Item 1.01. Entry into a Material Definitive Agreement

On September 7, 2005, the Board of Directors of the Company adopted a cash based bonus incentive compensation plan (Bonus Plan) for fiscal year 2007. There are four classes of participants: The Chief Executive Officer, Theodore M. Prociw; the Executive Officers, Lawrence W. Sinnott, Jerome B. Strauss, Paul W. Kendall and James C. Dobbs; other Vice Presidents; and, other key employees.

The Plan provides differing participation by each class for each level of bonus accrual. For example, only the other Vice Presidents and other key employees participate in the first \$100,000 of bonus accrual. For higher level of bonus accrual the percentage participation of these two classes decrease and the percentage participation of the CEO and Executive Officers increase.

The amount of bonus accrual, from 0% to 4%, is based solely on the Companys pre-tax income. If bonus amounts are accrued, then each individual will be evaluated on both quantitative performance (70%) and other performance factors (30%). Cash bonuses if any, will be awarded in either September or October 2006.

This current report on Form 8-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks, trends, and uncertainties. In particular, statements made in this report that are not historical facts (including but not limited to expectations, estimates, assumptions and projections regarding the industry, business, future operating results, anticipated cash requirements and the anticipated savings from the acceleration of the vesting of certain out-of-the-money options) may be forward-looking statements. Actual results could differ materially from the results projected, expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed from time to time in Versars filing with the Securities and Exchange Commission. Many of these risk factors are outside of Versar s control, and as such, they involve risks which are not currently known to Versar that could cause actual results to differ materially from those discussed or implied herein. The forward-looking statements in this document are made as of the date hereof and Versar does not undertake to update its forward-looking statements.
