Dear Fellow Shareholders,

The stock market made a strong recovery in the first half of 2003. Historically low interest rates, improving corporate earnings and government stimulus in the form of tax cuts gave investors hope that the economy would soon begin to strengthen. Most of the market's move up occurred in the second quarter, and the breadth of the rally was enormous. As a result, the major indexes were able to wipe out their first-quarter losses and post solid gains for the first six months of the year. With technology leading the way, the tech-heavy Nasdaq Composite Index rose 21.51% through June, the Dow Jones Industrial Average was up 9.02% and the Standard & Poor's 500 Index returned 11.75%. With falling interest rates, bonds also did well, continuing their upward trend for a fourth consecutive year. High yield bonds led the pack, returning 18.49% in the first half as measured by the Lehman High Yield Index.

After the jarring stock-market losses of the last three years, it's a welcome relief for investors to be reminded that the market is indeed cyclical, and does move up -- not just down. And mutual fund investors will finally like what they see in their second-quarter statements:

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

positive results. With the exception of bear funds, which bet on the market going down, every fund category tracked by Morningstar, Inc. and Lipper, Inc. posted double-digit gains in the quarter.

Whether this rally can be sustained depends in large part on whether the economy actually does rebound, and by how much, and how corporate earnings fare. It will also depend on how soon a lot of the investors still sitting on the sidelines decide to get back into the stock market.

No matter what happens next, the dramatic reversal in the stock market's fortunes, and other economic improvements, could be signals that it's time for investors to review their portfolios with their investment professionals to make sure they are well-positioned to meet their long-term investment objectives.

Sincerely,

/S/ MAUREEN R. FORD

Maureen R. Ford,  
Chairman and Chief Executive Officer

This commentary reflects the chairman's views as of June 30, 2003. They are subject to change at any time.

### YOUR FUND AT A GLANCE

The Fund seeks a high level of current income consistent with prudent investment risk by investing in a diversified portfolio of debt securities.

Over the last six months

- \* Bonds rallied amid lingering economic weakness and low inflation.
- \* Corporate bonds were the best performers, especially lower-quality bonds, followed by Treasury and mortgage-backed securities.
- \* The Fund added more lower-quality corporate bonds while reducing its position in mortgage-backed bonds.

[Bar chart with heading "John Hancock Income Securities Trust." Under the heading is a note that reads "Fund performance for the six months ended June 30, 2003." The chart is scaled in increments of 4% with 0% at the bottom and 8% at the top. The first bar represents the 7.76% total return for John Hancock Income Securities Trust. A note below the chart reads "The total return for the Fund is at net asset value with all distributions reinvested."]

### MANAGERS' REPORT

BY BARRY H. EVANS, CFA, AND JEFFREY N. GIVEN, CFA, PORTFOLIO MANAGERS

John Hancock  
Income Securities Trust

U.S. bonds posted moderate gains during the first six months of 2003. Bonds rallied thanks to a lethargic economy and low inflation, which led the Federal Reserve to cut short-term interest rates in June. It was the Fed's 13th rate cut since the beginning of 2001. Bonds also benefited from safe-haven demand early in the year as investors grew jittery about the impending war with Iraq. Bonds produced positive returns despite a sharp stock market rally, which attracted investor demand away from the bond market, and despite increased issuance by both corporations and the federal government. Corporate bonds, which typically offer the highest yields in the bond market, were the best performers. Treasury and other government bonds also fared well, while mortgage-backed securities lagged.

### FUND PERFORMANCE

For the six months ended June 30, 2003, John Hancock Income Securities Trust produced a total return of 7.76% at net asset value. The average closed-end BBB-rated corporate debt fund returned 10.26% according to Lipper, Inc., while the Lehman Brothers Government/Credit Bond Index returned 5.23%.

"U.S. bonds posted moderate gains during the first six months of 2003."

### PORTFOLIO THEMES

In the first six months of the 2003, there were two key themes in the portfolio, both of which carried over from the last half of 2002. The first was an emphasis on higher-yielding securities, such as corporate and mortgage-backed bonds. These bonds made up more than two-thirds of the portfolio throughout the six-month period. The other theme was lowering the overall credit quality of the portfolio by investing in lower-rated corporate bonds, which we thought offered the best relative values in the bond market.

[Photos of Barry Evans and Jeffrey Given flush right next to first paragraph.]

### CORPORATE BONDS ENHANCE PERFORMANCE

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

We increased our holdings of corporate bonds, which comprised more than half of the portfolio throughout the first half of 2003. With Treasury bond yields at their lowest levels in decades, many investors shifted into corporate bonds to capture higher yields. Lower-quality bonds, which offer the highest yields in the corporate market, attracted the most demand and produced the best returns. The Lehman Brothers High-Yield Corporate Index, an index of lower-rated bonds, returned nearly 20% in the first half of the year.

Another factor behind the outperformance of corporate bonds, especially lower-rated bonds, was a general trend toward improved fiscal responsibility. Many corporations have been reducing debt and shoring up their balance sheets in an effort to restore financial health and investor confidence.

Our focus on lower-rated corporate bonds was a key contributor to Fund performance. During the past six months, we reduced our exposure to mortgage-backed securities and added more lower-quality corporate bonds to the portfolio. In particular, we boosted our holdings of below-investment-grade bonds (also known as "high-yield" or "junk" bonds) from 15% to 20% of the portfolio. We also increased our position in corporate bonds rated BBB, the lowest investment-grade rating.

"Our focus on lower-rated corporate bonds was a key contributor to Fund performance."

### BOTTOM-UP APPROACH

In selecting corporate bonds for the portfolio, we use a bottom-up approach that evaluates potential investments on a company-by-company basis. The end result is a diversified portfolio of bonds from a variety of industries.

[Table at top left-hand side of page entitled "Top five sectors". The first listing is Government -- U.S. Agencies 22%, the second is Utilities 12%, the third Government -- U.S. 9%, the fourth Finance 8%, and the fifth Media 7%.]

For example, we recently added bonds issued by XM Satellite Radio, Dayton Power & Light and Sealed Air to the portfolio. XM provides commercial-free satellite radio services and has seen a sharp increase in subscriber growth, especially since General Motors began installing the service in many of its cars. Dayton is a Midwestern utility that we thought had better prospects than the market had priced into the value of its bonds. Sealed Air makes bubble wrap and other packaging products, and we believe this company is well positioned to benefit from an improving economy.

### MORTGAGES STRUGGLE

We were disappointed in the performance of our mortgage-backed securities during the past six months. In 2002, mortgage-backed securities underperformed other high-quality bonds as falling mortgage rates led to a significant refinancing boom. When mortgage rates hit record lows in late 2002, we sold some of our other high-quality bonds and bought mortgage-backed bonds, increasing our position to nearly 30% of the portfolio.

[Pie chart in middle of page with heading "Portfolio diversification As a

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

percentage of net assets on 6-30-03." The chart is divided into five sections (from top to left): Corporate bonds 58%, U.S. government & agency bonds 31%, Preferred stocks 9%, Foreign government bonds 1% and Short-term investments & other 1%.]

We expected mortgage-backed securities to outperform in a relatively stable interest rate environment. Unfortunately, mortgage rates continued to fall in the first half of 2003, triggering two additional refinancing waves in March and May. As a result, mortgages didn't perform as well as we anticipated, posting returns that were comparable to short-term Treasury bonds.

[Table at top of page entitled "SCORECARD". The header for the left column is "INVESTMENT" and the header for the right column is "PERIOD'S PERFORMANCE...AND WHAT'S BEHIND THE NUMBERS." The first listing is Telus followed by an up arrow with the phrase "Telecom provider recovered from credit-rating downgrade." The second listing is PanAmSat followed by an up arrow with the phrase "Satellite TV company beat earnings expectations." The third listing is Great Central Mines followed by a down arrow with the phrase "Hurt by doubts about amount of gold in an Australian mine."]

We cut back somewhat on our mortgage-backed holdings because we felt that lower-rated corporate bonds offered better values. However, we still think mortgage-backed securities look attractive and expect to maintain our current position.

### OUTLOOK

We believe that we are in the beginning stages of an economic recovery, but it will be several quarters before we know for sure that the economy is back on track. The Fed is likely to remain on hold until a clear direction for the economy is evident. Given an environment of moderate economic growth and low inflation, we believe interest rates should be relatively stable during the second half of the year.

We continue to favor lower-quality corporate bonds despite their recent outperformance. These bonds still offer a substantial yield advantage over Treasury bonds, and issuers continue to improve their balance sheets.

"We believe that we are in the beginning stages of an economic recovery..."

This commentary reflects the views of the portfolio managers through the end of the Fund's period discussed in this report. The managers' statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

Parenthetical disclosure of a foreign country in the security description represents country of a foreign issuer; however, security is U.S.-dollar-denominated, unless otherwise indicated.

- (A) Cash interest will be paid on this obligation at the stated rate beginning on the stated date.
  - (B) Non-income-producing issuer, filed for protection under the Federal Bankruptcy Code or is in default on interest payment.
  - (R) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration. Rule 144A securities amounted to \$20,360,166 or 10.86% of the Fund's net assets as of June 30, 2003.
- + All or a portion of these securities, having an aggregate value of \$22,673,968 or 12.09% of the Fund's net assets, have been purchased as forward commitments; that is the Fund has agreed on a trade date to take delivery of and make payment for such securities on a delayed basis subsequent to the date of this schedule. The purchase price and interest rate of such securities are fixed at trade date, although the Fund does not earn any interest on such securities until settlement date. The Fund has instructed its Custodian Bank to segregate assets with a current value at least equal to the amount of the forward commitments. Accordingly, the market value of \$25,166,701 of Anthem, Inc. 6.800% due 08-01-12, Avis Group Holdings, Inc. 11.000% due 05-01-09, Beaver Valley Funding Corp. 9.000% due 06-01-17, Clear Channel Communications, Inc. 8.000% due 11-01-08, Harrah's Operating Co., Inc., 7.875% due 12-15-05, Hertz Corp. 7.625% due 06-01-12, Household Finance Corp. 6.750% due 05-15-11, International Paper Co. 5.850% due 10-30-12, IPALCO Enterprises, Inc. 7.625% due 11-14-11, Kennametal Inc. 7.200% due 06-15-12, Kinder Morgan, Inc. 6.500% due 09-01-12, Liberty Media Corp. 5.700% due 05-15-13, Massachusetts Mutual Life Insurance Co. 7.625% due 11-15-23, MBNA Credit Card Trust 6.650% due 08-15-11, Midland Fund Corp. II 11.750% due 07-23-05, News America Holdings, Inc. 8.250% due 08-10-18, Occidental Petroleum Corp. 10.125% due 09-15-09, Penney J.C. Corp., Inc. 8.000% due 03-01-10, Qwest Capital Funding, Inc. 7.750% due 08-15-06, Sprint Capital Corp. 6.900% due 05-01-19, Stone Container Corp. 8.375% due 07-01-12, Time Warner, Inc. 9.125% due 01-15-13, Toll Brothers, Inc. 6.875% due 11-15-12 and Toys "R" Us, Inc. 7.875% due 04-15-13, has been segregated to cover the forward commitments.
- # Par value of foreign bond is expressed in local currency, as shown parenthetically in security description.
- \* Credit ratings are rated by Standard & Poor's where available, or Moody's Investors Service or John Hancock Advisers, LLC where Standard & Poor's ratings are not available.
- \*\* Represent investment of securities lending collateral.

The percentage shown for each investment category is the total value of

Ratio of net investment income to average net assets (%)	6.79	6.88	6.89	6.10
Portfolio turnover (%)	240	184	248	290

1 As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, relating to the amortization of premiums and accretion of discounts on debt securities. The effect of this change on per share amounts for the year ended December 31, 2001, was to decrease net investment income per share by \$0.02, increase net realized and unrealized gain per share by \$0.02, and, had the Fund not made these changes to amortization, the ratio of net investment income to average net assets would have been 6.30%. Per share ratios and supplemental data for periods prior to January 1, 2001, have not been restated to reflect this change in presentation.

2 Semiannual period from 1-1-03 through 6-30-03. Unaudited.

3 Based on average shares outstanding.

4 Assumes dividend reinvestment.

5 Not annualized.

6 Annualized.

financial statements.

### NOTES TO STATEMENTS

Unaudited

#### NOTE A Accounting policies

John Hancock Income Securities Trust (the "Fund") is a closed-end diversified management investment company registered under the Investment Company Act of 1940.

Significant accounting policies of the Fund are as follows:

#### Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value.

#### Joint repurchase agreement

Pursuant to an exemptive order issued by the Securities and Exchange Commission, the Fund, along with other registered investment companies having a management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of The Berkeley Financial Group, LLC, may participate in a joint repurchase agreement transaction. Aggregate cash balances are invested in one or more large repurchase agreements, whose underlying securities are obligations of the U.S. government and/or its agencies. The Fund's custodian bank receives delivery of the underlying securities for the joint account on the Fund's behalf. The Adviser is responsible for ensuring that the agreement is fully collateralized at all times.

#### Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis. Some securities may be purchased on a "when issued" or "forward delivery" basis, which means that the securities will be delivered to the Fund at a future date, usually beyond the customary settlement date.

#### Discount and premium on securities

The Fund accretes discount and amortizes premium from par value on securities from either the date of issue or the date of purchase over the life of the security.

#### Expenses

The majority of the expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund will

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

be allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

### Securities lending

The Fund may lend securities to certain qualified brokers who pay the Fund negotiated lender fees. These fees are included in interest income. The loans are collateralized at all times with cash or securities with a market value at least equal to the market value of the securities on loan. As with other extensions of credit, the Fund may bear the risk of delay of the loaned securities in recovery or even loss of rights in the collateral, should the borrower of the securities fail financially. On June 30, 2003, the Fund loaned securities having a market value of \$21,395,461 collateralized by securities in the amount of \$21,933,913.

### Financial futures contracts

The Fund may buy and sell financial futures contracts. Buying futures tends to increase the Fund's exposure to the underlying instrument. Selling futures tends to decrease the Fund's exposure to the underlying instrument or hedge other Fund's instruments. At the time the Fund enters into a financial futures contract, it is required to deposit with its custodian a specified amount of cash or U.S. government securities, known as "initial margin," equal to a certain percentage of the value of the financial futures contract being traded. Each day, the futures contract is valued at the official settlement price of the board of trade or U.S. commodities exchange on which it trades. Subsequent payments to and from the broker, known as "variation margin," are made on a daily basis as the market price of the financial futures contract fluctuates. Daily variation margin adjustments, arising from this "mark to market," are recorded by the Fund as unrealized gains or losses.

When the contracts are closed, the Fund recognizes a gain or loss. Risks of entering into futures contracts include the possibility that there may be an illiquid market and/or that a change in the value of the contracts may not correlate with changes in the value of the underlying securities. In addition, the Fund could be prevented from opening or realizing the benefits of closing out futures positions because of position limits or limits on daily price fluctuation imposed by an exchange.

For federal income tax purposes, the amount, character and timing of the Fund's gains and/or losses can be affected as a result of futures contracts.

At June 30, 2003, the Fund had deposited \$27,500 in a segregated account to cover margin requirements on open futures contracts.

The Fund had the following open financial futures contracts on June 30, 2003:

OPEN CONTRACTS	NUMBER OF CONTRACTS	POSITION	EXPIRATION	DEPRECIATION
U.S. Treasury Note	25	Short	SEP 03	(\$1,152)

### Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. There fore, no federal income tax provision is required.

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

For federal income tax purposes, the Fund has \$1,647,579 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The entire amount of the loss carryforward expires December 31, 2008.

### Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. The Fund may place a debt obligation on non-accrual status and reduce related interest income by ceasing current accruals and writing off interest receivables when the collection of interest has become doubtful. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains on the ex-dividend date. The Fund's net investment income is declared and distributed quarterly.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

### Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

### NOTE B

#### Management fee and transactions with affiliates and others

The Fund has an investment management contract with the Adviser. Under the investment management contract, the Fund pays a quarterly management fee to the Adviser, equivalent on an annual basis, to the sum of (a) 0.650% of the first \$150,000,000 of the Fund's average weekly net asset value, (b) 0.375% of the next \$50,000,000, (c) 0.350% of the next \$100,000,000 and (d) 0.300% of the Fund's average weekly net asset value in excess of \$300,000,000.

In the event normal operating expenses of the Fund, exclusive of taxes, interest, brokerage commissions and extraordinary expenses, exceed 1.5% of the first \$30,000,000 of the Fund's average weekly net asset value and 1.0% of the Fund's average weekly net asset value in excess of \$30,000,000, the fee payable to the Adviser will be reduced to the extent of such excess, and the Adviser will make additional arrangements necessary to eliminate any remaining excess expenses. There were no management fee reductions during the period ended June 30, 2003.

The Fund has an agreement with the Adviser to perform necessary tax, accounting and legal services for the Fund. The compensation for the period was at an annual rate of approximately 0.03% of the average net assets of the Fund.

Ms. Maureen R. Ford and Mr. John M. DeCiccio are directors and/or

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

officers of the Adviser and/or its affiliates, as well as Trustees of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer for tax purposes their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

### NOTE C

#### Fund common share transactions

This listing illustrates the number of Fund shares reinvested, the reclassification of capital accounts and the number of shares outstanding at the beginning and end of the last two periods, along with the corresponding dollar value. The Fund has 30 million shares authorized with no par value.

	YEAR ENDED 12-31-02		YEAR ENDED 6-30-03 1	
	SHARES	AMOUNT	SHARES	AMOUNT
Beginning of period	10,898,374	\$174,131,001	10,952,182	\$175,212,973
Distributions

1 Semiannual period from 1-1-03 through 6-30-03. Unaudited.

### NOTE D

#### Investment transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended June 30, 2003, aggregated \$222,144,973 and \$216,820,914, respectively. Purchases and proceeds from sales or maturities of obligations of U.S. government aggregated \$48,163,082 and \$54,156,373, respectively, during the period ended June 30, 2003.

The cost of investments owned on June 30, 2003, including short-term investments, for federal income tax purposes was \$198,218,111. Gross unrealized appreciation and depreciation of investments aggregated \$10,016,640 and \$1,708,038, respectively, resulting in net unrealized appreciation of \$8,308,602. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily to the tax deferral of losses on wash sales.

#### INVESTMENT OBJECTIVE AND POLICY

The Fund is a closed-end diversified investment management company, shares of which were initially offered to the public on February 14, 1973, and are publicly traded on the New York Stock Exchange. The Fund's investment objective is to generate a high level of current income consistent with prudent investment risk. The Fund invests in a diversified portfolio of freely marketable debt securities and may invest an amount not exceeding 20% of its assets in income-producing

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

preferred and common stock. Under normal circumstances the Fund will invest at least 80% of net assets in income securities. Income securities will consist of the following: (i) marketable corporate debt securities, (ii) governmental obligations and (iii) cash and commercial paper. "Net assets" is defined as net assets plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

It is contemplated that at least 75% of the value of the Fund's total assets will be represented by debt securities which have at the time of purchase a rating within the four highest grades as determined by Moody's Investors Service, Inc., or Standard & Poor's Corporation. The Fund intends to engage in short-term trading and may invest in repurchase agreements. The Fund may issue a single class of senior securities not to exceed 33-1/3% of its net assets at market value and may borrow from banks as a temporary measure for emergency purposes in amounts not to exceed 5% of the total assets at cost. The Fund may lend portfolio securities not to exceed 33-1/3% of total assets.

### FINANCIAL FUTURES CONTRACTS AND OPTIONS

The Fund may buy and sell financial futures contracts and options on futures contracts to hedge against the effects of fluctuations in interest rates and other market conditions. The Fund's ability to hedge successfully will depend on the Adviser's ability to predict accurately the future direction of interest rate changes and other market factors. There is no assurance that a liquid market for futures and options will always exist. In addition, the Fund could be prevented from opening, or realizing the benefits of closing out, a futures or options position because of position limits or limits on daily price fluctuations imposed by an exchange.

The Fund will not engage in transactions in futures contracts and options on futures for speculation, but only for hedging or other permissible risk management purposes. All of the Fund's futures contracts and options on futures will be traded on an U.S. commodity exchange or board of trade. The Fund will not engage in a transaction in futures or options on futures if, immediately thereafter, the sum of initial margin deposits on existing positions and premiums paid for options on futures would exceed 5% of the Fund's total assets.

### DIVIDENDS AND DISTRIBUTIONS

The Fund pays quarterly dividends from net investment income and intends to distribute any available net realized capital gains annually. All distributions are paid in cash unless the shareholder elects to participate in the Dividend Reinvestment Plan.

During the period ended June 30, 2003, the Fund paid to shareholders dividends from net investment income totaling \$0.455 per share. The dates of payment and the amounts per share are as follows:

PAYMENT DATE	DIVIDEND
March 31, 2003	\$0.2275
June 30, 2003	0.2275

### DIVIDEND REINVESTMENT PLAN

The Fund offers shareholders a Dividend Reinvestment Plan (the "Plan"), which offers the opportunity to earn compounded yields. Any shareholder

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

of record of the Fund may elect to participate in the Plan and receive the Fund's common shares in lieu of all or a portion of the cash dividends. The Plan is available to all shareholders without charge. Mellon Investor Services (the "Plan Agent") will act as agent for participating shareholders.

Shareholders may join the Plan by notifying the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at [www.melloninvestor.com](http://www.melloninvestor.com) showing an election to reinvest all or a portion of dividend payments. If received in proper form by the Plan Agent prior to the record date for a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to participate in the Plan.

The Board of Trustees of the Fund will declare dividends from net investment income payable in cash or, in the case of shareholders participating in the Plan, partially or entirely in the Fund's common shares. The number of shares to be issued for the benefit of each shareholder will be determined by dividing the amount of the cash dividend otherwise payable to such shareholder on shares included under the Plan, by the per share net asset value of the common shares on the date for payment of the dividend, unless the net asset value per share on the payment date is less than 95% of the market price per share on that date, in which event the number of shares to be issued to a shareholder will be determined by dividing the amount of the cash dividend payable to such shareholder by 95% of the market price per share of the common shares on the payment date. The market price of the common shares on a particular date shall be the mean between the highest and lowest sales price on the New York Stock Exchange on that date. Net asset value will be determined in accordance with the established procedures of the Fund. However, if as of such payment date the market price of the common shares is lower than such net asset value per share, the number of shares to be issued will be determined on the basis of such market price. Fractional shares, carried out to four decimal places, will be credited to the shareholder's account. Such fractional shares will be entitled to future dividends.

The shares issued to participating shareholders, including fractional shares, will be held by the Plan Agent in the name of the participant. A confirmation will be sent to each shareholder promptly, normally within five to seven days, after the payment date of the dividend. The confirmation will show the total number of shares held by such shareholder before and after the dividend, the amount of the most recent cash dividend that the shareholder has elected to reinvest and the number of shares acquired with such dividend.

Participation in the Plan may be terminated at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site, and such termination will be effective immediately. However, notice of termination must be received prior to the record date of any distribution to be effective for that distribution. Upon termination, certificates will be issued representing the number of full shares of common shares held by the Plan Agent. A shareholder will receive a cash payment for any fractional share held.

The reinvestment of dividends will not relieve participants of any federal, state or local income tax, which may be due with respect to such dividend. Dividends reinvested in common shares will be treated on your federal income tax return as though you had received a dividend in cash in an amount equal to the fair market value of the shares received, as determined by the prices for shares of the Fund on the New York Stock

## Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

Exchange as of the dividend payment date. Distributions from the Fund's long-term capital gains will be processed as noted above for those electing to reinvest in common shares and will be taxable to you as long-term capital gains. The confirmation referred to above will contain all the information you will require for determining the cost basis of shares acquired and should be retained for that purpose. At year end, each account will be supplied with detailed information necessary to determine total tax liability for the calendar year.

All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, New Jersey 07606-1938 (telephone 1-800-852-0218).

### SHAREHOLDER COMMUNICATION AND ASSISTANCE

If you have any questions concerning the Fund, we will be pleased to assist you. If you hold shares in your own name and not with a brokerage firm, please address all notices, correspondence, questions or other communications regarding the Fund to the transfer agent at:

Mellon Investor Services  
85 Challenger Road  
Overpeck Centre  
Ridgefield Park, NJ 07660  
Telephone: 1-800-852-0218

If your shares are held with a brokerage firm, you should contact that firm, bank or other nominee for assistance.

### SHAREHOLDER MEETINGS

In November 2002, the Board of Trustees adopted several amendments to the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal which they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

On March 20, 2003, the Annual Meeting of the Fund was held to elect eleven Trustees and to ratify the actions of the Trustees in selecting independent auditors for the Fund. Proxies covering 9,732,741 shares of beneficial interest were voted at the meeting.

The shareholders elected the following Trustees to serve until their respective successors are duly elected and qualified, with the votes tabulated as follow:

	WITHHELD
FOR	AUTHORITY

## ITEM 8. [RESERVED]

## ITEM 9. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal executive officer and principal financial officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 10. EXHIBITS.

(a) Not applicable at this time.

(b) (1) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

(b) (2) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and Rule 30a-2(b) under the Investment Company Act of 1940, are attached. The certifications furnished pursuant to this paragraph are not deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that section. Such certifications are not deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Registrant specifically incorporates them by reference.

(c) Proxy Voting Policies and Procedures
