Subject: Welcome to Microchip!

Today Microchip Technology announced the signing of a definitive agreement to acquire Supertex. The transaction is subject to the approval of shareholders of Supertex, regulatory approvals and customary closing conditions. We expect the transaction to close in the second calendar quarter of 2014. I am excited by the business possibilities created by the Supertex acquisition, and I would like to take this opportunity to welcome you all to the Microchip family!

Microchip is a leading provider of embedded control solutions through our Microcontroller, Mixed-Signal, Analog, Flash IP solutions and Memory product lines. The acquisition of Supertex adds your strong portfolio of high voltage Analog and Mixed-Signal solutions aimed at the medical, industrial and lighting markets to Microchip. I believe the complementary product lines of Microchip and Supertex will offer our combined customers a broader range of innovative solutions to serve their needs. I am looking forward to working with the Supertex team and continuing to provide challenging and rewarding work at the combined company.

I will be in Sunnyvale and San Jose tomorrow hosting meetings with Henry Pao and all Supertex employees as a first introduction of Microchip to you. Look for an invitation with more details shortly.

My executive team and I will also start the process of getting to know more of you personally through one on one meetings starting tomorrow and in the weeks to come. Also over the next few months we will be working closely with Supertex leaders worldwide to develop joint plans for how we can operate even more effectively as one company after the acquisition is completed.

In the meanwhile please continue to stay focused on executing your plans and achieving the results we will build on together after the acquisition is completed. We will provide periodic communication so that you stay informed. We look forward to the future as we bring our two innovative and successful companies together.
