Chairman's  
LETTER TO SHAREHOLDERS

I am pleased to report that over the six-month period covered by this report  
your Fund continued to provide you with attractive monthly tax-free income. For  
more details about the management strategy and performance of your Fund, please  
see the Portfolio Manager's Comments and Performance Overview sections of this  
report.

As we enter a new year, many are trying to determine how to best position their  
investments to take advantage of the opportunities that may lie ahead. Nobody  
knows what the market will do in the future or what investments will turn out to  
be tomorrow's best performers. But from our experience, we do know that a  
well-balanced portfolio, structured and carefully monitored with the help of a  
trusted investment professional, can be an important component in helping you  
achieve your long-term financial goals. fact, a well-diversified portfolio may  
actually help to reduce your overall investment risk over the long term. That is  
one reason why we believe that a municipal bond investment like your Fund can be  
an important building block in a comprehensive investment program designed to  
perform well in a variety of market conditions.

"IN FACT, A WELL-DIVERSIFIED PORTFOLIO MAY ACTUALLY HELP TO REDUCE YOUR OVERALL  
INVESTMENT RISK OVER THE LONG TERM."

As an added convenience for you, I urge you to consider receiving future Fund  
reports and other Fund information by e-mail and the Internet. Not only will you  
be able to receive the information faster, but this also may help lower your  
Fund's expenses. Sign up is quick and easy - see the inside front cover of this  
report for instructions.

As we noted in our last shareholder report, The St. Paul Travelers Companies,

## Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

Inc., which had owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser), had sold a substantial portion of its stake in Nuveen. Since then, St. Paul has sold the balance of its shares to Nuveen Investments or to others. Please be assured that these transactions only affected Nuveen's corporate structure, and they do not have any impact on the investment objectives or management of your Fund.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Nuveen Investments Georgia and North Carolina Municipal Exchange-Traded Closed-End Funds (NPG, NZX, NKG, NNC, NRB, NNO, NII)

Portfolio Manager's  
COMMENTS

Portfolio manager Cathryn Steeves discusses key investment strategies and the six-month performance of these seven Funds. Cathryn, who joined Nuveen in 1996, has managed the Funds since 2004.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE GEORGIA AND NORTH CAROLINA FUNDS DURING THE SIX-MONTH REPORTING PERIOD ENDED NOVEMBER 30, 2005?

Over this period, shorter-term interest rates rose faster than longer-term rates. As a result, bond valuations generally declined and the yield curve flattened, meaning shorter-term rates approached the levels of longer-term rates. In this environment, one of our key strategies continued to be careful duration management. (Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.)

To help us maintain the Funds' durations within our desired range, we selectively sold holdings with shorter durations, including pre-refunded bonds. When we sold these shorter duration bonds, we tried to reinvest the proceeds further out on the yield curve by looking for the most attractive opportunities and the best values. Often this led us to bonds that mature in 25 to 30 years, although we did find some issues that mature in 10 to 15 years.

In NZX, NKG, NNO and NII, our duration management strategies also included the use of forward interest rate swaps, a type of derivative financial instrument. As discussed in our last shareholder report, we began using these swaps in late 2004 in an effort to reduce the interest rate risk in these Funds. These hedges were not an attempt to profit from correctly predicting the timing and direction of interest rate movements. Instead, our sole objective was to reduce the duration (and the resulting price sensitivity) of these Funds without having a negative impact on their income streams or common share dividends over the short

term. This hedging strategy was effective in achieving the intended goal of helping to reduce net asset value (NAV) volatility in NZX, and we removed the hedge prior to the end of the reporting period. The hedges on NKG, NNO and NII remained in place as of November 30, 2005. During this reporting period, the hedges had a positive impact on the performance of these three Funds. As long-term interest rates rose, the value of the hedges increased while valuations of the Funds' holdings generally declined.

4

In addition to duration management, we continued to maintain weightings of bonds rated BBB or lower. However, lower-rated credits generally performed well during this period. New issue supply of lower-rated credits was limited and yield spreads were narrow. As a result there were fewer attractive opportunities to purchase additional lower-rated bonds for these Funds at attractive prices. In Georgia, most of the additions to our Funds were insured or higher-rated bonds, including those issued by Atlanta Water and Sewer were purchased for all three Georgia Funds, and by Savannah Economic Development Authority for Armstrong Center, which were added to NPG and NZX. We also took advantage of the greater issuance of healthcare bonds in the North Carolina market to make some attractive purchases in that sector. In general, the increase in Georgia and North Carolina municipal supply during this period helped us to further diversify the Funds' portfolios.

\*Six-month returns are cumulative returns for one year, five years, and ten

years are annualized.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

- 1 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The Lipper Other States Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 6 months, 43 funds; 1 year, 43 funds; 5 years, 18 funds; and 10 years, 18 funds. Fund and Lipper returns assume reinvestment of dividends.

5

For the six months ended November 30, 2005, the cumulative returns on NAV for these seven Funds underperformed the return on the Lehman Brothers Municipal Bond Index. However, each Fund outperformed the index over the most recent 12-month period. NRB and NII exceeded the average return for the Lipper Other States peer group, over the six month time frame, while NPG, NZX, NKG, NNC, and NNO trailed this group average. Please keep in mind that the Lipper Other States average represents the overall average of returns for funds from 10 different states displaying a variety of economic and municipal market conditions. We believe that makes direct comparisons between the returns of specific state funds with a multi-state group average less meaningful.

One of the factors affecting the Funds' six-month performance relative to that of the unleveraged Lehman Brothers index was the Funds' use of financial leverage. While leveraging provides opportunities for additional income and total returns for common shareholders when interest rates fall or remain consistently low (as has been the case over the past several years), this benefit is reduced when interest rates rise. With the increase in both short-term and long-term rates over this six-month period, the decline in value of the bonds in these Funds' portfolios was exacerbated by the effect of leveraging. In addition, the extent of the leverage benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. When short-term interest rates rise, as they did during this reporting period, the Funds' borrowing costs also rise, impacting the Funds' expenses, income streams and total returns. However, we remain convinced that leveraging is likely to benefit the performance of these Funds over the long term.

During this reporting period, all of the Funds benefited from their allocations of lower-quality credits, as bonds rated BBB or lower generally outperformed other credit quality sectors. As of November 30, 2005, the Georgia Funds had BBB and sub-investment grade weightings of between 8% and 12%, while the North Carolina Funds' allocations of BBB and non-rated bonds ranged from 3% to 8%.

Among the lower-rated bonds making contributions to the Funds' cumulative returns for this period were industrial development, housing, and hospital

credits, as these sectors ranked as the top three performers among the Lehman Brothers municipal revenue sectors for the period.

6

Also contributing to the Funds' returns were tobacco bonds backed by the 1998 master tobacco settlement agreement, as the litigation environment improved and supply/demand dynamics drove tobacco bond prices higher. As of November 30, 2005, NPG and NKG held 1.3% and 2.1% of their portfolios, respectively, in tobacco bonds, while NII had allocated 2.4% of its portfolio to these securities.

During this period, NRB benefited from the pre-refunding of a large position in bonds issued by Broad River Water Authority, which accounted for approximately 3% of the Fund. NII also held a small position (less than 1%) in these bonds.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF NOVEMBER 30, 2005?

As of November 30, 2005, all seven of these Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 78% to 93%. Potential call exposure for the period from December 2005 through the end of 2007 ranged from zero in NKG to 3% in NZX and NNO, 8% in NPG, 11% in NII and NNC, and 12% in NRB. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

7

#### Dividend and Share Price INFORMATION

As noted, all seven of these Funds use leverage to potentially enhance opportunities for additional income for common shareholders. During periods of rising short-term interest rates, as was the case during this reporting period, leveraging expenses increase. This resulted in a single monthly dividend reduction in NPG, NRB and NNO over the six-month period ended November 30, 2005. The dividends of NZX, NKG, NNC and NII remained stable throughout this reporting period. (On December 1, 2005, NPG and NNC announced monthly dividend reductions.)

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of November 30, 2005, NPG, NZX, NNC, NRB and NNO had positive UNII balances for both financial statement and tax purposes. NKG and NII had positive UNII balances for tax purposes and negative UNII balances for financial statement purposes.

At the end of the reporting period, the Funds' share prices were trading at premiums or discounts to their NAVs as shown in the accompanying chart:

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Georgia Premium Income Municipal Fund (NPG), Nuveen Georgia Dividend Advantage Municipal Fund (NZX), Nuveen Georgia Dividend Advantage Municipal Fund 2 (NKG), Nuveen North Carolina Premium Income Municipal Fund (NNC), Nuveen North Carolina Dividend Advantage Municipal Fund (NRB), Nuveen North Carolina Dividend Advantage Municipal Fund 2 (NNO) and Nuveen North Carolina Dividend Advantage Municipal Fund 3 (NII). Common shares of Georgia Premium Income (NPG), Georgia Dividend Advantage (NZX), Georgia Dividend Advantage 2 (NKG), North Carolina Dividend Advantage (NRB), North Carolina Dividend Advantage 2 (NNO) and North Carolina Dividend Advantage 3 (NII) are traded on the American Stock Exchange while Common shares of North Carolina Premium Income (NNC) are traded on the New York Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of derivative investments are also provided by an independent pricing service approved by each Fund's Board of Trustees. If the pricing service is unable to supply a price for a municipal bond or derivative investment, each Fund may use a market price or fair market value quote provided by a major broker/dealer in such investments. If it is determined that the market price or fair market value for an investment is unavailable or inappropriate, the Board of Trustees of the

Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At November 30, 2005, North Carolina Premium Income (NNC), North Carolina Dividend Advantage (NRB), North Carolina Dividend Advantage 2 (NNO) and North Carolina Dividend Advantage 3 (NII) had outstanding when-issued purchase commitments of \$247,023, \$98,809, \$197,618 and \$197,618, respectively. There were no such outstanding purchase commitments in any of the other Funds.

#### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

#### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

#### Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

#### Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of Preferred shares outstanding for each Fund is as follows:

Forward Swap Transactions

The Funds are authorized to invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net asset value. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and would increase or decrease in value based primarily on the extent to which long-term interest rates for bonds having a maturity of the swaps' termination date were to increase or decrease. The Funds may close out a contract prior to the effective date, at which point a realized gain or loss would be recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To minimize such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

FINANCIAL STATEMENTS (Unaudited) (continued)

At May 31, 2005, the Funds' last fiscal year end, the following Funds elected to defer net realized losses from investments incurred from November 1, 2004 through May 31, 2005 ("post-October losses") in accordance with Federal income tax regulations. The following post-October losses were treated as having arisen on the first day of the current fiscal year:

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

| AVERAGE DAILY NET ASSETS<br>(INCLUDING NET ASSETS<br>ATTRIBUTABLE TO PREFERRED SHARES) | GEORGIA PREMIUM INCOME (NPG)<br>NORTH CAROLINA PREMIUM INCOME (NNC)<br>FUND-LEVEL FEE RATE |

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of November 30, 2005, the complex-level fee rate was .1898%.

| COMPLEX-LEVEL ASSETS (1)                 | COMPLEX-LEVEL FEE RATE |
|--|------------------------|
| For the first \$55 billion               | .2000%                 |

| For Managed Assets over \$91 billion (2) | .1400                  |

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Trustees who are affiliated with the

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. Transactions (C) and (D) above were settled in late July, which effectively reduced St. Paul Travelers' controlling stake in Nuveen was deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and the Adviser, which resulted in the automatic termination of each agreement under the 1940 Act. In anticipation of such deemed assignment, the Board of Trustees had approved new ongoing investment management agreements for each Fund and the submission of those agreements for approval by

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

each respective Fund's shareholders, which shareholder approval was received prior to the settlement of transactions (C) and (D). The new ongoing management agreements took effect upon such settlement.

\* Annualized.

\*\* Total Investment Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. Total Return on Common Share Net Asset Value is the combination of changes in Common Share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. Total returns are not annualized.

\*\*\* After custodian fee credit and expense reimbursement, where applicable.

+ The amounts shown are based on Common share equivalents.

++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.

Reinvest Automatically  
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS  
DIVIDEND REINVESTMENT PLAN

## Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

In April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers") sold the majority of its controlling equity interest in Nuveen Investments, Inc. ("Nuveen") to the general public. Nuveen is the parent of Nuveen Asset Management ("NAM"), which is each Fund's investment manager. This sale was deemed to be an "assignment" of the investment management agreement between each Fund and NAM and, if applicable, of the sub-advisory agreement between NAM and the Fund's sub-adviser. As required by law, the shareholders of each Fund were asked to approve a new investment management agreement and, if applicable, a new subadvisory agreement that reflected this change in ownership. The shareholders of each Fund voted this approval at a Shareholders' Meeting on July 26, 2005. There were no changes to the investment objectives or management of any Fund as a result of these actions.

#### QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the 12-month period ended June 30, 2005, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at [www.nuveen.com](http://www.nuveen.com).

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to the SEC's Public References Section at 450 Fifth Street NW, Washington, D.C. 20549.

#### CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund

## Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
