Explanatory Note on Amendment

This amendment No. 1 on Form 10-K/A is being filed to reflect the restatement of basic earnings per common share in order to include the Company's participating convertible preferred stock in the calculation of weighted average number of shares outstanding for basic earnings per share purposes, as discussed in Note 15 to the Company's Consolidated Financial Statements included at Item 8. Previously reported diluted earnings per share are not affected and remain unchanged.

For convenience, the Company is restating its Form 10-K for the year ended March 31, 2003 in its entirety.

PART I Item 1

Business

General Development of Business

SENECA FOODS CORPORATION (the "Company") was organized in 1949 and incorporated under the laws of the State of New York. In the spring of 1995, the Company initiated a 20-year Alliance Agreement with the Pillsbury Company, which was acquired by General Mills Operations, Inc. ("GMOI"), that created the Company's most significant business relationship. Under the Alliance Agreement, the Company has packed canned and frozen vegetables carrying GMOI's Green Giant brand name.

Since the onset of the Alliance Agreement, vegetable production has been the Company's dominant line of business. In fiscal 1999, the Company sold its fruit juice business and its applesauce and industrial flavors business. As a result of these fiscal 1999 divestitures, the Company's only non-vegetable food products are a line of fruit products.

On May 27, 2003, the Company completed the acquisition of the membership interest in Chiquita Processed Foods, L.L.C. from Chiquita Brands International, Inc. The acquisition of this canned vegetable business is expected to increase the Company's annual sales by approximately \$250 million.

The Company's Internet address is WWW.SENECAFOODS.COM. The Company's annual report on Form 10-K, the Company's quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available on the Company's web site, as soon as reasonably practicable after they are electronically filed with or furnished to the SEC. All such filings on the Company's web site are available free of charge.

Financial Information about Industry Segments

The Company's business activities are conducted in food and non-food operations. The food operation constitutes 99% of total sales, of which approximately 97% is vegetable processing and 3% is fruit processing. The non-food operation is an

Edgar Filing: SENECA FOODS CORP /NY/ - Form 10-K/A

air charter service, which represents 1% of the Company's total sales.

Narrative Description of Business

Principal Products and Markets

Food Processing

The principal products of this segment include canned vegetable, frozen vegetable and fruit products. The products are sold to retail and institutional markets. The Company has divided the United States into four major marketing sections: Eastern, Southern, Northwestern, and Southwestern. Food processing operations are primarily supported by plant locations in New York, Wisconsin, Washington, Idaho, and Minnesota.

The following table summarizes net sales by major product category for the years ended March 31, 2003, 2002, and 2001:

Classes of similar products/services:	2003	2002	2001

Other

Seneca Flight Operations provides air charter service primarily to industries in upstate New York.

Source and Availability of Raw Material

Food Processing

The Company's food processing plants are located in major vegetable and fruit producing states. Fruits and vegetables are primarily obtained through contracts with growers. The Company's sources of supply are considered equal or superior to its competition for all of its food products.

Seasonal Business

Edgar Filing: SENECA FOODS CORP /NY/ - Form 10-K/A

Food Processing

While individual fruits and vegetables have seasonal cycles of peak production and sales, the different cycles are usually offsetting to some extent. The supply of commodities, current pricing, and expected new crop quantity and quality, affect the timing of the Company's sales and earnings. An Off Season Allowance is established during the year to minimize the effect of seasonal production on earnings. The Off Season Allowance is zero at fiscal year-end.

Backlog

Food Processing

In the food processing business, the end of year sales order backlog is not considered meaningful. Traditionally, larger customers provide tentative bookings for their expected purchases for the upcoming season. These bookings are further developed as data on the expected size of the related national harvests becomes available. In general, these bookings serve as a yardstick, rather than as a firm commitment, since actual harvest results can vary notably from early estimates. In actual practice, the Company has substantially all of its expected seasonal production identified to potential sales outlets before the seasonal production is completed.

Competition and Customers

Food Processing

Competition in the food business is substantial with imaginative brand registration, quality, service, and pricing being the major determinants in the Company's relative market position. During the past year approximately 10% of the Company's processed foods were packed for retail customers under the Company's branded labels of Libby's(R), Blue Boy(R), Aunt Nellie's Farm Kitchen(R), and Seneca(R). About 15% of the processed foods were packed for institutional food distributors and 35% of processed foods were retail packed under the private label of customers. The remaining 40% is sold under the Alliance Agreement with GMOI (see note 13 to Consolidated Financial Statements included at Item 8, Financial Statements and Supplementary Data). Termination of the Alliance Agreement would substantially reduce the Company's sales and profitability unless the Company were to enter into a new substantial supply relationship with GMOI or another major vegetable marketer. The customers represent a full cross section of the retail, institutional, distributor, and industrial markets and the Company does not consider itself dependent on any single sales source other than sales attributable to the Alliance Agreement.

The principal branded products are Libby's canned vegetable products, which rate among the top five national brands. The information under the heading Results of Operations in Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2003 Annual Report is incorporated by reference.

Environmental Protection

Environmental protection is an area that has been worked on most diligently at each food processing facility. In all locations, the Company has cooperated with federal, state, and local environmental protection authorities in developing and

Edgar Filing: SENECA FOODS CORP /NY/ - Form 10-K/A

maintaining suitable antipollution facilities. In general, pollution control facilities are equal to or somewhat superior to those of our competitors and are within environmental protection standards. The Company does not expect any material capital expenditures to comply with environmental regulations in the near future. The Company is a potentially responsible party with respect to two waste disposal sites owned and operated by others. The Company believes that any reasonably anticipated liabilities will not exceed \$137,000 in the aggregate.

Environmental Litigation

The Company was a defendant in a suit entitled State of Wisconsin vs. Seneca Foods Corporation, et. al., commenced July 30, 2001, in the Rock County (Wisconsin) Circuit Court. In the suit, the Wisconsin Department of Justice sought civil penalties against the Company. The State alleged that the Company stored and/or disposed of two different types of materials at a Wisconsin facility in violation of applicable laws. The Company cooperated with Wisconsin authorities to remove the materials and complete remediation activities but contested the State's efforts to recover a monetary penalty. The first subject matter of the suit involved events, which occurred approximately 19 years ago, and there was no addition of materials in subsequent years. The second subject matter of the suit involved two events between 1995 and 1999. All material at issue in the action has been removed and properly disposed. During 2003, the Company reached a settlement amount with the State of \$242,000 which satisfied both issues.

The Company has four collective bargaining agreements with three union locals covering approximately 503 of its full time employees. The terms of these agreements result in wages and benefits, which are substantially the same for comparable positions for the Company's non-union employees. Three collective bargaining agreements expire in calendar 2005. The remaining agreement expires in calendar 2006.

Foreign Operations

Export sales for the Company are a relatively small portion (about 3%) of the food processing sales.

Item 2

Properties

The Company has seven food processing, packaging, and warehousing facilities

Edgar Filing: SENECA FOODS CORP /NY/ - Form 10-K/A

located in New York State that provide approximately 1,448,000 square feet of food packaging, freezing and freezer storage, and warehouse storage space. These facilities process and package vegetable products. The Company is a lessee under a number of operating and capital leases for equipment and real property used for processing and warehousing.

Six facilities in Minnesota, two facilities in Washington, one facility in Idaho, and five facilities in Wisconsin provide approximately 5,682,000 square feet of food packaging, freezing and freezer storage, and warehouse storage space. These facilities process and package various vegetable and fruit products. The facilities are owned by the Company.

All of the properties are well maintained and equipped with modern machinery. All locations, although highly utilized, have the ability to expand as sales requirements justify. Because of the seasonal production cycles the exact extent of utilization is difficult to measure. In certain circumstances, the theoretical full efficiency levels are being reached; however, expansion of the number of production days or hours could increase the output by up to 20% for a season.

The Company's air charter division has a 42,000 square foot facility, which is owned by the Company.

Certain of the Company's facilities are mortgaged to financial institutions to secure long-term debt and capital lease obligations. See Notes 4 and 5 to Consolidated Financial Statements included at Item 8, Financial Statements and Supplementary Data, for additional information about the Company's long-term debt and lease commitments.

Item 3

Legal Proceedings

In the ordinary course of its business, the Company is made a party to certain legal proceedings seeking monetary damages. The Company does not believe that an adverse decision in any of these proceedings would have a material adverse impact on its financial position, results of operations or cash flows. See Environmental Litigation in Item 1 for further legal discussion.

Item 4

Submission of Matters to a Vote of Security Holders

No matters were submitted to vote of shareholders during the last quarter of the fiscal period covered by this report.

Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its periodic filings with the SEC is (a) accumulated and communicated to the Company's management in a timely manner and (b) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Based on an evaluation within 90 days prior to the filing date of this report of the Company's disclosure controls and procedures, the Company's chief executive officer and chief financial officer concluded that the design and operation of these controls and procedures are effective.

(b) Changes in internal controls.

The Company also maintains a system of internal accounting controls that are designed to provide reasonable assurance that its books and records accurately reflect its transactions and that its policies and procedures are followed. There have been no significant changes in the Company's internal controls, or in other factors that could significantly affect these controls, subsequent to the date of the most recent evaluation of these controls by these officers.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of
Seneca Foods Corporation
Marion, New York

We have audited the consolidated financial statements of Seneca Foods Corporation and subsidiaries as of March 31, 2003 and 2002, and for each of the three years in the period ended March 31, 2003, and have issued our report thereon dated May 21, 2003 (September 3, 2003, as to Note 10 and Note 15) (which report expresses an unqualified opinion and includes an explanatory paragraph relating to the restatement discussed in Note 15); such consolidated financial statements and report are included in Exhibit 13 of this annual report on Form 10-K/A. Our audits also included the consolidated financial statement schedule of Seneca Foods Corporation, listed in Item 16(A)(2).
