 million. During the second quarter, we recognized first-time impairments of \$3 million and incremental charges on previously impaired securities of \$6 million. These amounts included \$33 million related to securities that were subsequently sold.

(17)

During the second quarter of 2011, we recorded pre-tax, other-than-temporary impairments of \$113 million, of which \$54 million was recorded through earnings (\$5 million relates to equity securities) and \$59 million was recorded in AOCI. At April 1, 2011, cumulative impairments recognized in earnings associated with debt securities still held were \$536 million. During the second quarter of 2011, we recognized first-time impairments of \$19 million and incremental charges on previously impaired securities of \$24 million. These amounts included \$18 million related to securities that were subsequently sold.

During the six months ended June 30, 2012, we recorded pre-tax, other-than-temporary impairments of \$65 million, of which \$64 million was recorded through earnings (\$23 million relates to equity securities) and \$1 million was recorded in AOCI. At January 1, 2012, cumulative impairments recognized in earnings associated with debt securities still held were \$726 million. During the six months ended June 30, 2012, we recognized first-time impairments of \$10 million and incremental charges on previously impaired securities of \$11 million. These amounts included \$169 million related to securities that were subsequently sold.

During the six months ended June 30, 2011, we recorded pre-tax, other-than-temporary impairments of \$184 million, of which \$118 million was recorded through earnings (\$10 million relates to equity securities) and \$66 million was recorded in AOCI. At January 1, 2011, cumulative impairments recognized in earnings associated with debt securities still held were \$500 million. During the six months ended June 30, 2011, we recognized first-time impairments of \$20 million and incremental charges on previously impaired securities of \$81 million. These amounts included \$41 million related to securities that were subsequently sold.

Contractual Maturities of GECC Investment in Available-for-Sale Debt Securities (Excluding Mortgage-Backed and Asset-Backed Securities)

(In millions)	Amortized cost	Estimated fair value
Due in		
2012	\$ 2,082	\$ 2,112
2013-2016	7,450	7,447
2017-2021	9,080	10,591
2022 and later	13,607	16,247

We expect actual maturities to differ from contractual maturities because borrowers have the right to call or prepay certain obligations.

Supplemental information about gross realized gains and losses on available-for-sale investment securities follows.

(18)

Although we generally do not have the intent to sell any specific securities at the end of the period, in the ordinary course of managing our investment securities portfolio, we may sell securities prior to their maturities for a variety of reasons, including diversification, credit quality, yield and liquidity requirements and the funding of claims and obligations to policyholders. In some of our bank subsidiaries, we maintain a certain level of purchases and sales volume principally of non-U.S. government debt securities. In these situations, fair value approximates carrying value for these securities.

Proceeds from investment securities sales and early redemptions by issuers totaled \$2,742 million and \$4,833 million in the second quarters of 2012 and 2011, respectively, and \$6,504 million and \$9,972 million in the six months ended June 30, 2012 and 2011, respectively, principally from the sales of short-term securities in our bank subsidiaries and treasury operations.

We recognized pre-tax gains on trading securities of \$13 million and \$52 million in the second quarters of 2012 and 2011, respectively, and \$36 million and \$55 million in the six months ended June 30, 2012 and 2011, respectively.

6. PROPERTY, PLANT AND EQUIPMENT

(In millions)	June 30, 2012	At December 31, 2011
Original cost	\$ 109,612	\$ 108,117
Less accumulated depreciation and amortization	(42,952)	(42,378)
Property, plant and equipment – net	\$ 66,660	\$ 65,739

Consolidated depreciation and amortization related to property, plant and equipment was \$2,230 million and \$2,302 million in the three months ended June 30, 2012 and 2011, respectively, and \$4,493 million and \$4,594 million in the six months ended June 30, 2012 and 2011, respectively.

(22)

7. GOODWILL AND OTHER INTANGIBLE ASSETS

(In millions)	At	
	June 30, 2012	December 31, 2011
Goodwill	\$ 72,401	\$ 72,625
Other intangible assets - net		
Intangible assets subject to amortization	\$ 11,535	\$ 11,863
Indefinite-lived intangible assets(a)	203	205
Total	\$ 11,738	\$ 12,068

(a) Indefinite-lived intangible assets principally comprised in-process research and development, trademarks and tradenames.

Changes in goodwill balances follow.

(In millions)	Balance at January 1, 2012	Acquisitions	Dispositions, currency exchange and other	Balance at June 30, 2012
Energy Infrastructure	\$ 21,090	\$ 30	\$ (223)	\$ 20,897
Aviation	5,996	—	(54)	5,942
Healthcare	16,631	120	(74)	16,677
Transportation	551	136	—	687
Home & Business Solutions	1,127	—	(1)	1,126
GE Capital	27,230	—	(158)	27,072
Total	\$ 72,625	\$ 286	\$ (510)	\$ 72,401

Goodwill balances decreased \$224 million during the six months ended June 30, 2012, primarily as a result of currency exchange effects of a stronger U.S. dollar (\$408 million), partially offset by acquisitions.

On March 27, 2012, we contributed a portion of our civil avionics systems business to a newly formed joint venture in exchange for 50% of this entity. This resulted in the deconsolidation of this business and the recording of the interest in the new avionics joint venture at fair value. As a result, we recognized a pre-tax gain of \$274 million (\$152 million after-tax) in the first quarter of 2012.

Intangible Assets Subject to Amortization

(In millions)	At			At		
	June 30, 2012		Net	December 31, 2011		Net
	Gross carrying amount	Accumulated amortization		Gross carrying amount	Accumulated amortization

Senior unsecured notes(b)	\$ 203,037	\$ 210,154
Subordinated notes(e)	4,889	4,862
Subordinated debentures(f)	7,113	7,215
Other(c)(g)	10,500	12,160
GECC long-term borrowings	\$ 225,539	\$ 234,391
Non-recourse borrowings of consolidated securitization entities(h)	\$ 30,696	\$ 29,258
Bank deposits(i)	\$ 41,942	\$ 43,115
Total borrowings and bank deposits	\$ 417,973	\$ 443,097

(a) GECC had issued and outstanding \$16,950 million and \$35,040 million of senior, unsecured debt that was guaranteed by the Federal Deposit Insurance Corporation (FDIC) under the Temporary Liquidity Guarantee Program at June 30, 2012 and December 31, 2011, respectively.

(b) Included in total long-term borrowings were \$869 million and \$1,845 million of obligations to holders of guaranteed investment contracts at June 30, 2012 and December 31, 2011, respectively. These obligations include conditions under which certain GIC holders could require immediate repayment of their investment should the long-term credit ratings of GECC fall below AA-/Aa3 or the short-term credit ratings fall below A-1+/P-1. On April 3, 2012, following the Moody's downgrade of GECC's long-term credit ratings to A1, \$1,120 million of these GICs became redeemable by the holders. During the second quarter of 2012, holders of \$386 million in principal amount of GICs redeemed their holdings and GECC made related cash payments. The remaining outstanding GICs will continue to be subject to the existing terms and maturities of their respective contracts.

(c) Included \$8,144 million and \$8,538 million of funding secured by real estate, aircraft and other collateral at June 30, 2012 and December 31, 2011, respectively, of which \$3,276 million and \$2,983 million is non-recourse to GECC at June 30, 2012 and December 31, 2011, respectively.

(d) Entirely variable denomination floating-rate demand notes.

(e)

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

Included \$300 million and \$417 million of subordinated notes guaranteed by GE at June 30, 2012 and December 31, 2011, respectively, of which \$117 million was included in current portion of long-term borrowings at December 31, 2011.

- (f) Subordinated debentures receive rating agency equity credit and were hedged at issuance to the U.S. dollar equivalent of \$7,725 million.
- (g) Included \$1,894 million and \$1,955 million of covered bonds at June 30, 2012 and December 31, 2011, respectively. If the short-term credit rating of GECC were reduced below A-1/P-1, GECC would be required to partially cash collateralize these bonds in an amount up to \$696 million at June 30, 2012.
- (h) Included at June 30, 2012 and December 31, 2011, were \$8,734 million and \$10,714 million of current portion of long-term borrowings, respectively, and \$21,962 million and \$18,544 million of long-term borrowings, respectively. See Note 18.
- (i) Included \$15,224 million and \$16,281 million of deposits in non-U.S. banks at June 30, 2012 and December 31, 2011, respectively, and \$18,244 million and \$17,201 million of certificates of deposits with maturities greater than one year at June 30, 2012 and December 31, 2011, respectively.

(25)

9. POSTRETIREMENT BENEFIT PLANS

We sponsor a number of pension and retiree health and life insurance benefit plans. Principal pension plans include the GE Pension Plan and the GE Supplementary Pension Plan. Principal retiree benefit plans generally provide health and life insurance benefits to employees who retire under the GE Pension Plan with 10 or more years of service. Salaried employees who commence service on or after January 1, 2011 and any employee who commences service on or after January 1, 2012 will not be eligible to participate in the GE Pension Plan, but will participate in a defined contribution retirement plan. Other pension plans include the U.S. and non-U.S. pension plans with pension assets or obligations greater than \$50 million. Smaller pension plans and other retiree benefit plans are not material individually or in the aggregate. The effect on operations of the pension plans follows.

(In millions)	Principal Pension Plans			
	Three months ended June 30		Six months ended June 30	
	2012	2011	2012	2011
Service cost for benefits earned	\$ 340	\$ 283	\$ 688	\$ 561
Prior service cost amortization	70	49	140	95

Net actuarial gain amortization	—	(27)	—	(56)
Retiree benefit plans cost	\$ 306	\$ 303	\$ 623	\$ 608

10. OTHER LIABILITIES

We are involved in numerous remediation actions to clean up hazardous wastes as required by federal and state laws. Liabilities for remediation costs exclude possible insurance recoveries and, when dates and amounts of such costs are not known, are not discounted. When there appears to be a range of possible costs with equal likelihood, liabilities are based on the low end of such range. It is reasonably possible that our environmental remediation exposure will exceed amounts accrued. However, due to uncertainties about the status of laws, regulations, technology and information related to individual sites, such amounts are not reasonably estimable.

(26)

11. INCOME TAXES

The balance of “unrecognized tax benefits,” the amount of related interest and penalties we have provided and what we believe to be the range of reasonably possible changes in the next 12 months were:

(In millions)	At	
	June 30, 2012	December 31, 2011
Unrecognized tax benefits	\$ 5,340	\$ 5,230
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	4,032	3,938
Accrued interest on unrecognized tax benefits	1,051	1,033
Accrued penalties on unrecognized tax benefits	135	121
Reasonably possible reduction to the balance of unrecognized tax benefits		
in succeeding 12 months	0-500	0-900
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	0-400	0-500

(a) Some portion of such reduction may be reported as discontinued operations.

The IRS is currently auditing our consolidated income tax returns for 2008-2009. In addition, certain other U.S. tax deficiency issues and refund claims for previous years were unresolved. The IRS has disallowed the tax loss on our 2003 disposition of ERC Life Reinsurance Corporation. We expect to contest the disallowance of this loss. It is reasonably possible that the unresolved items related to pre-2008 federal tax returns could be resolved during the next 12 months, which could result in a decrease in our balance of “unrecognized tax benefits” – that is, the aggregate tax effect of differences between tax return positions and the benefits recognized in our financial statements. We believe that there are no other jurisdictions in which the outcome of unresolved issues or claims is likely to be material to our results of operations, financial position or cash flows. We further believe that we have made adequate provision for all income tax uncertainties.

GE and GECC file a consolidated U.S. federal income tax return. This enables GE to use GECC tax deductions and credits to reduce the tax that otherwise would have been payable by GE. The GECC effective tax rate for each period reflects the benefit of these tax reductions in the consolidated return. GE makes cash payments to GECC for these tax reductions at the time GE’s tax payments are due. The effect of GECC on the amount of the consolidated tax liability from the formation of the NBCU joint venture will be settled in cash when GECC tax deductions and credits otherwise would have reduced the liability of the group absent the tax on formation.

(27)

12. SHAREOWNERS' EQUITY

A summary of changes to noncontrolling interests follows.

(In millions)	Three months ended June 30		Six months ended June 30	
	2012	2011	2012	2011
Beginning balance	\$ 1,721	\$ 2,254	\$ 1,696	\$ 5,262
Net earnings	33	74	71	168
Dividends	(7)	(5)	(14)	(15)
Repurchase of NBCU shares(a)	—	—	—	(3,070)
Dispositions	—	—	—	(23)
GECC issuance of preferred stock	2,227	—	2,227	—
AOCI and other	(194)	—	(200)	1
Ending balance	\$ 3,780	\$ 2,323	\$ 3,780	\$ 2,323

(a) In January 2011 and prior to the transaction with Comcast Corporation, we acquired 12.3% of NBCU's outstanding shares from Vivendi S.A. See Note 2.

During the second quarter of 2012, GECC issued 22,500 shares of non-cumulative perpetual preferred stock with a \$0.01 par value for proceeds of \$2,227 million. The preferred shares bear an initial fixed interest rate of 7.125% through June 12, 2022 and bear a floating rate equal to three-month LIBOR plus 5.296% thereafter. The preferred stock is callable on June 15, 2022 and is presented as noncontrolling interests in the GE Condensed Statement of Financial Position.

During the second quarter, GECC paid a dividend of \$475 million and a special dividend of \$2,525 million to GE.

13. GECC REVENUES FROM SERVICES

(In millions)	Three months ended June 30		Six months ended June 30	
	2012	2011	2012	2011
Interest on loans	\$ 4,762	\$ 5,017	\$ 9,620	\$ 10,157
Equipment leased to others	2,648	2,852	5,395	5,674
Fees	1,160	1,158	2,320	2,304
Investment income(a)	668	728	1,335	1,421
Financing leases	529	618	1,063	1,283
Associated companies(b)	425	526	695	1,608
Premiums earned by insurance activities	416	491	861	972
Real estate investments	382	430	738	832
Other items	442	578	817	1,141
	\$ 11,432	\$ 12,398	\$ 22,844	\$ 25,392

- (a) Included net other-than-temporary impairments on investment securities of \$32 million and \$54 million in the three months ended June 30, 2012 and 2011, respectively, and \$64 million and \$118 million in the six months ended June 30, 2012 and 2011, respectively.
- (b) During the first quarter of 2011, we sold an 18.6% equity interest in Garanti Bank and recorded a pre-tax gain of \$690 million. As of June 30, 2012, we hold a 1% equity interest, which is classified as an available-for-sale security.

(28)

14. EARNINGS PER SHARE INFORMATION

GE's authorized common stock consists of 13,200,000,000 shares having a par value of \$0.06 each. Information related to the calculation of earnings per share follows.

(In millions; per-share amounts in dollars)	Three months ended June 30			
	2012		2011	
	Diluted	Basic	Diluted	Basic
Amounts attributable to the Company:				
Consolidated				
Earnings from continuing operations for per-share calculation(a)	\$ 3,653	\$ 3,652	\$ 3,564	\$ 3,564
Preferred stock dividends declared	—	—	(75)	(75)
Earnings from continuing operations attributable to common shareowners for per-share calculation(a)	3,653	3,652	3,489	3,489
Earnings (loss) from discontinued operations for per-share calculation(a)	(551)	(551)	194	194
Net earnings attributable to GE common shareowners for per-share calculation(a)	\$ 3,101	\$ 3,101	\$ 3,683	\$ 3,682
Average equivalent shares				
Shares of GE common stock outstanding	10,574	10,574	10,604	10,604
Employee compensation-related shares, including stock options	37	—	35	—
Total average equivalent shares	10,611	10,574	10,639	10,604
Per-share amounts				
Earnings from continuing operations	\$ 0.34	\$ 0.35	\$ 0.33	\$ 0.33
Earnings (loss) from discontinued operations	(0.05)	(0.05)	0.02	0.02
Net earnings	0.29	0.29	0.35	0.35

(a) Included an insignificant amount of dividend equivalents in each of the periods presented.

(29)

(In millions; per-share amounts in dollars)	Six months ended June 30			
	2012		2011	
	Diluted	Basic	Diluted	Basic
Amounts attributable to the Company:				
Consolidated				
Earnings from continuing operations for per-share calculation(a)	\$ 6,899	\$ 6,899	\$ 6,956	\$ 6,956
Preferred stock dividends declared	–	–	(150)	(150)
Earnings from continuing operations attributable to common shareowners for per-share calculation(a)	6,899	6,899	6,806	6,806
Earnings (loss) from discontinued operations for per-share calculation(a)	(768)	(768)	229	229
Net earnings attributable to GE common shareowners for per-share calculation(a)	\$ 6,131	\$ 6,131	\$ 7,034	\$ 7,034
Average equivalent shares				
Shares of GE common stock outstanding	10,574	10,574	10,608	10,608
Employee compensation-related shares, including stock options	34	–	32	–
Total average equivalent shares	10,608	10,574	10,640	10,608
Per-share amounts				
Earnings from continuing operations	\$ 0.65	\$ 0.65	\$ 0.64	\$ 0.64
Earnings (loss) from discontinued operations	(0.07)	(0.07)	0.02	0.02
Net earnings	0.58	0.58	0.66	0.66

(a) Included an insignificant amount of dividend equivalents in each of the periods presented.

For the three and six months ended June 30, 2012 and 2011, there were approximately 245 million and 286 million, respectively, and 283 million and 290 million, respectively, of outstanding stock awards that were not included in the computation of diluted earnings per share because their effect was antidilutive.

Earnings-per-share amounts are computed independently for earnings from continuing operations, earnings (loss) from discontinued operations and net earnings. As a result, the sum of per-share amounts from continuing operations and discontinued operations may not equal the total per-share amounts for net earnings.

15. FAIR VALUE MEASUREMENTS

For a description of how we estimate fair value, see Note 1 in our 2011 consolidated financial statements.

The following tables present our assets and liabilities measured at fair value on a recurring basis. Included in the tables are investment securities primarily supporting obligations to annuitants and policyholders in our run-off insurance operations, supporting obligations to holders of GICs in Trinity (which ceased issuing new investment contracts beginning in the first quarter of 2010), investment securities held at our treasury operations and investments held in our CLL business collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries. Such securities are mainly investment grade.

- (a) There were no securities transferred between Level 1 and Level 2 during the six months ended June 30, 2012.
- (b) The netting of derivative receivables and payables is permitted when a legally enforceable master netting agreement exists and when collateral is posted to us.
- (c) Includes investments in our CLL business in asset-backed securities collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries.
- (d) The fair value of derivatives included an adjustment for non-performance risk. The cumulative adjustment was a loss of \$23 million and \$13 million at June 30, 2012 and December 31, 2011, respectively. See Note 16 for additional information on the composition of our derivative portfolio.
- (e) Included private equity investments and loans designated under the fair value option.
- (f) Primarily represented the liability associated with certain of our deferred incentive compensation plans.

(31)

The following tables present the changes in Level 3 instruments measured on a recurring basis for the three and six months ended June 30, 2012 and 2011, respectively. The majority of our Level 3 balances consist of investment securities classified as available-for-sale with changes in fair value recorded in shareowners' equity.

Changes in Level 3 Instruments for the Three Months Ended June 30, 2012

(35)

Non-Recurring Fair Value Measurements

The following table represents non-recurring fair value amounts (as measured at the time of the adjustment) for those assets remeasured to fair value on a non-recurring basis during the fiscal year and still held at June 30, 2012 and December 31, 2011. These assets can include loans and long-lived assets that have been reduced to fair value when they are held for sale, impaired loans that have been reduced based on the fair value of the underlying collateral, cost and equity method investments and long-lived assets that are written down to fair value when they are impaired and the remeasurement of retained investments in formerly consolidated subsidiaries upon a change in control that results in deconsolidation of a subsidiary, if we sell a controlling interest and retain a noncontrolling stake in the entity. Assets that are written down to fair value when impaired and retained investments are not subsequently adjusted to fair value unless further impairment occurs.

(In millions)	Remeasured during the six months ended June 30, 2012		Remeasured during the year ended December 31, 2011	
	Level 2	Level 3	Level 2	Level 3
Financing receivables and loans held for sale	\$ 171	\$ 2,731	\$ 158	\$ 5,159
Cost and equity method investments(a)	—	266	—	403
Long-lived assets, including real estate	326	2,014	1,343	3,282
Total	\$ 497	\$ 5,011	\$ 1,501	\$ 8,844

(a) Includes the fair value of private equity and real estate funds included in Level 3 of \$57 million and \$123 million at June 30, 2012 and December 31, 2011, respectively.

The following table represents the fair value adjustments to assets measured at fair value on a non-recurring basis and still held at June 30, 2012 and 2011.

(In millions)	Three months ended June 30		Six months ended June 30	
	2012	2011	2012	2011
Financing receivables and loans held for sale	\$ (105)	\$ (263)	\$ (211)	\$ (570)
Cost and equity method investments(a)	(38)	(127)	(58)	(176)
Long-lived assets, including real estate(b)	(107)	(343)	(247)	(863)
Total	\$ (250)	\$ (733)	\$ (516)	\$ (1,609)

(a) Includes fair value adjustments associated with private equity and real estate funds of \$(1) million and \$(8) million in the three months ended June 30, 2012 and 2011, respectively, and \$(2) million and \$(13) million in the six months ended June 30, 2012 and 2011, respectively.

(b) Includes impairments related to real estate equity properties and investments recorded in other costs and expenses of \$6 million and \$339 million in the three months ended June 30, 2012 and 2011, respectively, and \$56 million

and \$776 million in the six months ended June 30, 2012 and 2011, respectively.

(36)

Level 3 Measurements

The following table presents information relating to the significant unobservable inputs of our Level 3 recurring and non-recurring measurements.

(Dollars in millions)	Fair value at June 30, 2012	Valuation technique	Unobservable inputs	Range (weighted average)
Recurring fair value measurements				
Investment securities				
Debt				
U.S. corporate	\$ 1,547	Income approach	Discount rate(a)	2.0%-24.9% (10.6%)
Asset-backed	4,259	Income approach	Discount rate(a)	1.6%-13.3% (4.2%)
Corporate Non-U.S.	912	Income approach	Discount rate(a)	1.3%-30.2% (8.3%)
Other financial assets	367	Market comparables	Weighted average cost of capital	7.6X-8.3X (8.3X)
	275	Market comparables	EBITDA multiple	9.3X-11.7X (9.4X)
Non-recurring fair value measurements				
Financing receivables and loans held for sale	\$ 1,828	Income approach	Capitalization rate(b)	5.4%-11.5% (8.2%)
Cost and equity method investments	119	Income approach	Capitalization rate(b)	7.0%-9.3% (8.3%)
Long-lived assets, including real estate	441	Income approach	Capitalization rate(b)	4.8%-11.0% (7.4%)

(a) Discount rates are determined based on inputs that market participants would use when pricing investments, including credit and liquidity risk. An increase in the discount rate would result in a decrease in the fair value.

- (b) Represents the rate of return on net operating income which is considered acceptable for an investor and is used to determine a property's capitalized value. An increase in the capitalization rate would result in a decrease in the fair value.

Other Level 3 recurring fair value measurements of \$3,097 million and non-recurring measurements of \$2,110 million are valued using non-binding broker quotes or other third-party sources. For a description of our process to evaluate third-party pricing services, see Note 1 in our 2011 consolidated financial statements. Other recurring fair value measurements of \$248 million and non-recurring fair value measurements of \$513 million were individually insignificant and utilize a number of different unobservable inputs not subject to meaningful aggregation.

(37)

16. FINANCIAL INSTRUMENTS

The following table provides information about the assets and liabilities not carried at fair value in our Condensed Statement of Financial Position. Consistent with ASC 825, Financial Instruments, the table excludes finance leases and non-financial assets and liabilities. Substantially all of the assets discussed below are considered to be Level 3 in accordance with ASC 820. The vast majority of our liabilities' fair value can be determined based on significant observable inputs and thus considered Level 2 in accordance with ASC 820. Few of the instruments are actively traded and their fair values must often be determined using financial models. Realization of the fair value of these instruments depends upon market forces beyond our control, including marketplace liquidity. For a description on how we estimate fair value, see Note 22 in our 2011 consolidated financial statements.

(In millions)	Notional amount	At		Notional amount	At	
		June 30, 2012	December 31, 2011		June 30, 2012	December 31, 2011
		Assets (liabilities) Carrying amount (net)	Estimated fair value		Assets (liabilities) Carrying amount (net)	Estimated fair value
GE						
Assets						
Investments and notes						
receivable	\$ (a)	\$ 277	\$ 277	\$ (a)	\$ 285	\$ 285
Liabilities						
Borrowings	(a)	(11,715)	(12,690)	(a)	(11,589)	(12,535)
GECC						
Assets						
Loans	(a)	238,676	239,561	(a)	250,999	251,433
Other commercial mortgages	(a)	1,510	1,556	(a)	1,494	1,537
Loans held for sale	(a)	903	914	(a)	496	497

Guaranteed investment contracts	(a)	(1,805)	(1,840)	(a)	(4,226)	(4,266)
Insurance – credit life(e)	2,065	(108)	(92)	1,944	(106)	(88)

(a) These financial instruments do not have notional amounts.

- (b) See Note 8.
- (c) Principally cost method investments.
- (d) Fair values exclude interest rate and currency derivatives designated as hedges of borrowings. Had they been included, the fair value of borrowings at June 30, 2012 and December 31, 2011 would have been reduced by \$7,700 million and \$9,051 million, respectively.
- (e) Net of reinsurance of \$2,000 million at both June 30, 2012 and December 31, 2011.

(38)

Loan Commitments

(In millions)	Notional amount at	
	June 30, 2012	December 31, 2011
Ordinary course of business lending commitments(a)	\$ 3,101	\$ 3,756
Unused revolving credit lines(b)		
Commercial(c)	17,116	18,757
Consumer – principally credit cards	258,648	257,646

(a) Excluded investment commitments of \$2,204 million and \$2,064 million as of June 30, 2012 and December 31, 2011, respectively.

(b) Excluded inventory financing arrangements, which may be withdrawn at our option, of \$12,315 million and \$12,354 million as of June 30, 2012 and December 31, 2011, respectively.

(c) Included commitments of \$12,705 million and \$14,057 million as of June 30, 2012 and December 31, 2011, respectively, associated with secured financing arrangements that could have increased to a maximum of \$15,330 million and \$17,344 million at June 30, 2012 and December 31, 2011, respectively, based on asset volume under the arrangement.

Derivatives and hedging

As a matter of policy, we use derivatives for risk management purposes, and we do not use derivatives for speculative purposes. A key risk management objective for our financial services businesses is to mitigate interest rate and currency risk by seeking to ensure that the characteristics of the debt match the assets they are funding. If the form (fixed versus floating) and currency denomination of the debt we issue do not match the related assets, we typically execute derivatives to adjust the nature and tenor of funding to meet this objective. The determination of whether we enter into a derivative transaction or issue debt directly to achieve this objective depends on a number of factors, including market related factors that affect the type of debt we can issue.

The notional amounts of derivative contracts represent the basis upon which interest and other payments are calculated and are reported gross, except for offsetting foreign currency forward contracts that are executed in order to manage our currency risk of net investment in foreign subsidiaries. Of the outstanding notional amount of \$329,000 million, approximately 88% or \$290,000 million, is associated with reducing or eliminating the interest rate, currency or market risk between financial assets and liabilities in our financial services businesses. The remaining derivative activities primarily relate to hedging against adverse changes in currency exchange rates and commodity prices related to anticipated sales and purchases and contracts containing certain clauses which meet the accounting definition of a derivative. The instruments used in these activities are designated as hedges when practicable. When we are not able to apply hedge accounting, or when the derivative and the hedged item are both recorded in earnings concurrently, the derivatives are deemed economic hedges and hedge accounting is not applied. This most frequently occurs when we hedge a recognized foreign currency transaction (e.g., a receivable or payable) with a derivative. Since the effects of changes in exchange rates are reflected concurrently in earnings for both the derivative and the transaction, the

economic hedge does not require hedge accounting.

(39)

The following table provides information about the fair value of our derivatives, by contract type, separating those accounted for as hedges and those that are not.

(In millions)	At			
	June 30, 2012		December 31, 2011	
	Fair value		Fair value	
	Assets	Liabilities	Assets	Liabilities
Derivatives accounted for as hedges				
Interest rate contracts	\$ 8,824	995	\$ 9,446	\$ 1,049
Currency exchange contracts	2,115	1,826	3,750	2,325
Other contracts	1	6	1	11
	10,940	2,827	13,197	3,385
Derivatives not accounted for as hedges				
Interest rate contracts	323	188	319	241
Currency exchange contracts	1,518	1,714	1,748	1,274
Other contracts	442	96	381	137
	2,283	1,998	2,448	1,652
Netting adjustments(a)	(3,211)	(3,188)	(3,294)	(3,281)
Cash collateral(b)(c)	(3,731)	(616)	(2,310)	(1,027)
Total	\$ 6,281	\$ 1,021	\$ 10,041	\$ 729

Derivatives are classified in the captions "All other assets" and "All other liabilities" in our financial statements.

(a) The netting of derivative receivables and payables is permitted when a legally enforceable master netting agreement exists. Amounts included fair value adjustments related to our own and counterparty non-performance risk. At June 30, 2012 and December 31, 2011, the cumulative adjustment for non-performance risk was a loss of \$23 million and \$13 million, respectively.

(b) Excludes excess cash collateral received of \$265 million and \$579 million at June 30, 2012 and December 31, 2011, respectively. Excludes excess cash collateral posted of \$6 million at June 30, 2012.

(c) Excludes securities pledged to us as collateral of \$7,442 million and \$10,574 million at June 30, 2012 and December 31, 2011, respectively. Includes excess securities collateral of \$1,116 million at June 30, 2012.

Fair value hedges

We use interest rate and currency exchange derivatives to hedge the fair value effects of interest rate and currency exchange rate changes on local and non-functional currency denominated fixed-rate debt. For relationships designated as fair value hedges, changes in fair value of the derivatives are recorded in earnings within interest and other financial charges, along with offsetting adjustments to the carrying amount of the hedged debt. The following tables provide information about the earnings effects of our fair value hedging relationships for the three and six months ended June

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

30, 2012 and 2011, respectively.

(In millions)	Three months ended June 30			
	2012	2012	2011	2011
	Gain (loss) on hedging derivatives	Gain (loss) on hedged items	Gain (loss) on hedging derivatives	Gain (loss) on hedged items
Interest rate contracts	\$ 2,232	\$ (2,312)	\$ 1,341	\$ (1,466)
Currency exchange contracts	(164)	162	15	(20)

Fair value hedges resulted in \$(82) million and \$(130) million of ineffectiveness in the three months ended June 30, 2012 and 2011, respectively. In both the three months ended June 30, 2012 and 2011, there were insignificant amounts excluded from the assessment of effectiveness.

(40)

(In millions)	Six months ended June 30			
	2012	2011	2012	2011
	Gain (loss) on hedging derivatives	Gain (loss) on hedged items	Gain (loss) on hedging derivatives	Gain (loss) on hedged items
Interest rate contracts	\$ 785	\$ (962)	\$ (390)	\$ 195
Currency exchange contracts	(212)	202	39	(47)

Fair value hedges resulted in \$(187) million and \$(203) million of ineffectiveness in the six months ended June 30, 2012 and 2011, respectively. In both the six months ended June 30, 2012 and 2011, there were insignificant amounts excluded from the assessment of effectiveness.

Cash flow hedges

We use interest rate, currency exchange and commodity derivatives to reduce the variability of expected future cash flows associated with variable rate borrowings and commercial purchase and sale transactions, including commodities. For derivatives that are designated in a cash flow hedging relationship, the effective portion of the change in fair value of the derivative is reported as a component of AOCI and reclassified into earnings contemporaneously and in the same caption with the earnings effects of the hedged transaction.

The following tables provide information about the amounts recorded in AOCI, as well as the gain (loss) recorded in earnings, primarily in interest and other financial charges, when reclassified out of AOCI, for the three and six months ended June 30, 2012 and 2011, respectively.

(In millions)	Gain (loss) recognized in AOCI for the three months ended June 30		Gain (loss) reclassified from AOCI into earnings for the three months ended June 30	
	2012	2011	2012	2011
	Cash flow hedges			
Interest rate contracts	\$ (52)	\$ (141)	\$ (125)	\$ (221)
Currency exchange contracts	(533)	500	(432)	459
Commodity contracts	(5)	2	(1)	12
Total	\$ (590)	\$ 361	\$ (558)	\$ 250

(In millions)	Gain (loss) recognized in AOCI for the six months ended June 30		Gain (loss) reclassified from AOCI into earnings for the six months ended June 30	

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

	2012	2011	2012	2011
Cash flow hedges				
Interest rate contracts	\$ (79)	\$ (117)	\$ (266)	\$ (478)
Currency exchange contracts	(398)	764	(418)	952
Commodity contracts	4	2	(2)	8
Total	\$ (473)	\$ 649	\$ (686)	\$ 482

The total pre-tax amount in AOCI related to cash flow hedges of forecasted transactions was a \$1,234 million loss at June 30, 2012. We expect to transfer \$531 million to earnings as an expense in the next 12 months contemporaneously with the earnings effects of the related forecasted transactions. In both the three and six months ended June 30, 2012 and 2011, we recognized insignificant gains and losses, respectively, related to hedged forecasted transactions and firm commitments that did not occur by the end of the originally specified period. At June 30, 2012 and 2011, the maximum term of derivative instruments that hedge forecasted transactions was 20 years and 21 years, respectively.

(41)

For cash flow hedges, the amount of ineffectiveness in the hedging relationship and amount of the changes in fair value of the derivatives that are not included in the measurement of ineffectiveness are both reflected in earnings each reporting period. These amounts are primarily reported in GECC revenues from services and totaled \$(1) million and \$(16) million in the three months ended June 30, 2012 and 2011, respectively, and \$3 million and \$12 million in the six months ended June 30, 2012 and 2011, respectively.

Net investment hedges in foreign operations

We use currency exchange derivatives to protect our net investments in global operations conducted in non-U.S. dollar currencies. For derivatives that are designated as hedges of net investment in a foreign operation, we assess effectiveness based on changes in spot currency exchange rates. Changes in spot rates on the derivative are recorded as a component of AOCI until such time as the foreign entity is substantially liquidated or sold. The change in fair value of the forward points, which reflects the interest rate differential between the two countries on the derivative, is excluded from the effectiveness assessment.

The following tables provide information about the amounts recorded in AOCI for the three and six months ended June 30, 2012 and 2011, respectively, as well as the gain (loss) recorded in GECC revenues from services when reclassified out of AOCI.

(In millions)	Gain (loss) recognized in CTA for the three months ended June 30		Gain (loss) reclassified from CTA for the three months ended June 30	
	2012	2011	2012	2011
Net investment hedges				
Currency exchange contracts	\$ 1,853	\$ (2,605)	\$ (2)	\$ (360)

(In millions)	Gain (loss) recognized in CTA for the six months ended June 30		Gain (loss) reclassified from CTA for the six months ended June 30	
	2012	2011	2012	2011
Net investment hedges				
Currency exchange contracts	\$ 351	\$ (3,406)	\$ (12)	\$ (698)

The amounts related to the change in the fair value of the forward points that are excluded from the measure of effectiveness were \$(260) million and \$(377) million in the three months ended June 30, 2012 and 2011, respectively, and \$(480) million and \$(655) million in the six months ended June 30, 2012 and 2011, respectively, and are recorded in interest and other financial charges.

Free-standing derivatives

Changes in the fair value of derivatives that are not designated as hedges are recorded in earnings each period. As discussed above, these derivatives are typically entered into as economic hedges of changes in interest rates, currency exchange rates, commodity prices and other risks. Gains or losses related to the derivative are typically recorded in GECC revenues from services or other income, based on our accounting policy. In general, the earnings effects of the item that represent the economic risk exposure are recorded in the same caption as the derivative. Losses for the six months ended June 30, 2012 on derivatives not designated as hedges were \$(1,564) million composed of amounts related to interest rate contracts of \$(134) million, currency exchange contracts of \$(1,520) million, and other derivatives of \$90 million. These losses were more than offset by the earnings effects from the underlying items that

were economically hedged. Gains for the six months ended June 30, 2011 on derivatives not designated as hedges were \$843 million composed of amounts related to interest rate contracts of \$(17) million, currency exchange contracts of \$834 million, and other derivatives of \$26 million. These gains more than offset the earnings effects from the underlying items that were economically hedged.

(42)

Counterparty credit risk

Fair values of our derivatives can change significantly from period to period based on, among other factors, market movements and changes in our positions. We manage counterparty credit risk (the risk that counterparties will default and not make payments to us according to the terms of our agreements) on an individual counterparty basis. Where we have agreed to netting of derivative exposures with a counterparty, we net our exposures with that counterparty and apply the value of collateral posted to us to determine the exposure. We actively monitor these net exposures against defined limits and take appropriate actions in response, including requiring additional collateral.

As discussed above, we have provisions in certain of our master agreements that require counterparties to post collateral (typically, cash or U.S. Treasury securities) when our receivable due from the counterparty, measured at current market value, exceeds a specified limit. At June 30, 2012, our exposure to counterparties, including interest due, and net of collateral we hold, was \$404 million. The fair value of such collateral was \$10,057 million, of which \$3,731 million was cash and \$6,326 million was in the form of securities held by a custodian for our benefit. Under certain of these same agreements, we post collateral to our counterparties for our derivative obligations, the fair value of which was \$616 million at June 30, 2012.

Additionally, our master agreements typically contain mutual downgrade provisions that provide the ability of each party to require termination if the long-term credit rating of the counterparty were to fall below A-/A3. In certain of these master agreements, each party also has the ability to require termination if the short-term rating of the counterparty were to fall below A-1/P-1. The net amount relating to our derivative liability subject to these provisions, after consideration of collateral posted by us and outstanding interest payments, was \$947 million at June 30, 2012.

17. SUPPLEMENTAL INFORMATION ABOUT THE CREDIT QUALITY OF FINANCING RECEIVABLES AND ALLOWANCE FOR LOSSES ON FINANCING RECEIVABLES

We provide further detailed information about the credit quality of our Commercial, Real Estate and Consumer financing receivables portfolios. For each portfolio, we describe the characteristics of the financing receivables and provide information about collateral, payment performance, credit quality indicators, and impairment. We manage these portfolios using delinquency and nonearning data as key performance indicators. The categories used within this section such as impaired loans, troubled debt restructuring (TDR) and nonaccrual financing receivables are defined by the authoritative guidance and we base our categorization on the related scope and definitions contained in the related standards. The categories of nonearning and delinquent are defined by us and are used in our process for managing our financing receivables. Definitions of these categories are provided in Note 1 in our 2011 consolidated financial statements.

COMMERCIAL

We recognized \$115 million, \$193 million and \$85 million of interest income, including \$49 million, \$59 million and \$25 million on a cash basis, for the six months ended June 30, 2012, the year ended December 31, 2011 and the six months ended June 30, 2011, respectively, principally in our CLL Americas business. The total average investment in impaired loans for the six months ended June 30, 2012 and the year ended December 31, 2011 was \$5,818 million and

\$5,866 million, respectively.

(46)

Impaired loans classified as TDRs in our CLL business were \$4,319 million and \$3,642 million at June 30, 2012 and December 31, 2011, respectively, and were primarily attributable to CLL Americas (\$3,098 million and \$2,746 million, respectively). For the six months ended June 30, 2012, we modified \$1,800 million of loans classified as TDRs, primarily in CLL Americas (\$1,157 million) and CLL EMEA (\$532 million). Changes to these loans primarily included debt to equity exchange, extensions, interest only payment periods and forbearance or other actions, which are in addition to, or sometimes in lieu of, fees and rate increases. Of our \$2,796 million of modifications classified as TDRs in the last twelve months, \$96 million have subsequently experienced a payment default in the last six months.

Credit Quality Indicators

Substantially all of our Commercial financing receivables portfolio is secured lending and we assess the overall quality of the portfolio based on the potential risk of loss measure. The metric incorporates both the borrower's credit quality along with any related collateral protection.

Our internal risk ratings process is an important source of information in determining our allowance for losses and represents a comprehensive, statistically validated approach to evaluate risk in our financing receivables portfolios. In deriving our internal risk ratings, we stratify our Commercial portfolios into twenty-one categories of default risk and/or six categories of loss given default to group into three categories: A, B and C. Our process starts by developing an internal risk rating for our borrowers, which are based upon our proprietary models using data derived from borrower financial statements, agency ratings, payment history information, equity prices and other commercial borrower characteristics. We then evaluate the potential risk of loss for the specific lending transaction in the event of borrower default, which takes into account such factors as applicable collateral value, historical loss and recovery rates for similar transactions, and our collection capabilities. Our internal risk ratings process and the models we use are subject to regular monitoring and validation controls. The frequency of rating updates is set by our credit risk policy, which requires annual Audit Committee approval. The models are updated on a regular basis and statistically validated annually, or more frequently as circumstances warrant.

The table below summarizes our Commercial financing receivables by risk category. As described above, financing receivables are assigned one of twenty-one risk ratings based on our process and then these are grouped by similar characteristics into three categories in the table below. Category A is characterized by either high credit quality borrowers or transactions with significant collateral coverage which substantially reduces or eliminates the risk of loss in the event of borrower default. Category B is characterized by borrowers with weaker credit quality than those in Category A, or transactions with moderately strong collateral coverage which minimizes but may not fully mitigate the risk of loss in the event of default. Category C is characterized by borrowers with higher levels of default risk relative to our overall portfolio or transactions where collateral coverage may not fully mitigate a loss in the event of default.

For our secured financing receivables portfolio, our collateral position and ability to work out problem accounts mitigates our losses. Our asset managers have deep industry expertise that enables us to identify the optimum approach to default situations. We price risk premiums for weaker credits at origination, closely monitor changes in creditworthiness through our risk ratings and watch list process, and are engaged early with deteriorating credits to minimize economic loss. Secured financing receivables within risk Category C are predominantly in our CLL businesses and are primarily composed of senior term lending facilities and factoring programs secured by various asset types including inventory, accounts receivable, cash, equipment and related business facilities as well as franchise finance activities secured by underlying equipment.

Loans within Category C are reviewed and monitored regularly, and classified as impaired when it is probable that they will not pay in accordance with contractual terms. Our internal risk rating process identifies credits warranting

closer monitoring; and as such, these loans are not necessarily classified as nonearning or impaired.

Our unsecured Commercial financing receivables portfolio is primarily attributable to our Interbanca S.p.A. and GE Sanyo Credit acquisitions in Europe and Asia, respectively. At June 30, 2012 and December 31, 2011, these financing receivables included \$320 million and \$325 million rated A, \$947 million and \$748 million rated B, and \$542 million and \$596 million rated C, respectively.

Business Properties	232	232	215	397	397	105	460
Total	\$ 3,790	\$ 3,846	\$ 3,783	\$ 4,957	\$ 5,049	\$ 822	\$ 5,895

We recognized \$183 million, \$399 million and \$206 million of interest income, including \$129 million, \$339 million and \$201 million on a cash basis, for the six months ended June 30, 2012, the year ended December 31, 2011 and the six months ended June 30, 2011, respectively, principally in our Real Estate-Debt portfolio. The total average investment in impaired loans for the six months ended June 30, 2012 and the year ended December 31, 2011 was \$8,151 million and \$9,678 million, respectively.

Real Estate TDRs decreased from \$7,006 million at December 31, 2011 to \$6,330 million at June 30, 2012, primarily driven by resolution of TDRs through paydowns, restructurings and foreclosures, partially offset by extensions of loans scheduled to mature during 2012, some of which were classified as TDRs upon modification. We deem loan modifications to be TDRs when we have granted a concession to a borrower experiencing financial difficulty and we do not receive adequate compensation in the form of an effective interest rate that is at current market rates of interest given the risk characteristics of the loan or other consideration that compensates us for the value of the concession. The limited liquidity and higher return requirements in the real estate market for loans with higher loan-to-value (LTV) ratios has typically resulted in the conclusion that the modified terms are not at current market rates of interest, even if the modified loans are expected to be fully recoverable. For the six months ended June 30, 2012, we modified \$2,269 million of loans classified as TDRs, substantially all in our Debt portfolio. Changes to these loans primarily included maturity extensions, principal payment acceleration, changes to collateral or covenant terms and cash sweeps, which are in addition to, or sometimes in lieu of, fees and rate increases. Of our \$4,454 million of modifications classified as TDRs in the last twelve months, \$407 million have subsequently experienced a payment default in the last six months.

Credit Quality Indicators

Due to the primarily non-recourse nature of our Debt portfolio, loan-to-value ratios provide the best indicators of the credit quality of the portfolio. By contrast, the credit quality of the Business Properties portfolio is primarily influenced by the strength of the borrower's general credit quality, which is reflected in our internal risk rating process, consistent with the process we use for our Commercial portfolio.

(50)

(In millions)	Loan-to-value ratio					
	June 30, 2012			December 31, 2011		
	Less than 80%	80% to 95%	Greater than 95%	Less than 80%	80% to 95%	Greater than 95%
Debt	\$ 14,349	\$ 3,787	\$ 4,273	\$ 14,454	\$ 4,593	\$ 5,454

(In millions)	Internal Risk Rating					
	June 30, 2012			December 31, 2011		
	A	B	C	A	B	C
Business Properties	\$ 4,861	\$ 84	\$ 356	\$ 7,628	\$ 110	\$ 510

Within Real Estate-Debt, these financing receivables are primarily concentrated in our North American and European Lending platforms and are secured by various property types. A substantial majority of the Real Estate-Debt financing receivables with loan-to-value ratios greater than 95% are paying in accordance with contractual terms. Substantially all of these loans and substantially all of the Real Estate-Business Properties financing receivables included in Category C are impaired loans which are subject to the specific reserve evaluation process described in Note 1 in our 2011 consolidated financial statements. The ultimate recoverability of impaired loans is driven by collection strategies that do not necessarily depend on the sale of the underlying collateral and include full or partial repayments through third-party refinancing and restructurings.

CONSUMER

At June 30, 2012, our U.S. consumer financing receivables included private-label credit card and sales financing for approximately 52 million customers across the U.S. with no metropolitan area accounting for more than 6% of the portfolio. Of the total U.S. consumer financing receivables, approximately 64% relate to credit card loans, which are often subject to profit and loss sharing arrangements with the retailer (which are recorded in revenues), and the remaining 36% are sales finance receivables, which provide financing to customers in areas such as electronics, recreation, medical and home improvement.

Financing Receivables and Allowance for Losses

The following table provides further information about general and specific reserves related to Consumer financing receivables.

(In millions)	Financing receivables	
	June 30, 2012	December 31, 2011
Non-U.S. residential mortgages	\$ 33,826	\$ 35,550

Allowance for losses percentage	71.5 %	73.8 %	75.5 %	77.9 %

(52)

Impaired Loans

The vast majority of our Consumer nonaccrual financing receivables are smaller balance homogeneous loans evaluated collectively, by portfolio, for impairment and therefore are outside the scope of the disclosure requirement for impaired loans. Accordingly, impaired loans in our Consumer business represent restructured smaller balance homogeneous loans meeting the definition of a TDR, and are therefore subject to the disclosure requirement for impaired loans, and commercial loans in our Consumer–Other portfolio. The recorded investment of these impaired loans totaled \$3,003 million (with an unpaid principal balance of \$3,384 million) and comprised \$106 million with no specific allowance, primarily all in our Consumer–Other portfolio, and \$2,897 million with a specific allowance of \$625 million at June 30, 2012. The impaired loans with a specific allowance included \$303 million with a specific allowance of \$98 million in our Consumer–Other portfolio and \$2,594 million with a specific allowance of \$527 million across the remaining Consumer business and had an unpaid principal balance and average investment of \$3,241 million and \$2,876 million, respectively, at June 30, 2012. We recognized \$76 million, \$141 million and \$54 million of interest income, including \$3 million, \$15 million and \$2 million on a cash basis, for the six months ended June 30, 2012, the year ended December 31, 2011 and the six months ended June 30, 2011, respectively, principally in our Consumer–U.S. installment and revolving credit portfolios. The total average investment in impaired loans for the six months ended June 30, 2012 and the year ended December 31, 2011 was \$2,971 million and \$2,623 million, respectively.

Impaired loans classified as TDRs in our Consumer business were \$2,859 million and \$2,723 million at June 30, 2012 and December 31, 2011, respectively. We utilize certain loan modification programs for borrowers experiencing financial difficulties in our Consumer loan portfolio. These loan modification programs primarily include interest rate reductions and payment deferrals in excess of three months, which were not part of the terms of the original contract, and are primarily concentrated in our non-U.S. residential mortgage and U.S. credit card portfolios. For the six months ended June 30, 2012, we modified \$913 million of consumer loans for borrowers experiencing financial difficulties, which are classified as TDRs, and included \$623 million of non-U.S. consumer loans, primarily residential mortgages, credit cards and personal loans and \$290 million of U.S. consumer loans, primarily credit cards. We expect borrowers whose loans have been modified under these programs to continue to be able to meet their contractual obligations upon the conclusion of the modification. Of our \$2,106 million of modifications classified as TDRs in the last twelve months, \$352 million have subsequently experienced a payment default in the last six months, primarily in our installment and revolving credit portfolios.

Credit Quality Indicators

Our Consumer financing receivables portfolio comprises both secured and unsecured lending. Secured financing receivables comprise residential loans and lending to small and medium-sized enterprises predominantly secured by auto and equipment, inventory finance, and cash flow loans. Unsecured financing receivables include private-label credit card financing. A substantial majority of these cards are not for general use and are limited to the products and services sold by the retailer. The private label portfolio is diverse with no metropolitan area accounting for more than 5% of the related portfolio.

Non-U.S. residential mortgages

For our secured non-U.S. residential mortgage book, we assess the overall credit quality of the portfolio through loan-to-value ratios (the ratio of the outstanding debt on a property to the value of that property at origination). In the event of default and repossession of the underlying collateral, we have the ability to remarket and sell the properties to eliminate or mitigate the potential risk of loss. The table below provides additional information about our non-U.S. residential mortgages based on loan-to-value ratios.

(In millions)	Loan-to-value ratio					
	80% or less	June 30, 2012 Greater than 80% to 90%	Greater than 90%	80% or less	December 31, 2011 Greater than 80% to 90%	Greater than 90%
Non-U.S. residential mortgages	\$ 18,861	\$ 5,815	\$ 9,150	\$ 19,834	\$ 6,087	\$ 9,629

The majority of these financing receivables are in our U.K. and France portfolios and have re-indexed loan-to-value ratios of 84% and 57%, respectively. We have third-party mortgage insurance for approximately 64% of the balance of Consumer non-U.S. residential mortgage loans with loan-to-value ratios greater than 90% at June 30, 2012. Such loans were primarily originated in the U.K., Poland and France.

Installment and Revolving Credit

For our unsecured lending products, including the non-U.S. and U.S. installment and revolving credit and non-U.S. auto portfolios, we assess overall credit quality using internal and external credit scores. Our internal credit scores imply a probability of default which we consistently translate into three approximate credit bureau equivalent credit score categories, including (a) 681 or higher, which are considered the strongest credits; (b) 615 to 680, considered moderate credit risk; and (c) 614 or less, which are considered weaker credits.

(In millions)	Internal ratings translated to approximate credit bureau equivalent score					
	681 or higher	June 30, 2012 615 to 680	614 or less	681 or higher	December 31, 2011 615 to 680	614 or less
Non-U.S. installment and revolving credit	\$ 9,966	\$ 4,505	\$ 3,489	\$ 9,913	\$ 4,838	\$ 3,793
U.S. installment and revolving credit	29,824	8,607	7,100	28,918	9,398	8,373
Non-U.S. auto	3,429	802	509	3,927	1,092	672

(54)

Of those financing receivable accounts with credit bureau equivalent scores of 614 or less at June 30, 2012, 95% relate to installment and revolving credit accounts. These smaller balance accounts have an average outstanding balance less than one thousand U.S. dollars and are primarily concentrated in our retail card and sales finance receivables in the U.S. (which are often subject to profit and loss sharing arrangements), and closed-end loans outside the U.S., which minimizes the potential for loss in the event of default. For lower credit scores, we adequately price for the incremental risk at origination and monitor credit migration through our risk ratings process. We continuously adjust our credit line underwriting management and collection strategies based on customer behavior and risk profile changes.

Consumer – Other

Secured lending in Consumer – Other comprises loans to small and medium-sized enterprises predominantly secured by auto and equipment, inventory finance and cash flow loans. We develop our internal risk ratings for this portfolio in a manner consistent with the process used to develop our Commercial credit quality indicators, described above. We use the borrower's credit quality and underlying collateral strength to determine the potential risk of loss from these activities.

At June 30, 2012, Consumer – Other financing receivables of \$6,203 million, \$576 million and \$864 million were rated A, B, and C, respectively. At December 31, 2011, Consumer – Other financing receivables of \$5,580 million, \$757 million and \$907 million were rated A, B, and C, respectively.

18. VARIABLE INTEREST ENTITIES

We securitize financial assets and arrange other forms of asset-backed financing in the ordinary course of business. The securitization transactions we engage in are similar to those used by many financial institutions. These securitization transactions serve as alternative funding sources for a variety of diversified lending and securities transactions. Historically, we have used both GE-supported and third-party VIEs to execute off-balance sheet securitization transactions funded in the commercial paper and term markets. The largest group of VIEs that we are involved with are former Qualified Special Purpose Entities (QSPEs), which under guidance in effect through December 31, 2009 were excluded from the scope of consolidation standards based on their characteristics. Except as noted below, investors in these entities only have recourse to the assets owned by the entity and not to our general credit. We do not have implicit support arrangements with any VIE. We did not provide non-contractual support for previously transferred financing receivables to any VIE in 2012 or 2011.

In evaluating whether we have the power to direct the activities of a VIE that most significantly impact its economic performance, we consider the purpose for which the VIE was created, the importance of each of the activities in which it is engaged and our decision-making role, if any, in those activities that significantly determine the entity's economic performance as compared to other economic interest holders. This evaluation requires consideration of all facts and circumstances relevant to decision-making that affects the entity's future performance and the exercise of professional judgment in deciding which decision-making rights are most important.

In determining whether we have the right to receive benefits or the obligation to absorb losses that could potentially be significant to the VIE, we evaluate all of our economic interests in the entity, regardless of form (debt, equity, management and servicing fees, and other contractual arrangements). This evaluation considers all relevant factors of the entity's design, including: the entity's capital structure, contractual rights to earnings (losses), subordination of our interests relative to those of other investors, contingent payments, as well as other contractual arrangements that have potential to be economically significant. The evaluation of each of these factors in reaching a conclusion about the

potential significance of our economic interests is a matter that requires the exercise of professional judgment.

(55)

Consolidated Variable Interest Entities

We consolidate VIEs because we have the power to direct the activities that significantly affect the VIEs economic performance, typically because of our role as either servicer or manager for the VIE. Our consolidated VIEs fall into three main groups, which are further described below:

- Trinity comprises two consolidated entities that hold investment securities, the majority of which are investment grade, and were funded by the issuance of GICs. These entities were consolidated in 2003 and ceased issuing new investment contracts beginning in the first quarter of 2010. Since 2004, GECC has fully guaranteed repayment of these entities' GIC obligations. These obligations include conditions under which certain GIC holders could require immediate repayment of their investment should the long-term credit ratings of GECC fall below AA-/Aa3 or the short-term credit ratings fall below A-1+/P-1. To the extent that amounts due were to exceed the ultimate value of proceeds realized from Trinity assets, GECC would be required to provide such excess amount. Following the April 3, 2012 Moody's downgrade of GECC's long-term credit ratings to A1, substantially all of these GICs became redeemable by the holders. In the second quarter of 2012, holders of \$1,981 million of GICs redeemed their holdings. The redemption was funded primarily through advances from GECC. The remaining outstanding GICs will continue to be subject to the existing terms and maturities of their respective contracts.
- Consolidated Securitization Entities (CSEs) comprise primarily our previously unconsolidated QSPEs that were consolidated on January 1, 2010 in connection with our adoption of ASU 2009-16 & 17. These entities were created to facilitate securitization of financial assets and other forms of asset-backed financing which serve as an alternative funding source by providing access to the commercial paper and term markets. The securitization transactions executed with these entities are similar to those used by many financial institutions and substantially all are non-recourse. We provide servicing for substantially all of the assets in these entities.

The financing receivables in these entities have similar risks and characteristics to our other financing receivables and were underwritten to the same standard. Accordingly, the performance of these assets has been similar to our other financing receivables; however, the blended performance of the pools of receivables in these entities reflects the eligibility criteria that we apply to determine which receivables are selected for transfer. Contractually the cash flows from these financing receivables must first be used to pay third-party debt holders as well as other expenses of the entity. Excess cash flows are available to GE. The creditors of these entities have no claim on other assets of GE.

- Other remaining assets and liabilities of consolidated VIEs relate primarily to four categories of entities: (1) enterprises we acquired that had previously created asset-backed financing entities to fund commercial, middle-market and equipment loans; we are the collateral manager for these entities of \$823 million of assets and \$754 million of liabilities; (2) joint ventures that lease light industrial equipment of \$1,620 million of assets and \$880 million of liabilities; (3) other entities that are involved in power generating and leasing activities of \$2,343 million of assets and \$583 million of liabilities; and (4) insurance entities that, among other lines of business, provide property and casualty and workers' compensation coverage for GE of \$1,198 million of assets and \$604 million of liabilities.

The table below summarizes the assets and liabilities of consolidated VIEs described above.

(In millions)	Trinity	Consolidated Securitization Entities					Other(c)	Total
		Credit Cards(a)	Equipment(a)	Real Estate(b)	Trade Receivables			
June 30, 2012								
Assets(d)

Assets(d)								
Financing								
receivables, net \$	–	\$ 19,229	\$ 10,523	\$ 3,521	\$ 1,614	\$ 2,973	\$ 37,860	
Investment								
securities	4,289	–	–	–	–	1,031	5,320	
Other assets	389	17	283	210	–	2,636	3,535	
Total	\$ 4,678	\$ 19,246	\$ 10,806	\$ 3,731	\$ 1,614	\$ 6,640	\$ 46,715	
Liabilities(d)								
Borrowings	\$ –	\$ –	\$ 2	\$ 25	\$ –	\$ 821	\$ 848	
Non-recourse								
borrowings	–	14,184	8,166	3,659	1,769	980	28,758	
Other liabilities	4,456	37	–	19	23	1,071	5,606	
Total	\$ 4,456	\$ 14,221	\$ 8,168	\$ 3,703	\$ 1,792	\$ 2,872	\$ 35,212	

(a) We provide servicing to the CSEs and are contractually permitted to commingle cash collected from customers on financing receivables sold to investors with our own cash prior to payment to a CSE, provided our short-term credit rating does not fall below A-1/P-1. These CSEs also owe us amounts for purchased financial assets and scheduled quarterly distributions. At June 30, 2012, the amounts owed to the CSEs and receivable from the CSEs were \$6,062 million and \$5,112 million, respectively.

(b) During the second quarter of 2012, we made the decision to sell our Business Property business, which includes servicing rights for most of these CSEs. Following the sale and upon the trust's acceptance of the buyer as the new

servicer, we will deconsolidate substantially all of these securitization entities as we will no longer have the power to direct these entities.

- (c) Includes \$1,415 million in other assets and \$537 million of borrowings at June 30, 2012 due to the consolidation of an entity involved in power generating activities. This entity was previously subject to a leveraged lease and we consolidated this entity in March 2012 following the execution of an agreement that gave us the power to direct activities of this entity.
- (d) Asset amounts exclude intercompany receivables for cash collected on behalf of the entities by GE as servicer, which are eliminated in consolidation. Such receivables provide the cash to repay the entities' liabilities. If these intercompany receivables were included in the table above, assets would be higher. In addition, other assets, borrowings and other liabilities exclude intercompany balances that are eliminated in consolidation.

Total revenues from our consolidated VIEs were \$1,770 million and \$1,442 million in the three months ended June 30, 2012 and 2011, respectively, and \$3,358 million and \$2,982 million in the six months ended June 30, 2012 and 2011, respectively. Related expenses consisted primarily of provisions for losses of \$170 million and \$188 million in the three months ended June 30, 2012 and 2011, respectively, and \$370 million and \$550 million in the six months ended June 30, 2012 and 2011, respectively, and interest and other financial charges of \$114 million and \$151 million in the three months ended June 30, 2012 and 2011, respectively, and \$247 million and \$307 million in the six months ended June 30, 2012 and 2011, respectively. These amounts do not include intercompany revenues and costs, principally fees and interest between GE and the VIEs, which are eliminated in consolidation.

(57)

Investments in Unconsolidated Variable Interest Entities

Our involvement with unconsolidated VIEs consists of the following activities: assisting in the formation and financing of the entity, providing recourse and/or liquidity support, servicing the assets and receiving variable fees for services provided. We are not required to consolidate these entities because the nature of our involvement with the activities of the VIEs does not give us power over decisions that significantly affect their economic performance.

The largest unconsolidated VIE with which we are involved is Penske Truck Leasing Co., L.P. (PTL), a joint venture and limited partnership formed in 1988 between Penske Truck Leasing Corporation (PTLC) and GE. PTLC is the sole general partner of PTL and an indirect wholly-owned subsidiary of Penske Corporation. PTL is engaged in truck leasing and support services, including full-service leasing, dedicated logistics support and contract maintenance programs, as well as rental operations serving commercial and consumer customers. Our direct and indirect interest in PTL is accounted for using the equity method. During the second quarter of 2012, PTL effected a recapitalization and subsequently acquired third-party financing which was used to repay \$2,382 million of its outstanding debt owed to GECC. At June 30, 2012, our direct and indirect investment in PTL of \$5,093 million primarily comprised partnership interests of \$799 million and loans and advances of \$4,259 million.

Other significant exposures to unconsolidated VIEs at June 30, 2012 include an investment in high quality senior secured debt of various middle-market companies (\$4,268 million); investments in real estate entities (\$3,075 million), which generally consist of passive limited partnership investments in tax-advantaged, multi-family real estate and investments in various European real estate entities; and exposures to joint ventures that purchase factored receivables (\$1,807 million). The vast majority of our other unconsolidated entities consist of passive investments in various asset-backed financing entities.

The classification of our variable interests in these entities in our financial statements is based on the nature of the entity and the type of investment we hold. Variable interests in partnerships and corporate entities are classified as either equity method or cost method investments. In the ordinary course of business, we also make investments in entities in which we are not the primary beneficiary but may hold a variable interest such as limited partner interests or mezzanine debt investments. These investments are classified in two captions in our financial statements: "All other assets" for investments accounted for under the equity method, and "Financing receivables – net" for debt financing provided to these entities. Our investments in unconsolidated VIEs at June 30, 2012 and December 31, 2011 follow.

(In millions)	At					
	June 30, 2012			December 31, 2011		
	PTL	All other	Total	PTL	All other	Total
Other assets and investment securities	\$ 5,093	\$ 7,462	\$ 12,555	\$ 7,038	\$ 6,954	\$ 13,992
Financing receivables – net	–	3,002	3,002	–	2,507	2,507
Total investments	5,093	10,464	15,557	7,038	9,461	16,499
Contractual obligations to fund investments or guarantees	189	2,216	2,405	600	2,253	2,853
Revolving lines of credit	10	48	58	1,356	92	1,448
Total	\$ 5,292	\$ 12,728	\$ 18,020	\$ 8,994	\$ 11,806	\$ 20,800

In addition to the entities included in the table above, we also hold passive investments in RMBS, commercial mortgage-backed securities (CMBS) and asset-backed securities (ABS) issued by VIEs. Such investments were, by design, investment grade at issuance and held by a diverse group of investors. Further information about such investments is provided in Note 3.

(58)

19. INTERCOMPANY TRANSACTIONS

Transactions between related companies are made on an arms-length basis, are eliminated and consist primarily of GECC dividends to GE; GE customer receivables sold to GECC; GECC services for trade receivables management and material procurement; buildings and equipment (including automobiles) leased between GE and GECC; information technology (IT) and other services sold to GECC by GE; aircraft engines manufactured by GE that are installed on aircraft purchased by GECC from third-party producers for lease to others; and various investments, loans and allocations of GE corporate overhead costs.

These intercompany transactions are reported in the GE and GECC columns of our financial statements, but are eliminated in deriving our consolidated financial statements. Effects of these eliminations on our consolidated cash flows from operating, investing and financing activities include the following. Net decrease (increase) in GE customer receivables sold to GECC of \$(109) million and \$525 million have been eliminated from consolidated cash from operating and investing activities for the six months ended June 30, 2012 and 2011, respectively. Dividends from GECC to GE of \$3,000 million have been eliminated from consolidated cash from operating and financing activities for the six months ended June 30, 2012. There were no such dividends for the six months ended June 30, 2011. Eliminations of intercompany borrowings (includes GE investment in GECC short-term borrowings) of \$261 million and \$(71) million have been eliminated from financing activities for the six months ended June 30, 2012 and 2011, respectively. Other reclassifications and eliminations of \$(242) million and \$(146) million have been eliminated from consolidated cash from operating activities and \$(37) million and \$253 million have been eliminated from consolidated cash from investing activities for the six months ended June 30, 2012 and 2011, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

A. Results of Operations

General Electric Company's consolidated financial statements represent the combination of the industrial manufacturing and product services businesses of General Electric Company (GE) and the financial services businesses of General Electric Capital Corporation (GECC or Financial Services).

In the accompanying analysis of financial information, we sometimes use information derived from consolidated financial information but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain of these data are considered "non-GAAP financial measures" under the U.S. Securities and Exchange Commission (SEC) rules. For such measures, we have provided supplemental explanations and reconciliations in Exhibit 99(a) to this Form 10-Q Report.

Unless otherwise indicated, we refer to captions such as revenues and other income and earnings from continuing operations attributable to the Company simply as "revenues" and "earnings" throughout this Management's Discussion and Analysis. Similarly, discussion of other matters in our condensed, consolidated financial statements relates to continuing operations unless otherwise indicated.

Overview

Earnings from continuing operations attributable to the Company increased 2% to \$3.658 billion in the second quarter of 2012 compared with \$3.570 billion in the second quarter of 2011. Earnings per share (EPS) from continuing operations increased 3% to \$0.34 in the second quarter of 2012 compared with \$0.33 in the second quarter of 2011. Operating earnings (non-GAAP measure), which excludes non-operating pension costs, increased 7% to \$4.010

billion in the second quarter of 2012 compared with \$3.751 billion in the second quarter of 2011. Operating earnings per share (non-GAAP measure) increased 12% to \$0.38 in the second quarter of 2012 compared with \$0.34 in the second quarter of 2011.
