November 30, 2014

DEAR SHAREHOLDER

We thank you for your investment in the Guggenheim Credit Allocation Fund (the “Fund”). This report covers the Fund’s performance for the six-month period ended November 30, 2014.

The Fund’s investment objective is to seek total return through a combination of current income and capital appreciation.

Under normal market conditions, the Fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in fixed income securities, debt securities, loans and investments with economic characteristics similar to fixed-income securities, debt securities and loans (collectively, “credit securities”). The Fund seeks to achieve its investment objective by investing in a portfolio of credit securities selected from a variety of sectors and credit qualities. The Fund may invest in credit securities of any duration or maturity. Credit securities in which the Fund may invest may pay fixed or variable rates of interest. The Fund may invest without limitation in securities of non-U.S. issuers, including issuers in emerging markets.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2014, the Fund provided a total return based on market price of -3.20% and a total return based on NAV of -0.34%. NAV performance data reflects fees and expenses of the Fund.

As of November 30, 2014, the Fund’s market price of \$22.85 represented a discount of 3.05% to its NAV of \$23.57. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2014 through November 2014, the Fund paid a monthly distribution. The distribution in the first two months was \$0.1713 and increased to \$0.1813 per month for the final four months of the period. The November distribution represents an annualized distribution rate of 9.52% based on the Fund’s closing market price of \$22.85 on November 30, 2014. The Fund’s distribution rate is not constant and is subject to change based on the performance of the Fund, including changes in the traded market price.

Guggenheim Funds Investment Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund. Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Fund’s investment sub-adviser and is responsible for the management of the Fund’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 31 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Fund endeavors to maintain a stable monthly distribution, the DRIP effectively provides an income averaging

technique, which causes shareholders to accumulate a larger number of Fund shares when the market price is depressed than when the price is higher.

To learn more about the Fund's performance and investment strategy, we encourage you to read the Questions & Answers section of this report, which begins on page 5. You'll find information on GPIM's investment philosophy, views on the economy and market environment, and detailed information about the factors that impacted the Fund's performance.

QUESTIONS & ANSWERS

November 30, 2014

Guggenheim Credit Allocation Fund (the “Fund”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM”). This team includes B. Scott Miner, Chairman of Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director; Jeffrey B. Abrams, Senior Managing Director and Portfolio Manager; Kevin H. Gundersen, Senior Managing Director and Portfolio Manager; and James W. Michal, Managing Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Fund’s performance for the six months ended November 30, 2014.

What is the Fund’s investment objective and how is it pursued?

The Fund’s investment objective is to seek total return through a combination of current income and capital appreciation.

Under normal market conditions, the Fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in fixed income securities, debt securities, loans and investments with economic characteristics similar to fixed-income securities (collectively, “credit securities”). Credit securities in which the Fund may invest consist of corporate bonds, loans and loan participations, asset-backed securities (all or a portion of which may consist of collateralized loan obligations), mortgage-backed securities (both residential mortgage-backed securities and commercial mortgage-backed securities), U.S. Government and agency securities, mezzanine and preferred securities, convertible securities, commercial paper, municipal securities and sovereign government and supranational debt securities. The Fund will seek to achieve its investment objective by investing in a portfolio of credit securities selected from a variety of sectors and credit qualities. The Fund may invest in credit securities that are rated below investment grade, or, if unrated, determined to be of comparable quality (also known as “high yield securities” or “junk bonds”). The Fund may invest in credit securities of any duration or maturity. Credit securities in which the Fund may invest may pay fixed or variable rates of interest. The Fund may invest without limitation in securities of non-U.S. issuers, including issuers in emerging markets.

The Fund may, but is not required to, use various derivatives transactions for hedging and risk management purposes, to facilitate portfolio management and to earn income or enhance total return. The Fund may use such transactions as a means to synthetically implement the Fund’s investment strategies. In addition, as an alternative to holding investments directly, the Fund may also obtain investment exposure by investing in other investment companies. To the extent that the Fund invests in synthetic investments with economic characteristics similar to credit securities, the value of such investments will be counted as credit securities for purposes of the Fund’s policy of investing at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in credit securities (the “80% Policy”).

The Fund may invest in open-end funds, closed-end funds and exchange-traded funds. For purposes of the Fund’s 80% Policy, the Fund will include its investments in other investment companies that have a policy of investing at least 80% of their net assets, plus the amount of any borrowings for investment purposes, in one or more types of credit securities.

The Fund uses financial leverage (borrowing) to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders’ return will be greater than if financial leverage had not been used. Conversely, if the income or gains

from the securities purchased with the proceeds of financial leverage are less than the cost of financial leverage, common shareholders' return will be less than if financial leverage had not been used.

What were the significant events affecting the economy and market environment over the past six months?

The U.S. economy continued to grow through the six months ended November 30, 2014, despite some seasonal volatility in September and October that caused spreads in leveraged credit to widen and upward momentum in U.S. stocks to deteriorate. By the end of October, the spread widening had reversed and equities regained their footing, with some key indices shooting to new highs. Markets similarly overcame a weather-related winter soft patch in the first quarter of 2014. The benchmark U.S. 10 year Treasury rate declined from 2.5% to 2.165% over the period, a positive stimulant to continued economic expansion.

U.S. economic data remain strong, with the third quarter's 3.5% GDP growth signaling that the economy was doing well across the spectrum. Among the highlights: strong net exports, unemployment that had fallen faster than expected and consumer confidence that was at seven year highs. The fact that government at the state and local level was contributing to GDP growth suggested that a major headwind for the economy—contracting government spending—has gone away. While falling oil prices are helping consumer spending in the near term, they could be signaling that the global economy is not growing fast enough.

QUESTIONS & ANSWERS continued

November 30, 2014

The U.S. is adding close to 225,000 jobs per month on average in 2014, considerably more than 2013's monthly average of 194,000. Employment levels are transitioning from the recovery phase to the expansion phase, which typically coincides with accelerating economic activity. The downward trend in labor force participation has begun to flatten and, as fewer people leave the workforce, the rapid decline in the nation's unemployment rate could begin to slow. Until unemployment falls below 5.5%, it's unlikely that the U.S. economy will experience the kind of meaningful wage pressure that would spur action by the Federal Reserve (the "Fed"). An improving labor market, subdued mortgage rates, and tight housing inventory all point to a rebound in the housing market.

The economies of Europe and Asia continue to deteriorate. The ECB is attempting to inject liquidity into the system, as their current program is not large enough to boost growth. Germany just barely avoided a recession in the third quarter. The Japanese economy is now officially in a recession. The first two arrows of Abenomics, monetary accommodation and fiscal stimulus, were relatively easy, but the third arrow of structural reform has been much more elusive.

Overseas geopolitical concerns and comparatively attractive yields have pushed global investors to U.S. Treasuries. Such "beggar thy neighbor" policies from Europe and Asia were a driving force behind the most recent rally in U.S. fixed income, and indicate that U.S. long-term rate should continue to be well supported. Momentum in the U.S. continued into the fourth quarter, with December's seasonal effects and the boost from declining fuel prices. Fed tightening expectations continue to decrease on the back of concerns about a global growth slowdown.

For the six months ended November 30, 2014, the Standard & Poor's 500 Index returned 8.58%; the Barclays U.S. Aggregate Bond Index returned 1.92%; and the Barclays 1-3 Month U.S. Treasury Bill Index returned 0.01%. All returns are total return.

How did the Fund perform for the six months ended November 30, 2014?

All Fund returns cited—whether based on net asset value ("NAV") or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2014, the Fund provided a total return based on market price of -3.20% and a total return based on NAV of -0.34%. NAV performance data reflects fees and expenses of the Fund.

As of November 30, 2014, the Fund's market price of \$22.85 represented a discount of 3.05% to its NAV of \$23.57. As of May 31, 2014, the Fund's market price of \$24.68 per share represented a discount of 0.12% to its NAV of \$24.71 per share. The market value of the Fund's shares fluctuates from time to time and may be higher or lower than the Fund's NAV. Past performance is not a guarantee of future results.

From June 2014 through November 2014, the Fund paid a monthly distribution. The distribution in the first two months was \$0.1713 and increased to \$0.1813 per month for the final four months of the period. The November distribution represents an annualized distribution rate of 9.52% based on the Fund's closing market price of \$22.85 on November 30, 2014. The Fund's distribution rate is not constant and is subject to change based on the performance of the Fund, including changes in the traded market price.

Why did the Fund accrue excise tax during the period?

While the Fund generally intends to distribute income and capital gains in the manner necessary to minimize imposition of the 4% excise tax imposed on a registered investment company that does not distribute by the end of

any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the fund's fiscal year), there can be no assurance that sufficient amounts of the Fund's taxable income and capital gain will be distributed to entirely avoid the imposition of the excise tax. In certain circumstances, the Fund may elect to retain income or capital gain and pay the excise tax on such undistributed amount, to the extent that the Board of Trustees, in consultation with Fund management, determines it to be in the best interest of shareholders at that time.

What factors influenced the Fund's performance?

The third-quarter sell-off in leveraged credit, particularly in high yield bonds, led to a slight decline in NAV along with a moderate decline in security pricing. The Fund was helped by good credit selection and a risk profile that focuses on a bottom-up, downside-protection-led approach. The Fund also benefited from its exposure to floating rate assets (primarily bank loans), and shorter-maturity bonds, which acted as a buffer to market volatility.

The Fund benefited from opportunities during various sell-offs to add securities that careful analysis indicated were oversold and trading below fair value. We remain positive on credit, and expect default rates to remain low in the near-term. We are conscious of the potential for more volatility ahead, and are moving to increase ratings quality and diversification.

The average credit quality of the portfolio remains B rated (S&P). The lowest quality credits remain highly vulnerable to volatility in the current environment. Over the third quarter, for example, high-yield bonds fell by 1.9%, with CCC bonds underperforming higher rated BB bonds and B bonds by 200 basis points and 150 basis points, respectively. We continue to see opportunity for strong returns in the high yield market, though we are conscious of a larger number of issues coming to market that exhibit lower credit quality and weaker security structures.

QUESTIONS & ANSWERS continued

November 30, 2014

The Fund's exposure to senior loans contributed to performance. The Fund purchased a number of senior loans in the primary market post-launch in mid-2013, realizing an immediate improvement in value due to original issue discounts. There remains strong institutional demand for these floating rate securities that offer good investor protection at the high end of the capital structure. Collateralized loan obligation ("CLOs") creation and the formation of loan funds over much of the period have been robust. For example, CLO issuance is ahead of 2013 full-year volume and has already set a new annual record.

The floating rate nature of bank loans and their position higher in the capital structure makes them a defensive asset class during periods of market/interest rate volatility. They function as an attractive asset as the credit cycle changes, particularly as interest rates rise. When the interest rate environment in the U.S. is relatively stable, the Fund may incrementally add higher-yielding, longer-maturity assets to the portfolio as attractive new issues come to market. The Fund continues to benefit from participation in new loan issuance, many of which are priced at a concession to existing issues trading in the secondary market.

Any comments on the sectors the Fund primarily invests in?

The Fund is composed primarily of high yield corporate bonds and bank loans. The allocation mix varies according to the relative attractiveness of the two asset classes and availability of attractively priced assets. As proxies for the two markets, the Barclays U.S. Corporate High Yield Index returned -0.60% for the six-month period, and the Credit Suisse Leveraged Loan Index returned 1.02%.

High yield corporate bonds and bank loans performed well through the first half of 2014, including the beginning of the Fund's semiannual fiscal period that began in June. Mutual fund investors began to withdraw from the leveraged credit sector amid concerns about frothy valuations and talk of a credit bubble during the summer months. When high yield markets began selling off in July, volatility spread across risk assets, including equities.

The events that drove spread widening in the third quarter demonstrate that investors are becoming increasingly reactive to factors outside of the fundamentals that underscore our positive outlook on credit. Even though U.S. economic data was mixed in early autumn, it has been strong year to date, and the improving health of the U.S. economy and low interest rates continue to underscore our expectation that spreads can compress further. Volatility is likely to continue, but as the economy improves, brief periods of spread widening should be viewed as buying opportunities.

In preparation for choppy markets, investing in middle market debt offers the opportunity to limit volatility and capture strong returns. The middle market is based on bond and loan tranches with up to \$750 million outstanding, with tranches between \$350 million and \$750 million are classified as upper middle market. Relative to larger debt issues, middle market debt provides several advantages: higher yields, which typically result in better annualized returns; lower volatility; a comparable default history—though higher recoveries in the event of default; and a stable investor base. Investors can pick up as much as 100 basis points of additional yield, on average, over similarly rated larger debt.

Unlike broadly syndicated loans, middle market lenders typically retain greater control over covenants and deal terms, such as spread, yield and maturities. This means that the deterioration in investor protections often seen in larger offerings occurs at a much slower pace within smaller loans of the type the Fund invests in. For example, only 36% of loans smaller than \$300 million are covenant-lite, compared with 55% of loans over \$750 million.

What is the Fund's duration?

The weighted average duration for GGM as of November 30, 2014, was approximately three years. Our view is that we are unlikely to see rates move in a sudden and aggressive upward trajectory, as the Fed is providing ample guidance about the future path of interest rates. The Fund may invest in credit securities of any duration or maturity and is not required to maintain any particular maturity or duration for its portfolio as a whole. It typically maintains a leverage-adjusted average portfolio duration of one to four years. However, average portfolio duration is adjusted based on market conditions.

Discuss the impact of leverage for the period.

The Fund utilizes leverage as part of its investment strategy, to finance the purchase of additional securities that provide increased income and potentially greater appreciation potential to common shareholders than could be achieved from a portfolio that is not leveraged.

The Fund currently employs leverage through reverse repurchase agreements, under which the Fund temporarily transfers possession of portfolio securities and receives cash which can be used for additional investments. The Fund also has a lending facility agreement with BNP Paribas, which can be drawn upon instead of using reverse repurchase agreements.

As of November 30, 2014, the amount of leverage was approximately 28% of total managed assets. While leverage increases the income of the Fund in yield terms, it also amplifies the effects of changing market prices in the portfolio and can cause the Fund's NAV to change to a greater degree than the market as a whole. This can create volatility in Fund pricing but should not affect the Fund's ability to pay dividends under normal circumstances.

QUESTIONS & ANSWERS continued

November 30, 2014

#### Index Definitions

Indices are unmanaged and reflect no expenses. It is not possible to invest directly in an index.

The Barclays U.S. Aggregate Bond Index represents securities that are U.S. domestic, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities.

The Barclays U.S. Corporate High Yield Index is an unmanaged index of below investment grade bonds issued by U.S. corporations.

The Barclays 1-3 Month U.S. Treasury Bill Index tracks the performance of U.S. Treasury bills with a remaining maturity of one to three months. U.S. Treasury bills, which are short-term loans to the U.S. government, are full faith-and-credit obligations of the U.S. Treasury and are generally regarded as being free of any risk of default.

The Credit Suisse Leveraged Loan Index is an index designed to mirror the investable universe of the \$US-denominated leveraged loan market.

The Standard & Poor's 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

#### Risks and Other Considerations

The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are subject to change at any time, based on market and other conditions and should not be construed as a recommendation of any kind. The material may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Please see [guggenheiminvestments.com/ggm](http://guggenheiminvestments.com/ggm) for a detailed discussion of the Fund's risks and considerations.

## STATEMENT OF ASSETS AND LIABILITIES (Unaudited)

November 30, 2014

## ASSETS:

Investments, at value (cost \$215,462,500)	\$213,907,201
Foreign currency, at value (cost \$15,620)	15,176
Cash	16,317
Restricted cash	1,168,000
Unrealized appreciation on forward exchange currency contracts	188,236
Unrealized appreciation on unfunded commitments	85,175
Receivables:	
Interest	3,426,627
Investments sold	3,158,648
Tax reclaims	15,263
Other assets	13,647
Total assets	221,994,290

## LIABILITIES:

Reverse repurchase agreements	61,472,978
Interest due on borrowings	46,465
Unrealized depreciation on forward exchange currency contracts	11,465
Payable for:	
Investments purchased	3,773,148
Investment advisory fees	180,596
Excise tax payable	139,000
Administration fees	4,888
Other fees	132,102
Total liabilities	65,760,642
NET ASSETS	\$156,233,648

## NET ASSETS CONSIST OF:

Common stock, \$.01 par value per share; unlimited number of shares authorized, 6,629,480	\$66,295
Additional paid-in capital	157,837,614
Accumulated undistributed net investment income (loss)	(103,342 )
Accumulated net investment gain on investments and foreign currency transactions	(269,529 )
Accumulated net unrealized depreciation on investments, foreign currency translations and unfunded commitments	(1,297,390 )
NET ASSETS	\$156,233,648
Shares Outstanding (\$.01 par value with unlimited amount authorized)	6,629,480
Net asset value	\$23.57

STATEMENT OF CASH FLOWS (Unaudited) For the six months ended  
November 30, 2014

November 30, 2014

## Cash Flows from Operating Activities:

Net decrease in net assets resulting from operations	\$(509,796 )
Adjustments to Reconcile Net Increase in Net Assets Resulting from Operations to Net Cash Used in Operating and Investing Activities:	
Net change in unrealized depreciation on investments	4,775,388
Net change in unrealized depreciation on unfunded commitments	(46,768 )
Net change in unrealized depreciation on foreign currency translation	(22,550 )
Net realized gain on investments	(81,533 )
Net realized gains on paydown received	(62,506 )
Net accretion of bond discount and amortization of bond premium	260,910
Purchase of long-term investments	(78,462,417)
Paydowns received on mortgage and asset backed securities	20,065,555
Proceeds from sale of long-term investments	55,966,568
Net purchase of short-term investments	(848,512 )
Corporate actions and other payments	258,247
Decrease in interest receivable	10,543
Increase in securities sold receivable	(806,032 )
Increase in tax reclaims	(11,664 )
Decrease in other assets	3,780
Decrease in payable for securities purchased	(2,992,547 )
Decrease in advisory fee payable	(3,172 )
Increase in excise tax payable	139,000
Increase in interest due on borrowings	8,271
Decrease in administration fee payable	(105 )
Increase in accrued expenses and other liabilities	2,671
Net Cash Used In Operating and Investing Activities	(2,356,669 )
Cash Flows From Financing Activities:	
Distributions to common shareholders	(7,078,701 )
Increase in reverse repurchase agreements	8,128,903
Net Cash Used for Financing Activities	1,050,202
Net decrease in cash	(2,474,467 )
Cash (including foreign currency) at Beginning of Period	2,505,960
Cash (including foreign currency and restricted cash) at End of Period	\$1,199,493
Supplemental Disclosure of Cash Flow Information: Cash paid during the period for interest	\$217,580
Supplemental Disclosure of Non Cash Financing Activity: Dividend reinvestment	\$6,991

See notes to financial statements.

## FINANCIAL HIGHLIGHTS

November 30, 2014

	For the Six Months Ended November 30, 2014 (Unaudited)		Period Ended May 31, 2014(a)	
<b>Per Share Data:</b>				
Net asset value, beginning of period	\$24.71		\$23.82	
<b>Income from investment operations:</b>				
Net investment income(b)	0.93		1.64	
Net (loss) gain on investments (realized and unrealized)	(1.00)	)	0.71	
Total from investment operations	(0.07)	)	2.35	
<b>Less distributions from:</b>				
Net investment income	(1.07)	)	(1.46)	)
Total distributions to shareholders	(1.07)	)	(1.46)	)
Net asset value, end of period	\$23.57		\$24.71	
Market Value, end of period	\$22.85		\$24.68	
<b>Total Return(c)</b>				
Net asset value	-0.34	%	10.12	%
Market value	-3.20	%	5.08	%
<b>Ratios/Supplemental Data:</b>				
Net assets, end of period (in thousands)	\$156,234		\$163,815	
<b>Ratio to average net assets of:</b>				
Total expenses, including interest expense(d)	1.99	%(g)	1.73	%(g)
Net investment income, including interest expense	7.60	%(g)	7.28	%(g)
Portfolio turnover rate(e)	26	%	54	%
<b>Senior Indebtedness</b>				
Total Borrowings outstanding (in thousands)	\$61,473		\$53,344	
Asset Coverage per \$1,000 of indebtedness(f)	\$3,542		\$4,071	

- Since commencement of operations: June 26, 2013. Percentage amounts for the period, except total return and
- (a) portfolio turnover rate, have been annualized.
- (b) Based on average shares outstanding.
- (c) Total investment return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distribution at net asset value during the period, and redemption on the last day of the period. Transaction fees are not reflected in the calculation of total investment return.
- (d) Excluding interest expense, the annualized operating expense ratio would be 1.73% and 1.55% for the periods ended November 30, 2014 and May 31, 2014, respectively.
- (e) Portfolio turnover does not include securities received or delivered from processing creations or redemptions. Calculated by subtracting the Fund's total liabilities (not including borrowings) from the Fund's total assets and dividing by the total borrowings.
- (f)

(g) Annualized

See notes to financial statements.

GGM 1 GUGGENHEIM CREDIT ALLOCATION FUND SEMIANNUAL REPORT 1 19

---

NOTES TO FINANCIAL STATEMENTS (Unaudited)

November 30, 2014

Note 1 – Organization:

Guggenheim Credit Allocation Fund (the “Fund”) was organized as a Delaware statutory trust on June 7, 2012, and commenced investment operations on June 26, 2013. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund’s investment objective is to seek total return through a combination of current income and capital appreciation.

Note 2 – Accounting Policies:

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies consistently followed by the Fund.

(a) Valuation of Investments

The Board of Trustees of the Fund (the “Board”) has adopted policies and procedures for the valuation of the Fund’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund’s securities or other assets.

Valuations of the Fund’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the mean of the most recent bid and asked prices on such day.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, which approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes. If the pricing service cannot or does not provide a valuation for a particular loan or such valuation is deemed unreliable, such loan is fair valued by the Valuation Committee.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and the Guggenheim Funds Investment Advisors, LLC (“GFIA or the “Adviser”) are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair valued as determined in good faith by the Adviser, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security’s (or asset’s) “fair value.” Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security’s disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company’s financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Paydown gains and losses on mortgage and asset-backed securities are treated as an adjustment to interest income. For the six months ended November 30, 2014, the Fund recognized an increase of interest income

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

and a decrease of net realized gain of \$62,506. This reclassification is reflected on the Statement of Operations and had no effect on the net asset value of the Fund. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts on debt securities purchased are accreted to interest income over the lives of the respective securities using the effective interest method. Premiums on debt securities purchased are amortized to interest income up to the next call date of the respective securities using the effective interest method.

(c) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and asked price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the exchange rate on the bid and asked price of respective exchange rates on the date of the transaction.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt is shown as net realized gains or losses on foreign currency transactions on the Fund's Statement of Operations.

Foreign exchange unrealized gain or loss on assets and liabilities, other than investments, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Fund's Statement of Operations.

(d) Forward Exchange Currency Contracts

The Fund entered into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchases and sales commitments denominated in foreign currencies and for investment purposes. Forward exchange currency contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gains and losses are recorded, and included on the Statement of Operations.

(e) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. To the extent distributions exceed net investment income, the excess will be deemed a return of capital. Any net realized long-term capital gains are distributed annually to common shareholders.

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

Note 3 – Investment Advisory Agreement, Sub-Advisory Agreement and Other Agreements:

Pursuant to an Investment Advisory Agreement (the “Agreement”) between the Fund and Guggenheim Funds Investment Advisors, LLC, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”), provides personnel including certain officers required for the Fund’s administrative management and compensates the officers or trustees of the Fund who are affiliates of the Adviser. As compensation for these services, the Fund pays the Adviser a fee, payable monthly, in an amount equal to 1.00% of the Fund’s average daily managed assets.

Pursuant to a Sub-Advisory Agreement (the “Sub-Advisory Agreement”) among the Fund, the Adviser and the Sub-Adviser, GPIM under provides a continuous investment program for the Fund’s portfolio; provides investment research, makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Fund who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.50% of the Fund’s average daily managed assets.

Certain officers and trustees of the Fund may also be officers, directors and/or employees of the Adviser or GPIM. The Fund does not compensate its officers or trustees who are officers, directors and/or employees of the aforementioned firms.

Rydex Fund Services, LLC (“RFS”), an affiliate of the Adviser and the Sub-Adviser, provides fund administration services to the Fund. As compensation for these services RFS receives a fund administration fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

Managed Assets	Rate
First \$200,000,000	0.0275%
Next \$300,000,000	0.0200%
Next \$500,000,000	0.0150%
Over \$1,000,000,000	0.0100%

For purposes of calculating the fees payable under the foregoing agreements, “average daily managed assets” means the average daily value of the Fund’s total assets minus the sum of its accrued liabilities. “Total assets” means all of the Fund’s assets and is not limited to its investment securities. “Accrued liabilities” means all of the Fund’s liabilities other than borrowings for investment purposes.

The Bank of New York Mellon (“BNY”) acts as the Fund’s custodian. As custodian, BNY is responsible for the custody of the Fund’s assets.

RFS acts as the Fund’s accounting agent. As accounting agent, RFS is responsible for maintaining the books and records of the Fund’s securities and cash. RFS receives a fund accounting fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund.

Managed Assets	Rate
First \$200,000,000	0.0300%
Next \$300,000,000	0.0150%
Next \$500,000,000	0.0100%
Over \$1,000,000,000	0.0075%
Minimum Annual Charge	\$50,000
Certain out-of-pocket charges	Varies

#### Note 4 – Fair Value Measurement:

In accordance with U.S. GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

The following table represents the Fund's investments carried on the Statement of Assets and Liabilities by caption and by level within the fair value hierarchy at November 30, 2014.

Description	Level 1	Level 2	Level 3	Total
<b>Assets</b>				
Common Stocks	\$2,267,922	\$–	\$229,590	\$2,497,512
Preferred Stocks	6,131,200	–	–	6,131,200
Corporate Bonds	–	110,084,324	3,920,765	114,005,089
<b>Senior Floating</b>				
Rate Interests	–	57,796,361	9,394,403	67,190,764

<b>Unfunded</b>				
Commitments	–	85,175	–	85,175
<b>Forward Exchange</b>				
<b>Currency</b>				
Contracts	–	188,236	–	188,236
<b>Total</b>				
Assets	\$12,646,633	\$187,989,221	\$13,544,758	\$214,180,612
<b>Liabilities</b>				
<b>Forward Exchange</b>				
<b>Currency</b>				
Contracts	\$–	\$11,465	\$–	\$11,465

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by the Board of Trustees. In any event, values are determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

The following is a summary of the significant unobservable input used in the fair valuation of assets and liabilities categorized within the Level 3 of the fair value hierarchy:

Category	Ending Balance at 11/30/2014	Valuation Technique	Unobservable Inputs
Common Stock	\$ 229,590	Enterprise Value	Indicative Quote
Corporate Bonds	2,632,440	Enterprise Value	Indicative Quote
Corporate Bonds	1,288,325	Monthly Broker Quote	Indicative Quote
Senior Floating Rate Interests	474,520	Broker Mark	Indicative Quote
Senior Floating Rate Interests	8,919,883	Enterprise Value	Valuation Multiple*

\* Valuation multiples utilized ranged from 3.4 to 14.2.

Significant changes in an indicative quote or valuation multiple would generally result in significant changes in the fair value of the security.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current period. The fund had securities with a total value of \$3,880,432 transferred from Level 3 to Level 2 due to availability of market price information at the period end.

The transfers in and out of the valuation levels as of November 30, 2014, compared to the valuation levels at the end of the previous fiscal year are detailed below.

#### Summary of Fair Value of Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the six months ended November 30, 2014:

## LEVEL 3 – Fair Value measurement using significant unobservable inputs

Beginning Balance at 5/31/14	
Asset Backed Securities	\$ 3,880,432
Senior Floating Rate Interests	6,313,152
Corporate Bonds	1,318,110
Purchases	
Senior Floating Rate Interests	5,965,927
Common Stock	229,590
Corporate Bonds	2,632,440
Paydowns Received	
Senior Floating Rate Interests	(2,597,231)
Realized Gain/Loss	
Senior Floating Rate Interests	(10,929)
Change in Unrealized Gain/Loss	
Senior Floating Rate Interests	(276,516)
Corporate Bonds	(29,785)
Transfers Out of Level 3	
Asset Backed Securities	(3,880,432)
Ending Balance at 11/30/14	
Senior Floating Rate Interests	9,394,403
Common Stock	229,590
Corporate Bonds	3,920,765
Total Level 3 holdings	\$ 13,544,758

## Note 5 – Federal Income Taxes:

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

The Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund’s annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year.

As of November 30, 2014, the cost of investments and accumulated unrealized appreciation/depreciation on investments for federal income tax purposes were as follows:

Cost of Investments for Tax Purposes	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Depreciation on Investments
\$215,462,575	\$2,683,654	\$(4,239,028)	\$(1,555,374)

The net tax unrealized appreciation on unfunded commitments is \$85,175.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

The differences between book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the tax deferral of losses on wash sales and mark to market on forward exchange currency contracts.

As of May 31, 2014, (the most recent fiscal year end for federal income tax purposes) the components of accumulated earnings/(losses) (excluding paid-in capital) on a tax basis were as follows:

Undistributed Ordinary Income	Accumulated Long-Term Gains	Net Unrealized Appreciation
\$2,749,360	\$ –	\$3,279,709

For the year ended May 31, 2014, (the most recent fiscal year end for federal income tax purposes) the tax character of distributions paid to shareholders as reflected in the statement of changes in net assets was as follows:

Distributions paid from Ordinary Income	\$9,698,371
--	-------------

For all open tax years and all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Fund's tax returns that would not meet a more-likely-than-not threshold of being sustained by the applicable tax authority and would be recorded as a tax expense in the current year. Open tax years are those that are open for examination by taxing authorities (i.e. generally the last four tax year ends and the interim tax period since then).

#### Note 6 – Investments in Securities:

During the six months ended November 30, 2014, the cost of purchases and proceeds from sales of investments, excluding short-term investments were \$78,462,417 and \$55,966,568, respectively.

#### Note 7 – Derivatives:

##### (a) Forward Exchange Currency Contracts

A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts would be included in net realized gain or loss on foreign currency transactions. Risk may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

At November 30, 2014, the following forward exchange currency contracts were outstanding:

Contracts to Buy	Counterparty	Settlement Date	Settlement Value	Value at 11/30/14	Net Unrealized Appreciation (Depreciation)
AUD	550,000				
for USD	479,215	12/05/2014	\$479,215	\$467,750	\$ (11,465)

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

Total unrealized appreciation for forward exchange currency contracts						\$ 176,771

(b) Summary of Derivatives Information

The Fund is required by GAAP to disclose: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge fund items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows.

The following table presents the types of derivatives in the Fund by location as presented on the Statement of Assets and Liabilities at November 30, 2014.

Primary Risk Exposure	Statement of Asset and Liabilities Presentation of Fair Values of Derivative Instruments (\$000s):			
	Asset Derivatives		Liability Derivatives	
	Statement of Assets and Liabilities	Fair Value	Statement of Assets and Liabilities	Fair Value
	Unrealized appreciation on forward exchange currency contracts	\$188	Unrealized depreciation on forward exchange currency contracts	\$11

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

Average Settlement Value Purchased	\$ 4,013,036
Average Settlement Value Sold	3,406,724
Ending Settlement Value Purchased	479,215
Ending Settlement Value Sold	15,238,678

In December 2011, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) No. 2011-11: Disclosures about Offsetting Assets and Liabilities on the Statements of Assets and Liabilities that are subject to master netting arrangements or similar agreements. ASU 2011-11, was amended by ASU No. 2013-01, clarifying which investments and transactions are subject to the netting disclosure. The scope of the disclosure requirements is limited to derivative instruments, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions to the extent they are subject to an enforceable master netting arrangement or similar agreement. This information will enable users of the Funds’ financial statements to evaluate the effect or potential effect of netting arrangements on the Funds’ financial position. The ASU is effective for financial statements with fiscal years beginning on or after January 1, 2013, and interim periods within those fiscal years. The Funds adopted the disclosure requirement on netting for the current reporting period. For financial reporting purposes, the Funds do not offset financial assets and financial liabilities across derivative types that are subject to master netting arrangements or similar agreements on the Statement of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statement of Assets and Liabilities. As of November 30, 2014, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/offsetting provisions are detailed in the following table.

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of	Gross Amounts	Net Amount
			Assets Presented in the Statement of Assets and Liabilities	Not Offset in the Statement of Assets and Liabilities	
Forward Exchange Currency Contract	\$188,236	\$ –	\$188,236	\$11,465	\$176,771

Net Amounts of      Gross Amounts

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

Description	Gross Amounts of Recognized Liabilities	Gross Amounts in the Statement of Assets and Liabilities	Offset of Assets and Liabilities	Liabilities Presented in the Statement of Assets and Liabilities	Not Offset in the Statement of Assets and Liabilities	Net Amount
Reverse Repurchase Agreements	\$61,472,978		\$ –	\$61,472,978	\$61,472,978	\$ –
Forward Exchange Currency Contract	11,465		–	11,465	11,465	–

Note 8 – Leverage:

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. For the six months ended November 30, 2014, the average daily balance for which reverse repurchase agreements were outstanding amounted to \$57,183,622. The weighted average interest rate was 0.71%. At November 30, 2014, there was \$61,472,978 in reverse repurchase agreements outstanding.

At November 30, 2014, the Fund had outstanding reverse repurchase agreements with various counterparties. Details of the reverse repurchase agreements by counterparty are as follows:

Counterparty	Range of Interest Rates	Range of Maturity Dates	Face Value
Barclays Capital, Inc.	0.75% - 0.95%	12/04/14 – 02/03/15	\$26,283,039
Bank of America	0.75%	12/04/14 – 12/18/14	8,598,063
Citigroup, Inc.	0.75%	12/16/14 – 12/18/14	4,560,281
Credit Suisse Securities LLC	0.75% - 0.95%	12/05/14 – 02/20/15	15,909,000
Royal Bank of Canada	0.80% - 0.95%	12/29/14 – 02/10/15	6,122,595
			\$61,472,978

There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

## Note 9 – Loan Commitments:

Pursuant to the terms of certain Term Loan agreements, the Fund held unfunded loan commitments as of November 30, 2014. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund reserves against such contingent obligations by designating cash, liquid securities, and liquid term loans as a reserve. As of November 30, 2014, the total amount segregated in connection with reverse repurchase agreements and unfunded commitments was \$96,522,288. The unrealized appreciation on these commitments of \$85,175 as of November 30, 2014 is reported as "Unrealized appreciation on unfunded commitments" on the Statement of Assets and Liabilities.

At November 30, 2014, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower	Expiration Date	Principal Amount	Unrealized Appreciation
Acosta, Inc.	09/26/2019	\$ 888,889	\$ (4,098)

## Note 10 – Capital:

## Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

In connection with its organization process, the Fund sold 4,189 shares of beneficial interest to Guggenheim Funds Distributors, LLC, an affiliate of the Adviser, for consideration of \$100,012 at a price of \$23.88 per share. The Fund issued 6,000,000 shares of common stock in its initial public offering. These shares were issued at \$23.88 per share after deducting the sales load but before underwriters' expense reimbursement.

In connection with the initial public offering of the Fund's common shares, the underwriters were granted an option to purchase additional common shares. The underwriters purchased, at a price of \$23.88 per common share (after deducting the sales load but before offering expenses incurred by the Fund), 625,000 common shares of the Fund and 125,000 common shares on July 19, 2013, and August 13, 2013, respectively, pursuant to the over-allotment option.

Offering costs, estimated at \$331,250 or \$0.05 per share, in connection with the issuance of common shares have been borne by the Fund and were charged to paid-in capital. The Adviser and GPIM have agreed to pay offering expenses (other than sales load, but including reimbursement of expenses to the underwriters) in excess of \$0.05 per common share.

### Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and 6,629,480 issued and outstanding.

Transactions in common shares were as follows:

	Six Months Ended November 30, 2014	Period Ended May 31, 2014
Beginning Shares	6,629,189	—
Common shares issued through organization process	—	4,189
Common shares issued through underwritten offering	—	6,000,000
Common shares issued through over-allotment option	—	625,000
Common shares issued through dividend reinvestment	291	—
Ending shares	6,629,480	6,629,189

### Note 11 – Indemnifications:

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would require future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

### Note 12 – Subsequent Event:

The Fund evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require disclosure in the Fund's financial statements, except as noted below.

On December 1, 2014, the Fund declared a monthly dividend of \$0.1813 per common share. The dividend was payable on December 31, 2014, to shareholders of record on December 15, 2014.

On January 2, 2015, the Fund declared a monthly dividend of \$0.1813 per common share. The dividend is payable on January 30, 2015, to shareholders of record on January 15, 2015.

DIVIDEND REINVESTMENT PLAN (Unaudited) November 30, 2014

Unless the registered owner of common shares elects to receive cash by contacting the Computershare Shareowner Services LLC (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will

Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Shareowner Services LLC, P.O. Box 30170 College Station, TX 77842-3170; Attention: Shareholder Services Department, Phone Number: (866) 488-3559.

Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how the Fund protects that information and why, in certain cases, the Fund may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

## Edgar Filing: Guggenheim Credit Allocation Fund - Form N-CSRS

The Fund restricts access to non-public personal information about its shareholders to employees of the Fund's investment advisor and its affiliates with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

Questions concerning your shares of Guggenheim Credit Allocation Fund?

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Fund's Transfer Agent: Computershare Shareowner Services LLC, P.O. Box 30170 College Station, TX 77842-3170; (866) 488-3559.

This report is sent to shareholders of Guggenheim Credit Allocation Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (800) 345-7999.

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (800) 345-7999, by visiting the Fund's website at [guggenheiminvestments.com/ggm](http://guggenheiminvestments.com/ggm) or by accessing the Fund's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at [www.sec.gov](http://www.sec.gov).

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at [www.sec.gov](http://www.sec.gov) or by visiting the Fund's website at [guggenheiminvestments.com/ggm](http://guggenheiminvestments.com/ggm). The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330 or at [www.sec.gov](http://www.sec.gov).

### Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market.

## ABOUT THE FUND MANAGER

### Guggenheim Partners Investment Management, LLC

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

### Investment Philosophy

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

### Investment Process

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.
