

BHP BILLITON LTD
Form 6-K
September 11, 2002

Further to the release of the BHP Billiton Group's Preliminary Financial Results for the year ended 30 June 2002 on 7 August, please find following the balance of the information required by the Listing Rules of the Australian Stock Exchange. The information is provided to you in accordance with the BHP Billiton Group policy of making such announcements to all stock exchanges on which BHP Billiton Limited and BHP Billiton Plc have primary or secondary listings. YOU SHOULD NOTE HOWEVER THAT THE INFORMATION HAS BEEN PREPARED IN ACCORDANCE WITH AUSTRALIAN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES. It is anticipated that the 2002 Annual Reports of BHP Billiton Limited and BHP Billiton Plc will be despatched to shareholders at the end of this month, together with the notices of shareholder meetings to be held on 4 November.

K J Wood - Company Secretary

BHP Billiton Group

2001/2002 FINANCIAL RESULTS

9 September 2002

The following information is provided in relation to the results for the year ended 30 June 2002.

Basis of presentation of financial information

On 29 June 2001, BHP Billiton Limited (previously known as BHP Limited), an Australian listed company, and BHP Billiton Plc (previously known as Billiton Plc), a UK listed company, entered into a Dual Listed Companies (DLC) merger. This was effected by contractual arrangements between the companies and amendments to their constitutional documents.

The effect of the DLC merger is that BHP Billiton Limited and its subsidiaries (the BHP Billiton Limited Group) and BHP Billiton Plc and its subsidiaries (the BHP Billiton Plc Group) operate together as a single economic entity (the BHP Billiton Group) from 29 June 2001, with neither assuming a dominant role.

Accounting and Reporting on the DLC Merger

In accordance with the Australian Investments and Securities Commission (ASIC) Practice Note 71 'Financial Reporting by Australian Entities in Dual-Listed Company Arrangements', and an order issued by ASIC under section 340 of the Corporations Act 2001 on 2 September 2002, this financial information presents the financial results of the BHP Billiton Group as follows:

- Results for the year ended 30 June 2002 are of the combined entity including both BHP Billiton Limited and its subsidiary companies and BHP Billiton Plc and its subsidiary companies;

Edgar Filing: BHP BILLITON LTD - Form 6-K

- Comparative period results are of BHP Billiton Limited and its subsidiary companies only, except for the Statement of Financial Position as at 30 June 2001 which includes both BHP Billiton Limited and its subsidiary companies and BHP Billiton Plc and its subsidiary companies; and
- Results are presented in US dollars unless otherwise stated.

Results for financial year 2002

Overview

The financial results for the year ended 30 June 2002 for the BHP Billiton Group demonstrate the financial strength of the merged group, exemplified by strong operating cash flow generation and underlying balance sheet strength.

Net profit attributable to members of the BHP Billiton Group for 2002 of US\$1 648 million was an increase of 49 per cent from the previous year (2001: US\$1 109 million). Earnings per share were 27.3 US cents (2001: 30.1 US cents).

Profit before borrowing costs and tax

Profit before borrowing costs and tax was US\$3 099 million compared with a profit of US\$1 735 million for 2001.

Excluding significant items (refer below), profit before borrowing costs and tax was US\$3 311 million compared with a profit of US\$2 640 million for 2001.

The following represents major factors affecting profit before borrowing costs and tax (excluding significant items and outside equity interests) for the year ended 30 June 2002:

- The inclusion of financial results for the BHP Billiton Plc Group.
- Lower prices for crude oil, copper, diamonds, silver and zinc were partly offset by higher prices for metallurgical coal, energy coal, and gas.
- Lower sales volumes from Base Metals, Carbon Steel Materials, Petroleum products and Energy Coal businesses.
- Lower price linked costs were mainly due to lower royalties and taxes for petroleum products together with lower costs for London Metals Exchange (LME) listed commodities partially offset by increased royalty costs at metallurgical coal operations mainly reflecting higher metallurgical coal prices.

Merger benefit initiatives generated net cost savings during the year.

Results for financial year 2002 (continued)

Profit before borrowing costs and tax (continued)

Costs increased at Escondida (Chile) mainly reflecting the decision to reduce production in response to weaker Base Metals markets and increased costs at metallurgical coal operations (Australia) and energy coal operations (New Mexico) were due to operational issues. These factors were partly offset by lower operating costs at Liverpool Bay (UK) and Hillside (South Africa), primarily reflecting higher maintenance activities in the corresponding period, cost reductions at the Gulf of Mexico (US) petroleum operations mainly due to increased productivity, and savings at WA Iron Ore operations (Australia) due to lower port and rail costs.

- New and acquired operations that contributed to the current period include commencement of production of petroleum from Typhoon (US), Zamzama (Pakistan) and Keith (North Sea) and the acquisition of an additional 29 per cent interest in the Ekati™ diamond business.

- Steel profits (excluding OneSteel Limited) reduced by approximately US\$130 million. The corresponding period included contribution to profit before borrowing costs and tax of approximately US\$125 million from a higher ownership interest in metallurgical coal (Queensland), the sale of Buffalo oilfield (Australia), spun-out steel operations (OneSteel Limited), and the Ok Tedi copper mine (PNG), partly offset by losses from HBI Venezuela. The current period included a lower contribution from PT Arutmin Indonesian Energy Coal operations due to sale of the business in November 2001.

- Profits from asset sales were higher than the corresponding period mainly due to the profit on sale of PT Arutmin Energy Coal operations in Indonesia.

- Exploration charged to profit was approximately US\$287 million, and included the write-off of La Granja copper exploration activities (Peru), together with increased petroleum activity in the Gulf of Mexico.

Significant items

Significant items totalling US\$212 million (before tax) were expensed at year end. These included one-off costs of US\$80 million relating to the merger and restructuring of the Group during the year.

Following a reassessment of the Group's asset disposal and closure plans relating to its South West Copper business in the US (where the Group ceased operations in 1999), impairment provisions, principally related to the San Manuel smelter, were increased by US\$171 million. This was offset by a reduction of US\$70 million in provisions relating to the expected timing of site restoration expenditure.

Sulphide operations at Tintaya (Peru) have been suspended until at least January 2003. A charge of US\$31 million recognised the costs of the suspension and a write-down of obsolete equipment.

In June 2002 a change in legislation increased the corporation taxation rate for oil and gas companies in the United Kingdom from 30 per cent to 40 per cent, resulting in deferred taxation balances being restated, with an adverse impact of US\$56 million on the full year's results. The tax effects of other significant items were a benefit of US\$24 million.

Excluding significant items, net profit attributable to members of the BHP Billiton Group for 2002 of US\$1 892 million was a decrease of 0.9 per cent from the previous year (2001: US\$1 909 million).

The major significant items before taxation for the year ended 30 June 2001 included a charge to profit of:

- US\$520 million associated with the write-off of BHP Billiton's equity investment in HBI Venezuela and the establishment of provisions for related financial obligations to banks and other associated costs;
- US\$430 million from the write-off of the Ok Tedi copper mine;
- US\$37 million related to merger transaction costs; and
- US\$46 million related to organisational restructuring costs and provisions mainly related to the merger.

These items are partially offset by a US\$128 million profit from sale of interests in the Central Queensland Coal Associates (CQCA) and Gregory Joint Ventures to Mitsubishi. A taxation charge of US\$33 million was incurred for non-deductibility of financing costs as a consequence of an income tax audit. The tax effects of other significant items were a benefit of US\$138 million.

Results for financial year 2002 (continued)

Borrowing costs

Borrowing costs were US\$449 million, impacted by an improved credit rating, higher average debt levels (impacted by the inclusion of the BHP Billiton Plc Group) and lower market interest rates.

Taxation

The tax charge for the year was US\$955 million, representing an effective rate of 36.0 per cent. This rate is above the nominal rate of 30 per cent mainly due to non tax-effected losses in the current year, non-deductible accounting depreciation and amortisation, and secondary taxes on dividends paid and payable by South African entities, partly offset by the recognition of prior year tax losses.

Comparison to results under UK GAAP

As a consequence of the DLC merger, the BHP Billiton Limited Group and the BHP Billiton Plc Group have aligned accounting policies, as far as is possible, to minimise differences and simplify determination and reporting of the combined results. The item where alignment is not possible in terms of UK and Australian GAAP and which impacts the year ended 30 June 2002 is described below.

Under UK GAAP, until 30 June 1998 goodwill arising upon acquisition was written off directly against equity. Subsequently and currently under UK GAAP, goodwill is to be retained as an asset and amortised. This current treatment is consistent with that required under Australian GAAP.

As of 30 June 1998, the BHP Billiton Plc Group had written off a net amount of goodwill of US\$513 million directly against equity. For Australian GAAP reporting on a combined basis, this goodwill is reinstated on the Statement of Financial Position as an intangible asset, with a corresponding credit to equity. The net balance at 30 June 2002 (after amortisation) is US\$471 million and the impact on the Australian GAAP Statement of Financial Performance is a charge to profit of US\$42 million (no tax effect) for the year ended 30 June 2002. Thus, the attributable profit of the BHP Billiton Group of US\$1 690 million under UK GAAP compares to that recorded by the BHP Billiton Group of US\$1

648 million for the same period under Australian GAAP.

Cash flow

Operating cash inflows for the year were US\$3 724 million with a total cash outflow of US\$9 million.

Expenditure on growth projects of US\$1 590 million, including Escondida Phase IV, the ROD oil and Ohanet wet gas projects in Algeria, Mozal II and Petroleum projects in the Gulf of Mexico and exploration expenditure of US\$390 million, was an increase of US\$114 million from the prior year.

Combined with maintenance capital expenditure and investment expenditure on Colombian coal assets and Ekati™, partially offset by proceeds from the sale of PT Arutmin, this contributed to an investing cash outflow of US\$2 538 million.

After dividend payments of US\$831 million, financing cash outflows were US\$1 195 million.

Portfolio management

The demerger of BHP Steel in July 2002 was a landmark event, severing a link of many decades. The outcome was embraced by both organisations, launching BHP Steel as an independent, world-class steel business and releasing the BHP Billiton Group to focus on its upstream interests. Strong demand for the BHP Steel shares, which were sold through the Sale Facility to participants under the Retail and Institutional offers, took the final price to A\$2.80 per BHP Steel share. The 6 per cent retained by the BHP Billiton Group and sold through the Sale Facility brought a cash benefit of US\$75 million in July 2002. Accounting rules will see the difference between this selling price and the book value - some US\$19 million - appear as a loss in the 2003 financial statements. BHP Billiton Plc shareholders received approximately 149 million bonus shares to match the demerger value distributed to BHP Billiton Limited shareholders.

During the year the BHP Billiton Group also finalised its responsible exit from the Ok Tedi copper mine in Papua New Guinea, in the process establishing a fund to support its future social and economic development of the people of Papua New Guinea and, in particular of the Western Province. The BHP Billiton Group also announced the sale of its interest in the PT Arutmin Indonesia Energy Coal operations, and the acquisition, in conjunction with its partners, of the 50 per cent interest in Cerrejon Zona Norte Energy Coal mine in Colombia, bringing its interest to 33 per cent.

Balance sheet

Net assets for the BHP Billiton Group were US\$13 153 million at 30 June 2002, an increase of US\$921 million from the 30 June 2001 position.

Equity shareholders' funds for the BHP Billiton Group were US\$13 153 million at 30 June 2002, an increase of US\$921 million from the previous year. Net borrowings for the BHP Billiton Group were US\$6 681 million at 30 June 2002.

As a consequence of the above, the gearing ratio decreased to 33.7 per cent compared with 36.5 per cent for the previous year.

Currency

Currency fluctuations affect the Statement of Financial Performance in two principal ways.

Sales are predominantly based on US dollar pricing (the principal exceptions being Petroleum's gas sales, Steel's sales to Australian customers and Energy Coal's sales to South African domestic customers).

However, a proportion of operating costs (particularly labour) arises in the local currency of the operations, most significantly the Australian dollar and South African rand, but also the Brazilian real, Chilean peso and Colombian peso. Accordingly, changes in the exchange rates between these currencies and the US dollar can have a significant impact on the Group's reported results.

Several subsidiaries hold certain monetary assets and liabilities denominated in currencies other than their functional currency (US dollar), in particular non-US dollar denominated debt, tax liabilities and provisions. Monetary assets and liabilities are converted into US dollar at the closing rate. The resultant differences are accounted for in the Statement of Financial Performance in accordance with Australian GAAP.

Capital management

A US\$2.5 billion syndicated multi-currency revolving facility was completed in September 2001. This facility replaced the US\$1.2 billion credit facility of the BHP Billiton Limited Group and the US\$1.5 billion and US\$1.25 billion credit facilities of the BHP Billiton Plc Group. The facility includes a US\$1.25 billion 364-day revolving credit component, and a US\$1.25 billion five-year revolving credit component.

In October 2001, the BHP Billiton Group increased its A\$ Commercial Paper Program limit from A\$1 billion to A\$2 billion. During November 2001, the Group issued A\$1 billion in debt securities in two tranches: A\$750 million of seven-year, 6.25 per cent notes maturing August 2008; and A\$250 million of three-year, floating rate notes maturing November 2004. In addition a US\$1.5 billion Euro Medium Term Note (EMTN) program was established during June 2002.

In accordance with the announced share buy-back program, BHP Billiton Limited re-purchased 4 134 622 shares during the year at a weighted average price of A\$8.83 per share. The buy-back program allows for the purchase of either BHP Billiton Limited or BHP Billiton Plc shares, up to a limit of 186 million shares.

Dividends

An interim dividend of 6.5 US cents per fully paid ordinary share was paid in December 2001 and a final dividend of 6.5 US cents per fully paid ordinary share was paid in July 2002, bringing the total for the year to 13.0 US cents. The BHP Billiton Limited dividends were fully franked for Australian taxation purposes.

The corresponding period for BHP Billiton Limited shareholders included an unfranked interim dividend of 12.1 Australian cents per fully paid share (adjusted for merger bonus issue) and a fully franked final dividend of 12.6 Australian cents per fully paid share (adjusted for merger bonus issue).

Dividends for the BHP Billiton Group are determined and declared in US dollars. However, BHP Billiton Limited dividends are mainly paid in Australian dollars and BHP Billiton Plc dividends are mainly paid in pounds sterling to shareholders on the UK section of the register and South African rand to shareholders on the South African section of the register.

The rates of exchange applicable two business days before the declaration date were used for conversion.

Control gained over entities having material effect

There were no acquisitions during the year having a material effect on profit.

Loss of control of entities having material effect

There were no disposals during the year having a material effect on profit.

Franking credits

Edgar Filing: BHP BILLITON LTD - Form 6-K

The BHP Billiton Group had an adjusted franking account balance of US\$591 million at 30 cents in the dollar available at 30 June 2002 before the 3 July 2002 dividend payment. An amount of US\$252 million at 30 cents in the dollar was used as a result of the 3 July 2001 dividend payment. It is anticipated that dividends payable in the following year will be fully franked.

From 1 July 2002, the Australian Income Tax Assessment Act 1997 requires measurement of franking credits based on the amount of income tax paid, rather than after tax profits. As a result, the 'franking credits available' were converted from US\$591 million to US\$253 million as at 1 July 2002. This change in the basis of measurement does not change the value of franking credits to shareholders who may be entitled to franking credit benefits.

(a)

Before outside equity interests.

(b)

Included within gross segment assets are the following carrying values of associates accounted for using the equity method of accounting: Base metals; 2002 - US\$383million (2001 - US\$531million), Carbon steel materials; 2002 - US\$278 million (2001 - US\$276 million), Stainless steel materials; 2002 - US\$3 million (2001 - US\$27 million), Energy coal; 2002 - US\$490 million (2001 - US\$265 million), Diamonds and specialty products; 2002 - US\$326 million (2001 - US\$137 million), Petroleum; 2002 - US\$25 million (2001 - US\$nil), and Group and unallocated items; 2002 - US\$nil (2001 - US\$nil).

(c)

Excluding investment expenditure, capitalised borrowing costs and capitalised exploration.

Segment results

Industry classification (continued)

(d)

The results of operations and the financial position presented as the Steel segment, represents substantially all of the Steel business to be demerged. Amounts not attributable to BHP Steel include results of operations and financial position of Transport and Logistics, until 31 December 2001, and certain minor residual steel assets and liabilities that will not be demerged as part of BHP Steel. Refer Significant events after year end.

(e)

Comparative results for the Ok Tedi copper mine and HBI Venezuela are included in Group and unallocated items. Ok Tedi was previously included in Base Metals and HBI Venezuela was previously included in Carbon Steel Materials.

(f)

Includes consolidation adjustments.

(a)

The Dual Listed Companies (DLC) structure between BHP Billiton Limited and BHP Billiton Plc was established on 29 June 2001. Under the terms of the DLC structure BHP Billiton Limited issued fully paid bonus shares effective 29 June 2001 with the allotment of shares occurring on 9 July 2001. The information presented has been adjusted for the bonus issue.

(b)

Following the OneSteel Limited spin-out the exercise price of options issued under the Employee Share Plan prior to 31 October 2000 was reduced by A\$0.66 (pre-bonus issue).

(c)

The number of shares received on exercise of Performance Rights issued in March 1999 have been increased following the OneSteel Limited spin-out to reflect the capital reduction impact on the value of BHP Billiton Limited shares.

(d)

Edgar Filing: BHP BILLITON LTD - Form 6-K

Shares issued on exercise of Performance Rights include shares purchased on market.

(e)

The Bonus Equity Share Plan provides eligible employees with the opportunity to take a portion of their incentive plan award in ordinary shares in BHP Billiton Limited.

(a) A 50% interest in QCT Resources Ltd was acquired on 20 October 2000 and equity accounted from 1 November 2000 until its disposal on 28 June 2001.

(b) Acquired on 1 July 2001.

(c) Comparative contribution to operating profit after income tax for 2001 represents the financial performance for the BHP Billiton Limited Group only.

(d) Includes immaterial equity accounted associates and the Richards Bay Minerals joint venture owned 50% (2001: 50%).

Significant events after year end

In July 2002, the BHP Steel business was demerged from the BHP Billiton Group. The demerger of BHP Steel effectively brings to an end BHP Billiton's involvement as a steel producer and follows the demerger of the OneSteel business in October 2000 and the disposal of other steel operations, the US West Coast Steel businesses in June 2000. These steel businesses, which comprise the majority of the Steel segment, are reported below.

The financial performance of these businesses, as included in the BHP Billiton Group financial statements, is detailed below.

Significant events after year end - continued

Discontinuing Steel businesses				2002 US\$M	2001 US\$M
Financial performance					
Revenue from ordinary activities before interest income				2 389	3 034
Expenses from ordinary activities including depreciation and amortisation, excluding borrowing costs				2 315	2 829

There were no significant items included within profit from ordinary activities before net borrowing costs and income tax for 2002. Within profit from ordinary activities before net borrowing costs and income tax for 2001 is a charge of US\$22 million (before tax) relating to restructuring costs and provisions.

While the BHP Billiton Group operates its treasury function on a Group basis, certain financing arrangements not reported in the Steel segment can be attributed to the discontinuing Steel operations. Not included within revenue from ordinary activities for 2002 is interest income of US\$13 million (2001 - US\$15 million). The borrowing costs associated with attributable debt instruments was \$US15 million for 2002 (2001 - US\$30 million). The income tax expense / (benefit) related to discontinuing operations, including the tax impact on financing arrangements noted above, was a tax benefit of US\$3 million (2001 - US\$34 million tax expense).

The contribution to Group cash flows of these businesses before consideration of borrowing costs and income tax, as included in the BHP Billiton Group financial statements is detailed below:

Discontinuing Steel businesses				2002 US\$M	2001 US\$M
Cash flows					
Net operating cash flows (excluding borrowing costs and income tax)				283	412
Net investing cash flows				(74)	367
Net financing cash flows				(21)	(68)
Total cash flows provided by discontinued operations				(188)	711

The BHP Billiton Group demerged the BHP Steel business in July 2002 as follows:

-

A capital reduction and a transfer to BHP Billiton Limited shareholders of 94% of the shares in BHP Steel;

-

A bonus issue of BHP Billiton Plc shares to BHP Billiton Plc shareholders as a Matching Action to ensure economic benefit equality to shareholders of both BHP Billiton Limited and BHP Billiton Plc (the bonus issue was one BHP Billiton Plc share for approximately each 15.6 BHP Billiton Plc shares held); and

-

The sale by the BHP Billiton Group of the remaining 6% of BHP Steel shares held by the Group.

The impact of these steps (which have been recorded in July 2002) is:

-

The BHP Billiton Group's capital was reduced by approximately US\$1,501 million, including approximately US\$19 million of costs directly associated with the demerger;

-

A cash inflow of approximately US\$369 million, representing net US\$294 million from the settlement by BHP Steel of intercompany loans, together with US\$75 million from the sale of the 6% of BHP Steel; and

-

A loss of approximately US\$19 million (no tax effect) relating to the sale of the 6% of BHP Steel.

-

Significant events after year end - continued

BHP Steel is the leading steel company in Australia and New Zealand, specialising in the production of flat steel products, including slab, hot rolled coil, plate and value-added metallic coated and pre-painted steel products. The company supplies customers in Australia, New Zealand, Asia, the US, Europe, the Middle East and the Pacific. Key steel-making assets are the low-cost global scale Port Kembla Steelworks (Australia), BHP New Zealand Steel and North Star BHP Steel (USA). A network of metallic coating and coil painting facilities operates in Australia, New Zealand and South East Asia.

The attributable net assets of BHP Steel as included in the BHP Billiton Group's 30 June 2002 Statement of Financial Position is provided below. In addition, the estimated net assets demerged in July 2002 are provided, after allowing for the settlement of intercompany loans by BHP Steel to the BHP Billiton Group. The 2001 financial position presented below represents a comparable basis by which to evaluate BHP Steel as the OneSteel spin-out and sale of the US West Coast Steel businesses were completed prior to 30 June 2001.

Discontinuing Steel businesses	2002	2001
	US\$M	US\$M
Statement of financial position (a)		
Total assets	2 732	2 548
Total liabilities	(841)	(741)
Outside equity interests	(21)	(14)
Total equity	1 870	1 793
Net payments to the BHP Billiton Group by BHP Steel to settle inter-company loans (post 30 June 2002)	(294)	

Estimated attributable net assets of BHP Steel to be demerged

1 576

(a) Includes certain assets and liabilities (primarily cash, interest bearing liabilities and taxation provisions) which are not allocated to Steel for segment reporting purposes.

Change in accounting policies

Functional currency

With effect from 1 July 2001, the majority of the BHP Billiton Limited Group's businesses changed their functional currency to US dollars, the functional currency of the combined BHP Billiton Group. This is consistent with the BHP Billiton Plc Group and is the basis on which the combined BHP Billiton Group manages its businesses and records its transactions. The effect of this change for the year ended 30 June 2002 has been a decrease in net profit attributable to members of US\$47 million. Concurrent with this change, the BHP Billiton Group has changed its policy regarding the treatment of foreign exchange gains or losses on local currency site restoration provisions held in the accounts of entities using US dollar functional currencies. Under the previous policy, the foreign exchange gains and losses on site restoration provisions were recognised in the Statement of Financial Performance. Under the revised policy, such foreign exchange gains and losses are treated as part of the revision to the estimated future restoration cost and are included in the cost of property, plant and equipment. The revised policy has been adopted as it better matches the ultimate cost of site restoration charged in the Statement of Financial Performance to the profit earned. The impact in the year ended 30 June 2002 has been the capitalisation to property, plant and equipment of foreign exchange losses of US\$40 million.

Change in accounting policies

(continued)

Asset impairment tests

With effect from 1 July 2001, asset impairment tests for the BHP Billiton Limited Group are completed using the risk-adjusted market-based discount rates (weighted average cost of capital). Previously, an asset's estimated recoverable amount was determined using expected net cash flows discounted at an interest rate based on the long-term interest bearing liabilities of the BHP Billiton Limited Group. This policy change had US\$nil effect on the net profit attributable to members for the year ended 30 June 2002.
