Form 10-Q
February 03, 2016
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From _____ to _____

Commission File Number 1-5397

AUTOMATIC DATA PROCESSING, INC.
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	22-1467904 (IRS Employer Identification No.)
One ADP Boulevard, Roseland, New Jersey (Address of principal executive offices)	07068 (Zip Code)

Registrant's telephone number, including area code: (973) 974-5000

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: AUTOMATIC DATA PROCESSING INC - Form 10-Q

Large accelerated filer x

Accelerated filer o

Non-accelerated filer o (Do not check if a smaller reporting company)

Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No y

The number of shares outstanding of the registrant's common stock as of January 31, 2016 was 457,451,131.

Automatic Data Processing, Inc. and Subsidiaries
Notes to the Consolidated Financial Statements
(Tabular dollars in millions, except per share amounts)
(Unaudited)

Note 1. Basis of Presentation

The accompanying Consolidated Financial Statements and footnotes thereto of Automatic Data Processing, Inc. and its subsidiaries ("ADP" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Consolidated Financial Statements and footnotes thereto are unaudited. In the opinion of the Company's management, the Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, that are necessary for a fair presentation of the Company's interim financial results.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the assets, liabilities, revenue, expenses, and accumulated other comprehensive income that are reported in the Consolidated Financial Statements and footnotes thereto. Actual results may differ from those estimates. The Consolidated Financial Statements and all relevant footnotes have been adjusted for all businesses that qualify as a discontinued operation (see Note 3). The Interim Financial Data by Segment has also been adjusted to reflect the historical results of the AdvancedMD ("AMD") business within the Other segment (see Note 14).

Interim financial results are not necessarily indicative of financial results for a full year. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2015 ("fiscal 2015").

Note 2. New Accounting Pronouncements

In November 2015, the Company prospectively adopted Accounting Standards Update ("ASU") 2015-17, "Balance Sheet Classification of Deferred Taxes." The update simplifies the presentation of deferred income taxes by requiring that deferred tax liabilities and assets, including valuation allowances, be classified as noncurrent in the consolidated balance sheets. ASU 2015-17 did not have a material impact on the Company's consolidated statement of financial condition and had no impact on the Company's consolidated results of operations or cash flows. Prior periods were not retrospectively adjusted.

In September 2015, the Company prospectively adopted ASU 2015-16, "Simplifying the Accounting for Measurement Period Adjustments." The update eliminates the need to retrospectively adjust prior period information in the financial statements for acquisition adjustments to goodwill during the measurement period. The adoption had no impact on the Company's consolidated results of operations, financial condition, or cash flows as presented, however, the future impact of ASU 2015-16 will be dependent on future acquisitions, if any.

In July 2015, the Company retrospectively adopted ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs." Debt issuance costs have been presented on the consolidated balance sheets as a direct deduction from the carrying amount of the related debt liability. ASU 2015-03 did not have a material impact on the Company's consolidated results of operations, financial condition, or cash flows.

In July 2015, the Company prospectively adopted ASU 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 requires that a disposal representing a strategic shift that has (or will have) a major effect on an entity's financial results or a business activity classified as held for sale should be reported as a discontinued operation. As a result of ASU 2014-08, the Company did not classify AMD as a discontinued operation. The businesses classified as a discontinued operation prior to June 30, 2015 continue to be classified as a discontinued operation (see Note 3).

In January 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities." This update impacts the accounting for financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. ASU 2016-01 is to be applied prospectively and is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The Company has not yet determined the impact of ASU 2016-01 on its consolidated results of operations, financial condition, or cash flows.

In April 2015, the FASB issued ASU 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement." The update provides guidance on whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement

consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. ASU 2015-05 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company intends to prospectively adopt ASU 2015-05 and does not expect the new standard to have a material impact on its consolidated results of operations, financial condition, or cash flows.

In April 2015, the FASB issued ASU 2015-04, "Compensation - Retirement Benefits (Topic 715): Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets." The update allows an entity to remeasure their pension and other post-retirement benefit plan assets and liabilities at the month-end closest to a significant event such as a plan amendment, curtailment, or settlement. ASU 2015-04 is to be applied prospectively and is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015. Early adoption is permitted. The impact of ASU 2015-04 is dependent upon the nature of future significant events impacting the Company's pension plans, if any.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 requires an entity to recognize revenue depicting the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 will also result in enhanced revenue related disclosures. Entities have the option to apply the new guidance under a retrospective approach to each prior reporting period presented or a modified retrospective approach with the cumulative effect of initially applying the new guidance recognized at the date of initial application within the Statements of Consolidated Financial Position. ASU 2014-09 is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2017. Early adoption is permitted. The Company has not yet determined the impact of ASU 2014-09 on its consolidated results of operations, financial condition, or cash flows.

Note 3. Divestitures

A. Disposition

On September 1, 2015, the Company completed the sale of its AMD business for a pre-tax gain of \$29.1 million, less costs to sell, and recorded such gain within Other income, net on the Statements of Consolidated Earnings. The Company determined that the disposition did not meet the criteria for reporting discontinued operations under ASU 2014-08, which was adopted prospectively on July 1, 2015, as the disposition of this business does not represent a strategic shift that has a major effect on the Company's operations or financial results. The historical results of AMD are being reported in the Other segment (see Note 14).

B. Discontinued Operations

On June 26, 2015, the Company completed the sale of its Procure-to-Pay business ("P2P"), which was previously reported in the Employer Services segment, for a pre-tax gain of \$100.9 million, less costs to sell, and recorded such gain within earnings from discontinued operations on the Statements of Consolidated Earnings.

On September 30, 2014, the Company completed the tax free spin-off of its former Dealer Services business, which was a separate reportable segment, into an independent publicly traded company called CDK Global, Inc. ("CDK"). As a result of the spin-off, ADP stockholders of record on September 24, 2014 (the "record date") received one share of CDK common stock on September 30, 2014, par value \$0.01 per share, for every three shares of ADP common stock held by them on the record date and cash for any fractional shares of CDK common stock. ADP distributed approximately 160.6 million shares of CDK common stock in the distribution. During the first quarter of the fiscal year ended June 30, 2016 ("fiscal 2016"), the Company became aware that 1.0 million of the 160.6 million shares of

CDK stock distributed at the distribution date were inadvertently issued and distributed with respect to certain unvested Company equity awards. The 1.0 million shares were canceled during the first quarter of fiscal 2016. Such shares distributed as part of the spin-off did not have any impact to previously reported results of operations, financial condition, or cash flows. The spin-off was made without the payment of any consideration or the exchange of any shares by ADP stockholders. The spin-off, transitional, and on-going relationships between ADP and CDK are governed by the Separation and Distribution Agreement entered into between ADP and CDK and certain other ancillary agreements.

Incremental costs associated with the spin-off of CDK of \$2.5 million for the three months ended December 31, 2014 and \$45.3 million for the six months ended December 31, 2014 are included in discontinued operations on the Statements of Consolidated Earnings.

In conjunction with the spin-off of CDK and the sale of P2P, the Company has classified the operating results of these businesses as discontinued operations for all periods presented. Results for discontinued operations were as follows:

	Three Months Ended December 31, 2014		Six Months Ended December 31, 2015		2014
Revenues	\$7.7		\$—		\$524.4
(Loss)/Earnings from discontinued operations before income taxes	(0.2)	—		67.5
Provision for income taxes	0.8		—		69.9
Net loss from discontinued operations before gain on disposal of discontinued operations	(1.0)	—		(2.4)
Adjustment of gain on disposal of P2P	—		(1.4)	—
Provision for income taxes	—		(0.5)	—
Net adjustment of gain on disposal of P2P	—		(0.9)	—
Net loss from discontinued operations	\$(1.0)	\$(0.9)	\$(2.4)

Note 4. Earnings per Share (“EPS”)

	Basic	Effect of Employee Stock Option Shares	Effect of Employee Restricted Stock Shares	Diluted
Three Months Ended December 31, 2015				
Net earnings from continuing operations	\$341.4			\$341.4
Weighted average shares (in millions)	457.6	1.3	1.3	460.3
EPS from continuing operations	\$0.75			\$0.74
Three Months Ended December 31, 2014				
Net earnings from continuing operations	\$332.5			\$332.5
Weighted average shares (in millions)	476.6	2.1	1.6	480.3
EPS from continuing operations	\$0.70			\$0.69
Six Months Ended December 31, 2015				
Net earnings from continuing operations	\$678.9			\$678.9
Weighted average shares (in millions)	460.0	1.2	1.6	462.9
EPS from continuing operations	\$1.48			\$1.47
Six Months Ended December 31, 2014				
Net earnings from continuing operations	\$629.1			\$629.1
Weighted average shares (in millions)	477.6	2.1	1.4	481.0
EPS from continuing operations	\$1.32			\$1.31

Options to purchase 0.9 million shares of common stock for the three months ended December 31, 2015 and 1.6 million shares of common stock for the six months ended December 31, 2015 were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

Gain on the sale of notes receivable	—	—	—	(1.4)
Gain on sale of AMD (see Note 3)	—	—	(29.1)	—
Gain on sale of building	(13.9)	—	(13.9)	—
Other income, net	\$(27.4)	\$(19.2)	\$(75.1)	\$(39.8)

At December 31, 2015, the Company concluded that it had the intent to sell certain available-for-sale securities with unrealized losses of \$3.6 million. As such, the Company recorded an impairment charge of \$3.6 million which is included in the realized losses on available-for-sale securities in the table above.

During the three months ended December 31, 2015, the Company sold a building and, as a result, recorded a gain of \$13.9 million in Other income, net, on the Statements of Consolidated Earnings.

During the six months ended December 31, 2014, the Company sold notes receivable related to Dealer Services financing arrangements for \$225.5 million. Although the sale of the notes receivable transfers the majority of the risk to the purchaser, the Company does retain a minimal level of credit risk on the sold receivables. The cash received in

exchange for the notes receivable sold was recorded within the operating activities on the Statements of Consolidated Cash Flows and the gain on sale of \$1.4 million was recorded within Other income, net on the Statements of Consolidated Earnings.

Note 6. Corporate Investments and Funds Held for Clients

Corporate investments and funds held for clients at December 31, 2015 and June 30, 2015 were as follows:

	December 31, 2015			
Type of issue:	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value (A)
Money market securities, cash and other cash equivalents	\$12,893.7	\$—	\$—	\$12,893.7
Available-for-sale securities:				
Corporate bonds	9,355.6	83.1	(42.5)) 9,396.2
U.S. Treasury and direct obligations of U.S. government agencies	4,999.3	36.0	(21.0)) 5,014.3
Asset-backed securities	2,996.4	5.3	(18.0)) 2,983.7
Canadian government obligations and Canadian government agency obligations	881.4	11.6	(0.1)) 892.9
Canadian provincial bonds	749.7	21.2	(2.1)) 768.8
Municipal bonds	599.2	16.3	(0.4)) 615.1
Other securities	604.2	10.6	(0.7)) 614.1
Total available-for-sale securities	20,185.8	184.1	(84.8)) 20,285.1
Total corporate investments and funds held for clients	\$33,079.5	\$184.1	\$(84.8)) \$33,178.8

(A) Included within available-for-sale securities are corporate investments with fair values of \$47.9 million and funds held for clients with fair values of \$20,237.2 million. All available-for-sale securities were included in Level 2 of the fair value hierarchy.

	June 30, 2015			
Type of issue:	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value (B)
Money market securities, cash and other cash equivalents	\$5,686.3	\$—	\$—	\$5,686.3
Available-for-sale securities:				
Corporate bonds	9,497.5	115.7	(29.6)) 9,583.6
U.S. Treasury and direct obligations of U.S. government agencies	5,764.3	64.6	(9.8)) 5,819.1
Asset-backed securities	2,442.4	11.1	(6.1)) 2,447.4
Canadian government obligations and Canadian government agency obligations	923.2	15.4	(0.2)) 938.4
Canadian provincial bonds	723.9	27.9	(0.8)) 751.0
Municipal bonds	586.6	14.3	(1.4)) 599.5
Other securities	719.4	16.1	(0.7)) 734.8
Total available-for-sale securities	20,657.3	265.1	(48.6)) 20,873.8
Total corporate investments and funds held for clients	\$26,343.6	\$265.1	\$(48.6)) \$26,560.1

(B) Included within available-for-sale securities are corporate investments with fair values of \$55.5 million and funds held for clients with fair values of \$20,818.3 million. All available-for-sale securities were included in Level 2 of the fair value hierarchy.

For a description of the fair value hierarchy and the Company's fair value methodologies, including the use of an independent third-party pricing service, see Note 1 "Summary of Significant Accounting Policies" in the Company's Annual Report on Form 10-K for fiscal 2015. The Company did not transfer any assets between Level 1 and Level 2 during the six months ended December 31, 2015 or fiscal 2015. In addition, the Company did not adjust the prices obtained from the independent pricing service. The Company has no available-for-sale securities included in Level 1 or Level 3 as of December 31, 2015.

The unrealized losses and fair values of available-for-sale securities that have been in an unrealized loss position for a period of less than and greater than 12 months as of December 31, 2015, are as follows:

	December 31, 2015					
	Securities in Unrealized Loss Position Less Than 12 Months		Securities in Unrealized Loss Position Greater Than 12 Months		Total	
	Gross Unrealized Losses	Fair Market Value	Gross Unrealized Losses	Fair Market Value	Gross Unrealized Losses	Fair Market Value
Corporate bonds	\$(39.4)	\$3,898.8	\$(3.1)	\$213.5	\$(42.5)	\$4,112.3
U.S. Treasury and direct obligations of U.S. government agencies	(17.6)	1,671.0	(3.4)	373.2	(21.0)	2,044.2
Asset-backed securities	(13.9)	1,841.7	(4.1)	419.3	(18.0)	2,261.0
Canadian government obligations and Canadian government agency obligations	(0.1)	56.9	—	—	(0.1)	56.9
Canadian provincial bonds	(2.0)	203.5	(0.1)	10.0	(2.1)	213.5
Municipal bonds	(0.3)	47.8	(0.1)	4.4	(0.4)	52.2
Other securities	(0.5)	71.1	(0.2)	13.4	(0.7)	84.5
	\$(73.8)	\$7,790.8	\$(11.0)	\$1,033.8	\$(84.8)	\$8,824.6

The unrealized losses and fair values of available-for-sale securities that have been in an unrealized loss position for a period of less than and greater than 12 months as of June 30, 2015, are as follows:

	June 30, 2015					
	Securities in Unrealized Loss Position Less Than 12 Months		Securities in Unrealized Loss Position Greater Than 12 Months		Total	
	Gross Unrealized Losses	Fair Market Value	Gross Unrealized Losses	Fair Market Value	Gross Unrealized Losses	Fair Market Value
Corporate bonds	\$(27.3)	\$2,403.5	\$(2.3)	\$228.1	\$(29.6)	\$2,631.6
U.S. Treasury and direct obligations of U.S. government agencies	(7.2)	865.1	(2.6)	374.0	(9.8)	1,239.1
Asset-backed securities	(3.2)	606.8	(2.9)	443.6	(6.1)	1,050.4
Canadian government obligations and Canadian government agency obligations	(0.2)	85.8	—	—	(0.2)	85.8
Canadian provincial bonds	(0.8)	101.5	—	10.0	(0.8)	111.5
Municipal bonds	(1.2)	143.6	(0.2)	6.0	(1.4)	149.6
Other securities	(0.4)	36.6	(0.3)	13.7	(0.7)	50.3
	\$(40.3)	\$4,242.9	\$(8.3)	\$1,075.4	\$(48.6)	\$5,318.3

At December 31, 2015, Corporate bonds include investment-grade debt securities with a wide variety of issuers, industries, and sectors, that primarily carry credit ratings of A and above, and have maturities ranging from January 2016 to December 2023.

At December 31, 2015, U.S. Treasury and direct obligations of U.S. government agencies primarily include debt directly issued by Federal Home Loan Banks and Federal Farm Credit Banks with fair values of \$3,784.3 million and \$886.3 million, respectively. U.S. Treasury and direct obligations of U.S. government agencies represent senior, unsecured, non-callable debt

that primarily carries a credit rating of Aaa, as rated by Moody's, and AA+, as rated by Standard & Poor's, and have maturities ranging from January 2016 through August 2025.

At December 31, 2015, asset-backed securities include AAA rated senior tranches of securities with predominantly prime collateral of fixed rate credit card, auto loan, and rate reduction receivables with fair values of \$2,006.7 million, \$559.5 million, and \$243.7 million, respectively. These securities are collateralized by the cash flows of the underlying pools of receivables. The primary risk associated with these securities is the collection risk of the underlying receivables. All collateral on such asset-backed securities has performed as expected through December 31, 2015.

At December 31, 2015, other securities and their fair value primarily represent: AAA and AA rated sovereign bonds of \$263.0 million, AAA and AA rated supranational bonds of \$223.0 million, and AA rated mortgage-backed securities of \$92.1 million that are guaranteed primarily by Federal National Mortgage Association ("Fannie Mae"). The Company's mortgage-backed securities represent an undivided beneficial ownership interest in a group or pool of one or more residential mortgages. These securities are collateralized by the cash flows of 15-year and 30-year residential mortgages and are guaranteed by Fannie Mae as to the timely payment of principal and interest.

Classification of corporate investments on the Consolidated Balance Sheets is as follows:

	December 31, 2015	June 30, 2015
Corporate investments:		
Cash and cash equivalents	\$2,794.9	\$1,639.3
Short-term marketable securities	26.9	26.6
Long-term marketable securities	21.0	28.9
Total corporate investments	\$2,842.8	\$1,694.8

Funds held for clients represent assets that, based upon the Company's intent, are restricted for use solely for the purposes of satisfying the obligations to remit funds relating to the Company's payroll and payroll tax filing services, which are classified as client funds obligations on our Consolidated Balance Sheets.

Funds held for clients have been invested in the following categories:

	December 31, 2015	June 30, 2015
Funds held for clients:		
Restricted cash and cash equivalents held to satisfy client funds obligations	\$10,098.8	\$4,047.0
Restricted short-term marketable securities held to satisfy client funds obligations	3,596.5	4,497.7
Restricted long-term marketable securities held to satisfy client funds obligations	16,640.7	16,320.6
Total funds held for clients	\$30,336.0	\$24,865.3

Client funds obligations represent the Company's contractual obligations to remit funds to satisfy clients' payroll and tax payment obligations and are recorded on the Consolidated Balance Sheets at the time that the Company impounds funds from clients. The client funds obligations represent liabilities that will be repaid within one year of the balance sheet date. The Company has reported client funds obligations as a current liability on the Consolidated Balance Sheets totaling \$30,237.7 million and \$24,650.5 million as of December 31, 2015 and June 30, 2015, respectively. The Company has classified funds held for clients as a current asset since these funds are held solely for the purposes of satisfying the client funds obligations. The Company has reported the cash flows related to the purchases of corporate and client funds marketable securities and related to the proceeds from the sales and maturities of corporate and client funds marketable securities on a gross basis in the investing section of the Statements of Consolidated Cash Flows. The Company has reported the cash inflows and outflows related to client funds

investments with original maturities of ninety days or less on a net basis within net increase in restricted cash and cash equivalents and other restricted assets held to satisfy client funds obligations in the investing section of the Statements of Consolidated Cash Flows. The Company has reported the cash flows related to the cash received from and paid on behalf of clients on a net basis within net increase in client funds obligations in the financing activities section of the Statements of Consolidated Cash Flows.

Approximately 81% of the available-for-sale securities held a AAA or AA rating at December 31, 2015, as rated by Moody's, Standard & Poor's and, for Canadian securities, Dominion Bond Rating Service. All available-for-sale securities were rated as investment grade at December 31, 2015.

Expected maturities of available-for-sale securities at December 31, 2015 are as follows:

One year or less	\$3,623.4
One year to two years	3,037.6
Two years to three years	2,213.8
Three years to four years	3,814.9
After four years	7,595.4
 Total available-for-sale securities	 \$20,285.1

Note 7. Goodwill and Intangibles Assets, net

Changes in goodwill for the six months ended December 31, 2015 are as follows:

	Employer Services	PEO Services	Other	Total
Balance at June 30, 2015 (A)	\$1,788.7	\$4.8	\$—	\$1,793.5
Transfer of AMD goodwill (see Note 14)	(100.4) —	100.4	—
Currency translation adjustments	(21.9) —	—	(21.9)
Disposition of AMD	—	—	(100.4) (100.4)
Balance at December 31, 2015	\$1,666.4	\$4.8	\$—	\$1,671.2

(A) The goodwill balance at June 30, 2015 is net of accumulated impairment losses of \$42.7 million related to the Employer Services segment.

Components of intangible assets, net, are as follows:

	December 31, 2015	June 30, 2015
Intangible assets:		
Software and software licenses	\$1,705.2	\$1,648.7
Customer contracts and lists	599.6	625.4
Other intangibles	208.1	209.0
	2,512.9	2,483.1
Less accumulated amortization:		
Software and software licenses	(1,344.2) (1,308.7)
Customer contracts and lists	(478.0) (478.6)
Other intangibles	(195.4) (192.6)
	(2,017.6) (1,979.9)
Intangible assets, net	\$495.3	\$503.2

Other intangibles consist primarily of purchased rights and trademarks (acquired directly or through acquisitions). All of the intangible assets have finite lives and, as such, are subject to amortization. The weighted average remaining useful life of the intangible assets is 5 years (3 years for software and software licenses, 9 years for customer contracts and lists, and 2 years for other intangibles). Amortization of intangible assets was \$38.0 million and \$37.9 million for the three months ended December 31, 2015 and 2014, respectively, and \$73.7 million and \$75.1 million for the six months ended December 31, 2015 and 2014, respectively.

Estimated future amortization expenses of the Company's existing intangible assets are as follows:

	Amount
Six months ending June 30, 2016	\$75.3
Twelve months ending June 30, 2017	\$138.4
Twelve months ending June 30, 2018	\$94.6
Twelve months ending June 30, 2019	\$60.7
Twelve months ending June 30, 2020	\$45.6
Twelve months ending June 30, 2021	\$37.4

Note 8. Short-term Financing

The Company has a \$2.75 billion, 364-day credit agreement with a group of lenders that matures in June 2016. In addition, the Company has a five-year \$3.25 billion credit facility maturing in June 2019 that contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The Company also has a \$2.25 billion five-year credit facility that matures in June 2020 that also contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The interest rate applicable to committed borrowings is tied to LIBOR, the effective federal funds rate, or the prime rate depending on the notification provided by the Company to the syndicated financial institutions prior to borrowing. The Company is also required to pay facility fees on the credit facilities. The primary uses of the credit facilities are to provide liquidity to the commercial paper program and funding for general corporate purposes, if necessary. The Company had no borrowings through December 31, 2015 under the credit facilities.

The Company's U.S. short-term funding requirements related to client funds are sometimes obtained through a commercial paper program, which provides for the issuance of up to \$8.25 billion in aggregate maturity value of commercial paper, rather than liquidating investments in available-for-sale securities related to previously-collected client funds. The Company's commercial paper program is rated A-1+ by Standard & Poor's and Prime-1 by Moody's. These ratings denote the highest quality commercial paper securities. Maturities of commercial paper can range from overnight to up to 364 days. At December 31, 2015 and June 30, 2015, the Company had no commercial paper outstanding. For the three months ended December 31, 2015 and 2014, the Company had average daily borrowings of \$3.3 billion and \$3.0 billion, respectively, at weighted average interest rates of 0.2% and 0.1%, respectively. For the six months ended December 31, 2015 and 2014, the Company had average daily borrowings of \$3.4 billion and \$3.1 billion, respectively, at weighted average interest rates of 0.2% and 0.1%, respectively. The weighted average maturity of the Company's commercial paper during the three and six months ended December 31, 2015 was approximately two days.

The Company's U.S. and Canadian short-term funding requirements related to client funds obligations are sometimes obtained on a secured basis through the use of reverse repurchase agreements, which are collateralized principally by government and government agency securities, rather than liquidating investments in available-for-sale securities related to previously-collected client funds. These agreements generally have terms ranging from overnight to up to five business days. At December 31, 2015 and June 30, 2015, there were no outstanding obligations related to the reverse repurchase agreements. For the three months ended December 31, 2015 and 2014, the Company had average outstanding balances under reverse repurchase agreement of \$334.9 million and \$598.6 million, respectively, at weighted average interest rates of 0.3% and 0.5%, respectively. For the six months ended December 31, 2015 and 2014, the Company had average outstanding balances under reverse repurchase agreements of \$410.2 million and \$584.7 million, respectively, at weighted average interest rates of 0.4% and 0.5%, respectively. In addition, the Company has \$3.25 billion available on a committed basis under the U.S. reverse repurchase agreements.

Note 9. Long-term Debt

In September 2015, the Company issued fixed-rate notes with 5-year and 10-year maturities for an aggregate principal amount of \$2.0 billion (collectively the “Notes”). The Notes are senior unsecured obligations, and interest is payable in arrears, semi-annually.

15

The principal amounts and associated effective interest rates of the Notes and other debt as of December 31, 2015, are as follows. Debt outstanding at the comparative period of June 30, 2015 was not significant.

Debt instrument	December 31, 2015	Effective Interest Rate	
Fixed-rate 2.250% notes due September 15, 2020	\$1,000.0	2.39	%
Fixed-rate 3.375% notes due September 15, 2025	1,000.0	3.48	%
Other	10.7		
	2,010.7		
Less: current portion	(2.8)	
Less: unamortized discount and debt issuance costs	(13.1)	
Total long-term debt	\$1,994.8		

The effective interest rates for the Notes include the interest on the Notes and amortization of the discount and debt issuance costs.

As of December 31, 2015, the fair value of the Notes, based on level 2 inputs, was \$2,023.0 million. The Company's Notes are valued utilizing a variety of inputs obtained from an independent pricing service, including benchmark yields, reported trades, non-binding broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data. For a description of the fair value hierarchy and the Company's fair value methodologies see Note 1 "Summary of Significant Accounting Policies" in the Company's Annual Report on Form 10-K for fiscal 2015.

Note 10. Employee Benefit Plans

A. Stock-based Compensation Plans

Stock-based compensation consists of the following:

Stock Options. Stock options are granted to employees at exercise prices equal to the fair market value of the Company's common stock on the dates of grant. Stock options are issued under a graded vesting schedule and have a term of 10 years. Options granted prior to July 1, 2008 generally vested ratably over five years and options granted after July 1, 2008 generally vest ratably over four years. Compensation expense is measured based on the fair value of the stock option on the grant date and recognized over the requisite service period for each separately vesting portion of the stock option award. Stock options are forfeited if the employee ceases to be employed by the Company prior to vesting.

Restricted Stock

Time-Based Restricted Stock and Time-Based Restricted Stock Units. Time-based restricted stock and time-based restricted stock units granted prior to fiscal 2013 are subject to vesting periods of up to five years and awards granted in fiscal 2013 and later are subject to a vesting period of two years. Awards are forfeited if the employee ceases to be employed by the Company prior to vesting.

Time-based restricted stock cannot be transferred during the vesting period. Compensation expense relating to the issuance of time-based restricted stock is measured based on the fair value of the award on the grant date and recognized on a straight-line basis over the vesting period. Dividends are paid on shares awarded under the time-based restricted stock program.

Time-based restricted stock units are settled in cash and cannot be transferred during the vesting period. Compensation expense relating to the issuance of time-based restricted stock units is recorded over the vesting period and is initially based on the fair value of the award on the grant date; it is subsequently remeasured at each reporting date during the vesting period. No dividend equivalents are paid on units awarded under the time-based restricted stock unit program.

Performance-Based Restricted Stock and Performance-Based Restricted Stock Units. Performance-based restricted stock and performance-based restricted stock units generally vest over a one to three year performance period and a subsequent service period of up to 26 months. Under these programs, the Company communicates "target awards" at the beginning of the performance period with possible payouts at

16

the end of the performance period ranging from 0% to 150% of the "target awards." Awards are forfeited if the employee ceases to be employed by the Company prior to vesting.

Performance-based restricted stock cannot be transferred during the vesting period. Compensation expense relating to the issuance of performance-based restricted stock is recognized over the vesting period based on the fair value of the award on the grant date with subsequent adjustments to the number of shares awarded during the performance period based on probable and actual performance against targets. After the performance period, if the performance targets are achieved, employees are eligible to receive dividends during the remaining vesting period on shares awarded under the performance-based restricted stock program.

Performance-based restricted stock units are settled in either cash or stock, depending on the employee's home country, and cannot be transferred during the vesting period. Compensation expense relating to the issuance of performance-based restricted stock units settled in cash is recognized over the vesting period initially based on the fair value of the award on the grant date with subsequent adjustments to the number of units awarded during the performance period based on probable and actual performance against targets. In addition, compensation expense is remeasured at each reporting period during the vesting period based on the change in the Company's stock price.

Compensation expense relating to the issuance of performance-based restricted stock units settled in stock is recorded over the vesting period based on the fair value of the award on the grant date with subsequent adjustments to the number of units awarded based on the probable and actual performance against targets. Dividend equivalents are paid on awards settled in stock under the performance-based restricted stock unit program.

Employee Stock Purchase Plan. The Company offers an employee stock purchase plan that allows eligible employees to purchase shares of common stock at a price equal to 95% of the market value for the Company's common stock on the last day of the offering period. This plan has been deemed non-compensatory and, therefore, no compensation expense has been recorded.

The Company currently utilizes treasury stock to satisfy stock option exercises, issuances under the Company's employee stock purchase plan, and restricted stock awards. From time to time, the Company may repurchase shares of its common stock under its authorized share repurchase programs. The Company repurchased 5.2 million shares in the three months ended December 31, 2015 and 2014 and repurchased 9.4 million shares in the six months ended December 31, 2015 as compared to 5.7 million shares repurchased in the six months ended December 31, 2014. The Company considers several factors in determining when to execute share repurchases, including, among other things, actual and potential acquisition activity, cash balances and cash flows, issuances due to employee benefit plan activity, and market conditions.

The following table represents stock-based compensation expense and related income tax benefits for the three and six months ended December 31, 2015 and 2014, respectively:

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Operating expenses	\$5.9	\$7.5	\$11.7	\$15.0
Selling, general and administrative expenses	25.7	23.2	50.0	48.8
System development and programming costs	4.5	5.5	9.0	11.1
Total pre-tax stock-based compensation expense	\$36.1	\$36.2	\$70.7	\$74.9
Income tax benefit	\$13.2	\$12.8	\$25.8	\$26.7

Stock-based compensation expense attributable to employees of the discontinued operations for the six months ended December 31, 2014 was \$5.3 million which was included in discontinued operations in the Statements of Consolidated Earnings and therefore not presented in the table above.

As a result of the spin-off of CDK, the number of vested and unvested ADP stock options, their strike price, and the number of unvested performance-based and time-based restricted shares and units were adjusted to preserve the intrinsic value of the awards immediately prior to the spin-off using an adjustment ratio based on the market close price of ADP stock prior to the spin-off and the market open price of ADP stock subsequent to the spin-off. Since these adjustments were considered to be a

17

modification of the awards in accordance to ASC 718, "Stock Compensation," the Company compared the fair value of the awards immediately prior to the spin-off to the fair value immediately after the spin-off to measure potential incremental stock-based compensation expense, if any. The adjustments did not result in an increase in the fair value of the awards and, accordingly, the Company did not record incremental stock-based compensation expense. Unvested ADP stock options, unvested restricted stock, and unvested restricted stock units held by CDK employees were replaced by CDK awards immediately following the spin-off. The stock-based compensation expense associated with the original grant of ADP awards to remaining ADP employees will continue to be recognized within earnings from continuing operations in the Company's Statements of Consolidated Earnings.

As of December 31, 2015, the total remaining unrecognized compensation cost related to unvested stock options, restricted stock units, and restricted stock awards amounted to \$19.3 million, \$49.9 million, and \$105.6 million, respectively, which will be amortized over the weighted-average remaining requisite service periods of 2.0 years, 1.4 years, and 1.5 years, respectively.

During the six months ended December 31, 2015, the following activity occurred under the Company's existing plans:

Stock Options:

	Number of Options (in thousands)	Weighted Average Price (in dollars)
Options outstanding at July 1, 2015	5,888	\$55
Options granted	1,138	\$75
Options exercised	(766)) \$39
Options canceled/forfeited	(124)) \$70
Options outstanding at December 31, 2015	6,136	\$61

Time-Based Restricted Stock and Time-Based Restricted Stock Units:

	Number of Shares (in thousands)	Number of Units (in thousands)
Restricted shares/units outstanding at July 1, 2015	2,137	486
Restricted shares/units granted	974	240
Restricted shares/units vested	(1,123)) (245)
Restricted shares/units forfeited	(77)) (18)
Restricted shares/units outstanding at December 31, 2015	1,911	463

Performance-Based Restricted Stock and Performance-Based Restricted Stock Units:

	Number of Shares (in thousands)	Number of Units (in thousands)
Restricted shares/units outstanding at July 1, 2015	903	534
Restricted shares/units granted	286	353

Restricted shares/units forfeited	(40)) (32)
Restricted shares/units outstanding at December 31, 2015	609	818

The fair value of each stock option issued is estimated on the date of grant using a binomial option pricing model. The binomial model considers a range of assumptions related to volatility, risk-free interest rate, and employee exercise behavior. Expected volatilities utilized in the binomial model are based on a combination of implied market volatilities, historical volatility of the Company's stock price, and other factors. Similarly, the dividend yield is based on historical experience and expected future changes. The risk-free rate is derived from the U.S. Treasury yield curve in effect at the time of

18

grant. The binomial model also incorporates exercise and forfeiture assumptions based on an analysis of historical data. The expected life of the stock option grant is derived from the output of the binomial model and represents the period of time that options granted are expected to be outstanding.

The fair value for stock options granted was estimated at the date of grant using the following assumptions:

	Six Months Ended		
	December 31,		
	2015	2014	
Risk-free interest rate	1.6	% 1.9	%
Dividend yield	2.6	% 2.3	%
Weighted average volatility factor	25.6	% 22.8	%
Weighted average expected life (in years)	5.4	5.4	
Weighted average fair value (in dollars) (A)	\$13.16	\$12.45	

(A) The weighted average fair values of grants issued before December 31, 2014 were adjusted to reflect the impact of the spin-off of CDK.

B. Pension Plans

The components of net pension expense were as follows:

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Service cost – benefits earned during the period	\$17.6	\$16.5	\$35.2	\$35.7
Interest cost on projected benefits	16.9	15.7	33.8	31.5
Expected return on plan assets	(32.8)	(32.5)	(65.7)	(65.0)
Net amortization and deferral	2.7	4.3	5.5	8.7
Curtailments and special termination benefits	—	—	—	3.2
Net pension expense	\$4.4	\$4.0	\$8.8	\$14.1

Net pension expense for the six months ended December 31, 2014 includes \$4.3 million reported within earnings from discontinued operations on the Statements of Consolidated Earnings. Included within pension expense related to discontinued operations for the six months ended December 31, 2014 were total one-time charges of \$3.2 million for curtailment charges and special termination benefits directly attributable to the spin-off of CDK.

Note 11. Income Taxes

The effective tax rate for the three months ended December 31, 2015 and 2014 was 32.8% and 33.3%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits, the reversal of valuation allowances, and the resolution of certain tax matters in the three months ended December 31, 2015. This decrease was partially offset by a change in tax law during the three months ended December 31, 2014 and the impact of the sale of a building during the three months ended December 31, 2015.

The effective tax rate for the six months ended December 31, 2015 and 2014 was 33.0% and 33.7%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits and the reversal of valuation allowances in the six months ended December 31, 2015, partially offset by adjustments to the tax liability and a change in tax law during the six months ended December 31, 2014.

Note 12. Commitments and Contingencies

During the second quarter of fiscal 2016, in the course of a compliance review of its clients and vendors globally, which is still ongoing, the Company determined that subsidiaries of the Company had previously entered into service arrangements outside the United States of America ("U.S.") with several entities that are designated as Specially Designated Nationals ("SDNs") by the Office of Foreign Assets Control ("OFAC") of the U.S. Department of Treasury. Under these service arrangements, the

19

Company provided managed service solutions to the SDNs. Immediately following the discovery of such service arrangements, the Company terminated the service arrangements with each SDN. The Company has voluntarily notified OFAC of the service arrangements and intends to cooperate fully with OFAC. The Company may be subject to fines and penalties, which amounts are not reasonably estimable at this time due to the ongoing nature of the compliance review and the factors that OFAC may consider relevant. For more information regarding this matter, see below in Part II Item 5, Other Information of this Quarterly Report on Form 10-Q.

In June 2011, the Company received a Commissioner's Charge from the U.S. Equal Employment Opportunity Commission ("EEOC") alleging that the Company has violated Title VII of the Civil Rights Act of 1964 by refusing to recruit, hire, transfer, and promote certain persons on the basis of their race, in the State of Illinois from at least the period of January 1, 2007 to the present. The Company continues to investigate the allegations set forth in the Commissioner's Charge and is cooperating with the EEOC's investigation.

The Company is subject to various claims, litigation, and regulatory and compliance related matters in the normal course of business. When a loss is considered probable and reasonably estimable, the Company records a liability in the amount of its best estimate for the ultimate loss. At this time, the Company is unable to estimate any reasonably possible loss, or range of reasonably possible loss, with respect to the matters described above. This is primarily because these matters involve complex issues subject to inherent uncertainty. There can be no assurance that these matters will be resolved in a manner that is not adverse to the Company.

It is not the Company's business practice to enter into off-balance sheet arrangements. In the normal course of business, the Company may enter into contracts in which it makes representations and warranties that relate to the performance of the Company's services and products. The Company does not expect any material losses related to such representations and warranties.

Note 13. Reclassifications out of Accumulated Other Comprehensive Income ("AOCI")

Changes in AOCI by component are as follows:

	Three Months Ended December 31, 2015			
	Currency Translation Adjustment	Net Gains/Losses on Available-for-sale Securities	Pension Liability	Accumulated Other Comprehensive Loss
Balance at September 30, 2015	\$(250.3)	\$ 177.3	\$(174.4)	\$(247.4)
Other comprehensive loss before reclassification adjustments	(24.4)	(174.3)	—	(198.7)
Tax effect	—	62.5	—	62.5
Reclassification adjustments to net earnings	—	3.8	(A) 3.0	(B) 6.8
Tax effect	—	(1.2)	(1.1)	(2.3)
Balance at December 31, 2015	\$(274.7)	\$ 68.1	\$(172.5)	\$(379.1)

Edgar Filing: AUTOMATIC DATA PROCESSING INC - Form 10-Q

	Three Months Ended December 31, 2014

Tax effect	—	42.6	—	42.6
Reclassification adjustments to net earnings	—	3.8 (A)	5.9 (B)	9.7
Tax effect	—	(1.2)	(2.2)	(3.4)
Balance at December 31, 2015	\$ (274.7)	\$ 68.1	\$ (172.5)	\$ (379.1)
	Six Months Ended December 31, 2014			
	Currency Translation Adjustment	Net Gains/Losses on Available-for-sale Securities	Pension Liability	Accumulated Other Comprehensive Income/(Loss)
Balance at June 30, 2014	\$ 99.5	\$ 211.6	\$ (132.9)	\$ 178.2
Other comprehensive loss before reclassification adjustments	(165.7)	(74.7)	—	(240.4)
Tax effect	—	27.9	—	27.9
Reclassification adjustments to net earnings	—	(1.7) (A)	13.2 (B)	11.5
Tax effect	—	0.6	(4.3)	(3.7)
Reclassification adjustment to retained earnings	(88.2) (C)	—	—	(88.2)
Balance at December 31, 2014	\$ (154.4)	\$ 163.7	\$ (124.0)	\$ (114.7)

(A) Reclassification adjustments out of AOCI are included within Other income, net, on the Statements of Consolidated Earnings.

(B) Reclassification adjustments out of AOCI are included in net pension expense (see Note 10).

(C) Reclassification adjustment out of AOCI is related to the CDK spin-off and included in retained earnings on the Consolidated Balance Sheets.

Note 14. Interim Financial Data by Segment

Based upon similar economic and operational characteristics, the Company's strategic business units have been aggregated into the following two reportable segments: Employer Services and PEO Services. The primary components of the "Other" segment are the results of operations of ADP Indemnity (a wholly-owned captive insurance company that provides workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services' worksite employees), non-recurring gains and losses, miscellaneous processing services, the elimination of intercompany transactions, interest expense, certain charges and expenses that have not been allocated to the reportable segments, such as stock based compensation expense, and beginning in the first quarter of fiscal 2016, the historical results of the AMD business, which was previously reported in the Employer Services segment. This change, which is adjusted for both the current period and the prior period in the table below, did not significantly affect reportable segment results and is consistent with the way the chief operating decision maker assesses the performance of the reportable segments.

Certain revenues and expenses are charged to the reportable segments at a standard rate for management reasons. Other costs are recorded based on management responsibility. There is a reconciling item for the difference between actual interest income earned on invested funds held for clients and interest credited to Employer Services and PEO Services at a standard rate of 4.5%. This allocation is made for management reasons so that the reportable segments' results are presented on a consistent basis without the impact of fluctuations in interest rates. This reconciling adjustment to the reportable segments' revenues and earnings from continuing operations before income taxes is eliminated in consolidation.

Segment Results:

	Revenues from Continuing Operations			
	Three Months Ended December 31,		Six Months Ended December 31,	
	2015	2014	2015	2014

(Tabular dollars are presented in millions, except per share amounts)

FORWARD-LOOKING STATEMENTS

This document and other written or oral statements made from time to time by Automatic Data Processing, Inc. and its subsidiaries ("ADP" or "the Company") may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature and which may be identified by the use of words like "expects," "assumes," "projects," "anticipates," "estimates," "we believe," "could" and other words of similar meaning, are forward-looking statements. These statements are based on management's expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. Factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include: ADP's success in obtaining, retaining, and selling additional services to clients; the pricing of products and services; changes in, or interpretations of, existing legislation or regulations, or compliance with new legislation or regulations; overall market, political, and economic conditions, including interest rate and foreign currency trends; competitive conditions; our ability to maintain our current credit rating and the impact on our funding costs and profitability; vulnerability to security breaches, fraudulent acts, and system interruptions and failures; employment and wage levels; changes in technology and data; availability of skilled technical associates; and the impact of new acquisitions and divestitures. These factors are not exhaustive. ADP disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events, or otherwise. These risks and uncertainties, along with the risk factors discussed under "Item 1A. - Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended June 30, 2015 ("fiscal 2015") should be considered in evaluating any forward-looking statements contained herein.

CRITICAL ACCOUNTING POLICIES

Our Consolidated Financial Statements and accompanying notes have been prepared in accordance with accounting principles generally accepted in the United States of America. Our Consolidated Financial Statements and relevant footnotes have been adjusted for discontinued operations. The preparation of these financial statements requires management to make estimates, judgments, and assumptions that affect reported amounts of assets, liabilities, revenues, expenses, and other comprehensive income. We continually evaluate the accounting policies and estimates used to prepare the Consolidated Financial Statements. The estimates are based on historical experience and assumptions believed to be reasonable under current facts and circumstances. Actual amounts and results could differ from these estimates made by management. Certain accounting policies that require significant management estimates and are deemed critical to our results of operations or financial position are discussed in our Annual Report on Form 10-K for fiscal 2015 in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

RESULTS OF OPERATIONS

Executive Overview

We are one of the largest providers of cloud-based Human Capital Management ("HCM") solutions - including payroll, talent management, human resource management, benefits administration and time and attendance - to employers around the world. As a leader in this industry, we are focused on driving product innovation, enhancing our distribution and service capabilities, and assisting our clients with HCM needs in the face of ever increasing regulatory complexities.

During the six months ended December 31, 2015, we continued to focus on our global HCM strategy and our results reflect the strength of our underlying business model, our success in the market, and our focus on future growth. This continued focus is evidenced by our investments in product innovation and our sales force, as well as the disposition of the AdvancedMD ("AMD") business.

Our increased focus on product development, the high demand for additional HCM solutions (including products that assist businesses in complying with the Affordable Care Act ("ACA")), improved productivity, and continued positive economic growth in the United States of America ("U.S."), led our sales force to deliver strong new business bookings during the six months ended December 31, 2015. During the first half of the fiscal year ended June 30, 2016 ("fiscal 2016"), we increased our investments in our sales force and in operational resources to support new business sold. We remain pleased with the solid financial performance of our business segments despite pressure from foreign currency translation and our high-margin client funds interest revenue. Our increased investments in our sales force and operational resources to support the new business sold come primarily as a result of our strong new business bookings results in the fourth quarter of fiscal 2015 and the six months

ended December 31, 2015, particularly related to selling and implementing clients on products that are designed to assist them in complying with the ACA. We expect the margin pressure from client funds interest revenue and revenue and earnings growth pressure from foreign currency translation to persist during the remainder of fiscal 2016, however, we expect a reduced impact from foreign currency translation during the remainder of the year. We expect our increased investment in the implementation and servicing of our ACA products to begin producing increased recurring revenue in the second half of fiscal 2016. Both of our business segments have driven solid organic revenue growth in the six months ended December 31, 2015, especially when considering the pressure on Employer Services revenues from foreign currency translation. Revenue retention, which is coming off a historic high in prior periods, declined compared to the first half of fiscal 2015 due to elevated losses on our legacy client platforms. This metric continues to be a point of internal focus as we upgrade our clients from legacy platforms to our new cloud-based solutions. Despite this decrease in revenue retention, we achieved solid revenue growth, mainly from new business started and the continued increase in our pays per control metric, which represents the increase in the number of employees on our clients' payrolls as measured on a same-store-sales basis utilizing a representative subset of payrolls ranging from small to large businesses that are reflective of a broad range of U.S. geographic regions. This new business started shows the strength of our sales force, the demand for our products, and our ability to implement our new business bookings.

We have a strong business model with a high percentage of recurring revenues, good margins, the ability to generate consistent, healthy cash flows, strong client retention, and low capital expenditure requirements. Our financial condition and balance sheet remain solid at December 31, 2015, with cash and cash equivalents and marketable securities of approximately \$2.8 billion. Additionally, during the six months ended December 31, 2015, we changed our capital structure via the issuance of \$2 billion in senior notes, the proceeds of which we intend to return to shareholders via share repurchases. The introduction of long-term debt to our capital structure and the anticipated share repurchases are intended to enhance total shareholder return over the longer term.

We invest our funds held for clients in accordance with ADP's prudent and conservative investment guidelines, where the safety of principal, liquidity, and diversification are the foremost objectives of our investment strategy. The portfolio is predominantly invested in AAA/AA rated fixed-income securities. Our client funds investment strategy is structured to allow us to average our way through an interest rate cycle by laddering the maturities of our investments out to five years (in the case of the extended portfolio) and out to ten years (in the case of the long portfolio). This investment strategy is supported by our short-term financing arrangements necessary to satisfy short-term funding requirements relating to client funds obligations.

Analysis of Consolidated Operations

n/m - not meaningful

Note 1 - Non GAAP Financial Measures

Within the tables above and below, we use the term "constant dollar basis" so that certain financial measures can be viewed without the impact of foreign currency fluctuations to facilitate period-to-period comparisons of business performance. The financial results on a "constant dollar basis" are determined by calculating the current year result using foreign exchange rates consistent with the prior year. We believe "constant dollar basis" provides information that isolates the actual growth of our operations.

Additionally, the following table reconciles our reported results to adjusted results that exclude certain interest amounts, the gain on the sale of AMD in the six months ended December 31, 2015, and the gain on sale of a building in the three and six months ended December 31, 2015. We use certain adjusted results, among other measures, to evaluate our operating performance in the absence of certain items and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because it allows investors to view performance in a manner similar to the method used by management and improves our ability to understand and assess our operating performance against prior periods. Since adjusted earnings from continuing operations before interest and income taxes ("adjusted EBIT"), adjusted provision for income taxes, adjusted net earnings from continuing operations, adjusted diluted earnings per share ("EPS") from continuing operations and adjusted EBIT margin are not measures of performance calculated in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), they should not be considered in isolation from, or as a substitute for, earnings from continuing operations before income taxes, provision for income taxes, net earnings from continuing operations, and diluted EPS from continuing operations, and they may not be comparable to similarly titled measures used by other companies. The adjusted EBIT performance measure includes interest income earned on investments associated with our client funds extended investment strategy and interest expense on borrowings related to our client funds extended investment strategy. We believe these amounts to be fundamental to the underlying operations of our business model.

Total Revenues

Our revenues, as reported, increased 6% for the three months ended December 31, 2015, despite pressure from foreign currency translation and approximately one percentage point impact from the disposition of the AMD business in September 2015, primarily due to new business started during the past twelve months from new business bookings growth. Refer to “Analysis of Reportable Segments” for additional discussion of the increases in revenue for both of our reportable segments, Employer Services and PEO Services.

Total revenues for the three months ended December 31, 2015 include interest on funds held for clients of \$89.3 million, as compared to \$90.9 million for the three months ended December 31, 2014. The decrease in the consolidated interest earned on funds held for clients resulted from the decrease in the average interest rate earned to 1.7% for the three months ended December 31, 2015, as compared to 1.8% for the three months ended December 31, 2014, partially offset by the increase in our average client funds balance of 4%, to \$20,546.3 million, for the three months ended December 31, 2015.

Our revenues, as reported, increased 6% for the six months ended December 31, 2015, despite pressure from foreign currency translation primarily due to new business started during the past twelve months from new business bookings growth. Refer to “Analysis of Reportable Segments” for additional discussion of the increases in revenue for both of our reportable segments, Employer Services and PEO Services.

Total revenues for the six months ended December 31, 2015 include interest on funds held for clients of \$177.1 million, as compared to \$181.0 million for the six months ended December 31, 2014. The decrease in the consolidated interest earned on funds held for clients resulted from the decrease in the average interest rate earned to 1.8% for the six months ended December 31, 2015, as compared to 1.9% for the six months ended December 31, 2014, partially offset by the increase in our average client funds balance of 4% to \$19,952.6 million, for the six months ended December 31, 2015.

Total Expenses

Our total expenses, as reported, increased 7% and 6%, respectively, for the three and six months ended December 31, 2015, as compared to the same period in the prior year. The increase is primarily due to increased costs to service our expanding client base in support of our growing revenue. Total expenses also increased due to an increase in selling and implementation expenses to support our growth in new business bookings as we experienced traction from our increased focus on product development and high demand for additional HCM solutions, including products that assist businesses in complying with the ACA. These increases were partially offset by the impact of foreign currency translation.

Operating expenses, as reported, increased 7% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. Operating expenses include the costs directly attributable to servicing our clients and implementing new business. Also, operating expenses include PEO Services pass-through costs that are re-billable and which include costs for benefits coverage, workers' compensation coverage, and state unemployment taxes for worksite employees. These pass-through costs were \$554.0 million for the three months ended December 31, 2015, which included costs for benefits coverage of \$468.3 million and costs for workers' compensation and payment of state unemployment taxes of \$85.7 million. These pass-through costs were \$470.3 million for the three months ended December 31, 2014, which included costs for benefits coverage of \$396.3 million and costs for workers' compensation and payment of state unemployment taxes of \$74.0 million. Additionally, operating expenses increased due to higher costs to implement and service our expanding client base in support of our growing revenue, including products that assist with ACA compliance which contributed to our strong new business bookings finish to fiscal 2015 and the first half of fiscal 2016. These increases were partially offset by the impact of foreign currency translation.

Operating expenses, as reported, increased 6% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. PEO Services pass-through costs were \$1,088.1 million for the six months ended December 31, 2015, which included costs for benefits coverage of \$921.0 million and costs for workers' compensation and payment of state unemployment taxes of \$167.1 million. These pass-through costs were \$924.7 million for the six months ended December 31, 2014, which included costs for benefits coverage of \$779.2 million and costs for workers' compensation and payment of state unemployment taxes of \$145.5 million. Additionally, operating expenses increased due to higher costs to implement and service our expanding client base in support of our growing revenue, including products that assist with ACA compliance which contributed to our strong new business bookings finish to fiscal 2015 and the first half of fiscal 2016. These increases were partially offset by the impact of foreign currency translation.

Systems development and programming costs, as reported, increased 1% and 4%, respectively, for the three and six months ended December 31, 2015, when compared to the same period in the prior year, due to increased investments and costs to

develop, support, and maintain our products, partially offset by a higher proportion of capitalized costs of our strategic projects and the impact of foreign currency translation.

Selling, general and administrative expenses, as reported, increased 7% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. The increase was primarily related to an increase in selling expenses to support our growth in new business bookings as we experienced traction from our increased focus on product development and particularly high demand for products that are designed to assist businesses in complying with the ACA. These increases were partially offset by the impact of foreign currency translation.

Selling, general and administrative expenses, as reported, increased 6% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. The increase was primarily related to an increase in selling expenses to support our growth in new business bookings as we experienced traction from our increased focus on product development and particularly high demand for products that are designed to assist businesses in complying with the ACA. Selling, general and administrative expenses also increased due to a \$10.7 million reversal of reserves in the six months ended December 31, 2014 related to our former Dealer Services business financing arrangements which were sold to a third party. These increases were partially offset by the impact of foreign currency translation.

Other Income, net

	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	\$ Change	2015	2014	\$ Change
Interest income on corporate funds	\$(17.3)	\$(18.3)	\$(1.0)	\$(35.9)	\$(36.7)	\$(0.8)
Realized gains on available-for-sale securities	(0.5)	(1.7)	(1.2)	(1.5)	(2.7)	(1.2)
Realized losses on available-for-sale securities	4.3	0.8	(3.5)	5.3	1.0	(4.3)
Gain on the sale of notes receivable	—	—	—	—	(1.4)	(1.4)
Gain on sale of AMD (see Note 3)	—	—	—	(29.1)	—	29.1
Gain on sale of building	(13.9)	—	13.9	(13.9)	—	13.9
Other income, net	\$(27.4)	\$(19.2)	\$8.2	\$(75.1)	\$(39.8)	\$35.3

Other income, net, increased \$8.2 million for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. The increase was primarily due to the gain on the sale of a building of \$13.9 million, partially offset by a \$3.6 million impairment loss on available-for-sale securities, which we had the intent to sell at December 31, 2015, and is included in the realized losses on available-for-sale securities in the table above.

Other income, net, increased \$35.3 million for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. The increase was primarily due to the gain on sale of the AMD business of \$29.1 million, and the gain on the sale of a building of \$13.9 million, partially offset by a \$3.6 million impairment loss on available-for-sale securities, which we had the intent to sell at December 31, 2015, and is included in the realized losses on available-for-sale securities in the table above.

Earnings from Continuing Operations before Income Taxes

Earnings from continuing operations before income taxes, as reported, increased 2% for the three months ended December 31, 2015 due to the increases in revenues and expenses discussed above. Overall margin decreased from 18.8% in the three months ended three months ended December 31, 2014 to 18.1% in the three months ended December 31, 2015, due to increased investments in implementation and selling expenses, primarily related to our ACA products, which we expect to begin producing increased recurring revenues in the second half of fiscal 2016, and an increase in interest expense related to our September 2015 \$2.0 billion senior note issuance. This decrease was partially offset by the gain on the sale of a building.

Earnings from continuing operations before income taxes, as reported, increased 7% for the six months ended December 31, 2015 due to the increases in revenues and expenses discussed above. Overall margin increased from 18.2% in the six months ended December 31, 2014 to 18.3% in the six months ended December 31, 2015, due to the gain on the sale of the AMD business and the gain on the sale of a building. These increases were offset by increased investments in implementation and selling expenses, primarily related to our ACA products, which we expect to begin producing increased recurring revenues in the second half of fiscal 2016, and an increase in interest expense related to our September 2015 \$2.0 billion senior note issuance.

Adjusted EBIT

Adjusted EBIT increased 2% for the three months ended December 31, 2015 due to the increase in revenues and expenses discussed above. Overall adjusted EBIT margin decreased from 18.7% in the three months ended December 31, 2014 to 18.0% in the three months ended December 31, 2015 due to increased investments in implementation and selling expenses, primarily related to our ACA products.

Adjusted EBIT increased 4% for the six months ended December 31, 2015 due to the increases in revenues and expenses discussed above. Overall adjusted EBIT margin decreased from 18.1% in the six months ended December 31, 2014 to 17.8% in the six months ended December 31, 2015 due to increased investments in implementation and selling expenses, primarily related to our ACA products.

Provision for Income Taxes

The effective tax rate for the three months ended December 31, 2015 and 2014 was 32.8% and 33.3%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits, the reversal of valuation allowances, and the resolution of certain tax matters in the three months ended December 31, 2015. This decrease was partially offset by a change in tax law during the three months ended December 31, 2014 and the impact of the sale of a building during the three months ended December 31, 2015.

The effective tax rate for the six months ended December 31, 2015 and 2014 was 33.0% and 33.7%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits and the reversal of valuation allowances in the six months ended December 31, 2015, partially offset by adjustments to the tax liability and a change in tax law during the six months ended December 31, 2014.

Adjusted Provision for Income Taxes

The effective tax rate, adjusted for the impact of the gain on sale of a building, for the three months ended December 31, 2015 and 2014 was 32.6% and 33.3%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits, the reversal of valuation allowances, and the resolution of certain tax matters in the

three months ended December 31, 2015, partially offset by a change in tax law during the three months ended December 31, 2014.

The effective tax rate, adjusted for the impact of the AMD business sale and a gain on the sale of a building, for the six months ended December 31, 2015 and 2014 was 33.1% and 33.7%, respectively. The decrease in the effective tax rate is due to an increase in foreign tax credits and the reversal of valuation allowances in the six months ended December 31, 2015, partially offset by adjustments to the tax liability and a change in tax law during the six months ended December 31, 2014.

Net Earnings from Continuing Operations and Diluted Earnings per Share from Continuing Operations

Net earnings from continuing operations, as reported, increased 3% and 8%, respectively, for the three and six months ended December 31, 2015 due to the increase in earnings from continuing operations before income taxes described above and the impact of the lower effective tax rate when compared to the same period in the prior year.

For the three and six months ended December 31, 2015, our diluted earnings per share from continuing operations reflects the increase in net earnings from continuing operations and the impact of fewer shares outstanding as a result of the repurchase of 9.4 million shares during the six months ended December 31, 2015 and the repurchase of 18.2 million shares in fiscal 2015, offset by shares issued under our employee benefit plans.

Adjusted Net Earnings from Continuing Operations and Adjusted Diluted Earnings per Share from Continuing Operations

Adjusted net earnings from continuing operations remained flat for the three months ended December 31, 2015 due to the increase in revenues and expenses described above and the impact of the lower effective tax rate when compared to the three months ended December 31, 2014.

Adjusted net earnings from continuing operations increased 3% for the six months ended December 31, 2015 due to the increase in revenues and expenses described above and the impact of the lower effective tax rate when compared to the six months ended December 31, 2014.

For the three and six months ended December 31, 2015, our adjusted diluted earnings per share from continuing operations reflects the increase in adjusted net earnings from continuing operations and the impact of fewer shares outstanding as a result of the repurchase of 9.4 million shares during the six months ended December 31, 2015 and the repurchase of 18.2 million shares in fiscal 2015, offset by shares issued under our employee benefit plans.

Employer Services

Revenues

Employer Services' revenues, as reported, increased 3% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. Revenues increased due to new business started during the past twelve months from new business bookings, the impact of price increases, and an increase in the number of employees on our clients' payrolls as our pays per control increased 2.5% for the three months ended December 31, 2015 as compared to the three month ended December 31, 2014. The increases were partially offset by the impacts of client losses and foreign currency translation. Our worldwide client revenue retention rate for the three months ended December 31, 2015 decreased 120 basis points as compared to our rate for the three months ended December 31, 2014 due to elevated losses on our legacy platforms.

Employer Services' revenues, as reported, increased 3% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. Revenues increased due to new business started during the past twelve months from new business bookings, the impact of price increases, and an increase in the number of employees on our clients' payrolls as our pays per control increased 2.4% for the six months ended December 31, 2015 as compared to the six months ended December 31, 2014. These increases were partially offset by the impacts of client losses and foreign currency translation. Our worldwide client revenue retention rate for the six months ended December 31, 2015 decreased 140 basis points as compared to our rate for the six months ended December 31, 2014 due to elevated losses on our legacy platforms.

Earnings from Continuing Operations before Income Taxes

Employer Services' earnings from continuing operations before income taxes, as reported, increased 2% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. The increase was due to increased revenues discussed above, which was partially offset by an increase in expenses of \$57.4 million. The increase in expenses is related to increased costs of servicing our clients, as well as increased selling and implementation expenses due to new business bookings and associated implementation costs, primarily related to our ACA products. These increases were partially offset by the impact of foreign currency translation.

Employer Services' overall margin decreased from 29.1% to 28.8% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. This decrease is due to investment in operational resources

to support the implementation of our strong new business bookings in recent quarters and increased selling expenses due to another strong quarter of new business bookings, partially offset by an increase of 40 basis points from foreign currency translation.

Employer Services' earnings from continuing operations before income taxes, as reported, increased 2% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. The increase was due to increased revenues discussed above, which was partially offset by an increase in expenses of \$110.0 million. The increase in expenses is related to increased costs of servicing our clients, as well as increased selling and implementation expenses due to new business bookings and associated implementation costs, primarily related to our ACA products. These increases were partially offset by the impact of foreign currency translation.

Employer Services' overall margin decreased from 28.6% to 28.2% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. This decrease is due to investment in operational resources to support the implementation of strong new business bookings from the fourth quarter of fiscal 2015 and the start of fiscal 2016 and increased selling expenses due to a strong first half of fiscal 2016 of new business bookings, partially offset by an increase of 40 basis points from foreign currency translation.

PEO Services

Revenues

PEO Services' revenues, as reported, increased 18% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. Such revenues include pass-through costs of \$554.0 million for the three months ended December 31, 2015 and \$470.3 million for the three months ended December 31, 2014 associated with benefits coverage, workers' compensation coverage, and state unemployment taxes for worksite employees. The increase in revenues was due to a 14% increase in the average number of worksite employees, driven by an increase in the number of new PEO Services clients and growth in our existing clients, as well as higher client participation and higher benefit pass-through costs in our PEO benefit offerings.

PEO Services' revenues, as reported, increased 18% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. Such revenues include pass-through costs of \$1,088.1 million for the six months ended December 31, 2015 and \$924.7 million for the six months ended December 31, 2014 associated with benefits coverage, workers' compensation coverage, and state unemployment taxes for worksite employees. The increase in revenues was due to a 13% increase in the average number of worksite employees, driven by an increase in the number of new PEO Services clients and growth in our existing clients, as well as higher client participation and higher benefit pass-through costs in our PEO benefit offerings.

Earnings from Continuing Operations before Income Taxes

PEO Services' earnings from continuing operations before income taxes, as reported, increased 19% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014. The increase was due to increased revenues discussed above, which is partially offset by an increase in expenses of \$96.4 million. The increase in expenses is primarily related to an increase in pass-through costs of \$83.7 million described above. Overall margin increased from 12.6% to 12.7% for the three months ended December 31, 2015, as compared to the three months ended December 31, 2014, due to operating efficiencies, as our operating costs related to servicing our clients increased slower than our revenues.

PEO Services' earnings from continuing operations before income taxes, as reported, increased 25% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014. The increase was due to increased revenues discussed above, which was partially offset by an increase in expenses of \$181.6 million. This increase in expenses is primarily related to an increase in pass-through costs of \$163.4 million described above. Overall margin increased from 11.9% to 12.7% for the six months ended December 31, 2015, as compared to the six months ended December 31, 2014, due to operating efficiencies, as our operating costs related to servicing our clients increased slower than our revenues.

Other

The primary components of the "Other" segment are the results of operations of ADP Indemnity, non-recurring gains and losses, miscellaneous processing services, the elimination of intercompany transactions, interest expense, certain charges and expenses that have not been allocated to the reportable segments, such as stock-based compensation

expense, and beginning in the first quarter of fiscal 2016, the historical results of the AMD business, which was previously reported in the Employer Services segment. This change, which is adjusted for both the current period and the prior period in the table above, did not significantly affect reportable segment results and is consistent with the way the chief operating decision maker assesses the performance of the reportable segments.

ADP Indemnity provides workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services' worksite employees up to \$1 million per occurrence. PEO Services has secured specific per occurrence and aggregate stop loss insurance from a wholly-owned and regulated insurance carrier of AIG that covers all losses in excess of \$1 million per occurrence and also any aggregate losses within the \$1 million retention that collectively exceed a certain level in certain policy years. We utilize historical loss experience and actuarial judgment to determine the estimated claim liability for the PEO Services business. Premiums are charged to PEO Services to cover the claims expected to be incurred by the PEO

Services' worksite employees. Changes in estimated ultimate incurred losses are recognized by ADP Indemnity. During the six months ended December 31, 2015, ADP Indemnity paid a premium of \$202.0 million to enter into a reinsurance arrangement with ACE American Insurance Company ("ACE") to cover substantially all losses incurred by ADP Indemnity for the fiscal 2016 policy year up to \$1 million per occurrence related to the workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services worksite employees.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2015, cash and cash equivalents and marketable securities were \$2,842.8 million, stockholders' equity was \$4,206.2 million, and the ratio of long-term debt-to-equity was 47.4%. Working capital before funds held for clients, and client funds obligations at December 31, 2015 was \$3,092.8 million, as compared to \$1,480.7 million at June 30, 2015. The increase in working capital was due to an increase in cash and cash equivalents as well as changes in other elements of working capital which were driven by the timing of receipts and disbursements related to our underlying operations.

Our principal sources of liquidity for operations are derived from cash generated through operations and through corporate cash and marketable securities on hand. We have the ability to borrow through our financing arrangements under our U.S. short-term commercial paper program and our U.S. and Canadian short-term reverse repurchase agreements to meet short-term funding requirements related to client funds obligations.

Our cash flows from operating, investing, and financing activities, as reflected in the Statements of Consolidated Cash Flows for the six months ended December 31, 2015 and 2014, are summarized as follows:

	Six Months Ended		
	December 31,		\$ Change
	2015	2014	
Cash provided by (used in):			
Operating activities	\$492.7	\$607.1	\$(114.4)
Investing activities	(5,865.7)	(13,379.8)	7,514.1
Financing activities	6,549.5	12,702.6	(6,153.1)
Effect of exchange rate changes on cash and cash equivalents	(20.9)	(62.7)	41.8
Net change in cash and cash equivalents	\$1,155.6	\$(132.8)	\$1,288.4

Net cash flows provided by operating activities decreased due to \$225.5 million received from the sale of notes receivable related to Dealer Services financing arrangements in the six months ended December 31, 2014 and an additional \$34.1 million of cash payments for workers' compensation reinsurance agreements in the six months ended December 31, 2015 as compared to the six months ended December 31, 2014. This was offset by an increase in net earnings, adjusted for non-cash items, and a favorable change in the remaining components of working capital as compared to the six months ended December 31, 2014. Operating cash flows for the six months ended December 31, 2015 and December 31, 2014 include cash payments for reinsurance agreements of \$202.0 million and \$167.9 million respectively, which represents the policy premium for the entire fiscal year.

Net cash flows used in investing activities decreased due to the change in restricted cash and cash equivalents held to satisfy client funds obligations of \$7,317.7 million, the timing of purchases of and proceeds from corporate and client funds marketable securities of \$703.4 million, and the sale of AMD during the six months ended December 31, 2015, offset by the receipt of the CDK dividend during the six months ended December 31, 2014.

Net cash flows provided by financing activities decreased due to a net decrease in client fund obligations of \$9,927.9 million and an increase in repurchases of common stock, partially offset by the issuance of long-term debt during the

six months ended December 31, 2015 and the repayments of commercial paper obligations in the six months ended December 31, 2014.

We purchased approximately 9.4 million shares of our common stock at an average price per share of \$82.79 during the six months ended December 31, 2015 as compared to purchases of 5.7 million shares at an average price per share of \$83.25 during the six months ended December 31, 2014. From time to time, we may repurchase shares of our common stock under our authorized share repurchase program. We consider several factors in determining when to execute share repurchases, including, among other things, actual and potential acquisition activity, cash balances and cash flows, issuances due to employee benefit plan activity, and market conditions.

Our U.S. short-term funding requirements related to client funds are sometimes obtained through a short-term commercial paper program, which provides for the issuance of up to \$8.25 billion of commercial paper, rather than liquidating investments in available-for-sale securities related to previously-collected client funds. Our commercial paper program is rated A-1+ by Standard & Poor's and Prime-1 by Moody's. These ratings denote the highest quality commercial paper securities. Maturities of commercial paper can range from overnight to up to 364 days. For the three months ended December 31, 2015 and 2014, the Company had average daily borrowings of \$3.3 billion and \$3.0 billion, respectively, at a weighted average interest rate of 0.2% and 0.1%, respectively. For the six months ended December 31, 2015 and 2014, the Company had average daily borrowings of \$3.4 billion and \$3.1 billion, respectively, at a weighted average interest rate of 0.2% and 0.1%, respectively. The weighted average maturity of our commercial paper during the six months ended December 31, 2015 was approximately two days. We have successfully borrowed through the use of our commercial paper program on an as needed basis to meet short-term funding requirements related to client funds obligations. At December 31, 2015 and June 30, 2015, we had no commercial paper outstanding.

Our U.S. and Canadian short-term funding requirements related to client funds obligations are sometimes obtained on a secured basis through the use of reverse repurchase agreements, which are collateralized principally by government and government agency securities, rather than liquidating investments in available-for-sale securities related to previously-collected client funds. These agreements generally have terms ranging from overnight to up to five business days. We have successfully borrowed through the use of reverse repurchase agreements on an as-needed basis to meet short-term funding requirements related to client funds obligations. At December 31, 2015 and June 30, 2015, there were no outstanding obligations related to the reverse repurchase agreements. For the three months December 31, 2015 and 2014, we had average outstanding balances under reverse repurchase agreements of \$334.9 million and \$598.6 million, respectively, at weighted average interest rates of 0.3% and 0.5%, respectively. For the six months ended December 31, 2015 and 2014, we had average outstanding balances under reverse repurchase agreements of \$410.2 million and \$584.7 million, respectively, at weighted average interest rates of 0.4% and 0.5%, respectively. In addition, we have \$3.25 billion available on a committed basis under the U.S. reverse repurchase agreements. We believe that we currently meet all conditions set forth in the committed reverse repurchase agreements to borrow thereunder, and we are not aware of any conditions that would prevent us from borrowing part or all of the \$3.25 billion available to us under the committed reverse repurchase agreements.

We have a \$2.75 billion, 364-day credit agreement with a group of lenders that matures in June 2016. In addition, we have a five-year \$2.25 billion credit facility and a five-year \$3.25 billion credit facility maturing in June 2020 and June 2019, respectively, each with an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The interest rate applicable to committed borrowings is tied to LIBOR, the effective federal funds rate, or the prime rate depending on the notification provided by the Company to the syndicated financial institutions prior to borrowing. The Company is also required to pay facility fees on the credit agreements. The primary uses of the credit facilities are to provide liquidity to the commercial paper program and funding for general corporate purposes, if necessary. We had no borrowings through December 31, 2015 under the credit facilities. We believe that we currently meet all conditions set forth in the revolving credit agreements to borrow thereunder and we are not aware of any conditions that would prevent us from borrowing part or all of the \$8.25 billion available to us under the revolving credit facilities.

Our investment portfolio does not contain any asset-backed securities with underlying collateral of subprime mortgages, alternative-A mortgages, sub-prime auto loans or sub-prime home equity loans, collateralized debt obligations, collateralized loan obligations, credit default swaps, derivatives, auction rate securities, structured investment vehicles, or non-investment grade fixed-income securities. We own AAA rated senior tranches of fixed rate credit card, auto loan, and rate reduction receivables, secured predominantly by prime collateral. All collateral on asset-backed securities is performing as expected. In addition, we own senior debt directly issued by Federal Home Loan Banks and Federal Farm Credit Banks. We do own mortgage-backed securities, which represent an undivided

beneficial ownership interest in a group or pool of one or more residential mortgages. These securities are collateralized by the cash flows of 15-year and 30-year residential mortgages and are guaranteed primarily by Federal National Mortgage Association as to the timely payment of principal and interest. Our client funds investment strategy is structured to allow us to average our way through an interest rate cycle by laddering the maturities of our investments out to five years (in the case of the extended portfolio) and out to ten years (in the case of the long portfolio). This investment strategy is supported by our short-term financing arrangements necessary to satisfy short-term funding requirements relating to client funds obligations.

Capital expenditures for continuing operations for the six months ended December 31, 2015 were \$89.0 million, as compared to \$76.5 million for the six months ended December 31, 2014. Capital expenditures for continuing operations for fiscal 2016 are expected to be between \$200 million and \$225 million, as compared to \$171.2 million in fiscal 2015.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our overall investment portfolio is comprised of corporate investments (cash and cash equivalents, short-term marketable securities, and long-term marketable securities) and client funds assets (funds that have been collected from clients but not yet remitted to the applicable tax authorities or client employees).

Our corporate investments are invested in cash and cash equivalents and highly liquid, investment-grade marketable securities. These assets are available for repurchases of common stock for treasury and/or acquisitions, as well as other corporate operating purposes. All of our short-term and long-term fixed-income securities are classified as available-for-sale securities.

Our client funds assets are invested with safety of principal, liquidity, and diversification as the primary goals. Consistent with those goals, we also seek to maximize interest income and to minimize the volatility of interest income. Client funds assets are invested in highly liquid, investment-grade marketable securities, with a maximum maturity of 10 years at the time of purchase and money market securities and other cash equivalents. At December 31, 2015, approximately 93% of the available-for-sale securities categorized as U.S. Treasury and direct obligations of U.S. government agencies were invested in senior, unsecured, non-callable debt directly issued by the Federal Home Loan Banks and Federal Farm Credit Banks.

We utilize a strategy by which we extend the maturities of our investment portfolio for funds held for clients and employ short-term financing arrangements to satisfy our short-term funding requirements related to client funds obligations. Our client funds investment strategy is structured to allow us to average our way through an interest rate cycle by laddering the maturities of our investments out to five years (in the case of the extended portfolio) and out to ten years (in the case of the long portfolio). As part of our client funds investment strategy, we use the daily collection of funds from our clients to satisfy other unrelated client funds obligations, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. We minimize the risk of not having funds collected from a client available at the time such client's obligation becomes due by impounding, in virtually all instances, the client's funds in advance of the timing of payment of such client's obligation. As a result of this practice, we have consistently maintained the required level of client funds assets to satisfy all of our obligations.

There are inherent risks and uncertainties involving our investment strategy relating to our client funds assets. Such risks include liquidity risk, including the risk associated with our ability to liquidate, if necessary, our available-for-sale securities in a timely manner in order to satisfy our client funds obligations. However, our investments are made with the safety of principal, liquidity, and diversification as the primary goals to minimize the risk of not having sufficient funds to satisfy all of our client funds obligations. We also believe we have significantly reduced the risk of not having sufficient funds to satisfy our client funds obligations by consistently maintaining access to other sources of liquidity, including our corporate cash balances, available borrowings under our \$8.25 billion commercial paper program (rated A-1+ by Standard & Poor's and Prime-1 by Moody's, the highest possible credit ratings), our ability to execute reverse repurchase transactions (\$3.25 billion of which is available on a committed basis), and available borrowings under our \$8.25 billion committed revolving credit facilities, the primary uses of which are to provide liquidity to the commercial paper program and funding for general corporate purposes, if necessary. The reduced availability of financing during periods of economic turmoil, even to borrowers with the highest credit ratings, may limit our ability to access short-term debt markets to meet the liquidity needs of our business. In addition to liquidity risk, our investments are subject to interest rate risk and credit risk, as discussed below.

We have established credit quality, maturity, and exposure limits for our investments. The minimum allowed credit rating at time of purchase for corporate and Canadian provincial bonds is BBB, for asset-backed securities is AAA,

and for municipal bonds is A. The maximum maturity at time of purchase for BBB rated securities is 5 years, for single A rated securities is 7 years, and for AA rated and AAA rated securities is 10 years. Time deposits and commercial paper must be rated A-1 and/or Prime-1. Money market funds must be rated AAA/Aaa-mf.

Details regarding our overall investment portfolio are as follows:

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Average investment balances at cost:				
Corporate investments	\$6,438.7	\$5,776.2	\$6,064.1	\$5,558.1
Funds held for clients	20,546.3	19,815.3	19,952.6	19,260.2
Total	\$26,985.0	\$25,591.5	\$26,016.7	\$24,818.3

Average interest rates earned exclusive of realized

gains/(losses) on:					
Corporate investments	1.1	% 1.3	% 1.2	% 1.3	%
Funds held for clients	1.7	% 1.8	% 1.8	% 1.9	%
Total	1.6	% 1.7	% 1.6	% 1.8	%

Realized gains on available-for-sale securities	\$ (0.5))	\$ (1.7))	\$ (1.5))	\$ (2.7))
Realized losses on available-for-sale securities	4.3		0.8		5.3		1.0	
Net realized gains on available-for-sale securities	\$ 3.8		\$ (0.9))	\$ 3.8		\$ (1.7))

	December 31, 2015	June 30, 2015
Net unrealized pre-tax gains on available-for-sale securities	\$99.3	\$216.5
Total available-for-sale securities at fair value	\$20,285.1	\$20,873.8

We are exposed to interest rate risk in relation to securities that mature, as the proceeds from maturing securities are reinvested. Factors that influence the earnings impact of the interest rate changes include, among others, the amount of invested funds and the overall portfolio mix between short-term and long-term investments. This mix varies during the fiscal year and is impacted by daily interest rate changes. The annualized interest rates earned on our entire portfolio decreased from 1.7% for the three months ended December 31, 2014 to 1.6% for the three months ended December 31, 2015 and from 1.8% for the six months ended December 31, 2014 to 1.6% for the six months ended December 31, 2015. A hypothetical change in both short-term interest rates (e.g., overnight interest rates or the federal funds rate) and intermediate-term interest rates of 25 basis points applied to the estimated average investment balances and any related short-term borrowings would result in approximately a \$15 million impact to earnings from continuing operations before income taxes over the ensuing twelve-month period ending December 31, 2016. A hypothetical change in only short-term interest rates of 25 basis points applied to the estimated average short-term investment balances and any related short-term borrowings would result in approximately a \$7 million impact to earnings from continuing operations before income taxes over the ensuing twelve-month period ending December 31, 2016.

We are exposed to credit risk in connection with our available-for-sale securities through the possible inability of the borrowers to meet the terms of the securities. We limit credit risk by investing in investment-grade securities, primarily AAA and AA rated securities, as rated by Moody's, Standard & Poor's, and for Canadian securities, Dominion Bond Rating Service. Approximately 81% of our available-for-sale securities held a AAA or AA rating at December 31, 2015. In addition, we limit amounts that can be invested in any security other than U.S. and Canadian government or government agency securities.

We operate and transact business in various foreign jurisdictions and are therefore exposed to market risk from changes in foreign currency exchange rates that could impact our consolidated results of operations, financial position, or cash flows. We expect pressure from foreign currency translation on our revenue and earnings from continuing operations to persist during the remainder of fiscal 2016, however, we do expect a reduced impact from foreign currency translation during the remainder of the year. We manage our exposure to these market risks through our regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. We use derivative financial instruments as risk management tools and not for trading purposes. We had no derivative financial instruments outstanding at December 31, 2015 or June 30, 2015.

NEW ACCOUNTING PRONOUNCEMENTS

In November 2015, we prospectively adopted Accounting Standards Update ("ASU") 2015-17, "Balance Sheet Classification of Deferred Taxes." The update simplifies the presentation of deferred income taxes by requiring that deferred tax liabilities and assets, including valuation allowances, be classified as noncurrent in the consolidated balance sheets. ASU 2015-17 did not have a material impact on our consolidated statement of financial condition and had no impact on our consolidated results of operations or cash flows. Prior periods were not retrospectively adjusted.

In September 2015, we prospectively adopted ASU 2015-16, "Simplifying the Accounting for Measurement Period Adjustments." The update eliminates the need to retrospectively adjust prior period information in the financial statements for acquisition adjustments to goodwill during the measurement period. The adoption had no impact on the Company's consolidated results of operations, financial condition, or cash flows as presented, however, the future impact of ASU 2015-16 will be dependent on future acquisitions, if any.

In July 2015, we retrospectively adopted ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs." Debt issuance costs have been presented on the consolidated balance sheets as a direct deduction from the carrying amount of the related debt liability. ASU 2015-03 did not have a material impact on our consolidated results of operations, financial condition, or cash flows.

In July 2015, we prospectively adopted ASU 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 requires that a disposal representing a strategic shift that has (or will have) a major effect on an entity's financial results or a business activity classified as held for sale should be reported as a discontinued operation. As a result of ASU 2014-08, the Company did not classify AMD as a discontinued operation. The businesses classified as a discontinued operation as of June 30, 2015 continue to be classified as a discontinued operation (see Note 3).

In January 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities." This update impacts the accounting for financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. ASU 2016-01 is to be applied prospectively and is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. We have not yet determined the impact of ASU 2016-01 on our consolidated results of operations, financial condition, or cash flows.

In April 2015, the FASB issued ASU 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement." The update provides guidance on whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. ASU No. 2015-05 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We intend to prospectively adopt ASU 2015-05 and do not expect the new standard to have a material impact on our consolidated results of operations, financial condition, or cash flows.

In April 2015, the FASB issued ASU 2015-04, "Compensation - Retirement Benefits (Topic 715): Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets." The update allows an entity to remeasure their pension and other post-retirement benefit plan assets and liabilities at the month-end closest to a significant event such as a plan amendment, curtailment, or settlement. ASU 2015-04 is to be applied prospectively and is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015.

Early adoption is permitted. The impact of ASU 2015-04 is dependent upon the nature of future significant events impacting our pension plans, if any.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 requires an entity to recognize revenue depicting the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 will also result in enhanced revenue related disclosures. Entities have the option to apply the new guidance under a retrospective approach to each prior reporting period presented or a modified retrospective approach with the cumulative effect of initially applying the new guidance recognized at the date of initial application within the Statements of Consolidated Financial Position. ASU 2014-09 is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2017. Early adoption is permitted. We have not yet determined the impact of ASU 2014-09 on our consolidated results of operations, financial condition, or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information called for by this item is provided under the caption "Quantitative and Qualitative Disclosures about Market Risk" under Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "evaluation"). Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of December 31, 2015 in ensuring that (i) information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure and (ii) such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission's rules and forms.

There was no change in the Company's internal control over financial reporting that occurred during the three months ended December 31, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Except as noted below, all other items are either inapplicable or would result in negative responses and, therefore, have been omitted.

Item 1. Legal Proceedings

In the normal course of business, the Company is subject to various claims and litigation. While the outcome of any litigation is inherently unpredictable, the Company believes it has valid defenses with respect to the legal matters pending against it and the Company believes that the ultimate resolution of these matters will not have a material adverse impact on its financial condition, results of operations, or cash flows.

Item 1A. Risk Factors

There have been no material changes in our risk factors disclosed in Part 1, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of the Publicly Announced Common Stock Repurchase Plan (2)	Maximum Number of Shares that may yet be Purchased under the Common Stock Repurchase Plan (2)
October 1 to 31, 2015	2,466,913	\$85.50	2,466,522	45,617,883
November 1 to 30, 2015	1,300,000	\$86.67	1,300,000	44,317,883
December 1 to 31, 2015	1,435,243	\$85.67	1,429,874	42,888,009
Total	5,202,156		5,196,396	

(1) During the three months ended December 31, 2015, pursuant to the terms of the Company's restricted stock program, the Company made repurchases of 5,760 shares at the then market value of the shares in connection with the exercise by employees of their options under such program to satisfy certain tax withholding requirements through the delivery of shares to the Company instead of cash.

(2) The Company announced the Board of Directors' approval to repurchase the shares of our common stock included in the table above as follows:

Date of Approval	Shares
August 2014	30 million
August 2015	25 million

There is no expiration date for the common stock repurchase plan.

Item 5. Other Information

Compliance Disclosure

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, or ITRA, which added Section 13(r) to the Exchange Act, we are required to disclose in our annual or quarterly reports, as applicable, whether we or any of our affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or with individuals or entities that are subject to sanctions under U.S. law. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable law.

Executive Order 12959 of May 6, 1995 prohibited, among other things, the exportation of any goods, technology or services from the United States to Iran, the Government of Iran, or any entity owned or controlled by the Government of Iran. On January 9, 2007, the Office of Foreign Assets Control, or OFAC, designated Bank Sepah as a Specially Designated National, or SDN, under Executive Order 13382 (“EO 13382”), and on October 25, 2007, OFAC designated Bank Melli as an SDN under EO 13382. As of their respective designation dates, the property and interests in property of each of Bank Sepah and Bank Melli were blocked pursuant to EO 13382 and the Weapons of Mass Destruction Proliferators Sanctions Regulations, 31 C.F.R. part 544. On October 25, 2007, OFAC designated Bank Saderat as an SDN under Executive Order 13224 (“EO 13224”), and Bank Saderat’s property and interests in property were blocked pursuant to EO 13224 and the Global Terrorism Sanctions Regulations, 31 C.F.R. Part 594. On February 6, 2012, the property and interests in property of all three banks were blocked also under Executive Order 13599, which blocked all property and interests in property of the Government of Iran and any Iranian financial institution within the United States or the possession or control of any U.S. person.

During the Company’s second quarter of fiscal 2016, in the course of a compliance review of its clients and vendors globally, the Company determined that two of its French subsidiaries had previously entered into client service arrangements with each of the SDNs listed above (in 2001 in the case of Bank Saderat and in 1996 in the case of each of Bank Sepah and Bank Melli). More specifically, the Company discovered that since 1996 for each of Bank Sepah and Bank Melli, and since 2001 regarding Bank Saderat, these ADP subsidiaries had provided a managed services solution to these SDNs, involving the monthly calculation of payroll data, and the associated preparation and filing (on behalf of the SDNs) of monthly, quarterly and annual social benefits declarations to the applicable French governmental authorities. Neither of these ADP subsidiaries, nor any other affiliate of the Company, provided any money movement services to such SDNs or to the employees of such SDNs. The aggregate gross revenue and aggregate net profits received by the Company since inception of the service arrangements in 1996 and 2001 is estimated to be \$185,000 of aggregate gross revenue and \$35,000 of aggregate net profits.

Immediately following its discovery of such service arrangements, the Company terminated the service arrangements with each SDN and the Company does not intend to continue providing such services. The Company has voluntarily notified OFAC of the service arrangements and intends to cooperate fully with OFAC. As part of its compliance review, the Company is presently engaged in a thorough analysis of all client and vendor relationships worldwide, and intends to report to OFAC any findings of any additional client or vendor relationships involving other SDNs, including any such relationships with any SDNs over the prior five years, which is consistent with OFAC’s record keeping requirements (31 C.F.R. § 501.601). The Company may be subject to fines and penalties, which amounts are not reasonably estimable at this time due to the ongoing nature of the compliance review and the factors that OFAC may consider relevant.
