PS Business Parks, Inc. Reports Results for the Second Quarter Ended June 30, 2006

GLENDALE, California PS Business Parks, Inc. (AMEX:PSB) reported operating results for the second quarter ended June 30, 2006.

Net income allocable to common shareholders for the three months ended June 30, 2006 was \$4.4 million or \$0.20 per diluted share on revenues of \$59.3 million compared to \$5.8 million or \$0.26 per diluted share on revenues of \$55.5 million for the same period in 2005. Net income allocable to common shareholders for the six months ended June 30, 2006 was \$9.5 million or \$0.44 per diluted share on revenues of \$118.2 million compared to \$13.1 million or \$0.59 per diluted share on revenues of \$109.4 million for the same period in 2005.

Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

Revenues increased \$3.8 million for the three months ended June 30, 2006 primarily as a result of acquired properties along with improved occupancy within the Company's portfolio. Net income allocable to common shareholders for the three months ended June 30, 2006 decreased over the same period of 2005 by \$1.4 million or \$0.06 per diluted share resulting primarily from an increase in non-cash distributions associated with preferred equity redemptions.

Revenues increased \$8.8 million for the six months ended June 30, 2006 as a result of improved occupancy within the Company's portfolio combined with revenues from acquired properties. Net income allocable to common shareholders for the six months ended June 30, 2006 decreased from the same period of 2005 by \$3.6 million or \$0.15 per diluted share resulting primarily from a decrease in the gain on disposition of real estate and an increase in non-cash distributions associated with preferred equity redemptions.

Supplemental Measures

Funds from operations (FFO) allocable to common shareholders and unit holders for the three months ended June 30, 2006 and 2005 were \$25.2 million, or \$0.87 per diluted share, and \$25.8 million, or \$0.88 per diluted share, respectively. FFO allocable to common shareholders and unit holders for the six months ended June 30, 2006 was \$51.9 million, or \$1.79 per diluted share, compared to \$51.6 million, or \$1.76 per diluted share, for the same period in 2005. The decrease in FFO for the three months ended June 30, 2006 over the same period of 2005 was primarily due to an increase in non-cash distributions associated with preferred equity redemptions and a reduction in income from discontinued operations, partially offset by net operating income from acquired properties. The increase in FFO for the six months ended June 30, 2006 over the same period of 2005 was primarily due to net operating income from acquired properties and a payment received from a former tenant in connection with a bankruptcy settlement of approximately \$1.8 million partially offset by an increase in non-cash distributions associated with preferred equity redemptions.

The following table summarizes the impact of the implementation of the SEC's clarification of EITF Topic D-42 on the Company's FFO per common shareholders and unit holders for the three and six months ended June 30, 2006 and 2005:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2006	2005	2006	2005

Property Operations

In order to evaluate the performance of the Company's overall portfolio over two comparable periods, management analyzes the operating performance of a consistent group of properties owned and operated throughout both periods (herein referred to as "Same Park"). Operating properties that the Company acquired subsequent to January 1, 2005 are referred to as "Other Facilities." For the three and six months ended June 30, 2006 and 2005, the Same Park portfolio constitutes 17.2 million net rentable square feet, which includes all assets included in continuing operations the Company owned and operated from January 1, 2005 through June 30, 2006 and represents approximately 95% of the weighted average square footage of the Company's portfolio for 2006.

The Company's property operations account for substantially all of the net operating income earned by the Company. The following table presents the operating results of the Company's properties for the three and six months ended June 30, 2006 in addition to other income and expense items affecting income from continuing operations (unaudited, in thousands, except per square foot amounts):

(1) Funds From Operations ("FFO") is computed in accordance with the White Paper on FFO approved by the National Association of Real Estate Investment Trusts ("NAREIT"). The White Paper defines FFO as net income computed in accordance with GAAP, before depreciation, amortization, minority interest in real estate, gains or losses on dispositions and extraordinary items. FFO should be analyzed in conjunction with net income and viewed as a substitute for net income as a measure of operating performance or liquidity. FFO does not include depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the assets' value of the Company's properties, which are significant economic costs and could materially impact the Company's operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company's FFO may not be comparable to other real estate companies.

(2) Funds available for distribution ("FAD") is computed by deducting from consolidated FFO recurring capital expenditures which the Company defines as those costs incurred to maintain the assets' value, tenant improvements, lease commissions and straight-line rent from FFO and adding stock-based compensation expense, in-place rents adjustment, incentives, in-place rents adjustment and the impact of EITF Topic D-42. Like FFO, the Company's FAD may not be comparable to other real estate companies.
