NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Description of Business and Accounting Policies

Description of Business — Cincinnati Bell Inc. and its consolidated subsidiaries ("Cincinnati Bell", "we", "our", "us" or the "Company") is a full-service regional provider of entertainment, data and voice communications services over wireline and wireless networks, a provider of managed and professional information technology services, and a reseller of information technology ("IT") and telephony equipment. In addition, enterprise customers across the United States rely on Cincinnati Bell Technology Solutions Inc. ("CBTS"), a wholly-owned subsidiary, for efficient, scalable communications systems and end-to-end IT solutions. As of March 31, 2014, we operate our business through the following segments: Wireline, IT Services and Hardware, and Wireless.

On January 24, 2013, we completed the initial public offering ("IPO") of CyrusOne Inc. ("CyrusOne"), which owns and operates our former Data Center Colocation segment. CyrusOne conducts its data center business through CyrusOne LP, an operating partnership. We currently own approximately 1.9 million shares of CyrusOne's common stock and are a limited partner in CyrusOne LP, owning approximately 42.6 million of its partnership units. Although we effectively own approximately 68% of CyrusOne through our ownership of its common stock and partnership units of CyrusOne LP, we no longer control its operations. Effective January 24, 2013, we no longer include the accounts of CyrusOne in our consolidated financial statements and now account for our ownership in CyrusOne as an equity method investment.

Basis of Presentation — The Condensed Consolidated Financial Statements of the Company have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, other comprehensive income, financial position, and cash flows for each period presented.

The adjustments referred to above are of a normal and recurring nature. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to SEC rules and regulations for interim reporting.

The Condensed Consolidated Balance Sheet as of December 31, 2013 was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2013 Annual Report on Form 10-K. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results expected for the full year or any other interim period.

Use of Estimates — Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates. In the normal course of business, the Company is subject to various regulatory and tax proceedings, lawsuits, claims, and other matters. The Company believes adequate provision has been made for all such asserted and unasserted claims in accordance with U.S. GAAP. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

Investment in CyrusOne — We completed the IPO of CyrusOne on January 24, 2013, and as of that date, we have significant influence over it but do not control its operations. As a result, effective January 24, 2013, our ownership in CyrusOne is accounted for as an equity method investment. From that date, we recognize our proportionate share of CyrusOne's net income or loss as non-operating income or expense in our Condensed Consolidated Statement of Operations. For the period January 1, 2013 through January 23, 2013, we consolidated CyrusOne's operating results. For the quarter ended March 31, 2014, the Company received cash dividends from CyrusOne totaling \$7.1 million. Dividends from CyrusOne are recognized as a reduction of our investment.

Property, Plant and Equipment — Property, plant and equipment is stated at original cost and presented net of accumulated depreciation and impairment losses. Depreciation expense is generally calculated using either the group depreciation method or the straight-line method.

In the first quarter of 2013, and in connection with our review of the estimated remaining useful lives of property, plant and equipment, we shortened the estimated useful lives assigned to wireless network software to three years. This change resulted from smartphone-driven technology upgrades, enhancements and projected retirements. For the three months ended March 31, 2013, the increase in depreciation expense associated with this change was \$8.5 million and increased basic and diluted loss per share by approximately \$0.03 per share.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

In conjunction with our long-lived asset analysis conducted in the fourth quarter of 2013, we reassessed the useful lives of all our Wireless property, plant and equipment. The remaining useful life for all Wireless property, plant, and equipment assets was reduced to 30 months as of December 31, 2013. As a result of this change in estimate, depreciation expense increased by approximately \$9 million in the first quarter of 2014 and reduced basic and diluted earnings per share by approximately \$0.03 per share. In addition, reducing the useful life of all Wireless property, plant and equipment also required that we shorten the amortization period of the deferred gain associated with the 2009 tower sale to 30 months as of December 31, 2013.

Amortization of the deferred gain associated with the tower sale totaled \$3.6 million and \$0.6 million in the three months ended March 31, 2014 and 2013, respectively.

Income Taxes — The Company's income tax provision for interim periods is determined through the use of an estimated annual effective tax rate applied to year-to-date ordinary income, as well as the tax effects associated with discrete items. The Company's tax expense for the three months ended March 31, 2014 increased from the prior year primarily due to higher pre-tax income and an increase in the annual effective tax rate. In addition, during the first quarter of 2013, the Company recorded a valuation allowance provision of \$10.7 million for Texas margin credits which, effective with CyrusOne's IPO on January 24, 2013, are unlikely to be realized before their expiration date.

Recently Issued Accounting Standards — In July 2013, the FASB issued new guidance under Accounting Standards Update ("ASU") 2013-11 regarding the presentation of unrecognized tax benefits in financial statements. This new standard requires the netting in the balance sheet of unrecognized tax benefits against a deferred tax asset for a same-jurisdiction loss or other carryforward that would apply in settlement of the uncertain tax positions. To the extent a net operating loss ("NOL") or tax credit carryforward is not available under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, the unrecognized tax benefit would be presented in the balance sheet as a liability. This standard went into effect for annual and interim periods beginning after December 15, 2013. We adopted this new guidance beginning with our interim financial statements for the three months ended March 31, 2014. The adoption of this standard did not have a material impact on our financial statements for the first quarter of 2014.

In February 2013, the Financial Accounting Standards Board amended the guidance in Accounting Standards Codification 220 on comprehensive income. The new guidance requires additional information to be disclosed about the amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amounts reclassified are required under U.S. GAAP to be reclassified in their entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, cross references to other disclosures will be required. We adopted this new guidance beginning with our interim financial statements for the three months ended March 31, 2013. See Note 9 for our disclosures.

In April 2014, the FASB issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in this update increased the threshold for a disposal to qualify as a discontinued operation and require new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The standard will be effective for us on January 1, 2015. The adoption of this pronouncement may affect our presentation and disclosure of any future dispositions.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

2. Investment in CyrusOne

On January 24, 2013, we completed the initial public offering of CyrusOne, our former Data Center Colocation segment. As of that date, we no longer control CyrusOne's operations and we removed the following assets and liabilities of CyrusOne from our consolidated financial statements:

(dollars in millions)

Cash	\$12.2
Receivables	41.5
Other current assets	13.4
Property, plant and equipment	736.2
Goodwill and intangibles	377.7
Other noncurrent assets	44.0
Total assets	1,225.0
Current portion of long-term debt	6.3
Accounts payable	29.4
Unearned revenue and customer deposits	24.1
Other current liabilities	12.9
Long-term debt	550.3
Other noncurrent liabilities	92.3
Total liabilities	715.3
Net assets	\$509.7

As we have significant influence over CyrusOne, we account for this investment using the equity method. Our 68% effective ownership of CyrusOne is held in the form of 1.9 million shares of registered common stock of CyrusOne Inc. and 42.6 million economically equivalent partnership units in its underlying operating entity, CyrusOne LP. For the first quarter of 2014, our equity method share of CyrusOne's net income was \$0.5 million. For the period January 24, 2013 through March 31, 2013, our equity method share of CyrusOne's net loss was \$1.9 million.

Commencing January 17, 2014, we are permitted to exchange the partnership units of CyrusOne LP into cash or shares of common stock of CyrusOne, as determined by CyrusOne, on a one-for-one basis based upon the fair value of a share of CyrusOne common stock, subject to certain limitations which restricted the volume of shares we are permitted to sell. The registration statement filed by CyrusOne on March 24, 2014 became effective on April 4, 2014 and eliminated all prior limitations restricting the volume of shares we are allowed to sell.

As of March 31, 2014, the fair value of this investment was \$926.5 million based on the quoted market price of CyrusOne's common stock, which is considered a Level 1 measurement in the fair value hierarchy.

Summarized financial information for CyrusOne is as follows:

(dollars in millions)	For the three months ended March 31, 2014	January 24, 2013 to March 31, 2013
Revenue	\$77.5	\$45.0
Operating income	11.8	5.8
Net income (loss)	0.7	(2.8)

Transactions with CyrusOne

Revenues - The Company records revenue from CyrusOne under contractual service arrangements which include, among others, providing services such as fiber transport, network support, service calls, monitoring and management, storage and back-up, and IT systems support.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Operating Expenses - We lease data center and office space from CyrusOne at certain locations in the Cincinnati area under operating leases and are also billed for other services provided by CyrusOne under contractual service arrangements. In the normal course of business, the Company also incurs expenses on CyrusOne's behalf for certain administrative functions. Such expenses are subsequently billed to and recovered from CyrusOne at their actual cost. These expense recoveries from CyrusOne are credited to the expense account in which they were initially recorded. For the three months ended March 31, 2013, we recognized transaction-related compensation of \$20.0 million associated with CyrusOne employees. These payments were made in April 2013. See Note 8 for further discussion of this compensation plan.

For the three months ended March 31, 2014 and for the period January 24, 2013 through March 31, 2013, revenues and operating costs and expenses from transactions with CyrusOne were as follows:

(dollars in millions)	For the three months ended March 31, 2014	January 24, 2013 through March 31, 2013
Revenue:		
Services provided to CyrusOne	\$0.5	\$0.5
Operating costs and expenses:		
Transaction-related compensation to CyrusOne employees	\$—	\$20.0
Charges for services provided by CyrusOne	2.3	1.5
Administrative services provided to CyrusOne	(0.1) (0.1
Total operating costs and expenses	\$2.2	\$21.4

Dividends of \$7.1 million were received in the first quarter of 2014. In addition, on February 19, 2014, CyrusOne declared dividends of \$0.21 per share payable on its common shares and CyrusOne LP partnership units. This dividend was paid on April 15, 2014 to holders of record as of March 28, 2014.

In addition to the agreements noted above, the Company entered into a tax sharing agreement with CyrusOne. Under the terms of the agreement, CyrusOne will reimburse the Company for the Texas Margin Tax liability that CyrusOne would have incurred if they filed a Texas Margin Tax return separate from the consolidated filing. The agreement will remain in effect until terminated by the mutual written consent of the parties or when the Company is no longer required to file the Texas Margin Tax return on a consolidated basis with CyrusOne. As of March 31, 2014 and December 31, 2013, the receivable related to this agreement amounted to \$1.9 million and \$1.5 million, respectively. These balances are included in Receivable from CyrusOne.

At March 31, 2014 and December 31, 2013, amounts receivable from and payable to CyrusOne were as follows:

(dollars in millions)	March 31, 2014	December 31, 2013
Accounts receivable	\$2.1	\$2.1
Dividends receivable	9.3	7.1
Receivable from CyrusOne	\$11.4	\$9.2
Accounts payable	\$0.7	\$0.5
Payable to CyrusOne	\$0.7	\$0.5

3. Earnings Per Common Share

Basic earnings per common share ("EPS") is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur upon issuance of common shares for

awards under stock-based compensation plans, exercise of warrants or conversion of preferred stock, but only to the extent that they are considered dilutive.

The following table shows the computation of basic and diluted EPS:

(in millions, except per share amounts)	Three Months Ended March 31,	
	2014	2013
Numerator:		
Net income (loss)	\$7.0	\$(36.7)
Preferred stock dividends	2.6	2.6
Net income (loss) applicable to common shareowners - basic and diluted	\$4.4	\$(39.3)
Denominator:		
Weighted average common shares outstanding - basic	208.0	202.8
Stock-based compensation arrangements	1.0	—
Weighted average common shares outstanding - diluted	209.0	202.8
Basic and diluted earnings (loss) per common share	\$0.02	\$(0.19)

For the three months ended March 31, 2014, awards under the Company's stock-based compensation plans for common shares of 3.9 million were excluded from the computation of diluted EPS as the inclusion would have been anti-dilutive. For the three months ended March 31, 2013, the Company had a net loss available to common shareholders and, as a result, all common stock equivalents were excluded from the computation of diluted EPS as their inclusion would have been anti-dilutive. For all periods presented, preferred stock convertible into 4.5 million common shares was excluded as it was anti-dilutive.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

4. Debt

The Company's debt consists of the following:

(dollars in millions)	March 31, 2014	December 31, 2013
Current portion of long-term debt:		
Corporate Credit Agreement - Tranche B Term Loan	\$5.4	\$5.4
Capital lease obligations and other debt	6.7	7.2
Current portion of long-term debt	12.1	12.6
Long-term debt, less current portion:		
Corporate Credit Agreement	37.5	40.0
Receivables facility	104.6	106.2
8 3/4% Senior Subordinated Notes due 2018	625.0	625.0
Corporate Credit Agreement - Tranche B Term Loan	531.9	533.2
8 3/8% Senior Notes due 2020	683.9	683.9
7 1/4% Senior Notes due 2023	40.0	40.0
Various Cincinnati Bell Telephone notes	134.5	134.5
Capital lease obligations and other debt	92.7	96.1
	2,250.1	2,258.9
Net unamortized discount	(6.0) (6.3
Long-term debt, less current portion	2,244.1	2,252.6
Total debt	\$2,256.2	\$2,265.2

As of March 31, 2014, the Company had \$37.5 million of outstanding borrowings on its revolving credit facility ("Corporate Credit Agreement"), leaving \$162.5 million available for borrowings. This revolving credit facility expires in July 2017.

On September 10, 2013, the Company amended and restated its Corporate Credit Agreement, originally dated as of November 20, 2012, to include a \$540 million Tranche B Term Loan facility ("Tranche B Term Loan") that matures on September 10, 2020. The Tranche B Term Loan requires quarterly principal payments of 0.25% of the original principal amount.

As of March 31, 2014, the Company had \$104.6 million of borrowings and \$5.2 million of letters of credit outstanding under the accounts receivable securitization facility ("Receivables Facility"), leaving no remaining availability on the total borrowing capacity of \$109.8 million. The Receivables Facility is subject to renewal every 364 days and expires in June 2016. In the event the Receivables Facility is not renewed, the Company has the ability to refinance any outstanding borrowings with borrowings under the Corporate Credit Agreement. The permitted borrowings vary depending on the level of eligible receivables and other factors. Under the Receivables Facility, certain subsidiaries, or originators, sell their respective trade receivables on a continuous basis to Cincinnati Bell Funding LLC ("CBF"). Although CBF is a wholly-owned consolidated subsidiary of the Company, CBF is legally separate from the Company and each of the Company's other subsidiaries. Upon and after the sale or contribution of the accounts receivable to CBF, such accounts receivable are legally assets of CBF and, as such, are not available to creditors of other subsidiaries or the Company.

5. Financial Instruments and Fair Value Measurements

Fair Value of Financial Instruments

The carrying values of the Company's financial instruments approximate the estimated fair values as of March 31, 2014 and December 31, 2013, except for the Company's investment in CyrusOne and long-term debt. The carrying and fair values of these financial instruments are as follows:

(dollars in millions)	March 31, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Investment in CyrusOne	\$462.2	\$926.5	\$471.0	\$993.2
Long-term debt, including current portion*	2,157.6	2,254.9	2,162.7	2,248.3

*Excludes capital leases.

The fair value of our investment in CyrusOne was based on the closing market price of CyrusOne's common stock on March 31, 2014 and December 31, 2013. This fair value measurement is considered Level 1 of the fair value hierarchy.

The fair value of our long-term debt was based on closing or estimated market prices of the Company's debt at March 31, 2014 and December 31, 2013, which is considered Level 2 of the fair value hierarchy.

6. Restructuring Charges

As of March 31, 2014, restructuring liabilities have been established for employee separations, lease abandonments and contract terminations. A summary of the activity in our restructuring liabilities is presented below:

(dollars in millions)	Employee Separation	Lease Abandonment	Other	Total	
Balance as of December 31, 2013	\$9.7	\$6.0	\$0.1	\$15.8	
Charges	—	—	—	—	
Utilizations	(2.6) (0.9) —	(3.5)
Balance as of March 31, 2014	\$7.1	\$5.1	\$0.1	\$12.3	

The Company made severance payments during the three months ended March 31, 2014 pursuant to its written severance plan and certain management contracts. Lease abandonment costs represent future minimum lease obligations, net of expected sublease income, for abandoned facilities. Lease payments on abandoned facilities will continue through 2015. Other consists of amounts due to telecommunication carriers to cancel circuits.

A summary of restructuring activity by business segment is presented below:

(dollars in millions)	Wireline	IT Services and Hardware	Wireless	Corporate	Total	
Balance as of December 31, 2013	\$10.5	\$0.8	\$1.5	\$3.0	\$15.8	
Charges	—	—	—	—	—	
Utilizations	(1.8) —	(0.3) (1.4) (3.5)
Balance as of March 31, 2014	\$8.7	\$0.8	\$1.2	\$1.6	\$12.3	

At March 31, 2014 and December 31, 2013, \$5.6 million and \$7.8 million, respectively, of the restructuring liabilities were included in "Other current liabilities," and \$6.7 million and \$8.0 million, respectively, were included in "Other noncurrent liabilities" in the Condensed Consolidated Balance Sheets.

7. Pension and Postretirement Plans

The Company sponsors three noncontributory defined benefit plans and a postretirement health and life insurance plan. For the three months ended March 31, 2014 and 2013, approximately 10% of the costs were capitalized as a component of property, plant and equipment related to construction of our wireline network.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

For the three months ended March 31, 2014 and 2013, pension and postretirement benefit costs were as follows:

(dollars in millions)	Three Months Ended March 31,			
	2014	2013	2014	2013
	Pension Benefits		Postretirement and Other Benefits	
Service cost	\$0.3	\$0.6	\$0.1	\$0.1
Interest cost on projected benefit obligation	4.5	5.2	0.9	1.3
Expected return on plan assets	(6.8) (6.1) —	—
Amortization of:				
Prior service cost (benefit)	—	—	(3.8) (3.2
Actuarial loss	5.3	6.0	1.3	1.6
Total amortization	5.3	6.0	(2.5) (1.6
Benefit costs	\$3.3	\$5.7	\$(1.5) \$(0.2

Amortizations of prior service cost (benefit) and actuarial loss represent reclassifications from accumulated other comprehensive income.

Contributions in 2014 to the Company's pension and postretirement plans are expected to be approximately \$35 million and \$13 million, respectively. For the three months ended March 31, 2014, contributions to the pension plans were \$5.0 million and contributions to the postretirement plan were \$3.2 million.

Table of Contents

8. Stock-Based and Other Compensation Plans

The Company grants stock options, stock appreciation rights (“SARs”), long-term incentive plan performance-based awards, and time-based restricted shares, some of which are cash-settled awards with the final payment indexed to the percentage change in the Company’s stock price from the date of grant.

For the three months ended March 31, 2014, the Company recognized stock-based compensation expense of \$0.9 million, inclusive of a \$0.2 million mark-to-market gain on awards indexed to the Company's stock price. For the three months ended March 31, 2013, the Company recognized stock-based compensation benefit of \$1.7 million, which reflected \$3.9 million of mark-to-market gains. As of March 31, 2014, there was \$8.2 million of unrecognized compensation expense related to these awards. The remaining compensation expense for the stock options, SARs and restricted awards is expected to be recognized over a weighted-average period of approximately one year, and the remaining expense for long-term incentive plan performance-based awards will be recognized within approximately three years.

The Company also has deferred compensation plans for its Board of Directors and certain executives. Under these plans, participants can elect to invest their deferrals in the Company’s common stock. At March 31, 2014 and 2013, the number of common shares deferred under these plans was 0.6 million and 0.8 million, respectively. As these awards can be settled in cash, the Company records compensation costs each period based on the change in the Company’s stock price. For the three months ended March 31, 2014, the Company recognized nominal expense. For the three months ended March 31, 2013, the Company recognized a benefit of \$1.6 million.

In 2010, the Company's Board of Directors approved long-term incentive programs for certain members of management. Payment was contingent upon the completion of a qualifying transaction and attainment of an increase in the equity value of the data center business, as defined in the plans. On January 24, 2013, the initial public offering of CyrusOne was completed, which represented a qualifying transaction requiring payment under these compensation plans. For the three months ended March 31, 2013, compensation expense of \$35.5 million was recognized for these awards and other transaction-related incentives, of which \$20.0 million was associated with CyrusOne employees. These payments were made in April 2013. This expense has been presented as transaction-related compensation in our Condensed Consolidated Statement of Operations for the three months ended March 31, 2013. In May 2013, additional compensation expense of \$7.1 million was recorded related to the success of the CyrusOne IPO.

9. Shareowners' Deficit

Warrants

In March 2003, the Company entered into a series of recapitalization transactions which included the issuance of 17.5 million warrants which expired on March 26, 2013. Each warrant allowed the holder to purchase one share of Cincinnati Bell common stock at an exercise price of \$3.00 each. During the first quarter of 2013, warrant holders elected to exercise a total of 14.3 million warrants, leaving no remaining warrants outstanding as of March 31, 2013. As a result, the Company issued a total of 4.4 million shares of common stock and received \$5.1 million of cash proceeds for the 1.7 million of such warrants which were cash settled.

Accumulated Other Comprehensive Loss

For the three months ended March 31, 2014, the changes in accumulated other comprehensive loss by component were as follows:

(dollars in millions)	Unrecognized Net Periodic Pension and Postretirement Benefit Cost	Foreign Currency Translation Loss	Total
Balance as of December 31, 2013	\$(133.1)	\$(0.2)	\$(133.3)
Reclassifications, net	1.8	(a) —	1.8
Balance as of March 31, 2014	\$(131.3)	\$(0.2)	\$(131.5)

(a) These reclassifications are included in the components of net periodic pension and postretirement benefit costs (see Note 7 for additional details). The components of net periodic pension and postretirement benefit cost are reported

within "Cost of services", "Cost of products sold", and "Selling, general and administrative" expenses on the Condensed Consolidated Statements of Operations.

10. Business Segment Information

For the period January 1, 2013 through January 23, 2013, we operated four business segments: Wireline, IT Services and Hardware, Wireless and Data Center Colocation. Effective January 24, 2013, the date of the CyrusOne IPO, we no longer include CyrusOne, our former Data Center Colocation segment, in our consolidated financial statements and now account for our ownership in CyrusOne as an equity method investment. Therefore, at March 31, 2014, we operated three business segments: Wireline, IT Services and Hardware, and Wireless. The Company's segments are strategic business units that offer distinct products and services and are aligned with its internal management structure and reporting.

The Wireline segment provides products and services such as local voice, high-speed internet, data transport, long distance, entertainment, voice over internet protocol (VoIP), and other services. The IT Services and Hardware segment provides a range of fully managed and outsourced IT and telecommunications services along with the sale, installation, and maintenance of major branded IT and telephony equipment. The Wireless segment provides digital wireless voice and data communications services and sales of related handset equipment to customers in the Greater Cincinnati and Dayton, Ohio operating areas.

The Data Center Colocation results shown in the accompanying tables reflect the revenues and expenses of our former data center business for the period January 1, 2013 through January 23, 2013. Effective January 24, 2013, we no longer include CyrusOne's operating results in our consolidated financial statements. For the first quarter 2014, income from our equity method investment in CyrusOne was \$0.5 million. For the period January 24, 2013 to March 31, 2013, we recognized a \$1.9 million loss from our investment in CyrusOne. As of March 31, 2014, the carrying value of our investment in CyrusOne was \$462.2 million and is included as an asset of the Corporate segment.

Certain corporate administrative expenses have been allocated to the segments based upon the nature of the expense and the relative size of the segment. Intercompany transactions between segments have been eliminated.

Selected financial data for the Company's business segment information is as follows:

11. Supplemental Guarantor Information

Cincinnati Bell Telephone Notes

As of March 31, 2014, Cincinnati Bell Telephone Company LLC (“CBT”), a wholly-owned subsidiary of Cincinnati Bell Inc. (the “Parent Company”), had \$134.5 million in notes outstanding that are guaranteed by the Parent Company and no other subsidiaries of the Parent Company. The guarantee is full and unconditional. The Parent Company’s subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company’s debt service obligations.

The following information sets forth the Condensed Consolidating Statements of Operations and Comprehensive Income (Loss) for the three months ended March 31, 2014 and 2013, Condensed Consolidating Balance Sheets as of March 31, 2014 and December 31, 2013, and Condensed Consolidating Statements of Cash Flows for the three months ended March 31, 2014 and 2013 of (1) the Parent Company, as the guarantor, (2) CBT, as the issuer, and (3) the non-guarantor subsidiaries on a combined basis.

Form 10-Q Part I

Cincinnati Bell Inc.

Supplemental Guarantor Information - 8³/₈% Senior Notes due 2020 and 8³/₄% Senior Subordinated Notes due 2018
As of March 31, 2014, the Parent Company's 8³/₈% Senior Notes due 2020 and 8³/₄% Senior Subordinated Notes due 2018 are guaranteed by the following subsidiaries: Cincinnati Bell Entertainment Inc., Cincinnati Bell Any Distance Inc., Cincinnati Bell Telecommunications Services LLC, Cincinnati Bell Wireless LLC, CBTS Software LLC, Cincinnati Bell Technology Solutions Inc., Cincinnati Bell Any Distance of Virginia LLC, eVolve Business Solutions LLC, Data Center Investments Inc., Data Center Investments Holdco LLC, Data Centers South Inc. and Data Centers South Holdings LLC.

The Parent Company owns directly or indirectly 100% of each guarantor and each guarantee is full and unconditional and joint and several. In certain customary circumstances, a subsidiary may be released from its guarantee obligation. These circumstances are defined as follows:

- upon the sale of all of the capital stock of a subsidiary,
- if the Company designates the subsidiary as an unrestricted subsidiary under the terms of the indentures, or
- if the subsidiary is released as a guarantor from the Company's Corporate Credit Agreement.

The Parent Company's subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company's debt service obligations. The following information sets forth the Condensed Consolidating Statements of Operations and Comprehensive Income (Loss) for the three months ended March 31, 2014 and 2013, Condensed Consolidating Balance Sheets as of March 31, 2014 and December 31, 2013, and Condensed Consolidating Statements of Cash Flows for the three months ended March 31, 2014 and 2013 of (1) the Parent Company, as the issuer, (2) the guarantor subsidiaries on a combined basis, and (3) the non-guarantor subsidiaries on a combined basis.

Cincinnati Bell Inc.

12. Subsequent Events

On April 6, 2014, we entered into agreements to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets valued at approximately \$210 million. The agreements are subject to customary closing conditions, including regulatory approval by the Federal Communications Commission. We plan to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses. Effective April 30, 2014, we shortened the useful life of the wireless assets not being sold as part of the transaction.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Concerning Forward-Looking Statements

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein contain forward-looking statements regarding future events and results that are subject to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, are statements that could be deemed forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "predicts," "projects," "intends," "plans," "believes," "seeks," "estimates," "continues," "endeavors" or variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of future financial performance, anticipated growth and trends in businesses, and other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned these forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause actual results to differ materially and adversely from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q and, in particular, the risks discussed under the caption "Risk Factors" in Part II, Item 1A, and those discussed in other documents the Company filed with the Securities and Exchange Commission ("SEC"). Actual results may differ materially and adversely from those expressed in any forward-looking statements. The Company undertakes no obligation to revise or update any forward-looking statements for any reason.

Introduction

This Management's Discussion and Analysis section provides an overview of Cincinnati Bell Inc.'s financial condition as of March 31, 2014, and the results of operations for the three months ended March 31, 2014 and 2013. This discussion should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and accompanying notes, as well as the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Results for interim periods may not be indicative of results for the full year or any other interim period.

Executive Summary

Segment results described in the Executive Summary and Consolidated Results of Operations sections are net of intercompany eliminations.

The Company is a full-service regional provider of entertainment, data and voice communications services over wireline and wireless networks, a provider of managed and professional information technology services, and a reseller of information technology ("IT") and telephony equipment. In addition, enterprise customers across the United States rely on Cincinnati Bell Technology Solutions Inc. ("CBTS"), a wholly-owned subsidiary, for efficient, scalable communication systems and end-to-end IT solutions.

On April 6, 2014, we entered into agreements valued at approximately \$210 million to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. The agreements are subject to customary closing conditions, including regulatory approval by the Federal Communications Commission. We plan to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses.

On a consolidated basis, revenue for the first quarter of 2014 totaled \$322.5 million. Revenue from our strategic products totaled \$101.0 million in 2014, up 24% compared to the same period in 2013, which more than offset declines from our legacy Wireline products and a declining postpaid Wireless subscriber base.

Operating income in 2014 was \$56.9 million, up from \$19.2 million in the prior year, primarily due to transaction related compensation incurred in the first quarter of 2013. In addition, growth in strategic products continues to increasingly offset the impact of legacy and wireless revenue declines.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

On January 24, 2013, we completed the initial public offering ("IPO") of CyrusOne, which owns and operates our former data center colocation business. CyrusOne conducts its data center business through CyrusOne LP, an operating partnership. Although we effectively own approximately 68% of CyrusOne through our ownership of its common stock and partnership units of CyrusOne LP, we no longer control its operations. Effective January 24, 2013, we no longer include the accounts of CyrusOne in our consolidated financial statements, but account for ownership in CyrusOne as an equity method investment. Due to the deconsolidation of CyrusOne, our results of operations for the period ending March 31, 2013 are not comparable to the current period.

We currently own approximately 1.9 million shares, or 8.3%, of CyrusOne's common stock and are a limited partner in CyrusOne LP, owning approximately 42.6 million, or 65%, of its partnership units. Commencing January 17, 2014, we are permitted to exchange the partnership units of CyrusOne LP into cash or shares of common stock of CyrusOne, as determined by CyrusOne, on a one-for-one basis based upon the fair value of a share of CyrusOne common stock, subject to certain limitations which restricted the volume of shares we were permitted to sell. On April 4, 2014, the registration statement filed by CyrusOne on March 24, 2014 became effective and eliminated all prior limitations restricting the volume of shares we are allowed to sell.

Consolidated Results of Operations

Service revenue was \$258.2 million during the three months ended March 31, 2014, down 5% compared to the prior year. The decrease was primarily due to the deconsolidation of CyrusOne subsequent to the completion of its IPO on January 24, 2013. Data center revenue was \$15.2 million for the first quarter of 2013 prior to the CyrusOne IPO. Excluding CyrusOne, service revenue increased \$2.9 million compared to a year ago. Strong demand for strategic products resulted in a \$4.4 million increase in wireline service revenue. Information Technology ("IT") service revenue increased by \$6.0 million in the three months ended March 31, 2014 as compared to the same period in 2013, due primarily to strong enterprise customer demand for managed and professional services. These increases were partially offset by wireless service revenue declining \$7.5 million from the prior year due to continued loss of postpaid subscribers.

Product revenue totaled \$64.3 million in the three months ended March 31, 2014, a \$9.1 million increase compared to the same period in 2013. Increased sales of telecommunications and IT hardware of \$10.3 million were partially offset by lower wireless handset and accessory sales.

Cost of services was \$106.3 million in the three months ended March 31, 2014 compared to \$109.2 million in the same period of the prior year, which included CyrusOne cost of services totaling \$4.6 million. Excluding CyrusOne, cost of services increased \$1.7 million to support the growth in our strategic products. Wireless cost of services was down \$2.2 million as a result of a declining subscriber base.

Cost of products sold was \$59.9 million in the three months ended March 31, 2014 compared to \$53.2 million in the same period in 2013. The increase in 2014 primarily reflects increased sales of telecommunications and IT hardware, which drove an \$8.8 million increase in cost of products sold. This increase was partially offset by a \$2.2 million reduction in wireless cost of products sold due to decreased handset and accessory sales.

Selling, general and administrative ("SG&A") expenses were \$55.4 million in the three months ended March 31, 2014, up 4%, compared to a year ago. CyrusOne SG&A expenses were \$2.4 million in the three months ended prior to the IPO. Excluding CyrusOne, SG&A expenses increased \$4.7 million compared to the prior year. Corporate costs were up \$6.0 million from the prior year primarily as a result of recognizing a \$5.6 million gain in the first quarter of 2013 for compensation plans indexed to changes in our stock price. IT Services and Hardware SG&A expenses were up \$1.3 million primarily due to an increase in commissions associated with increased hardware sales. Wireless SG&A expenses were down \$2.1 million as a result of cost-out initiatives as we continue to focus on operating the segment for cash flow and profitability. Wireline SG&A costs were \$30.5 million in the first quarter of 2014, down \$0.5 million from the prior year.

Depreciation and amortization totaled \$46.9 million in the three months ended March 31, 2014, down \$3.7 million from the same period in 2013. CyrusOne depreciation and amortization of \$5.2 million is included in the first quarter of 2013 for costs prior to the IPO. Excluding CyrusOne, depreciation and amortization increased \$1.5 million compared to the prior year due to new assets placed in service as we expand our fiber network. In the fourth quarter of

2013, we reduced the useful life of all our wireless long-lived assets, excluding the spectrum licenses, to 30 months due to the continued decline in our subscriber base. This change resulted in an additional depreciation expense of approximately \$9 million in the first quarter of 2014. During the first quarter of 2013, we changed the estimated useful life assigned to network software which resulted in a one-time depreciation charge of \$8.5 million partially offsetting the increase resulting from changing our estimated useful life in the fourth quarter of 2013.

Transaction-related compensation of \$35.5 million in the three months ended March 31, 2013 was associated with the IPO of CyrusOne which was completed on January 24, 2013. In 2010, the Company's Board of Directors approved a long-term incentive program for certain members of management under which payments were contingent upon the completion of a qualifying transaction and attainment of an increase in the equity value of the data center business, as defined in the plan. The completion of the IPO during 2013 resulted in a qualifying transaction requiring payment of compensation to the employees covered under this plan. No such transaction-related compensation occurred in the first quarter of 2014.

Restructuring charges were \$2.6 million in the three months ended March 31, 2013, with no such charges in 2014. Charges incurred in 2013 were comprised of \$1.7 million of expenses related to lease abandonments and \$0.9 million incurred for third party consultant costs associated with workforce optimization initiatives.

During the first quarter of 2014, the Company recognized a nominal amount of gain on the sale of copper cabling in the Wireline segment that was offset by a loss on the sale of corporate assets. A loss on sale or disposal of assets of \$2.5 million was incurred in the three months ended March 31, 2013, primarily attributable to \$3.3 million of wireless network equipment removed from service due to upgrades. This equipment had no resale market and was either disconnected from the wireless network, abandoned or demolished. This loss was partially offset by a gain of \$0.8 million recognized from sales of copper cabling in the Wireline segment.

The amortization of the deferred gain for the three months ended March 31, 2014 totaled \$3.6 million, up from \$0.6 million for the same period in 2013. The change in the useful life of our long-lived wireless assets, excluding the spectrum licenses, resulted in the acceleration of the amortization of the deferred gain in the first quarter of 2014. In December 2009, the Company sold 196 wireless towers for \$99.9 million in cash proceeds and leased back a portion of the space on these towers for a term of 20 years, which resulted in a deferred gain of \$35.1 million.

Transaction costs were \$0.7 million in the three months ended March 31, 2014, compared to \$0.4 million in the same period in 2013. Transaction costs in 2014 represented legal fees associated with the pending sale of our wireless assets. Transaction costs in 2013 represent legal and consulting costs incurred to restructure our legal entities in preparation for CyrusOne's IPO and to prepare CyrusOne to be a real estate investment trust.

Interest expense was \$40.3 million in the three months ended March 31, 2014 compared to \$47.9 million in the same period of 2013. The decrease was primarily due to the Company amending its Corporate Credit Agreement to include a \$540 million Tranche B Term Loan facility with a 4.0% interest rate at March 31, 2014. The proceeds from the facility were used to redeem all of the Company's higher coupon \$500 million 8 1/4% Senior Notes on October 15, 2013. In addition, the deconsolidation of CyrusOne resulted in a \$2.5 million decrease in interest expense as we no longer have any obligations related to its indebtedness.

Income from CyrusOne equity method investment of \$0.5 million in the three months ended March 31, 2014 represents the Company's share of CyrusOne's net income which, effective with the IPO date of January 24, 2013, is recorded on the equity method. In the first quarter of 2013, there was a loss of \$1.9 million related to the Company's share of CyrusOne's net loss.

Income tax expense for the three months ended March 31, 2014 was \$9.5 million compared to \$6.4 million in the same period in 2013. The increase in tax expense was due primarily to higher pre-tax income and a projected higher effective tax. In addition, during the three months ended March 31, 2013, a valuation allowance provision of \$10.7 million was required for Texas margin credits which, effective with CyrusOne's IPO, are uncertain of being realized before their expiration date.

For 2014, the Company expects its effective tax rate to be higher than statutory rates. The Company expects to use federal and state net operating loss carryforwards to substantially defray payment of federal and state tax liabilities in 2014.

Form 10-Q Part I

Cincinnati Bell Inc.

Wireline

The Wireline segment provides products and services such as data transport and high-speed internet, local voice, long distance and VoIP, entertainment, and other services. Cincinnati Bell Telephone Company LLC (CBT), a subsidiary of the Company, is the Incumbent Local Exchange Carrier (ILEC) for a geography that covers a radius of approximately 25 miles around Cincinnati, Ohio, and includes parts of northern Kentucky and southeastern Indiana. CBT has operated in this territory for more than 140 years. Voice and data services beyond its ILEC territory, particularly in Dayton and Mason, Ohio, are provided through the operations of Cincinnati Bell Extended Territories LLC ("CBET"), a competitive local exchange carrier ("CLEC") and subsidiary of CBT. The Company provides long distance and VoIP services primarily through its Cincinnati Bell Any Distance Inc. ("CBAD") and eVolve Business Solutions LLC ("eVolve") subsidiaries.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Wireline, continued

Revenue

Data revenue consists of Fioptics and DSL internet access, data transport and interconnection services. Data revenue was \$83.0 million for the three months ended March 31, 2014, up \$4.9 million, compared to the same period in 2013. Strategic data revenue was \$35.1 million in 2014, up \$7.6 million compared to the prior year. Revenue from Fioptics internet services increased to \$9.6 million in 2014, up from \$5.9 million in the prior year due to a 51% increase in subscribers, after including approximately 7,000 high-speed internet subscribers not previously identified as Fioptics. Strategic business revenue totaled \$24.8 million, including Fioptics business revenue of \$0.9 million, up 12% compared to the prior year. Legacy data revenue was \$47.9 million in 2014, down \$2.7 million compared to the prior year. This is primarily due to our business customers migrating to higher bandwidth data transport products and an 11% decline in our legacy DSL subscriber base.

Voice local service revenue includes local service, digital trunking, switched access and information services and other value-added services such as caller identification, voicemail, call waiting and call return. Voice local service revenue was \$53.1 million in the three months ended March 31, 2014, down \$6.4 million, compared to the same period in 2013. Strategic voice service revenue was \$4.5 million in 2014, up \$0.4 million compared to 2013, primarily due to the increase in Fioptics voice lines. Legacy voice service revenue was \$46.9 million in 2014, down \$6.7 million compared to 2013. The decrease in revenue is primarily due to fewer local access lines compared to a year ago, as total access lines decreased by 8%. The segment continues to lose access lines as a result of, among other factors, customers electing to solely use wireless service in lieu of traditional local wireline service, Company-initiated disconnections of customers with credit problems and customers electing to use service from other providers.

Long distance and VoIP revenue was \$26.9 million in the three months ended March 31, 2014, consistent with the same period in 2013. Strategic revenue was \$13.8 million in 2014, up \$1.4 million compared to the prior year, due largely to growth in VoIP services. Legacy revenue was \$12.3 million in 2014, a decrease of \$1.1 million compared to 2013. As of March 31, 2014, long distance subscriber lines were 386,900, a 6% decrease from a year ago due to both consumer and business customers migrating to VoIP or wireless services. The remaining decrease is due to a decrease in integration revenue.

Entertainment revenue was \$17.0 million in the three months ended March 31, 2014, up \$5.0 million, compared to the same period in 2013, driven by a 35% increase in the number of Fioptics video subscribers. As of March 31, 2014, the segment had 77,500 Fioptics video subscribers. The Company continues to expand its Fioptics service area as there is a strong consumer demand for this service.

Costs and Expenses

Cost of services and products was \$71.9 million in the three months ended March 31, 2014, an increase of \$0.7 million compared to the same period in 2013. Contributing to the increase was \$4.1 million of higher costs primarily associated with increased Fioptics programming expenses resulting from a growing subscriber base and higher rates. This increase was offset by \$3.4 million of lower payroll costs driven by a reduction in pension and post-retirement expense.

SG&A expenses were \$31.1 million in the three months ended March 31, 2014, consistent with the same period in 2013, as decreased pension and post-retirement expenses were offset by increased costs to support the growth of our strategic products.

Depreciation and amortization was \$28.1 million in the three months ended March 31, 2014, an increase of \$1.3 million compared to a year ago. Assets placed in service in connection with the expansion of our Fioptics network drove the higher depreciation expense in 2014.

Restructuring charges of \$1.4 million in the three months ended March 31, 2013 were associated with our remaining obligations on abandoned leases. There were no such charges in 2014. The gain on sale of assets of \$0.1 million in 2014 and \$0.8 million in 2013 is associated with the sale of copper cabling that was no longer in use.

Form 10-Q Part I

Cincinnati Bell Inc.

Wireline, continued

Capital Expenditures

Capital expenditures are incurred to expand our Fioptics product suite, upgrade our DSL network, and to maintain our network. Capital expenditures were \$26.2 million for the three months ended March 31, 2014, a decrease of \$7.6 million compared to the same period in 2013, primarily due to timing. As of March 31, 2014, the Company is able to provide its Fioptics services to 288,000 residential and business addresses.

Cincinnati Bell Inc.

IT Services and Hardware

The IT Services and Hardware segment provides a full range of managed IT solutions, including managed infrastructure services, IT and telephony equipment sales, and professional IT staffing services. These services and products are provided in multiple geographic areas including locations in the U.S., Canada and Europe. By offering a full range of equipment and outsourced services in conjunction with the Company's wireline network, the IT Services and Hardware segment provides end-to-end IT and telecommunications infrastructure management designed to reduce cost and mitigate risk while optimizing performance for its customers.

(dollars in millions)	Three Months Ended March 31,				
	2014	2013	Change	% Change	
Revenue:					
Telecom and IT equipment distribution	\$67.9	\$56.9	\$11.0	19	%

Capital expenditures	\$2.5	\$1.2	\$1.3	n/m	

Revenue

Revenue from telecom and IT equipment distribution represents the sale, installation, and maintenance of major, branded IT and telephony equipment. Managed and professional services revenue consists of managed VoIP solutions and IT services that include network management, electronic data storage, disaster recovery and data security management, as well as both long and short-term IT outsourcing and consulting engagements.

Strategic managed and professional services revenue totaled \$32.9 million for the three months ended March 31, 2014, up \$5.8 million from the prior year due largely to increased services for one of our largest customers and additional staff augmentation resources. Integration revenue totaled \$69.0 million, up \$11.6 million from 2013. The increase is due to increased telecom and IT equipment distribution revenue reflecting the cyclical fluctuation in capital spending by our enterprise customers which may be influenced by many factors, including the timing of customers' capital spend, the size of their capital budgets, and general economic conditions.

Costs and Expenses

Cost of services and products was \$81.7 million in the three months ended March 31, 2014, an increase of \$12.3 million compared to the same period in 2013. The increase was largely driven by increased cost of goods sold related to higher equipment sales and increased payroll costs incurred to support the growth in managed and professional services.

SG&A expenses were \$12.0 million in the three months ended March 31, 2014, up 12% compared to the prior year, largely due to increased sales commissions associated with revenue growth.

Capital Expenditures

Capital expenditures were \$2.5 million in the three months ended March 31, 2014 compared to \$1.2 million in the prior year. Capital expenditures were higher in 2014 due to increased advanced security and managed services projects in 2014.

Form 10-Q Part I

Cincinnati Bell Inc.

Wireless

The Wireless segment provides digital voice and data communications services through the operation of a regional wireless network in the Company's licensed service territory, which surrounds Cincinnati and Dayton, Ohio and includes areas of northern Kentucky and southeastern Indiana. Although Wireless does not market to customers outside of its licensed service territory, it is able to provide service outside of this territory through roaming agreements with other wireless operators. The segment also sells wireless handset devices and related accessories to support its service business.

On April 6, 2014, we entered into agreements valued at approximately \$210 million to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. The agreements are subject to customary closing conditions, including regulatory approval by the Federal Communications Commission. We plan to continue to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses.

Prepaid subscribers (in thousands)	136.2	148.7	(12.5)	(8)%
Average postpaid churn	2.8%	2.6%		0.2 pts

The Company has presented certain information regarding monthly average revenue per user ("ARPU") because it

* believes ARPU provides a useful measure of the operational performance of its Wireless segment. ARPU is calculated by dividing service revenue by the average subscriber base for the period.

Revenue

Postpaid service revenue was \$30.6 million in the three months ended March 31, 2014, a decrease of 18% compared to prior year. The decrease was primarily due to continued declines in postpaid subscribers as a result of intense competitive pressure from larger national carriers. The decline in postpaid subscribers was partially offset by a 4% increase in postpaid ARPU. Data ARPU totaled \$20.86 in the three months ended March 31, 2014, up 12% compared to a year ago as smartphone subscribers accounted for 50% of our subscriber base compared to 42% as of March 31, 2013.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Wireless, continued

Prepaid service revenue totaled \$11.1 million for the first quarter of 2014, down \$0.7 million from the same period in 2013 due to an 8% decrease in our prepaid subscriber count. Prepaid ARPU for the three months ended March 31, 2014 was \$26.66, consistent with the prior year. Effective July 1, 2014, we will discontinue our lifeline program which included 37,300 subscribers as of March 31, 2014. For the first quarter of 2014, revenue from prepaid subscribers enrolled in the lifeline program totaled approximately \$3 million.

Equipment and other revenue in the three months ended March 31, 2014 was \$3.0 million, a decrease of \$1.0 million, compared to the same period in 2013, due primarily to continued postpaid subscriber losses which resulted in fewer activations and upgrades.

Costs and Expenses

Cost of services and products consists largely of network operation costs, interconnection expenses with other telecommunications providers, roaming expense (which is incurred for subscribers to use their handsets in the territories of other wireless service providers), and cost of handsets and accessories sold. Cost of services and products totaled \$19.5 million in the three months ended March 31, 2014, down 19%, compared to the prior year. The decrease was primarily due to \$2.2 million in lower costs as a result of fewer handsets and related accessory sales. Network related costs were down \$1.3 million from the prior year due to reduced roaming rates and lower network access expenses resulting from a reduced subscriber base. The remaining decrease is largely due to a \$0.9 million decrease in contract services and payroll expenses due to cost containment efforts.

SG&A expenses were \$7.7 million in the three months ended March 31, 2014, a decrease of \$2.1 million compared to the same period of 2013. Cost containment efforts led to a \$1.8 million reduction in payroll, advertising and sales and marketing costs. Bad debt expenses were also down \$0.3 million from the prior year.

Depreciation and amortization was \$15.8 million in the three months ended March 31, 2014, a decrease of \$0.2 million compared to the same period in 2013. In the fourth quarter of 2013, we reduced the useful life of all our long-lived assets, excluding the spectrum licenses, to 30 months due to the continued decline in our subscriber base. This change resulted in an additional depreciation expense of approximately \$9 million in the first quarter of 2014. During the first quarter of 2013, we changed the estimated useful life assigned to network software which resulted in a one-time depreciation charge of \$8.5 million partially offsetting the increase resulting from changing our estimated useful life in the fourth quarter of 2013. The remaining year-over-year decrease in depreciation expense is primarily related to the closing of a retail store in 2013.

Loss on sale or disposal of assets was \$3.3 million in the three months ended March 31, 2013, largely the result of wireless network equipment that was removed from service. This equipment had no resale market and had either been disconnected from the existing wireless network, abandoned or demolished. No such losses were incurred during the same period in 2014.

The amortization of the deferred gain for the three months ended March 31, 2014 totaled \$3.6 million, up from \$0.6 million for the same period in 2013. The change in the useful life of our long-lived wireless assets, excluding the spectrum licenses, resulted in the acceleration of the amortization of the deferred gain in the first quarter of 2014. In December 2009, the Company sold 196 wireless towers for \$99.9 million in cash proceeds, and leased back a portion of the space on these towers for a term of 20 years, which resulted in a deferred gain of \$35.1 million.

Based on the agreements to sell our wireless spectrum licenses and certain other assets related to our wireless business, we shortened the useful life of the wireless assets not being sold as part of the transaction. The change in the estimated useful life of the remaining property, plant and equipment is expected to increase depreciation expense by approximately \$45 million for 2014. The change will also accelerate the amortization of the deferred gain for the tower leases not being assumed by the counterparty. This change is expected to result in approximately \$10 million of additional deferred gain amortization to be recognized in 2014.

Capital Expenditures

Capital expenditures of \$5.6 million in the three months ended March 31, 2014 were primarily for network software upgrades implemented to address the growing demand for data from our current customer base.

Form 10-Q Part I

Cincinnati Bell Inc.

Data Center Colocation

The Data Center Colocation segment provided enterprise customers with outsourced data center operations, including necessary redundancy, security, power, cooling, and interconnection. Upon completion of the IPO of CyrusOne on January 24, 2013, we no longer control the operations of CyrusOne and account for our investment in CyrusOne on the equity method. For the three months ended March 31, 2013, revenues and expenses represent revenues earned and operating expenses incurred during the period January 1, 2013 to January 23, 2013 when CyrusOne's results were included in our consolidated financial statements.

(dollars in millions)	Three Months Ended March 31,			
	2014	2013	Change	% Change
Revenue	\$—	\$15.6	\$(15.6)) n/m
Operating costs and expenses:				
Cost of services	—	4.8	(4.8)) n/m
Selling, general and administrative	—	2.4	(2.4)) n/m
Depreciation and amortization	—	5.2	(5.2)) n/m
Total operating costs and expenses	—	12.4	(12.4)) n/m
Operating income	\$—	\$3.2	\$(3.2)) n/m
Operating margin		20.5	%	n/m
Capital expenditures	\$—	\$7.7	\$(7.7)) n/m

Data Center Colocation revenues, operating expenses and operating income for the three months ended March 31, 2014 are not comparable to the similar period in 2013 as we no longer include CyrusOne's results in our consolidated financial statements after its IPO, completed on January 24, 2013.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Financial Condition, Liquidity, and Capital Resources

As of March 31, 2014, the Company had \$2,256.2 million of outstanding indebtedness and an accumulated deficit of \$3,256.5 million. A significant amount of the Company's indebtedness and accumulated deficit resulted from the purchase and operation of a national broadband business, which was sold in 2003.

The Company's primary source of cash is generated by operations. The Company generated \$37.8 million and \$42.3 million of cash flows from operations during the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, the Company had \$166.7 million of short-term liquidity, comprised of \$4.2 million of cash and cash equivalents and \$162.5 million of undrawn capacity on our Corporate Credit Agreement.

As of March 31, 2014, the Company had \$104.6 million of borrowings and \$5.2 million of letters of credit outstanding under the Receivables Facility, leaving no remaining availability on the total borrowing capacity of \$109.8 million.

The Receivables Facility is subject to renewal annually. While we expect to continue to renew this facility, we would be required to use cash, our Corporate Credit Agreement or other sources to repay any outstanding balance on the Receivables Facility if it were not renewed.

The Company's primary uses of cash are for capital expenditures and debt service and, to a lesser extent, to fund pension and retiree medical obligations and preferred stock dividends. The Company believes that its cash on hand, cash generated from operations, and available funding under its credit facilities will be adequate to meet its cash requirements in 2014. In addition, management expects that the Company will continue to have access to the capital markets to refinance debt and other obligations should such a need arise in the near future.

As of March 31, 2014, the fair value of our ownership interests in CyrusOne was \$926.5 million. Commencing January 17, 2014, we are permitted to exchange the partnership units of CyrusOne LP into cash or shares of common stock of CyrusOne, as determined by CyrusOne, on a one-for-one basis based upon the fair value of a share of CyrusOne common stock, subject to certain limitations which restricted the volume of shares we were permitted to sell. On April 4, 2014, the registration statement filed by CyrusOne on March 24, 2014 became effective and eliminated all prior limitations restricting the volume of shares we are allowed to sell.

We intend to sell down the Company's ownership interest in CyrusOne and use the proceeds to primarily repay long-term debt to achieve leverage ratios more comparable to other telecommunication companies and for other general corporate purposes. Our amended Corporate Credit Agreement obligates us to use 85% of the proceeds from any sales of CyrusOne towards debt repayments.

Cash Flows

Cash provided by operating activities during the three months ended March 31, 2014 totaled \$37.8 million, a decrease of \$4.5 million compared to the same period in 2013. The cash provided by operating activities is lower in 2014 primarily due to the deconsolidation of CyrusOne and the timing of interest payments compared to a year ago. These decreases were partially offset by improved cash flows from increased revenue.

Cash flows used in investing activities during the three months ended March 31, 2014 was \$25.3 million, a decrease of \$36.6 million compared to the same period in 2013. This decrease was primarily due to the deconsolidation of CyrusOne, which increased cash used in investing activities by \$19.5 million for the period January 1, 2013 through January 23, 2013. Excluding CyrusOne, capital expenditures were down \$8.9 million from the prior year largely due to timing of payments. Proceeds from the sale of assets totaled \$1.9 million in the first quarter of 2014, up \$1.1 million from the prior year. Dividends received from CyrusOne in the first quarter of 2014 were \$7.1 million, with no dividends being received in the first quarter of 2013.

Cash flows used in financing activities during the three months ended March 31, 2014 were \$12.9 million, compared to cash provided by financing activities of \$1.1 million during the same period in 2013. In the first quarter of 2014, we repaid \$4.1 million of the outstanding balances on the Corporate Credit Agreement and Receivables Facility as opposed to borrowings of \$2.0 million in the same period a year ago. In addition, debt repayments totaled \$5.2 million in the current quarter, an increase of \$2.1 million from the prior year. The Company also cash settled 1.7 million warrants in the first quarter of 2013 and received \$5.1 million of cash proceeds. All outstanding warrants were exercised as of March 31, 2013.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Debt Covenants

Corporate Credit Agreement

The Corporate Credit Agreement contains financial covenants that require we maintain certain leverage and interest coverage ratios and limits our capital expenditures on an annual and aggregate basis. The Corporate Credit Agreement also contains certain covenants which, among other things, limit the Company's ability to incur additional debt or liens, pay dividends, repurchase Company common stock, sell, transfer, lease, or dispose of assets, and make certain investments or merge with another company. If the Company was to violate any of its covenants and was unable to obtain a waiver, it would be considered a default. If the Company were in default under its Corporate Credit Agreement, no additional borrowings under the Corporate Credit Agreement would be available until the default was waived or cured. As of March 31, 2014, the Company was in compliance with all of the covenants under the Corporate Credit Agreement.

The Company's most restrictive covenants are generally included in its Corporate Credit Agreement. In order to continue to have access to the amounts available to it under the Corporate Credit Agreement, the Company must remain in compliance with all of the covenants. The following table presents the calculations of the most restrictive debt covenant, the Consolidated Total Leverage Ratio, as of and for the twelve month period ended March 31, 2014: (dollars in millions)

Consolidated Total Leverage Ratio as of March 31, 2014	5.62
Maximum ratio permitted for compliance	6.50
Consolidated Funded Indebtedness additional availability	\$353.6
Consolidated EBITDA clearance over compliance threshold	\$54.4

Definitions and components of these calculations are detailed in our Corporate Credit Agreement and can be found in the Company's Form 8-K filed on September 10, 2013.

The Company's ability to make restricted payments, which include share repurchases and common stock dividends, is limited to a total of \$15 million given that our Consolidated Total Leverage Ratio, as defined in the Corporate Credit Agreement, exceeds 3.50 to 1.00 as of March 31, 2014. The Company may make restricted payments of \$45 million annually when the Consolidated Total Leverage Ratio is less than or equal to 3.50 to 1.00. There are no dollar limits on restricted payments when the Consolidated Total Leverage Ratio is less than or equal to 3.00 to 1.00. These restricted payment limitations do not impact the Company's ability to make regularly scheduled dividend payments on its 6 3/4% Cumulative Convertible Preferred Stock. Furthermore, the Company may make restricted payments in the form of share repurchases or dividends up to 15% of CyrusOne sale proceeds, subject to a \$35 million annual cap with carryovers.

The Corporate Credit Agreement provides that the Tranche B Term Loan participates in mandatory prepayments subject to the terms and conditions, including with respect to payment priority, set forth in the Corporate Credit Agreement. In addition, the Corporate Credit Agreement provides that 85%, rather than 100%, of proceeds from a CyrusOne monetization are applied to mandatory payments under the Corporate Credit Agreement, subject to terms and conditions set forth therein.

Public Bond Indentures

The Company's public debt, which includes the 8³/₄% Senior Subordinated Notes due 2018 and the 8³/₈% Senior Notes due 2020, contain covenants that, among other things, limit the Company's ability to incur additional debt or liens, pay dividends or make other restricted payments, sell, transfer, lease, or dispose of assets and make investments or merge with another company. The Company is in compliance with all of its public debt indentures.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

One of the financial covenants permits the issuance of additional indebtedness up to a 4:00 to 1:00 Consolidated Adjusted Senior Debt to EBITDA Ratio (as defined by the individual indentures). As of March 31, 2014, the Company exceeded this ratio. The Company is not in default under the terms of the indentures; however, additional indebtedness may only be incurred in specified permitted baskets, including baskets which allow \$900 million of total Credit Agreement debt (Revolver and Term Loans). We also have baskets for capital lease incurrences, borrowings against the Accounts Receivable Facility, refinancings of existing debt, and other debt incurrences. Management believes these basket allowances are sufficient to accommodate normal business operations. Also, the Company's ability to make restricted payments, which include share repurchases and common stock dividends, is limited to specific allowances. In addition to a \$25 million cumulative general allowance, the Company is permitted to make dividend payments on its 6 ³/₄% Cumulative Convertible Preferred Stock and may repurchase up to \$10 million of its common stock per year. Except for the \$25 million cumulative general allowance, no other allowances are available for common stock dividend payments. The Company does not believe that this limitation will have a material impact on its operations, liquidity or cash flows in the foreseeable future. When the Company is able to meet this ratio in the future, the aforementioned restrictions on debt incurrence and restricted payments will lapse and the company will have access to its restricted payments basket, which exceeds \$300 million as of March 31, 2014.

Management believes that cash on hand, operating cash flows, its Corporate Credit Agreement and its Receivables Facility, and the expectation that the Company will continue to have access to capital markets to refinance debt and other obligations as they mature and come due, should allow the Company to meet its cash requirements for the foreseeable future.

Share Repurchase Plan

In 2010, the Board of Directors approved a plan for the repurchase of the Company's outstanding common stock in an amount up to \$150.0 million. In prior years, the Company repurchased and retired a total of 7.4 million shares at a total cost of \$20.8 million. The Company did not repurchase any additional shares in the first quarter of 2014. As of March 31, 2014, the Company has the authority to repurchase its common stock with a value of up to \$129.2 million under the plan approved by its Board of Directors, subject to satisfaction of the requirements under its bond indentures.

Regulatory Matters

Refer to the Company's Annual Report on Form 10-K for the year ended 2013 for a complete description of regulatory matters.

Contingencies

In the normal course of business, the Company is subject to various regulatory and tax proceedings, lawsuits, claims, and other matters. The Company believes adequate provision has been made for all such asserted and unasserted claims in accordance with accounting principles generally accepted in the United States. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

Future Operating Trends

Refer to the Company's Annual Report on Form 10-K for the year ended 2013 for a complete description of future operating trends for our business.

Wireless

On April 6, 2014, we entered into agreements to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. We plan to continue to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses.

Effective July 1, 2014, we will discontinue our lifeline program which included 37,300 subscribers as of March 31, 2014. For the first quarter of 2014, revenue from prepaid subscribers enrolled in the lifeline program totaled approximately \$3 million.

Form 10-Q Part I

Cincinnati Bell Inc.

Critical Accounting Policies

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Application of these principles requires management to make estimates or judgments that affect the amounts reported in the accompanying condensed consolidated financial statements and information available as of the date of the financial statements. As this information changes, the financial statements could reflect different estimates or judgments. The Company's most critical accounting policies and estimates are described in its Annual Report on Form 10-K for the year ended December 31, 2013. Updates to our critical accounting policies are described below:

Reviewing the Carrying Values of Long-Lived Assets - Management reviews the carrying value of long-lived assets, other than goodwill and indefinite-lived intangible assets, when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. An impairment loss is recognized when the estimated future undiscounted cash flows expected to result for the use of an asset (or group of assets) and its eventual disposition is less than its carrying amount. An impairment loss is measured as the amount by which the asset's carrying value exceeds its estimated fair value.

On April 6, 2014, we entered into agreements valued at approximately \$210 million to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. The agreements are subject to customary closing conditions, including regulatory approval by the Federal Communications Commission. We plan to continue to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses. We performed step one of the impairment test using cash flow projections from the sale of our wireless spectrum licenses and certain other assets related to our wireless business. We also considered the cash flow we expect to generate from operating the business less any one-time expenses associated with winding down operations and decommissioning the network. As the forecasted cash flows exceeded the carrying value of this asset group, no impairment loss was recognized in the first quarter of 2014.

Recently Issued Accounting Standards

Refer to Note 1 of the Condensed Consolidated Financial Statements for further information on recently issued accounting standards. The adoption of new accounting standards did not have a material impact on the Company's financial results for the three months ended March 31, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a description of the Company's market risks.

Item 4. Controls and Procedures**(a) Evaluation of disclosure controls and procedures.**

Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in SEC Rule 13-a-15(e)) as of the end of the period covered by this report. Based on this evaluation, Cincinnati Bell Inc.'s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, such controls and procedures were effective.

(b) Changes in internal control over financial reporting.

Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated any changes in the Company's internal control over financial reporting that occurred during the first quarter of 2014 and have concluded that there were no changes to Cincinnati Bell Inc.'s internal control over financial reporting during the first quarter of 2014 that materially affect, or are reasonably likely to materially affect, Cincinnati Bell Inc.'s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Cincinnati Bell and its subsidiaries are involved in a number of legal proceedings. Liabilities are established for legal claims when losses associated with the claims are judged to be probable, and the loss can be reasonably estimated. In many lawsuits and arbitrations, including most class action lawsuits, it is not possible to determine whether a liability has been incurred or to estimate the amount of the liability until the case is close to resolution, in which case a liability will not be recognized until that time. Based on information currently available, consultation with counsel, available insurance coverage and recognized liabilities, the Company believes that the eventual outcome of all claims will not, individually or in the aggregate, have a material effect on the Company's financial position or results of operations.

Item 1A. Risk Factors

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a comprehensive listing of the Company's risk factors. There are no material changes for the period ending March 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three month period ended March 31, 2014, the Company had no unregistered sales of equity securities. The Company also had no purchases of its common stock for the quarter ended March 31, 2014.
