ITEM 2.02. Results of Operations and Financial Condition.

The information contained herein is being furnished pursuant to Item 2.02 of Form 8-K, “Results of Operations and Financial Condition,” and Item 7.01 of Form 8-K, “Regulation FD Disclosure.” This information shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, (the “Securities Act”) or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

HealthSouth Corporation (the “Company”) uses “same-store” comparisons to explain the changes in certain performance metrics and line items within its financial statements. Same-store comparisons are calculated based on hospitals open throughout both the full current and prior periods presented. These comparisons include the financial results of market consolidation transactions in existing markets, as it is difficult to determine, with precision, the incremental impact of these transactions on the Company’s results of operations.

On July 28, 2016, the Company issued a press release reporting the financial results of the Company for the three and six months ended June 30, 2016. A copy of the press release is attached to this report as Exhibit 99.1 and incorporated herein by reference.

ITEM 7.01. Regulation FD Disclosure.

See Item 2.02, “Results of Operations and Financial Condition,” above.

In addition, a copy of the supplemental information which will be discussed during the Company’s earnings call at 9:00 a.m. Eastern Time on Friday, July 29, 2016 is attached to this report as Exhibit 99.2 and incorporated herein by reference. This information shall not be deemed “filed” for purposes of Section 18 of the Exchange Act, or incorporated by reference in any filing under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Note Regarding Presentation of Non-GAAP Financial Measures

The financial data contained in the press release and supplemental information include non-GAAP financial measures, including the Company’s adjusted earnings per share, leverage ratio, Adjusted EBITDA, and adjusted free cash flow. The Company is providing adjusted earnings per share from continuing operations attributable to HealthSouth (“adjusted earnings per share”). The Company believes the presentation of adjusted earnings per share provides useful additional information to investors because it provides better comparability of ongoing performance to prior periods given that it excludes the impact of government, class action, and related settlements, professional fees—accounting, tax, and legal, mark-to-market adjustments for stock appreciation rights, gains or losses related to hedging instruments, loss on early extinguishment of debt, adjustments to its income tax provision (such as valuation allowance adjustments and settlements of income tax claims), items related to corporate and facility restructurings, and certain other items the Company believes to be non-indicative of its ongoing operations. It is reasonable to expect that one or more of these excluded items will occur in future periods, but the amounts recognized can vary significantly from period to period and may not directly relate to the Company’s ongoing operations. Accordingly, they can complicate comparisons of the Company’s results of operations across periods and comparisons of the Company’s results to those of other healthcare companies. Adjusted earnings per share should not be considered as a measure of financial performance under generally accepted accounting principles in the United States (“GAAP”) as the items excluded from it are significant components in understanding and assessing financial performance. Because adjusted earnings per share is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, it may not be comparable as presented to other similarly titled measures of other companies. The Company reconciles adjusted earnings per share to earnings per share in the press release attached as Exhibit 99.1 and the supplemental information attached as Exhibit 99.2.

The leverage ratio referenced therein is defined as the ratio of consolidated total debt to Adjusted EBITDA for the trailing four quarters. The Company believes its leverage ratio and Adjusted EBITDA are measures of its ability to service its debt and its ability to make capital expenditures. Additionally, the leverage ratio is a standard measurement used by investors to gauge the creditworthiness of an institution. The Company’s credit agreement also includes a maximum leverage ratio financial covenant which allows the Company to deduct up to \$75 million of cash on hand from consolidated total debt. The Company reconciles Adjusted EBITDA to net income in the press release attached as Exhibit 99.1 and the supplemental information attached as Exhibit 99.2 and to net cash provided by operating

activities in the press release attached as Exhibit 99.1 and the supplemental information attached as Exhibit 99.2. Adjusted EBITDA for the Company's reportable segments is reconciled to

net income from continuing operations before income tax expense in the press release attached as Exhibit 99.1 and the supplemental information attached as Exhibit 99.2.

The Company uses Adjusted EBITDA on a consolidated basis as a liquidity measure. The Company believes this financial measure on a consolidated basis is important in analyzing its liquidity because it is the key component of certain material covenants contained within the Company's credit agreement, which is discussed in more detail in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, "Liquidity and Capital Resources," and Note 8, Long-term Debt, to the consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 Form 10-K"). These covenants are material terms of the credit agreement. Noncompliance with these financial covenants under the credit agreement—its interest coverage ratio and its leverage ratio—could result in the Company's lenders requiring the Company to immediately repay all amounts borrowed. If the Company anticipated a potential covenant violation, it would seek relief from its lenders, which would have some cost to the Company, and such relief might be on terms less favorable to those in the Company's existing credit agreement. In addition, if the Company cannot satisfy these financial covenants, it would be prohibited under the credit agreement from engaging in certain activities, such as incurring additional indebtedness, paying common stock dividends, making certain payments, and acquiring and disposing of assets. Consequently, Adjusted EBITDA is critical to the Company's assessment of its liquidity.

In general terms, the credit agreement definition of Adjusted EBITDA, therein referred to as "Adjusted Consolidated EBITDA," allows the Company to add back to consolidated net income interest expense, income taxes, and depreciation and amortization and then add back to consolidated net income (1) all unusual or nonrecurring items reducing consolidated net income (of which only up to \$10 million in a year may be cash expenditures), (2) any losses from discontinued operations and closed locations, (3) costs and expenses, including legal fees and expert witness fees, incurred with respect to litigation associated with stockholder derivative litigation, and (4) share-based compensation expense. The Company also subtracts from consolidated net income all unusual or nonrecurring items to the extent they increase consolidated net income.

Under the credit agreement, the Adjusted EBITDA calculation does not include net income attributable to noncontrolling interests and includes (1) gain or loss on disposal of assets, (2) professional fees unrelated to the stockholder derivative litigation, and (3) unusual or nonrecurring cash expenditures in excess of \$10 million, and (4) pro forma adjustments resulting from debt transactions and development activities. Items falling within the credit agreement's "unusual or nonrecurring" classification may occur in future periods, but these items and amounts recognized can vary significantly from period to period and may not directly relate to the Company's ongoing operations. Accordingly, these items may not be indicative of the Company's ongoing performance, so the Adjusted EBITDA calculation presented here includes adjustments for them.

Adjusted EBITDA is not a measure of financial performance under GAAP, and the items excluded from Adjusted EBITDA are significant components in understanding and assessing financial performance. Therefore, Adjusted EBITDA should not be considered a substitute for net income or cash flows from operating, investing, or financing activities. Because Adjusted EBITDA is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. Revenues and expenses are measured in accordance with the policies and procedures described in Note 1, Summary of Significant Accounting Policies, to the consolidated financial statements accompanying the 2015 Form 10-K.

The Company also uses adjusted free cash flow as an analytical indicator to assess its performance. Management believes the presentation of adjusted free cash flow provides investors an efficient means by which they can evaluate the Company's capacity to reduce debt, pursue development activities, and return capital to its common stockholders. The calculation of adjusted free cash flow and a reconciliation of net cash provided by operating activities to adjusted free cash flow are included in the press release attached as Exhibit 99.1 and the supplemental information attached as Exhibit 99.2. This measure is not a defined measure of financial performance under GAAP and should not be considered as an alternative to net cash provided by operating activities. The Company's definition of adjusted free cash flow is limited and does not represent residual cash flows available for discretionary spending. Because this measure is not determined in accordance with GAAP and is susceptible to varying calculations, it may not be

comparable to other similarly titled measures presented by other companies. See the condensed consolidated statements of cash flows included in the June 2016 Form 10-Q, when filed, and in the press release attached as Exhibit 99.1 for the GAAP measures of cash flows from operating, investing, and financing activities.

Excluding net operating revenues, the Company does not provide guidance on a GAAP basis because it is unable to predict, with reasonable certainty, the future impact of items that are deemed to be non-indicative of its ongoing operations. Such items include government, class action, and related settlements, professional fees-accounting, tax, and legal, mark-to-market adjustments for stock appreciation rights, gains or losses related to hedging instruments, loss on early extinguishment of debt, adjustments to its income tax provision (such as valuation allowance adjustments and settlements of income tax claims),

items related to corporate and facility restructurings, and certain other items the Company believes to be non-indicative of its ongoing operations. These items are uncertain and will depend on several factors, including industry and market conditions, and could be material to the Company's results computed in accordance with GAAP.

Forward-Looking Statements

The information contained in the press release and supplemental information includes certain estimates, projections, and other forward-looking statements that involve known and unknown risks and relate to, among other things, future events, the Company's business strategy, financial plans, dividend strategies or payments, effective income tax rates, plans to repurchase its debt or equity securities, future financial performance, projected business results or model, ability to return value to its shareholders, projected capital expenditures, leverage ratio, acquisition opportunities, and the impact of future legislation or regulation. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "targets," "continue" or the negative of these terms or other comparable terminology. These estimates, projections, and other forward-looking statements are based on assumptions the Company believes, as of the date hereof, are reasonable. Inevitably, there will be differences between such estimates and actual results, and those differences may be material. There can be no assurance that any estimates, projections, or forward-looking statements will be realized.

All such estimates, projections, and forward-looking statements speak only as of the date hereof. The Company undertakes no duty to publicly update or revise that information.

You are cautioned not to place undue reliance on the estimates, projections, and other forward-looking statements in this report, the press release, and supplemental information as they are based on current expectations and general assumptions and are subject to various risks, uncertainties, and other factors, including those set forth in the attached press release and in the 2015 Form 10-K, the Company's quarterly report on Form 10-Q for the quarterly period ended June 30, 2016, when filed, and in other documents the Company previously filed with the SEC, many of which are beyond the Company's control. These factors may cause actual results to differ materially from the views, beliefs, and estimates expressed herein.

ITEM 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number	Description
99.1	Press release of HealthSouth Corporation, dated July 28, 2016.
99.2	Supplemental information provided in connection with the second quarter 2016 earnings call of HealthSouth Corporation.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned hereunto duly authorized.

HEALTHSOUTH CORPORATION
