NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Business

Equity Commonwealth (the Company) is a real estate investment trust, or REIT, formed in 1986 under the laws of the State of Maryland. Our business is the ownership and operation of real estate, primarily office buildings, throughout the United States.

On November 10, 2016, the Company converted to what is commonly referred to as an umbrella partnership real estate investment trust, or UPREIT, structure. In connection with this conversion, the Company contributed substantially all of its assets to EQC Operating Trust, a Maryland real estate investment trust (the Operating Trust), and the Operating Trust assumed substantially all of the Company's liabilities pursuant to a contribution and assignment agreement between the Company and the Operating Trust.

The Company now conducts and intends to continue to conduct substantially all of its activities through the Operating Trust. The Company beneficially owned 99.97% of the outstanding shares of beneficial interest, designated as units, in the Operating Trust (OP Units) as of September 30, 2017, and the Company is the sole trustee of the Operating Trust. As the sole trustee, the Company generally has the exclusive power under the declaration of trust of the Operating Trust to manage and conduct the business of the Operating Trust, subject to certain limited approval and voting rights of other holders of OP Units.

At September 30, 2017, our portfolio included 20 properties (44 buildings), and one land parcel, with a combined 11.0 million square feet. As of September 30, 2017, we had \$2.5 billion of cash and cash equivalents and marketable securities.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements of EQC have been prepared without audit. Certain information and footnote disclosures required by U.S. generally accepted accounting principles, or GAAP, for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in our Annual Report on Form 10-K (Annual Report) for the year ended December 31, 2016. Capitalized terms used, but not defined in this Quarterly Report, have the same meanings as in our Annual Report.

In the opinion of our management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances with or among our subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect reported amounts. Actual results could differ from those estimates. Significant estimates in the condensed consolidated financial statements include the allowance for doubtful accounts, purchase price allocations, useful lives

of fixed assets and impairment of real estate and intangible assets.

Share amounts are presented in whole numbers, except where noted.

Recent Accounting Pronouncements

In August 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, to enable entities to better portray the economics of their risk management activities in the financial statements and enhance the transparency and understandability of hedge results. The amendments also simplify the application of hedge accounting in certain situations. This update is effective for fiscal years beginning after December 15, 2018, and for interim periods within those fiscal years. We are evaluating the impact ASU 2017-12 will have on our financial position and results of operations.

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In February 2017, the FASB issued ASU 2017-01, Clarifying the Definition of a Business, that changes the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. This update is effective for fiscal years beginning after December 15, 2017, and for interim periods within those fiscal years. We early adopted this ASU effective January 1, 2017, and the adoption of this ASU did not have a material impact on our consolidated financial statements.

In February 2017, the FASB issued ASU 2017-05 Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets. ASU 2017-05 is designed to provide guidance on how to recognize gain and losses on sales, including partial sales, of nonfinancial assets to noncustomers. ASU 2017-05 is effective beginning January 1, 2018. Early adoption is permitted but the standard is required to be adopted concurrently with ASU 2014-09. We do not expect that the adoption of this ASU will have a material impact on our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which amends FASB Accounting Standards Codification (ASC) Topic 230, Statements of Cash Flows, to add or clarify guidance on the classification and presentation of restricted cash in the statement of cash flows. This update is effective for fiscal years beginning after December 15, 2017, and for interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. We do not expect that the adoption of this ASU will have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. This update is effective for fiscal years beginning after December 15, 2017, and for interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. We do not expect that the adoption of this ASU will have a material impact on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which requires more timely recognition of credit losses associated with financial assets. This update is effective for fiscal years beginning after December 15, 2019, and for interim periods within those fiscal years. Early adoption is permitted for fiscal years, and interim periods within those years, beginning after December 15, 2018. We are currently in the process of evaluating the impact, if any, the adoption of this ASU will have on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases, which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e., lessees and lessors). ASU 2016-02 requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase of the leased asset by the lessee. This classification will determine whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. ASU 2016-02 supersedes previous leasing standards. ASU 2016-02 is effective for us for reporting periods beginning after December 15, 2018, with early adoption permitted. We are still assessing the impact of adopting ASU 2016-02. For leases where we are

the lessor, we expect to account for these leases using an approach that is substantially equivalent to current guidance. However, we expect that certain executory and non-lease components (such as common area maintenance), will need to be accounted for separately from the lease component of the lease with the lease component continuing to be recognized on a straight-line basis over the lease term. We intend to account for the executory and non-lease components under the new revenue recognition guidance in ASU 2014-09, upon our adoption of ASU 2016-02. When the revenue for such activities is not separately stipulated in the lease, we will need to separate the lease components of revenue due under leases from the non-lease components. Additionally, under ASU 2016-02 lessors may only capitalize incremental direct leasing costs. For leases in which we are the lessee, we expect to recognize a right-of-use asset and a lease liability equal to the present value of the minimum lease payments with rent expense being recognized on a straight-line basis and the right of use asset being reduced when lease payments are made.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities, related to certain aspects of recognition, measurement, presentation, and disclosure of

Table of Contents

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

financial instruments. ASU 2016-01 will require entities to measure their equity investments at fair value and recognize any changes in fair value in net income, with certain exceptions, rather than other comprehensive income. This update is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. We are currently evaluating the impact that the adoption of the new standard will have on our consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. The objective of ASU 2014-09, as amended, is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying ASU 2014-09, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB's ASC, and more particularly lease contracts with customers, which are a scope exception. ASU 2014-09 is effective for the first interim period within annual reporting periods beginning after December 15, 2017, with early adoption permitted. While our consideration of this matter is ongoing, we are not planning to early adopt ASU 2014-09, as amended, and we expect to use the modified retrospective method of adoption that will result in a cumulative effect adjustment as of the date of adoption. We developed a project plan and have begun the execution of this plan, which consists of gathering and evaluating the inventory of our revenue streams. We believe the effects on our existing accounting policies will be associated with our non-leasing revenue components. As our portfolio is currently comprised, we do not expect that the adoption of this ASU will have a material impact on our consolidated financial statements.

Note 3. Real Estate Properties

During the nine months ended September 30, 2017 and 2016, we made improvements, excluding tenant-funded improvements, to our properties totaling \$43.3 million and \$88.5 million, respectively.

Properties Held For Sale:

We classify all properties that meet the criteria outlined in the Property, Plant and Equipment Topic of the FASB ASC as held for sale on our condensed consolidated balance sheets. As of September 30, 2017 and December 31, 2016, we had no properties classified as held for sale.

During the year ended December 31, 2016, we sold 30 properties (62 buildings) with a combined 8.0 million square feet for an aggregate gross sales price of \$1.3 billion, excluding closing costs.

Note 4. Marketable Securities

All of our marketable securities are classified as available-for-sale and consist of United States Treasury notes, which mature in 2019, and common stock. Available-for-sale securities are presented on our condensed consolidated balance sheets at fair value. Changes in values of these securities are recognized in accumulated other comprehensive income (loss). Realized gains and losses are recognized in earnings only upon the sale of the securities.

We evaluate our marketable securities for impairment each reporting period. For securities with unrealized losses, we review the underlying cause of the decline in value and the estimated recovery period, as well as the severity and duration of the decline. In our evaluation, we consider our ability and intent to hold these investments for a reasonable period of time sufficient for us to recover our cost basis. To the extent an other-than-temporary impairment is deemed to have occurred, an impairment charge is recorded and a new cost basis is established.

Note 5. Indebtedness

Unsecured Revolving Credit Facility and Term Loan:

We are party to a credit agreement pursuant to which the lenders agreed to provide a \$750.0 million unsecured revolving credit facility, a \$200.0 million 5-year term loan facility, and a \$200.0 million 7-year term loan facility. The revolving credit facility has a scheduled maturity date of January 28, 2019, which maturity date may be extended for up to two additional periods of six months at our option subject to satisfaction of certain conditions and the payment of an extension fee of 7.5 basis points of the aggregate amount available under the revolving credit facility. The 5-year term loan and the 7-year term loan have scheduled maturity dates of January 28, 2020 and January 28, 2022, respectively.

The credit agreement permits us to utilize up to \$100.0 million of the revolving credit facility for the issuance of letters of credit. Amounts outstanding under the credit agreement generally may be prepaid at any time without premium or penalty, subject to certain exceptions. We have the right to request increases in the aggregate maximum amount of borrowings available under the revolving credit facility and term loans up to an additional \$1.15 billion, subject to certain conditions.

Borrowings under the 5-year term loan and 7-year term loan will, subject to certain exceptions, bear interest at a LIBOR rate plus a margin of 90 to 180 basis points for the 5-year term loan and 140 to 235 basis points for the 7-year term loan, in each case depending on our credit rating. Borrowings under the revolving credit facility will, subject to certain exceptions, bear interest at a rate equal to, at our option, either a LIBOR rate or a base rate plus a margin of 87.5 to 155 basis points for LIBOR rate advances and 0 to 55 basis points for base rate advances, in each case depending on our credit rating. In addition, we are required to pay a facility fee of 12.5 to 30 basis points, depending on our credit rating, on the borrowings available under the revolving credit facility, whether or not utilized.

Borrowings under our revolving credit facility currently bear interest at LIBOR plus a spread, which was 125 basis points as of September 30, 2017. As of September 30, 2017, the interest rate payable on borrowings under our revolving credit facility was 2.48%. As of September 30, 2017, we had no balance outstanding and \$750.0 million available under our revolving credit facility and the facility fee as of September 30, 2017 was 25 basis points. Our term loans currently bear interest at a rate of LIBOR plus a spread, which was 140 and 180 basis points for the 5-year and 7-year term loan, respectively, as of September 30, 2017. As of September 30, 2017, the interest rates for the amounts outstanding under our 5-year term loan and 7-year term loan were 2.63% and 3.03%, respectively. As of September 30, 2017, we had \$200.0 million outstanding under each of our 5-year and 7-year term loans.

Debt Covenants:

Our public debt indenture and related supplements and our credit agreement contain a number of financial and other covenants, including covenants that restrict our ability to incur indebtedness or to make distributions under certain circumstances and require us to maintain financial ratios and a minimum net worth. At September 30, 2017, we believe we were in compliance with all of our respective covenants under our public debt indenture and related supplements and our credit agreement.

Senior Unsecured Notes:

At September 30, 2017, we had senior unsecured notes of \$425.0 million (excluding net discounts and unamortized deferred financing fees) maturing from 2020 through 2042.

On July 15, 2017, we redeemed at par \$250.0 million of our 6.65% senior unsecured notes due 2018 and recognized a loss on early extinguishment of debt of \$0.2 million from the write off of unamortized deferred financing fees and the write off of an unamortized discount.

Mortgage Notes Payable:

At September 30, 2017, three of our properties with an aggregate net book value of \$63.5 million had secured mortgage notes totaling \$35.0 million (including net premiums and unamortized deferred financing fees) maturing from 2021 through 2026.

In April 2017, we repaid at par \$41.3 million of mortgage debt at Parkshore Plaza and recognized a loss on early extinguishment of debt of \$0.1 million from prepayment fees and the write off of unamortized deferred financing fees, net of the write off of an unamortized premium.

Note 6. Shareholders' Equity

Common Share Issuances:

See Note 11 for information regarding equity issuances related to share-based compensation.

Common Share Repurchases:

On March 17, 2016, our Board of Trustees authorized the repurchase of up to \$150.0 million of our outstanding common shares over the twelve month period following the date of authorization. In March 2017, this share repurchase authorization, of which \$106.6 million was not utilized, expired. On March 15, 2017, our Board of Trustees authorized the repurchase of up to an additional \$150.0 million of our outstanding common shares over the twelve month period following the date of authorization. During the nine months ended September 30, 2017, we did not purchase any common shares.

During the nine months ended September 30, 2017, certain of our employees surrendered 6,694 common shares owned by them to satisfy their statutory tax withholding obligations in connection with the vesting of such common shares under the Equity Commonwealth 2015 Omnibus Incentive Plan, as amended (the 2015 Incentive Plan).

Preferred Share Redemption:

On May 15, 2016, we redeemed all of our 11,000,000 outstanding series E preferred shares at a price of \$25.00 per share, for a total of \$275.0 million, plus any accrued and unpaid dividends. The redemption payment occurred on May 16, 2016 (the first business day following the redemption date). We recorded \$9.6 million related to the excess fair value of consideration paid over the carrying value of the preferred shares as a reduction to net income attributable to common shareholders for the nine months ended September 30, 2016.

Preferred Share Distributions:

In 2017, our Board of Trustees declared distributions on our series D preferred shares to date as follows:

Declaration Date	Record Date	Payment Date	Series D Dividend Per Share
January 12, 2017	January 30, 2017	February 15, 2017	\$0.40625

Edgar Filing: Equity Commonwealth - Form 10-Q

June 30, 2017	July 28, 2017	August 15, 2017	\$0.40625
October 12, 2017	October 30, 2017	November 15, 2017	\$0.40625

Note 7. Noncontrolling Interest

Noncontrolling interest represents the portion of the units in the Operating Trust not beneficially owned by the Company. An operating partnership unit (OP Unit) and a share of our common stock have essentially the same economic characteristics. Distributions with respect to OP Units will generally mirror distributions with respect to the Company's common shares. Unitholders (other than the Company) generally have the right, commencing six months from the date of issuance of such OP Units, to cause the Operating Trust to redeem their OP Units in exchange for cash or, at the option of the Company, common shares of the Company on a one-for-one basis. As sole trustee, the Company will have the sole discretion to elect whether the

Table of Contents

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

redemption right will be satisfied by the Company in cash or the Company's common shares. As a result, the Noncontrolling interest is classified as permanent equity. As of September 30, 2017, the portion of the Operating Trust not beneficially owned by the Company is in the form of LTIP Units (see Note 11 for a description of LTIP Units). LTIP Units may be subject to additional vesting requirements.

The following table presents the changes in Equity Commonwealth's issued and outstanding common shares and units for the nine months ended September 30, 2017:

	Common Shares	LTIP Units	Total
Outstanding at January 1, 2017	123,994,465	—	123,994,465
Restricted share and time-based LTIP Unit grants, net of forfeitures	94,978	42,520	137,498
Outstanding at September 30, 2017	124,089,443	42,520	124,131,963
Noncontrolling ownership interest in the Operating Trust			0.03 %

The carrying value of the Noncontrolling interest is allocated based on the number of LTIP Units in proportion to the number of LTIP Units plus the number of common shares. We adjust the noncontrolling interest balance at the end of each period to reflect the noncontrolling partners' interest in the net assets of the Operating Trust. Net income is allocated to the Noncontrolling interest in the Operating Trust based on the weighted average ownership percentage during the period. Equity Commonwealth's weighted average ownership interest in the Operating Trust was 99.97% and 99.97% for the three and nine months ended September 30, 2017.

Note 9. Income Taxes

We have elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, and are generally not subject to federal and state income taxes provided we distribute a sufficient amount of our taxable income to our shareholders and meet other requirements for qualifying as a REIT. We are also subject to certain state and local taxes without regard to our REIT status. We have a net operating loss carryforward from prior years and we have fully reserved the associated deferred tax assets due to the uncertainty of our ability to utilize the net operating losses in the future.

Note 10. Derivative Instruments

Risk Management Objective of Using Derivatives

We are exposed to certain risks relating to our ongoing business operations, including the effect of changes in interest rates. The only risk we currently manage by using derivative instruments is related to our interest rate risk.

We may use derivative financial instruments, including interest rate swaps, caps, options, floors and other interest rate derivative contracts, to hedge all or a portion of the interest rate risk associated with our borrowings. The principal

objective of such arrangements is to minimize the risks and/or costs associated with our operating and financial structure as well as to hedge specific anticipated transactions. We do not intend to utilize derivatives for speculative or other purposes other than interest rate risk management. The use of derivative financial instruments carries certain risks, including the risk that the counterparties to these contractual arrangements are not able to perform under the agreements. To mitigate this risk, we only enter into derivative financial instruments with counterparties with high credit ratings or with major financial institutions with which we and our affiliates may also have other financial relationships. We do not anticipate that any of the counterparties will fail to meet their obligations.

Cash Flow Hedges of Interest Rate Risk

Our objectives in using interest rate derivatives are to add stability to interest expense and to manage our exposure to interest rate movements. To accomplish this objective, we use interest rate caps, as part of our interest rate risk management strategy. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts if interest rates rise above the cap strike rate.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in cumulative other comprehensive income (loss) and is subsequently reclassified into earnings in the period that the

Table of Contents

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

hedged forecasted transaction affects earnings. During 2017, such derivatives were used to hedge the variable cash flows associated with variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings.

Amounts reported in cumulative other comprehensive income (loss) related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the next twelve months, we estimate that an additional \$0.3 million will be reclassified from cumulative other comprehensive income (loss) as an increase to interest expense.

On March 4, 2016, we purchased an interest rate cap with a LIBOR strike price of 2.50%. The interest rate cap, effective April 1, 2016, has a notional amount of \$400.0 million and a maturity date of March 1, 2019.

As of September 30, 2017, we had the following outstanding interest rate derivative that was designated as a cash flow hedge of interest rate risk:

Interest Rate Derivative	Number of Instruments	Notional Amount (in thousands)
Interest rate cap	1	\$ 400,000

The table below presents the fair value of our derivative financial instrument as well as its classification on the condensed consolidated balance sheets as of September 30, 2017 and December 31, 2016 (amounts in thousands):

Credit-risk-related Contingent Features

As of September 30, 2017, we did not have any derivatives in a net liability position including accrued interest but excluding any adjustment for nonperformance risk.

Note 11. Share-Based Compensation
Equity Commonwealth 2015 Omnibus Incentive Plan

Recipients of the Company's restricted shares have the same voting rights as any other common shareholder. During the period of restriction, the Company's unvested restricted shareholders are eligible to receive dividend payments on their shares at the same rate and on the same date as any other common shareholder. The restricted shares are service based awards and vest over a four-year period.

Recipients of the Company's restricted stock units (RSUs) are entitled to receive dividends with respect to the common shares underlying the RSUs if and when the RSUs are earned, at which time the recipient will be entitled to receive an amount in cash equal to the aggregate amount of cash dividends that would have been paid in respect of the common shares underlying the recipient's earned RSUs had such common shares been issued to the recipient on the first day of the performance period. To the extent that an award does not vest, the dividends related to unvested RSUs will be forfeited. The RSUs are market based

Table of Contents

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

awards with a service condition and recipients may earn RSUs based on the Company's total shareholder return (TSR) relative to the TSRs of the companies that comprise the NAREIT Office Index over a three year performance period. Following the end of the performance period, the number of earned awards will be determined. The earned awards vest in two tranches with 50% of the earned award vesting at the end of the performance period and the remaining 50% of the earned award vesting one year after the end of the performance period, subject to the grant recipient's continued employment. Compensation expense for the RSUs is determined using a Monte Carlo simulation model and is recognized ratably from the grant date to the vesting date of each tranche.

LTIP Units are a class of beneficial interests in the Operating Trust that may be issued to employees, officers, or trustees of the Operating Trust, the Company or their subsidiaries (LTIP Units). Time-based LTIP Units have the same general characteristics as restricted shares and market-based LTIP Units have the same general characteristics as RSUs. Each LTIP Unit will convert automatically into an OP Unit on a one-for-one basis when the LTIP Unit becomes vested and its capital account is equalized with the per-unit capital account of the OP Units. Holders of LTIP Units generally will be entitled to receive the same per-unit distributions as the other outstanding OP Units in the Operating Trust, except that market-based LTIP Units will not participate in distributions until expiration of the applicable performance period, at which time any earned market-based LTIP Units generally will become entitled to receive a catch-up distribution for the periods prior to such time.

2017 Equity Award Activity

On June 20, 2017, in accordance with the Company's compensation plan for independent Trustees, the Compensation Committee of our Board of Trustees (the Committee) awarded each of the nine independent Trustees \$0.1 million in restricted shares or time-based LTIP Units as part of their compensation for the 2017-2018 year of service on the Board of Trustees. These awards equated to 3,156 shares or time-based LTIP Units per Trustee, for a total of 25,248 shares and 3,156 time-based LTIP Units, valued at \$31.69 per share and unit, the closing price of our common shares on the NYSE on that day. These shares and time-based LTIP Units vest one year after the date of the award.

On January 24, 2017, the Committee approved a grant of 119,288 LTIP Units (which includes time-based LTIP Units and market-based LTIP Units), 76,424 restricted shares and 155,168 RSUs at target (386,756 RSUs at maximum) to the Company's officers, certain employees and to Mr. Zell, the Chairman of our Board of Trustees, as part of their compensation for fiscal year 2016. The LTIP Unit grant includes 39,364 time-based LTIP Units and 79,924 market-based LTIP Units at target (199,211 market-based LTIP Units at maximum). The restricted shares and time-based LTIP Units were granted on January 24, 2017 and were valued at \$31.47 per share, the closing price of our common shares on the NYSE on that day. The assumptions and fair values for the RSUs and market-based LTIP Units granted for the nine months ended September 30, 2017 are included in the following table on a per share and unit basis.

2016 Equity Award Activity

On June 15, 2016, in accordance with the Company's compensation plan for independent Trustees, the Committee awarded each of the nine independent Trustees \$0.1 million in restricted shares as part of their compensation for the

2016-2017 year of service on the Board of Trustees. These awards equated to 3,463 shares per Trustee, for a total of 31,167 shares, valued at \$28.88 per share, the closing price of our common shares on the NYSE on that day. These shares vest one year after the date of the award.

On January 26, 2016, the Committee approved a grant of 136,623 restricted shares and 277,386 RSUs at target (691,385 RSUs at maximum) to the Company's officers, certain employees and to Mr. Zell, the Chairman of our Board of Trustees, as part of their compensation for fiscal year 2015.

Outstanding Equity Awards

As of September 30, 2017, the estimated future compensation expense for all unvested restricted shares and time-based LTIP Units was \$11.3 million. Compensation expense for the restricted share and time-based LTIP Unit awards is being recognized on a straight-line basis over the requisite service period for each separately vesting portion of the award. The weighted average period over which the future compensation expense will be recorded for the restricted shares and time-based LTIP units is approximately 1.9 years.

As of September 30, 2017, the estimated future compensation expense for all unvested RSUs and market-based LTIP Units was \$17.9 million. The weighted average period over which the future compensation expense will be recorded for the RSUs and market-based LTIP Units is approximately 2.0 years.

During the three months ended September 30, 2017 and 2016, we recorded \$5.6 million and \$4.9 million, respectively, and during the nine months ended September 30, 2017 and 2016, we recorded \$16.3 million and \$13.9 million, respectively, of compensation expense, net of forfeitures, in general and administrative expense for grants to our Trustees and employees related to our 2015 Incentive Plan. At September 30, 2017, 1,628,305 shares/units remain available for issuance under the 2015 Incentive Plan.

Note 12. Fair Value of Assets and Liabilities

The table below presents assets measured at fair value during 2017, categorized by the level of inputs used in the valuation of the assets (dollars in thousands):

Description	Total	Fair Value at September 30, 2017 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Other Significant Unobservable Inputs (Level 3)
Recurring Fair Value Measurements:				
Interest rate cap contract	\$ 14	\$ —	\$ 14	\$ —
Marketable securities	\$ 279,626	\$ 279,626	\$ —	\$ —

Interest Rate Cap Contract

The fair value of our interest rate cap contract is determined using the net discounted cash flows of the derivative based on the market based interest rate curve (level 2 inputs) and adjusted for our credit spread and the actual and estimated credit spreads of the counterparties (level 3 inputs). Although we have determined that the majority of the inputs used to value our derivative fall within level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivative utilize level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by us and the counterparties. As of September 30, 2017, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivative position and have determined that the credit valuation adjustments are not significant to the overall valuation of our derivative. As a result, we have determined that our derivative valuation in its entirety is classified as level 2 inputs in the fair value hierarchy.

Properties Held and Used and Properties Held for Sale

As part of our office repositioning strategy adopted by our Board of Trustees in December 2016, and pursuant to our accounting policy, in 2017, we evaluated the recoverability of the carrying values of each of the real estate assets that

comprised our portfolio and determined that due to the shortening of the expected periods of ownership as a result of the office repositioning strategy and current estimates of market value less estimated costs to sell, it was necessary to reduce the net book value of a portion of the real estate assets in our portfolio to their estimated fair values. We anticipate the potential disposition of certain properties prior to the end of their remaining useful lives. As a result, in the first quarter of 2017, we recorded an impairment charge related to 25 S. Charles Street of \$1.3 million in accordance with our impairment analysis procedures. We determined this impairment based on third party offer prices, which are level 2 inputs according to the fair value hierarchy established in ASC 820. We reduced the aggregate carrying value of this property from \$24.6 million to its estimated fair value less estimated costs to sell of \$23.3 million. This property was sold in April 2017 (see Note 3 for additional information). In

Table of Contents

EQUITY COMMONWEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

the second quarter of 2017, we recorded an impairment charge related to the Five Property Portfolio held for sale as of June 30, 2017 of \$18.4 million in accordance with our impairment analysis procedures. We determined this impairment based on third party offer prices, which are level 2 inputs according to the fair value hierarchy established in ASC 820. We reduced the aggregate carrying value of these properties from \$99.0 million to their estimated fair value less estimated costs to sell of \$80.6 million. We evaluated each of our properties and determined there were no additional valuation adjustments necessary at September 30, 2017.

Financial Instruments

In addition to the assets and liabilities described in the above table, our financial instruments include our cash and cash equivalents, real estate mortgages receivable, restricted cash, marketable securities, senior unsecured debt and mortgage notes payable. At September 30, 2017 and December 31, 2016, the fair value of these additional financial instruments were not materially different from their carrying values, except as follows (in thousands):

	September 30, 2017		December 31, 2016	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Senior unsecured debt and mortgage notes payable	\$859,317	\$878,403	\$1,151,634	\$1,167,031

The fair values of our senior notes and mortgage notes payable are based on estimates using discounted cash flow analyses and currently prevailing interest rates adjusted by credit risk spreads (level 3 inputs).

Other financial instruments that potentially subject us to concentrations of credit risk consist principally of rents receivable; however, as of September 30, 2017, no single tenant of ours is responsible for more than 8.0% of our total annualized rents.

Our derivative financial instruments, including interest rate swaps and cap, are entered with major financial institutions and we monitor the amount of credit exposure to any one counterparty.

Diluted	\$0.25	\$0.67	\$0.36	\$1.54
Anti-dilutive securities:				
Effect of Series D preferred shares; 6 1/2% cumulative convertible(2)	2,363	2,363	2,363	2,363

As of September 30, 2017, we had granted RSUs and LTIP Units to certain employees, officers, and trustees. The RSUs and LTIP Units contain service and market-based vesting components. None of the RSUs or LTIP Units have vested. If the market-based vesting component of these awards was measured as of September 30, 2017, and 2016, 1,085 and 1,035 common shares would be issued, respectively.

The Series D preferred shares are excluded from the diluted earnings per share calculation because including the Series D preferred shares would also require that the preferred distributions be added back to net income, resulting in anti-dilution during the periods presented.

Note 14. Segment Information

Our primary business is the ownership and operation of office properties, and we currently have one reportable segment. More than 95% of our revenues for the nine months ended September 30, 2017 are from office properties.

Note 15. Related Person Transactions

The following discussion includes a description of our related person transactions for the nine months ended September 30, 2017 and 2016.

Two North Riverside Plaza Joint Venture Limited Partnership: We have a lease with Two North Riverside Plaza Joint Venture Limited Partnership, an entity associated with Mr. Zell, our Chairman, to occupy office space on the twentieth and twenty-first floors of Two North Riverside Plaza in Chicago, Illinois (20th/21st Floor Office Lease). The initial term of the lease is approximately five years, with one 5-year renewal option. We have completed improvements to the office space utilizing the \$0.7 million tenant improvement allowance pursuant to the lease. In connection with the 20th/21st Floor Office Lease, we also have a lease with Two North Riverside Plaza Joint Venture Limited Partnership for storage space in the basement of Two North Riverside Plaza. The lease expires December 31, 2020; however, each party has the right to terminate on 30 days' prior written notice. During the three months ended September 30, 2017 and 2016, we recognized expense of \$0.2 million and \$0.2 million, respectively, and during the nine months ended September 30, 2017 and 2016, we recognized expense of \$0.6 million and \$0.6 million, respectively, pursuant to the 20th/21st Floor Office Lease and the related storage space.

Related/Corvex: On July 31, 2014, at our 2014 annual meeting of shareholders, our shareholders voted to approve the reimbursement of approximately \$33.5 million of verified expenses incurred by Related Fund Management, LLC and Corvex Management LP (Related/Corvex) beginning February 2013 in connection with their consent solicitations to remove our former Trustees, elect the new Board of Trustees and to engage in related litigation. We paid approximately \$16.7 million during the year ended December 31, 2014. Approximately \$8.4 million was to be reimbursed only if the average closing price of our common shares was at least \$26.00 (as adjusted for any share splits or share dividends) during the one year period after the date on which the reimbursement was approved by shareholders, and up to \$8.4 million was to be reimbursed only if the average closing price of our common shares was at least \$26.00 (as adjusted for any share splits or share dividends) during the one year period between the first and second anniversaries of the date on which the reimbursement was approved by shareholders. The average closing price of our common shares was at least \$26.00 during both the first and second one year periods after the date on which the reimbursement was approved by shareholders, and as a result, in August 2016 and 2015 we paid an \$8.2 million final payment and \$8.4 million, respectively, to Related/Corvex.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with our consolidated financial statements and accompanying notes included in this Quarterly Report, and in our Annual Report.

FORWARD-LOOKING STATEMENTS

Some of the statements contained in this Quarterly Report constitute forward-looking statements within the meaning of the federal securities laws. Any forward-looking statements contained in this Quarterly Report are intended to be made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In particular, statements pertaining to our capital resources, portfolio performance and results of operations contain forward-looking statements. Likewise, all of our statements regarding anticipated growth in market conditions are forward-looking statements. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” or “potential” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions.

The forward-looking statements contained in this Quarterly Report reflect our current views about future events and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause our actual results to differ significantly from those expressed in any forward-looking statement. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements, see the section entitled “Risk Factors” in our Annual Report on Form 10-K.

OVERVIEW

We are an internally managed and self-advised REIT primarily engaged in the ownership and operation of office buildings throughout the United States. We were formed in 1986 under Maryland law. On November 10, 2016, we converted to what is commonly referred to as an umbrella partnership real estate investment trust, or UPREIT, structure. Substantially all of the Company’s assets and liabilities are now held in an Operating Trust through which the Company conducts its business.

At September 30, 2017, our portfolio included 20 properties (44 buildings) and one land parcel, with a combined 11.0 million square feet for a total investment of \$2.1 billion at cost and a depreciated book value of \$1.5 billion. As of September 30, 2017, we had \$2.5 billion of cash and cash equivalents and marketable securities.

As of September 30, 2017, our overall portfolio was 88.3% leased. During the three months ended September 30, 2017, we entered into leases for 273,000 square feet, including lease renewals for 81,000 square feet and new leases for 192,000 square feet. Renewal leases entered into during the three months ended September 30, 2017 had weighted average cash and GAAP rental rates that were approximately 3.7% higher and 10.9% higher, respectively, as compared to prior rental rates for the same space, and new leases entered into during the three months ended September 30, 2017 had weighted average cash and GAAP rental rates that were approximately 1.5% higher and 6.4% higher, respectively, than prior rental rates for the same space. The change in GAAP rents is different than the change

in cash rents due to differences in the amount of rent abatements, the magnitude and timing of contractual rent increases over the lease term, and the years of term for the newly executed leases compared to the prior leases.

During the year ended December 31, 2016, we sold 30 properties (62 buildings) with a combined 8.0 million square feet for an aggregate gross sales price of \$1.3 billion, excluding closing costs. During the nine months ended September 30, 2017, we sold 13 properties (20 buildings) and one land parcel with a combined 5.1 million square feet for an aggregate gross sales price of \$755.7 million, excluding closing costs. We have generated significant proceeds from our dispositions to date and have cash and cash equivalents and marketable securities of \$2.5 billion as of September 30, 2017. For more information regarding these transactions, see Note 3 to the notes to our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report. In addition, as our real estate investments have decreased, our income from operations has also declined.

Table of Contents

In connection with our office portfolio, in December 2016, our Board of Trustees adopted an office repositioning strategy to own and acquire at a discount to replacement cost high-quality, multi-tenant office assets in markets and sub-markets with favorable long-term supply and demand fundamentals. Our efforts within our office portfolio will primarily be focused on larger buildings in central business districts and major urban areas that offer an attractive quality of life, including opportunities for tenants to live and play in close proximity to where they work, with a preference for markets that have above average limitations on new supply.

While executing this strategy, depending on market conditions, we may sell additional properties and are seeking to acquire attractive properties in markets meeting the criteria above. With the progress we have had executing dispositions, and the strength and liquidity of our balance sheet, we are in a position to increasingly shift our focus to capital allocation. We seek to use this capital to purchase new properties, repay debt, buy back common shares or make other investments or distributions that further our long-term strategic goals.

As we continue to reposition our portfolio, we expect our efforts will be balanced among leasing assets to create value, selling assets when we are able to achieve attractive pricing, and evaluating a wide range of opportunities to deploy capital. Our goal is to utilize the proceeds from asset dispositions to make new investments that will create shareholder value, but we may be unable to identify suitable opportunities. If we do not redeploy capital, we will strive to achieve an unwinding of the Company in a manner that optimizes shareholder value.

As part of the office repositioning strategy noted above, and pursuant to our accounting policy, in 2017, we evaluated the recoverability of the carrying values of each of the real estate assets that comprised our portfolio and determined that due to the shortening of the expected periods of ownership as a result of our office repositioning strategy and current estimates of market value, it was necessary to reduce the net book value of a portion of the real estate assets in our portfolio to their estimated fair values less estimated costs to sell. As a result, we recorded an impairment charge of \$19.7 million for the nine months ended September 30, 2017 in accordance with our impairment analysis procedures.

We have engaged CBRE, Inc. (CBRE) to provide property management services for our properties. We pay CBRE a property-by-property management fee and may engage CBRE from time-to-time to perform project management services, such as coordinating and overseeing the completion of tenant improvements and other capital projects at the properties. We reimburse CBRE for certain expenses incurred in the performance of its duties, including certain personnel and equipment costs.

For the three months ended September 30, 2017 and 2016, we incurred expenses of \$4.0 million and \$6.3 million, respectively, and for the nine months ended September 30, 2017 and 2016, we incurred expenses of \$14.1 million and \$20.6 million, respectively, related to our property management agreement with CBRE, for property management fees, typically calculated as a portion of the properties' revenues, and salary and benefits reimbursements for property personnel, such as property managers, engineers and maintenance staff. As of September 30, 2017 and December 31, 2016, we had amounts payable pursuant to these services of \$2.1 million and \$2.7 million, respectively.

Table of Contents

The weighted average lease term based on square feet for leases entered into during the three months ended September 30, 2017 was 7.5 years. Commitments made for leasing expenditures and concessions, such as tenant improvements and leasing commissions, for leases entered into during the three months ended September 30, 2017 totaled \$11.0 million, or \$40.37 per square foot on average (approximately \$5.35 per square foot per year of the lease term).

As of September 30, 2017, approximately 1.3% of our leased square feet and 1.1% of our annualized rental revenue, determined as set forth below, are included in leases scheduled to expire through December 31, 2017. Renewed and new leases and rental rates at which available space may be relet in the future will depend on prevailing market conditions at the times these leases are negotiated. We believe that the in-place cash rents for leases expiring for the remainder of 2017 are below market. Lease expirations by year, as of September 30, 2017, are as follows (square feet and dollars in thousands):

Year	Number of Tenants Expiring	Leased Square Feet Expiring(1)	% of Leased Square Feet Expiring(1)	Cumulative % of Leased Square Feet Expiring(1)	Annualized Rental Revenue Expiring(2)	% of Annualized Rental Revenue Expiring	Cumulative % of Annualized Rental Revenue Expiring

(1) Square footage is pursuant to existing leases as of September 30, 2017 and includes (i) space being fitted out for occupancy and (ii) space which is leased but is not occupied or is being offered for sublease.

Annualized rental revenue is annualized contractual rents from our tenants pursuant to leases which have commenced as of September 30, 2017, plus estimated recurring expense reimbursements; includes triple net lease rents and excludes lease value amortization, straight line rent adjustments, abated (free) rent periods and parking revenue. We calculate annualized rental revenue by aggregating the recurring billings outlined above for the most recent month during the quarter reported, adding abated rent, and multiplying the sum by 12 to provide an estimation of near-term potentially-recurring revenues. Annualized rental revenue is a forward-looking non-GAAP measure. Annualized rental revenue cannot be reconciled to a comparable GAAP measure without unreasonable efforts, primarily due to the fact that it is calculated from the billings of tenants in the most recent month at the most recent rental rates during the quarter reported, whereas historical GAAP measures include billings from a potentially different group of tenants over multiple months at potentially different rental rates.

A principal source of funds for our operations is rents from tenants at our properties. Rents are generally received from our tenants monthly in advance, except from our government tenants, who usually pay rents monthly in arrears. As of September 30, 2017, tenants representing 1.5% or more of our total annualized rental revenue were as follows (square feet in thousands):

Financing Activities

In April 2017, we repaid at par \$41.3 million of mortgage debt at Parkshore Plaza and recognized a loss on early extinguishment of debt of \$0.1 million from prepayment fees and the write off of unamortized deferred financing fees, net of the write off of an unamortized premium.

On July 15, 2017, we redeemed at par \$250.0 million of our 6.65% senior unsecured notes due 2018 and recognized a loss on early extinguishment of debt of \$0.2 million from the write off of unamortized deferred financing fees and the write off of an unamortized discount.

We define net operating income, or NOI, as shown above, as income from our real estate including lease termination fees received from tenants less our property operating expenses. NOI excludes amortization of capitalized tenant improvement costs and leasing commissions. We consider NOI to be an appropriate supplemental measure to net income because it may help both investors and management to understand the operations of our properties. We use NOI internally to evaluate property level performance, and we believe that NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level and may facilitate comparisons of our operating performance between periods and with other REITs. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered as an alternative to net income, net income attributable to Equity Commonwealth common shareholders, operating income or cash flow from operating activities, determined in accordance with GAAP, or as an indicator of our financial performance or liquidity, nor is this measure necessarily indicative of sufficient cash flow to fund all of our needs. This measure should be considered in conjunction with net income, net income attributable to Equity Commonwealth common shareholders, operating income and cash flow from operating activities as presented in our consolidated statements of operations, consolidated statements of comprehensive income and consolidated statements of cash flows. Other REITs and real estate companies may calculate NOI differently than we do.

We refer to the 20 properties (44 buildings) we owned continuously from July 1, 2016 to September 30, 2017, as comparable properties. We refer to the sold properties as other properties. Our condensed consolidated statements of operations for the three months ended September 30, 2017 and 2016 include the operating results of 20 properties for the entire periods, as we owned these properties as of July 1, 2016.

Table of Contents

Rental income. Rental income decreased \$31.6 million, or 34.1%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Rental income increased \$2.0 million, or 3.7%, at the comparable properties due to an increase in lease termination revenue and an increase in rents resulting from new leasing activity, partially offset by several large tenant lease expirations.

Rental income includes increases for straight line rent adjustments totaling \$3.6 million in the 2017 period and \$3.0 million in the 2016 period, and net reductions for amortization of acquired real estate leases and assumed real estate lease obligations totaling \$0.4 million in the 2017 period and \$0.9 million in the 2016 period. Rental income also includes the recognition of lease termination fees totaling \$1.5 million in the 2017 period and \$1.8 million in the 2016 period.

Tenant reimbursements and other income. Tenant reimbursements and other income decreased \$5.2 million, or 23.7%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Tenant reimbursements and other income increased \$0.1 million, or 0.8%, at the comparable properties primarily due to an increase in reimbursements related to new leasing activity, partially offset by a decrease in utility expense.

Operating expenses. Operating expenses decreased \$16.9 million, or 34.3%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Operating expenses increased \$0.3 million, or 0.9%, at the comparable properties primarily due to an increase in real estate tax expense and an increase in maintenance and repairs, partially offset by a decrease in utility expense due to the milder weather in 2017 and a decrease in tenant usage.

Depreciation and amortization. Depreciation and amortization decreased \$8.1 million, or 27.6%, in the 2017 period, compared to the 2016 period primarily due to properties sold in 2017 and 2016.

General and administrative. General and administrative expenses decreased \$1.6 million, or 12.0%, in the 2017 period, compared to the 2016 period, primarily due to \$1.7 million of compensation expenses in the 2016 period relating to a staffing reduction, and decreases in payroll and legal expenses, partially offset by a \$0.9 million increase in share-based compensation expense.

Operating income. Operating income decreased \$10.3 million, or 44.9%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016.

Interest and other income. Interest and other income increased \$4.6 million in the 2017 period, compared to the 2016 period, primarily due to additional interest received on higher invested balances and higher average interest rates in 2017.

Interest expense. Interest expense decreased \$9.9 million, or 46.3%, in the 2017 period, compared to the 2016 period, primarily due to the repayment of the \$167.8 million mortgage debt at 1735 Market Street in November 2016, the prepayment of \$250.0 million of our 6.25% senior unsecured notes in December 2016, the repayment of the \$41.3 million mortgage debt at Parkshore Plaza in April 2017, the prepayment of \$250.0 million of our 6.65% senior unsecured notes in July 2017, partially offset by an increase in interest expense related to our term loans as a result of an increase in interest rates.

Loss on early extinguishment of debt. The loss on early extinguishment of debt of \$0.2 million in the 2017 period reflects the write off of unamortized deferred financing fees and the write off of an unamortized discount related to our repayment at par of \$250.0 million of our 6.65% senior unsecured notes due 2018.

(1) Comparable properties consist of 20 properties (44 buildings) we owned continuously from January 1, 2016 to September 30, 2017.

(2) Other properties consist of properties sold.

(3) See Note 3 on page 25 for further information regarding NOI.

We refer to the 20 properties (44 buildings) we owned continuously from January 1, 2016 to September 30, 2017, as comparable properties. We refer to the sold properties as other properties. Our condensed consolidated statements of operations for the nine months ended September 30, 2017 and 2016 include the operating results of 20 properties for the entire periods, as we owned these properties as of January 1, 2016.

Rental income. Rental income decreased \$108.7 million, or 33.5%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Rental income at the comparable properties increased \$3.7 million, or 2.3%, due to an increase in lease termination fees and an increase in rents resulting from new leasing activity, partially offset by several large tenant lease expirations and lease contractions.

Rental income includes increases for straight line rent adjustments totaling \$12.5 million in the 2017 period and \$12.4 million in the 2016 period, and net reductions for amortization of acquired real estate leases and assumed real estate lease obligations totaling \$1.5 million in the 2017 period and \$5.9 million in the 2016 period. Rental income also includes the recognition of lease termination fees totaling \$4.0 million in the 2017 period and \$19.6 million in the 2016 period.

Table of Contents

Tenant reimbursements and other income. Tenant reimbursements and other income decreased \$19.5 million, or 26.8%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Tenant reimbursements and other income increased \$2.2 million, or 4.5%, at our comparable properties primarily due to an increase in real estate tax reimbursements and an increase in reimbursements related to new leasing activity, partially offset by a decrease in utility expense.

Operating expenses. Operating expenses decreased \$47.2 million, or 29.9%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016. Operating expenses increased \$5.7 million, or 6.7%, at the comparable properties primarily due to an increase in real estate tax expense, partially offset by a decrease in utility expense due to the milder weather in 2017 and a decrease in tenant usage.

Depreciation and amortization. Depreciation and amortization decreased \$30.8 million, or 30.0%, in the 2017 period, as compared to the 2016 period, primarily due to the properties sold in 2017 and 2016.

General and administrative. General and administrative expenses decreased \$3.0 million, or 7.8%, in the 2017 period, compared to the 2016 period, primarily due to \$1.7 million of compensation expenses in the 2016 period related to a staffing reduction, a \$1.0 million decrease related to the shareholder approved reimbursement of expenses incurred by Related/Corvex in connection with their consent solicitation to remove our former Trustees and decreases in technology, payroll and legal expenses, partially offset by a \$2.7 million increase in share-based compensation expense.

Loss on asset impairment. We recorded impairment charges of \$19.7 million in the 2017 period related to 25 S. Charles Street and the Five Property Portfolio, based upon the shortening of our expected period of ownership and updated market information in accordance with our impairment analysis procedures. We recorded impairment charges of \$43.7 million in the 2016 period related to 111 Monument Circle, 101-115 W. Washington Street and 100 East Wisconsin Avenue, based upon the shortening of our expected periods of ownership and updated market information in accordance with our impairment analysis procedures.

Operating income. Operating income decreased \$23.1 million, or 42.9%, in the 2017 period, compared to the 2016 period, primarily due to the properties sold in 2017 and 2016, partially offset by a decrease in the loss on asset impairment.

Interest and other income. Interest and other income increased \$10.8 million in the 2017 period, as compared to the 2016 period, primarily due to additional interest received on higher invested balances and higher average interest rates in 2017.

Interest expense. Interest expense decreased \$23.7 million, or 36.4%, in the 2017 period, compared to the 2016 period, primarily due to the prepayment of \$139.1 million of our 6.25% senior unsecured notes in February 2016, the repayment of the \$167.8 million mortgage debt at 1735 Market Street in November 2016, the prepayment of \$250.0 million of our 6.25% senior unsecured notes in December 2016, the repayment of the \$41.3 million mortgage debt at Parkshore Plaza, the prepayment of \$250.0 million of our 6.65% senior unsecured notes in July 2017 and a decrease in amortization of deferred financing fees, partially offset by an increase in interest expense related to our term loans as a result of an increase in interest rates.

Loss on early extinguishment of debt. The loss on early extinguishment of debt of \$0.3 million in the 2017 period reflects prepayment fees and the write off of unamortized deferred financing fees, net of the write off of an unamortized premium related to our repayment at par of \$41.3 million of mortgage debt at Parkshore Plaza and the write off of unamortized deferred financing fees and the write off of an unamortized discount related to our repayment at par of \$250.0 million of our 6.65% senior unsecured notes due 2018. The loss on early extinguishment of debt of

Edgar Filing: Equity Commonwealth - Form 10-Q

\$0.1 million in the 2016 period reflects the write-off of an unamortized discount and unamortized deferred financing fees related to our redemption of \$139.1 million of our 6.25% senior unsecured notes due 2016.

LIQUIDITY AND CAPITAL RESOURCES

Our Operating Liquidity and Resources

As of September 30, 2017, we had \$2.5 billion of cash and cash equivalents and marketable securities. We expect to use our cash balances, cash flow from our operations and proceeds of any future property sales to fund our operations, repay debt, make distributions, purchase our common shares, acquire assets or entities, fund tenant improvements and leasing costs and for other general business purposes. We believe our cash balances and the cash flow from our operations will be sufficient to fund our ordinary course activities.

Our future cash flows from operating activities will depend primarily upon our:

- ability to maintain or improve the occupancy of, and the rental rates at, our properties;
- ability to control operating and financing cost increases at our properties; and
- ability to purchase additional properties, consistent with our office repositioning strategy, which produce rents, less property operating expenses, in excess of our costs of acquisition capital.

Volatility in energy costs and real estate taxes may cause our future operating costs to fluctuate; however, the impact of these fluctuations is expected to be partially offset by the pass through of operating costs to our tenants pursuant to lease terms, although there can be no assurance that we will be able to successfully offset these costs or that doing so would not negatively impact our competitive position or business.

Cash flows provided by (used in) operating, investing and financing activities were \$64.3 million, \$372.7 million and \$(298.6) million, respectively, for the nine months ended September 30, 2017, and \$116.7 million, \$943.9 million and \$(458.2) million, respectively, for the nine months ended September 30, 2016. Changes in these three categories of our cash flows between 2017 and 2016 are primarily related to a decrease in property net operating income, real estate improvements, dispositions of properties, purchase of marketable securities, redemption of preferred shares, repayments of debt and repurchase of our common shares.

Our Investment and Financing Liquidity and Resources

In order to maintain financial flexibility, to fund potential acquisitions and to meet cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions and investments or pay operating or capital expenses, we maintain an unsecured revolving credit facility with a group of institutional lenders. Our credit agreement provides us with (i) a \$750.0 million unsecured revolving credit facility, (ii) a \$200.0 million 5-year term loan facility and (iii) a \$200.0 million 7-year term loan facility. The revolving credit facility has a scheduled maturity date of January 28, 2019, which maturity date may be extended for up to two additional periods of six months at our option subject to satisfaction of certain conditions and the payment of an extension fee of 7.5 basis points of the aggregate amount available under the revolving credit facility. The 5-year term loan and the 7-year term loan have scheduled maturity dates of January 28, 2020 and January 28, 2022, respectively.

Borrowings under our revolving credit facility currently bear interest at LIBOR plus a spread, which was 125 basis points as of September 30, 2017. We also pay a facility fee of 25 basis points per annum on the total amount of lending commitments under our revolving credit facility. Both the interest rate spread and the facility fee are subject to adjustment based upon changes to our credit ratings. We are allowed to borrow, repay and reborrow funds available under our revolving credit facility until maturity, and no principal repayment is due until maturity. As of September 30, 2017, the interest rate payable on borrowings under our revolving credit facility was 2.48%. As of

Edgar Filing: Equity Commonwealth - Form 10-Q

September 30, 2017, we had no balance outstanding under our revolving credit facility.

Our term loans currently bear interest at a rate of LIBOR plus a spread, which was 140 and 180 basis points for the 5-year and 7-year term loan, respectively, as of September 30, 2017. The interest rate spread is subject to adjustment based upon changes to our credit ratings. As of September 30, 2017, the interest rate for the amounts outstanding under our term loan was 2.63% and 3.03% for the 5-year and 7-year term loan, respectively. As of September 30, 2017, our 5-year and 7-year term loans each had outstanding balances of \$200.0 million.

Table of Contents

During the nine months ended September 30, 2017, we paid an aggregate of \$6.0 million of distributions on our series D preferred shares. On October 12, 2017, we announced that our Board of Trustees declared a dividend of \$0.40625 per series D preferred share, which is expected to be paid on November 15, 2017 to shareholders of record on October 30, 2017.

On March 17, 2016, our Board of Trustees authorized the repurchase of up to \$150.0 million of our outstanding common shares over the twelve month period following the date of authorization. In March 2017, this share repurchase authorization, of which \$106.6 million was not utilized, expired. On March 15, 2017, our Board of Trustees authorized the repurchase of up to an additional \$150.0 million of our outstanding common shares over the twelve month period following the date of authorization. During the nine months ended September 30, 2017, we did not purchase any common shares.

During the nine months ended September 30, 2017, we purchased \$276.2 million of marketable securities. For further information about our marketable securities, see Note 4 to the notes to our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

Our outstanding debt maturities and weighted average interest rates as of September 30, 2017, were as follows (dollars in thousands):

(1) Total debt outstanding as of September 30, 2017, including net unamortized premiums and discounts and net unamortized deferred financing costs, equals \$850,576.

(2) Weighted based on current contractual interest rates.

(3) The 5.75% senior unsecured notes due 2042 are callable at par through maturity.

For further information about our indebtedness, see Note 5 to the notes to our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

When significant amounts are outstanding under our revolving credit facility, or as the maturity dates of our revolving credit facility and term debts approach, we explore alternatives to repay amounts due. Such alternatives may include incurring additional debt and issuing new equity securities, extending the maturity of our revolving credit facility and entering into a new revolving credit facility. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities.

We believe that we will have access to various types of financings, including debt or equity offerings, to fund any future acquisitions and to pay our debts and other obligations as they become due. The completion and the costs of any future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to space our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably foreseeable adverse changes. We intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities. However, there can be no assurance regarding our credit ratings or our ability to complete any debt or equity offerings or that our cost of any future public or private financings will not increase.

Table of Contents

During the nine months ended September 30, 2017, we sold 13 properties (20 buildings) and one land parcel with a combined 5,099,423 square feet for an aggregate sales price of \$755.7 million, excluding closing costs. For more information regarding these transactions, see Notes 3 to the notes to our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

During the three and nine months ended September 30, 2017 and 2016, amounts capitalized at our properties, including properties sold, for tenant improvements, leasing costs and building improvements were as follows (amounts in thousands):

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
Tenant improvements(1)	\$3,015	\$20,411	\$22,751	\$65,339
Leasing costs(2)	3,070	2,292	12,665	22,666
Building improvements(3)	8,469	8,942	20,569	23,196

(1) Tenant improvements include capital expenditures to improve tenants' spaces.

(2) Leasing costs primarily include brokerage commissions and legal expenses.

(3) Building improvements generally include expenditures to replace obsolete building components and expenditures that extend the useful life of existing assets. Tenant-funded capital expenditures are excluded.

During the three months ended September 30, 2017, commitments made for expenditures in connection with leasing space at our properties were as follows (dollar and square foot measures in thousands):

	New Leases	Renewals	Total
Rentable square feet leased during the period	192	81	273
Tenant improvements and leasing commissions	\$ 9,577	\$ 1,455	\$ 11,032
Tenant improvements and leasing commissions per rentable square foot	\$ 49.75	\$ 18.00	\$ 40.37
Weighted average lease term by square foot (years)	9.0	4.0	7.5
Total tenant improvements and leasing commissions per rentable square foot per year	\$ 5.51	\$ 4.51	\$ 5.35

Debt Covenants

Our unsecured debt obligations at September 30, 2017 were our term loans and our publicly issued senior unsecured notes. Our public debt indenture and related supplements and our credit agreement contain a number of financial ratio

covenants which generally restrict our ability to incur debts, in excess of calculated amounts, restrict our ability to make distributions under certain circumstances and require us to maintain other financial ratios. At September 30, 2017, we believe we were in compliance with all covenants under both our indenture and related supplements, and under our credit agreement. In addition to our unsecured debt obligations, we had \$35.0 million (including net unamortized premiums and net unamortized deferred financing costs) of mortgage notes outstanding at September 30, 2017.

None of our indenture and related supplements, our credit agreement, or our mortgage notes contain provisions for acceleration or require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our credit agreement.

Off Balance Sheet Arrangements

As of September 30, 2017, we had no off balance sheet arrangements that have had or that we expect would be reasonably likely to have a future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources. We had no swaps or hedges as of September 30, 2017, other than the interest rate cap described in Note 10 to the notes to our condensed consolidated financial statements, and under “Quantitative and Qualitative Disclosures About Market Risk” included in Part I, Item 3 of this Quarterly Report.

Funds from Operations (FFO) and Normalized FFO

We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT). NAREIT defines FFO as net income (loss), calculated in accordance with GAAP, excluding real estate depreciation and amortization, gains (or losses) from sales of depreciable property, impairment of depreciable real estate, and our portion of these items related to equity investees and non-controlling interests. Our calculation of Normalized FFO differs from

Table of Contents

NAREIT's definition of FFO because we exclude certain items that we view as nonrecurring or impacting comparability from period to period. We consider FFO and Normalized FFO to be appropriate measures of operating performance for a REIT, along with net income, net income attributable to Equity Commonwealth common shareholders, operating income and cash flow from operating activities.

We believe that FFO and Normalized FFO provide useful information to investors because by excluding the effects of certain historical amounts, such as depreciation expense, FFO and Normalized FFO may facilitate a comparison of our operating performance between periods and with other REITs. FFO and Normalized FFO do not represent cash generated by operating activities in accordance with GAAP and should not be considered as alternatives to net income, net income attributable to Equity Commonwealth common shareholders, operating income or cash flow from operating activities, determined in accordance with GAAP, or as indicators of our financial performance or liquidity, nor are these measures necessarily indicative of sufficient cash flow to fund all of our needs. These measures should be considered in conjunction with net income, net income attributable to Equity Commonwealth common shareholders, operating income and cash flow from operating activities as presented in our condensed consolidated statements of operations, condensed consolidated statements of comprehensive income and condensed consolidated statements of cash flows. Other REITs and real estate companies may calculate FFO and Normalized FFO differently than we do.

The following table provides a reconciliation of net income to FFO attributable to Equity Commonwealth common shareholders and unitholders and a calculation to Normalized FFO attributable to Equity Commonwealth common shareholders and unitholders (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

Property Net Operating Income (NOI)

We use property net operating income, or NOI, to evaluate the performance of our properties. We define NOI as income from our real estate including lease termination fees received from tenants less our property operating expenses. NOI excludes amortization of capitalized tenant improvement costs and leasing commissions and corporate level expenses.

Table of Contents

The following table includes the reconciliation of NOI to net income, the most directly comparable financial measure under GAAP reported in our consolidated financial statements. We consider NOI to be an appropriate supplemental measure to net income because we believe it helps to understand the operations of our properties. We use NOI internally to evaluate property level performance, and we believe that NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level and may facilitate comparisons of our operating performance between periods and with other REITs. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered as an alternative to net income, net income attributable to Equity Commonwealth common shareholders, operating income or cash flow from operating activities, determined in accordance with GAAP, or as an indicator of our financial performance or liquidity, nor is this measure necessarily indicative of sufficient cash flow to fund all of our needs. This measure should be considered in conjunction with net income, net income attributable to Equity Commonwealth common shareholders, operating income and cash flow from operating activities as presented in our consolidated statements of operations, consolidated statements of comprehensive income and consolidated statements of cash flows. Other REITs and real estate companies may calculate NOI differently than we do.

A reconciliation of NOI to net income for the three and nine months ended September 30, 2017 and 2016, is as follows (in thousands):

Related Person Transactions

For information about our related person transactions and about the risks that may arise as a result of these related person transactions and relationships, see Note 15 to the notes to our condensed consolidated financial statements included in Part I, Item 1 of this Quarterly Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to risks associated with market changes in interest rates, as set forth below.

Interest Rate Risk

We manage our exposure to interest rate risk by monitoring available financing alternatives. Other than as described below, we do not currently foresee any significant changes in our exposure to fluctuations in interest rates or in how we manage this exposure in the near future.

Table of Contents

At September 30, 2017, our outstanding fixed rate debt consisted of the following senior unsecured notes and secured mortgage notes (dollars in thousands):

Senior Unsecured Notes:

Debt	Principal Balance(1)	Annual Interest Rate(1)	Annual Interest Expense(1)	Maturity	Open at Par Date
5.875% senior unsecured notes due 2020	\$ 250,000	5.88 %	\$ 14,688	9/15/2020	3/15/2020
5.750% senior unsecured notes due 2042	175,000	5.75 %	10,063	8/1/2042	Open
	\$ 425,000		\$ 24,751		

The principal balance, annual interest rate and annual interest expense are the amounts stated in the applicable contracts. In accordance with GAAP, our carrying values and recorded interest expense may differ from these (1) amounts because of market conditions and issuance costs at the time we issued these debts. For more information, see Note 5 to the notes to our condensed consolidated financial statements included in Part I, Item I of this Quarterly Report.

No principal repayments are due under our senior unsecured notes until maturity.

Secured Mortgage Notes:

Debt	Principal Balance(1)	Annual Interest Rate(1)	Annual Interest Expense(1)	Maturity	Open at Par Date
206 East 9th Street	\$ 26,666	5.69 %	\$ 1,601	1/5/2021	7/5/2020
33 Stiles Lane	2,119	6.75 %	201	3/1/2022	12/1/2021
97 Newberry Road	5,532	5.71 %	378	3/1/2026	None
	\$ 34,317		\$ 2,180		

The principal balance, annual interest rate and annual interest expense are the amounts stated in the applicable contracts. In accordance with GAAP, our carrying values and recorded interest expense may differ from these (1) amounts because of market conditions and issuance costs at the time we assumed or issued these debts. For more information, see Note 5 to the notes to our condensed consolidated financial statements included in Part I, Item I of this Quarterly Report.

Some of our secured notes require principal and interest payments through maturity pursuant to amortization schedules, and one of our secured notes require interest only payments through maturity.

Swap Agreements

We have utilized and may utilize in the future interest rate swap agreements to manage our interest rate risk exposure on mortgage notes. We previously had interest rate swap agreements on mortgage debt, which required us to pay interest at a rate equal to a spread over LIBOR. These interest rate swap agreements effectively modified our exposure to interest rate risk arising from this floating rate mortgage loan by converting this floating rate debt to a fixed rate, thus reducing the impact of interest rate changes on future interest expense.

Cap Agreement

Edgar Filing: Equity Commonwealth - Form 10-Q

We entered into an interest rate cap agreement on March 4, 2016, effective April 1, 2016, to manage our interest rate risk exposure on \$400.0 million of floating rate debt, which requires us to pay interest at a rate equal to a spread over LIBOR. The interest rate cap has a maturity date of March 1, 2019. From and after the effective date, this interest rate cap agreement reduces our exposure to variability in expected future cash outflows attributable to changes in LIBOR, relating to a portion of our outstanding floating rate debt, by protecting us from increases in the hedged cash flows on our floating rate debt attributable to changes in LIBOR above the strike rate of the interest rate cap. As of September 30, 2017, the fair value of our derivative instruments included in other assets and cumulative other comprehensive income (loss) in our condensed consolidated balance sheet totaled \$14,000.

Table of Contents

Fixed Rate Debt

Because our fixed rate unsecured and secured notes bear interest at fixed rates, changes in market interest rates during the term of these debts will not affect our interest obligations. If all of these notes were refinanced at interest rates which are 100 basis points higher or lower than shown above, our per annum interest cost would increase or decrease, respectively, by approximately \$4.6 million.

Each of our fixed rate unsecured debt arrangements and some of our secured debt arrangements allow us to make repayments earlier than the stated maturity date. In some cases, we are not allowed to make early repayment prior to a cutoff date, and we are generally allowed to make prepayments only at a premium equal to a make whole amount, as defined, which is generally designed to preserve a stated yield to the note holder. Also, we have repurchased and retired some of our outstanding debts and we may do so again in the future. These prepayment rights and our ability to repurchase and retire outstanding debt may afford us opportunities to mitigate the risk of refinancing our debts at maturity at higher rates by refinancing prior to maturity.

Floating Rate Debt

At September 30, 2017, our outstanding floating rate debt consisted of our term loans. Our \$200.0 million 5-year term loan matures in January 2020 and our \$200.0 million 7-year term loan matures in January 2022. Borrowings under our revolving credit facility and term loan are in U.S. dollars and bear interest at LIBOR plus spreads that are subject to adjustment based upon changes to our credit ratings, but as of September 30, 2017, we had no balance outstanding and \$750.0 million available under our revolving credit facility. Accordingly, we are vulnerable to changes in U.S. dollar based short term rates, specifically LIBOR. Effective April 1, 2016, we entered into an interest rate cap agreement with respect to \$400.0 million of floating rate debt, as described above under "Cap Agreement." In addition, upon renewal or refinancing of our revolving credit facility or term loan, we are vulnerable to increases in interest rates due to market conditions or our perceived credit risk. Generally, a change in market interest rates would not affect the value of these floating rate debts, but would affect our operating results.

The following table presents the impact a 100 basis point increase in interest rates would have on our floating rate interest expense as of September 30, 2017 (dollars in thousands):

	Impact of Changes in Interest Rates		
	Interest Rate Per Year(1)	Outstanding Debt	Total Interest Expense Per Year
Term loans at September 30, 2017	2.63%/3.03%	\$ 400,000	\$ 11,329
100 basis point increase	3.63%/4.03%	\$ 400,000	\$ 15,329

(1)Based on the interest rates and outstanding borrowings of our floating rate debt as of September 30, 2017.

Foreign Currency Risk

As of September 30, 2017, we do not have any foreign currency risk.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our President and Chief Executive Officer and our Executive Vice President, Chief Financial Officer and Treasurer, of the effectiveness of our disclosure controls and procedures pursuant to the Securities Exchange Act of 1934, or the Exchange Act, Rules 13a-15 and 15d-15. Based upon that evaluation, our

Edgar Filing: Equity Commonwealth - Form 10-Q

President and Chief Executive Officer and our Executive Vice President, Chief Financial Officer and Treasurer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
