EZCORP, INC. AND SUBSIDIARIES

Notes to Interim Condensed Consolidated Financial Statements (Unaudited)

March 31, 2013

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. Our management has included all adjustments it considers necessary for a fair presentation. These adjustments are of a normal, recurring nature except for those related to acquired businesses (described in Note 2). The accompanying financial statements should be read with the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended September 30, 2012. The balance sheet at September 30, 2012 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Our business is subject to seasonal variations, and operating results for the three and six months ended March 31, 2013 (the "current quarter" and "current six-month period") are not necessarily indicative of the results of operations for the full fiscal year. Certain prior period balances have been reclassified to conform to the current presentation and to reflect adjustments to purchase price allocations that were updated as additional information became available.

The consolidated financial statements include the accounts of EZCORP, Inc. ("EZCORP") and its consolidated subsidiaries. All inter-company accounts and transactions have been eliminated in consolidation. As of March 31, 2013, we own 60% of the outstanding equity interests in Prestaciones Finmart, S.A. de C.V., SOFOM, E.N.R. ("Grupo Finmart"), doing business under the brands "Crediamigo" and "Adex," 95% of Ariste Holding Limited and its affiliates ("Cash Genie"), and 51% of Renueva Comercial S.A. de C.V. ("TUYO"), and therefore, include their results in our consolidated financial statements. We account for our investments in Albemarle & Bond Holdings, PLC and Cash Converters International Limited using the equity method.

With the exception of the policies described below, there have been no changes in significant accounting policies as described in our Annual Report on Form 10-K for the year ended September 30, 2012.

On November 20, 2012, we entered into a definitive agreement with Go Cash, LLC and certain of its affiliates ("Go Cash") to acquire substantially all the assets of Go Cash's online lending business. This acquisition was completed on December 20, 2012 and accounted for as an asset purchase. Since the acquisition, Go Cash (now EZCORP Online) has modified the following consumer loan policies:

Unsecured Consumer Loan Revenue and Bad Debt— Consumer loans made by EZCORP Online are considered delinquent if they are not repaid or renewed by the maturity date. We do not accrue additional revenues on delinquent loans. All outstanding principal balances and fee receivables greater than 60 days past due are considered defaulted. Upon default, we charge consumer loan principal to consumer loan bad debt and reverse accrued unsecured consumer loan fee revenue.

Recently Adopted Accounting Pronouncements

In December 2011, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-11, Disclosures about Offsetting Assets and Liabilities. This update, which amends FASB ASC 210 (Balance Sheet), requires entities to disclose information about offsetting and related arrangements and the effect of those arrangements on its financial position. The amendments in ASU 2011-11 enhance disclosures required by FASB ASC 210 by requiring improved information about financial instruments and derivative instruments that are either offset in accordance with FASB ASC 210-20-45 or 815-10-45 or are subject to an enforceable master netting arrangement or similar agreement. ASU 2011-11 is effective for interim and annual periods beginning on or after January 1, 2013. Disclosures are required retrospectively for all comparative periods presented. Currently, we do not enter into any right of offset arrangements and the adoption of ASU 2011-11 did not have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-01, Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. This update addresses implementation issues about the scope of ASU 2011-11. The amendments in this ASU clarify that the scope of the disclosures under U.S. GAAP is limited to derivatives, including bifurcated embedded derivatives, repurchase agreements, reverse purchase agreements, securities borrowing and securities lending transactions that are offset in accordance with FASB ASC 210-20-45 Balance Sheet—Offsetting—Other Presentation

Table of Contents

Matters, or FASB ASC 815-10-45 Derivatives and Hedging — Overall — Other Presentation Matters, or subject to a master netting arrangement or similar agreement. Entities with other types of financial assets and financial liabilities subject to a master netting arrangement or similar agreement are no longer subject to the disclosure requirements in ASU 2011-11. This update requires entities to apply the amendments for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods and to provide the required disclosures retrospectively for all comparative periods presented. Currently, we do not enter into any right of offset arrangements and the adoption of ASU 2013-01 did not have a material effect on our financial position, results of operations or cash flows.

**Recently Issued Accounting Pronouncements**

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. This update clarifies the Codification or corrects unintended application of guidance and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, Fair Value Measurement. Amendments to the Codification without transition guidance are effective upon issuance for both public and nonpublic entities. For public entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2012. We do not anticipate that the adoption of ASU 2012-04 will have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-02, Comprehensive income (Topic 220) — Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This update, requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in its entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. This update requires entities to apply the amendments for periods beginning after December 15, 2012 and interim periods within those annual periods and to provide the required disclosures for all reporting periods presented. We do not anticipate the adoption of ASU 2013-03 to have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-04, Liabilities (Topic 405)—Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (a consensus of the FASB Emerging Issues Task Force). This update provides guidance for the recognition, measurement and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date (except for obligations addressed within existing guidance in U.S. GAAP). Examples of obligations within the scope of ASU 2013-04 include debt arrangements, other contractual obligations and settled litigation and judicial rulings. ASU 2013-04 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. We do not anticipate that the adoption of ASU 2013-04 will have a material effect on our financial position, results of operations or cash flows.

In March 2013, the FASB issued ASU 2013-05, Foreign Currency Matters (Topic 830) — Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force). This update applies to the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity, or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity. ASU 2013-05 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. We do not anticipate that the adoption of ASU 2013-05 will have a material effect on our financial position, results of operations or cash flows.

**NOTE 2: ACQUISITIONS****Go Cash**

On November 20, 2012, we entered into a definitive agreement with Go Cash, LLC and certain of its affiliates ("Go Cash") to acquire substantially all the assets of Go Cash's online lending business. This acquisition was completed on

December 20, 2012 and accounted for as an asset purchase. No liabilities were assumed other than trade payables and accounts payable incurred prior to closing in the ordinary course of business, which were less than \$0.2 million. The assets acquired include a proprietary software platform, including a loan management system and a lending decision science engine, that will enable geographic expansion both within the U.S. and internationally; an internal customer service and collections call center; a portion of the existing Go Cash multi-state loan portfolio; and related assets, including customer lists, customer data and customer transaction information. We hired substantially all of Go Cash's employees, including the management team, an internal underwriting and customer experience analytics team, and an experienced customer service and collections call center team.

Table of Contents

The total purchase price is performance-based and will be determined over a period of four years following the closing. A minimum of \$50.8 million will be paid, of which \$27.8 million was paid at closing, \$11.0 million will be paid on November 10, 2013, \$6.0 million will be paid on November 10, 2014, and \$6.0 million will be paid on November 10, 2015. The performance consideration element will be based on the net income generated by the "Post-Closing Business Unit" (which will include all of EZCORP's online consumer lending business). Within a specified period after the end of each of the first four years following the closing, EZCORP will make a contingent supplemental payment equal to the difference between (a) the adjusted net income for such year, multiplied by 6.0, and (b) all consideration payments previously paid. Each payment may be made, in EZCORP's sole discretion, in cash or in the form of shares of EZCORP Class A Non-Voting Common Stock. The initial payment was made in the form of 1,400,198 shares of EZCORP Class A Non-Voting Common Stock.

The contingent consideration element of the purchase price, which is the amount in excess of the guaranteed \$50.8 million, has not yet been valued as of March 31, 2013 and therefore has not been included in the purchase price allocation or the financial statements of EZCORP as of March 31, 2013. The three and six month periods ended March 31, 2013 include \$1.4 million and \$1.5 million in total revenues and \$2.8 million and \$3.1 million in losses related to EZCORP online.

**TUYO**

On November 1, 2012, we acquired a 51% interest in Renueva Comercial S.A. de C.V., a company headquartered in Mexico City and doing business under the name "TUYO." TUYO owns and operates 20 stores in Mexico City and the surrounding metropolitan area. In these stores, TUYO buys quality used merchandise from customers and then resells that merchandise to other customers. TUYO also sells refurbished or other merchandise acquired in bulk from wholesalers. As this acquisition was individually immaterial, we present its related information, other than information related to the redeemable noncontrolling interest, on a combined basis.

Pursuant to the acquisition agreement, the sellers have a put option with respect to their remaining shares of TUYO. The sellers have the right to sell their TUYO shares to EZCORP during a specified exercise period, with specified limitations on the number of shares that may be sold within a consecutive 12-month period. Under the guidance in ASC 480-10-S99, securities that are redeemable for cash or other assets are to be classified outside of permanent equity; therefore, we have included the redeemable noncontrolling interest related to TUYO in temporary equity.

The fair value of the TUYO redeemable noncontrolling interest was estimated by applying an income and market approach. This fair value measurement is based on significant inputs that are not observable in the market and thus represents a Level 3 measurement. Key assumptions include discount rates of 10% and 18% representing discounts for lack of control and lack of marketability respectively that market participants would consider when estimating the fair value of the noncontrolling interest. The fair market value of TUYO was determined using a multiple of future earnings. We expect the recorded values related to the noncontrolling interest at March 31, 2013 to approximate fair value.

**Other**

The six-month period ended March 31, 2013, includes the December 2012 acquisition of 12 pawn locations in Arizona. Arizona is a new state of operation for EZCORP. As this acquisition was individually immaterial, we present its related information on a consolidated basis.

The following tables provide information related to the acquisitions of domestic and foreign retail and financial services locations during the six months ended March 31, 2013:

|                                       | Six Months Ended March 31, 2013 |                    |

| Goodwill deductible for tax purposes           | \$38,128                           | \$—                   |
| Indefinite-lived intangible assets acquired:   |                                    |                       |
| Domain name                                    | \$215                              | \$—                   |
| Definite-lived intangible assets acquired (1): |                                    |                       |
| Non-compete agreements                         | \$—                                | \$30                  |
| Internally developed software                  | \$12,100                           | \$66                  |

(1) The weighted average useful life of definite-lived intangible assets acquired is five years.

All acquisitions were made as part of our continuing strategy to enhance and diversify our earnings over the long-term. The factors contributing to the recognition of goodwill were based on several strategic and synergistic benefits we expect to realize from the acquisitions. These benefits include our initial entry into several markets and a greater presence in others, as well as the ability to further leverage our expense structure through increased scale. The purchase price allocation of assets acquired in the most recent twelve month period is preliminary as we continue to

receive information regarding the acquired assets. Transaction related expenses for the six-month periods ended March 31, 2013 and 2012 of approximately \$0.5 million and \$1.7 million, respectively, were expensed as incurred and recorded as administrative expenses. These amounts exclude costs related to transactions that did not close and future acquisitions. The results of all acquisitions have been consolidated with our results since their respective closing. Pro forma results of operations have not been presented because it is impracticable to do so, as historical audited financial statements in U.S. GAAP are not readily available.

Table of Contents

Grupo Finmart

On January 30, 2012, we acquired a 60% interest in Grupo Finmart, now doing business under the brands of Crediamigo and Adex, a specialty consumer finance company headquartered in Mexico City, with 45 loan servicing locations throughout the country, for total consideration of \$60.1 million, net of cash acquired. This amount includes contingent consideration related to two earn out payments. If certain financial performance targets are achieved, during calendar years 2012 and 2013, we will make a payment to the sellers of \$12.0 million, each year, for a total amount of \$24.0 million. The Grupo Finmart purchase price allocation presented below includes a fair value amount of \$23.0 million attributable to the contingent consideration payments. The first contingent consideration payment of \$12.0 million was paid in April 2013.

Pursuant to the Master Transaction Agreement, the sellers have a put option with respect to their remaining shares of Grupo Finmart. Under the guidance in ASC 480-10-S99, securities that are redeemable for cash or other assets are to be classified outside of permanent equity; therefore, we have included the redeemable noncontrolling interest related to Grupo Finmart in temporary equity. The fair value of the Grupo Finmart redeemable noncontrolling interest was estimated by applying an income and market approach. This fair value measurement at acquisition was based on significant inputs that are not observable in the market and thus represents a Level 3 measurement. We expect the recorded values related to the noncontrolling interest at March 31, 2013 to approximate fair value.

Cash Genie

On April 14, 2012, we acquired a 72% interest in Ariste Holding Limited and its affiliates, which provides online loans in the U.K. under the name "Cash Genie." As this acquisition was individually immaterial, we present its related information, other than information related to the redeemable noncontrolling interest, on a combined basis.

Pursuant to the acquisition agreement, the sellers have a put option with respect to their remaining shares of Cash Genie. The seller has the right to sell their Cash Genie shares to EZCORP during the exercise period. Under the guidance in ASC 480-10-S99, securities that are redeemable for cash or other assets are to be classified outside of permanent equity; therefore, we have included the redeemable noncontrolling interest related to Cash Genie in temporary equity.

On November 14, 2012, a seller exercised his option with respect to his remaining shares. This transaction increased our ownership percentage to 95%, and was treated as an equity transaction and not an adjustment to the purchase price of the Company's initial controlling interest acquisition of Cash Genie. The details of the transaction are described further in Note 8. We expect the remaining recorded values related to the noncontrolling interest at March 31, 2013 to approximate fair value.

Other

In fiscal 2012, we acquired 50 locations in the U.S. and one in Canada. As these acquisitions, were individually immaterial, we present their related information on a consolidated basis.

Table of Contents

The following table provides information related to the acquisitions of domestic and foreign retail and financial services locations in fiscal 2012:

|   | Fiscal Year Ended<br>September 30, 2012 |                       |

As per FASB ASC 805-10-25 adjustments to provisional purchase price allocation amounts made during the measurement period, shall be recorded as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements. The amounts above and our consolidated balance sheet as of March 31, 2012 reflect all measurement period adjustments recorded since the acquisition date. These adjustments resulted in a \$0.1 million decrease in the purchase price and include a \$0.3 million increase in current assets, a \$5.5 million decrease in other assets, a \$1.4 million decrease in current liabilities \$3.0 million decrease in long-term liabilities and a \$2.8 million increase in the redeemable noncontrolling interest, for a net change in goodwill of \$3.6 million.

**NOTE 3: EARNINGS PER SHARE**

We compute basic earnings per share on the basis of the weighted average number of shares of common stock outstanding during the period. We compute diluted earnings per share on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding stock options and restricted stock awards.

Potential common shares are required to be excluded from the computation of diluted earnings per share if the assumed proceeds upon exercise or vest, as defined by FASB ASC 718-10-25, are greater than the cost to re-acquire the same number of shares at the average market price, and therefore the effect would be anti-dilutive.

Table of Contents

Components of basic and diluted earnings per share and excluded anti-dilutive potential common shares are as follows:

|   | Three Months Ended March 31,             |          | Six Months Ended March 31, |          |

**NOTE 4: STRATEGIC INVESTMENTS**

At March 31, 2013, we owned 16,644,640 ordinary shares of Albemarle & Bond Holdings, PLC ("Albemarle & Bond"), representing almost 30% of its total outstanding shares. Our total cost for those shares was approximately \$27.6 million. Albemarle & Bond is primarily engaged in pawnbroking, retail jewelry sales, check cashing and lending in the United Kingdom. We account for the investment using the equity method. Since Albemarle & Bond's fiscal year ends three months prior to ours, we report the income from this investment on a three-month lag.

Albemarle & Bond files semi-annual financial reports for its fiscal periods ending December 31 and June 30. Due to the three-month lag, income reported for our six-month period ended March 31, 2013 and 2012 represents our percentage interest in the results of Albemarle & Bond's operations from July 1, 2012 to December 31, 2012 and July 1, 2011 to December 31, 2011, respectively.

Conversion of Albemarle & Bond's financial statements into U.S. GAAP resulted in no material differences from those reported by Albemarle & Bond following IFRS.

In its functional currency of British pounds, Albemarle & Bond's total assets increased 13% from December 31, 2011 to December 31, 2012 and its net income decreased 31% for the six months ended December 31, 2012. The following table presents summary financial information for Albemarle & Bond's most recently reported results after translation to U.S. dollars (using the exchange rate as of December 31 of each year for balance sheet items and average exchange rates for the income statement items for the periods indicated):

|  | As of December 31,            |           |

Table of Contents

At March 31, 2013, we owned 136,848,000 shares, or approximately 33% of Cash Converters International Limited ("Cash Converters International"), a publicly traded company headquartered in Perth, Australia. Cash Converters International franchises and operates a worldwide network of over 700 specialty financial services and retail stores that provide pawn loans, short-term unsecured loans and other consumer finance products, and buy and sell second-hand goods, with significant store concentrations in Australia and the United Kingdom. Those shares include 12,430,000 shares that we acquired in November 2012 for approximately \$11.0 million in cash as part of a share placement. Our total investment in Cash Converters International was acquired between November 2009 and November 2012 for approximately \$68.8 million.

We account for our investment in Cash Converters International using the equity method. Since Cash Converters International's fiscal year ends three months prior to ours, we report the income from this investment on a three-month lag. Cash Converters International files semi-annual financial reports for its fiscal periods ending December 31 and June 30. Due to the three-month lag, income reported for our six-month period ended March 31, 2013 and 2012 represents our percentage interest in the results of Cash Converters International's operations from July 1, 2012 to December 31, 2012 and July 1, 2011 to December 31, 2011, respectively.

Conversion of Cash Converters International's financial statements into U.S. GAAP resulted in no material differences from those reported by Cash Converters following IFRS.

In its functional currency of Australian dollars, Cash Converters International's total assets increased 22% from December 31, 2011 to December 31, 2012 and its net income improved 39% for the six months ended December 31, 2012. The following table presents summary financial information for Cash Converters International's most recently reported results after translation to U.S. dollars (using the exchange rate as of December 31 of each year for balance sheet items and average exchange rates for the income statement items for the periods indicated):

Table of Contents

The table below summarizes the recorded value and fair value of each of these strategic investments at the dates indicated. These fair values are considered Level 1 estimates within the fair value hierarchy of FASB ASC 820-10-50, and were calculated as (a) the quoted stock price on each company's principal market multiplied by (b) the number of shares we owned multiplied by (c) the applicable foreign currency exchange rate at the dates indicated.

| Total                         | \$55,688           | \$ (13,024 )                | \$42,664             | \$30,649           | \$ (7,778 )                 | \$22,871             | \$35,511              | \$ (9,007 )                 | \$26,504             |

The amortization of most definite-lived intangible assets is recorded as amortization expense. The favorable lease asset and other intangibles are amortized to operations expense (rent expense) over the related lease terms. The deferred financing costs are amortized to interest expense over the life of the related debt instruments. The following table presents the amount and classification of amortization recognized as expense in each of the periods presented:

|   | Three Months Ended March 31, |         | Six Months Ended March 31, |         |
|---|------------------------------|---------|----------------------------|---------|
|   | 2013                         | 2012    | 2013                       | 2012    |
|   | (in thousands)               |         |                            |         |
| Amortization expense  | \$1,322                      | \$1,697 | \$2,045                    | \$1,924 |
| Operations expense  | 32                           | 23      | 67                         | 49      |
| Interest expense  | 760                          | 444     | 1,524                      | 595     |
| Total expense from the amortization of definite-lived intangible assets | \$2,114                      | \$2,164 | \$3,636                    | \$2,568 |

The following table presents our estimate of future amortization expense for definite-lived intangible assets:

| Fiscal Years Ended<br>September 30, | Amortization expense | Operations expense | Interest expense |
|-------------------------------------|----------------------|--------------------|------------------|
|                                     | (in thousands)       |                    |                  |
| 2013                                | \$2,676              | \$67               | \$1,636          |
| 2014                                | 5,740                | 126                | 2,164            |
| 2015                                | 5,452                | 113                | 1,108            |
| 2016                                | 5,392                | 111                | 580              |
| 2017                                | 5,304                | 111                | 487              |

As acquisitions and dispositions occur in the future, amortization expense may vary from these estimates.

| Total long-term and capital lease obligations                   | \$138,024       | \$ 353       | \$108,084       | \$ 11,934    | \$199,831          | \$ 741       |

On May 10, 2011, we entered into a new senior secured credit agreement with a syndicate of five banks, replacing our previous credit agreement. Among other things, the new credit agreement provides for a four-year \$175 million revolving credit facility that we may, under the terms of the agreement, request to be increased to a total of \$225 million. Upon entering the new credit agreement, we repaid and retired our \$17.5 million outstanding debt. The new credit facility increases our available credit and provides greater flexibility to make investments and acquisitions both domestically and internationally.

Pursuant to the credit agreement, we may choose to pay interest to the lenders for outstanding borrowings at LIBOR plus 200 to 275 basis points or the bank's base rate plus 100 to 175 basis points, depending on our leverage ratio computed at the end of each calendar quarter. On the unused amount of the credit facility, we pay a commitment fee of 37.5 to 50 basis points depending on our leverage ratio calculated at the end of each quarter. Terms of the credit agreement require, among other things, that we meet certain financial covenants, restrict dividend payments and limit other and non-recourse debt. At March 31, 2013, we were in compliance with all covenants. We expect the recorded value of our debt to approximate its fair value, as it is all variable rate debt and carries no pre-payment penalty, and would be considered a Level 2 estimate within the fair value hierarchy.

Table of Contents

At March 31, 2013, \$74.0 million was outstanding under our revolving credit agreement. We also issued a \$1.7 million letter of credit, leaving \$99.3 million available on our revolving credit facility. The outstanding bank letter of credit was required under our workers' compensation insurance program.

Deferred financing costs related to our credit agreement are included in intangible assets, net on the balance sheet and are being amortized to interest expense over the term of the agreement.

On January 30, 2012, we acquired a 60% ownership interest in Grupo Finmart, a specialty consumer finance company headquartered in Mexico City. Non-recourse debt amounts in the table above represent Grupo Finmart's third party debt. All lines of credit are guaranteed by Grupo Finmart's loan portfolio. Interest on lines of credit due 2014 and 2015 is charged at the Mexican Interbank Equilibrium ("TIIE") plus a margin varying from 6% to 9%. The line of credit due 2014 requires monthly payments of \$0.1 million with remaining principal due at maturity. The line of credit due 2015 requires monthly payments of \$0.9 million with the remaining principal due at maturity. The 15% secured notes require monthly payments of \$0.1 million with remaining principal due at maturity.

At acquisition, we performed a valuation to determine the fair value of Grupo Finmart's debt. As a result, we recorded a debt premium on Grupo Finmart's debt. This debt premium is being amortized as a reduction of interest expense over the life of the debt. The fair value was determined by using an income approach, specifically the discounted cash flows method based on the contractual terms of the debt and risk adjusted discount rates. The significant inputs used for the valuation are not observable in the market and thus this fair value measurement represents a Level 3 measurement within the fair value hierarchy. We expect the recorded value of our debt to approximate its fair value and would be considered Level 3 estimates within the fair value hierarchy.

On July 10, 2012, Grupo Finmart entered into a securitization transaction to transfer the collection rights of certain eligible consumer loans to a bankruptcy remote trust in exchange for cash on a non-recourse basis. The trust received financing as a result of the issuance of debt securities and delivered the proceeds of the financing to Grupo Finmart. The securitization agreement calls for a two-year revolving period in which the trust will use principal collections of the consumer loan portfolio to acquire additional collection rights up to \$121.4 million in eligible loans from Grupo Finmart. Upon the termination of the revolving period, the collection received by the trust will be used to repay the debt. Grupo Finmart will continue to service the underlying loans in the trust.

Grupo Finmart is the primary beneficiary of the securitization trust because Grupo Finmart has the power to direct the most significant activities of the trust through its role as servicer of all the receivables held by the trust and through its obligation to absorb losses or receive benefits that could potentially be significant to the trust. Consequently, we consolidate the trust.

As of March 31, 2013, borrowings under the securitization borrowing facility amounted to \$34.0 million. Interest is charged at TIIE plus a 2.5% margin, or a total of 7.3% as of March 31, 2013. The debt issued by the trust will be paid solely from the collections of the consumer loans transferred to the trust, and therefore there is no recourse to Grupo Finmart or EZCORP.

**NOTE 7: COMMON STOCK, OPTIONS AND STOCK COMPENSATION**

Our net income includes the following compensation costs related to our stock compensation arrangements:

|                          | Three Months Ended<br>March 31,<br>2013 |         | Six Months Ended<br>March 31,<br>2013 |          |

| Net compensation expense | \$1,409                                 | \$1,155 | \$2,035                               | \$2,222  |

In the current three and six month periods ended March 31, 2013, stock option exercises resulted in the issuance of 3,000 shares for nominal proceeds. In the prior year three and six-month periods ended March 31, 2012, stock option exercises resulted in the issuance of 195,898 shares for total proceeds of \$0.6 million. All options and restricted stock related to our Class A Non-voting Common Stock.

Table of Contents**NOTE 8: REDEEMABLE NONCONTROLLING INTEREST**

The following table provides a summary of the activities in our redeemable noncontrolling interests as of March 31, 2013 and 2012:

|  | Redeemable<br>Noncontrolling<br>Interests<br>(in thousands) |
|--|---|
| Balance as of September 30, 2011   | \$—   |
| Acquisition of redeemable noncontrolling interest                                | 36,300  |
| Net income attributable to redeemable noncontrolling interests                   | 112   |
| Foreign currency translation adjustment attributable to noncontrolling interests | 496   |
| Balance as of March 31, 2012   | \$36,908  |
| Balance as of September 30, 2012   | \$53,681  |
| Acquisition of redeemable noncontrolling interest                                | 2,836   |
| Sale of additional shares to parent  | (7,981 )  |
| Net income attributable to redeemable noncontrolling interests                   | 2,337   |
| Foreign currency translation adjustment attributable to noncontrolling interests | 2,109   |
| Balance as of March 31, 2013   | \$52,982  |

On November 1, 2012, we acquired a 51% interest in TUYO (See Note 2 for details).

On November 14, 2012, we acquired an additional 23% of the ordinary shares outstanding of Cash Genie, our U.K. online lending business, for \$10.4 million, increasing our ownership percentage from 72% to 95%, with the remaining 5% held by local management. The consideration paid to the selling shareholder was paid in the form of 592,461 shares of EZCORP Class A Non-Voting Common Stock. This transaction was treated as an equity transaction and not an adjustment to the purchase price of the our initial controlling interest acquisition of Cash Genie.

**NOTE 9: INCOME TAXES**

Income tax expense is provided at the U.S. tax rate on financial statement earnings, adjusted for the difference between the U.S. tax rate and the rate of tax in effect for non-U.S. earnings deemed to be permanently reinvested in our non-U.S. operations. Deferred income taxes have not been provided for the potential remittance of non-U.S. undistributed earnings to the extent those earnings are deemed to be permanently reinvested, or to the extent such recognition would result in a deferred tax asset.

The current quarter's effective tax rate is 31.6% of pretax income compared to 34.7% for the prior year quarter. For the current six-month period, the effective tax rate is 32.7% compared to 34.3% in the prior year six-month period. The effective tax rate for the three month period ended March 31, 2013 was lowered by a one-time recognition of a tax benefit from foreign net operating losses. The effective tax rate for the six-month period ended March 31, 2013 was lowered by a one-time recognition of a tax benefit from state and foreign net operating losses.

**NOTE 10: CONTINGENCIES**

Currently and from time to time, we are defendants in various legal and regulatory actions. While we cannot determine the ultimate outcome of these actions, we believe their resolution will not have a material adverse effect on our financial condition, results of operations or liquidity.

**NOTE 11: OPERATING SEGMENT INFORMATION**

Segment information is prepared on the same basis that our management reviews financial information for operational decision-making purposes. Our business consists of three reportable segments:

• U.S. & Canada – Includes all business activities in the United States and Canada

• Latin America – Includes all business activities in Mexico and other parts of Latin America

Table of Contents

Other International – Includes all business activities in the rest of the world (currently consisting of consumer loans online in the U.K. and our equity interests in the net income of Albemarle & Bond and Cash Converters International) In connection with our decentralization strategy, we have changed the accountability for, and reporting of, certain items in administrative expenses, depreciation and amortization. When directly related to a segment, these items have been included in segment contribution. When shared by multiple segments, these items are being allocated to the segment and included in their segment contribution. Prior year figures have been reclassified to conform to this presentation.

There are no inter-segment revenues, and the amounts below were determined in accordance with the same accounting principles used in our consolidated financial statements. The following tables present operating segment information for the three and six-month periods ending March 31, 2013 and 2012:

|  | Three Months Ended March 31, 2013 |               |                     | Consolidated |
|--|-----------------------------------|---------------|---------------------|--------------|

**NOTE 12: ALLOWANCE FOR LOSSES AND CREDIT QUALITY OF FINANCING RECEIVABLES**

We offer a variety of loan products and credit services to customers who do not have cash resources or access to credit to meet their cash needs. Our customers are considered to be in a higher risk pool with regard to creditworthiness when compared to those of typical financial institutions. As a result, our receivables do not have a credit risk profile that can easily be measured by the normal credit quality indicators used by the financial markets. We manage the risk through closely monitoring the performance of the portfolio and through our underwriting process. This process includes review of customer information, such as making a credit reporting agency inquiry, evaluating and verifying income sources and levels, verifying employment and verifying a telephone number where customers may be contacted. For auto title loans, we additionally inspect the automobile, title and reference to market values of used automobiles.

The accuracy of our allowance estimates is dependent upon several factors, including our ability to predict future default rates based on historical trends and expected future events. We base our estimates on observable trends and various other assumptions that we believe to be reasonable under the circumstances. We review and analyze our loan portfolios based on aggregation of loans by type and duration of the loan products. Loan repayment trends and default rates are evaluated each month based on each loan portfolio and adjustments to loss allowance are made accordingly. A documented and systematic process is followed.

We consider consumer loans made at our storefronts by our wholly owned subsidiaries defaulted if they have not been repaid or renewed by the maturity date. If one payment of a multiple-payment loan is delinquent, that one payment is considered defaulted. If more than one payment is delinquent at any time, the entire loan is considered defaulted.

Although defaulted loans

Table of Contents

may be collected later, we charge the loan principal to consumer loan bad debt upon default, leaving only active loans in the reported balance. Accrued fees related to defaulted loans reduce fee revenue upon loan default, and increase fee revenue upon collection.

Based on historical collection experience, the age of past-due loans and amounts we expect to receive through the sale of repossessed vehicles, we provide an allowance for losses on auto title loans.

Consumer loans made by EZCORP Online are considered delinquent if they are not repaid or renewed by the maturity date. We do not accrue revenues on delinquent loans. All outstanding principal balances and fee receivables greater than 60 days past due are considered defaulted. Upon default, we charge consumer loan principal to consumer loan bad debt and reverse accrued unsecured consumer loan fee revenue. Subsequent collections of these amounts are recorded as a reduction to consumer loan bad debt expense and consumer loan fee revenue.

The Grupo Finmart acquisition marked our initial entry into unsecured consumer lending in Mexico. Grupo Finmart's consumer loans are considered in current status as long as the customer is employed and Grupo Finmart receives payments via payroll withholdings. Loans made to customers no longer employed are considered current if payments are made by the due date. If one payment of a loan is delinquent, that one payment is considered defaulted. If two or more payments are delinquent at any time, the entire loan is considered defaulted. Although defaulted loans may be collected later, Grupo Finmart charges the loan principal to consumer loan bad debt upon default, leaving only active loans in the reported balance. Subsequent collections of principal are recorded as a reduction of consumer loan bad debt when collected. Accrued fees related to defaulted loans reduce fee revenue upon default, and increase fee revenue upon collection.

The following table presents changes in the allowance for credit losses, as well as the recorded investment in our financing receivables by portfolio segment for the periods presented:

\*Comparative information includes activity since Grupo Finmart's January 30, 2012 acquisition.

\*\* Benefit in unsecured long-term consumer loan provision is due to the sale of past due loans and recoveries of loans previously written-off.

The provisions presented in the table above include only principal and exclude items such as non-sufficient funds fees, repossession fees, auction fees and interest. In addition, all credit service expenses and fees related to loans made by our unaffiliated lenders are excluded, as we do not own the loans made in connection with our credit services and they are not recorded as assets on our balance sheets. Expected losses on credit services are accrued and reported in "Accounts payable and other accrued expenses" on our balance sheets.

Auto title loans remain as recorded investments when in delinquent or nonaccrual status. We consider an auto title loan past due if it has not been repaid or renewed by the maturity date. Based on experience, we establish a reserve on all auto title loans. On auto title loans more than 90 days past due, we reserve the percentage we estimate will not be recoverable through auction and

Table of Contents

reserve 100% of loans for which we have not yet repossessed the underlying collateral. No fees are accrued on any auto title loans more than 90 days past due.

Short-term unsecured consumer loans made online by EZCORP Online remain as recorded investments when in delinquent or nonaccrual status. We consider these loans past due if they have not been repaid or renewed by the maturity date. Valuation reserves are based on days past due and respective historical collection rates. We reserve 100% of loans once they are more than 60 days past due. No fees are accrued on short-term consumer loans more than 60 days past due.

Consumer loans made by Grupo Finmart remain on the balance sheet as recorded investments when in delinquent status. We consider a consumer loan past due if it has not been repaid or renewed by the maturity date; however, it is not unusual to have a lag in payments due to the time it takes the government agencies to setup the initial payroll withholding. Only those consumer loans made to customers that are no longer employed are considered in nonaccrual status. We establish a reserve on all consumer loans, based on historical experience. No fees are accrued on any consumer loans made to customers that are no longer employed.

The following table presents an aging analysis of past due financing receivables by portfolio segment:

|                                       | Days Past Due          |           |          |           | Total<br>Past Due | Current<br>Receivable | Fair Value<br>Adjustment | Total<br>Financing<br>Receivable | Allowance<br>Balance | Recorded<br>Investment<br>> 90<br>Days<br>Accruing |

\* Unsecured short-term consumer loans amounts are included for periods after the acquisition of Go Cash.

**NOTE 13: FAIR VALUE MEASUREMENTS**

In accordance with FASB ASC 820-10, Fair Value Measurements and Disclosures, our assets and liabilities, which are carried at fair value, are classified in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Other observable inputs other than quoted market prices.

Level 3: Unobservable inputs that are not corroborated by market data.

Table of Contents

The tables below present our financial assets that are measured at fair value on a recurring basis as of March 31, 2013 and 2012 and September 30, 2012:

| Financial assets (liabilities):    | March 31,<br>2013<br>(in thousands) | Fair Value Measurements Using |         |             |
|------------------------------------|-------------------------------------|-------------------------------|---------|-------------|
|                                    |                                     | Level 1                       | Level 2 | Level 3     |
| Marketable equity securities       | \$4,367                             | \$4,367                       | \$—     | \$—         |
| Contingent consideration           | (23,678 )                           | —                             | —       | (23,678 )   |
| Net financial assets (liabilities) | \$(19,311 )                         | \$4,367                       | \$—     | \$(23,678 ) |

| Financial assets (liabilities):    | March 31,<br>2012<br>(in thousands) | Fair Value Measurements Using |         |             |
|------------------------------------|-------------------------------------|-------------------------------|---------|-------------|
|                                    |                                     | Level 1                       | Level 2 | Level 3     |
| Marketable equity securities       | \$4,628                             | \$4,628                       | \$—     | \$—         |
| Contingent consideration           | (23,000 )                           | —                             | —       | (23,000 )   |
| Net financial assets (liabilities) | \$(18,372 )                         | \$4,628                       | \$—     | \$(23,000 ) |

| Financial assets (liabilities):    | September 30,<br>2012<br>(in thousands) | Fair Value Measurements Using |         |             |
|------------------------------------|---|-------------------------------|---------|-------------|
|                                    |   | Level 1                       | Level 2 | Level 3     |
| Marketable equity securities       | \$4,631                                 | \$4,631                       | \$—     | \$—         |
| Contingent consideration           | (23,432 )                               | —                             | —       | (23,432 )   |
| Net financial assets (liabilities) | \$(18,801 )                             | \$4,631                       | \$—     | \$(23,432 ) |

We measure the value of our marketable equity securities under a Level 1 input. These assets are publicly traded equity securities for which market prices are readily available. There were no transfers of assets in or out of Level 1 or Level 2 fair value measurements in the periods presented. At March 31, 2013 our marketable equity securities were in an unrealized loss position. The aggregate amount of unrealized losses at March 31, 2013 was less than \$0.1 million and we currently believe that the fair value decline is temporary.

We used an income approach to measure the fair value of the contingent consideration using a probability-weighted discounted cash flow approach, in which all outcomes were successful. The significant inputs used for the valuation are not observable in the market, as they are specifically related to Grupo Finmart, and thus this fair value measurement represents a Level 3 measurement within the fair value hierarchy. During three and six month periods ended March 31, 2013 we recorded accretion expense of \$0.1 million and \$0.3 million respectively to bring the contingent consideration liability to \$23.7 million at March 31, 2013. These amounts are included in administrative expenses in our consolidated statement of operations.

**NOTE 14: DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES**

Our earnings and financial position are affected by changes in gold values. In fiscal year 2012, we used derivative financial instruments in order to manage our commodity price risk associated with the forecasted sales of gold scrap. These derivatives were not designated as hedges, and according to FASB ASC 815-20-25, "Derivatives and Hedging – Recognition," changes in their fair value were recorded directly in earnings. As of March 31, 2013 and 2012 and as of September 30, 2012, we had no balance outstanding recorded on our balance sheet.

The table below presents the effect of our derivative financial instruments on the Condensed Consolidated Statements of Operations for the three and six-month periods ended March 31, 2013 and 2012:

| Derivative Instrument | Location of<br>Loss (Gain) | Losses (Gains) Recognized in Income |      |                            |      |
|-----------------------|----------------------------|-------------------------------------|------|----------------------------|------|
|                       |                            | Three Months Ended March 31,        |      | Six Months Ended March 31, |      |
|                       |                            | 2013                                | 2012 | 2013                       | 2012 |

**NOTE 15: CONDENSED CONSOLIDATING FINANCIAL INFORMATION**

On February 3, 2012, we filed with the United States Securities and Exchange Commission a “shelf” registration statement on Form S-3 registering the offer and sale of an indeterminate amount of a variety of securities, including debt securities. Unless otherwise indicated in connection with a particular offering of debt securities, each of our wholly-owned domestic subsidiaries will fully and unconditionally guarantee on a joint and several basis our payment obligations under such debt securities issued by the parent.

In accordance with Rule 3-10(f) of Regulation S-X, the following presents condensed consolidating financial information as of March 31, 2013 and 2012 and for the current and prior three and six month periods then ended and as of September 30, 2012 for EZCORP, Inc. (the “Parent”), each of the Parent’s domestic subsidiaries (the “Subsidiary Guarantors”) on a combined basis and each of the Parent’s other subsidiaries (the “Other Subsidiaries”) on a combined basis. Eliminating entries presented are necessary to consolidate the groups of entities. Subsequent to the issuance of our consolidated financial statements for the year ended September 30, 2012, we identified certain errors in the presentation of the consolidating financial statements contained in this footnote as of September 30, 2012, March 31, 2012 and for the three and six months ended March 31, 2012. The condensed consolidating financial information presented on the following pages has been corrected for these errors. These adjustments did not have an impact on the consolidated financial statements as of September 30, 2012, March 31, 2012, or for the three and six months ended March 31, 2012.

## NOTE 16: SUPPLEMENTAL CONSOLIDATED FINANCIAL INFORMATION

## Supplemental Consolidated Statements of Financial Position Information:

The following table provides information on net amounts included in pawn service charges receivable, consumer loan fees, inventories and property and equipment:

|   | March 31,<br>2013 | 2012      | September 30,<br>2012 |
|---|-------------------|-----------|-----------------------|
|   | (in thousands)    |           |                       |
| Pawn service charges receivable:                            |                   |           |                       |
| Gross pawn service charges receivable                       | \$33,944          | \$30,534  | \$40,828              |
| Allowance for uncollectible pawn service charges receivable | (8,556)           | (8,238)   | (11,427)              |
| Pawn service charges receivable, net                        | \$25,388          | \$22,296  | \$29,401              |
| Consumer loan fees receivable:                              |                   |           |                       |
| Gross consumer loan fees receivable                         | \$36,331          | \$28,376  | \$34,846              |
| Allowance for uncollectible consumer loan fees receivable   | (2,824)           | (3,825)   | (4,430)               |
| Consumer loan fees receivable, net                          | \$33,507          | \$24,551  | \$30,416              |
| Inventory:  |                   |           |                       |
| Inventory, gross  | \$121,893         | \$93,970  | \$114,788             |
| Inventory reserves  | (5,376)           | (6,136)   | (5,574)               |
| Inventory, net  | \$116,517         | \$87,834  | \$109,214             |
| Property and equipment:                                     |                   |           |                       |
| Property and equipment, gross                               | \$285,748         | \$234,844 | \$260,379             |
| Accumulated depreciation                                    | (166,769)         | (139,800) | (152,248)             |
| Property and equipment, net                                 | \$118,979         | \$95,044  | \$108,131             |

Property and equipment at March 31, 2013 includes approximately \$1.3 million of equipment leased under a capital lease. Amortization of equipment under capital leases is included with depreciation expense and was \$0.1 million for the three month period ended March 31, 2013 and \$0.3 million for the six-month period ended March 31, 2013. Future minimum lease payments related to capital leases are \$0.6 million, \$0.6 million and \$0.1 million due within one, two and three years respectively, for a total of \$1.3 million, of this amount \$0.1 million represents interest, and the present value of net minimum lease payments as of March 31, 2013 was \$1.2 million.

| Consumer loans:                 |                   |          |                       |
| Expected LOC losses             | \$1,666           | \$1,402  | \$1,776               |
| Maximum exposure for LOC losses | \$22,737          | \$21,727 | \$27,373              |

## NOTE 17: SUBSEQUENT EVENTS

On April 1, 2013, Grupo Finmart completed a \$15.0 million equity offering to its existing shareholders for the purpose of strengthening its balance sheet as it continues to seek additional debt to fund loan originations. EZCORP invested \$9.0 million, which reflected its 60% ownership holding.

On April 19, 2013, Albemarle & Bond Holdings, PLC, our strategic affiliate in the U.K., announced that it expected profits for their full fiscal year (ending June 30, 2013) to be materially below market expectations, citing reduction in gold buying profit and pressures on its pawn loan business due to the challenging gold environment and increased competition. In addition,

Table of Contents

Albemarle and Bond's board announced that their CEO would step down earlier than planned and their former CEO and non-executive Chairman would assume the CEO role until a permanent replacement is found. Subsequent to March 31, 2013, the fair value of our investment in Albemarle & Bond Holdings, PLC was less than our recorded value. We currently believe that the fair value decline is temporary due to the recent global gold environment challenges and the absence of a permanent CEO.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion in this section contains forward-looking statements that are based on our current expectations. Actual results could differ materially from those expressed or implied by the forward-looking statements due to a number of risks, uncertainties and other factors, including those identified in "Part II, Item 1A — Risk Factors" of this report and "Part I, Item 1A—Risk Factors" of our Annual Report on Form 10-K for the year ended September 30, 2012.

GENERAL

Overview of Operations

We are a leading provider of instant cash solutions for consumers through multiple channels: in store, at home, online, or any combination. We provide collateralized, non-recourse loans, commonly known as pawn loans, and a variety of short-term consumer loans, including single-payment and multiple-payment unsecured loans and single-payment and multiple-payment auto title loans. In Texas, we provide fee-based credit services to customers seeking loans. At our pawn and buy/sell stores, we also sell merchandise, primarily collateral forfeited from pawn lending operations and used merchandise purchased from customers and vendors.

We own a 60% interest in Grupo Finmart, a leading provider of payroll deduction loans in Mexico; a 51% interest in TUYO, a company headquartered in Mexico City that owns and operates 20 buy/sell stores in Mexico City and the surrounding metropolitan area; and a 95% interest in Cash Genie, which offers short-term consumer loans online in the United Kingdom.

Our vision is to be the global leader in providing customers with instant cash solutions where they want, when they want and how they want, and we are making the investments in both storefronts and technology platforms to achieve that vision.

At March 31, 2013, we operated a total of 1,403 locations, consisting of:

- 492 U.S. pawn stores (operating primarily as EZPAWN or Value Pawn);
- 7 U.S. buy/sell stores (operating as Cash Converters);
- 277 Mexico pawn stores (operating as Empeño Fácil or Empeñe su Oro);
- 20 Mexico buy/sell stores (operating as TUYO);
- 490 U.S. financial services stores (operating primarily as EZMONEY);
- 33 financial services stores in Canada (operating as CASHMAX );
- 36 buy/sell and financial services stores in Canada (operating as Cash Converters); and
- 48 Grupo Finmart locations in Mexico.

In addition, we are the franchisor for 9 franchised Cash Converters stores in Canada. We also own almost 30% of Albemarle & Bond Holdings, PLC, one of the U.K.'s largest pawnbroking businesses with over 230 stores, and almost 33% of Cash Converters International Limited, which franchises and operates a worldwide network of over 700 locations that buy and sell second-hand merchandise and offer financial services.

Our business consists of three reportable segments:

- U.S. & Canada – All business activities in the United States and Canada
- Latin America – All business activities in Mexico and other parts of Latin America
- Other International – All business activities in the rest of the world (currently consisting of consumer loans online in the U.K. and our equity interests in the net income of Albemarle & Bond and Cash Converters International)

## Pawn and Retail Activities

Our pawn stores make pawn loans, which are typically small, non-recourse loans collateralized by tangible personal property. At March 31, 2013, we had an aggregate pawn loan principal balance of \$138.4 million, and the average pawn loan was approximately \$125. We earn pawn service charge revenue on our pawn lending. In the current quarter, pawn service charges accounted for approximately 23% of our total revenues and 36% of our net revenues. While allowable service charges vary by state and loan size, a majority of our U.S. pawn loans earn 20% per month. Our average U.S. pawn loan amount typically ranges between \$140 to \$145, but varies depending on the valuation of each item pawned. The total U.S. loan term ranges between 60 and 120 days, consisting of the primary term and grace period. In Mexico, pawn service charges range from 15% to 21% per month, including applicable taxes, with the majority of loans earning 21%. The total Mexico pawn loan term is 40 days, consisting of the primary term and grace period. Individual loans are made in Mexican pesos and vary depending on the valuation of each item pawned, but typically average \$70 U.S. dollars.

In our pawn and buy/sell stores, we acquire inventory for retail sales through pawn loan forfeitures, purchases of customers' second hand merchandise or purchases of new or refurbished merchandise from third party vendors. The gross profit on sales of inventory depends primarily on our assessment of the loan or purchase value at the time the property is either accepted as loan collateral or purchased. Margins achieved upon sale of inventory are a function of the assessment of value at the time the pawn loan was originated or, in the case of purchased merchandise, the purchase price.

We record a valuation allowance for obsolete or slow-moving inventory based on the type and age of merchandise. We generally establish a higher allowance percentage on general merchandise, as it is more susceptible to obsolescence, and establish a lower allowance percentage on jewelry, as it generally has greater inherent commodity value. At March 31, 2013, our total allowance was 4.4% of gross inventory compared to 6.5% at March 31, 2012 and 4.9% at September 30, 2012. Changes in the valuation allowance are charged to merchandise cost of goods sold.

## Consumer Loan Activities

At March 31, 2013, our financial services stores and certain pawn stores in Texas offered credit services to customers seeking short-term consumer loans from unaffiliated lenders. We do not participate in any of the loans made by the lenders, but earn a fee for helping customers obtain credit and for enhancing customers' creditworthiness by providing letters of credit to the unaffiliated lenders. Customers may obtain two types of consumer loans from the unaffiliated lenders. In all stores offering consumer loan credit services, customers can obtain single-payment unsecured consumer loans, with principal amounts up to \$1,800 but averaging about \$430. Terms of these loans are generally less than 30 days, averaging about 16 days, with due dates corresponding with the customers' next payday. We typically earn a fee of 22% of the loan amount for our credit services offered in connection with single-payment loans. In the financial services stores offering credit services, customers can obtain longer-term unsecured multiple-payment loans from the unaffiliated lenders. There are two types of multiple-payment loans offered in connection with our credit services. All multiple-payment loans typically carry terms of about five months with ten equal installment payments, including principal amortization, due on customers' paydays. Traditional multiple-payment loan principal amounts range from \$1,525 to \$3,000, but average about \$2,205, and with each semi-monthly or bi-weekly installment payment, we earn a fee of 11% of the initial loan amount. Low dollar multiple-payment loan principal amounts range from \$100 to \$1,500, but average about \$785. With each semi-monthly or bi-weekly installment payment, we earn a fee of 13-14% of the initial loan amount. At March 31, 2013, single-payment loans comprised 92% of the balance of signature loans brokered through our credit services, and multiple-payment loans comprised the remaining 8%.

Outside of Texas, we earn loan fee revenue on our consumer loans. In our U.S. and Canada financial services stores and certain of our U.S. pawn stores, we offer single-payment loans subject to state or provincial law. The average single-payment loan amount is approximately \$485 and the term is generally less than 30 days, averaging about 18 days. We typically charge a fee of 15% to 22% of the loan amount. In many of our U.S. financial services stores, we offer multiple-payment loans subject to state law. These multiple-payment loans carry a term of four to seven months, with a series of equal installment payments including principal amortization, due monthly, semi-monthly or on the customers' paydays. Total interest and fees on these loans vary in accordance with state law and loan terms, but over

the entire loan term, total approximately 45% to 130% of the original principal amount of the loan. Multiple-payment loan principal amounts range from \$100 to \$3,000, but average approximately \$545.

At March 31, 2013, most of our U.S. financial services stores and certain of our U.S. pawn stores offered auto title loans or, in Texas, credit services to assist customers in obtaining auto title loans from unaffiliated lenders. Auto title loans are 30-day loans secured by the titles to customers' automobiles. Loan principal amounts range from \$100 to \$10,000, but average about \$1,005. We earn a fee of 12.5% to 30% of auto title loan amounts. In Texas, we assist customers in obtaining multiple-payment auto title loans from unaffiliated lenders. These loans typically carry terms of two to five months with up to ten payments. Multiple

## Table of Contents

payment auto title loan principal amounts range from \$150 to \$10,000, but average about \$1,060, and we earn a fee of 2% to 41% of the initial loan amount.

EZCORP Online now operates in five states. In Louisiana and Missouri, we offer single-payment loans over the Internet, subject to state or provincial law. The average single-payment loan amount is approximately \$300 and the term is generally less than 30 days. Total interest and fees on these loans vary in accordance with state law and loan terms, but over the entire loan term, total approximately 25% to 45% of the original principal amount of the loan. In Texas and Ohio, we offer credit services to customers seeking short-term consumer loans from unaffiliated lenders. We do not participate in any of the loans made by the lenders, but earn a fee for helping customers obtain credit and for enhancing customers' creditworthiness by providing letters of credit to the unaffiliated lenders. Customers can obtain single-payment unsecured consumer loans, with principal amounts up to \$1,000 but averaging about \$400. Starting in April 2013, we also lend in South Dakota.

In Mexico, Grupo Finmart has approximately 70 active payroll withholding agreements with Mexican employers, primarily federal, state and local governments and agencies, and provides multiple-payment consumer loans to the agencies' employees. Interest and principal payments are collected through payroll deductions. The average loan is approximately \$1,130 with a term of 32 months and annual rates ranging from 20% to 60%.

In the U.K., Cash Genie offers unsecured single payment loans with a fixed fee of 30% of the loan amount. Loans are generally due within 28 days and can be renewed; the average loan duration is 20 days. Principal loan amounts range from \$115 to \$760 but average \$285.

### Acquisitions

In the current quarter, we did not have any acquisitions.

In the current six-month period ended March 31, 2013, we acquired 12 pawn stores in the U.S. for \$23.1 million and Go Cash (now EZCORP Online), a U.S. online lender, for \$50.8 million. As part of these two acquisitions, we began store operations in the state of Arizona and online operations in four states. EZCORP Online has since started online operations in the state of Ohio, bringing the total number of states in which we operate to 26 at March 31, 2013. In the current six-month period, we acquired a 51% interest in Renueva Comercial S.A. de C.V., a company headquartered in Mexico City and doing business under the name "TUYO." TUYO owns and operates 20 buy/sell stores in Mexico City and the surrounding metropolitan area. In the current six-month period, we increased our interest in Cash Genie, our online lending subsidiary in the U.K., from 72% to 95%.

### International Growth

With continued execution of the our geographic and product diversification strategy, nearly 18% of our consolidated segment contribution in the current quarter was attributable to areas outside the United States, up from 10% in the prior year quarter. Total revenue in the Latin America and Other International segments combined increased 65% in the current quarter from the prior year quarter. These year-over year increases are the result of continued strength in our Empeño Fácil and Grupo Finmart businesses in Mexico, our Cash Genie business in the U.K., the acquisition of controlling interests in TUYO, and our strategic investments in the United Kingdom and Australia.

### Seasonality

Historically, pawn service charges are highest in our fourth fiscal quarter (July through September) due to a higher average loan balance during the summer lending season. Merchandise sales are highest in the first and second fiscal quarters (October through March) due to the holiday season, jewelry sales surrounding Valentine's Day and the impact of tax refunds in the United States. Jewelry scrapping sales are heavily influenced by the timing of decisions to scrap excess jewelry inventory. Jewelry scrapping sales generally are greatest during our fourth fiscal quarter (July through September). This results from relatively low jewelry merchandise sales in that quarter and the higher loan balance, leading to a higher dollar amount of loan forfeitures in the summer lending season providing more inventory available for sale.

Consumer loan fees are generally highest in our fourth and first fiscal quarters (July through December) due to a higher need for cash during the holiday season. Consumer loan bad debt, both in dollar terms and as a percentage of related fees, is highest in the fourth fiscal quarter and lowest in the second fiscal quarter due primarily to the impact of tax refunds in the U.S.

The payroll withholding lending business is less impacted by seasonality, with the exception of the summer months when new loan originations tend to moderate.

The net effect of these factors is that net revenues and net income typically are strongest in the fourth fiscal quarter and weakest in the third fiscal quarter.

## Table of Contents

### Recent Regulatory Developments

#### Consumer Financial Protection Bureau

On April 24, 2013, the Consumer Financial Protection Bureau (the “CFPB”), which has regulatory, supervisory and enforcement powers over providers of consumer financial products and services, including banks and other providers of consumer loans such as EZCORP, issued a report entitled “Payday Loans and Deposit Advance Products,” indicating that it has “engaged in an in-depth review of short-term small dollar loans, including payday loans.” The report discusses the initial findings of the CFPB regarding short-term payday loans provided by non-bank financial institutions like EZCORP and deposit account advances offered by depository institutions. While the CFPB acknowledges the clear demand for small dollar credit products, it does express concern regarding the risk of sustained use of these products by some consumers. The report reiterated that the CFPB has authority to adopt rules identifying unfair, deceptive or abusive practices in connection with the offering of consumer financial products and services. The report also indicated that the CFPB’s review suggested that the potential for consumer harm and the data gathered in its review warrant further attention to protect consumers and stated that the CFPB expects to use its authorities to provide such protections. Additionally, the CFPB indicated that the report did not focus on online lending and that the CFPB plans to conduct a similar analysis of online payday loan usage.

#### Texas

We offer short-term consumer loans in Texas through our CSO program in both storefronts and online. On April 22, 2013, the Texas Senate passed a bill that, if enacted into law, would adversely affect our consumer loan business in Texas, including caps on fees and other restrictions. The bill remains to be considered by the Texas House of Representatives. Currently, we do not know whether any bill will be passed by the Texas legislature, and if so, in what form. If new legislation is enacted in Texas, it could require us to alter or discontinue some or all of our consumer loan business in Texas, which could have a material adverse effect on our operations, prospects, results of operations and financial condition.

#### UK Office of Fair Trading

Cash Genie, our majority owned subsidiary, offers online in the United Kingdom and is subject to rules, regulations and guidance issued by the Office of Fair Trading (the “OFT”), as well as other applicable laws, rules and regulations. In February 2012, the OFT announced that it had launched a review of the payday lending sector in the United Kingdom to assess the sector’s compliance with the OFT’s guidelines and other relevant guidance and legal obligations. The OFT announced the findings of its review during the first quarter of 2013 and enumerated a number of expectations it has for payday lenders related to affordability assessments, rollovers, advertising, debt collection and consumer disclosures, among other expectations. Cash Genie has been following these published best practices since last year, and therefore, the recent OFT activity is not expected to have an adverse impact on its business.

#### Certain Accounting Matters

##### Critical Accounting Policies

With the exception of the policies described below, there have been no changes in significant accounting policies as described in our Annual Report on Form 10-K for the year ended September 30, 2012.

On November 20, 2012, we entered into a definitive agreement with Go Cash, LLC and certain of its affiliates (“Go Cash”) to acquire substantially all the assets of Go Cash's online lending business. This acquisition was completed on December 20, 2012 and accounted for as an asset purchase. Since the acquisition, Go Cash (now EZCORP Online) has modified the following consumer loan policies:

**Unsecured Consumer Loan Revenue and Bad Debt**— Consumer loans made by EZCORP Online are considered delinquent if they are not repaid or renewed by the maturity date. We do not accrue additional revenues on delinquent loans. All outstanding principal balances and fee receivables greater than 60 days past due are considered

defaulted. Upon default, we charge consumer loan principal to consumer loan bad debt and reverse accrued unsecured consumer loan fee revenue.

Recently Adopted Accounting Pronouncements

In December 2011, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-11, Disclosures about Offsetting Assets and Liabilities. This update, which amends FASB ASC 210 (Balance Sheet), requires entities to disclose information about offsetting and related arrangements and the effect of those arrangements on its financial

Table of Contents

position. The amendments in ASU 2011-11 enhance disclosures required by FASB ASC 210 by requiring improved information about financial instruments and derivative instruments that are either offset in accordance with FASB ASC 210-20-45 or 815-10-45 or are subject to an enforceable master netting arrangement or similar agreement. ASU 2011-11 is effective for interim and annual periods beginning on or after January 1, 2013. Disclosures are required retrospectively for all comparative periods presented. Currently, we do not enter into any right of offset arrangements and the adoption of ASU 2011-11 did not have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-02, Comprehensive income (Topic 220) — Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This update, requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in its entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. This update requires entities to apply the amendments for periods beginning after December 15, 2012 and interim periods within those annual periods and to provide the required disclosures for all reporting periods presented. We adopted ASU 2013-03 on January 1, 2013, and the adoption did not have a material effect on our financial position, results of operations or cash flows.

#### Recently Issued Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. This update clarifies the Codification or corrects unintended application of guidance and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, Fair Value Measurement. Amendments to the Codification without transition guidance are effective upon issuance for both public and nonpublic entities. For public entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2012. We do not anticipate that the adoption of ASU 2012-04 will have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-02, Comprehensive income (Topic 220) — Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This update, requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in its entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. This update requires entities to apply the amendments for periods beginning after December 15, 2012 and interim periods within those annual periods and to provide the required disclosures for all reporting periods presented. We do not anticipate the adoption of ASU 2013-03 to have a material effect on our financial position, results of operations or cash flows.

In February 2013, the FASB issued ASU 2013-04, Liabilities (Topic 405)—Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (a consensus of the FASB Emerging Issues Task Force). This update provides guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date (except for obligations addressed within existing guidance in U.S. GAAP). Examples of obligations within the scope of ASU 2013-04 include debt arrangements, other contractual obligations, and settled litigation and judicial rulings. ASU 2013-04 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. We do not anticipate that the adoption of ASU 2013-04 will have a material effect on our financial position, results of operations or cash flows.

In March 2013, the FASB issued ASU 2013-05, Foreign Currency Matters (Topic 830) — Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force). This update applies to the release of the cumulative translation adjustment into net income when a parent either sells a part or all of

its investment in a foreign entity, or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity. ASU 2013-05 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. We do not anticipate that the adoption of ASU 2013-05 will have a material effect on our financial position, results of operations or cash flows.

#### Reclassifications

In connection with our decentralization strategy, we have changed the accountability for, and reporting of, certain items in administrative expenses, depreciation and amortization. When directly related to a segment, these items have been included in segment contribution. When shared by multiple segments, these items are being allocated to the segment and included in their segment contribution. Prior year figures have been reclassified to conform to this presentation.

Table of Contents

## Use of Estimates and Assumptions

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our condensed consolidated financial statements, which have been prepared according to accounting principles generally accepted in the United States for interim financial information. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, inventory, loan loss allowances, long-lived and intangible assets, income taxes, contingencies and litigation. We base our estimates on historical experience, observable trends and various other assumptions that we believe are reasonable under the circumstances. We use this information to make judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from the estimates under different assumptions or conditions.

## RESULTS OF OPERATIONS

Three Months Ended March 31, 2013 vs. Three Months Ended March 31, 2012

## Consolidated Results of Operations

The following table presents selected, unaudited, consolidated financial data for our three-month periods ended March 31, 2013 and 2012 (the "current quarter" and "prior year quarter," respectively). This table, as well as the discussion that follows, should be read with the accompanying unaudited financial statements and related notes.

|   | Three Months Ended March 31, |            | Percentage |    |
|---|------------------------------|------------|------------|----|
|   | 2013                         | 2012       | Change     |    |
|   | (in thousands)               |            |            |    |
| Revenues:                               |                              |            |            |    |
| Sales                                   | \$ 144,474                   | \$ 148,172 | (2.5       | )% |
| Pawn service charges                    | 62,594                       | 56,444     | 10.9       | %  |
| Consumer loan fees                      | 62,310                       | 50,319     | 23.8       | %  |
| Other                                   | 2,696                        | 1,343      | 100.7      | %  |
| Total revenues                          | 272,074                      | 256,278    | 6.2        | %  |
| Cost of goods sold                      | 89,269                       | 88,190     | 1.2        | %  |
| Consumer loan bad debt                  | 8,880                        | 6,466      | 37.3       | %  |
| Net revenues                            | \$ 173,925                   | \$ 161,622 | 7.6        | %  |
| Net income attributable to EZCORP, Inc. | \$ 33,981                    | \$ 37,261  | (8.8       | )% |

In the current quarter, consolidated total revenues increased 6%, or \$15.8 million, to \$272.1 million, compared to the prior year quarter. The increase was primarily driven by an 11% increase in pawn service charges and a 24% increase in consumer loan fees. Total sales (which includes merchandise sales and jewelry scrapping sales) decreased 2.5%, with merchandise sales increasing 6% and jewelry scrapping sales decreasing 18%. Other revenue increased \$1.4 million in the current quarter compared to the prior year quarter. Net revenues of \$173.9 million, increased \$12.3 million, or 8%, and operations expense increased \$18.9 million, or 22%. Corporate administrative expenses of \$8.6 million decreased \$3.4 million, or 28%. After a \$1.5 million increase in depreciation and amortization, a \$1.5 million increase in net interest expense, a \$3.8 million decrease in income tax expense and the \$0.8 million increase net income attributable to the noncontrolling interest, net income attributable to EZCORP decreased \$3.3 million, or 9%, to \$34.0 million.

| Other (income) expense                                       | (1                           | )        | 909    |
| Segment contribution   | \$51,583                     | \$63,840 |        |
| Other data:  |                              |          |        |
| Gross margin on merchandise sales                            | 41.2                         | %        | 40.9 % |
| Gross margin on jewelry scrapping sales                      | 32.0                         | %        | 40.2 % |
| Gross margin on total sales                                  | 38.3                         | %        | 40.7 % |
| Average pawn loan balance per pawn store at period end       | \$240                        | \$236    |        |
| Average yield on pawn loan portfolio (a)                     | 162                          | %        | 163 %  |
| Pawn loan redemption rate                                    | 84                           | %        | 83 %   |
| Consumer loan bad debt as a percentage of consumer loan fees | 15.7                         | %        | 13.7 % |

(a) Average yield on pawn loan portfolio is calculated as pawn service charge revenues for the period divided by the average pawn loan balance during the period.

The U.S. & Canada segment total revenues decreased \$1.8 million from the prior year quarter to \$227.7 million. Same store total revenues decreased \$17.4 million, or 8%, and new and acquired stores net of closed stores contributed \$15.6 million. In the current quarter we opened 12 de novo locations bringing our total number of stores in the U.S. & Canada segment to 1,058, a 9% increase over the prior year quarter.

Our current quarter pawn service charge revenue increased \$4.0 million, or 8%, from the prior year quarter to \$54.5 million. The overall increase was due to a higher average loan balance for the period to \$136.4 million during the current quarter, a 9% increase in total and 3% increase on a same store basis. Same store pawn service charges increased \$1.5 million, or 3%, with new and acquired stores net of closed stores contributing \$2.5 million.

The current quarter merchandise sales gross profit increased \$0.9 million, or 3%, from the prior year quarter to \$35.9 million. Same store merchandise sales decreased \$3.7 million and new and acquired stores net of closed stores contributed \$5.2 million.

Table of Contents

The slight increase in gross margin was due to a one-time inventory reserve adjustment in the current quarter. We typically evaluate our inventory reserves mid-year and at fiscal year-end.

Gross profit on jewelry scrapping sales decreased \$6.9 million, or 35%, from the prior year quarter to \$13.0 million. Jewelry scrapping revenues decreased \$8.7 million, or 18%, due to an 18% decrease in gold volume and a 2% decrease in proceeds realized per gram of gold jewelry scrapped. Same store jewelry scrapping sales decreased \$12.7 million, or 26%, and new and acquired stores contributed \$4.0 million. Jewelry scrapping sales include the sale of approximately \$3.9 million of loose diamonds removed from scrap jewelry in the current quarter and \$4.0 million in the prior year quarter. Scrap cost of goods decreased \$1.9 million, or 6%, as a result of the decrease in volume, partially offset by a 13% increase in average cost per gram of jewelry scrapped. The decrease in scrap sales and increase in cost is a function of a very competitive marketplace and our intention to gain market share.

The current quarter's consumer loan fees increased \$1.0 million, or 2%, to \$43.8 million, over the prior year quarter. Same store consumer loan fees decreased \$1.9 million, or 5%, with new and acquired stores net of closed stores contributing \$2.9 million. Consumer loan bad debt as a percentage of fees was 16% in the current quarter compared to 14% in the prior year quarter, mostly due to the higher mix of new stores, new products and online generated loans. In the current quarter, the profitability of the financial services business continued to be negatively impacted as a result of ordinances enacted in Dallas, Austin and San Antonio. On April 22, 2013, the Texas Senate passed a bill that, if enacted into law, would adversely affect our consumer loan business in Texas, including caps on fees and other restrictions. The bill remains to be considered by the Texas House of Representatives. If adverse legislation is enacted in Texas, we may have to alter or discontinue some or all of our consumer loan business in Texas, which could have a material adverse effect on our results of operations and financial condition.

The current quarter's other revenues increased \$0.4 million, over the prior year quarter to \$1.6 million. The increase is mainly due to fees related to the Western Union agreement. In fiscal 2013 we began offering Western Union money transfer, money order and consumer bill payment services at 633 of our U.S. & Canada locations and expect to expand to all stores in the U.S. and Canada during the remainder of fiscal 2013.

Operations expense increased to \$85.5 million (38% of revenues) in the current quarter from \$75.4 million (33% of revenues) in the prior year quarter. The increase is due to higher operating costs resulting from new and acquired stores, as well as the costs associated with various business unit growth initiatives, which were recorded as operations expense. Depreciation and amortization increased \$1.5 million, or 45%, from the prior year quarter to \$4.9 million, mainly due to assets placed in service at new and acquired stores. The \$0.9 million improvement in other income is due to a prior year loss on a gold hedging instrument. We did not hold any hedging instruments during the quarter. In the current quarter, U.S. & Canada delivered a segment contribution of \$51.6 million, a \$12.3 million decrease compared to the prior year quarter, driven by the challenges related to jewelry merchandise sales and gold scrap sales. In the current quarter, the U.S. & Canada segment's contribution represented 82% of consolidated segment contribution compared to 90% in the prior year. Our expansion outside of the U.S. and Canada, both through de novo and acquisitions, continues to diversify our revenues and earnings composition. While the U.S. & Canada segment has experienced some challenges related to jewelry merchandise sales and gold scrap sales, the core elements of our business have continued to show strength.

| Other (income) expense                                       | (315                         | )       | 13  |   |
| Segment contribution   | \$6,445                      | \$2,766 |     |   |
| Other data:  |                              |         |     |   |
| Gross margin on merchandise sales                            | 42.2                         | % 43.4  |     | % |
| Gross margin on jewelry scrapping sales                      | 16.2                         | % 26.3  |     | % |
| Gross margin on total sales                                  | 37.7                         | % 38.5  |     | % |
| Average pawn loan balance per pawn store at period end       | \$68                         | \$66    |     |   |
| Average yield on pawn loan portfolio (a)                     | 195                          | % 203   |     | % |
| Pawn loan redemption rate                                    | 76                           | % 77    |     | % |
| Consumer loan bad debt as a percentage of consumer loan fees | (5.6                         | )% 6.9  |     | % |

(a) Average yield on pawn loan portfolio is calculated as pawn service charge revenues for the period divided by the average pawn loan balance during the period.

The average exchange rate used to translate Latin America's current quarter results from Mexican pesos to U.S. dollars was 12.7 to 1, 3% stronger than the prior year quarter's rate of 13.0 to 1. Total revenues increased 38% in U.S. dollars and 35% in peso terms. Total segment expenses increased 35% in U.S. dollars and 33% in peso terms. In the current quarter, we opened 27 de novo stores and closed one Grupo Finmart location.

The Latin America segment's total revenues increased \$10.2 million, or 38%, in the current quarter to \$36.9 million. Same store total revenues increased 6%, or \$1.6 million, to \$28.3 million, and new and acquired stores contributed \$8.6 million. The overall increase in total revenues was mostly due to a \$3.5 million increase in merchandise and jewelry scrapping sales, a \$2.1 million increase in pawn service charges and a \$4.5 million increase in consumer loan fees. The increase in consumer loan fees is partially due to the inclusion of a full quarter of Grupo Finmart's fees as opposed to two months in the prior year quarter.

Latin America's pawn service charge revenues increased \$2.1 million, or 36%, in the current quarter to \$8.1 million. Same store pawn service charges increased \$1.0 million, or 17%, to \$6.9 million and new and acquired stores contributed \$1.1 million. The increase was due to a 42% total and 21% same store increase in the average outstanding

pawn loan balance during the period.

51

---

Table of Contents

Merchandise gross profit increased \$1.7 million, or 42%, from the prior year quarter to \$5.8 million. The increase was due to a \$1.2 million, or 12%, same store sales increase and \$3.2 million in sales from new and acquired stores, offset by a 1.2 percentage point decrease in gross margin to 42%. The decrease in margin was due to a one-time inventory reserve adjustment and more aggressive pricing in general merchandise.

Gross profit on jewelry scrapping sales decreased \$0.5 million, or 53%. Jewelry scrapping revenues decreased \$0.9 million, or 23%, due to a 30% decrease in gold volume and a 5% decrease in proceeds realized per gram of gold jewelry scrapped. Same store jewelry scrapping sales decreased \$1.4 million, or 36%, and new and acquired stores contributed \$0.5 million. Scrap cost of goods decreased \$0.3 million, or 12%, as a result of the decrease in volume, partially offset by a 6% increase in average cost per gram of jewelry scrapped. The decrease in scrap sales and increase in cost is a function of a very competitive marketplace and our intention to gain market share.

The Grupo Finmart acquisition in the prior year quarter marked our initial entry into the non-secured loan business in Mexico. In the current quarter, Grupo Finmart contributed consumer loan fees of \$11.8 million, with a benefit in bad debt, due to the sale of past due loans and recoveries of loans previously written off to bad debt expense.

Operations expense increased to \$16.4 million (44% of revenues) in the current quarter from \$11.1 million (42% of revenues) in the prior year quarter. The increase is due to higher operating costs resulting from the addition of 72 Empeño Fácil stores since the prior year quarter, the inclusion Grupo Finmart and TUYO's expenses and other growth initiatives. Depreciation and amortization decreased 26%, or \$0.6 million, from the prior year quarter to \$1.8 million, mainly due to a change in in the useful life of Grupo Finmart's government contract intangible asset.

The \$1.0 million increase in interest expense is due to the inclusion of Grupo Finmart for the entire quarter compared to only two months in the prior year quarter. At March 31, 2013 Grupo Finmart had \$98.3 million of third-party debt outstanding, which is non-recourse to EZCORP, at a weighted average interest rate of 13%, compared to \$100.9 million of outstanding debt at a 15% weighted average interest rate in the prior year quarter. The decrease in interest rate is due to the refinancing of various debt instruments at lower interest rates.

In the current quarter, the \$9.1 million increase in net revenues was partially offset by the \$5.4 million higher expenses, resulting in a \$3.7 million increase in contribution for the Latin America segment. For the current quarter Latin America's segment contribution represented 10% of consolidated segment contribution compared to 4% a year ago, making Latin America our fastest growing segment.

## Other International

The following table presents selected financial data for the Other International segment:

|   | Three Months Ended March 31, |          |
|---|------------------------------|----------|
|   | 2013                         | 2012     |
|   | (in thousands)               |          |
| Consumer loan fees  | \$6,643                      | \$ 130   |
| Other revenues  | 859                          | —        |
| Total revenues  | 7,502                        | 130      |
| Consumer loan bad debt                                    | 2,677                        | 80       |
| Net revenues  | 4,825                        | 50       |
| Segment expenses:   |                              |          |
| Operations expense  | 3,669                        | 170      |
| Depreciation and amortization                             | 143                          | 14       |
| Interest income, net                                      | (1                           | ) —      |
| Equity in net income of unconsolidated affiliates         | (4,125                       | ) (4,577 |
| Segment contribution                                      | \$5,139                      | \$4,443  |
| Other data:   |                              |          |
| Consumer loan bad debt as a percent of consumer loan fees | 40                           | % 62     |

On April 14, 2012, we acquired a 72% interest in Cash Genie, an online lending business in the U.K., and on November 14, 2012, we acquired an additional 23% interest, increasing our ownership percentage from 72% to 95%, with the remaining 5% held by local management.

In the current quarter, the segment's consumer loan fees were \$6.6 million, with bad debt as a percentage of fees at 40%. The segment's \$0.9 million in other revenues represent fees from a consulting agreement with Albemarle & Bond. Under the terms of the agreement we were engaged to assess, identify and implement improvements in their gold and diamond supply chains and labor optimization.

Operations expense during the current quarter was \$3.7 million with depreciation and amortization at \$0.1 million. Our equity in the net income of unconsolidated affiliates decreased \$0.5 million, or 10%, from the prior year to \$4.1 million. The decrease is due to a 31% decrease in Albemarle & Bond's net income in the first half of fiscal 2013, partially offset by Cash Converters International's strong performance.

In the current quarter, the \$4.8 million increase in net revenues was mostly offset by the \$3.5 million increase in operations expense and the \$0.5 million decrease in our equity in the net income of unconsolidated affiliates. Segment contribution from the Other International segment increased \$0.7 million to \$5.1 million. For the current quarter, the segment's contribution represents 8% of total contribution compared to 6% in the prior year quarter.

Table of Contents

## Other Consolidated Items

The following table reconciles our consolidated segment contribution discussed above to net income, including items that affect our consolidated financial results but are not allocated among segments:

|  | Three Months Ended March 31, |          |
|--|------------------------------|----------|
|  | 2013                         | 2012     |
|  | (in thousands)               |          |
| Segment contribution                               | \$63,167                     | \$71,049 |
| Corporate expenses:                                |                              |          |
| Administrative                                     | 8,603                        | 11,998   |
| Depreciation and amortization                      | 1,940                        | 1,451    |
| Interest expense, net                              | 937                          | 477      |
| Other (income) expense                             | 721                          | (120)    |
| Consolidated income before income taxes            | 50,966                       | 57,243   |
| Income tax expense                                 | 16,086                       | 19,870   |
| Net income   | 34,880                       | 37,373   |
| Net income attributable to noncontrolling interest | 899                          | 112      |
| Net income attributable to EZCORP, Inc.            | \$33,981                     | \$37,261 |

Administrative expenses decreased \$3.4 million, or 28%, due to decreases in compensation related expenses, professional fees and miscellaneous expenses. Interest expense increased \$0.5 million, or 96%, due to greater utilization of our revolver. Depreciation and amortization increased \$0.5 million, or 34%, due to new assets placed in service as a result of investment in infrastructure to support our globalization strategy. The \$0.7 million other expense was due to foreign currency transaction losses.

Consolidated income before taxes decreased \$6.3 million, or 11%, to \$51.0 million. The \$3.7 million and \$0.7 million increase in contribution from the Latin America and Other International segments respectively, and the \$1.6 million decrease in corporate expenses, were offset by a \$12.3 million decrease in contribution from the U.S. & Canada segment. The decrease in contribution from the U.S. & Canada segment was due to a combination of reduced gross profit on jewelry scrapped and an increase in operating costs to support a rapidly growing store base.

Income tax expense was \$16.1 million, 31.6% of pre-tax income, compared to \$19.9 million, 34.7% of pre-tax income in the prior year quarter. The decrease in the effective tax rate when compared to the prior year quarter was due to a one-time recognition of a tax benefit from foreign net operating losses.

In the current quarter, net income attributable to EZCORP decreased \$3.3 million, or 9%, to \$34.0 million, after the \$0.9 million of net income attributable to the noncontrolling interest.

## Six Months Ended March 31, 2013 vs. Six Months Ended March 31, 2012

The following table presents selected, unaudited, consolidated financial data for our six-month periods ended March 31, 2013 and 2012 (the "current six-month period" and "prior year six-month period," respectively). This table, as well as the discussion that follows, should be read with the accompanying unaudited financial statements and related notes.

|   | Six Months Ended March 31, |           | Percentage |    |
|---|----------------------------|-----------|------------|----|
|   | 2013                       | 2012      | Change     |    |
|   | (in thousands)             |           |            |    |
| Revenues:                               |                            |           |            |    |
| Sales                                   | \$285,981                  | \$291,469 | (1.9       | )% |
| Pawn service charges                    | 128,618                    | 116,236   | 10.7       | %  |
| Consumer loan fees                      | 127,075                    | 95,407    | 33.2       | %  |
| Other                                   | 7,526                      | 2,039     | 269.1      | %  |
| Total revenues                          | 549,200                    | 505,151   | 8.7        | %  |
| Cost of goods sold                      | 176,969                    | 172,010   | 2.9        | %  |
| Consumer loan bad debt                  | 22,954                     | 17,491    | 31.2       | %  |
| Net revenues                            | \$349,277                  | \$315,650 | 10.7       | %  |
| Net income attributable to EZCORP, Inc. | \$64,698                   | \$76,613  | (15.6      | )% |

In the current six-month period, consolidated total revenues increased 9%, or \$44.0 million, to \$549.2 million, compared to the prior year six-month period. The increase was primarily driven by an 11% increase in pawn service charges, a 33% increase in consumer loan fees and an 8% increase in merchandise sales, partially offset by an 18% decrease in jewelry scrapping sales. Other revenue increased \$5.5 million in the current six-month period compared to the prior year six-month period. Net revenues of \$349.3 million, increased \$33.6 million, or 11%, and operations expense increased \$43.6 million or 26%. Administrative expenses of \$22.3 million decreased \$1.4 million, or 6%. After a \$3.9 million increase in depreciation and amortization, a \$4.6 million increase in net interest expense, a \$7.4 million decrease in income tax expense and the \$2.2 million increase in net income attributable to the noncontrolling interest, net income attributable to EZCORP decreased \$11.9 million, or 16%, to \$64.7 million.

| Other data:  |                            |           |   |
| Gross margin on merchandise sales                            | 41.6                       | % 42.0    | % |
| Gross margin on jewelry scrapping sales                      | 31.4                       | % 38.7    | % |
| Gross margin on total sales                                  | 38.2                       | % 40.7    | % |
| Average pawn loan balance per pawn store at period end       | \$240                      | \$236     |   |
| Average yield on pawn loan portfolio (a)                     | 164                        | % 162     | % |
| Pawn loan redemption rate                                    | 83                         | % 82      | % |
| Consumer loan bad debt as a percentage of consumer loan fees | 20.4                       | % 19.1    | % |

(a) Average yield on pawn loan portfolio is calculated as pawn service charge revenues for the period divided by the average pawn loan balance during the period.

The U.S. & Canada segment total revenues stayed relatively constant compared to the prior year six-month period at \$457.2 million. Same store total revenues decreased \$30.7 million, or 7%, and new and acquired stores net of closed stores contributed \$29.1 million. In the current six-month period, we acquired 12 pawn stores in the U.S. for \$23.1 million and Go Cash, a U.S. online lender, for \$50.8 million. As part of these acquisitions, we began store operations in the state of Arizona and online operations in four states, including the state of Ohio, bringing the total number of states in which we operate to 26 at March 31, 2013. In the current six-month period we opened 63 de novo locations bringing our total number of stores in the U.S. & Canada to 1,058, a 9% increase over the prior year six-month period. In the current six-month period, pawn service charge revenue increased \$7.8 million, or 7%, from the prior year six-month period to \$112.7 million. The overall increase was due to a higher average loan balance during the period of \$137.8 million, a 6% increase in total and 1% increase on a same store basis. Same store pawn service charges increased \$3.6 million, or 3%,

Table of Contents

with new and acquired stores net of closed stores contributing \$4.2 million. The same store improvement was due to a 2 percentage point improvement in yield, driven primarily by rate increases in Nevada and operational improvements in Texas.

The current six-month period merchandise sales gross profit increased \$1.5 million, or 2%, from the prior year six-month period to \$69.6 million. Same store merchandise sales decreased \$3.5 million, or 2%, and new and acquired stores net of closed stores contributed \$9.0 million. Gross margin on merchandise sales was 41.6%, which was basically flat to the prior year six-month period.

Gross profit on jewelry scrapping sales decreased \$13.6 million, or 34%, from the prior year six-month period to \$26.0 million. Jewelry scrapping revenues decreased \$19.5 million, or 19%, due to a 24% decrease in gold volume partially offset by a 2% increase in proceeds realized per gram of gold jewelry scrapped. Same store jewelry scrapping sales decreased \$26.2 million, or 26%, and new and acquired stores contributed \$6.7 million. Jewelry scrapping sales include the sale of approximately \$7.2 million of loose diamonds removed from scrap jewelry in the current six-month period and \$5.6 million in the prior year six-month period. Scrap cost of goods decreased \$5.9 million, or 9%, as a result of the decrease in volume, partially offset by a 15% increase average cost per gram of jewelry scrapped. The decrease in scrap sales and increase in cost is a function of a very competitive marketplace and our intention to gain market share.

The current six-month period's consumer loan fees increased \$2.0 million, or 2%, to \$89.8 million, over the prior year six-month period. Consumer loan bad debt as a percentage of fees was 20% in the current six-month period compared to 19% in the prior year six-month period, mostly due to the higher mix of new stores, new products and online generated loans. In the current six-month period, the profitability of the financial services business was negatively impacted as a result of ordinances enacted in Dallas, Austin and San Antonio. On April 22, 2013, the Texas Senate passed a bill that, if enacted into law, would adversely affect our consumer loan business in Texas, including caps on fees and other restrictions. The bill remains to be considered by the Texas House of Representatives. If adverse legislation is enacted in Texas, we may have to alter or discontinue our consumer loan business in Texas, which could have a material adverse effect on our results of operations and financial condition.

The current six-month period's other revenues increased \$2.6 million over the prior year six-month period to \$4.4 million. The increase is mainly due to fees related to the Western Union agreement. In fiscal 2013, we began offering Western Union money transfer, money order and consumer bill payment services at 633 of our U.S. & Canada locations and expect to expand to all stores in the U.S. and Canada during the remainder of the year.

Operations expense increased to \$172.9 million (38% of revenues) in the current six-month period from \$150.4 million (33% of revenues) in the prior year six-month period. The increase is due to higher operating costs resulting from new and acquired stores, as well as the costs associated with various business unit growth initiatives, which were recorded as operations expense. Depreciation and amortization increased 36%, or \$2.4 million, from the prior year six-month period to \$9.0 million, mainly due to assets placed in service at new and acquired stores. The \$0.1 million decrease in other income is due to a prior year gain on a gold hedging instrument.

In the current six-month period, U.S. & Canada delivered a segment contribution of \$102.2 million, a 21% decrease compared to the prior year six-month period, driven by the challenges related to jewelry merchandise sales and gold scrap sales. In the current six-month period, the U.S. & Canada segment's contribution represented 80% of consolidated segment contribution compared to 89% in the prior year six-month period. Our expansion outside of the U.S. and Canada, both through de novo and acquisitions, continues to diversify our revenues and earnings composition. While the U.S. & Canada segment has experienced some challenges related to jewelry merchandise sales and gold scrap sales, the core elements of our business have continued to show strength.

Table of Contents

## Latin America

The following table presents selected financial data for the Latin America segment after translation to U.S. dollars from its functional currency of the Mexican peso:

|  | Six Months Ended March 31, |          |     |   |
|--|----------------------------|----------|-----|---|

| Segment contribution   | \$15,878                   | \$7,266  |     |   |
| Other data:  |                            |          |     |   |
| Gross margin on merchandise sales                            | 42.1                       | % 48.0   |     | % |
| Gross margin on jewelry scrapping sales                      | 18.1                       | % 30.8   |     | % |
| Gross margin on total sales                                  | 37.6                       | % 43.4   |     | % |
| Average pawn loan balance per pawn store at period end       | \$68                       | \$66     |     |   |
| Average yield on pawn loan portfolio (a)                     | 190                        | % 198    |     | % |
| Pawn loan redemption rate                                    | 76                         | % 77     |     | % |
| Consumer loan bad debt as a percentage of consumer loan fees | (7.2                       | )%       | 6.9 | % |

(a) Average yield on pawn loan portfolio is calculated as pawn service charge revenues for the period divided by the average pawn loan balance during the period.

The average exchange rate used to translate Latin America's current six-month period results from Mexican pesos to U.S. dollars was 12.8 to 1, 4% stronger than the prior year six-month period's rate of 13.3 to 1. Total revenues increased 67% in U.S. dollars and 62% in peso terms. Total segment operating expenses increased 77% in U.S. dollars and 70% increase in peso terms. In the current six-month period, we opened 51 de novo stores, and on November 1, 2012, we acquired a 51% interest in Renueva Comercial S.A. de C.V., a company headquartered in Mexico City and doing business under the name "TUYO." TUYO owns and operates 20 buy/sell stores in Mexico City and the surrounding metropolitan area and is included in our current year to date results.

The Latin America segment's total revenues increased \$31.0 million, or 67%, in the current six-month period to \$77.1 million. Same store total revenues increased 10%, or \$4.6 million, to \$50.7 million, and new and acquired stores contributed \$26.4 million. The overall increase in total revenues was partly due to the inclusion of revenues from our majority owned subsidiaries. Grupo Finmart's \$24.7 million in total revenues in the current six-month period compared to \$7.4 million in the prior year six-month period. Excluding Grupo Finmart and TUYO, total revenues increased \$12.9 million due to an \$8.5 million increase in merchandise and jewelry scrapping sales, a \$4.5 million

increase in pawn service charges and a \$0.7 million increase in other revenues.

58

---

Table of Contents

Latin America's pawn service charge revenues increased \$4.5 million, or 40%, in the current six-month period to \$15.9 million. Same store pawn service charges increased 21%, or \$2.4 million, to \$13.7 million and new and acquired stores contributed \$2.1 million. The increase was due to a 46% total and 23% same store increase in the average outstanding pawn loan balance during the period.

Merchandise gross profit increased \$2.7 million, or 28%, from the prior year six-month period to \$12.2 million. The increase was due to a \$3.2 million, or 16%, same store sales increase and \$5.9 million in sales from new and acquired stores offset by a 5.9 percentage point decrease in gross margin to 42%. The decrease in margin was due to a one-time inventory reserve adjustment in the prior year six-month period and more aggressive pricing to move aged merchandise.

Gross profit on jewelry scrapping sales decreased \$1.0 million, or 46%, to \$1.2 million. Jewelry scrapping revenues decreased \$0.6 million, or 8%, due to a 15% decrease in gold volume and a 1% decrease in proceeds realized per gram of gold jewelry scrapped. Same store jewelry scrapping sales decreased \$1.8 million, or 25%, and new and acquired stores contributed \$1.2 million. Scrap cost of goods increased \$0.4 million, or 8%, as the decrease in volume was offset by the 13% increase in cost per gram processed.

The Grupo Finmart acquisition in the second quarter of fiscal 2012 marked our initial entry into the non-secured loan business in Mexico. In the current six-month period, Grupo Finmart contributed consumer loan fees of \$23.7 million and other revenues of \$1.0 million, with a benefit in bad debt, due to the sale of past due loans and recoveries of loans previously written off to bad debt expense.

Operations expense increased to \$32.1 million (42% of revenues) in the current six-month period from \$18.1 million (39% of revenues) in the prior year six-month period. The increase is due to higher operating costs resulting from the addition of 72 Empeño Fácil stores since the prior year six-month period, the inclusion Grupo Finmart and TUYO's expenses and other growth initiatives. Depreciation and amortization increased 9%, or \$0.3 million from the prior year six-month period to \$3.4 million, mainly due to new assets placed in service at new stores and acquisition related assets.

The \$3.7 million increase in interest expense is due to debt acquired as part of the Grupo Finmart acquisition. At March 31, 2013 Grupo Finmart had \$98.3 million of third-party debt outstanding, which is non-recourse to EZCORP, at a weighted average interest rate of 13%, compared to \$100.9 million of outstanding debt at a 15% weighted average interest rate at March 31, 2012. The decrease in interest rate is due to the refinancing of various debt instruments at lower interest rates.

In the current six-month period, the \$26.4 million increase in net revenues was partially offset by the \$17.8 million higher expenses, resulting in a \$8.6 million increase in contribution for the Latin America segment. For the current six-month period, Latin America's segment contribution represented 12% of consolidated segment contribution compared to 5% a year ago, making Latin America our fastest growing segment.

Table of Contents

## Other International

The following table presents selected financial data for the Other International segment:

|   | Six Months Ended March 31, |          |
|---|----------------------------|----------|
|   | 2013                       | 2012     |
|   | (in thousands)             |          |
| Consumer loan fees  | \$13,572                   | \$206    |
| Other revenues  | 1,241                      | —        |
| Total revenues  | 14,813                     | 206      |
| Consumer loan bad debt                                    | 6,318                      | 215      |
| Net revenues  | 8,495                      | (9 )     |
| Segment expenses:   |                            |          |
| Operations  | 7,747                      | 768      |
| Depreciation and amortization                             | 219                        | 36       |
| Interest income, net                                      | (1 )                       | —        |
| Equity in net income of unconsolidated affiliates         | (9,163 )                   | (8,738 ) |
| Other income  | (69 )                      | (64 )    |
| Segment contribution                                      | \$9,762                    | \$7,989  |
| Other data:   |                            |          |
| Consumer loan bad debt as a percent of consumer loan fees | 47                         | % 104 %  |

On April 14, 2012, we acquired a 72% interest in Cash Genie, an online lending business in the U.K., and on November 14, 2012, we acquired an additional 23% interest, increasing our ownership percentage from 72% to 95%, with the remaining 5% held by local management.

In the current six-month period, Cash Genie's consumer loan fees were \$13.6 million with bad debt as a percentage of fees at 47%. The segment's \$1.2 million in other revenues represent fees from a consulting agreement with Albermarle & Bond. Under the terms of the agreement we were engaged to assess, identify and implement improvements in their gold and diamond supply chains and labor optimization.

Operations expense during the current quarter was \$7.7 million with depreciation and amortization at \$0.2 million. Our equity in the net income of unconsolidated affiliates increased \$0.4 million, or 5%, from the prior year to \$9.2 million. This increase is due to strong performance by Cash Converters International and partially offset by Albemarle & Bond. In the current six-month period, we acquired an additional 12,430,000 ordinary shares of Cash Converters International as part of a share placement, maintaining our ownership percentage of approximately 33%. We expect the new funds to be used to finance expansion and drive future earnings growth.

In the current six-month period, the \$8.5 million increase in net revenues and the \$0.4 million increase in our equity in the net income of unconsolidated affiliates were partially offset by a \$7.0 million increase in operations expense and a \$0.2 million increase in depreciation and amortization. Segment contribution from the Other International segment increased \$1.8 million to \$9.8 million. For the current six-month period, the segment's contribution represents 8% of total contribution compared to 6% in the prior year six-month period.

Table of Contents

## Other Consolidated Items

The following table reconciles our consolidated segment contribution discussed above to net income, including items that affect our consolidated financial results but are not allocated among segments:

|  | Six Months Ended March 31, |           |
|--|----------------------------|-----------|
|  | 2013                       | 2012      |
|  | (in thousands)             |           |
| Segment contribution                               | \$127,836                  | \$144,019 |
| Corporate expenses:                                |                            |           |
| Administrative                                     | 22,274                     | 23,652    |
| Depreciation and amortization                      | 3,739                      | 2,691     |
| Interest expense, net                              | 1,944                      | 1,060     |
| Other (income) expense                             | 273                        | (118)     |
| Consolidated income before income taxes            | 99,606                     | 116,734   |
| Income tax expense                                 | 32,571                     | 40,009    |
| Net income   | 67,035                     | 76,725    |
| Net income attributable to noncontrolling interest | 2,337                      | 112       |
| Net income attributable to EZCORP, Inc.            | \$64,698                   | \$76,613  |

Administrative expenses decreased \$1.4 million, or 6% mainly due to decreases in compensation related expenses, professional fees and miscellaneous expenses. Interest expense increased \$0.9 million, or 83%, due to greater utilization of our revolver. Depreciation and amortization increased \$1.0 million, or 39%, due to new assets placed in service as a result of investment in infrastructure to support our globalization strategy. The \$0.4 million change in other income or expense was due to due to foreign currency transaction losses in the current six-month period as opposed to gains in the prior year six-month period.

Consolidated income before taxes decreased \$17.1 million, or 15%, to \$99.6 million due to a \$8.6 million and \$1.8 million increase in contribution from the Latin America and Other International segments respectively, offset by a \$26.6 million decrease in contribution from the U.S. & Canada segment and a \$0.9 million increase in corporate expenses. The \$26.6 million decrease in contribution from the U.S. & Canada segment was due to a combination of reduced gross profit on jewelry scrapped and an increase in operating costs to support a rapidly growing store base. Income tax expense was \$32.6 million, 32.7% of pre-tax income compared to 34.3% in the prior year six-month period. The effective tax rate for the six-month period ended March 31, 2013 was lowered by a one-time recognition of a tax benefit from state and foreign net operating losses.

In the current six-month period, net income attributable to EZCORP decreased \$11.9 million, or 16%, to \$64.7 million, after the \$2.3 million of net income attributable to the noncontrolling interest.

**LIQUIDITY AND CAPITAL RESOURCES**

In the current six-month period, our \$94.2 million cash flow from operations consisted of (i) net income plus several non-cash items, aggregating to \$91.7 million, \$2.5 million in dividends from Albemarle & Bond, \$2.3 million in dividends from Cash Converters International, net of (ii) \$2.3 million of normal, recurring changes in operating assets and liabilities. In the prior year six-month period, our \$95.1 million cash flow from operations consisted of (i) net income plus several non-cash items, aggregating to \$90.8 million, \$2.6 million in dividends from Albemarle & Bond, \$2.2 million in dividends from Cash Converters International, net of (ii) \$0.5 million of normal, recurring changes in operating assets and liabilities. The primary differences in cash flows from operations between the current and prior year period are due to the increase in non-cash items partially offset by the decrease in net income, an increase in total inventory, increases in prepaid expenses and internally developed software costs, and a reduction in income taxes payable.

The \$49.8 million of net cash used in investing activities during the current six-month period was funded by cash flow from operations, cash on hand and borrowings on our line of credit facility. We invested \$11.0 million in Cash Converters International as part of a share placement. We invested \$12.3 million in cash to acquire 12 pawn stores in

the U.S. and to acquire a 51% interest in TUYO. Other significant investments in the period were the \$23.5 million in additions of property

61

---

Table of Contents

and equipment and the \$3.0 million of loans made in excess of customer loan repayments and the recovery of principal through the sale of forfeited pawn loan collateral.

The net effect of these and other smaller cash flows was a \$7.0 million decrease in cash on hand, providing a \$41.4 million ending cash balance.

Below is a summary of our cash needs to meet future aggregate contractual obligations:

| Contractual Obligations                  | Total          | Payments due by Period |           |           |                      |
|--|----------------|------------------------|-----------|-----------|----------------------|
|  |                | Less than<br>1 year    | 1-3 years | 3-5 years | More than<br>5 years |
|  | (in thousands) |                        |           |           |                      |
| Long-term debt obligations*              | \$170,794      | \$27,727               | \$103,589 | \$39,478  | \$—                  |
| Interest on long-term debt obligations** | 30,148         | 11,474                 | 16,004    | 2,670     | —                    |
| Operating lease obligations              | 243,970        | 59,094                 | 93,717    | 51,286    | 39,873               |
| Capital lease obligations                | 1,181          | 525                    | 656       | —         | —                    |
| Interest on capital lease obligations    | 130            | 88                     | 42        | —         | —                    |
| Deferred consideration                   | 12,000         | —                      | 12,000    | —         | —                    |
| Total                                    | \$458,223      | \$98,908               | \$226,008 | \$93,434  | \$39,873             |

\* Excludes debt premium related to Grupo Finmart

\*\* Future interest on long-term obligations calculated on interest rates effective at the balance sheet date

In addition to the contractual obligations in the table above, we are obligated under letters of credit issued to unaffiliated lenders as part of our credit service operations. At March 31, 2013, our maximum exposure for losses on letters of credit, if all brokered loans defaulted and none were collected, was \$22.7 million. Of that total, \$6.2 million was secured by titles to customers' automobiles. These amounts include principal, interest and insufficient funds fees. In addition to the operating lease obligations in the table above, we are responsible for the maintenance, property taxes and insurance at most of our locations. In the fiscal year ended September 30, 2012, these collectively amounted to \$17.9 million.

The operating lease obligations in the table above include expected rent for all our store locations through the end of their current lease terms. Of the 490 U.S. EZMONEY financial services stores, 208 adjoin an EZPAWN store. The lease agreements at approximately 94% of the remaining 282 free-standing EZMONEY stores contain provisions that limit our exposure for additional rent to only a few months if laws were enacted that had a significant negative effect on our operations at these stores.

In the remaining six months of the fiscal year ending September 30, 2013, we plan to open 2 to 5 pawn stores in the U.S., 23 to 33 pawn stores in Mexico and 12 to 22 financial services stores in the U.S. (most of which will follow our store-within-a-store format). The aggregate investment for this de novo activity is expected to be approximately \$7.0 million of capital expenditures plus the funding of working capital and start-up losses. The number of planned new store openings in the remaining six months may change depending on business conditions in each market. We believe new stores will create a drag on earnings and liquidity until their second year of operations.

On May 10, 2011, we entered into a new senior secured credit agreement with a syndication of five banks, replacing our previous credit agreement. Among other things, the new credit agreement provides for a four-year \$175 million revolving credit facility that we may, under the terms of the agreement, request to be increased to a total of \$225 million. Upon entering the new credit agreement, we repaid and retired all other outstanding debt. The new credit facility increases our available credit and provides greater flexibility to make investments and acquisitions both domestically and internationally. Terms of the credit agreement require, among other things, that we meet certain financial covenants. We were in compliance with all covenants at March 31, 2013 and expect to remain in compliance based on our expected future performance. At March 31, 2013, we had borrowed \$74.0 million. We also issued a \$1.7 million letter of credit, leaving \$99.3 million available on our revolving credit facility. The outstanding bank letter of credit was required under our workers' compensation insurance program.

We anticipate that cash flow from operations, cash on hand and availability under our revolving credit facility will be adequate to fund our contractual obligations, planned store growth, capital expenditures and working capital requirements during the coming year.

At the beginning of the current six-month period, we had an effective “shelf” Registration Statement on Form S-4 covering an aggregate of 2.0 million shares of our Class A Common Stock that we may offer from time to time in connection with future

Table of Contents

acquisitions of businesses, assets or securities, with 1.2 million shares remaining for issuance. During the current six-month period, we issued all the remaining shares in connection with the acquisition of 12 pawn stores in Arizona, and as of the end of the six-month period, have no remaining shares covered by the registration statement.

On February 3, 2012, we filed with the United States Securities and Exchange Commission a “shelf” registration statement on Form S-3 registering the offer and sale of an indeterminate amount of a variety of securities, including debt securities (and related guarantees), equity securities, warrants to purchase debt or equity securities, stock purchase contracts and stock purchase units. The proceeds of any offering and sale under that registration statement will be used for general corporate purposes, including debt reduction or refinancing, acquisitions, capital expenditures and working capital. Unless otherwise indicated in connection with a particular offering of debt securities, each of our domestic subsidiaries will fully and unconditionally guarantee on a joint and several basis our payment obligations under such debt securities. As of March 31, 2013, we had not issued any securities under this registration statement.

**Off-Balance Sheet Arrangements**

We issue letters of credit (“LOCs”) to enhance the creditworthiness of our credit service customers seeking signature loans and auto title loans from unaffiliated lenders. The LOCs assure the lenders that if borrowers default on the loans, we will pay the lenders, upon demand, the principal and accrued interest owed them by the borrowers plus any insufficient funds fees or late fees. We do not record on our balance sheet the loans related to our credit services as the loans are made by unaffiliated lenders. We do not consolidate the unaffiliated lenders’ results with our results as we do not have any ownership interest in the lenders, do not exercise control over them and do not otherwise meet the criteria for consolidation as prescribed by FASB ASC 810-10-25 regarding variable interest entities.

We include an allowance for expected LOC losses in “Accounts payable and other accrued expenses” on our balance sheet. At March 31, 2013, the allowance for expected LOC losses was \$1.7 million. At that date, our maximum exposure for losses on letters of credit, if all brokered loans defaulted and none were collected, was \$22.7 million. This amount includes principal, interest and insufficient funds fees.

We have no other off-balance sheet arrangements.

**CAUTIONARY STATEMENT REGARDING RISKS AND UNCERTAINTIES**

This Quarterly Report on Form 10-Q, including Management’s Discussion and Analysis of Financial Condition and Results of Operations, includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend that all forward-looking statements be subject to the safe harbors created by these laws. All statements, other than statements of historical facts, regarding our strategy, future operations, financial position, future revenues, projected costs, prospects, plans and objectives are forward-looking statements. These statements are often, but not always, made with words or phrases like “may,” “should,” “could,” “will,” “predict,” “anticipate,” “believe,” “estimate,” “expect,” “intend,” “plan,” “projection” and similar expressions. statements are only predictions of the outcome and timing of future events based on our current expectations and currently available information and, accordingly, are subject to substantial risks, uncertainties and assumptions. Actual results could differ materially from those expressed in the forward-looking statements due to a number of risks and uncertainties, many of which are beyond our control. In addition, we cannot predict all of the risks and uncertainties that could cause our actual results to differ from those expressed in the forward-looking statements. Accordingly, you should not regard any forward-looking statements as a representation that the expected results will be achieved. Important risk factors that could cause results or events to differ from current expectations are identified and described in “Part II, Item 1A—Risk Factors” of this Quarterly Report and “Part I, Item 1A—Risk Factors” of our Annual Report on Form 10-K for the year ended September 30, 2012.

We specifically disclaim any responsibility to publicly update any information contained in a forward-looking statement except as required by law. All forward-looking statements attributable to us are expressly qualified in their entirety by this cautionary statement.

Table of Contents

## Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk related to interest rates, gold values and changes in foreign currency exchange rates. Our earnings are affected by changes in interest rates as some of our debt has a variable rate. If interest rates average 50 basis points more than our current rate in the remaining six months of the fiscal year ending September 30, 2013, our interest expense during that period would increase by approximately \$288,000. This amount is determined by considering the impact of the hypothetical interest rate change on our variable-rate debt at March 31, 2013.

Our earnings and financial position are affected by changes in gold values and the resulting impact on pawn lending, jewelry sales and jewelry cost of goods sold. The proceeds of scrap sales and our ability to sell jewelry inventory at an acceptable margin depend on gold values. The impact on our financial position and results of operations of a hypothetical change in gold values cannot be reasonably estimated.

Our earnings and financial position are affected by foreign exchange rate fluctuations related to our equity investments in Albemarle & Bond and Cash Converters International, our Empeño Fácil pawn operations, TUYO retail operations and Grupo Finmart operations in Mexico, our operations in Canada and our Cash Genie operations in the U.K. Albemarle & Bond and Cash Genie's functional currency is the British pound, Cash Converters' International functional currency is the Australian dollar, Empeño Fácil and Grupo Finmart's functional currency is the Mexican peso and our Canada operations' functional currency is the Canadian dollar. The impact on our results of operations and financial position of hypothetical changes in foreign currency exchange rates cannot be reasonably estimated due to the interrelationship of operating results and exchange rates.

The translation adjustment from Albemarle & Bond representing the weakening in the British pound during the quarter ended December 31, 2012 (included in our March 31, 2013 results on a three-month lag) was an immaterial decrease to stockholders' equity. The translation adjustment from Cash Genie also represents the weakening in the British pound, resulting in a \$2.5 million decrease to stockholders' equity. On March 31, 2013, the British pound weakened to £1.00 to \$1.5189 U.S. from \$1.6153 at December 31, 2012.

The translation adjustment from Cash Converters International representing the strengthening in the Australian dollar during the quarter ended December 31, 2012 (included in our March 31, 2013 results on a three-month lag) was a \$2.1 million increase to stockholders' equity. On March 31, 2013, the Australian dollar strengthened to \$1.00 Australian dollar to \$1.0416 U.S. from \$1.0371 at December 31, 2012.

The translation adjustment from Latin America representing the strengthening of the Mexican peso during the quarter ended March 31, 2013 was a \$8.0 million increase to stockholders' equity. We have currently assumed permanent reinvestment of earnings and capital in Mexico. Accumulated translation gains or losses related to any future repatriation of earnings or capital would impact our earnings in the period of repatriation. On March 31, 2013, the peso strengthened to \$1.00 Mexican peso to \$0.0809 U.S. from \$0.0770 at December 31, 2012.

The translation adjustment from our Canadian operations representing the weakening of the Canadian dollar during the quarter ended March 31, 2013 was a \$0.3 million decrease to stockholders' equity. On March 31, 2013, the Canadian dollar weakened to \$1.00 Canadian dollar to \$0.9823 U.S. from \$1.0031 at December 31, 2012.

We cannot predict the future valuation of foreign currencies or how further movements in them could affect our future earnings or financial position.

Table of Contents

Item 4. Controls and Procedures

This report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 of the Securities Exchange Act of 1934 (the "Exchange Act). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures. Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2013. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 31, 2013.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of fiscal 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Internal Controls

Notwithstanding the foregoing, management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system will be met. Limitations inherent in any control system include the following:

• Judgments in decision-making can be faulty, and control and process breakdowns can occur because of simple errors or mistakes.

• Controls can be circumvented by individuals, acting alone or in collusion with others, or by management override. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

• Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with associated policies or procedures.

• The design of a control system must reflect the fact that resources are constrained, and the benefits of controls must be considered relative to their costs.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

PART II

Item 1. Legal Proceedings

Currently and from time to time, we are defendants in various legal and regulatory actions. While we cannot determine the ultimate outcome of these actions, we believe their resolution will not have a material adverse effect on our financial condition, results of operations or liquidity. However, we cannot give any assurance as to their ultimate outcome.

Item 1A. Risk Factors

Important risk factors that could affect our operations and financial performance, or that could cause results or events to differ from current expectations, are described in Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended September 30, 2012. These factors are supplemented by those discussed under “Quantitative and Qualitative Disclosures about Market Risk” in Part I, Item 3 of this report and in Part II, Item 7A of our Annual Report on Form 10-K for the year ended September 30, 2012, as well as by the following:

Regulation by the U.S. Consumer Financial Protection Bureau — The U.S. Consumer Financial Protection Bureau (the “CFPB”), which has regulatory, supervisory and enforcement powers over providers of consumer financial products and services, such as EZCORP, recently issued a report following an in-depth review of short-term small dollar loans, including payday loans. While the CFPB acknowledges the clear demand for small dollar credit products, it does express concern regarding the risk of sustained use of these products by some consumers. The CFPB reiterated its authority to adopt rules identifying unfair, deceptive or abusive practices in connection with the offering of consumer financial products and services and stated that it expects to use its authority to provide such protections. There can be no assurance that rules ultimately adopted by the CFPB will not adversely affect our ability to continue to offer consumer loans or the profitability of that business.

Proposed Texas Legislation — On April 22, 2013, the Texas Senate passed a bill that, if enacted into law, would adversely affect our consumer loan business in Texas. This bill includes caps on fees, limitations on the amounts that can be loaned, limitations on the number of refinancings, cooling off periods and other restrictions. The bill remains to be considered by the Texas House of Representatives. Currently, we do not know whether any bill will be passed by the Texas legislature, and if so, in what form. If new adverse legislation is enacted in Texas, it could require us to alter or discontinue some or all of our consumer loan business in Texas. Further, if no legislation is enacted at the state level, then various municipalities may consider and enact ordinances that restrict short-term consumer loans (as Dallas, Austin, San Antonio and several other cities have already done). These actions could have a material adverse effect on our operations, prospects, results of operations and financial condition.
