[] Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01. Other Events.

Complaint filed by Arkansas Public Service Commission

On June 7, 2006, the Arkansas Public Service Commission ("APSC") filed a complaint with the Federal Energy Regulatory Commission ("FERC") against Entergy Services, Inc., as the representative of Entergy Corporation ("Entergy") and its operating companies, Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, LLC ("ELL"), Entergy Mississippi, Inc. and Entergy New Orleans, Inc. (collectively, the "Operating Companies"), pursuant to Sections 205, 206 and 207 of the Federal Power Act ("FPA"). The APSC states that "The purpose of the complaint is to institute an investigation into the prudence of Entergy's practices affecting the wholesale rates that flow through its System Agreement." The complaint requests, among other things, that the FERC disallow any costs found to be imprudent, with a refund effective date to be set at the earliest possible time. Specific areas of requested investigation include:

- The Operating Companies' transmission expansion and planning process, including the construction, or lack thereof, of economic transmission upgrades;
- The Operating Companies' wholesale purchasing practices, including the potential savings due to integration of independent power producers into their economic dispatch;
- The Operating Companies' alleged failure to retire their aging, inefficient gas- and oil-fired generation; and
- The alleged failure to construct or acquire coal capacity for the generation portfolio of ELL.

The complaint also requests that the FERC exercise its authority under Section 207 of the FPA to investigate the adequacy of Entergy's transmission system and direct it to make all necessary upgrades to ensure that its transmission facilities provide reliable, adequate and economic service.

The Operating Companies believe that their conduct with respect to these issues has been prudent and will vigorously defend such conduct. Entergy believes that this complaint is a reiteration of arguments that the APSC previously had made in the System Agreement proceeding, and which the FERC previously had rejected. The FERC's decision in the System Agreement proceeding is currently pending before the United States Court of Appeals for the D.C. Circuit. For additional information regarding the System Agreement and related legal proceedings, see "System Agreement Proceedings" in the "**Significant Factors and Known Trends**" section of Entergy Corporation and Subsidiaries Management's Discussion and Analysis in Entergy's Annual Report on Form 10-K for the fiscal year ended December 31, 2005.
