"Broker non-votes" refers to a broker or other nominee holding shares for a beneficial owner not voting on a particular proposal because the broker or other nominee does not have discretionary voting power regarding that item and has not received instructions from the beneficial owner.

The expenses of solicitation, including the cost of printing and mailing, will be paid by the Company. Proxies are being solicited principally via the Internet and by mail. In addition, directors, officers and regular employees of the Company may solicit proxies personally, by telephone, by fax or by special letter. BOARD OF DIRECTORS LEADERSHIP

Mr. Dively has served as President and Chief Executive Officer and Chairman of the Board of Directors of the Company since January 1, 2014. The Board of Directors believes that having the Chief Executive Officer and Chairman positions held by the same individual allows that individual to have multiple perspectives about the

Company and its operations while optimizing the ability of the Board of Directors members to communicate with Company management. Also, because the members of the Board of Directors other than Mr. Rowland and Mr. Dively are independent, the knowledge of the Company that Mr. Dively brings to the Board of Directors helps to enhance the Board of Directors' leadership of the Company. The Board of Directors has no fixed policy with respect to combining or separating the roles of the Chief Executive Officer and the Chairman of the Board of Directors and will continue to review the Board of Directors' leadership structure from time to time in order to ensure that the leadership is optimal for the Company at that time.

At any time that the Chief Executive Officer and Chairman of the Board positions are held by the same individual, the Board of Directors may, in its discretion, appoint a lead independent director. At its meeting on January 28, 2014, the Board of Directors appointed Mr. Sparks as its lead independent director. Prior to Mr. Sparks' appointment, the Board of Directors did not have a lead independent director. The responsibilities of the lead independent director include the following: acting as a liaison between the Chairman and the independent members of the Board of Directors; advising the Chairman on the quality, quantity and timeliness of the flow of information from management; serving as a resource to the members of the Board of Directors on corporate governance practices and policies; and coordinating and moderating executive sessions of the independent members of the Board of Directors.

BOARD OF DIRECTORS ROLE IN RISK OVERSIGHT

The Board of Directors oversees the risk management of the Company through its committees, management committees and the Chief Executive Officer. The Board of Directors' audit committee monitors risks related to (1) the effectiveness of the Company's disclosure controls and internal controls over financial reporting, (2) the integrity of its Consolidated Financial Statements, (3) compliance with laws and regulations, (4) risks and exposures relating to financial reporting, particularly disclosure and SEC reporting, (5) internal and independent auditors and (6) tax, investment, credit and liquidity matters. In addition, the audit committee oversees the internal audit function and communicates with the independent registered public accountant. The compensation committee is also involved in risk management through its review of risks in the Company's compensation policies and practices for employees. The Board of Directors' recognition of the importance of risk management oversight and their role in representing the interests of stockholders is enhanced as a result of the Board of Directors members' collective beneficial ownership of approximately 21% of the outstanding shares of Common Stock of the Company.

At its monthly meetings, the Board of Directors receives the minutes from each of the Company's management committee meetings, as well as various reports from executive management, including the senior Risk Management officer. The Board of Directors reviews and discusses these reports with each of the executive managers. The Board of Directors reviews the status of all classified assets and trends in loan delinquency and reviews the allowance for loan losses each quarter. During 2015, three members of the Board of Directors served on the senior loan committee. The senior loan committee approves all loan underwriting decisions in excess of \$4 million and up to \$15 million. The Board of Directors approves all underwriting decisions in excess of \$15 million.

The Board of Directors also reviews the policies and practices of the Company on a regular basis. In addition, the Board of Directors reviews corporate strategies and objectives, evaluates business performance and reviews the annual business plan.

NOMINATIONS FOR DIRECTOR

The Company does not maintain a standing nominating committee but has adopted a Director Nomination Policy. The Board of Directors' independent directors (the "Independent Directors") perform the functions of a nominating committee, and considers and acts on all matters relating to the nomination of individuals for election as directors. Pursuant to the Director Nomination Policy, the Independent Directors review and make recommendations regarding the composition and size of the Board of Directors in order to ensure that it has the requisite expertise and that its membership consists of persons with sufficiently diverse backgrounds and satisfies NASDAQ's listing requirements regarding independent directors. The Company believes the diverse backgrounds and perspectives of its current directors, as described above under "Board Director Qualifications," are appropriate to the oversight of the Company's management team and performance. The Board of Directors does not believe it needs a separate nominating committee because the Independent Directors have the time and resources to perform the function of selecting director nominees. Also, all but two of the directors satisfy the independence requirements of the NASDAQ Stock Exchange. The Independent Directors act in accordance with the Company's Director Nomination Policy and the

Company's Certificate of Incorporation when performing their nominating function.

In the consideration of director nominees, the Independent Directors consider, at a minimum, the following factors for new directors, or the continued service of existing directors: (1) the ability of the prospective nominee to represent the interests of the stockholders of the Company; (2) the prospective nominee's standards of integrity, commitment and independence of thought and judgment; (3) the prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties; (4) the extent to which the prospective nominee contributes to the diversity of talent, skill and expertise appropriate for the Board of Directors; and (5) the prospective nominee's contributions to the Board of Directors as a whole.

Any stockholder who wishes to recommend a director candidate for consideration by the Independent Directors should submit such recommendation in writing to the Board of Directors at the address set forth below under "Communications with Directors." A candidate recommended for consideration must be highly qualified and must be willing and able to serve as director. Director candidates recommended by stockholders will receive the same consideration given to other candidates and will be evaluated against the criteria above.

NOTICE PROVISIONS FOR STOCKHOLDER NOMINATIONS OF DIRECTORS

Any stockholder wishing to nominate an individual for election as a director at the Annual Meeting must comply with certain provisions in the Company's Certificate of Incorporation. The Company's Certificate of Incorporation establishes an advance notice procedure with regard to the nomination, other than by or at the direction of the Board of Directors, of candidates for election as directors. If the notice is not timely and in proper form, the proposed nomination will not be considered at the Annual Meeting. Generally, such notice must be delivered to or mailed to and received by the Secretary of the Company not fewer than 14 days nor more than 60 days before a meeting at which directors are to be elected. To be in proper form, each written nomination must set forth: (1) the name, age business address and, if known, the residence address of the nominee, (2) the principal occupation or employment of the nominee for the past five years, and (3) the number of shares of stock of the Company beneficially owned by the nominee and by the nominating stockholder. The stockholder must also comply with certain other provisions set forth in the Company's Certificate of Incorporation relating to the nomination of an individual for election as a director. For a copy of the Company's Certificate of Incorporation, which includes the provisions relating to the nomination of an individual for election as a director, an interested stockholder should contact the Secretary of the Company at 1421 Charleston Avenue, P.O. Box 499, Mattoon, Illinois 61938.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis explains the objectives and philosophy underlying the Company's executive compensation program and the material elements of the compensation paid to the Company's executive officers, including the executive officers named in the Summary Compensation Table of this proxy statement (the "named executive officers"). The named executive officers for 2015 were:

Joseph R. Dively:	President, Chairman & Chief Executive Officer
Michael L. Taylor:	Senior Executive Vice President & Chief Financial Officer
John W. Hedges:	Senior Executive Vice President & Chief Credit Officer
Eric S. McRae:	Executive Vice President & Senior Lender
Laurel G. Allenbaugh:	Executive Vice President & Chief Operations & IT Officer

Executive Compensation Objectives

It is the policy of the Company to compensate its executives in a manner that is equitable and competitive based on their responsibilities, performance and market conditions. The Company's compensation objectives with respect to its named executive officers are to:

- Provide incentive to maximize stockholder value by aligning the executives' interests with those of the stockholders.
- Enable the Company to attract and retain the best available executive talent.
- Reward individual performance and contributions to the Company.

Setting Executive Compensation

The compensation committee attempts to meet these objectives by providing a mix of key compensation elements that include base salary, annual cash incentives and equity-based compensation. In setting aggregate compensation for each of the named executive officers, the compensation committee first establishes appropriate levels of base salary for the executives, and then establishes the opportunity for the executives to earn additional compensation through annual cash incentives and longer-term equity compensation. The amount of such additional compensation varies with position and, in the case of annual and long-term incentives, is also conditioned on attainment of corporate or individual performance measures. The Company also provides retirement benefits, severance and change in control benefits, and a limited number of perquisites and other personal benefits in order to ensure a complete and competitive compensation plan.

The compensation committee uses the key elements of compensation to meet the objectives of its executive compensation program as follows:

Provide incentive to maximize stockholder value by aligning the executives' interests with those of the stockholders. In the past, the compensation committee has used stock options as a way to unify the interests of the executives and stockholders. Issuing options that have a 10 year term and incrementally vest over time, but only so long as the executive remains employed by the Company, encourages an executive to increase the Company's stock value over time. Since 2011, the compensation committee has granted annual and cumulative performance awards under its executive long term incentive plan that consist of restricted stock awards and restricted stock units. The compensation committee also bases a significant portion of an executive's cash incentive on attainment of certain corporate performance metrics, which encourages the executive to work to increase the Company's profitability and in

turn, its stock value.

The compensation committee believes that the components of the long term incentive plan align key executive compensation with the Company's performance goals. The long term incentive plan includes both single and multiple year goals which ensure that the executives are focused on longer term sustainability of earnings and growth in the book value of the Company. Lastly, the restricted stock and restricted stock units issued under the long term incentive plan awards offer less market risk for executives and less dilutive potential to the current owners of the Company's stock.

Enable the Company to attract and retain the best available talent. In order to achieve this objective, the compensation committee believes it must pay compensation that is competitive. As described below, the compensation committee reviews and monitors the compensation paid by companies that are comparable to the Company to ensure that compensation packages are competitive.

Reward individual performance and contributions to the Company. The compensation committee's evaluation of the individual performance of each executive affects his or her compensation. Individual performance is an important factor in determining base salary, which in turn affects the amount of cash incentive compensation that can be earned. Individual performance is also a component of the cash incentive compensation and, when awarded, equity compensation.

The compensation committee makes all compensation decisions for the CEO and all other executive officers of the Company. The CEO annually reviews the performance of each executive officer (other than himself) and makes recommendations to the compensation committee. The compensation committee considers the CEO's recommendations when making its final compensation decisions for all executives other than the CEO. Although the compensation committee has the discretion to make all final decisions, the recommendation of the CEO is an important factor. The compensation committee believes that its ability to exercise discretion in setting the elements of compensation for its executives provides flexibility to establish appropriate overall compensation levels and achieve the Company's objectives.

Key Elements of Compensation

Each year the compensation committee reviews compensation data of the most highly paid executives of other comparable banking institutions. For 2015, the data consisted of a compensation survey, prepared by the Company's human resources director, of publicly traded banks in non-urban markets in the upper Midwest who directly compete with the Company or who have market capitalization comparable to that of the Company. (The banks included in the 2015 analysis ranged in size from approximately \$1 billion to \$5 billion in assets). Because these institutions frequently recruit individuals for senior executive positions requiring similar skills and backgrounds to the individuals recruited by the Company, the compensation committee uses this information as a general guide in establishing the base salaries, cash incentives and equity compensation of the named executive officers. The compensation committee generally aligns compensation components with those used by the peer institutions and attempts to maintain a comparable level of total compensation (i.e., salary, annual cash incentives and equity compensation). However, the compensation committee does not rely solely on this information and does not benchmark its decisions regarding total compensation or elements of compensation to any particular percentile range of the comparator groups of companies.

In addition, the compensation committee considers each executive's current salary, his or her individual performance, the financial performance of the Company, the anticipated difficulty of replacing the executive with a person of comparable experience and skill and the recommendation of the CEO. The compensation committee also may periodically engage the services of independent consultants with knowledge and experience in such matters, although it did not do so for 2015 compensation decisions.

Base Salary

Executives are paid an annual salary. The compensation committee reviews salaries annually in the beginning part of each year. Based on the guidelines and factors described above, the compensation committee, in early 2015, concluded that adjustments to base salaries for certain named executive officers were necessary in order to keep compensation for named executive officers competitive. In addition to the factors noted above, the compensation committee considered the level of the executive's accomplishment of individual goals for the prior year, the number of individuals the executive supervises, the level of duties and responsibilities assumed by the executive and the strategic

implications of the decisions the executive is required to make.

The compensation committee established the 2015 base salary for the named executive officers as follows (salary increases were effective as of February 16, 2015):

Executive	2015 Salary Rate	\$ Increase from 2014 Salary Rate
Mr. Dively	\$343,200	\$13,200
Mr. Taylor	\$253,136	\$9,736
Mr. Hedges	\$257,508	\$8,708
Mr. McRae	\$229,491	\$7,761
Ms. Allenbaugh	\$184,032	\$5,792

17

The actual salaries paid to the named executive officers in 2015 are set forth in the "Salary" column of the Summary Compensation Table of this proxy statement.

Annual Cash Incentives

The named executive officers are eligible to participate in the Company's Incentive Compensation Plan (the "Plan"), which is designed to reward executives in increasing Company profitability and achieving individual accomplishments which create stockholder value. The Company reserves the right to require its executives to return all or a portion of incentive cash compensation paid in the event of an earnings restatement of previously issued financial statements.

In January 2015, the compensation committee determined the target cash incentive opportunity each named executive officer was entitled to receive as a percentage of his or her base salary rate in effect for 2015. This amount was based on individual performance during the previous year, as well as the level of duties and responsibilities assumed by the executives in their respective positions. The percentage of salary payable as cash incentive was consistent with the amounts in each named executive officer's employment agreement and did not change from 2014.

Since successful execution of the Company's strategic plan requires that members of the executive management team work closely together (sometimes to the detriment of individual personal goals) and because senior management has the potential greatest influence on Company profitability, the compensation committee determined each executive's incentive opportunity for 2015 would continue to be based 70% on the Company's net income (exclusive of non-recurring costs associated with acquisitions) and 30% on the Company's asset quality (non-performing loans and repossessed assets as a percent of total loans). The Compensation Committee utilizes the asset quality goal, in addition to the net income goal, based on the premise that asset quality has a strong correlation to future loan losses and therefore, future profitability, while net income represents current profitability. The Compensation Committee believes the combination of these two metrics represents the best measures of shareholder value for the near term.

The target cash incentive opportunity for each named executive officer established for 2015 was based on a percentage of the executive's salary rate in effect beginning February 16, 2015, as follows:

Executive	% of Salary Payable as Cash Incentive	% of Cash Incentive Tied to Net Income	% of Cash Incentive Tied to Asset Quality
Mr. Dively	50%	70%	30%
Mr. Taylor	35%	70%	30%
Mr. Hedges	35%	70%	30%
Mr. McRae	35%	70%	30%
Ms. Allenbaugh	35%	70%	30%

At the same time, the compensation committee established the criteria for measurement of the two goals. The net income target was determined using the prior year's net income (which was \$15.5 million) and current year budgeted net income. The asset quality target was determined to be based on a percentage of the balance of total loans outstanding (which was \$1.134 billion) at December 31, 2015. Using this as a base line, the compensation committee determined the following 2015 goal criteria:

	Performance	Net Income	Asset Quality (1)	% of Opportunity
Threshold:	85% of previous year net income and nonperforming assets of 1.85% of current year loan balance	\$13.1 million	\$21.0 million	25%
Target:	Current year budgeted net income and nonperforming assets of	\$16.2 million	\$19.1 million	60%

Superior:	1.68% of current year loan balance			
	110% of previous year net income			
	and and nonperforming assets of	\$17.8 million	\$12.5 million	100%
	1.00% of current year loan balance			

The compensation committee has the discretion to pay a prorated portion of the cash incentive opportunity for attainment of levels between threshold, budget and superior, or for attainment of levels above superior. Operations for 2015, adjusted \$198,000 for the net impact of acquisitions, resulted in net income of \$16.71 million, which was between the budget and superior levels for 72% payout. Balances of total non-performing assets on December 31, 2015 totaled \$21 million, which was at the threshold level for 25% payout. The cash incentive award was based on corporate performance achievement of 58%:

	% of Incentive	% of attainment	% of opportunity	
Net Income	70	% 72	% 50	%
Asset Quality	30	% 25	% 8	%
			58	%

Based on the 58% level of attainment, the following bonuses were paid for 2015:

Equity Compensation

The compensation committee grants long-term equity compensation in order to motivate executives to increase stockholder value over the long term and more closely link the financial interests of the Company's executives with those of its stockholders. The Company reserves the right to require its executives to return all or a portion of compensation paid in the event of an earnings restatement of previously issued financial statements.

Since 2011, the compensation committee has made awards pursuant to the Executive Long-Term Incentive Program (LTIP), which provides a framework for granting awards of restricted stock and restricted stock units (RSUs) under the 2007 Stock Incentive Plan. The compensation committee believes that the components of the LTIP more closely align key executive compensation with the Company's performance goals than the stock options granted in prior years and ensures that the executives are focused on longer term sustainability of earnings and growth in the value of the Company. The LTIP also gives the compensation committee the ability to change the types and weightings of the metrics used for the performance goals to which the awards are subject. Prior to 2015, the LTIP included annual and three-year goals. In January 2015, the compensation committee restructured the LTIP to reduce its complexity while retaining the long-term component and the overall equity value awarded to participants. The LTIP grants are still performance-based and subject to the same performance criteria. However, (i) the awards are entirely in the form of RSUs (no restricted stock); (ii) the annual award component has been eliminated, so all of the RSUs (as adjusted for performance) will vest at the end of a three-year performance period; and (iii) at the end of the performance period the units are settled entirely in shares of stock (no 50% cash payment).

Under the LTIP for 2015, the compensation committee set an aggregate target value of the awards to be made to each executive. In determining these values, the compensation committee did not use a formulaic approach, but took into account historic grants, Company performance and individual levels of responsibility. The value of equity awarded to each executive is intended to be proportionate to the individual's responsibility to influence the strategic direction of the Company and create stockholder value. Each award was granted with a three-year performance period ending December 31, 2017 and consists entirely of RSUs. The number of RSUs subject to each Award is determined by

dividing the target value by the closing price of the common stock on the date of grant.

The compensation committee also set performance goals to which each award is subject. The target number of RSUs subject to each award is adjusted by the compensation committee at the end the performance period, and the adjusted number of RSUs vest as of such date. Vested awards are settled entirely in stock. Until an executive's award vests or is forfeited, it is credited with dividend equivalents which are paid to the executive only to the extent the award vests. The awards granted to named executive officers in 2015 were based on a percentage of the executive's salary in effect beginning February 16, 2015, as follows:

Executive	Percentage of Salary (1)	Target Value	Stock Unit Award
Mr. Dively	30%	\$102,960	5,195
Mr. Taylor	20%	\$50,627	2,555
Mr. Hedges	20%	\$51,502	2,599
Mr. McRae	13%	\$29,834	1,506
Ms. Allenbaugh	13%	\$23,924	1,208

(1) The percentages in this column are the same as those used in 2014.

At the same time, the compensation committee established the 2015 performance goals for the performance period based on historical and expected performance. These goals were established using two performance metrics: return on assets (calculated as net income divided by year-to-date average assets) and tangible book value per share (calculated as total common equity less goodwill and other intangible assets divided by common shares outstanding). The compensation committee believes use of these metrics shifts the dependency of incentive compensation from the measure of net income used in cash incentives and encourages growth and increased value for the Company's stockholders. Based on historical and 2015 budgeted metrics, the compensation committee determined the following 2015 goals:

Performance Level		Performance Award
Return on Assets (50% goal weighting):		
< Threshold	0%	
Threshold	70%	0.90%
Target	100%	1.00%
Maximum	125%	1.05%
Tangible Book Value per Share (50% goal weighting):		
< Threshold	0%	
Threshold	70%	\$18.50
Target	100%	\$19.50
Maximum	125%	\$21.00

The number of shares subject to each award is adjusted by the percentage multiplier that results from the actual achievement level of the performance goals. For achievement of levels between threshold and target and between target and maximum, the percentage multiplier is adjusted on the basis of straight line interpolation. Fractional shares are rounded up.

On December 31, 2015, the three-year performance period ended for restricted stock/RSU awards granted in 2013. The performance goals were return on assets and tangible book value. Results for the performance period for return on assets was 0.97% and for tangible book value per share was \$17.42. This resulted in executives receiving 118% of this award, which was fully vested.

Retirement Plans

The Company sponsors various retirement plans that cover eligible employees, including certain named executive officers. The Company believes that these benefits are a valuable incentive for attracting and retaining top executives.

401(k) Plan. The Company's 401(k) plan is a tax-qualified retirement plan that covers all employees generally, including the named executive officers. An employee can elect to defer a percentage of his or her compensation on a pre-tax basis, up to a maximum in 2015 of \$18,000, or \$24,000 if age 50 or over, and the Company contributes a matching contribution of up to 4% of the employee's deferral contributions. The Company also provides a discretionary annual contribution up to 4% of each eligible employee's compensation, whether or not the employee makes elective deferral contributions. (Amounts paid to the plan reflect the Internal Revenue Code's limit on the amount of compensation that can be taken into account in determining contributions, which was \$265,000 in 2015). The Company's contributions under the Plan on behalf of each named executive officer are included in the "All Other Compensation" column of the Summary Compensation Table of this proxy statement.

Deferred Compensation Plan. The Deferred Compensation Plan is a non-qualified retirement plan that covers selected employees, including the named executive officers. The plan provides higher paid employees with the opportunity to defer compensation in addition to compensation that can be deferred under the 401(k) plan. For each calendar year, each executive can defer a portion of his or her salary and cash incentive opportunity. The deferred amounts are invested in Company common stock and are paid to the executive in shares of common stock after termination of employment. The Company does not contribute to this plan. The Deferred Compensation Plan is described in greater detail in the "Non-Qualified Deferred Compensation" section of this proxy statement.

Employment Agreements

The Company has employment agreements with certain of its executives, including each named executive officer. The agreements, which are generally for three-year terms, provide for a minimum base salary which cannot be reduced, and a maximum cash incentive opportunity. The agreements also provide for severance benefits upon certain terminations of employment. If the named executive officer's employment is terminated by the Company without cause, he or she is entitled to continued payment of base salary for 12 months and continued health coverage for the severance period. If following a change in control of the Company, either the named executive officer's employment is terminated by the Company without cause, or the named executive officer terminates his or her employment for good reason, the named executive officer is entitled to continued payment of base salary for 12 months (24 months for Messrs. Dively, Taylor, and Hedges), a lump sum payment equal to the cash incentive paid for the prior year, and continued health coverage for 12 months. The agreements contain restrictive covenants that prohibit the named executive officers from disclosing confidential information and from competing with the Company. Mr. Hedges' employment agreement was amended on December 15, 2015 to renew the agreement through December 31, 2016 and shorten the term of the covenant not to compete to one year (from two years). The employment agreements are described in greater detail in the "Potential Payments Upon Termination or Change in Control of the Company" section of this proxy statement.

The compensation committee believes these severance benefits reflect market levels of benefits when they were negotiated and represent fair and appropriate consideration for the executive's agreement to the post-termination restrictive covenants. The Company believes that the protections afforded by the agreements are a valuable incentive for attracting and retaining top executives. The Company also believes that in the event of an extraordinary corporate transaction, the agreements could prove important to the Company's ability to retain top management through the transaction process and to provide motivation to the executives to act in the best interests of the Company and its stockholders before, during and after the transaction.

Perquisites and Other Benefits

The Company provides limited perquisites and other benefits to its executives. During 2015, Messrs. Dively, Taylor, Hedges and McRae received a monthly auto allowance. The determination as to whether an auto allowance is appropriate for an executive is based on the amount of business travel undertaken by the executive and the relative cost involved. The Company paid for annual country club membership dues for Messrs. Dively, Taylor and Hedges. All of the named executives received communication device allowances. These perquisites and other benefits are reported in the “All Other Compensation” column of the Summary Compensation Table of this proxy statement.

Incentive Compensation Recoupment Policy

In January 2015, the compensation committee adopted an Incentive Compensation Recoupment Policy. The Policy permits the Board to recoup from an executive cash or equity-based compensation granted on or after January 1, 2015 in the event that there is a restatement of the Company's financial statements or the executive engages in misconduct that results in a material loss or damage to the Company. Recoupment covers any incentive compensation (including annual cash bonuses and awards under LTIP) that is awarded or paid or vests within 36 months preceding the restatement or 36 months following the occurrence of misconduct. Misconduct includes an act of fraud, dishonesty or gross negligence, the material breach of a fiduciary duty, a knowing violation of a Company policy, or a violation of a confidentiality, non-solicitation or non-competition covenant.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility of executive compensation paid to the CEO and to each of the three other most highly compensated officers (other than the chief financial officer) of a public company to \$1 million per year, but contains an exception for "performance-based compensation." Annual salary, by its nature, does not qualify as performance-based compensation under Section 162(m), and the Company's annual cash incentive payments and grants of restricted stock and restricted stock units do not qualify as performance-based compensation. Stock options previously granted by the Company do qualify as performance based compensation. Due to the amounts and forms of compensation currently paid to the Company's executive officers, the tax deductibility of such compensation under Section 162(m) is not an important factor at this time in making compensation decisions.

Other Compensation Decisions

At the 2014 Annual Meeting of Stockholders, the "Advisory Vote on Executive Compensation" proposal (the "say on pay" vote) received support from approximately 96% of the votes cast. The Board of Directors considered these results and, based on the overwhelming support from stockholders, determined to not make any major changes to the executive compensation plans and programs already in place for 2015 or for 2016, except that the Company adopted an Incentive Compensation Recoupment Policy and the LTIP was streamlined for awards granted in 2015.

Estimated Possible Payouts Under Non-Equity Incentive Plan Awards. Payouts under the Company's Incentive Compensation Plan were based on performance in 2015, which has now occurred. Thus, the information in the "Threshold," "Target" and "Maximum" columns reflect the range of potential payouts when the performance goals were set in January 2015. The amounts actually paid under the Company's Incentive Compensation Plan for 2015 appear in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table. A description of the plan can be found in the "Compensation Discussion and Analysis" section of this Proxy Statement.

The Company's Incentive Compensation Plan contains two metrics: net income and asset quality. The Compensation Committee has the discretion to pay a prorated portion (based on straight-line interpolation) if performance is between the threshold, target or superior level, or if performance is above superior level.

Estimated Future Payouts Under Equity Incentive Plan Awards. The target amounts represent the number of RSUs granted in 2015 under the 2007 Stock Incentive Plan. The threshold and maximum amounts represent the potential adjustment to the target number of RSUs that can result based on the level of attainment of performance goals for the three-year performance period that ends on December 31, 2017. A description of the Plan can be found in the "Compensation Discussion and Analysis" section of this Proxy Statement.

The grant date fair value is based on the probable outcome of the performance conditions.

(1) The restricted stock and RSU awards that are subject to three-year performance will vest at the end of the three-year performance period (13,063 target units on December 31, 2017 for the 2015 awards and 5,671 target shares or units on December 31, 2016 for the 2014 awards). The restricted stock and RSU awards that were subject to annual performance periods were adjusted at the end of the performance period (December 31, 2014 and 2013) to reflect actual attainment of the performance goals, and 25% of the adjusted amount vested as of such date, with the remainder vesting 25% over three years (of the remaining unvested awards, 2,344 shares/RSUs will vest on December 31, 2016 and 1,662 will vest on December 31, 2017). If an executive terminates prior to the end of a three-year performance period, he will forfeit his award, unless such termination occurs on or after attaining age 66 (in which case he will vest in the target number) or termination is due to death or disability (in which case he will vest in a pro rata portion of the target number). In the case of annual awards that remain subject to time-based vesting, if an executive terminates prior to the end of the vesting period when he has attained age 66 or due to death or disability, he will vest in the remaining shares or RSUs.

(2) The market rate is based on the closing price of the Company's stock on December 31, 2015 (\$26.00).

(1) The contributions reported in this column are reported in the Summary Compensation Table, in either the Salary or Non-Equity Incentive Compensation Plan columns.

(2) The earnings reported in this column are not reported on the Summary Compensation Table.

(3) The amounts in this column have previously been reported as compensation on the Summary Compensation Tables for prior years, except for the following amounts of earnings or deferrals included in the account balances: Mr. Dively: \$327,687 (includes earnings and losses and deferrals of director fees which were not previously reported on the Summary Compensation Table); Mr. Hedges: \$86,070 (includes earnings and losses which were not reported in the Summary Compensation Table); Mr. McRae: \$17,623 (includes earnings and losses that were not previously reported in the Summary Compensation Table).

Non-Qualified Deferred Compensation. The DCP is a nonqualified defined contribution plan that covers certain eligible employees and directors, including the named executive officers. For each calendar year, the named executive officers can defer 5%, 10% or 15% of their base salary and/or 25% increments of their cash incentive compensation, and non-employee directors can elect to defer their director fees. The deferred amounts are deposited into a rabbi trust and credited to a DCP account established for the participant as soon as practicable after the date they would otherwise have been paid to the participant. Such amounts are invested in the Northern Institutional Prime Obligation Fund #887 until the next quarterly window trading period established by the Company, at which point each participant's account balance is invested in shares of common stock of the Company. Dividends paid on Common Stock are credited to the participant's DCP account and invested in additional shares. The Northern Institutional Prime Obligation Fund #887 had an annual return for 2015 of 0.07%. The Company's common stock had an annual return for 2015 of 43.3%.

A participant is 100% vested in his or her DCP account at all times. A participant's DCP account is paid to him or her in five annual installments beginning on the March 15 following the date the participant terminates employment, provided that the Board of Directors in its sole discretion can decide to pay the portion of the DCP account earned as of December 31, 2004 in a lump sum payment. An participant may also request at any time a distribution from the DCP account of an amount necessary to satisfy an unforeseeable emergency. In the case of the death of a participant, the DCP account will be paid to his or her designated beneficiary in a single payment. Upon a Change in Control of the Company (as defined in the Plan), each participant's DCP account will be paid in an immediate lump sum. All distributions are in full shares of common stock, and cash for fractional shares.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL OF THE COMPANY

The Company provides certain benefits to eligible employees, including the named executive officers, upon certain terminations of employment or a change in control of the Company. These benefits are in addition to the benefits to which the executive would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, stock-based awards that are vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA).

Employment Agreements

The employment agreements with the named executive officers provide benefits to them upon certain types of termination of employment during the term of the agreement. The incremental benefits payable to the named executive officers in effect at December 31, 2015 include the following:

If the executive's employment is terminated by the Company for other than "cause" (and a Change in Control of the Company, as defined in the 2007 Stock Incentive Plan, has not occurred), the executive is entitled to the following:

i. Continued payment of the executive's then current base salary for 12 months.

Continued coverage of the executive under the Company's health plan for the 12 month severance period at active
ii. employee rates if the executive elects COBRA (the full COBRA rate applies for the remainder of the COBRA period and with respect to coverage for the executive's spouse and dependents).

If following a Change in Control of the Company (as defined in the 2007 Stock Incentive Plan), the executive's employment is terminated by the Company for other than "cause," or the executive terminates his or her employment due to good reason, the executive is entitled to the following:

i. For Messrs. Dively, Taylor, and Hedges, payment equal to two times the executive's then current base annual salary. For Mr. McRae and Ms. Allenbaugh, continued salary for one year.

ii. An immediate lump sum payment equal to the incentive compensation earned by or paid to the executive for the immediately preceding fiscal year.

Continued coverage of the executive under the Company's health plan for the first 12 months following termination
iii. at active employee rates if the executive elects COBRA (the full COBRA rate applies for the remainder of the COBRA period and with respect to coverage for the executive's spouse and dependents).

"Cause" means the executive's (i) conviction (or guilty or no contest plea) for a felony or any crime involving fraud, dishonesty or breach of trust; (ii) performance that would materially and adversely affect the Company's business; (iii) act or omission that results in a regulatory body to demand the executive to be suspended or removed; (iv) substantial nonperformance of his or her duties; (v) misappropriation or intentional material damage to the Company's property or business; or (vi) violation of the agreement's restrictions with respect to confidential information, noncompetition and nonsolicitation.

"Good reason" means a decrease in the executive's then current salary or a substantial diminution in his or her position and responsibilities.

The agreements contain restrictive covenants that prohibit the executive from (i) disclosing confidential information; (ii) becoming involved with a business similar to that of the Company within any county in which the Company

conducts business; and (iii) soliciting for sale or selling competing products or services to any person or entity who was a customer or client of the Company during the last two years of the executive's employment (or during the last year in the case of Mr. Taylor and Ms. Allenbaugh). The restrictive covenants regarding confidential information are indefinite, and the restrictive covenants regarding noncompetition and nonsolicitation continue in effect until the later of two years following the executive's termination of employment or the end of the term of the agreement for Mr. Dively (or the later of one year or the end of the term of employment for Mr. Hedges and Mr. McRae and for one year following termination of employment for Mr. Taylor and Ms. Allenbaugh).

2007 Stock Incentive Plan

The stock option agreements that set forth the terms and conditions of stock options provide that upon a termination of employment for any reason other than death, disability or retirement, an executive's outstanding and then vested stock options can be exercised for three months following termination, and upon a termination of employment due to death, disability or retirement (as defined in the Plan) an executive's outstanding and then vested stock options can be exercised for 12 months following such termination.

The agreements that set forth the terms and conditions of the restricted stock and RSUs awards provide that an executive will not become vested in any restricted stock or RSUs if the executive does not remain continuously employed from the grant date until the last day of the applicable performance period, except that upon a voluntary termination of employment due to termination after attaining age 66, an executive will vest in the target number of outstanding shares or RSUs and upon a termination of employment due to death or disability (as defined in the Plan), an executive will vest in a pro rata portion of the target number of outstanding shares or RSUs. If an executive with time-based restricted stock or RSUs terminates after the end of the one-year performance period but prior to the end of the vesting period when he has attained age 66 or due to death or disability, he will vest in the remaining shares or units subject to the award.

Upon a Change in Control of the Company (as defined in the Plan), the Plan provides that all outstanding stock option awards will become fully vested and exercisable, all time-based restricted stock and RSUs will fully vest and all restricted performance-based stock and RSUs will fully vest at the target or higher level as determined by the compensation committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On December 17, 2013, the audit committee adopted a written Related Person Transactions Policy, which provides for procedures for review and oversight of transactions involving the Company and “related persons.” The policy covers any related person transaction that would be required to be disclosed in our proxy statement under applicable Securities and Exchange Commission rules (generally, transactions in which the Company is a participant, the amount involved exceeds \$120,000 and in which a “related person” has a direct or indirect material interest). Certain transactions are not subject to specific review under the policy by virtue of being exempt from the set of related person transactions that must be disclosed pursuant to applicable Securities and Exchange Commission rules (“exempt transactions”). In addition, the audit committee has approved in the policy extensions of credit to a related person that are (1) made in the ordinary course of business, (2) are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with unrelated persons and (3) do not involve more than the normal risk of collectability or present other unfavorable feature.

The policy requires, prior to a party entering into any related person transaction (other than an exempt transaction), to provide, to the extent practicable, notice to the Company of the proposed related person transaction. The audit committee or its chair may approve only those related person transactions that are in, or are not inconsistent with, the best interests of the Company and its stockholders, as the audit committee or its chair, as applicable, determines in good faith. In the event the Company becomes aware of a related person transaction that has not been previously approved or previously ratified under the policy that is pending or ongoing, it will be submitted to the audit committee or its chair, as applicable, which shall evaluate all options, including but not limited to ratification, amendment or termination of the related person transaction, and (if appropriate) any disciplinary actions recommended. No member of the audit committee may participate in the consideration, approval or ratification of any related person transaction with respect to which such member or any of his or her immediate family members is the “related person” or in which he, she or they otherwise have an interest. All of the transactions described below were considered and approved or ratified by the audit committee or its chair.

Directors, executive officers, principal stockholders, members of their immediate families, and entities in which one or more of them have a material interest had extensions of credit from the Bank during 2015. All such extensions of credit were on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with unrelated persons, and did not involve more than the normal risk of collectability or present other unfavorable features. In addition, directors, executive officers, principal stockholders, members of their immediate families and entities in which one or more of them have a material interest obtained in 2015, and may in the future be expected to obtain, depositary or other banking services, trust, custody or investment management services, individual retirement account services or insurance brokerage services from the Company and its subsidiaries, on terms no less favorable to the Company and its subsidiaries than those prevailing at the time for comparable transactions involving persons unrelated to the Company.

Consolidated Communications Holdings, Inc. and its affiliates provided paging, mobile, long distance/800 and private line services, voice mail, customer premise equipment services and repair services to the Company during 2015 in the amount of approximately \$754,445. Lumpkin, is a director and former Chairman of the Board of Directors of Consolidated Communications Holdings and also may be deemed to have beneficial ownership of approximately 2.8% and his immediately family, including Ms. Elizabeth Celio, has a beneficial ownership of approximately 2.1% of Consolidated Communications Holdings’ outstanding voting stock.
