# Edgar Filing: Nuveen Floating Rate Income Opportunity Fund - Form N-Q

Net Assets Applicable to Common Shares -- 100%

Ratings\*

\$400,127,600

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Senior Loans in which the Fund invests generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus a premium. These base lending rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate ("LIBOR"), or (ii) the prime rate offered by one or more major United States banks. Senior loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- At October 31, 2004, the Fund had unfunded loan commitments of \$2,808,198.
- \* Ratings below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.
- \*\* Senior Loans in the Fund's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Fund's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Fund's portfolio may be substantially less than the stated maturities shown. The Fund estimates that the actual average maturity of the Senior Loans held in its portfolio will be approximately 18-24 months.

NR Not rated.

- (a) At or subsequent to October 31, 2004, this issue was under the protection of the federal bankruptcy court.
- (b) Purchased on a when-issued or delayed delivery basis.
- (c) Portion of purchased on a when-issued or delayed delivery basis.

**Income Tax Information**

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing certain gains and losses on security transactions and recognition of premium amortization. At October 31, 2004, the cost of investments was \$716,846,325. Gross unrealized appreciation and gross unrealized depreciation of investments at October 31, 2004, were as follows:

Gross unrealized:	
Appreciation	\$2,172,446
Depreciation	(226,921)
<hr/>	
Net unrealized appreciation of investments	\$1,945,525
