THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

Note 1. General

The Cooper Companies, Inc. (Cooper, we or the Company) is a global medical device company publicly traded on the NYSE Euronext (NYSE: COO). Cooper is dedicated to being A Quality of Life Company™ with a focus on delivering shareholder value. Cooper operates through our business units, CooperVision and CooperSurgical. CooperVision develops, manufactures and markets a broad range of soft contact lenses for the worldwide vision correction market.

CooperSurgical develops, manufactures, markets and offers services within a broad range of medical devices and procedure solutions to improve health care delivery to families.

The unaudited consolidated condensed financial statements presented in this report contain all adjustments necessary to present fairly Cooper's consolidated condensed financial position at July 31, 2016 and October 31, 2015, the consolidated results of its operations for the three and nine months ended July 31, 2016 and 2015 and its consolidated condensed cash flows for the nine months ended July 31, 2016 and 2015. Most of these adjustments are normal and recurring. However, certain adjustments associated with acquisitions are of a nonrecurring nature. Readers should not assume that the results reported here either indicate or guarantee future performance.

During interim periods, we follow the accounting policies described in our Annual Report on Form 10-K for the fiscal year ended October 31, 2015. Please refer to this when reviewing this Quarterly Report on Form 10-Q.

Management estimates and judgments are an integral part of financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). We believe that the critical accounting policies listed below address the more significant estimates required of Management when preparing our consolidated financial statements in accordance with GAAP. We consider an accounting estimate critical if changes in the estimate may have a material impact on our financial condition or results of operations. We believe that the accounting estimates employed are appropriate and resulting balances are reasonable; however, actual results could differ from the original estimates, requiring adjustment to these balances in future periods. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results are:

- Revenue recognition
- Net realizable value of inventory
- Valuation of goodwill
- Business combinations
- Income taxes
- Share-based compensation

During the first nine months of fiscal 2016, there were no significant changes in our estimates and critical accounting policies. Please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended October 31, 2015, for a more complete discussion of our estimates and critical accounting policies.

Accounting Pronouncements Issued Not Yet Adopted

In March 2016, the FASB issued Accounting Standards Update (ASU) 2016-09, Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which is intended to improve the accounting for share-based payment transactions as part of the FASB's simplification initiative. The ASU changes the following aspects of the accounting for share-based payment award transactions, including: accounting for income taxes; classification of excess tax benefits on the statement of cash flows; forfeitures; minimum statutory tax withholding requirements; and

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

classification of employee taxes paid on the statement of cash flows when an employer withholds shares for tax-withholding purposes. We are currently evaluating the impact of ASU 2016-09, which is effective for the Company in our fiscal year and interim periods beginning on November 1, 2017.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-01 requires that a lessee recognize the assets and liabilities that arise from operating leases. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. We are currently evaluating the impact of ASU 2016-02, which is effective for the Company in our fiscal year and interim periods beginning on November 1, 2019.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes, which requires entities to present all deferred tax assets and liabilities as noncurrent. The amendments in the ASU are effective for the Company in our fiscal year and interim periods beginning on November 1, 2017. The Company does not expect the new guidance to have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 sets forth a new revenue recognition model that requires identifying the contract, identifying the performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. The amendments in the ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. We are currently evaluating the impact of ASU 2014-09, which is effective for the Company in our fiscal year and interim periods beginning on November 1, 2018.

Accounting Pronouncements Recently Adopted

In September 2015, the FASB issued ASU 2015-16, Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments (Topic 850). ASU 2015-16 requires that an acquirer recognizes adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The effect on earnings as a result of the change to the provisional amounts, calculated as if the accounting had been completed as of the acquisition date, must be recorded in the reporting period in which the adjustment amounts are determined rather than retrospectively. ASU 2015-16 is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendment should be applied prospectively to adjustments to provisional amounts that occur after the effective date of the guidance, with early adoption permitted for financial statements that have not been issued. We elected to early adopt this guidance on a prospective basis for the quarter ended July 31, 2016. Such adoption did not have a material impact to our consolidated financial position.

(Unaudited)

Note 2. Acquisitions

On May 31, 2016 we completed the acquisition of Reprogenetics UK, a UK based genetics laboratory specializing in service offerings of preimplantation genetic screening (PGS) and preimplantation genetic diagnosis (PGD) used during the IVF process. The fair value of the consideration transferred for the acquisition was approximately \$11.7 million, \$11.4 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$6.3 million in identifiable intangible assets, consisting of \$5.1 million for customer relationships and \$1.2 million for trade names; \$6.9 million in goodwill; and \$0.2 million in identifiable net liabilities. We are in the process of finalizing information related to assets, liabilities, income taxes and the corresponding effect on goodwill.

On May 25, 2016, we completed the acquisition of Recombine Inc., a U.S. based clinical genetic testing company specializing in carrier screening. The fair value of the consideration transferred for the acquisition was approximately \$84.9 million, \$80.9 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$30.0 million in identifiable intangible assets, consisting of \$23.1 million for technology, \$2.4 million for customer relationships and \$4.5 million for trade names; \$55.0 million in goodwill; and \$0.2 million in identifiable net liabilities. We are in the process of finalizing information related to assets, liabilities, income taxes and the corresponding effect on goodwill.

On May 4, 2016, we completed the acquisition of Kivex Biotec A/S (K-Systems), a Danish manufacturer and distributor of equipment for IVF clinics. The fair value of the consideration transferred for the acquisition was approximately \$11.5 million, \$11.4 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$5.4 million in identifiable intangible assets, consisting of \$3.6 million for Technology, \$1.0 million for trade names and \$0.8 million for customer relationships; \$5.7 million in goodwill; and \$0.4 million in identifiable net tangible assets. We are in the process of finalizing information related to assets, liabilities, income taxes and the corresponding effect on goodwill.

On March 31, 2016 we completed the acquisition of Genesis Genetics Inc., a U.S. based genetics laboratory specializing in PGS and PGD used during the IVF process. The fair value of the consideration transferred for the acquisition was approximately \$61.1 million in cash, \$60.5 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$28.6 million in identifiable intangible assets, consisting of \$25.2 million for customer relationships and \$3.4 million for trade names; \$28.7 million in goodwill; and \$3.8 million in identifiable net tangible assets. We are in the process of finalizing information related to assets, accruals, income taxes and the corresponding effect on goodwill.

On February 8, 2016, we completed the acquisition of The Pipette Company, an Australian manufacturer and distributor of micro pipettes for the Assisted Reproductive Technology market. The fair value of the consideration transferred for the acquisition was approximately \$20.2 million in cash, \$19.6 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$5.6 million in identifiable intangible assets, consisting of \$5.2 million for customer relationships and \$0.4 million for trade names; \$15.0 million in goodwill; and \$0.4 million in identifiable net liabilities. We are in the process of finalizing information related to income taxes and the corresponding effect on goodwill.

On December 17, 2015, we completed the acquisition of Research Instruments Limited, a UK manufacturer and supplier of in vitro fertilization (IVF) medical devices and systems. The fair value of the consideration transferred for the acquisition was approximately \$53.6 million in cash, \$50.0 million net of cash acquired. Our preliminary allocation of the fair value of the purchase price includes \$10.3 million in identifiable intangible assets, consisting of \$6.2 million for developed technology, \$2.2 million of trade names and \$1.9 million for customer relationships; \$35.8 million in goodwill; and \$7.6 million in identifiable net tangible assets. We are in the process of finalizing information related to income taxes and the corresponding effect on goodwill.

We believe these acquisitions strengthen CooperSurgical's fertility business through the addition of new or complementary products and services within IVF and our genetic testing platform.

Table of Contents

## THE COOPER COMPANIES, INC. AND SUBSIDIARIES

## Notes to Consolidated Condensed Financial Statements

(Unaudited)

The pro forma results of operations of these acquisitions have not been presented because the effects of the business combinations described above, individually and in the aggregate, were not material to our consolidated results of operations.

## Note 3. Restructuring and Integration Costs

## 2014 Sauflon Integration Plan

During the fiscal fourth quarter of 2014, in connection with the Sauflon acquisition, our CooperVision business unit initiated restructuring and integration activities to optimize operational synergies of the combined companies. These activities include workforce reductions, consolidation of duplicative facilities and product rationalization. We estimate that the total restructuring costs under this plan will be \$125.0 million. These costs include approximately \$103.0 million associated with assets, including product rationalization and related equipment disposals and accelerated depreciation, about \$20.0 million associated with employee termination costs, and about \$2.0 million associated with facility lease termination costs. We are substantially complete with activities related to operating expenses, and we expect to incur costs related to the manufacturing activities through the end of fiscal 2016.

In the three and nine month periods ended July 31, 2016, we recorded in cost of sales \$8.7 million and \$23.5 million of expense, respectively, arising from production-related asset disposals and accelerated depreciation on equipment primarily related to our hydrogel lenses, based on our review of products, materials and manufacturing processes of Sauflon. We recorded in cost of sales, employee termination costs of \$0.4 million and \$0.9 million in the three and nine month periods ended July 31, 2016, respectively. We recorded \$0.1 million of employee termination costs and \$0.2 million for lease termination costs in selling, general and administrative expense in the nine months ended July 31, 2016. We also recorded in research and development expense \$0.1 million of employee termination costs in the nine months ended July 31, 2016. In addition, CooperVision incurred \$10.0 million of integration costs included in operating expenses in the nine months ended July 31, 2016. CooperVision did not incur integration costs in the fiscal third quarter of 2016.

In the three and nine month periods ended July 31, 2015, we recorded in cost of sales \$12.4 million and \$26.2 million of expense, respectively, arising from production-related asset disposals and accelerated depreciation on equipment primarily related to our hydrogel lenses, based on our review of products, materials and manufacturing processes of Sauflon. In the three months ended July 31, 2015, we recorded in cost of sales \$0.3 million of employee termination costs. In the three and nine months ended July 31, 2015, we reduced the accrued employee termination costs in selling, general and administrative expense by \$2.3 million and \$6.7 million, respectively, based on estimates of the expected costs and the results of voluntary terminations; and we recorded \$0.3 million of expense for lease termination costs. In the three and nine months ended July 31, 2015, we recorded in research and development expense \$0.2 million and \$0.5 million of employee termination costs, respectively. In addition, CooperVision incurred \$10.7 million and \$24.7 million of integration costs in the three and nine months ended July 31, 2015, respectively, included in operating expenses.

A summary of the cumulative total restructuring costs by major component recognized to date as of July 31, 2016, is as follows:

(In millions)	Employee-related	Facilities-related	Product Rationalization	Total
Amounts incurred in:				
Year ended October 31, 2014	\$ 20.3	\$ 0.5	\$ 15.3	\$36.1
Year ended October 31, 2015	(2.5	) 0.4	57.7	55.6

Edgar Filing: COOPER COMPANIES INC - Form 10-Q

Nine months ended July 31, 2016	1.1	0.2	23.5	24.8
Cumulative amounts incurred as of July 31, 2016	\$ 18.9	\$ 1.1	\$ 96.5	\$116.5

Payments during the nine months ended July 31, 2016	(4.9 )	(0.2 )	—	(5.1 )
Non-cash adjustments (a) (b)	(0.5 )	—	(23.5 )	(24.0 )
Balance at July 31, 2016	\$ 4.3	\$ 0.3	\$ —	\$4.6

(a) Non-cash adjustments for employee-related and facilities-related costs represent currency translation adjustment.

(b) Non-cash adjustments for product rationalization represent equipment disposals, inventory write-offs and accelerated depreciation.

## Note 4. Inventories

(In millions)	July 31, October 31,	
	2016	2015
Raw materials	\$ 85.9	\$ 80.9
Work-in-process	12.5	14.5
Finished goods	331.9	324.3
	\$ 430.3	\$ 419.7

Inventories are stated at the lower of cost or market. Cost is computed using standard cost that approximates actual cost, on a first-in, first-out basis.

Balance at July 31, 2016	\$ 1,702.7	\$ 525.4	\$2,228.1

We performed our annual impairment assessment in our fiscal third quarter of 2016 and 2015, and our analysis indicated that we had no impairment of goodwill. We evaluate goodwill for impairment annually during the fiscal third quarter and when an event occurs or circumstances change such that it is reasonably possible that impairment may exist. We account for goodwill and evaluate our goodwill balances and test them for impairment in accordance with related accounting standards.

In fiscal 2016 and 2015, we performed a qualitative assessment to test each reporting unit's goodwill for impairment. Qualitative factors considered in this assessment include industry and market considerations, overall financial performance and other relevant events and factors affecting each reporting unit. Based on our qualitative assessment, if we determine that the fair value of a reporting unit is more likely than not to be less than its carrying amount, the two step impairment test will be performed. Initially, we compare the book value of net assets to the fair value of each reporting unit that has goodwill assigned to it. If the fair value is determined to be less than the book value, a second step is performed to compute the amount of the impairment. A reporting unit is the level of reporting at which goodwill is tested for impairment. Our reporting units are the same as our business segments - CooperVision and CooperSurgical - reflecting the way that we manage our business. Goodwill impairment analysis and measurement is a process that requires significant judgment. If our common stock price trades below book value per share, there are changes in market conditions or a future downturn in our business, or a future annual goodwill impairment test indicates an impairment of our goodwill, we may have to recognize a non-cash impairment of goodwill that could be material and could adversely affect our results of operations in the period recognized and also adversely affect our total assets, stockholders' equity and financial condition.

## Revolving Credit and Term Loan Agreement on March 1, 2016 (2016 Credit Agreement)

On March 1, 2016, we entered into a new Revolving Credit and Term Loan Agreement (2016 Credit Agreement), among the Company, CooperVision International Holding Company, LP, the lenders party thereto and KeyBank National Association, as administrative agent. The 2016 Credit Agreement provides for a multicurrency revolving credit facility in an aggregate principal amount of \$1.0 billion and a term loan facility in an aggregate principal amount of \$830.0 million, each of which, unless terminated earlier, mature on March 1, 2021. In addition, we have the ability from time to time to request an increase to the size of the revolving credit facility or establish one or more new term loans under the term loan facility in an aggregate amount up to \$750.0 million, subject to the discretionary participation of the lenders.

The 2016 Credit Agreement replaced our previous Credit Agreement that was entered into on January 12, 2011, and we terminated the Credit Agreement on March 1, 2016. In connection with the termination, all borrowings outstanding under the Credit Agreement were repaid and all letters of credit outstanding were transferred to the 2016 Credit Agreement. We did not incur any termination or prepayment penalties with respect to replacing the Credit Agreement. We used funds from the new term loan to repay the \$200.0 million outstanding principal amount of the two uncommitted

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

revolving lines of credit, entered into on March 24, 2015, as well as to partially repay outstanding amounts under the term loans entered into on August 4, 2014, and September 12, 2013, and for general corporate purposes.

Amounts outstanding under the 2016 Credit Agreement will bear interest, at our option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds effective rate and (c) 1% in excess of the adjusted LIBO rate for a one month interest period on such day, or the adjusted LIBO rate or adjusted foreign currency rate, plus, in each case, an applicable rate of, initially, 0.5% in respect of base rate loans and 1.5% in respect of adjusted LIBO rate or adjusted foreign currency rate loans. Following a specified period after the closing date, the applicable rates will be determined quarterly by reference to a grid based upon our ratio of consolidated net indebtedness to consolidated pro forma EBITDA, as defined in the 2016 Credit Agreement. During the term of the revolving credit facility, we may borrow, repay and re-borrow amounts available under the revolving credit facility, subject to voluntary reduction of the revolving commitment.

We pay an annual commitment fee that ranges from 0.125% to 0.25% of the unused portion of the revolving credit facility depending on certain financial ratios. In addition to the annual commitment fee described above, we are also required to pay certain letter of credit and related fronting fees and other administrative fees pursuant to the terms of the 2016 Credit Agreement.

The 2016 Credit Agreement is not secured by any of the Company's, or any of its subsidiaries' (including CooperVision International Holding Company), assets. All obligations under this facility will be guaranteed by each of the Company's existing and future direct and indirect domestic material subsidiaries, as defined in the 2016 Credit Agreement. CooperVision International Holding Company is responsible only for its own obligations, if any, and does not guarantee any of the Company's obligations under the 2016 Credit Agreement.

The facility is not subject to amortization and is not subject to mandatory prepayments prior to maturity. We may prepay loan balances from time to time, in whole or in part, without premium or penalty (other than any related breakage costs).

The 2016 Credit Agreement contains customary restrictive covenants, as well as financial covenants that require us to maintain a certain total leverage ratio and interest coverage ratio, each as defined in the 2016 Credit Agreement. The 2016 Credit Agreement also contains customary events of default, the occurrence of which would permit KeyBank as the administrative agent to declare the principal, accrued interest and other obligations under the agreement to be immediately due and payable.

Pursuant to the terms of the 2016 Credit Agreement and the term loans discussed below, we are also required to maintain specified financial ratios:

The ratio of Consolidated Proforma EBITDA to Consolidated Interest Expense (as defined, Interest Coverage Ratio) be at least 3.00 to 1.00 at all times.

The ratio of Consolidated Funded Indebtedness to Consolidated Proforma EBITDA (as defined, Total Leverage Ratio) be no higher than 3.75 to 1.00.

At July 31, 2016, we were in compliance with the Interest Coverage Ratio at 24.03 to 1.00 and the Total Leverage Ratio at 2.25 to 1.00.

At July 31, 2016, we had \$830.0 million outstanding under the term loan and \$999.8 million available under the revolving credit agreement.

**Uncommitted Revolving Lines of Credit on March 24, 2015**

On March 24, 2015, we entered into two uncommitted line of credit agreements with TD Bank, N.A. and Santander Bank, N.A. These lines of credit had a termination date of March 24, 2016, and each provided revolving loan amounts

to Cooper of up to \$100.0 million, at the lender's option, with maturity dates of up to ninety days from the loan origination date. Amounts outstanding under these agreements will bear interest at a rate equal to LIBOR for the period plus, 0.90%, payable in arrears on the last day of the period, as defined in the agreements.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

In the fiscal second quarter of 2016, in connection with the refinancing discussed above, we repaid the full outstanding principal amount of the two uncommitted revolving lines of credit. At July 31, 2016, there were no amounts outstanding under these agreements.

\$700.0 million Term Loan on August 4, 2014

On August 4, 2014, we entered into a three-year, \$700.0 million, senior unsecured term loan agreement by and among the Company, the lenders party thereto and KeyBank National Association as administrative agent. This syndicated credit facility will mature and the balance is payable on August 4, 2017. There is no amortization of principal and we may prepay loan balances from time to time, in whole or in part, without premium or penalty. In August 2014, we utilized this facility to fund the acquisition of Sauflon, as well as to provide working capital and for general corporate purposes. In fiscal second quarter of 2016, we repaid \$400.0 million of the outstanding balance using funds from the 2016 Credit Agreement.

Amounts outstanding under this term loan agreement will bear interest, at the Company's option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds effective rate and (c) 1% in excess of the adjusted Eurodollar rate (currently referred to as LIBOR) for a one-month interest period on such day, or the adjusted Eurodollar rate, plus, in each case, an applicable margin. The applicable margins will be determined quarterly by reference to a grid based upon the Company's Total Leverage Ratio, as defined in the term loan agreement and consistent with the 2016 Credit Agreement discussed above.

This term loan agreement contains customary restrictive covenants, as well as financial covenants that require the Company to maintain a certain Total Leverage Ratio and Interest Coverage Ratio, each as defined in the agreement, and consistent with the 2016 Credit Agreement as discussed above. This term loan agreement also contains customary events of default, the occurrence of which would permit the Administrative Agent to declare the principal, accrued interest and other obligations of the Company under the agreement to be immediately due and payable.

On March 1, 2016, we entered into an Amendment and Restatement Agreement (Amended and Restated 2014 Term Loan) to amend and restate in its entirety the Term Loan Agreement, dated as of August 4, 2014, as amended by Amendment No. 1 dated as of August 21, 2015 (2014 Term Loan Agreement), by and among the Company, the lenders party thereto, and KeyBank National Association, as administrative agent. The Amended and Restated 2014 Term Loan modifies certain provisions of the 2014 Term Loan Agreement to, among other things, conform certain restrictive covenants and events of default to the restrictive covenants and events of default contained in our new 2016 Credit Agreement.

At July 31, 2016, we had \$300.0 million outstanding under this term loan.

\$300.0 million Term Loan on September 12, 2013

On September 12, 2013, the Company entered into a five-year, \$300.0 million, senior unsecured term loan agreement by and among the Company; the lenders party thereto and KeyBank National Association, as administrative agent. This syndicated credit facility, as subsequently amended, will mature on September 12, 2018, and will be subject to amortization of principal of 5% per annum payable quarterly beginning October 31, 2016, with the balance payable at maturity. In fiscal second quarter of 2016, we repaid \$15.0 million of the outstanding balance using the funds from the 2016 Credit Agreement.

Amounts outstanding under this term loan agreement will bear interest, at the Company's option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds effective rate and (c) 1% in excess of the adjusted Eurodollar rate (currently referred to as LIBOR) for a one-month interest period on such day, or the adjusted Eurodollar rate, plus, in each case, an applicable margin. The applicable margins will be determined quarterly by reference to a grid based upon the Company's Total Leverage Ratio, as defined in the term loan agreement, and consistent with the 2016 Credit Agreement discussed above.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

This term loan agreement contains customary restrictive covenants, as well as financial covenants that require the Company to maintain a certain Total Leverage Ratio and Interest Coverage Ratio, each as defined in the agreement, consistent with the 2016 Credit Agreement discussed above. The agreement also contains customary events of default, the occurrence of which would permit the Administrative Agent to declare the principal, accrued interest and other obligations of the Company under the agreement to be immediately due and payable.

In connection with the Sauflon acquisition, on June 30, 2014, we entered into an amendment to this term loan agreement, dated as of September 12, 2013, by and among (i) the Company, (ii) the lenders from time to time party thereto and (iii) KeyBank National Association, as administrative agent. This term loan amendment modifies certain provisions of the term loan agreement to, among other things, amend certain restrictive covenants and related definitions to allow for certain indebtedness, investments, guaranty obligations, acquisitions, intercompany loans, capital distributions and dispositions of assets made or to be made in connection with the acquisition.

On August 4, 2014, we entered into Amendment No. 2 to this term loan agreement, dated as of September 12, 2013, as amended by Amendment No. 1 dated as of June 30, 2014, by and among the Company, the lenders party thereto and KeyBank National Association, as administrative agent. The term loan amendment modifies certain provisions of the term loan agreement to remove the call premium related to prepayments and/or refinancing of the term loan agreement, effective August 4, 2014.

On March 1, 2016, we entered into an Amendment and Restatement Agreement (Amended and Restated 2013 Term Loan) to amend and restate in its entirety the Term Loan Agreement, dated as of September 12, 2013, as amended by Amendment No. 1 dated as of June 30, 2014, Amendment No. 2 dated as of August 4, 2014 and Amendment No. 3 dated as of August 21, 2015 (2013 Term Loan Agreement), by and among the Company, the lenders party thereto, and KeyBank National Association, as administrative agent. The Amended and Restated 2013 Term Loan modifies certain provisions of the 2013 Term Loan Agreement to, among other things, conform certain restrictive covenants and events of default to the restrictive covenants and events of default contained in our new 2016 Credit Agreement.

At July 31, 2016, we had \$285.0 million outstanding under this term loan.

Note 7. Income Taxes

Our effective tax rate (ETR) (provision for income taxes divided by pretax income) for the first nine months of fiscal 2016 was 5.4%. Our year-to-date results reflect the projected fiscal year ETR, plus any discrete items. The ETR used to record the provision for income taxes for the first nine months of fiscal 2015 was 6.1%. The decrease in the effective tax rate in the first nine months of fiscal 2016 was primarily due to a release of reserves associated with a prior year tax filing, a statutory tax rate reduction in the United Kingdom and the retroactive extension of the R&D tax credit.

We recognize the benefit from a tax position only if it is more likely than not that the position would be sustained upon audit based solely on the technical merits of the tax position. At November 1, 2015, Cooper had unrecognized tax benefits of which, if recognized, \$29.4 million would impact our ETR. For the nine-month period ended July 31, 2016, there were no material changes to the total amount of unrecognized tax benefits.

Interest and penalties of \$3.7 million have been reflected as a component of the total liability at November 1, 2015. It is our policy to recognize the items of interest and penalties directly related to income taxes as additional income tax expense.

Included in the balance of unrecognized tax benefits at November 1, 2015, is \$11.0 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This amount represents a decrease in unrecognized tax benefits related to expiring statutes in various jurisdictions

worldwide and relates primarily to transfer pricing matters.

At July 31, 2016, the tax years for which Cooper remains subject to United States Federal income tax assessment upon examination are 2014 through 2015. Cooper remains subject to income tax examinations in other significant tax jurisdictions including the United Kingdom, Japan, France and Australia for the tax years 2012 through 2015.

## Note 8. Earnings Per Share

Periods Ended July 31, (In millions, except per share amounts)	Three Months		Nine Months	
	2016	2015	2016	2015
Net income attributable to Cooper stockholders	\$87.9	\$45.0	\$213.4	\$166.8
Basic:				
Weighted average common shares	48.6	48.6	48.4	48.4
Basic earnings per common share attributable to Cooper stockholders	\$1.81	\$0.92	\$4.41	\$3.45
Diluted:				
Weighted average common shares	48.6	48.6	48.4	48.4
Effect of potential dilutive common shares	0.4	0.6	0.5	0.8
Diluted weighted average common shares	49.0	49.2	48.9	49.2
Diluted earnings per common share attributable to Cooper stockholders	\$1.79	\$0.91	\$4.36	\$3.39

The following table sets forth stock options to purchase Cooper's common stock and restricted stock units that were not included in the diluted earnings per share calculation because their effect would have been antidilutive for the periods presented:

Periods Ended July 31, (In thousands, except exercise prices)	Three Months		Nine Months	
	2016	2015	2016	2015
Numbers of stock option shares excluded	49	49	418	123
Range of exercise prices	\$162.28	\$162.28	\$131.60-\$162.69	\$162.28
Numbers of restricted stock units excluded	1	1	3	5

## Note 9. Share-Based Compensation Plans

Cooper has several share-based compensation plans that are described in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2015. The compensation expense and related income tax benefit recognized in our consolidated condensed financial statements for share-based awards were as follows:

Periods Ended July 31, (In millions)	Three Months		Nine Months	
	2016	2015	2016	2015
Selling, general and administrative expense	\$ 6.4	\$ 6.2	\$19.2	\$22.1
Cost of sales	0.7	0.6	1.8	2.0
Research and development expense	0.3	0.2	0.9	0.7
Total share-based compensation expense	\$ 7.4	\$ 7.0	\$21.9	\$24.8
Related income tax benefit	\$ 2.2	\$ 2.2	\$6.5	\$7.8

We capitalized share-based compensation expense as part of the cost of inventory in the amounts of \$0.7 million and \$1.8 million during the three and nine months ended July 31, 2016, respectively; and \$0.6 million and \$2.0 million during the three and nine months ended July 31, 2015, respectively.

## Share Repurchases

In December 2011, our Board of Directors authorized the 2012 Share Repurchase Program and subsequently amended the total repurchase authorization to \$500.0 million of the Company's common stock. This program has no expiration date and may be discontinued at any time. Purchases under the 2012 Share Repurchase Program are subject to a review of the circumstances in place at the time and may be made from time to time as permitted by securities laws and other legal requirements. We did not repurchase shares during the nine months ended July 31, 2016. In the first quarter of fiscal 2015, we repurchased 100 thousand shares of the Company's common stock for \$16.0 million, at an average purchase price of \$159.96 per share. At July 31, 2016, approximately \$118.4 million remains authorized for repurchase under the program.

## Dividends

We paid a semiannual dividend of approximately \$1.5 million or 3 cents per share on February 9, 2016, to stockholders of record on January 22, 2016. We paid another semiannual dividend of approximately \$1.5 million or 3 cents per share on August 5, 2016, to stockholders of record on July 22, 2016.

## Note 11. Fair Value Measurements

At July 31, 2016 and October 31, 2015, the carrying value of cash and cash equivalents, accounts receivable, prepaid expense and other current assets, lines of credit, accounts payable and other current liabilities approximate fair value due to the short-term nature of such instruments and the ability to obtain financing on similar terms.

Assets and liabilities are measured and reported at fair value per related accounting standards that define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. An asset's or liability's level is based on the lowest level of input that is significant to the fair value measurement. Assets and liabilities carried at fair value are valued and disclosed in one of the following three levels of the valuation hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

Table of Contents

## THE COOPER COMPANIES, INC. AND SUBSIDIARIES

## Notes to Consolidated Condensed Financial Statements

(Unaudited)

We believe that the balances of our revolving debt and term loans approximated their fair values at July 31, 2016 and October 31, 2015 and are categorized as Level 2 of the fair value hierarchy.

The Company has derivative assets and liabilities that may include interest rate swaps, cross currency swaps and foreign currency forward contracts. The impact of the counterparty's creditworthiness when in an asset position and Cooper's creditworthiness when in a liability position has also been factored into the fair value measurement of the derivative instruments. Both the counterparty and Cooper are expected to continue to perform under the contractual terms of the instruments.

We may use interest rate swaps to maintain our desired mix of fixed-rate and variable-rate debt. The swaps exchange fixed and variable rate payments without exchanging the notional principal amount of the debt. We generally have elected to use the income approach to value the derivatives using observable Level 2 market expectations at the measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated but not compelled to transact. Level 2 inputs are limited to quoted prices for similar assets or liabilities in active markets, specifically Eurodollar futures contracts up to three years, and inputs other than quoted prices that are observable for the asset or liability - specifically LIBOR cash and swap rates and credit risk at commonly quoted intervals. Mid-market pricing may be used as a practical expedient for fair value measurements.

We may use foreign exchange forward contracts to minimize, to the extent reasonable and practical, our exposure to the impact of foreign currency fluctuations. We have elected to use the income approach to value the derivatives using observable Level 2 market expectations at the measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated but not compelled to transact. Level 2 inputs for the valuations are limited to quoted prices for similar assets or liabilities in active markets and inputs other than quoted prices that are observable for the asset or liability - specifically LIBOR cash rates, credit risk at commonly quoted intervals, foreign exchange spot rates and forward points. Mid-market pricing is used as a practical expedient for fair value measurements.

The following table sets forth our financial assets and liabilities that were measured at fair value on a recurring basis using Level 2 inputs during the first nine months of fiscal 2016, within the fair value hierarchy at July 31, 2016, and fiscal year 2015, within the fair value hierarchy at October 31, 2015:

(In millions)	July 31, 2016	October 31, 2015
Assets:		
Foreign exchange contracts	\$ 0.2	\$ 1.3
Liabilities:		
Foreign exchange contracts	\$ 0.1	\$ 0.4

## Note 12. Employee Benefits

Cooper's Retirement Income Plan (Plan), a defined benefit plan, covers substantially all full-time United States employees. Our contributions are designed to fund normal cost on a current basis and to fund the estimated prior service cost of benefit improvements. The unit credit actuarial cost method is used to determine the annual cost. Cooper pays the entire cost of the Plan and funds such costs as they accrue. Virtually all of the assets of the Plan are comprised of equities and participation in equity and fixed income funds.

Our results of operations for the three and nine months ended July 31, 2016 and 2015 reflect the following components of net periodic pension costs:

Table of Contents

## THE COOPER COMPANIES, INC. AND SUBSIDIARIES

## Notes to Consolidated Condensed Financial Statements

(Unaudited)

Periods Ended July 31, (In millions)	Three Months		Nine Months	
	2016	2015	2016	2015
Service cost	\$2.3	\$2.0	\$6.9	\$6.1
Interest cost	1.2	1.1	3.7	3.2
Expected return on plan assets	(1.6 )	(1.5 )	(4.9 )	(4.5 )
Recognized net actuarial loss	0.4	0.2	1.2	0.7
Net periodic pension cost	\$2.3	\$1.8	\$6.9	\$5.5

We contributed \$5.0 million to the Plan in the first nine months of fiscal 2016, and expect to contribute an additional \$5.0 million during the remainder of fiscal 2016. We contributed \$5.0 million to the Plan in the first nine months of fiscal 2015. The expected rate of return on plan assets for determining net periodic pension cost is 8%.

## Note 13. Contingencies

Since March 2015, over 50 putative class action complaints were filed by contact lens consumers alleging that contact lens manufacturers, in conjunction with their respective Unilateral Pricing Policy (UPP), conspired to reach agreements between each other and certain distributors and retailers regarding the prices at which certain contact lenses could be sold to consumers. The plaintiffs are seeking damages against CooperVision, Inc., other contact lens manufacturers, distributors and retailers, in various courts around the United States. In June 2015, all of the class action cases were consolidated and transferred to the United States District Court for the Middle District of Florida. CooperVision and the other defendants jointly filed a motion to dismiss the complaints in December 2015. In June 2016, the motion to dismiss with respect to claims brought under the Maryland Consumer Protection Act was granted, but the motion to dismiss with respect to claims brought under Section 1 of the Sherman Act and other state laws was denied. The actions currently are in discovery. CooperVision denies the allegations and intends to defend the actions vigorously. At this time, we do not believe a loss or adverse effect on our financial condition is probable nor is any range of potential loss reasonably estimable.

## Note 14. Business Segment Information

Cooper uses operating income, as presented in our financial reports, as the primary measure of segment profitability. We do not allocate costs from corporate functions to segment operating income. Items below operating income are not considered when measuring the profitability of a segment. We use the same accounting policies to generate segment results as we do for our consolidated results.

Identifiable assets are those used in continuing operations except cash and cash equivalents, which we include as corporate assets. Long-lived assets are property, plant and equipment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Note numbers refer to "Notes to Consolidated Condensed Financial Statements" in Item 1. Financial Statements.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" as defined by the Private Securities Litigation Reform Act of 1995. These include statements relating to plans, prospects, goals, strategies, future actions, events or performance and other statements which are other than statements of historical fact, including all statements regarding acquisitions including the acquired companies' financial position, market position, product development and business strategy, expected cost synergies, expecting timing and benefits of the transaction, difficulties in integrating entities or operations, as well as estimates of our and the acquired entities' future expenses, sales and earnings per share are forward-looking. In addition, all statements regarding anticipated growth in our revenue, anticipated effects of any product recalls, anticipated market conditions, planned product launches and expected results of operations and integration of any acquisition are forward-looking. To identify these statements look for words like "believes," "expects," "may," "will," "should," "could," "seeks," "intends," "plans," "estimates" or "anticipates" and similar words or phrases. Forward-looking statements necessarily depend on assumptions, data or methods that may be incorrect or imprecise and are subject to risks and uncertainties. Among the factors that could cause our actual results and future actions to differ materially from those described in forward-looking statements are:

- Adverse changes in the global or regional general business, political and economic conditions, including the impact of continuing uncertainty and instability of certain countries that could adversely affect our global markets, including the adverse economic impact and related uncertainty caused by the United Kingdom's election to withdraw from the European Union.

- Foreign currency exchange rate and interest rate fluctuations including the risk of fluctuations in the value of foreign currencies that would decrease our revenues and earnings.

- Acquisition-related adverse effects including the failure to successfully obtain the anticipated revenues, margins and earnings benefits of acquisitions; integration delays or costs and the requirement to record significant adjustments to the preliminary fair value of assets acquired and liabilities assumed within the measurement period, required regulatory approvals for an acquisition not being obtained or being delayed or subject to conditions that are not anticipated, adverse impacts of changes to accounting controls and reporting procedures, contingent liabilities or indemnification obligations, increased leverage and lack of access to available financing (including financing for the acquisition or refinancing of debt owed by us on a timely basis and on reasonable terms).

- Our indebtedness and associated interest expense, could adversely affect our financial health, prevent us from fulfilling our debt obligations or limit our ability to borrow additional funds.

- A major disruption in the operations of our manufacturing, research and development or distribution facilities, due to technological problems, including any related to our information systems maintenance, enhancements or new system deployments and integrations, integration of acquisitions, natural disasters, excess or constrained manufacturing capacity, or other causes.

- Disruptions in supplies of raw materials, particularly components used to manufacture our silicone hydrogel lenses. New U.S. and foreign government laws and regulations, and changes in existing laws, regulations and enforcement guidance, which affect the contact lens industry, specifically, or the medical device and the health care industries generally.

- Compliance costs and potential liability in connection with U.S. and foreign health care regulations and federal and state laws pertaining to privacy and security of health information, including product recalls, warning letters, and data security breaches.

-

Legal costs, insurance expenses, settlement costs and the risk of an adverse decision, prohibitive injunction or settlement related to product liability, patent infringement or other litigation.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations

• Changes in tax laws or their interpretation and changes in statutory tax rates.

• Limitations on sales following product introductions due to poor market acceptance.

• New competitors, product innovations or technologies.

• Reduced sales, loss of customers and costs and expenses related to recalls.

• Failure to receive, or delays in receiving, U.S. or foreign regulatory approvals for products.

• Failure of our customers and end users to obtain adequate coverage and reimbursement from third party payors for our products and services.

• The requirement to provide for a significant liability or to write off, or accelerate depreciation on, a significant asset, including goodwill.

• The success of our research and development activities and other start-up projects.

• Dilution to earnings per share from acquisitions or issuing stock.

• Changes in accounting principles or estimates.

• Environmental risks.

Other events described in our Securities and Exchange Commission filings, including the "Business" and "Risk Factors" sections in our Annual Report on Form 10-K for the fiscal year ended October 31, 2015, as such Risk Factors may be updated in quarterly filings.

We caution investors that forward-looking statements reflect our analysis only on their stated date. We disclaim any intent to update them except as required by law.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

In this section, we discuss the results of our operations for the fiscal third quarter of 2016 ended July 31, 2016, and the nine months then ended and compare them with the same periods of fiscal 2015. We discuss our cash flows and current financial condition under "Capital Resources and Liquidity." Within the tables presented, percentages are calculated based on the underlying whole-dollar amounts and, therefore, may not recalculate from the rounded numbers used for disclosure purposes.

Third Quarter Highlights

- Net sales of \$514.7 million, up 11% from \$461.7 million
- Gross profit \$316.6 million, up 16% from \$272.9 million
- Operating income \$102.7 million, up 104% from \$50.3 million
- Diluted earnings per share of \$1.79, up from \$0.91 per share
- Cash provided by operations \$128.9 million, up from \$96.0 million

Results in our fiscal third quarter of 2016 include \$9.2 million of expenses primarily due to equipment and product rationalization related to acquisitions, \$1.1 million of costs associated with the start-up of new manufacturing facilities, and \$0.3 million of integration costs, all recorded in cost of sales; \$2.3 million of expenses for acquisition and integration activities, and \$0.4 million of certain legal costs, recorded in operating expenses; as well as \$15.6 million for amortization of intangible assets. The legal costs relate to litigation of the class action complaints filed against CooperVision and other contact lens manufacturers, distributors and retailers relating to Unilateral Pricing Policy (UPP) and related lobbying expenses.

Results in our fiscal third quarter of 2015 included \$13.0 million of expenses primarily due to product and equipment rationalization related to recent acquisitions, \$2.1 million of costs associated with the start-up of new manufacturing facilities, and \$0.2 million of severance costs, all recorded in cost of sales; \$9.7 million of expenses for acquisition, restructuring and integration activities and \$18.3 million of legal costs, including a \$17.0 million of litigation settlement, recorded in operating expenses; as well as \$12.5 million for amortization of intangible assets. The legal costs related to third-party intellectual property claims and litigation as well as litigation relating to UPP described above.

Nine-Month Highlights

- Net sales of \$1,448.2 million, up 8% from \$1,341.5 million
- Gross profit \$877.1 million, up 7% from \$817.0 million
- Operating income \$249.9 million, up 29% from \$194.4 million
- Diluted earnings per share of \$4.36, up from \$3.39 per share
- Cash provided by operations \$316.3 million, up from \$286.4 million

Results in the nine months ended July 31, 2016 include \$25.4 million of expenses primarily due to equipment and product rationalization related to acquisitions, \$4.9 million of costs associated with the start-up of new manufacturing facilities, and \$1.6 million of integration costs, all recorded in cost of sales; \$18.8 million of expenses for acquisition, restructuring and integration activities, and \$1.8 million of certain legal costs, discussed above, recorded in operating expenses; as well as \$46.1 million for amortization of intangible assets. We also incurred losses of \$0.9 million in the period related to debt extinguishment and foreign exchange forward contracts related to an acquisition, recorded in other expense.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results in the nine months ended July 31, 2015 include \$27.4 million of expenses primarily due to product and equipment rationalization related to recent acquisitions, \$4.6 million of costs associated with the start-up of new manufacturing facilities, and \$0.5 million of severance costs, all recorded in cost of sales; \$20.9 million of expenses for acquisition, restructuring and integration activities and \$19.2 million of certain legal costs, discussed above, recorded in operating expenses; as well as \$38.4 million for amortization of intangible assets.

Outlook

Overall, we remain optimistic about the long-term prospects for the worldwide contact lens and women's health care markets. However, events affecting the economy as a whole, including the uncertainty and instability of global markets driven by foreign currency and commodity volatility, including the trend of consolidation within the health care industry, impact our current performance and continue to represent a risk to our performance for the remainder of fiscal year 2016.

CooperVision - We compete in the worldwide contact lens market with our spherical, toric and multifocal contact lenses offered in a variety of materials including using silicone hydrogel Aquaform<sup>®</sup> technology and phosphorylcholine technology (PC) Technology<sup>™</sup>. We believe that there will be lower contact lens wearer dropout rates as technology improves and enhances the wearing experience through a combination of improved designs and materials and the growth of preferred modalities such as single-use and monthly wearing options. CooperVision is focused on greater worldwide market penetration of recently introduced products and we continue to expand our presence in existing and emerging markets, including through acquisitions.

Sales of contact lenses utilizing silicone hydrogel materials continue to grow and this product material represents about half of the industry. Our ability to compete successfully with a full range of silicone hydrogel products is an important factor to achieving our desired future levels of sales growth and profitability. CooperVision markets monthly and two-week silicone hydrogel spherical and toric lens products under our Biofinity<sup>®</sup>, clariti<sup>®</sup> and Avaira<sup>®</sup> brands and a monthly silicone hydrogel multifocal lens under Biofinity. CooperVision markets single-use silicone hydrogel spherical, toric and multifocal lenses under our clariti 1day brand and a single-use silicone hydrogel spherical lens under MyDay<sup>®</sup>.

We believe that the global market for single-use contact lenses will continue to grow and our single-use silicone hydrogel products represent an opportunity for our business. Our clariti 1day brand provides the only single-use silicone hydrogel lenses in the marketplace with a complete line of spherical, toric and multifocal contact lenses. We forecast increasing aggregate demand for clariti 1day and MyDay products, as well as future single-use products. To meet this anticipated demand, we plan to continue the implementation of capital projects to invest in increased single-use manufacturing capacity.

CooperSurgical - Our CooperSurgical business competes in the general healthcare market with a focus on advancing the health of families through a diversified portfolio of products and services focusing on women's health, fertility and diagnostics. CooperSurgical has established its market presence and distribution system by developing products and acquiring companies and products that complement its business model. CooperSurgical product sales are categorized based on the point of health care delivery including products used in medical office and surgical procedures primarily by obstetricians and gynecologists (ob/gyns) that represented 50% of CooperSurgical's net sales in the fiscal third quarter of 2016 compared to 67% in the prior year period. CooperSurgical's remaining sales are highly specialized products and services that target the in vitro fertilization (IVF) process used in fertility that now represent 50% of CooperSurgical's net sales up from 33% in the prior year period. This change in product mix is attributed to recent acquisitions discussed below.

Beginning in August 2015, we have invested in CooperSurgical's fertility business through the acquisition of companies and product lines for new or complementary products and services for the IVF process. In our fiscal third quarter of 2016, we acquired the commercial assets of Recombine Inc., a clinical genetic testing company specializing in carrier screening; Kivex Biotec A/S, a manufacturer and distributor of equipment for IVF clinics, and Reprogenetics UK, a genetics laboratory specializing in service offerings of preimplantation genetic screening (PGS) and preimplantation genetic diagnosis (PGD) used during the IVF process. In our fiscal second quarter of 2016, CooperSurgical acquired Genesis Genetics, Inc., a genetics laboratory specializing in PGS and PGD used during the IVF process, and The Pipette Company, a manufacturer and distributor of micro pipettes for the Assisted Reproductive Technology (ART) market

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

. In our first quarter of fiscal 2016, CooperSurgical acquired Research Instruments Limited, a manufacturer and supplier of IVF medical devices and systems. Finally, in our fiscal fourth quarter of 2015, CooperSurgical acquired Reprogenetics, a genetics laboratory specializing in service offerings of PGS and PGD used during the IVF process. We intend to continue to invest in CooperSurgical's business through acquisitions of companies and product lines.

Capital Resources - At July 31, 2016, we had \$62.6 million in cash, primarily outside the United States, and \$999.8 million available under our new syndicated revolving credit agreement. The \$830.0 million term loan entered on March 1, 2016, \$300.0 million of the \$700.0 million term loan originally entered into on August 4, 2014, and \$285.0 million of the \$300.0 million term loan originally entered into on September 12, 2013, remain outstanding as of July 31, 2016.

On March 1, 2016, we entered into a new syndicated revolving Credit and Term Loan Agreement with Keybank as administrative agent. This agreement, maturing on March 1, 2021, replaced our previous revolving Credit Agreement, entered into on January, 12, 2011 and provides for a multi-currency revolving credit facility in an aggregate principal amount of \$1.0 billion and a term loan facility in the aggregate principal amount of \$830.0 million. Concurrently, we used funds from the new term loan to repay the \$200.0 million outstanding principal amount of the two uncommitted revolving lines of credit, entered into on March 24, 2015 and the outstanding amounts under the previous Credit Agreement. We also used funds from the new term loan to partially repay outstanding amounts under the term loans entered into on August 4, 2014 and September 12, 2013, and for general corporate purposes. For more information, please see the notes to consolidated condensed financial statements.

Our current cash balance and availability under the existing credit facilities reflects the use of cash outside the United States and the use of credit facilities to fund acquisitions, including recent CooperSurgical acquisitions and the \$1.1 billion acquisition of Sauflon in August 2014. We believe that our cash and cash equivalents, cash flow from operating activities and borrowing capacity under the new credit facilities will fund operations both in the next 12 months and in the longer term as well as current and long-term cash requirements for capital expenditures, acquisitions, share repurchases and cash dividends. However, depending on the size or timing of these business activities, we may seek to raise additional debt financing.

Selling, general and administrative expense	35 %	41 %	(5 %)		37 %	40 %	— %	
Research and development expense	3 %	4 %	(12 %)		3 %	4 %	(7 %)	
Amortization of intangibles	3 %	3 %	24 %		3 %	3 %	20 %	
Operating income	20 %	11 %	104 %		17 %	14 %	29 %	

## Net Sales

Cooper's two business units, CooperVision and CooperSurgical, generate all of its sales.

CooperVision develops, manufactures and markets a broad range of soft contact lenses for the worldwide vision correction market.

CooperSurgical develops, manufactures, markets and offers services within a broad range of medical devices and procedure solutions to improve health care delivery to families.

Our consolidated net sales grew by \$53.0 million or 11%, and \$106.6 million or 8%, in the three and nine months ended July 31, 2016, respectively:

Periods Ended July 31,	Three Months				Nine Months			
			2016 vs				2016 vs	
	(\$ in millions)		2015		2016		2015	
	2016	2015	% Change		2016	2015	% Change	
CooperVision	\$409.9	\$385.5	6 %		\$1,165.5	\$1,114.4	5 %	
CooperSurgical	104.8	76.2	38 %		282.7	227.1	24 %	
	\$514.7	\$461.7	11 %		\$1,448.2	\$1,341.5	8 %	

## CooperVision Net Sales

The contact lens market has two major product categories:

Spherical lenses including lenses that correct near- and farsightedness uncomplicated by more complex visual defects.

Toric and multifocal lenses including lenses that, in addition to correcting near- and farsightedness, address more complex visual defects such as astigmatism and presbyopia by adding optical properties of cylinder and axis, which correct for irregularities in the shape of the cornea.

In order to achieve comfortable and healthy contact lens wear, products are sold with recommended replacement schedules, often defined as modalities, with the primary modalities being single-use, two-week and monthly.

CooperVision offers spherical, aspherical, toric, multifocal and toric multifocal lens products in most modalities.

Single-use lenses are designed for daily replacement and frequently replaced lenses are designed for two-week or monthly replacement. Significantly, the market for spherical lenses is growing with value-added spherical lenses to alleviate dry eye symptoms, to reduce eye fatigue from use of digital devices, to add aspherical optical properties, and/or higher oxygen permeable lenses such as silicone hydrogels.

Table of Contents

## THE COOPER COMPANIES, INC. AND SUBSIDIARIES

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CooperVision's silicone hydrogel Biofinity brand spherical, toric and multifocal contact lenses, Avaira brand spherical and toric lenses and MyDay brand spherical lenses, are manufactured using proprietary Aquaform technology to increase oxygen transmissibility for longer wear. Our silicone hydrogel clariti brand spherical, toric and multifocal contact lenses are available in monthly and single-use modalities. We believe the clariti single-use silicone hydrogel lens products provide a competitive advantage in approved markets as clariti is the only single-use silicone hydrogel lens available in all vision correction categories - spherical, toric and multifocal.

CooperVision's Proclea® brand aspheric, toric and multifocal contact lenses, manufactured using PC Technology, help enhance tissue/device compatibility and offer improved lens comfort.

CooperVision's net sales for the fiscal third quarter of 2016 increased 6% from the prior year period. CooperVision's net sales growth included a 6% increase in total sphere lenses, representing 55% of net sales, the same as in the prior year period, primarily due to growth in sales of clariti, Biofinity and MyDay lenses offset by declines in older hydrogel products. Total toric lenses grew 10%, representing 31% of net sales, compared to 30% in the prior year period, primarily from growth in sales of clariti and Biofinity products. Total multifocal lenses grew 4% representing 11% of net sales, the same as in the prior year period, primarily from growth in sales of Biofinity and clariti products. Total silicone hydrogel products, including clariti, Biofinity, Avaira and MyDay, grew 15%, representing 60% of net sales compared to 56% in the prior year period.

CooperVision competes in the worldwide soft contact lens market and services three primary regions: the Americas, EMEA (Europe, Middle East and Africa) and Asia Pacific.

## CooperVision Net Sales by Geography

Periods Ended July 31,	Three Months		Nine Months			
	2016	2015	2016 vs. 2015 %	2016	2015	2016 vs. 2015 %
(\$ in millions)			Change			Change
Americas	\$166.1	\$157.4	6 %	\$482.6	\$468.4	3 %
EMEA	162.5	163.0	— %	456.6	453.9	1 %
Asia Pacific	81.3	65.1	25 %	226.3	192.1	18 %
	\$409.9	\$385.5	6 %	\$1,165.5	\$1,114.4	5 %

Americas net sales growth was primarily due to market gains of silicone hydrogel lenses including Biofinity, clariti, and MyDay, partially offset by the decrease in sales of older hydrogel products. EMEA net sales remained relatively flat in the three and nine month periods. This was primarily driven by market gains of silicone hydrogel lenses including Biofinity, clariti and MyDay, which were offset by the weakening of foreign currencies as compared to the United States dollar. Net sales in the Asia Pacific region grew on market gains of silicone hydrogel lenses, including Biofinity, clariti and MyDay, along with growth in sales of Proclear 1 Day lenses. Net sales growth in the Asia Pacific region benefited in the three and nine month periods by exchange rate changes of the United States dollar compared to the Japanese yen.

CooperVision's net sales were driven primarily by increases in the volume of lenses sold, including recently introduced silicone hydrogel products and products from the acquisition of Sauflon. While unit growth and product mix have influenced CooperVision's net sales, average realized prices by product have not materially influenced sales growth.

Table of Contents

## THE COOPER COMPANIES, INC. AND SUBSIDIARIES

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## CooperSurgical Net Sales

CooperSurgical supplies the market for family health care with a diversified portfolio of products and services for use in surgical and other medical procedures that are performed primarily by obstetricians and gynecologists in hospitals, surgical centers, fertility clinics and in the medical office. Fertility offerings include highly specialized products and services that target the in vitro fertilization (IVF) process with a goal to make fertility treatment safer, more efficient and convenient.

Three Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015	
					Change	%
Office and surgical products	\$52.8	50 %	\$51.2	67 %	3	%
Fertility	52.0	50 %	25.0	33 %	108	%
	\$104.8	100 %	\$76.2	100 %	38	%

Nine Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015	
					Change	%
Office and surgical products	\$159.2	56 %	\$151.9	67 %	5	%
Fertility	123.5	44 %	75.2	33 %	64	%
	\$282.7	100 %	\$227.1	100 %	24	%

CooperSurgical's net sales of medical office and surgical products in the three and nine month periods ended July 31, 2016 increased compared to the prior year periods on growth in sales of disposable products used in surgical procedures and recently launched products. The net sales increase in fertility as compared to the prior year period was primarily due to sales of products and services of recently acquired companies. Net sales growth was partially offset by the negative impact from the weakening of foreign currencies as compared to the United States dollar.

Unit growth and product mix, primarily sales of recently acquired products and services, influenced sales growth.

## Cost of Sales/Gross Profit

Gross Profit Percentage of Net Sales	Three Months		Nine Months	
	2016	2015	2016	2015
Periods Ended July 31,				
CooperVision	62%	58%	60%	60%
CooperSurgical	61%	65%	63%	64%
Consolidated	62%	59%	61%	61%

CooperVision's increase in gross margin in the three month period as compared to the prior year period is primarily due to the increase in sales of higher margin products including Biofinity. Gross margin also was positively impacted in the three month period compared to the prior year period by a decrease consisting of \$4.8 million of product and equipment rationalization costs arising from our review of Sauflon's products, materials and manufacturing processes, as well as lower costs associated with the start-up of new manufacturing facilities.

CooperSurgical's decrease in gross margin in the three and nine month periods as compared to the prior year periods is primarily due to a change in product mix arising from sales of recently acquired lower margin products and services.

CooperSurgical	101.9	36 %	81.5	36 %	25 %
Corporate	33.7	—	35.3	—	(5 )%
	\$533.7	37 %	\$532.9	40 %	— %

The decrease in CooperVision's SGA in absolute dollars in the three and nine month periods compared to the prior year periods was primarily due to lower litigation settlement, legal and related lobbying costs consisting of \$0.4 million and \$1.8 million in the current year periods, respectively, compared to \$18.3 million and \$19.2 million in the same prior year periods. The litigation, legal and related lobbying costs were related to the class action complaints filed against CooperVision and other contact lens manufacturers, distributors and retailers relating to UPP, as well as a \$17.0 million settlement made to JJVC in the third quarter of fiscal 2015. The reduction in SGA expense is also due to lower Sauflon restructuring and integration activities of (\$0.4) million and \$10.0 million, for the three and nine month periods ended July 31, 2016, respectively, compared to \$7.0 million and \$16.5 million in the same prior year periods. CooperVision's SGA excluding legal, restructuring and integration activities discussed above, increased due to investment in sales and marketing, including headcount, to promote our silicone hydrogel products and to reach new customers and support geographic expansion.

The increase in CooperSurgical's SGA in absolute dollars is primarily due to the inclusion of operating expenses of recently acquired companies as well as \$2.7 million and \$8.9 million of acquisition and integration expenses for the three and nine month periods ended July 31, 2016, respectively, compared to \$0.8 million and \$2.2 million in the same prior year periods. CooperSurgical continues to invest in sales activities to promote our products and to reach new customers.

The increase in Corporate SGA in absolute dollars for the fiscal third quarter of 2016 as compared to the prior year period is primarily due to share based compensation related expenses. The decrease in Corporate SGA in absolute dollars for the nine month period ended July 31, 2016 as compared to the prior year period is primarily due to lower share-based compensation costs and efficiencies as a result of cost control measures.

## Research and Development Expense (R&amp;D)

Three Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$11.5	3 %	\$14.7	4 %	(22 )%
CooperSurgical	4.5	4 %	3.6	5 %	26 %
	\$16.0	3 %	\$18.3	4 %	(12 )%

Nine Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$35.0	3 %	\$40.3	4 %	(13 )%
CooperSurgical	12.5	4 %	10.9	5 %	15 %
	\$47.5	3 %	\$51.2	4 %	(7 )%

The decreases in CooperVision's research and development expense in absolute dollars and as a percentage of sales in the three and nine month periods as compared to the prior year periods are primarily due to synergies resulting from the integration of Sauflon. In the fiscal third quarter of 2015, CooperVision recorded \$1.9 million in charges primarily for equipment rationalization related to Sauflon integration activities. CooperVision's R&D activities are primarily focused on the development of contact lenses and manufacturing improvements.

The increases in CooperSurgical's research and development expense in absolute dollars in the three and nine month periods are primarily due to increased activity to bring newly acquired products to market, increased investment in projects to develop new products and the upgrade of existing products. The decreases in research and development expense as a percent of sales in the three and nine month periods are due to the inclusion of the results of operations of several recent acquisitions. CooperSurgical's research and development activities include in vitro fertilization product development and the design and upgrade of surgical procedure devices.

## Amortization Expense

Three Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$9.8	2 %	\$9.0	2 %	9 %
CooperSurgical	5.8	6 %	3.5	5 %	64 %
	\$15.6	3 %	\$12.5	3 %	24 %

Nine Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$31.5	3 %	\$27.7	2 %	14 %
CooperSurgical	14.6	5 %	10.7	5 %	36 %
	\$46.1	3 %	\$38.4	3 %	20 %

The sequential increases in amortization are due primarily to amortization of intangible assets acquired in recent acquisitions by CooperSurgical. The increase in CooperVision's amortization expense in the nine month period ended July 31, 2016 includes a charge of \$2.3 million in the fiscal first quarter to write off acquired in-process research and development. We expect amortization to be approximately \$14.8 million in the fiscal fourth quarter primarily due to

intangible assets acquired with the recent acquisitions in CooperSurgical, offset by intangible assets which we forecast to become fully amortized.

Restructuring Costs

During the fiscal fourth quarter of 2014 and in connection with the Sauflon acquisition, our CooperVision business unit initiated restructuring and integration activities to optimize operational synergies of the combined companies. The

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

2014 Sauflon Integration Plan activities include workforce reductions, consolidation of duplicative facilities and product rationalization. We now estimate that the total restructuring costs under this plan will be \$125.0 million, as discussed in our notes to consolidated condensed financial statements. We are substantially complete with activities related to operating expenses, and we expect to incur costs related to the manufacturing activities through the end of fiscal 2016.

Pursuant to the 2014 Sauflon Integration Plan, in the three and nine month periods ended July 31, 2016, we recorded in cost of sales \$8.7 million and \$23.5 million of expense, respectively, arising from production-related asset disposals and accelerated depreciation on equipment primarily related to our hydrogel lenses, based on our review of products, materials and manufacturing processes of Sauflon. We recorded in cost of sales, employee termination costs of \$0.4 million and \$0.9 million in the three and nine month periods ended July 31, 2016, respectively. We recorded \$0.1 million of employee termination costs and \$0.2 million for lease termination costs in selling, general and administrative expense in the nine months ended July 31, 2016. We also recorded in research and development expense \$0.1 million of employee termination costs in the nine months ended July 31, 2016. In addition, CooperVision incurred \$10.0 million of integration costs included in operating expenses in the nine months ended July 31, 2016. CooperVision did not incur integration costs in the fiscal third quarter of 2016.

## Operating Income

Three Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$99.4	24 %	\$46.4	12 %	114 %
CooperSurgical	14.7	14 %	15.0	20 %	(3 )%
Corporate	(11.4 )	—	(11.1 )	—	(2 )%
	\$102.7	20 %	\$50.3	11 %	104 %

Nine Months Ended July 31, (\$ in millions)	2016	% Net Sales	2015	% Net Sales	2016 vs. 2015 % Change
CooperVision	\$235.7	20 %	\$187.2	17 %	26 %
CooperSurgical	47.9	17 %	42.5	19 %	13 %
Corporate	(33.7 )	—	(35.3 )	—	5 %
	\$249.9	17 %	\$194.4	14 %	29 %

Consolidated operating income in the fiscal 2016 periods increased in absolute dollars compared to the prior year periods primarily due to the increase in consolidated net sales in the three and nine month periods. In addition, the Company had improved gross margin and lower total operating expenses in the current three month period.

CooperVision's operating income in the three and nine month periods increased in absolute dollars and as a percentage of net sales primarily due to decreases in expenses relating to legal, and restructuring and integration costs primarily related to Sauflon, as discussed above, recorded in cost of sales and operating expenses.

CooperSurgical's operating income in the three month period decreased in absolute dollars and as a percentage of net sales reflecting the sales of recently acquired lower margin products and services and the increase in total operating expenses primarily due to SGA and amortization expenses from recent acquisitions. CooperSurgical's operating income increase in absolute dollars in the nine month period reflects the increase in sales of higher margin legacy products as a result of our investment in sales and promotional activities to reach new customers as well as recently

launched products, partially offset by the sales of recently acquired lower margin products and services and the increase in total operating expenses.
