Item 1.01 Entry into a Material Definitive Agreement.

Item 1.02 Termination of a Material Definitive Agreement

On February 25, 2019, CTI BioPharma Corp. (the “Company”) entered into a Termination and Transfer Agreement (the “Termination Agreement”) among, on the one hand, the Company and its subsidiary, CTI Life Sciences Limited, and, on the other hand, Les Laboratoires Servier and Institut de Recherches Internationales Servier (together, “Servier”). The Termination Agreement terminates the Amended and Restated Exclusive License and Collaboration Agreement, dated as of April 21, 2017 (the “Collaboration Agreement”), by and among the Company, CTI Life Sciences Limited and Servier.

Under the Termination Agreement, the Company will continue to be responsible for non-U.S. pharmacovigilance for PIXUVRI, the submission of a marketing authorization application for PIXUVRI and wind down of the PIX306 clinical trial during a transition period, which will last until the European Medicines Agency (the “EMA”) adopts a position on the PIXUVRI marketing authorization application. Servier agreed to reimburse the Company €620,000 for costs to be incurred in connection with transition period activities, and if the transition period extends beyond May 31, 2019, Servier will provide additional reimbursement to the Company not to exceed €50,000 per month or €200,000 in the aggregate.

If the EMA’s definitive position results in a standard marketing authorization for PIXUVRI, the Company will transfer and assign all of its rights and responsibilities for PIXUVRI globally to Servier pursuant to an asset purchase agreement. Alternatively, if the EMA’s definitive position results in a conditional marketing authorization or suspension or withdrawal of the marketing authorization, then, at Servier’s election, the Company will either transfer and assign all of its rights and responsibilities for PIXUVRI globally to Servier pursuant to an asset purchase agreement or cooperate with Servier in the withdrawal of PIXUVRI from all jurisdictions other than the United States.

The Termination Agreement provides that, in either scenario, any asset purchase agreement will require, among other things, Servier to pay the Company €2.0 million and assume responsibility for all of the obligations related to PIXUVRI, including the Company’s remaining royalty payments to Novartis International Pharmaceutical Ltd. and the University of Vermont.

The foregoing description of the Termination Agreement is not complete and is qualified in its entirety by reference to the full text of the Termination Agreement, a copy of which is filed herewith as Exhibit 10.1 to this Current Report on Form 8-K and is incorporated into these Items 1.01 and 1.02 by reference.
