UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2012, or
.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 1-3754

ALLY FINANCIAL INC.

(Exact name of registrant as specified in its charter)

Delaware

38-0572512

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

200 Renaissance Center

P.O. Box 200, Detroit, Michigan

48265-2000

(Address of principal executive offices)

(Zip Code)

(866) 710-4623

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing for the past 90 days.

Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate Web site, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for a shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a nonaccelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

At November 2, 2012, the number of shares outstanding of the Registrant's common stock was 1,330,970 shares.

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

1. Description of Business, Basis of Presentation, and Changes in Significant Accounting Policies

Ally Financial Inc. (formerly GMAC Inc. and referred to herein as Ally, we, our, or us) is a leading, independent, globally diversified, financial services firm. Founded in 1919, we are a leading automotive financial services company with over 90 years experience providing a broad array of financial products and services to automotive dealers and their customers. We became a bank holding company on December 24, 2008, under the Bank Holding Company Act of 1956, as amended. Our banking subsidiary, Ally Bank, is an indirect wholly owned subsidiary of Ally Financial Inc. and a leading franchise in the growing direct (online and telephonic) banking market.

Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America (GAAP). Additionally, where applicable, the policies conform to the accounting and reporting guidelines prescribed by bank regulatory authorities. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and that affect income and expenses during the reporting period. In developing the estimates and assumptions, management uses all available evidence; however, actual results could differ because of uncertainties associated with estimating the amounts, timing, and likelihood of possible outcomes.

The Condensed Consolidated Financial Statements at September 30, 2012, and for the three months and nine months ended September 30, 2012, and 2011, are unaudited but reflect all adjustments that are, in management's opinion, necessary for the fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements (and the related notes) included in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed on February 28, 2012, with the U.S. Securities and Exchange Commission (SEC), as amended by the Current Report on Form 8-K filed with the SEC on August 3, 2012.

Residential Capital, LLC

On May 14, 2012 (the Petition Date), Residential Capital, LLC (ResCap) and certain of its wholly owned direct and indirect subsidiaries (collectively, the Debtors) filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York (Bankruptcy Court). In connection with the filings, Ally Financial Inc. and its direct and indirect subsidiaries and affiliates (excluding the Debtors and their direct and indirect subsidiaries) (collectively, AFI) reached an agreement with the Debtors and certain creditor constituencies on a prearranged Chapter 11 plan (the Plan).

In connection with the Plan, the Debtors expect to sell certain of their assets, consisting of the Debtors' mortgage origination and servicing business and certain other mortgage-related assets, under section 363 of the Bankruptcy Code. The Bankruptcy Court entered an order on June 28, 2012, approving Nationstar Mortgage LLC as stalking horse bidder for the Debtors' mortgage origination and servicing platform (the Platform), and Berkshire Hathaway Inc. as stalking horse bidder for the Debtors' held-for-sale loan portfolio (the Loan Portfolio). The bid provided by Berkshire Hathaway Inc. supplanted the stalking horse bid provided by AFI that is described below. On October 19, 2012, the Debtors collected bids from qualified bidders for the Platform and the Loan Portfolio. On October 24, 2012, following a competitive auction for the Platform, the Debtors determined that the bid submitted by Ocwen Loan Servicing LLC was the highest and best bid for the Platform. On October 25, 2012, following a competitive auction for the Loan Portfolio, the Debtors determined that the bid submitted by Berkshire Hathaway Inc. was the highest and best bid for the Loan Portfolio. The hearing for the Bankruptcy Court to approve the sales of the Platform and the Loan Portfolio is currently set for November 19, 2012. The Debtors' remaining assets are expected to be sold, wound down, or otherwise liquidated over time.

The Plan, a draft of which has been submitted to the Bankruptcy Court, is subject to negotiation with certain of the Debtors' creditors (as directed by the Bankruptcy Court) and Bankruptcy Court approval. The Debtors' exclusive period under the Bankruptcy Code to file the Plan, which may be extended by the Bankruptcy Court, ends on December 20, 2012. The Plan is based on a settlement (the Settlement) between AFI and the Debtors under which, in

exchange for the releases described below, AFI, among other things: (a) agreed to serve as the stalking horse bidder for the Debtors' held-for-sale loan portfolio, with a purchase price of approximately \$1.6 billion (which, as noted above, was supplanted by Berkshire Hathaway Inc. pursuant to an order entered by the Bankruptcy Court on June 28, 2012); (b) will make a cash contribution to the Debtors' estates of \$750 million that will enable certain recoveries to creditors of the Debtors' estates under the Plan; (c) provided the Debtors with a \$220 million post-petition debtor-in-possession financing facility; (d) consented to the Debtors' use of cash collateral pledged to Ally-funded, pre-petition senior secured credit facilities; (e) agreed to enter into and perform a shared services agreement with the Debtors to enable the Debtors to continue to operate their businesses during their bankruptcy cases; (f) agreed to enter into and perform a transition services agreement with the purchaser of the Debtors' mortgage origination and servicing business to facilitate the sale of such assets; (g) continues to provide the Debtors with consumer lending origination support during their bankruptcy cases, including to allow implementation of the aforementioned asset sales; (h) provides the support necessary for the Debtors to satisfy certain regulatory obligations; and (i) agreed to provide indemnification of ResCap's current directors and officers.

The Settlement, which is subject to Bankruptcy Court approval, provides for the release of all existing or potential causes of action between AFI and the Debtors, as well as a release of all existing or potential ResCap-related causes of action against AFI held by third parties. The Debtors have failed to satisfy certain milestone requirements in the Plan support agreement with AFI (the Plan Support Agreement), including the Bankruptcy Court's entry of the Confirmation Order on or before October 31, 2012, which relieves AFI of its obligations to perform under the Plan Support Agreement. Notwithstanding this, to date, AFI has continued to comply with the Plan Support Agreement. Pursuant to the terms of the Settlement, the failure to meet the October 31 milestone results in the Settlement's automatic termination. However, AFI and the Debtors have agreed to temporarily waive the automatic termination, but, each of AFI and the Debtors have preserved

Table of Contents

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

the right to rescind such waiver at any point in the future. The waiver will terminate on December 31, 2012 unless AFI and the Debtors otherwise agree in writing.

As of the Petition Date, ResCap had support for the Plan from the ad hoc steering committee representing ResCap's junior secured notes (Ad Hoc Committee) and, certain other noteholders together holding \$791 million out of a total of approximately \$2.1 billion of these notes. The Debtors have failed to satisfy certain milestone requirements in the Plan support agreement with the Ad Hoc Committee (Ad Hoc Committee PSA); and, on September 24, 2012, the official committee of unsecured creditors (the Committee) appointed in the Debtors' bankruptcy cases filed a motion seeking standing to challenge the validity of the liens on certain assets securing the junior secured notes, which are the liens that secure certain of AFI's loans to ResCap. On or about September 25, 2012, the junior secured noteholders terminated the Ad Hoc Committee PSA.

Additionally, institutional investors in residential mortgage-backed securities issued by ResCap's affiliates and holding more than 25 percent of at least one class in each of 290 securitizations agreed to support the Plan as of the Petition Date. To date, institutional investors holding more than 25 percent of at least one class in each of 336 securitizations have agreed to support the Plan. These 336 securitizations have an aggregate original principal balance of approximately \$189 billion (out of a total of 392 outstanding securitizations with an original principal balance of \$221 billion). The settlements reached are subject to Bankruptcy Court approval. AFI anticipates the hearing for approval of the settlements to occur in early 2013. The Committee and certain other parties are presently engaged in discovery with respect to the settlements, including AFI's role, and are expected to contest the settlements at the hearing for the settlements' approval.

On June 4, 2012, Berkshire Hathaway Inc. filed a motion in the Bankruptcy Court for the appointment of an independent examiner to investigate, among other things, certain of the Debtors' transactions with AFI occurring prior to the Petition Date, any claims the Debtors may hold against AFI's officers and directors, and any claims the Debtors propose to release under the Plan, including under the Settlement. On June 18, 2012, the Bankruptcy Court approved the appointment of an examiner and, subsequently, the United States Trustee for the Southern District of New York appointed former bankruptcy judge Arthur J. Gonzalez, Esq. as the examiner. On July 27, 2012, the Bankruptcy Court entered an order approving the scope of the examiner's investigation. The investigation will include, among other things: (a) all material pre-petition transactions between or among the Debtors and AFI, Cerberus Capital Management, L.P. and its subsidiaries and affiliates, and/or Ally Bank; (b) certain post-petition negotiations and transactions with the Debtors, including with respect to plan sponsor, plan support, and settlement agreements, the debtor-in-possession financing with AFI, the stalking horse asset purchase agreement with AFI, and the servicing agreement with Ally Bank; (c) all state and federal law claims or causes of action the Debtors propose to release as part of the Plan; and (d) the release of all existing or potential ResCap-related causes of action against AFI held by third parties. As of September 30, 2012, the examiner's preliminary estimate regarding the time necessary for the examiner to complete his investigation and related report was at least six months from approximately August 6, 2012. Counsel to the examiner recently informed parties in interest that it would be requesting from the Bankruptcy Court an extended target date for issuance of the examiner's report based upon completion of document production and witness interviews, rather than an approximation date. The examiner's request may result in a delay for issuing the examiner's report. The Bankruptcy Court is scheduled to hold a conference on November 5, 2012 to address the examiner's request.

As a result of the bankruptcy filing, effective May 14, 2012, we have deconsolidated ResCap from our financial statements and ResCap is prospectively accounted for using the cost method. Furthermore, circumstances indicated to us that as of May 14, 2012, our investment in ResCap would not be recoverable, and accordingly we recorded a full impairment of such investment. ResCap's results of operations have been removed from our Condensed Consolidated Financial Statements since May 14, 2012. As of September 30, 2012, ResCap does not meet the requirements of a discontinued operation; and as such, ResCap's results of operations continue to be included in our Condensed Consolidated Statement of Comprehensive Income for periods prior to May 14, 2012. Our Condensed Consolidated

Edgar Filing: Ally Financial Inc. - Form 10-Q

Statements of Comprehensive Income include the following for ResCap's results of operations (amounts presented are before the elimination of balances and transactions with Ally).

(\$ in millions)	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011
Total net (loss) revenue	\$—	\$(164) \$476	\$412
Provision for loan losses	—	1	—	8
Total noninterest expense	—	273	437	905
(Loss) income from continuing operations before income tax expense	—	(438) 39	(501
Income tax expense from continuing operations	—	4	7	13
Net (loss) income from continuing operations	\$—	\$(442) \$32	\$(514

Based on our assessment of the effect of the deconsolidation of ResCap, obligations under the Plan, and other impacts related to the Chapter 11 filing, we recorded a charge of \$1.2 billion during the nine months ended September 30, 2012, within our other operating expenses. This charge primarily consists of the impairment of Ally's \$442 million equity investment in ResCap and the \$750 million cash contribution to be made by us to the Debtors' estate described above. As of September 30, 2012, we have \$1.2 billion of financing due from

Ally Financial Inc. • Form 10-Q

ResCap, which is classified as Finance Receivables and Loans, net on our Condensed Consolidated Balance Sheet. We maintain no allowance or impairment against these receivables because management considers them to be fully collectible. At September 30, 2012, our hedging arrangements with ResCap were fully collateralized. Additionally, under a shared services agreement (SSA), each entity agreed to provide services to the other for a period of one year. The SSA will automatically renew each year unless either entity provides written notice of nonrenewal to the other party at least three months prior to the expiration. The SSA fees received by Ally and the expenses paid to the ResCap will be reflected within the Condensed Consolidated Statement of Comprehensive Income as a reduction or increase of noninterest expense. Because of the uncertain nature of the bankruptcy proceedings, we cannot predict the ultimate financial impact to Ally. Refer to Note 25 to the Condensed Consolidated Financial Statements for additional information regarding these bankruptcy proceedings.

International Businesses

In the second quarter of 2012, we began exploring strategic alternatives for our international operations. These international operations include automotive finance, insurance, and banking and deposit operations outside of the United States. Since then, we have conducted multiple processes for various parts of our international operations, and have received interest from a number of potential purchasers. As part of this initiative, on October 18, 2012 we announced that we reached an agreement to sell our Mexican insurance business, ABA Seguros, to the ACE Group. Further, on October 23, 2012, we announced that we reached an agreement to sell our Canadian auto finance operation, Ally Credit Canada Limited, and ResMor Trust to Royal Bank of Canada. Refer to Note 26 for further information. We expect to continue to explore strategic alternatives for our remaining international operations. However, we can provide no assurances that we will enter into strategic transactions with respect to all or any portion of the balance of our international operations.

Ally Bank Mortgage Servicing Rights Portfolio and Business Lending Operations

On October 26, 2012, Ally Bank announced that it has begun to explore strategic alternatives for its agency mortgage servicing rights (MSR) portfolio and its business lending operations. Ally Bank expects to continue originating a modest level of high-quality residential jumbo mortgages for its own portfolio through correspondents and wholesale brokers.

Significant Accounting Policies

Income Taxes

In calculating the provision for interim income taxes, in accordance with Accounting Standards Codification (ASC) 740, Income Taxes, we apply an estimated annual effective tax rate to year-to-date ordinary income. At the end of each interim period, we estimate the effective tax rate expected to be applicable for the full fiscal year. We exclude and record discretely the tax effect of unusual or infrequently occurring items, including, for example, changes in judgment about valuation allowances and effects of changes in tax law or rates. The provision for income taxes in tax jurisdictions with a projected full year or year-to-date loss for which a tax benefit cannot be realized are estimated using tax rates specific to that jurisdiction.

Refer to Note 1 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K regarding additional significant accounting policies.

Recently Adopted Accounting Standards

Financial Services - Insurance - Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts (ASU 2010-26)

As of January 1, 2012, we adopted Accounting Standards Update (ASU) 2010-26, which amends ASC 944, Financial Services - Insurance. The amendments in this ASU specify which costs incurred in the acquisition of new and renewal insurance contracts should be capitalized. All other acquisition-related costs should be expensed as incurred. If the initial application of the amendments in this ASU results in the capitalization of acquisition costs that had not been previously capitalized, an entity may elect not to capitalize those types of costs. Both retrospective application and early adoption was permitted. We elected prospective application and did not early adopt the ASU. The adoption did

not have a material impact to our consolidated financial condition or results of operations.

Fair Value Measurement - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04)

As of January 1, 2012, we adopted ASU 2011-04, which amends ASC 820, Fair Value Measurements. The amendments in this ASU clarify how to measure fair value and it contains new disclosure requirements to provide more transparency into Level 3 fair value measurements. It is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS). The ASU must be applied prospectively. The adoption did not have a material impact to our consolidated financial condition or results of operations.

Intangibles-Goodwill and Other - Testing Goodwill for Impairment (ASU 2011-08)

As of January 1, 2012, we adopted ASU 2011-08, which amends ASC 350, Intangibles-Goodwill and Other. This ASU permits the option of performing a qualitative assessment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If it is determined, on the basis of qualitative factors, that the fair value of a reporting unit is more likely than not more than the carrying amount, the two-step impairment test would not be required. Otherwise, further evaluation under the existing two-step framework would be required. The adoption did not have a material impact to our consolidated financial condition or results of operations.

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

Recently Issued Accounting Standards

Balance Sheet - Disclosures about Offsetting Assets and Liabilities (ASU 2011-11)

In December 2011, the Financial Accounting Standards Board issued ASU 2011-11, which amends ASC 210, Balance Sheet. This ASU contains new disclosure requirements regarding the nature of an entity's rights of setoff and related arrangements associated with its financial instruments and derivative instruments. The new disclosures will give financial statement users information about both gross and net exposures. ASU 2011-11 is effective for us on January 1, 2013, and retrospective application is required. Since the guidance relates only to disclosures, adoption is not expected to have a material effect on our consolidated financial condition or results of operations.

2. Discontinued and Held-for-sale Operations

We classify operations as discontinued when operations and cash flows will be eliminated from our ongoing operations and we do not expect to retain any significant continuing involvement in their operations after the respective sale transactions. For all periods presented, all of the operating results for these discontinued operations have been removed from continuing operations and presented separately as discontinued operations, net of tax, in the Condensed Consolidated Statement of Comprehensive Income. The Notes to the Condensed Consolidated Financial Statements have been adjusted to exclude discontinued operations unless otherwise noted.

Select Mortgage Operations

During the second quarter of 2012, we sold the Canadian mortgage operations of ResMor Trust.

Select Global Automotive Services — Insurance Operations

During the fourth quarter of 2011, we committed to sell our U.K.-based operations that provide vehicle service contracts and insurance products in Europe and Latin America. During the second quarter of 2011, we completed the sale of our U.K. consumer property and casualty insurance business.

Select Global Automotive Services — International Automotive Finance Operations

During the fourth quarter of 2011, we committed to sell our full-service leasing operations in Austria, Germany, Greece, Portugal, and Spain. During the first quarter of 2012, we completed the sale of our Venezuela operations.

Select Financial Information

Select financial information of discontinued operations is summarized below. The pretax income or loss, including direct costs to transact, includes any impairment recognized to present the operations at the lower-of-cost or fair value. Fair value was based on the estimated sales price, which could differ from the ultimate sales price due to the fluidity of ongoing negotiations, price volatility, changing interest rates, changing foreign-currency rates, and future economic conditions.

The following table presents interest and dividends on available-for-sale securities.

(\$ in millions)	Three months ended		Nine months ended	
	September 30,		September 30,	
	2012	2011	2012	2011
Taxable interest	\$67	\$96	\$225	\$294
Taxable dividends	6	6	18	17
Interest and dividends on available-for-sale securities	\$73	\$102	\$243	\$311

Certain available for sale securities were sold at a loss in 2012 and 2011 as a result of market conditions within these respective periods (e.g., a downgrade in the rating of a debt security). The table below summarizes available-for-sale securities in an unrealized loss position in accumulated other comprehensive income. Based on the methodology described below that was applied to these securities, we believe that the unrealized losses relate to factors other than credit losses in the current market environment. As of September 30, 2012, we did not have the intent to sell the debt securities with an unrealized loss position in accumulated other comprehensive income, and it is not more likely than not that we will be required to sell these securities before recovery of their amortized cost basis. As of September 30, 2012, we had the ability and intent to hold equity securities with an unrealized loss position in accumulated other comprehensive income. As a result, we believe that the securities with an unrealized loss position in accumulated other comprehensive income are not considered to be other-than-temporarily impaired at September 30, 2012. Refer to Note 1 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K for additional information related to investment securities and our methodology for evaluating potential other-than-temporary impairments.

7. Loans Held-for-Sale, Net

The composition of loans held-for-sale, net, was as follows.

(\$ in millions)	September 30, 2012			December 31, 2011		
	Domestic	Foreign	Total	Domestic	Foreign	Total
Consumer automobile	\$—	\$—	\$—	\$425	\$—	\$425
Consumer mortgage						
1st Mortgage	1,927	—	1,927	7,360	12	7,372
Home equity	—	—	—	740	—	740
Total consumer mortgage (a)	1,927	—	1,927	8,100	12	8,112
Commercial and industrial						
Other	10	—	10	20	—	20
Total loans held-for-sale (b)	\$1,937	\$—	\$1,937	\$8,545	\$12	\$8,557

(a) Fair value option-elected domestic consumer mortgages were \$1.9 billion and \$3.9 billion at September 30, 2012, and December 31, 2011, respectively. Refer to Note 22 for additional information.

(b) Totals are net of unamortized premiums and discounts and deferred fees and costs. Included in the totals are net unamortized premiums of \$21 million at September 30, 2012, and net unamortized discounts of \$221 million at December 31, 2011.

The following table summarizes held-for-sale mortgage loans reported at carrying value by higher-risk loan type.

(\$ in millions)	September 30, 2012	December 31, 2011
High original loan-to-value (greater than 100%) mortgage loans	\$336	\$423
Payment-option adjustable-rate mortgage loans	—	12
Interest-only mortgage loans	9	298
Below-market rate (teaser) mortgages	—	169
Total higher-risk mortgage loans held-for-sale	\$345	\$902

Impaired Loans and Troubled Debt Restructurings

Impaired Loans

Loans are considered impaired when we determine it is probable that we will be unable to collect all amounts due according to the terms of the loan agreement. For more information on our impaired finance receivables and loans, refer to Note 1 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K.

The following table presents information about our impaired finance receivables and loans recorded at historical cost.

Troubled Debt Restructurings

TDRs are loan modifications where concessions were granted to borrowers experiencing financial difficulties. Numerous initiatives, such as the Home Affordable Modification Program (HAMP) are in place to provide support to our mortgage customers in financial distress, including principal forgiveness, maturity extensions, delinquent interest capitalization, and changes to contractual interest rates. Additionally for automobile loans, we offer several types of assistance to aid our customers including changing the maturity date and rewriting the loan terms. Total TDRs recorded at historical cost and reported at carrying value before allowance for loan losses were \$885 million at September 30, 2012, reflecting an increase of \$151 million from December 31, 2011. Refer to Note 1 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K for additional information.

At September 30, 2012, and December 31, 2011, commercial commitments to lend additional funds to debtors owing receivables whose terms had been modified in a troubled debt restructuring were \$26 million and \$45 million, respectively.

Ally Financial Inc. • Form 10-Q

Higher-Risk Mortgage Concentration Risk

The following table summarizes held-for-investment mortgage finance receivables and loans recorded at historical cost and reported at carrying value before allowance for loan losses by higher-risk loan type.

(\$ in millions)	September 30, 2012	December 31, 2011
Interest-only mortgage loans (a)	\$2,262	\$2,947
Below-market rate (teaser) mortgages	197	248
Total higher-risk mortgage finance receivables and loans	\$2,459	\$3,195

(a) The majority of the interest-only mortgage loans are expected to start principal amortization in 2015 or beyond.

9. Investment in Operating Leases, Net

Investments in operating leases were as follows.

(\$ in millions)	September 30, 2012	December 31, 2011
Vehicles and other equipment	\$14,969	\$11,160
Accumulated depreciation	(2,261)	(1,885)
Investment in operating leases, net	\$12,708	\$9,275

Depreciation expense on operating lease assets includes remarketing gains and losses recognized on the sale of operating lease assets. The following summarizes the components of depreciation expense on operating lease assets.

(\$ in millions)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Depreciation expense on operating lease assets (excluding remarketing gains)	\$405	\$352	\$1,124	\$1,083
Remarketing gains	(47)	(76)	(155)	(361)
Depreciation expense on operating lease assets	\$358	\$276	\$969	\$722

10. Securitizations and Variable Interest Entities

Overview

We are involved in several types of securitization and financing transactions that utilize special purpose entities (SPEs). An SPE is an entity that is designed to fulfill a specified limited need of the sponsor. Our principal use of SPEs is to obtain liquidity and favorable capital treatment by securitizing certain of our financial assets.

The SPEs involved in securitization and other financing transactions are generally considered variable interest entities (VIEs). VIEs are entities that have either a total equity investment that is insufficient to permit the entity to finance its activities without additional subordinated financial support or whose equity investors lack the ability to control the entity's activities. Due to the deconsolidation of ResCap, our mortgage securitization activity and involvement with certain mortgage-related VIEs has substantially changed. Refer to Note 1 for additional information related to ResCap.

Securitizations

We provide a wide range of consumer and commercial automobile loans, operating leases, other commercial loans, and mortgage loan products to a diverse customer base. We often securitize these loans and leases (which we collectively describe as loans or financial assets) through the use of securitization entities, which may or may not be consolidated on our Condensed Consolidated Balance Sheet. We securitize consumer and commercial automobile loans, operating leases, and other commercial loans through private-label securitizations. We securitize consumer mortgage loans through transactions involving the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac). We previously securitized consumer mortgage loans through private-label mortgage securitizations and through transactions involving the Government National Mortgage Association (Ginnie Mae). We refer to Fannie Mae, Freddie Mac, and Ginnie Mae collectively as the Government-Sponsored Enterprises or GSEs. During the nine months ended September 30, 2012 and 2011, our consumer mortgage loans were primarily securitized through the GSEs.

In executing a securitization transaction, we typically sell pools of financial assets to a wholly owned, bankruptcy-remote SPE, which then transfers the financial assets to a separate, transaction-specific securitization entity for cash, servicing rights, and in some transactions, other retained interests. The securitization entity is funded through the issuance of beneficial interests in the securitized financial assets. The beneficial interests take the form of either notes or trust certificates which are sold to investors and/or retained by us. These beneficial interests are collateralized by the transferred loans and entitle the investors to specified cash flows generated from the securitized loans. In addition to providing a source of liquidity and cost-efficient funding, securitizing these financial assets also reduces our credit exposure to the borrowers beyond any economic interest we may retain.

Each securitization is governed by various legal documents that limit and specify the activities of the securitization entity. The securitization entity is generally allowed to acquire the loans, to issue beneficial interests to investors to fund the acquisition of the loans, and to enter into derivatives or other yield maintenance contracts to hedge or mitigate certain risks related to the financial assets or beneficial interests of the entity. A servicer, who is generally us, is appointed pursuant to the underlying legal documents to service the assets the securitization entity holds and the beneficial interests it issues. Servicing functions include, but are not limited to, making certain payments of property taxes and insurance premiums, default and property maintenance payments, as well as advancing principal and interest payments before collecting them from individual borrowers. Our servicing responsibilities, which constitute continued involvement in the transferred financial assets, consist of primary servicing (i.e., servicing the underlying transferred financial assets) and previously master servicing (i.e., servicing the beneficial interests that result from the securitization transactions). Certain securitization entities also require the servicer to advance scheduled principal and interest payments due on the beneficial interests issued by the entity regardless of whether cash payments are received on the underlying transferred financial assets. Accordingly, we are required to provide these servicing advances when applicable. Refer to Note 11 for additional information regarding our servicing rights.

The GSEs provide a guarantee of the payment of principal and interest on the beneficial interests issued in securitizations. In private-label securitizations, cash flows from the assets initially transferred into the securitization

entity represent the sole source for payment of distributions on the beneficial interests issued by the securitization entity and for payments to the parties that perform services for the securitization entity, such as the servicer or the trustee. In certain private-label securitization transactions, a liquidity facility may exist to provide temporary liquidity to the entity. The liquidity provider generally is reimbursed prior to other parties in subsequent distribution periods. In previous certain private-label securitizations monoline insurance may have existed to cover certain shortfalls to certain investors in the beneficial interests issued by the securitization entity. As noted above, in certain private-label securitizations, the servicer is required to advance scheduled principal and interest payments due on the beneficial interests regardless of whether cash payments are received on the underlying transferred financial assets. The servicer is allowed to reimburse itself for these servicing advances. Additionally, certain private-label securitization transactions may have previously allowed for the acquisition of additional loans subsequent to the initial loan transfer. Principal collections on other loans and/or the issuance of new beneficial interests, such as variable funding notes, generally funded those loans; we were often contractually required to invest in these new interests. We may retain beneficial interests in our private-label securitizations, which may represent a form of significant continuing economic interest. These retained interests include, but are not limited to, senior or subordinate asset-backed securities and residuals, and previously included senior or subordinate mortgage-backed securities, interest-only strips, and principal-only strips. Certain of these retained interests provide credit enhancement to the trust as they may absorb credit losses or other cash shortfalls. Additionally, the securitization agreements may require cash flows to be directed away from certain of our retained interests due to specific over-collateralization requirements, which

Table of Contents

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

may or may not be performance-driven.

We generally hold certain conditional repurchase options that allow us to repurchase assets from the securitization entity. The majority of the securitizations provide us, as servicer, with a call option that allows us to repurchase the remaining transferred financial assets or outstanding beneficial interests at our discretion once the asset pool reaches a predefined level, which represents the point where servicing becomes burdensome (a clean-up call option). The repurchase price is typically the par amount of the loans plus accrued interest. Additionally, we may hold other conditional repurchase options that allow us to repurchase a transferred financial asset if certain events outside our control are met. The typical conditional repurchase option is a delinquent loan repurchase option that gives us the option to purchase the loan or contract if it exceeds a certain prespecified delinquency level. We generally have complete discretion regarding when or if we will exercise these options, but we would do so only when it is in our best interest.

Other than our customary representation and warranty provisions, these securitizations are nonrecourse to us, thereby transferring the risk of future credit losses to the extent the beneficial interests in the securitization entities are held by third parties. Representation and warranty provisions generally require us to repurchase loans or indemnify the investor or other party for incurred losses to the extent it is determined that the loans were ineligible or were otherwise defective at the time of sale. Refer to Note 25 for detail on representation and warranty provisions. We did not provide any noncontractual financial support to any of these entities during the nine months ended September 30, 2012 and 2011.

Other Variable Interest Entities

Servicer Advance Funding Entity

We previously assisted in the financing of our servicer advance receivables; we formed a VIE that issued variable funding notes to third-party investors that were collateralized by servicer advance receivables. These servicer advance receivables were transferred to the VIE and consisted of delinquent principal and interest advances we made as servicer to various investors; property taxes and insurance premiums advanced to taxing authorities and insurance companies on behalf of borrowers; and amounts advanced for mortgages in foreclosure. The VIE funded the purchase of the receivables through financing obtained from the third-party investors and subordinated loans or an equity contribution from our mortgage activities. This VIE was not consolidated on our balance sheet at September 30, 2012 as a result of the deconsolidation of ResCap, but was consolidated on our balance sheet at December 31, 2011. The beneficial interest holder of this VIE does not have legal recourse to our general credit. We do not have a contractual obligation to provide any type of financial support in the future, nor have we provided noncontractual financial support to the entity during the nine months ended September 30, 2012 and 2011.

Other

We had involvements with various other on-balance sheet, immaterial VIEs. Most of these VIEs were used for additional liquidity whereby we sold certain financial assets into the VIE and issued beneficial interests to third parties for cash.

We also provide long-term guarantee contracts to investors in certain nonconsolidated affordable housing entities and have extended a line of credit to provide liquidity and minimize our exposure under these contracts. Since we do not have control over the entities or the power to make decisions, we do not consolidate the entities and our involvement is limited to the guarantee and the line of credit.

Involvement with Variable Interest Entities

The determination of whether financial assets transferred by us to these VIEs (and related liabilities) are consolidated on our balance sheet (also referred to as on-balance sheet) or not consolidated on our balance sheet (also referred to as off-balance sheet) depends on the terms of the related transaction and our continuing involvement (if any) with the SPE. We are deemed the primary beneficiary and therefore consolidate VIEs for which we have both (a) the power, through voting rights or similar rights, to direct the activities that most significantly impact the VIE's economic performance, and (b) a variable interest (or variable interests) that (i) obligates us to absorb losses that could

potentially be significant to the VIE and/or (ii) provides us the right to receive residual returns of the VIE that could potentially be significant to the VIE. We determine whether we hold a significant variable interest in a VIE based on a consideration of both qualitative and quantitative factors regarding the nature, size, and form of our involvement with the VIE. We assess whether we are the primary beneficiary of a VIE on an ongoing basis.

Table of Contents

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

Our involvement with consolidated and nonconsolidated VIEs in which we hold variable interests is presented below.

(\$ in millions)	Consolidated involvement with VIEs	Assets of nonconsolidated VIEs (a)	Maximum exposure to loss in nonconsolidated VIEs	
September 30, 2012				
On-balance sheet variable interest entities				
Consumer automobile	\$29,131	\$—	\$—	
Commercial automobile	18,741	—	—	
Commercial other	656	—	—	
Off-balance sheet variable interest entities				
Consumer automobile	—	1,659	1,659	(b)
Consumer mortgage — other	—	—	(c) 13	(d)
Commercial other	(28)	(e) —	(f) 92	
Total	\$48,500	\$1,659	\$1,764	
December 31, 2011				
On-balance sheet variable interest entities				
Consumer automobile	\$26,504	\$—	\$—	
Consumer mortgage — private-label	1,098	—	—	
Commercial automobile	19,594	—	—	
Other	956	—	—	
Off-balance sheet variable interest entities				
Consumer mortgage — Ginnie Mae	2,652	(g) 44,127	44,127	(b)
Consumer mortgage — CMHC	66	(g) 3,222	66	(h)
Consumer mortgage — private-label	141	(g) 4,408	4,408	(b)
Consumer mortgage — other	—	—	(c) 17	(d)
Commercial other	83	(e) —	(f) 242	
Total	\$51,094	\$51,757	\$48,860	

(a) Asset values represent the current unpaid principal balance of outstanding consumer finance receivables and loans within the VIEs.

(b) Maximum exposure to loss represents the current unpaid principal balance of outstanding loans based on our customary representation and warranty provisions. This measure is based on the unlikely event that all of the loans have underwriting defects or other defects that trigger a representation and warranty provision and the collateral supporting the loans are worthless. This required disclosure is not an indication of our expected loss.

(c) Includes a VIE for which we have no management oversight and therefore we are not able to provide the total assets of the VIE. However, in March 2011 we sold excess servicing rights valued at \$266 million to the VIE. Our maximum exposure to loss in this VIE is a component of servicer advances made that are allocated to the trust.

(d) The maximum exposure to loss presented represents the unlikely event that every loan underlying the excess servicing rights sold defaults, and we, as servicer, are required to advance the entire excess service fee to the trust for the contractually established period. This required disclosure is not an indication of our expected loss.

(e) Includes \$0 million and \$100 million classified as finance receivables and loans, net, and \$0 million and \$20 million classified as other assets, offset by \$28 million and \$37 million classified as accrued expenses and other liabilities at September 30, 2012, and December 31, 2011, respectively.

(f) Includes VIEs for which we have no management oversight and therefore we are not able to provide the total assets of the VIEs.

(g) Includes \$0 billion and \$2.4 billion classified as mortgage loans held-for-sale, \$0 million and \$92 million classified as trading securities or other assets, and \$0 million and \$386 million classified as mortgage servicing rights at

September 30, 2012, and December 31, 2011, respectively. CMHC is the Canada Mortgage and Housing Corporation.

(h) Due to combination of the credit loss insurance on the mortgages and the guarantee by CMHC on the issued securities, the maximum exposure to loss would be limited to the amount of the retained interests. Additionally, the maximum loss would occur only in the event that CMHC dismisses us as servicer of the loans due to servicer performance or insolvency.

On-balance Sheet Variable Interest Entities

We engage in securitization and other financing transactions that do not qualify for off-balance sheet treatment. In these situations, we hold beneficial interests or other interests in the VIE, which represent a form of significant continuing economic interest. These retained interests include, but are not limited to, senior or subordinate asset-backed securities and residuals, and previously included senior or subordinate mortgage-backed securities, interest-only strips, and principal-only strips. Certain of these retained interests provide credit enhancement to the securitization entity as they may absorb credit losses or other cash shortfalls. Additionally, the securitization documents may require cash flows to be directed away from certain of our retained interests due to specific over-collateralization requirements, which may or may not be performance-driven. Because these securitization entities are consolidated, these retained interests and servicing rights are not recognized as separate assets on our Condensed Consolidated Balance Sheet.

We consolidated certain of these entities because we had a controlling financial interest in the VIE, primarily due to our servicing

Table of Contents

Notes to Condensed Consolidated Financial Statements (unaudited)

Ally Financial Inc. • Form 10-Q

activities, and because we hold a significant variable interest in the VIE. We are generally the primary beneficiary of automobile securitization entities for which we perform servicing activities and have retained a significant variable interest in the form of a beneficial interest. We were previously the primary beneficiary of certain mortgage private-label securitization entities.

The consolidated VIEs included in the Condensed Consolidated Balance Sheet represent separate entities with which we are involved. The third-party investors in the obligations of consolidated VIEs have legal recourse only to the assets of the VIEs and do not have such recourse to us, except for the customary representation and warranty provisions or when we are the counterparty to certain derivative transactions involving the VIE. In addition, the cash flows from the assets are restricted only to pay such liabilities. Thus, our economic exposure to loss from outstanding third-party financing related to consolidated VIEs is significantly less than the carrying value of the consolidated VIE assets. All assets are restricted for the benefit of the beneficial interest holders. Refer to Note 22 for discussion of the assets and liabilities for which the fair value option has been elected.

Off-balance Sheet Variable Interest Entities

The nature, purpose, and activities of nonconsolidated securitization entities are similar to those of our consolidated securitization entities with the primary difference being the nature and extent of our continuing involvement. The cash flows from the assets of nonconsolidated securitization entities generally are the sole source of payment on the securitization entities' liabilities. The creditors of these securitization entities have no recourse to us with the exception of market customary representation and warranty provisions as described in Note 25.

Nonconsolidated VIEs include entities for which we either do not hold potentially significant variable interests or do not provide servicing or asset management functions for the financial assets held by the securitization entity. Additionally, to qualify for off-balance sheet treatment, transfers of financial assets must meet the sale accounting conditions in ASC 860, Transfers and Servicing. Previously, our residential mortgage loan securitizations consisted of Ginnie Mae and private-label securitizations. We are not the primary beneficiary of any GSE loan securitization transaction because we do not have the power to direct the significant activities of such entities. Previously, we did not consolidate certain private-label mortgage securitizations because we did not have a variable interest that could potentially have been significant or we did not have power to direct the activities that most significantly impacted the performance of the VIE.

For nonconsolidated securitization entities, the transferred financial assets are removed from our balance sheet provided the conditions for sale accounting are met. The financial assets obtained from the securitization are primarily reported as cash, servicing rights, or retained interests (if applicable). Typically, we conclude that the fee we are paid for servicing consumer automobile finance receivables represents adequate compensation, and consequently, we do not recognize a servicing asset or liability. As an accounting policy election, we elected fair value treatment for our mortgage servicing rights (MSR) portfolio. Liabilities incurred as part of these securitization transactions, such as representation and warranty provisions, are recorded at fair value at the time of sale and are reported as accrued expenses and other liabilities on our Condensed Consolidated Balance Sheet. Upon the sale of the loans, we recognize a gain or loss on sale for the difference between the assets recognized, the assets derecognized, and the liabilities recognized as part of the transaction.

The following summarizes all pretax gains and losses recognized on financial assets sold into nonconsolidated securitization and similar asset-backed financing entities.

(\$ in millions)	Three months ended		Nine months ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011
Consumer automobile	\$—	\$—	\$6	\$—
Consumer mortgage — GSEs	19	332	384	597
Consumer mortgage — private-label	—	—	—	1
Total pretax gain	\$19	\$332	\$390	\$598

(a) Anticipated credit losses are not meaningful due to the GSE guarantees.

11. Servicing Activities

Mortgage Servicing Rights

The following tables summarize activity related to MSR, which are carried at fair value. As MSR do not trade in an active market with observable prices, management estimates fair value using internally developed discounted cash flow models (an income approach) to estimate the fair value. These internal valuation models estimate net cash flows based on internal operating assumptions that we believe would be used by market participants in orderly transactions combined with market-based assumptions for loan prepayment rates, interest rates, and discount rates that we believe approximate yields required by investors in this asset.

Three months ended September 30, (\$ in millions)	2012 (a)	2011
Estimated fair value at July 1,	\$1,105	\$3,701
Additions recognized on sale of mortgage loans	50	159

Due to changes in valuation inputs or assumptions used in the valuation model	(330) (943

Edgar Filing: Ally Financial Inc. - Form 10-Q

Other changes in fair value	(324)	(384)
Deconsolidation of ResCap	(1,130)	—	
Estimated fair value at September 30,	\$902		\$2,663	

(a) The remaining balance is at Ally Bank, due to the deconsolidation of ResCap. Ally Bank announced that it has begun to explore strategic alternatives for its agency MSR portfolio. Refer to Note 1 for more information.

Changes in fair value due to changes in valuation inputs or assumptions used in the valuation model include all changes due to a revaluation by a model or by a benchmarking exercise. Other changes in fair value primarily include the accretion of the present value of the discount related to forecasted cash flows and the economic runoff of the portfolio. Refer to Note 1 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K for additional information regarding our significant assumptions and valuation techniques used in the valuation of mortgage servicing rights.

The key economic assumptions and sensitivity of the fair value of MSRs to immediate 10% and 20% adverse changes in those assumptions were as follows.

(\$ in millions)	September 30, 2012		December 31, 2011	
Weighted average life (in years)	4.1		4.7	
Weighted average prepayment speed	17.0	%	15.7	%
Impact on fair value of 10% adverse change	\$(81)	\$(135)
Impact on fair value of 20% adverse change	(152)	(257)
Weighted average discount rate	5.9	%	10.2	%
Impact on fair value of 10% adverse change	\$(7)	\$(59)
