income tax.

- (3) Under the terms of the lease, Norfolk Southern Corporation has leased all of Pittsburgh & West Virginia Railroad's real properties, including its railroad lines, for a term of 99 years, renewable by the lessee upon the same terms for additional 99-year terms in perpetuity. The lease provides for a cash rental of \$915,000 per year for the current lease period and all renewal periods. The net investment in capital lease, recognizing renewal options in perpetuity, was estimated to have a current value of \$9,150,000 assuming an implicit interest rate of 10%.
- (4) Under the provisions of the lease, the Trust may not issue, without the prior written consent of Norfolk Southern, any shares or options to purchase shares or declare any dividends on its shares of beneficial interest in an amount exceeding the value of the assets not covered by the lease plus the annual cash rent of \$915,000 to be received under the lease, less any expenses incurred for the benefit of shareholders. At March 31, 2007, all net assets are covered by the lease. The Trust may not borrow any money or assume any guarantees except with the prior written consent of Norfolk Southern.

Item 2. MANagements' Discussion and Analysis

All of Registrant's railroad properties are on long-term lease to Norfolk Southern Corporation for the fixed, unvarying amount of \$915,000 cash rental per year. The lease also requires that additional amounts be accounted for as noncash rent income to be settled or paid at lease termination. Because this noncash income will not be settled until the expiration of the lease, no values have been reported in the accompanying interim financial statements for the balance of the account or the transactions affecting the balance.

With fixed revenue and expenses relatively constant, there is very little fluctuation in operating results between periods. In comparing the first quarter of 2007 with the preceding fourth quarter of 2006 and the first quarter of 2006, revenues totaled \$229,000, \$229,000, and \$229,000, respectively. Net income and income available for distribution was \$171,000, \$211,000, and \$173,000, respectively.

Since cash revenue is fixed in amount and outlays for general and administrative expenses are relatively modest, inflation has had no material impact on Registrant's reported net income for the past three years. Although recent inflationary trends have been relatively low, annual rental income is a fixed amount for the current lease term and any renewal periods, and inflation could affect the real dollar value of the rental income over time. Changes in inflationary trends could also affect the general and administration expenses.

Item 4. Controls and Procedures

Management is responsible for establishing and maintaining effective internal controls over financial reporting. Within 90 days prior to the date of this report, the Registrant carried out an evaluation under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures pursuant to Rule 13a-14 under the Securities Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Registrant's disclosure controls and procedures are adequate and effective in timely alerting

them to material information relating to the Registrant required to be included in the Registrant's periodic filings with the SEC.

There have been no significant changes in the Registrant's internal controls or in other factors that that could significantly affect internal controls subsequent to the date the Registrant carried out its evaluation.
