REPORT OF INDEPENDENT AUDITORS

SBC Communications Inc., Plan Administrator
for the SBC Savings Plan

We have audited the accompanying statements of net assets available for benefits of SBC Savings Plan for the years ended December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. The financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. We plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the SBC Savings Plan at December 31, 2002 and 2001, and the changes in its net assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. Supplemental schedules of assets (held at end of year) as of December 31, 2002 and nonexempt transactions presented for purposes of additional analysis and are not a required part of the financial statements. The supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

SBC SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
(Dollars in Thousands)

1. Plan Description - The Plan was established by SBC Communications Inc. (SBC or the Company)

eligible employees to save for retirement on a regular and long-term basis. The following is general information. The SBC Savings Plan (Plan) has detailed provisions covering participant allotments from pay, participant withdrawals, participant loans, employer contributions and Plan expenses. The Plan text and prospectus include complete descriptions of these and other subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2000, SBC entered into the Cingular Wireless (Cingular) joint venture agreement with Bell. Under this agreement, certain SBC employees were leased to Cingular. In December 2001 these employees. During 2002 the Plan transferred approximately \$73,141 to State Street Bank and Trust related to employees who became employees of Cingular.

Participants can invest their contributions in one or more of the following funds in 1% increments: the Small Cap Stock Fund, the Large Cap Stock Fund, the Interest Income Fund, the Asset Allocation Fund, the Global Stock Fund and the International Stock Fund.

Company matching contributions are made solely in the form of shares of SBC's common stock held in the Plan (ESOP) which is a separate investment account of this Plan.

The Plan prefunded the ESOP by borrowing Guaranteed Salaried Employees' ESOP Notes, the repayment of which is guaranteed by SBC. These notes were paid in full during 2002. Funds borrowed by the Plan were used to purchase shares held in the open market (Financed Shares), which acted as collateral for reimbursement to SBC. The SBC guarantee of the ESOP Notes. Dividends on Financed Shares and employer cash contributions were used to pay required principal and interest payments on the ESOP Notes. As the ESOP Notes were paid down, the collateral was sold from the collateral. The Financed Shares were allocated to participants' accounts in the form of a contribution. In lieu of dividends on Financed Shares previously allocated to participants, the proceeds were allocated to participants' accounts.

In 1994 and 1996, the Plan entered into separate agreements with the Company to lend the Plan money (Refinancing Notes), respectively. The Refinancing notes were paid in full during 2002. The interest rates on the December 31, 2001 ranged from 5.56% to 8.44%.

Dividends on shares in the SBC Shares Fund and the ESOP can either be reinvested in the SBC Shares Fund or paid into a separate fund known as a Dividend Fund Account (DFA) for distribution at the end of the year. Dividends held in the DFA will be paid into the SBC Shares Fund. During 2002, Plan participants received dividend distributions. This amount is included in distributions on the statement of change in net assets.

Although it has not expressed any intent to do so, SBC has the right under the Plan to discontinue the Plan and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan is terminated under the conditions set forth by ERISA, the account balances of all participants shall be 100% vested.

2. Accounting Policies - The values of investments are determined as follows: SBC common shares

price as reported on the New York Stock Exchange; contracts with insurance companies and other investments at fair value; principal plus reinvested interest which approximates fair value; common collective trust funds managed by investment managers; and temporary cash investments at cost which approximates fair value. Purchases are recorded as of the trade date. Dividend income is recognized on the ex-dividend date. Interest earned on investments is recorded on the accrual basis.

Edgar Filing: SBC COMMUNICATIONS INC - Form 11-K

The accompanying financial statements were prepared in conformity with accounting principles in the United States, which require management to make estimates that affect the amounts reported in the financial statements and notes. Actual results could differ from those estimates.

3. Investments - Investments representing 5% or more of Plan net assets at either December 31, 2002

During 2002, the Plan's investments (including gains and losses on investments bought and sold) were depreciated in value as follows:

Common Stock	\$ (1,048,594)
Common Collective Trusts	(389,723)

Total	\$ (1,438,317)
	=====

The Interest Income Fund consists of contracts with various financial institutions and insurance companies. The contracts provide for the payment of principal plus accrued income at contract maturity, subject to the creditworthiness of the issuer. The contracts are generally established when the contract is purchased and are not reset. For the years ended December 31, 2002 and 2001, the average interest rates earned on these contracts were 5.59% and 6.41%. At December 31, 2002, the interest rates on these contracts ranged from 2.83% to 7.65%. At December 31, 2001, the fixed crediting rates on these contracts ranged from 3.76% to 7.65%. No valuation reserves were recorded to adjust contract amounts.

The Interest Income Fund invests in both guaranteed investment contracts (GICs) and synthetic GICs. Synthetic GICs differ from GICs in that the assets supporting the SICs are owned by the Plan. A bank or insurance company issues a contract that allows participant directed transactions to be made at contract value. Wrapper contracts are subject to a difference between the fair value of the supporting assets and the contract value. The assets supporting the wrapper contracts generally consist of high quality fixed income securities with a fair value of \$1,169,543 as of December 31, 2001.

The Plan provides for investments in various investment securities, which in general, are exposed to interest rate, credit, and overall market volatility risks. Due to the level of risk associated with these investment securities, it is reasonably possible that changes in the values of investment securities will occur. Such change could materially affect the amounts reported in the statements of net assets available for distribution to account balances.

	=====
Fair Value	82,042
	=====

The fair values of the ESOP Notes were estimated based on quoted prices. The fair value of based on discounted future cash flows using current interest rates.

6. Tax Status - The Plan has received a determination letter from the Internal Revenue Service -----
that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC and the plan sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualification.

On February 28, 2002, the Plan filed for, but has not yet received, a new tax determination letter reflecting legally required changes and other changes made to the Plan since the previous determination.

7. Reconciliation of Financial Statements to Form 5500 - The following is a reconciliation of Net Assets Available for Benefits per the financial statements to the Form 5500 as of December 31:
