Item 1.01 Entry Into a Material Definitive Agreement.

On March 8, 2013, CyDex Pharmaceuticals, Inc. (“CyDex”), a wholly owned subsidiary of Ligand Pharmaceuticals Incorporated (together with CyDex, collectively the “Company”), entered into a License Agreement (the “License Agreement”) with Spectrum Pharmaceuticals, Inc. (“Spectrum”). Under the License Agreement, the Company granted to Spectrum an exclusive, nontransferable, worldwide license to such intellectual property rights that will enable Spectrum to develop and potentially commercialize Captisol-enabled® propylene glycol-free melphalan. Additionally, the Company is entitled to receive a non-refundable license issuance fee of \$3 million and is eligible to receive over \$50 million in potential milestones. The Company is also eligible to receive significant double-digit royalties on worldwide net sales of any products that are successfully commercialized. The Agreement may be terminated by either party in the event of an uncured material breach by the other party. Spectrum may terminate the Agreement at any time on prior notice.

Contemporaneously with the entry into the License Agreement, the Company entered into a Supply Agreement (the “Supply Agreement”) to provide Captisol® to Spectrum. Under the Supply Agreement, Spectrum agreed to purchase its Captisol requirements for the development of the compound contemplated by the License Agreement, as well as any Captisol required for any product that is successfully commercialized.

Captisol is a patent protected, chemically modified cyclodextrin with a structure designed to optimize the solubility and stability of drugs.

The foregoing summary of the material terms of both the License Agreement and the Supply Agreement does not purport to be complete and is qualified in its entirety by reference to the License Agreement and the Supply Agreement, copies of which will be filed with the Securities and Exchange Commission by Ligand on its Quarterly Report on Form 10-Q for the fiscal quarter ending March 31, 2013.
