**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. The results for BJ's Wholesale Club, Inc. (BJ's or the Company or we) for the quarter ended May 1, 2004 are not necessarily indicative of the results for the full fiscal year or any future period because, among other things, our business, in common with the business of retailers generally, is subject to seasonal influences. Our sales and operating income have typically been strongest in the fourth quarter holiday season and lowest in the first quarter of each fiscal year.

2. The interim financial statements are unaudited and reflect all normal recurring adjustments we considered necessary for a fair presentation of our financial statements in accordance with generally accepted accounting principles.

3. These interim financial statements should be read in conjunction with the consolidated financial statements and related notes in our Annual Report on Form 10-K for the fiscal year ended January 31, 2004.

4. The components of interest expense, net were as follows (amounts in thousands):

	<b>Thirteen Weeks Ended</b>

5. The following details the calculation of earnings per share from continuing operations before the cumulative effect of accounting principle changes for the periods presented below (amounts in thousands except per share amounts):

Weighted-average number of common and dilutive potential common shares outstanding	70,362	69,397
Basic earnings per share	\$ 0.23	\$ 0.18
Diluted earnings per share	\$ 0.23	\$ 0.18

Options to purchase 2,505,173 shares at a weighted-average exercise price of \$29.31 and 4,981,210 shares at a weighted-average exercise price of \$27.61 were outstanding at May 1, 2004 and May 3, 2003, respectively, but were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common shares for the thirteen weeks then ended.

6. We account for stock-based employee compensation under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. No stock-based employee compensation cost for stock options is reflected in net income, as all options granted under our plans had an exercise price equal to the market value of the underlying common stock on the date of the grant. We do include stock-based employee compensation cost for restricted stock in net income. The following table illustrates the effect on net income and earnings per share if we had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation:

7. The following table summarizes activity relating to our obligations for House2Home, Inc. ( House2Home ) and BJ s closed store leases:

	<b>Thirteen Weeks Ended</b>	
	<b>May 1, 2004</b>	<b>May 3, 2003</b>
	<b>(Dollars in Thousands)</b>	
Reserves for closed store liabilities, beginning of year	\$ 21,911	\$ 58,334

Cash payments and fixed asset write-offs	(2,721)	(14,890)
<b>Reserves for closed store liabilities, end of period</b>	<b>\$ 19,483</b>	<b>\$ 42,877</b>

During the quarter ended May 3, 2003, we settled five House2Home leases through lump sum payments. Based on progress made in settling these leases and an evaluation of our remaining obligations, we recorded a \$1.2 million pretax credit (\$0.7 million after tax) in last year s first quarter to reduce our contingent lease obligations.

As of May 1, 2004, we have settled 39 of the 41 House2Home leases for which we were originally contingently liable, including lump sum settlements for 36 leases. Three other House2Home properties (for which we remain contingently liable) have been assigned to third parties. None of the leases for the three BJ s clubs closed in November 2002 has been settled or subleased. We have reserved a total of \$19,483,000 associated with our obligations for the remaining leases for two House2Home stores and three BJ s closed clubs as of May 1, 2004.

We believe that the liabilities recorded in the financial statements adequately provide for these lease obligations. However, there can be no assurance that our actual liability for closed store obligations will not differ materially from amounts recorded in the financial statements due to a number of factors, including future economic factors which may affect the ability to successfully sublease, assign or otherwise settle liabilities related to these properties. We consider our maximum reasonably possible undiscounted pretax exposure for our closed store lease obligations to be approximately \$52 million at May 1, 2004.

8. During last year s first quarter ended May 3, 2003, we adopted the provisions of Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations. We recorded a post-tax charge of \$1,253,000, or \$.02 per diluted share, to reflect the cumulative effect of adopting this accounting principle change as of the beginning of the fiscal year.

9. Net periodic benefit cost recognized for our unfunded defined benefit postretirement medical plan was as follows:

10. We have a \$200 million unsecured credit agreement with a group of banks which expires June 13, 2005. The agreement includes a \$50 million sub-facility for letters of credit, of which \$2.3 million was outstanding at May 1, 2004. We are required to pay an annual facility fee which is currently 0.175% of the total commitment. Interest on borrowings is payable at BJS's option either at (a) the Eurodollar rate plus a margin which is currently 0.575% or (b) a rate equal to the higher of (i) the sum of the Federal Funds Effective Rate plus 0.50% or (ii) the agent bank's prime rate. We are also required to pay a usage fee in any calendar quarter during which the average daily amount of loans and undrawn or unreimbursed letters of credit outstanding exceeds 33% of the total commitment. The usage fee, if applicable, would currently be at an annual rate of 0.125% of the average daily amount of credit used under the facility during the calendar quarter. The facility fee, Eurodollar margin and usage fee are subject to change based upon our fixed charge coverage ratio. The agreement contains covenants which, among other things, include minimum net worth and fixed charge coverage requirements and a maximum funded debt-to-capital limitation. We are required to comply with these covenants on a quarterly basis. Under the credit agreement, we may pay dividends or repurchase our own stock in any amount so long as we remain in compliance with all other covenants. We were in compliance with the covenants and other requirements set forth in our credit agreement at May 1, 2004.

In addition to the credit agreement, we maintain a separate \$50 million facility for letters of credit, primarily to support the purchase of inventories, of which \$19.5 million was outstanding at May 1, 2004, and also maintain a \$25 million uncommitted credit line for short-term borrowings.

There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at May 1, 2004. As of May 3, 2003, borrowings of \$40.0 million were outstanding under our bank credit agreement for short-term working capital uses.

11. BJS has filed proofs of claim against House2Home, Inc. for claims arising under certain agreements between BJS and House2Home in connection with the BJS spin-off from Waban Inc. in July 1997. These claims arise primarily from BJS's indemnification of TJX with respect to TJX's guarantee of House2Home leases and from the Tax Sharing Agreement dated July 28, 1997 between BJS and House2Home. House2Home and BJS have settled BJS's claims against House2Home. The settlement provides that BJS will have an unsecured claim of approximately \$37.9 million, on account of claims under the Tax Sharing Agreement and indemnification payments which have been made to TJX. The settlement agreement was approved by the United States Bankruptcy Court for the Central District of California on November 10, 2003. (House2Home has stated in its Disclosure Statement filed with the Bankruptcy Court that it expects to pay between 18.5% and 39.1% of its unsecured claims.) As part of the settlement, BJS has been released of all claims that House2Home and its bankruptcy estate may have had against BJS, including \$1.7 million owed by BJS to House2Home under the Tax Sharing Agreement. We recognized this amount as a reduction in our tax provision in the fourth quarter of 2003. In addition, BJS and the Indenture Trustee for House2Home's Convertible Subordinated Notes have settled BJS's claim regarding the priority of amounts owed to BJS. Under the settlement, BJS is entitled to a payment of up to \$2.5 million. We are unable to determine the amount and timing of any future recoveries under the claims and, therefore, have not recognized such claims in our financial statements.

12. The Financial Accounting Standards Board ( FASB ) and the Emerging Issues Task Force ( EITF ) issued the following standards which became effective in the fourth quarter of last year and the first quarter of this year:

FASB Interpretation No. 46, Consolidation of Variable Interest Entities, which was revised in December 2003, addresses consolidation by business enterprises of variable interest entities, which have certain characteristics as defined in the standard.

Application of this Interpretation was required in financial statements of public entities that have interests in variable interest entities or potential variable interest entities commonly referred to as special-purpose entities for periods ending after December 15, 2003. Application by public entities for all other types of entities is required in financial statements for periods ending after March 15, 2004. The adoption of this Interpretation has resulted in no change from our existing reporting.

Statement of Financial Accounting Standards No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*, requires additional disclosures to those in the original Statement 132 about the assets, obligations, cash flows and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. The provisions of this revised statement have been applied in our report on Form 10-K for the fiscal year ended January 31, 2004 and in this report on Form 10-Q for the quarter ended May 1, 2004.

EITF Issue No. 03-10, *Application of EITF Issue No. 02-16 by Resellers to Sales Incentives Offered to Consumers by Manufacturers* (EITF 03-10), provides guidance for the reporting of vendor consideration received by a reseller as it relates to manufacturers incentives (such as rebates or coupons) tendered by consumers. Vendor consideration may be included in revenues only if defined criteria are met. Otherwise, such consideration would be recorded as a decrease in cost of sales. The provisions of EITF 03-10 became effective in this year's first quarter. As permitted by the transition provisions of EITF 03-10, we have reclassified last year's sales and cost of sales for comparative purposes in this report. Implementation of EITF 03-10 has no effect on gross margin dollars, net income or cash flows, but certain vendor coupons or rebates which had been recorded in sales in the past are being recognized as a reduction of cost of sales. The implementation of EITF 03-10 resulted in decreases in both sales and cost of sales of \$10.3 million in this year's first quarter and \$4.1 million in last year's first quarter.

13. Certain amounts in the prior year's financial statements have been reclassified for comparative purposes.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Thirteen Weeks (First Quarter) Ended May 1, 2004 versus Thirteen Weeks Ended May 3, 2003.**

**Critical Accounting Policies and Estimates**

The preparation of our unaudited quarterly financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Some accounting policies have a significant impact on amounts reported in these financial statements. A description of our critical accounting policies is contained in our Annual Report on Form 10-K for the fiscal year ended January 31, 2004 in the Critical Accounting Policies and Estimates section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

**Results of Operations**

Net sales for the first quarter ended May 1, 2004 rose 12.1% to \$1.61 billion from \$1.44 billion reported in last year's first quarter. This increase was due to comparable club sales increases and to the opening of new clubs and gasoline stations. The increase in comparable club sales represented 54% of the increase in total net sales from the first quarter of 2003 to the first quarter of 2004. New clubs accounted for the remainder of the increase. Adjusting each period for shifts between certain food and general merchandise categories, food accounted for 58% of total food and general merchandise sales in this year's first quarter versus 57% in last year's first quarter.

Comparable club sales increased by 6.6% over last year in the first quarter, including a 0.4% contribution from gasoline sales. On a comparable club basis, food sales increased by approximately 9% in this year's first quarter and general merchandise sales increased by approximately 4%. We were able to achieve these comparable club sales increases despite the disruption caused by our re-merchandising of approximately 75% of the aisles in our clubs. Food sales continued to be strong, paced by our fresh food business. Sales in weather sensitive categories were adversely affected by cool and wet conditions in the Northeast in April.

Total revenues included membership fees of \$33.1 million in this year's first quarter versus \$30.3 million in last year's comparable period. This increase was due principally to the opening of new clubs.

Cost of sales (including buying and occupancy costs) was 92.96% of net sales in this year's first quarter versus 92.76% in last year's first quarter. The major contributing factor to this change was a combination of this year's higher gasoline sales and lower gasoline margins as compared to last year, when market conditions allowed us to realize higher than normal margins. Buying and occupancy costs as a percentage of sales also increased over last year. The effect of these unfavorable variances were partially offset by improved food and general merchandise margins.

Selling, general and administrative ( SG&A ) expenses were 7.65% of net sales in the first quarter versus 7.92% in last year's comparable period. This decrease was due principally to income from a settlement of medical claims overcharges from a former plan administrator, and lower advertising and renovation expenses, partially offset by increases in payroll and payroll benefit costs.

Total SG&A expenses rose by \$9.3 million from the first quarter of 2003 to the first quarter of 2004. Payroll and benefits accounted for 79% of all SG&A expenses in this year's first quarter versus 75% last year. Major changes in SG&A expenses included increases in payroll and benefits of \$12.0 million, partially offset by the medical claims settlement of \$2.3 million (\$1.4 million after tax, or \$.02 per diluted share) and decreases totaling \$2.7 million in advertising and club renovation expenses.

Preopening expenses were \$0.2 million in the first quarter this year compared with \$4.0 million in last year's first quarter. No new clubs were opened in this year's first quarter. We opened a new cross-dock facility in Jacksonville, Florida, and three new clubs in last year's first quarter. This year's planned club openings are more heavily weighted toward the second half of the year than last year's openings.

Net interest expense was \$0.1 million in both this year's and last year's first quarters.

This year's first quarter loss on contingent lease obligations of \$0.1 million consisted entirely of interest accretion charges. During last year's first quarter, we recorded interest accretion charges of \$0.4 million and a \$1.2 million credit to reduce our contingent lease obligations. On an after-tax basis, this credit was \$0.7 million, or \$.01 per diluted share.

Our income tax provision was 38.5% of pretax income from continuing operations in the first quarter of 2004 versus 38.3% in last year's first quarter.

Income from continuing operations before the cumulative effect of accounting principle changes was \$16.3 million, or \$.23 per diluted share, in this year's first quarter versus \$12.7 million, or \$.18 per diluted share, in last year's comparable period. Loss from discontinued operations (net of income tax benefit) was \$132,000 in this year's first quarter versus \$149,000 in last year's comparable period, and consists of interest accretion charges associated with three clubs that closed in 2002.

During last year's first quarter ended May 3, 2003, we adopted the provisions of Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations. We recorded a post-tax charge of \$1,253,000, or \$.02 per diluted share, to reflect the cumulative effect of adopting this accounting principle change as of the beginning of the fiscal year.

Net income for the first quarter was \$16.1 million, or \$.23 per diluted share, this year versus \$11.3 million, or \$.16 per diluted share, last year.

This year's first quarter was marked by a major re-merchandising effort which was based on initial findings from our new member analysis and segmentation program that we call Member Insight. We accelerated our timeline for this project so it could be completed in the first quarter. We discontinued selected items, including large exercise equipment, treadmills and weight sets, slower moving automotive items and certain stationery items. We are replacing them with generally faster-turning items including additional beverages, low-carb foods, paper goods, nutritional foods, salty snacks and ethnic foods. These tend to be non-overlapping items with our competitors and, as such, carry slightly higher margins than other items in their

categories. There will be an increased emphasis on fresh foods, private brands and fashion. The ultimate goal of re-merchandising our clubs is to drive margin expansion in addition to boosting shopping frequency and sales.

The Company operated 150 clubs on May 1, 2004 versus 143 clubs on May 3, 2003.

### **Seasonality**

Our business, in common with the business of retailers generally, is subject to seasonal influences. Our sales and operating income have typically been strongest in the fourth quarter holiday season and lowest in the first quarter of each fiscal year.

### **Recent Accounting Standards**

The FASB and the EITF issued the following standards which became effective in the fourth quarter of last year and the first quarter of this year:

FASB Interpretation No. 46, Consolidation of Variable Interest Entities, which was revised in December 2003, addresses consolidation by business enterprises of variable interest entities, which have certain characteristics as defined in the standard.

Application of this Interpretation was required in financial statements of public entities that have interests in variable interest entities or potential variable interest entities commonly referred to as special-purpose entities for periods ending after December 15, 2003. Application by public entities for all other types of entities is required in financial statements for periods ending after March 15, 2004. The adoption of this Interpretation has resulted in no change from our existing reporting.

Statement of Financial Accounting Standards No. 132 (revised 2003), Employers' Disclosures about Pensions and Other Postretirement Benefits, requires additional disclosures to those in the original Statement 132 about the assets, obligations, cash flows and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. The provisions of this revised statement have been applied in our report on Form 10-K for the fiscal year ended January 31, 2004 and in this report on Form 10-Q for the quarter ended May 1, 2004.

EITF Issue No. 03-10, Application of EITF Issue No. 02-16 by Resellers to Sales Incentives Offered to Consumers by Manufacturers (EITF 03-10), provides guidance for the reporting of vendor consideration received by a reseller as it relates to manufacturers incentives (such as rebates or coupons) tendered by consumers. Vendor consideration may be included in revenues only if defined criteria are met. Otherwise, such consideration would be recorded as a decrease in cost of sales. The provisions of EITF 03-10 became effective in this year's first quarter. As permitted by the transition provisions of EITF 03-10, we have reclassified last year's sales and cost of sales for comparative purposes in this report. Implementation of EITF 03-10 has no effect on gross margin dollars, net income or cash flows, but certain vendor coupons or rebates which had been recorded in sales in the past are being recognized as a reduction of cost of sales. The implementation of EITF 03-10 resulted in decreases in both sales and cost of sales of \$10.3 million in this year's first quarter and \$4.1 million in last year's first quarter.

## Liquidity and Capital Resources

Net cash provided by operating activities was \$39.4 million in the first three months of 2004 versus \$23.2 million in last year's comparable period. Merchandise inventories, net of accounts payable, increased by \$10.3 million in the first three months of this year versus \$7.5 million in last year's comparable period. The ratio of accounts payable to merchandise inventories improved from 67.1% in last year's first quarter to 69.1% this year. Cash expenditures for closed store lease obligations were \$12.2 million lower than last year for the quarter.

Cash expended for property additions was \$30.4 million in this year's first quarter versus \$55.6 million in last year's comparable period. No new clubs were opened in this year's first quarter. We opened a new owned cross-dock facility in Jacksonville, Florida, and three new leased clubs in the first quarter of 2003. The refurbishment of fourteen existing clubs was also substantially completed in the first quarter of 2003. No new gasoline stations were opened in this year's first quarter. Three new gasoline stations were opened in last year's first quarter.

The Company's full-year capital expenditures are expected to total approximately \$160 to \$175 million in 2004, based on plans to open approximately 10 new clubs and 10 to 12 gasoline stations. We also plan to refurbish 15 to 20 clubs over the remainder of the year. The timing of actual club and gas station openings and the amount of related expenditures could vary from these estimates due, among other things, to the complexity of the real estate development process.

During this year's first quarter we repurchased 317,100 shares of our common stock for \$8.0 million. We did not repurchase any shares of our common stock in last year's first quarter. As of May 1, 2004, our remaining repurchase authorization was \$82.5 million.

We have a \$200 million unsecured credit agreement with a group of banks which expires June 13, 2005. The agreement includes a \$50 million sub-facility for letters of credit, of which \$2.3 million was outstanding at May 1, 2004. We are required to pay an annual facility fee which is currently 0.175% of the total commitment. Interest on borrowings is payable at BJS's option either at (a) the Eurodollar rate plus a margin which is currently 0.575% or (b) a rate equal to the higher of (i) the sum of the Federal Funds Effective Rate plus 0.50% or (ii) the agent bank's prime rate. We are also required to pay a usage fee in any calendar quarter during which the average daily amount of loans and undrawn or unreimbursed letters of credit outstanding exceeds 33% of the total commitment. The usage fee, if applicable, would currently be at an annual rate of 0.125% of the average daily amount of credit used under the facility during the calendar quarter. The facility fee, Eurodollar margin and usage fee are subject to change based upon our fixed charge coverage ratio. The agreement contains covenants which, among other things, include minimum net worth and fixed charge coverage requirements and a maximum funded debt-to-capital limitation. We are required to comply with these covenants on a quarterly basis. Under the credit agreement, we may pay dividends or repurchase our own stock in any amount so long as we remain in compliance with all other covenants. We have no credit rating triggers that would accelerate the maturity date of debt if borrowings were outstanding under our credit agreement. We were in compliance with the covenants and other requirements set forth in our credit agreement at May 1, 2004.

In addition to the credit agreement, we maintain a separate \$50 million facility for letters of credit, primarily to support the purchase of inventories, of which \$19.5 million was outstanding at May 1, 2004, and also maintain a \$25 million uncommitted credit line for short-term borrowings.

There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at May 1, 2004. As of May 3, 2003, borrowings of \$40.0 million were outstanding under our bank credit agreement for short-term working capital uses.

Increases in merchandise inventories and accounts payable from May 3, 2003 to May 1, 2004 were due primarily to the addition of new clubs.

During the third quarter of 2002, we established reserves for our liability related to leases for three BJ's clubs which closed on November 9, 2002. Our recorded liabilities are based on the present value of rent liabilities under the three leases, including estimated real estate taxes and common area maintenance charges, reduced by estimated income from the subleasing of these properties. An annual discount rate of 6% was used to calculate the present value of these lease obligations. This rate was based on estimated borrowing rates for the Company that took into consideration the weighted-average period of time over which these obligations are expected to be paid.

Pursuant to an agreement with The TJX Companies, Inc. ( TJX ) and in connection with House2Home's filing for bankruptcy on November 7, 2001, we recorded a pretax charge of \$105.0 million for our estimated loss associated with House2Home leases in 2001. Based on a continuing evaluation of our remaining obligations and the significant progress made in settling liabilities for House2Home leases, we recorded pretax gains of \$20.0 million in 2002 and \$5.5 million in 2003 to reduce our estimated liability related to House2Home contingent lease obligations.

As of May 1, 2004, we have settled 39 of the 41 House2Home leases for which we were originally contingently liable, including lump sum settlements for 36 leases. Three other House2Home properties (for which we remain contingently liable) have been assigned to third parties. None of the leases for the three BJ's clubs closed in November 2002 has been settled or subleased. We have reserved a total of \$19.5 million associated with our obligations for the remaining leases for two House2Home stores and three BJ's closed clubs as of May 1, 2004.

We believe that the liabilities recorded in the financial statements adequately provide for these lease obligations. However, there can be no assurance that our actual liability for closed store obligations will not differ materially from amounts recorded in the financial statements due to a number of factors, including future economic factors which may affect the ability to successfully sublease, assign or otherwise settle liabilities related to these properties. We consider our maximum reasonably possible undiscounted pretax exposure for our closed store lease obligations to be approximately \$52 million at May 1, 2004.

BJ's has filed proofs of claim against House2Home, Inc. for claims arising under certain agreements between BJ's and House2Home in connection with the BJ's spin-off from Waban Inc. in July 1997. These claims arise primarily from BJ's indemnification of TJX with respect to TJX's guarantee of House2Home leases and from the Tax Sharing Agreement dated July 28, 1997 between BJ's and House2Home. House2Home and BJ's have settled BJ's claims against House2Home. The settlement provides that BJ's will have an unsecured claim of approximately \$37.9 million, on account of claims under the Tax Sharing Agreement and indemnification payments which have been made to TJX. The settlement agreement was approved by the United States Bankruptcy Court for the Central District of California on November 10, 2003. (House2Home has stated in its Disclosure Statement filed with the Bankruptcy Court that it expects to pay between 18.5% and 39.1% of its unsecured claims.) As part of the settlement, BJ's has been released of all claims that House2Home and its bankruptcy estate may have had against BJ's, including \$1.7 million owed by BJ's to House2Home under the Tax Sharing Agreement. We recognized this amount as a reduction in our tax

provision in the fourth quarter of 2003. In addition, BJs and the Indenture Trustee for House2Home's Convertible Subordinated Notes have settled BJs claim regarding the priority of amounts owed to BJs. Under the settlement, BJs is entitled to a payment of up to \$2.5 million. We are unable to determine the amount and timing of any future recoveries under the claims and, therefore, have not recognized such claims in our financial statements.

Cash and cash equivalents totaled \$76.0 million as of May 1, 2004. We believe that our current resources, together with anticipated cash flow from operations, will be sufficient to finance our operations through the term of our credit agreement, which expires June 13, 2005. However, we may from time to time seek to obtain additional financing.

### **Factors Which Could Affect Future Operating Results**

This report contains a number of forward-looking statements, including statements regarding planned capital expenditures, planned club and gas station openings, lease obligations under our indemnification agreement with TJX, lease obligations in connection with three closed clubs and other information with respect to our plans and strategies. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words believes, anticipates, plans, estimates, expects and similar expressions are intended to identify forward-looking statements. There are a number of important factors that could cause actual events or our actual results to differ materially from those indicated by such forward-looking statements, including, without limitation, economic and weather conditions and state and local regulation in our markets; competitive conditions; our success in settling lease obligations under our indemnification agreement with TJX and in connection with the closing of three of our own clubs; and events which might cause our 1997 spin-off from Waban Inc. not to qualify for tax-free treatment. Each of these and other factors are discussed in more detail in our Annual Report on Form 10-K for the fiscal year ended January 31, 2004.

Any forward-looking statements represent our estimates only as of the day this quarterly report was first filed with the Securities and Exchange Commission and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.

Earlier this year, the Company was notified by credit card issuers of information suggesting that the Company may have been the victim of credit card account data theft. Specifically, BJs was advised that credit and debit card accounts used legitimately at BJs were subsequently used in fraudulent transactions at non-BJs locations. In response, the Company retained a leading computer security firm to conduct a forensic analysis of its information technology systems with a goal of determining whether a breach had in fact occurred. While no conclusive evidence of a breach was found, the computer security firm concluded that: (1) the Company's centralized computer system that serves as the aggregation point for all BJs credit card transactions chain-wide had not been breached and (2) any breach would have likely occurred in a more decentralized fashion involving club-level systems. On March 12, 2004, after the Company's receipt of the computer security firm's preliminary report of findings, the Company issued a public statement alerting consumers to the potential security breach. The Company has received certain claims relating to this matter that, if successful, would not have a material adverse effect on the Company's financial condition or results of operations for the fiscal year. The Company is unable to predict whether further claims will be asserted and, if so, whether such claims would have a material adverse effect on the Company's results of operations. Based on measures the Company has implemented, the Company is confident in the current safety and integrity of its systems.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We believe that our potential exposure to market risk as of May 1, 2004 is not material because of the short contractual maturities of our cash and cash equivalents on that date. There were no borrowings outstanding under our bank credit agreement or our uncommitted credit line at May 1, 2004. We have not used derivative financial instruments.

**Item 4. Controls and Procedures**

The Company's management, with the participation of the Company's chief executive officer and chief financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of May 1, 2004. Based on this evaluation, the Company's chief executive officer and chief financial officer concluded that, as of May 1, 2004, the Company's disclosure controls and procedures were (1) designed to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the Company's chief executive officer and chief financial officer by others within those entities, particularly during the period in which this report was being prepared and (2) effective, in that they provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended May 1, 2004 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II. OTHER INFORMATION**
**Item 1 - Legal Proceeding**

A discussion of the House2Home bankruptcy proceeding appears in Part I of this Form 10-Q and is incorporated herein by reference.

**Item 2- Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities**

The following table summarizes our share repurchase activity in the quarter ended May 1, 2004:

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program</b>	<b>Maximum Dollar Amount that May Yet Be Purchased Under the Program</b>
<b>2004</b>				<b>(Dollars in Thousands)</b>
Feb. 1 - Feb. 28		\$		\$ 90,457
Feb. 29 - Apr. 3				90,457
Apr. 4 - May 1	317,100	25.10	317,100	82,497
<b>Total year to date</b>	<b>317,100</b>	<b>\$ 25.10</b>	<b>317,100</b>	<b>\$ 82,497</b>

We publicly announced in a press release dated August 26, 1998 that the Board of Directors authorized a program to repurchase up to \$50 million of the Company's common stock. We subsequently announced that the Board authorized increases in the program of \$50 million each in press releases dated September 16, 1999, May 25, 2000, and May 25, 2001; and additional increases of \$100 million each in press releases dated September 26, 2001 and August 20, 2002. Under the program, repurchases may be made at management's discretion, in the open market or in privately negotiated transactions. No expiration dates were set under any of the Board's authorizations. From the inception of the program through May 1, 2004, we repurchased approximately 10.1 million shares for a total of \$317.5 million, leaving a remaining authorization of \$82.5 million.

**Item 4 - Submission of Matters to a Vote of Security Holders**
