Letter to Shareholders

June 15, 2001

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Australia Equity Fund, Inc. (formerly known as The First Australia Fund, Inc.) (the "Fund") for the six months ended April 30, 2001. Included in this report is a review of the Australian economy and investment markets, together with an overview of the Fund's investments prepared by the Investment Manager, Aberdeen Asset Managers (C.I.) Limited.

Quarterly distribution rate

For the 12 months ended April 30, 2001, the Fund paid a total of 75 cents per share, which equates to an annualized cash distribution rate of 13.3%, based upon the share price of \$5.66 as of April 30, 2001. The cash distribution for the current quarter of 17 cents per share was paid on April 12, 2001.

Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those US investors who are able to claim a tax credit. The Fund makes quarterly distributions at an annual rate of not less than 9% of the rolling average of the Fund's prior four quarter-end Net Asset Values ("NAV"). On June 13,

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

2001, the Board of Directors declared a quarterly distribution of 16.25 cents per share. Consistent with the Fund's distribution policy, the Board of Directors intends to review the distribution policy at its next regularly scheduled meeting in September 2001.

Net Asset Value Performance

For the six months ended April 30, 2001, the Fund's NAV return was 0.64% after expenses (assuming reinvestment of distributions) compared with a 2.1% increase, in US dollar terms, in the Benchmark (S&P/ASX 200 Accumulation Index). In Australian dollar terms, the Fund's NAV increased by 2.7%, compared with a rise of 4.0% in the Benchmark. The Australian dollar depreciated slightly over the six-month period, to close at US\$0.51.

Aberdeen Australia Equity Fund, Inc. 3

Letter to Shareholders (continued)

Share Price Performance

The Fund's share price fell over the six months, from \$5.88 on October 31, 2000 to \$5.66 on April 30, 2001. The discount to the NAV of \$6.50 on April 30, 2001 has narrowed over the six months, to 12.9%.

Shareholders Elect Directors

At the Annual Meeting of Shareholders, Mr. Anthony E. Aaronson, Mr. Neville J. Miles, Mr. Peter D. Sacks and Mr. John T. Sheehy were elected by the holders of the Fund's common stock as Class I Directors to serve for a three-year term.

Buy-Back Program

On March 19, 2001, the Fund announced the approval of a buy-back program. Purchases of shares under this program commenced on June 6, 2001, and as of the date of this Report, 27,200 shares have been repurchased.

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

Your Board's policy is to provide investors with a stable quarterly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the US dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31.

However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2000, including the distribution paid on April 12, 2001, are made up of 41% net investment income and 59% return of paid-in capital.

This estimated distribution composition will vary from quarter to quarter because it may be materially impacted by future realized gains and losses on securities and on fluctuations in the value of the currencies in which Fund assets are denominated.

In January 2002, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

5 Aberdeen Australia Equity Fund, Inc.

Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan"), which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement, State Street Bank & Trust Company (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case, the Fund will issue additional shares.

As a participant in the Plan, you will have the convenience of:

Automatic reinvestment - the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs - shares are purchased on your behalf under the

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

Plan at low brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience - the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact State Street Bank & Trust Company, P.O. Box 8200, Boston MA 02266 or toll free at 1-800-451-6788.

Report of the Investment Manager

Investment Strategy

During the six months ended April 30, 2001, the Fund invested some of the cash that it had accumulated over the quarter ended January 31, 2001 and took profits on some of its investments as they reached target valuations. With the global economy showing signs of slowing, the Fund decreased its exposure to the Resources sector during January.

As of April 30, 2001, the Fund has increased its holdings of Industrial Equities. The Manager believes that the industrial stocks held in the portfolio will continue to represent high growth prospects and consistent dividend income. In the current economic environment, the Manager believes that defensive stocks provide the potential source of outperforming the Benchmark.

Portfolio Composition

The following chart summarizes the composition of the Fund's portfolio, expressed as a percentage of net assets. On April 30, 2001, the Fund held 83% of its net assets in industrial stocks, 15% in resource stocks, and 2% in cash.

Market Review and Outlook

Economy

Economic growth in Australia decelerated sharply through the second half of 2000. This was primarily due to the pull-forward of economic activity into the first half of 2000, following the introduction of a goods and services tax. Through the year 2000, the composition of growth in the Australian economy changed, with a strong external sector taking over from the slowing domestic interest-sensitive sectors.

After maintaining steady policy since mid-2000, the Reserve

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

Bank of Australia ("RBA") commenced its easing cycle in February 2001, suggesting a willingness to act aggressively in the face of a softer global environment, in line with other global central banks.

The Investment Manager anticipates that through the coming year the Australian economy is likely to see the sources of growth rotate again, as export growth eases and the housing sector builds on recent signs of recovery following the sharp slowdown experienced in the first few months of 2001.

Stock Market

The Australian stock market rose by 4.0% over the six months ended April 30, 2001, with a 16.32% increase in the Resources sector in Australian dollar terms. Large market capitalization stocks are expected to continue to post solid returns, boosted by the competitive position of the Australian dollar and diversified earnings bases.

Industrial stocks are likely to outperform their resources counterparts in coming months as the global growth cycle enters its mature stages.

Currency

Short-term interest rate differentials have now moved back in the Australian dollar's favor, as a result of the US Federal Reserve Bank having aggressively cut the Fed Funds rate to 4.5%. As the market continues to anticipate a more aggressive easing cycle in the US than domestically, it is expected that interest rate differentials should lend support to the Australian currency in 2001.

The Australian dollar weakened over the six month period, closing at US\$0.51.

primarily in equity securities of Australian companies listed on The Australian Stock Exchange. The Fund's secondary investment objective is current income. It is expected that normally at least 65% of the Fund's total assets will be invested in equity securities listed on The Australian Stock Exchange and that current income will be derived primarily from dividends and interest on Australian corporate and governmental securities. The ability of issuers of debt securities, including foreign currency balances on deposit with the Fund's Australian subcustodian bank, held by the Fund to meet their obligations may be affected by economic or political developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation:

The financial statements of the Fund are prepared in accordance with United States generally accepted accounting principles using the United States dollar as both the functional and reporting currency.

Security Valuation:

Investments are stated at value. Investments for which market quotations are readily available are valued at the last reported sales prices. If there is no sales price on the date of valuation, then investments are valued at the most recently available sales price or at fair value as determined in good faith by or under the direction of the Fund's Board of Directors.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost.

Repurchase Agreements:

In connection with transactions in repurchase agreements with United States financial institutions, it is the Fund's policy that its custodian or designated subcustodians under triparty repurchase agreements, as the case may be, take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction,

Aberdeen Australia Equity Fund, Inc. 17

Notes to Financial Statements (unaudited) (continued)

including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation:

Australian dollar ('A\$') amounts are translated into United States dollars ('US\$') on the following basis:

(i) market value of investment securities, other assets and liabilities--at the exchange rates at the end of the reporting period; and

(ii) purchases and sales of investment securities, income and expenses--at the rate of exchange prevailing on the respective dates of such transactions. The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at April 30, 2001. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

Net realized and unrealized foreign exchange losses of \$1,989,480 for the six months ended April 30, 2001 includes realized foreign exchange gains and losses from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the United States dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated net realized and unrealized foreign exchange losses shown in the composition of net assets at April 30, 2001 represent foreign exchange losses for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the United States dollar.

The exchange rate at April 30, 2001 was US\$0.51 to A\$1.00 for the Australian dollar.

Notes to Financial Statements (unaudited) (continued)

Securities Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Expenses are recorded on the accrual basis which may require the use of certain estimates by management. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Dividends and Distributions:

It is the Fund's current policy to pay regular quarterly distributions at an annual rate, which is a percentage of the rolling average of the Fund's prior four quarter-end net asset values. The distributions will be made from net investment income, net realized capital gains and, to any extent necessary, paid-in capital. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. These differences are primarily due to differing treatments for foreign currencies.

Taxes:

For federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the Australian dollar as the functional currency. Accordingly, only realized currency gains and losses resulting from the repatriation of Australian dollars into United States dollars are recognized for tax purposes.

No provision has been made for United States income taxes because it is the Fund's policy to continue to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Australia imposes a withholding tax of 15% on certain dividends and 10% on certain interest.

Securities Lending:

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

The Fund may lend its securities to approved borrowers. The loans are secured by collateral at least equal at all times to the market value of the securities loaned. The Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The Fund receives compensation for lending its securities in the form of fees or it retains a portion of interest on the investment of any cash

Aberdeen Australia Equity Fund, Inc. 19

Notes to Financial Statements (unaudited) (continued)

received as collateral. The Fund also continues to receive interest and dividends on the securities loaned and any gain or loss in the market price of the securities loaned that may occur during the term of the loan will be for the account of the Fund.

Note 2. Agreements

Aberdeen Asset Managers (C.I.) Limited (formerly known as EquitiLink International Management Limited) (the 'Investment Manager') serves as investment manager to the Fund and Aberdeen Asset Management Limited (formerly known as EquitiLink Australia Limited) (the 'Investment Adviser') serves as investment adviser to the Fund pursuant to a management agreement and an advisory agreement, respectively, each dated December 22, 2000. The Investment Manager and the Investment Adviser are wholly owned subsidiaries of Aberdeen Asset Management PLC.

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The Investment Manager pays fees to the Investment Adviser for its services rendered. The Investment Manager informed the Fund that it paid \$151,995 to the Investment Adviser during the six months ended April 30, 2001.

The management agreement provides the Investment Manager with a fee, computed weekly and payable monthly, at the following annual rates: 1.10% of the Fund's average weekly net assets up to \$50 million, 0.90% of such assets between \$50 million and \$100 million and 0.70% of such assets in excess of \$100 million. Prudential Investments Fund Management LLC (the 'Administrator') serves as administrator to the Fund pursuant to an agreement dated December 11, 1987 which provides the Administrator with a fee at the annual rate of the greater of \$25,000 or 0.05% of the Fund's average weekly net assets.

Under terms of an Investor Relations Services Agreement, EquitiLink USA, Inc. (doing business under the name Aberdeen Asset Management ('Aberdeen')), a wholly owned subsidiary of the Investment Manager, serves as the Fund's investor relations agent. This agreement provides Aberdeen with a monthly retainer fee of \$5,000 plus out of pocket expenses up to \$3,000 per year. During the six months ended April 30, 2001, the Fund incurred fees of approximately \$30,000 for the services of Aberdeen. As of April 30, 2001,

20 Aberdeen Australia Equity Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

\$5,000 was due to Aberdeen. Investor relations expenses in the Statement of Operations include certain out-of-pocket expenses.

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended April 30, 2001 aggregated \$61,574,324 and \$68,887,439, respectively.

As of April 30, 2001, the Fund had securities on loan with an aggregate market value of \$2,700,116. As of this date, the collateral held for securities on loan was comprised of U.S. Treasury securities with an aggregate market value of \$2,922,093.

The United States federal income tax basis of the Fund's investments at April 30, 2001 was \$104,445,849 and accordingly, net unrealized appreciation for United States federal income tax purposes was \$7,393,562 (gross unrealized appreciation--\$16,462,979; gross unrealized depreciation--\$9,069,417).

Note 4. Capital

There are 20 million shares of \$.01 par value common stock authorized. At April 30, 2001 there were 17,189,998 shares issued and outstanding.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its common stock in the open market over a 12 month period if and when its discount to net asset value exceeds 10%. Through April 30, 2001, there have been no share repurchases under this program.

Note 5. Dividends And Distributions

The Board of Directors of the Fund declared on June 13, 2001 a dividend of \$0.1625 payable on July 13, 2001 to shareholders of record on June 29, 2001. Distributions may be comprised of a combination of investment income, realized capital gains, and to the extent necessary, paid in capital.

Note 6. Beneficial Ownership; Change of Control

On January 18, 2001, Mira L.P. ('Mira') acquired an aggregate of 2,742,461 shares of common stock of the Fund from EquitiLink Holdings Limited, EquitiLink Limited, EquitiLink International Management Limited and EquitiLink USA, Inc. (collectively, the 'Sellers', all of which were then affiliated with the Fund), pursuant to a Stock Purchase Agreement dated as of November 10, 2000 by and between Mira and the Sellers. As of April 30, 2001, Mira is the beneficial owner of 31.7% of the outstanding shares of the Fund.

Other Information (unaudited)

Dividend Reinvestment and Cash Purchase Plan. Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares pursuant to the Fund's Dividend Reinvestment and Cash Purchase Plan (the 'Plan'). Generally, shareholders who do not participate in the Plan will receive distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent.

Shareholders who wish to participate in the Plan should contact the Fund at (800) 451-6788.

State Street Bank & Trust Co. (the 'Plan Agent') serves as agent for the shareholders in administering the Plan. Dividends and capital gains distributions payable to Plan participants will be promptly invested. If the Plan declares an income dividend or capital gains distribution payable in stock to shareholders who are not Plan participants, then Plan participants will receive that dividend or distribution in newly issued shares on identical terms and conditions.

In every other case Plan participants will receive shares on the following basis: If the market price of the Fund's common stock plus any brokerage commission is equal to or exceeds net asset value, Plan participants will receive newly issued shares valued at the greater of net asset value or 95% of current market price. If, on the other hand, the net asset value plus any brokerage commission exceeds the market price, the Plan Agent will buy shares in the open market. If the market price plus any applicable brokerage commission exceeds net asset value before the Plan Agent has completed its purchases, the Fund will issue new shares to complete the program. All reinvestments are in full and fractional shares carried to three decimal places.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends and distributions.

Aberdeen Australia Equity Fund, Inc. 25

Other Information (unaudited) (continued)

The Plan also allows participants to make optional cash investments of at least \$100 in Fund shares as frequently as monthly through the Plan Agent on the open market. Participants must pay a service fee of \$0.75 for each investment and a

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-30D

pro rata share of the brokerage commissions.

The Fund reserves the right to amend or terminate the Plan either in full or partially upon 90 days' written or telephone notice to shareholders of the Fund. Participants in the Plan may withdraw some or all of their shares from the Plan upon written notice to the Plan Agent and will receive certificates for whole shares and cash for fractional shares. In the alternative, by giving proper notice to the Plan Agent, participants may receive cash in lieu of shares in an amount which is reduced by brokerage commissions in connection with the sale of shares and a \$2.50 service fee.

All correspondence concerning the Plan should be directed to the Plan Agent, State Street Bank & Trust Company, P.O. Box 8200, Boston, MA 02266-8200.
