HEICO CORPORATION AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of HEICO Corporation and its subsidiaries (collectively, “HEICO,” or the “Company”) have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q. Therefore, the condensed consolidated financial statements do not include all information and footnotes normally included in annual consolidated financial statements and should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended October 31, 2015. The October 31, 2015 Condensed Consolidated Balance Sheet has been derived from the Company’s audited consolidated financial statements. In the opinion of management, the unaudited condensed consolidated financial statements contain all adjustments (consisting principally of normal recurring accruals) necessary for a fair presentation of the condensed consolidated balance sheets, statements of operations, statements of comprehensive income, statements of shareholders' equity and statements of cash flows for such interim periods presented. The results of operations for the three months ended January 31, 2016 are not necessarily indicative of the results which may be expected for the entire fiscal year.

The Company has two operating segments: the Flight Support Group (“FSG”), consisting of HEICO Aerospace Holdings Corp. and HEICO Flight Support Corp. and their respective subsidiaries; and the Electronic Technologies Group (“ETG”), consisting of HEICO Electronic Technologies Corp. (“HEICO Electronic”) and its subsidiaries.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, “Revenue from Contracts with Customers,” which provides a comprehensive new revenue recognition model that will supersede nearly all existing revenue recognition guidance. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09, as amended, is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2017, or in fiscal 2019 for HEICO. Early adoption in the year preceding the effective date is permitted. ASU 2014-09 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. The Company is currently evaluating which transition method it will elect and the

Index

effect the adoption of this guidance will have on its consolidated results of operations, financial position and cash flows.

In February 2015, the FASB issued ASU 2015-02, "Amendments to the Consolidation Analysis," which changes the guidance for evaluating whether to consolidate certain legal entities. Specifically, ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities ("VIEs") or voting interest entities. Additionally, this guidance eliminates the presumption that a general partner should consolidate a limited partnership, and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2015, or in fiscal 2017 for HEICO. Early adoption is permitted. ASU 2015-02 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2015-02 recognized at the date of initial application. The Company is currently evaluating which transition method it will elect and the effect the adoption of this guidance will have on its consolidated results of operations, financial position and cash flows.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory," which requires entities to measure inventories at the lower of cost or net realizable value. Under current guidance, inventories are measured at the lower of cost or market. ASU 2015-11 must be applied prospectively and is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is permitted. The Company is currently evaluating the effect, if any, the adoption of this guidance will have on its consolidated results of operations, financial position and cash flows.

In November 2015, the FASB issued ASU 2015-17, "Balance Sheet Classification of Deferred Taxes," which requires that all deferred tax assets and liabilities be classified as noncurrent in the balance sheet. ASU 2015-17 may be applied either prospectively or retrospectively and is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is permitted. The Company is currently evaluating which transition method it will elect. The adoption of this guidance will only effect the presentation of deferred taxes in the Company's consolidated statement of financial position.

In February 2016, the FASB issued ASU 2016-02, "Leases," which requires recognition of lease assets and lease liabilities on the balance sheet of lessees. ASU 2016-02 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2018, or in fiscal 2020 for HEICO. Early adoption is permitted. ASU 2016-02 requires a modified retrospective transition approach and provides certain optional transition relief. The Company is currently evaluating the effect the adoption of this guidance will have on its consolidated results of operations, financial position and cash flows.

Index

2. ACQUISITIONS

In December 2015, the Company, through a subsidiary of HEICO Electronic, acquired certain assets of a company that designs and manufactures underwater locator beacons used to locate aircraft cockpit voice recorders, flight data recorders, marine ship voyage recorders and other devices which have been submerged under water. The total consideration includes an accrual of \$1.2 million representing the estimated fair value of contingent consideration the Company may be obligated to pay in aggregate during the first five years following the acquisition. The maximum amount of contingent consideration that the Company could be required to pay is \$2.0 million. See Note 7, Fair Value Measurements, for additional information regarding the Company's contingent consideration obligation. The purchase price of this acquisition was paid using cash provided by operating activities and the total consideration for the acquisition is not material or significant to the Company's condensed consolidated financial statements.

On January 11, 2016, the Company, through HEICO Electronic, acquired all of the limited liability company interests of Robertson Fuel Systems, LLC ("Robertson"). The purchase price of this acquisition was paid in cash using proceeds from the Company's revolving credit facility. Robertson is a world leader in the design and production of mission-extending, crashworthy and ballistically self-sealing auxiliary fuel systems for military rotorcraft. The Company believes that this acquisition is consistent with HEICO's practice of acquiring outstanding niche designers and manufacturers of critical components in the defense industry and will further enable the Company to broaden its product offerings, technologies and customer base.

The following table summarizes the total consideration for the acquisition of Robertson (in thousands):

Cash paid	\$256,806	
Less: cash acquired	(3,271)
Cash paid, net	253,535	
Additional purchase consideration	(352)
Total consideration	\$253,183	

Index

The following table summarizes the allocation of the total consideration for the acquisition of Robertson to the estimated fair values of the tangible and identifiable intangible assets acquired and liabilities assumed (in thousands):

Assets acquired:	
Identifiable intangible assets	\$123,100
Goodwill	91,824
Inventories	27,955
Property, plant and equipment	7,038
Accounts receivable	5,000
Other assets	1,884
Total assets acquired, excluding cash	256,801
Liabilities assumed:	
Accounts payable	2,971
Accrued expenses	647
Total liabilities assumed	3,618
Net assets acquired, excluding cash	\$253,183

The allocation of the total consideration to the tangible and identifiable intangible assets acquired and liabilities assumed is preliminary until the Company obtains final information regarding their fair values. The primary items that generated the goodwill recognized were the premiums paid by the Company for the future earnings potential of Robertson and the value of its assembled workforce that do not qualify for separate recognition. Acquisition costs associated with the purchase of Robertson totaled \$3.2 million for the three months ended January 31, 2016 and were recorded as a component of selling, general and administrative ("SG&A") expenses in the Company's Condensed Consolidated Statements of Operations. The operating results of Robertson were included in the Company's results of operations from the effective acquisition date. The amount of net sales and earnings of Robertson included in the Condensed Consolidated Statements of Operations is not material.

The following table presents unaudited pro forma financial information for the three months ended January 31, 2016 as if the acquisition of Robertson had occurred as of November 1, 2014 (in thousands):

	Three months ended January 31, 2016	Three months ended January 31, 2015
Net sales	\$327,561	\$284,206
Net income from consolidated operations	\$39,479	\$32,517
Net income attributable to HEICO	\$34,826	\$28,066
Net income per share attributable to HEICO shareholders:		
Basic	\$.52	\$.42
Diluted	\$.51	\$.41

Index

The pro forma financial information is presented for comparative purposes only and is not necessarily indicative of the results of operations that actually would have been achieved if the acquisition had taken place as of November 1, 2014. The unaudited pro forma financial information includes adjustments to historical amounts such as additional amortization expense related to intangible assets acquired, increased interest expense associated with borrowings to finance the acquisition and inventory purchase accounting adjustments charged to cost of sales as the inventory is sold.

3. SELECTED FINANCIAL STATEMENT INFORMATION

Accounts Receivable (in thousands)	January 31, 2016	October 31, 2015
Accounts receivable	\$177,065	\$183,631
Less: Allowance for doubtful accounts	(3,150)) (2,038)
Accounts receivable, net	\$173,915	\$181,593
Costs and Estimated Earnings on Uncompleted Percentage-of-Completion Contracts (in thousands)	January 31, 2016	October 31, 2015
Costs incurred on uncompleted contracts	\$24,387	\$22,645
Estimated earnings	18,247	16,116
	42,634	38,761
Less: Billings to date	(36,119)) (36,442)
	\$6,515	\$2,319
Included in the accompanying Condensed Consolidated Balance Sheets under the following captions:		
Accounts receivable, net (costs and estimated earnings in excess of billings)	\$11,437	\$6,263
Accrued expenses and other current liabilities (billings in excess of costs and estimated earnings)	(4,922)) (3,944)
	\$6,515	\$2,319

Changes in estimates pertaining to percentage-of-completion contracts did not have a material effect on net income from consolidated operations for the three months ended January 31, 2016 and 2015.

Index

Inventories (in thousands)	January 31, 2016	October 31, 2015
Finished products	\$122,442	\$119,262
Work in process	35,459	32,201
Materials, parts, assemblies and supplies	113,576	89,739
Contracts in process	3,744	4,521
Less: Billings to date	(1,727) (2,206
Inventories, net of valuation reserves	\$273,494	\$243,517

Contracts in process represents accumulated capitalized costs associated with fixed price contracts. Related progress billings and customer advances ("billings to date") are classified as a reduction to contracts in process, if any, and any excess is included in accrued expenses and other liabilities.

Property, Plant and Equipment (in thousands)	January 31, 2016	October 31, 2015
Land	\$4,586	\$5,060

	244,363	232,376
Less: Accumulated depreciation and amortization	(131,677) (126,706
Property, plant and equipment, net	\$112,686	\$105,670

Accrued Customer Rebates and Credits

The aggregate amount of accrued customer rebates and credits included within accrued expenses and other current liabilities in the accompanying Condensed Consolidated Balance Sheets was \$9.8 million and \$8.1 million as of January 31, 2016 and October 31, 2015, respectively. The total customer rebates and credits deducted within net sales for the three months ended January 31, 2016 and 2015 was \$2.3 million and \$1.6 million, respectively.

Research and Development Expenses

The amount of new product research and development ("R&D") expenses included in cost of sales for the three months ended January 31, 2016 and 2015 is as follows (in thousands):

	Three months ended January 31,	
	2016	2015
R&D expenses	\$9,007	\$9,302

Index

Redeemable Noncontrolling Interests

The holders of equity interests in certain of the Company's subsidiaries have rights ("Put Rights") that may be exercised on varying dates causing the Company to purchase their equity interests through fiscal 2025. The Put Rights, all of which relate either to common shares or membership interests in limited liability companies, provide that the cash consideration to be paid for their equity interests (the "Redemption Amount") be at fair value or a formula that management intended to reasonably approximate fair value based solely on a multiple of future earnings over a measurement period. Management's estimate of the aggregate Redemption Amount of all Put Rights that the Company could be required to pay is as follows (in thousands):

	January 31, 2016	October 31, 2015
Redeemable at fair value	\$76,783	\$76,929
Redeemable based on a multiple of future earnings	14,353	14,353
Redeemable noncontrolling interests	\$91,136	\$91,282

Accumulated Other Comprehensive Loss

Changes in the components of accumulated other comprehensive loss for the three months ended January 31, 2016 are as follows (in thousands):

	Foreign Currency Translation	Pension Benefit Obligation	Accumulated Other Comprehensive Loss
Balances as of October 31, 2015	(\$24,368) (\$712) (\$25,080
Unrealized loss	(2,463) —) (2,463
Balances as of January 31, 2016	(\$26,831) (\$712) (\$27,543

4. GOODWILL AND OTHER INTANGIBLE ASSETS

Changes in the carrying amount of goodwill by operating segment for the three months ended January 31, 2016 are as follows (in thousands):

	Segment FSG	ETG	Consolidated Totals
Balances as of October 31, 2015	\$337,507	\$429,132	\$766,639
Goodwill acquired	—	98,844	98,844
Foreign currency translation adjustments	(459) (1,372) (1,831
Adjustments to goodwill	249	15	264
Balances as of January 31, 2016	\$337,297	\$526,619	\$863,916

The goodwill acquired pertains to the fiscal 2016 acquisitions described in Note 2, Acquisitions, and represents the residual value after the allocation of the total consideration to the tangible and identifiable intangible assets acquired and liabilities assumed. Foreign currency

Index

translation adjustments are included in other comprehensive income (loss) in the Company's Condensed Consolidated Statements of Comprehensive Income. The adjustments to goodwill represent immaterial measurement period adjustments to the purchase price allocation of certain fiscal 2015 acquisitions. The Company estimates that all of the goodwill acquired in fiscal 2016 will be deductible for income tax purposes.

Identifiable intangible assets consist of the following (in thousands):

	As of January 31, 2016			As of October 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortizing Assets:						
Customer relationships	\$247,987	(\$69,182)) \$178,805	\$190,450	(\$63,461)) \$126,989
Intellectual property	139,480	(25,149)) 114,331	98,143	(22,912)) 75,231
Licenses	4,200	(1,964)) 2,236	4,200	(1,882)) 2,318
Non-compete agreements	804	(804)) —	914	(914)) —
Patents	735	(444)) 291	746	(447)) 299
Trade names	466	(47)) 419	166	(38)) 128
	393,672	(97,590)) 296,082	294,619	(89,654)) 204,965
Non-Amortizing Assets:						
Trade names	95,825	—) 95,825	67,628	—) 67,628
	\$489,497	(\$97,590)) \$391,907	\$362,247	(\$89,654)) \$272,593

The increase in the gross carrying amount of customer relationships, intellectual property and amortizing and non-amortizing trade names as of January 31, 2016 compared to October 31, 2015 principally relates to such intangible assets recognized in connection with fiscal 2016 acquisitions (see Note 2, Acquisitions). The weighted-average amortization period of the customer relationships, intellectual property and amortizing trade names acquired during fiscal 2016 is 15 years, 22 years and 15 years, respectively.

Amortization expense related to intangible assets for the three months ended January 31, 2016 and 2015 was \$8.3 million and \$6.1 million, respectively. Amortization expense related to intangible assets for the remainder of fiscal 2016 is estimated to be \$27.8 million. Amortization expense for each of the next five fiscal years and thereafter is estimated to be \$36.1 million in fiscal 2017, \$34.1 million in fiscal 2018, \$32.0 million in fiscal 2019, \$29.4 million in fiscal 2020, \$27.0 million in fiscal 2021, and \$109.7 million thereafter.

Index

5. LONG-TERM DEBT

Long-term debt consists of the following (in thousands):

	January 31, 2016	October 31, 2015
Borrowings under revolving credit facility	\$592,650	\$365,203
Capital leases	2,271	2,395
	594,921	367,598
Less: Current maturities of long-term debt	(346) (357
	\$594,575	\$367,241

As of January 31, 2016 and October 31, 2015, the weighted average interest rate on borrowings under the Company's revolving credit facility was 1.5% and 1.3%, respectively. The revolving credit facility contains both financial and non-financial covenants. As of January 31, 2016, the Company was in compliance with all such covenants.

6. INCOME TAXES

The Company's effective tax rate in the first quarter of fiscal 2016 decreased to 29.0% from 29.5% in the first quarter of fiscal 2015. The decrease principally reflects the benefit from the Company's decision to not make a provision for U.S. income taxes on the undistributed earnings of a fiscal 2015 foreign acquisition with operations in lower tax rate jurisdictions. The Company's effective tax rate in both the first quarter of fiscal 2016 and 2015 reflects a similar economic benefit from a retroactive extension of the U.S. federal R&D tax credit that resulted in an additional income tax credit recognized for qualified R&D activities for the last ten months of the respective prior fiscal year.

7. FAIR VALUE MEASUREMENTS

The Company's assets and liabilities that were measured at fair value on a recurring basis are set forth by level within the fair value hierarchy in the following tables (in thousands):

	As of January 31, 2016			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:

Mutual funds	1,552	—	—	1,552
Other	880	50	—	930
Total assets	\$8,651	\$73,500	\$—	\$82,151
Liabilities:				
Contingent consideration	\$—	\$—	\$23,141	\$23,141
	As of October 31, 2015			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:				
Deferred compensation plans:				
Corporate owned life insurance	\$—	\$73,238	\$—	\$73,238
Money market funds	3,832	—	—	3,832
Equity securities	1,845	—	—	1,845
Mutual funds	1,665	—	—	1,665
Other	946	50	—	996
Total assets	\$8,288	\$73,288	\$—	\$81,576
Liabilities:				
Contingent consideration	\$—	\$—	\$21,405	\$21,405

The Company maintains two non-qualified deferred compensation plans. The assets of the HEICO Corporation Leadership Compensation Plan (the "LCP") principally represent cash surrender values of life insurance policies, which derive their fair values from investments in mutual funds that are managed by an insurance company and are classified within Level 2 and valued using a market approach. Certain other assets of the LCP represent investments in money market funds that are classified within Level 1. The assets of the Company's other deferred compensation plan are principally invested in equity securities and mutual funds that are

Index

classified within Level 1. The assets of both plans are held within irrevocable trusts and classified within other assets in the Company's Condensed Consolidated Balance Sheets and have an aggregate value of \$82.2 million as of January 31, 2016 and \$81.6 million as of October 31, 2015, of which the LCP related assets were \$78.1 million and \$77.1 million as of January 31, 2016 and October 31, 2015, respectively. The related liabilities of the two deferred compensation plans are included within other long-term liabilities in the Company's Condensed Consolidated Balance Sheets and have an aggregate value of \$81.5 million as of January 31, 2016 and \$80.7 million as of October 31, 2015, of which the LCP related liability was \$77.4 million and \$76.2 million as of January 31, 2016 and October 31, 2015, respectively.

As part of the agreement to acquire certain assets of a company by the ETG in fiscal 2016, the Company may be obligated to pay contingent consideration of up to \$2.0 million in aggregate during the five year period following the acquisition. As of January 31, 2016, the estimated fair value of the contingent consideration was \$1.2 million.

As part of the agreement to acquire a subsidiary by the FSG in fiscal 2015, the Company may be obligated to pay contingent consideration of up to €6.1 million per year, or €24.4 million in aggregate, which translates to approximately \$26.5 million based on the January 31, 2016 exchange rate, should the acquired entity meet certain earnings objectives during the first four years following the acquisition. As of January 31, 2016, the estimated fair value of the contingent consideration was €20.2 million, or \$21.9 million, of which €6.1 million, or \$6.6 million, represents the portion expected to be paid in the second quarter of fiscal 2016 based on the actual earnings of the acquired entity during the first year following the acquisition.

The estimated fair value of the contingent consideration arrangements described above are classified within Level 3 and were determined using a probability-based scenario analysis approach. Under this method, a set of discrete potential future subsidiary earnings was determined using internal estimates based on various revenue growth rate assumptions for each scenario. A probability of likelihood was assigned to each discrete potential future earnings estimate and the resultant contingent consideration was calculated. The resulting probability-weighted contingent consideration amounts were discounted using a weighted average discount rate reflecting the credit risk of a market participant. Changes in either the revenue growth rates, related earnings or the discount rate could result in a material change to the amount of contingent consideration accrued and such changes will be recorded in the Company's condensed consolidated statements of operations.

The Level 3 inputs used to derive the estimated fair value of the Company's contingent consideration liability as of January 31, 2016 were as follows:

	Fiscal 2016 Acquisition	Fiscal 2015 Acquisition
Compound annual revenue growth rate range	(3 %)- 11%	2 %- 17%
Weighted average discount rate	3.6%	1.9%

Index

Changes in the Company's contingent consideration liability measured at fair value on a recurring basis using unobservable inputs (Level 3) for the three months ended January 31, 2016 are as follows (in thousands):

Balance as of October 31, 2015	\$21,405	
Contingent consideration related to acquisition	1,225	
Increase in accrued contingent consideration	847	
Foreign currency translation adjustments	(336)
Balance as of January 31, 2016	\$23,141	

Included in the accompanying Condensed Consolidated Balance Sheet under the following captions:

Accrued expenses and other current liabilities	\$6,858
Other long-term liabilities	16,283
	\$23,141

The Company recorded the increase in accrued contingent consideration and foreign currency translation adjustments set forth in the table above within SG&A expenses in the Company's Condensed Consolidated Statement of Operations.

The Company did not have any transfers between Level 1 and Level 2 fair value measurements during the three months ended January 31, 2016.

The carrying amounts of the Company's cash and cash equivalents, accounts receivable, trade accounts payable and accrued expenses and other current liabilities approximate fair value as of January 31, 2016 due to the relatively short maturity of the respective instruments. The carrying amount of long-term debt approximates fair value due to its variable interest rates.

Index

8. NET INCOME PER SHARE ATTRIBUTABLE TO HEICO SHAREHOLDERS

The computation of basic and diluted net income per share attributable to HEICO shareholders is as follows (in thousands, except per share data):

	Three months ended January 31,	
	2016	2015

Operating income	30,703	19,418	(3,715) 46,406
Capital expenditures	2,614	1,631	9	4,254

Total assets by operating segment as of January 31, 2016 and October 31, 2015 are as follows (in thousands):

	Segment		Other, Primarily Corporate	Consolidated Totals
	FSG	ETG		
Total assets as of January 31, 2016	\$846,999	\$1,011,633	\$122,868	\$1,981,500
Total assets as of October 31, 2015	868,218	746,018	122,151	1,736,387

10. COMMITMENTS AND CONTINGENCIES

Guarantees

As of January 31, 2016, the Company has arranged for standby letters of credit aggregating \$2.6 million, which are supported by its revolving credit facility. One letter of credit in the amount of \$1.5 million is to satisfy the security requirement of the insurance company used by the Company for potential workers' compensation claims and the remainder pertain to performance guarantees related to customer contracts entered into by certain of the Company's subsidiaries.

Index

Product Warranty

Changes in the Company's product warranty liability for the three months ended January 31, 2016 and 2015, respectively, are as follows (in thousands):

	Three months ended January 31,	
	2016	2015
Balances as of beginning of fiscal year	\$3,203	\$4,079
Accruals for warranties	301	238
Warranty claims settled	(534) (533
Balances as of January 31	\$2,970	\$3,784

Litigation

The Company is involved in various legal actions arising in the normal course of business. Based upon the Company's and its legal counsel's evaluations of any claims or assessments, management is of the opinion that the outcome of these matters will not have a material adverse effect on the Company's results of operations, financial position or cash flows.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

This discussion of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and notes thereto included herein. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates if different assumptions were used or different events ultimately transpire.

Our critical accounting policies, which require management to make judgments about matters that are inherently uncertain, are described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," under the heading "Critical Accounting Policies" in our Annual Report on Form 10-K for the year ended October 31, 2015. There have been no material changes to our critical accounting policies during the three months ended January 31, 2016.

Our business is comprised of two operating segments: the Flight Support Group ("FSG"), consisting of HEICO Aerospace Holdings Corp. and HEICO Flight Support Corp. and their respective subsidiaries; and the Electronic Technologies Group ("ETG"), consisting of HEICO Electronic Technologies Corp. and its subsidiaries.

Our results of operations for the three months ended January 31, 2016 have been affected by the fiscal 2015 acquisitions as further detailed in Note 2, Acquisitions, of the Notes to Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended October 31, 2015 and the fiscal 2016 acquisitions as further detailed in Note 2, Acquisitions, of the Notes to Condensed Consolidated Financial Statements of this quarterly report.

Comparison of First Quarter of Fiscal 2016 to First Quarter of Fiscal 2015

Net Sales

Our consolidated net sales in the first quarter of fiscal 2016 increased by 14% to \$306.2 million, up from net sales of \$268.2 million in the first quarter of fiscal 2015. The increase in consolidated net sales principally reflects an increase of \$22.5 million (a 12% increase) to \$204.6 million in net sales within the FSG as well as an increase of \$14.9 million (a 17% increase) to \$104.2 million in net sales within the ETG. The net sales increase in the FSG reflects net sales of \$20.3 million contributed by our fiscal 2015 acquisitions as well as additional aggregate net sales of \$7.4 million from our specialty products and aftermarket replacement parts product lines reflecting increased demand and new product offerings. These increases were partially offset by \$5.1 million of lower net sales from our repair and overhaul services product line. Our repair and overhaul services product line was adversely impacted by the mix of products repaired during the first quarter of fiscal 2016, which required less extensive repair and overhaul services, in addition to softer demand from our South American market. The FSG experienced organic growth of 1% in the first quarter of fiscal 2016. Excluding the net sales decrease in our repair and overhaul services product line, the FSG experienced organic revenue growth of 6% in the first quarter of fiscal 2016. The net sales increase in the ETG reflects net sales of \$11.7 million contributed by our fiscal 2016 and 2015 acquisitions as well as organic growth of 4%. The ETG's organic growth is mainly attributed to an aggregate net sales increase of \$4.2 million from certain space and defense products, partially offset by a \$1.3 million net sales decrease from lower demand for certain aerospace products. Sales price changes were not a significant contributing factor to the FSG and ETG net sales growth in the first quarter of fiscal 2016.

Gross Profit and Operating Expenses

Our consolidated gross profit margin increased to 36.6% in the first quarter of fiscal 2016, up from 35.0% in the first quarter of fiscal 2015, principally reflecting an increase of 2.6% and .9% in the ETG's and FSG's gross profit margin, respectively. The increase in the ETG's gross profit margin is principally attributed to increased net sales and a more favorable product mix for certain of our space and defense products. The increase in the FSG's gross profit margin is principally attributed to improved gross profit margins within our specialty products and aftermarket replacement parts product lines mainly reflecting the previously mentioned increased net sales and a more favorable product mix. Additionally, the increase in the FSG's gross profit margin was partially offset by the previously mentioned decrease in net sales and a less favorable product mix within our repair and overhaul services product line. Total new product research and development expenses included within our consolidated cost of sales were \$9.0 million in the first quarter of fiscal 2016 compared to \$9.3 million in the first quarter of fiscal 2015.

Our consolidated selling, general and administrative ("SG&A") expenses were \$59.6 million and \$47.4 million in the first quarter of fiscal 2016 and 2015, respectively. The increase in consolidated SG&A expenses principally reflects \$9.3 million attributable to the fiscal 2016 and 2015 acquisitions, inclusive of \$3.2 million of acquisition costs associated with a fiscal 2016 acquisition, and \$2.2 million of higher performance-based compensation expense.

Index

Our consolidated SG&A expenses as a percentage of net sales were 19.5% and 17.7% in the first quarter of fiscal 2016 and 2015, respectively. The increase in consolidated SG&A expenses as a percentage of net sales principally reflects a 1.0% impact from the aforementioned acquisition costs and a .6% and .3% impact from increases in performance-based compensation expense and amortization expense of intangible assets recognized in connection with the fiscal 2016 and 2015 acquired businesses, respectively.

Operating Income

Our consolidated operating income in the first quarter of fiscal 2016 increased by 13% to \$52.6 million, up from \$46.4 million in the first quarter of fiscal 2015. As a percentage of net sales, our consolidated operating income was 17.2% and 17.3% in the first quarter of fiscal 2016 and 2015, respectively. The increase in consolidated operating income principally reflects a \$4.8 million increase (a 16% increase) to \$35.5 million in operating income of the FSG as well as a \$2.9 million increase (a 15% increase) to \$22.3 million in operating income of the ETG. The increase in operating income of the FSG is mainly attributed to the previously mentioned net sales growth and improved gross profit margin, partially offset by an aggregate \$2.6 million impact from an increase in amortization expense of intangible assets principally recognized in connection with the fiscal 2015 acquired businesses and higher performance-based compensation expense. The increase in operating income of the ETG is mainly attributed to the previously mentioned net sales growth and improved gross profit margin, partially offset by an aggregate \$3.7 million impact from the previously mentioned acquisition costs and an increase in amortization expense of intangible assets principally recognized in connection with the fiscal 2016 and 2015 acquired businesses.

Interest Expense

Interest expense increased to \$1.6 million in the first quarter of fiscal 2016, up from \$1.1 million in the first quarter of fiscal 2015. The increase was principally due to a higher weighted average balance outstanding under our revolving credit facility associated with our fiscal 2015 and 2016 acquisitions.

Other (Expense) Income

Other (expense) income in the first quarter of fiscal 2016 and 2015 was not material.

Income Tax Expense

Our effective tax rate in the first quarter of fiscal 2016 decreased to 29.0% from 29.5% in the first quarter of fiscal 2015. The decrease principally reflects the benefit from our decision to not make a provision for U.S. income taxes on the undistributed earnings of a fiscal 2015 foreign acquisition with operations in lower tax rate jurisdictions. Our effective tax rate in both the first quarter of fiscal 2016 and 2015 reflects a similar economic benefit from a retroactive extension of the U.S. federal R&D tax credit that resulted in an additional income tax credit recognized for qualified R&D activities for the last ten months of the respective prior fiscal year.

Index

Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests relates to the 20% noncontrolling interest held by Lufthansa Technik AG in HEICO Aerospace and the noncontrolling interests held by others in certain subsidiaries of the FSG and ETG. Net income attributable to noncontrolling interests was \$4.7 million in the first quarter of fiscal 2016 compared to \$4.5 million in the first quarter of fiscal 2015.

Net Income Attributable to HEICO

Net income attributable to HEICO increased to \$31.3 million, or \$.46 per diluted share, in the first quarter of fiscal 2016 from \$27.6 million, or \$.41 per diluted share, in the first quarter of fiscal 2015 principally reflecting the previously mentioned increased net sales and operating income.

Outlook

As we look ahead to the remainder of fiscal 2016, we anticipate overall moderate organic growth within the FSG resulting from increased demand across all product lines. Additionally, we currently expect overall moderate organic growth within the ETG resulting from increased net sales for the majority of our products. During the remainder of fiscal 2016, we plan to continue our focus on new product development, further market penetration, executing our acquisition strategies and maintaining our financial strength. Based on our current economic visibility, we are increasing our estimated consolidated fiscal 2016 year-over-year growth in net sales to 14% - 16% and net income to 10% - 13%, up from prior growth estimates in both net sales and net income of 8% - 10%.

Liquidity and Capital Resources

Our principal uses of cash include acquisitions, capital expenditures, cash dividends, distributions to noncontrolling interests and working capital needs. Capital expenditures in fiscal 2016 are anticipated to approximate \$32 million. We finance our activities primarily from our operating and financing activities, including borrowings under our revolving credit facility.

The revolving credit facility contains both financial and non-financial covenants. As of January 31, 2016, we were in compliance with all such covenants. As of January 31, 2016, our net debt to shareholders' equity ratio was 61.3%, with net debt (total debt less cash and cash equivalents) of \$565.0 million.

Based on our current outlook, we believe that our net cash provided by operating activities and available borrowings under our revolving credit facility will be sufficient to fund cash requirements for at least the next twelve months.

Index

Operating Activities

Net cash provided by operating activities was \$45.2 million in the first quarter of fiscal 2016 and consisted primarily of net income from consolidated operations of \$35.9 million, depreciation and amortization expense of \$13.9 million (a non-cash item), and a deferred income tax provision of \$2.3 million (a non-cash item), partially offset by an increase in working capital (current assets minus current liabilities) of \$9.6 million. Net cash provided by operating activities increased by \$15.7 million in the first quarter of fiscal 2016 from \$29.5 million in the first quarter of fiscal 2015. The increase in net cash provided by operating activities in the first quarter of fiscal 2016 is principally attributed to a net \$6.4 million decrease in working capital principally reflecting a decrease in accounts receivable resulting from the collection of previously reported strong net sales late in the fourth quarter of fiscal 2015 as well as a \$3.8 million increase in net income from consolidated operations and a \$3.0 million increase in depreciation and amortization expense (a non-cash item).

Investing Activities

Net cash used in investing activities totaled \$269.5 million in the first quarter of fiscal 2016 and related primarily to acquisitions of \$264.3 million as well as capital expenditures of \$5.7 million. Further details regarding our fiscal 2016 acquisitions may be found in Note 2, Acquisitions, of the Notes to Condensed Consolidated Financial Statements.

Financing Activities

Net cash provided by financing activities in the first quarter of fiscal 2016 totaled \$220.8 million. During the first quarter of fiscal 2016, we borrowed \$260.0 million on our revolving credit facility principally to fund an acquisition. Additionally, we made payments on our revolving credit facility aggregating \$32.0 million, paid \$5.4 million in cash dividends on our common stock and made distributions to noncontrolling interests aggregating \$2.7 million in the first quarter of fiscal 2016.

Contractual Obligations

There have not been any material changes to the amounts presented in the table of contractual obligations that was included in our Annual Report on Form 10-K for the year ended October 31, 2015.

Off-Balance Sheet Arrangements

Guarantees

As of January 31, 2016, we have arranged for standby letters of credit aggregating \$2.6 million, which are supported by our revolving credit facility. One letter of credit in the amount of \$1.5 million is to satisfy the security requirement of the insurance company we use for

Index

potential workers' compensation claims and the remainder pertain to performance guarantees related to customer contracts entered into by certain of our subsidiaries.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers," which provides a comprehensive new revenue recognition model that will supersede nearly all existing revenue recognition guidance. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09, as amended, is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2017, or in fiscal 2019 for HEICO. Early adoption in the year preceding the effective date is permitted. ASU 2014-09 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. We are currently evaluating which transition method we will elect and the effect the adoption of this guidance will have on our consolidated results of operations, financial position and cash flows.

In February 2015, the FASB issued ASU 2015-02, "Amendments to the Consolidation Analysis," which changes the guidance for evaluating whether to consolidate certain legal entities. Specifically, ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities ("VIEs") or voting interest entities. Additionally, this guidance eliminates the presumption that a general partner should consolidate a limited partnership, and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2015, or in fiscal 2017 for HEICO. Early adoption is permitted. ASU 2015-02 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2015-02 recognized at the date of initial application. We are currently evaluating which transition method we will elect and the effect the adoption of this guidance will have on our consolidated results of operations, financial position and cash flows.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory," which requires entities to measure inventories at the lower of cost or net realizable value. Under current guidance, inventories are measured at the lower of cost or market. ASU 2015-11 must be applied prospectively and is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is permitted. We are currently evaluating the effect, if any, the adoption of this guidance will have on our consolidated results of operations, financial position and cash flows.

Index

In November 2015, the FASB issued ASU 2015-17, "Balance Sheet Classification of Deferred Taxes," which requires that all deferred tax assets and liabilities be classified as noncurrent in the balance sheet. ASU 2015-17 may be applied either prospectively or retrospectively and is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is permitted. We are currently evaluating which transition method we will elect. The adoption of this guidance will only effect the presentation of deferred taxes in our consolidated statement of financial position.

In February 2016, the FASB issued ASU 2016-02, "Leases," which requires recognition of lease assets and lease liabilities on the balance sheet of lessees. ASU 2016-02 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2018, or in fiscal 2020 for HEICO. Early adoption is permitted. ASU 2016-02 requires a modified retrospective transition approach and provides certain optional transition relief. We are currently evaluating the effect the adoption of this guidance will have on our consolidated results of operations, financial position and cash flows.

Forward-Looking Statements

Certain statements in this report constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained herein that are not clearly historical in nature may be forward-looking and the words "anticipate," "believe," "expect," "estimate" and similar expressions are generally intended to identify forward-looking statements. Any forward-looking statement contained herein, in press releases, written statements or other documents filed with the Securities and Exchange Commission or in communications and discussions with investors and analysts in the normal course of business through meetings, phone calls and conference calls, concerning our operations, economic performance and financial condition are subject to risks, uncertainties and contingencies. We have based these forward-looking statements on our current expectations and projections about future events. All forward-looking statements involve risks and uncertainties, many of which are beyond our control, which may cause actual results, performance or achievements to differ materially from anticipated results, performance or achievements. Also, forward-looking statements are based upon management's estimates of fair values and of future costs, using currently available information. Therefore, actual results may differ materially from those expressed or implied in those statements. Factors that could cause such differences include: lower demand for commercial air travel or airline fleet changes or airline purchasing decisions, which could cause lower demand for our goods and services; product specification costs and requirements, which could cause an increase to our costs to complete contracts; governmental and regulatory demands, export policies and restrictions, reductions in defense, space or homeland security spending by U.S. and/or foreign customers or competition from existing and new competitors, which could reduce our sales; our ability to introduce new products and services at profitable pricing levels, which could reduce our sales or sales growth; product development or manufacturing difficulties, which could increase our product development costs and delay sales; and our ability to make acquisitions and achieve operating synergies from acquired businesses; customer credit risk; interest, foreign currency exchange and

Index

income tax rates; economic conditions within and outside of the aviation, defense, space, medical, telecommunications and electronics industries, which could negatively impact our costs and revenues; and defense budget cuts, which could reduce our defense-related revenue. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except to the extent required by applicable law.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have not been any material changes in our assessment of HEICO's sensitivity to market risk that was disclosed in Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," in our Annual Report on Form 10-K for the year ended October 31, 2015.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that HEICO's disclosure controls and procedures are effective as of the end of the period covered by this quarterly report.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the first quarter ended January 31, 2016 that have materially affected, or are reasonably likely to materially affect, HEICO's internal control over financial reporting.

On January 11, 2016, the Company acquired all of the limited liability company interests of Robertson Fuel Systems, LLC ("Robertson"). See Note 2, Acquisitions, of the Notes to Condensed Consolidated Financial Statements for additional information. The Company is in the process of integrating Robertson into its overall internal control over financial reporting process.
