(1) DESCRIPTION OF THE PLAN

The following description of the Oxy Vinyls, LP Savings Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) GENERAL

Occidental Chemical Corporation (OxyChem), a wholly owned subsidiary of Occidental Petroleum Corporation (OPC or Oxy), a Delaware corporation, and The Geon Company (Geon) caused a partnership to be formed, Oxy Vinyls, LP, a Delaware limited partnership, and selected affiliates (collectively, the Company or the Employer), in which OxyChem and Geon have indirect interests of 76% and 24%, respectively. The Plan was a defined contribution plan generally available to certain employees of the Company. The Plan was established by the Company effective May 1, 1999. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) MERGER OF PLAN INTO SUCCESSOR PLAN

The Plan was merged into the Occidental Petroleum Corporation Savings Plan (PSA) with an effective date of February 28, 2002. Plan participants became participants in the PSA plan and their participant accounts and the plan assets were transferred into the PSA plan effective as of February 28, 2002. The transfer is reflected in the Statements of Changes in Net Assets Available for Benefits for the period ended February 28, 2002 as "Transfer to successor plan."

(c) PLAN ADMINISTRATION

Prior to the Merger, the Plan was administered by the OPC Pension and Retirement Trust and Investment Committee as to investment decisions and by the Oxy Vinyls, LP Pension and Retirement Plan Administrative Committee as to all matters except investment decisions (these two committees are herein referred to collectively as the Committees). The Committees had been given all powers necessary to carry out their respective duties, including as applicable, but not limited to, the power to administer and interpret the Plan and to answer all questions affecting eligibility of participants. The Northern Trust Company (the Trustee) was the trustee and custodian of a trust fund which held all of the assets of the Plan.

(d) CONTRIBUTIONS

PARTICIPANT CONTRIBUTIONS - Participants were allowed to contribute from 1% to 15% of compensation (as defined) to the Plan on a before- or after-tax basis, or in any combination thereof, subject to certain Internal Revenue Code (IRC) limitations.

EMPLOYER CONTRIBUTIONS - The Employer contributed 100% of a participant's contribution up to the first 6% of compensation. All Employer contributions were invested in the Occidental Petroleum Corporation Common Stock Fund (the Oxy Stock Fund).

Notes to Financial Statements

(e) INVESTMENT OPTIONS

Prior to the Merger, the Plan offered 11 investment options. Upon enrollment in the Plan, participants could direct their contributions, in 5% increments, in any of the investment options offered at the time. Participants could change their investment options daily. Participants should refer to the Plan fund description pamphlet for a complete description of the investment options and for the detailed composition of each investment fund.

(f) PARTICIPANT ACCOUNTS

Participant accounts were credited with the participant's contribution and allocations of the Employer's contribution and investment income, and charged with an allocation of administrative expenses and investment losses, if any. Allocations were based on account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

(g) VESTING

Participants immediately vested in their contributions plus investment income thereon, if any. Vesting in the Employer's contribution portion of the account plus earnings thereon, was based on years of service. Generally, a participant received 20% vesting for each year of service and was fully vested after five years of service. Participants who were eligible to participate in the Plan on May 1, 1999 were fully vested.

(h) PARTICIPANT LOANS

Participants could borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of: (i) \$50,000, reduced by the highest outstanding loan balance in the past 12 months, (ii) 50% of their vested account balance, or (iii) a loan amount which would require payroll deductions for repayment equal to 25% of the participant's base compensation. Loan transactions were treated as a transfer between the investment fund and the participant loan fund. Loan terms ranged from one to five years for general purpose loans and six to ten years for primary residence loans. The loans bore interest at a fixed rate equal to the Western Federal Credit Union's loan rate for a loan secured by a member's deposit account at the time the loan was approved. During 2002 and 2001, the interest rate charged on new loans was 5%. Loan repayments were made ratably through payroll deductions.

(i) PAYMENT OF BENEFITS

Generally, upon termination of service for any reason other than death, participants with an account balance greater than \$5,000 could elect to receive the vested portion of their account in the following distribution options: (i) one lump-sum payment, (ii) straight life

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

annuity, (iii) ten-year term certain annuity, (iv) joint and survivor annuity, (v) partial cash distributions, or (vi) deferral of payment with certain restrictions. Upon termination of service due to death, the participant's beneficiary could elect to receive the vested interests in the form of (i), (ii), (iii), or (vi) only. A participant whose vested account balance was \$5,000 or less could receive distributions only under options (i), (v), or (vi). Participants could elect to receive distributions from their account balance in the Oxy Stock

Fund, the PolyOne Stock Fund (formerly the Geon Stock Fund), or the BFGoodrich Stock Fund in cash or in shares of common stock of such company.

(j) FORFEITED ACCOUNTS

Forfeited nonvested accounts were used to reduce Employer contributions.

(k) ADMINISTRATIVE EXPENSES

The Company paid certain costs and expenses incurred in administering the Plan and other costs and expenses were paid by the Plan.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) BASIS OF ACCOUNTING

The financial statements of the Plan were prepared under the accrual method of accounting.

(b) USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) RISKS AND UNCERTAINTIES

The Plan provided for various investment options in mutual funds, actively managed funds, the Oxy Stock Fund, the PolyOne Stock Fund, and the BFGoodrich Stock Fund. Investment securities were exposed to various risks such as interest rate, market, and credit. Due to the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in the

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

various risk factors, in the near term, could materially affect participants' account balances and the amounts reported in the financial statements.

Additionally, many mutual funds invested in the securities of foreign companies, which involved special risks and considerations not typically associated with investing in U.S. companies. These risks included devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Derivative financial instruments were used by the Plan's equity and fixed income investment managers to remain fully invested in the asset class and to hedge currency risk. Leveraging of the Plan assets and speculation were prohibited.

(d) INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments were stated at fair value. Shares of registered investment companies were valued at quoted market prices, which represented the net asset value of shares held by the Plan at year-end. The OPC common stock, PolyOne common stock, and BFGoodrich common stock (see note 3) were valued at their quoted market prices. The unit price of common or commingled trust funds was based on the current market value of the underlying assets of the fund. Participant loans were valued at cost, which approximated fair value.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

Realized gains and losses on investments are based on the market value of the asset at the beginning of the Plan year or at the time of purchase for assets purchased during the Plan year and the related fair value on the day the investments were sold during the Plan year. Unrealized gains and losses on investments were based on the market value of the assets at the beginning of the Plan year or at the time of purchase for assets purchased during the Plan year and the related fair value at the end of the Plan year. Net realized and unrealized appreciation/(depreciation) in fair value of investments is reflected in the accompanying Statements of Changes in Net Assets Available for Benefits as "Net (depreciation) in fair value of investments."

(e) PAYMENT OF BENEFITS
