Letter to Shareholders

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

June 13, 2003

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Australia Equity Fund, Inc. (the "Fund") for the six months ended April 30, 2003. The Fund's principal investment objective is long-term capital appreciation through investment primarily in equity securities of Australian companies listed on the Australian Stock Exchange. The Fund's secondary investment objective is current income.

Quarterly Distribution Rate

A cash distribution for the current quarter of 2.5 cents per share was paid on April 11, 2003.

The Board's policy is to provide investors with a stable quarterly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. This policy is subject to regular review at the Board's quarterly meetings. The next review is scheduled to take place in September 2003.

On an annual basis the Fund intends to distribute its net realized capital gains, if any, by way of a final distribution to be declared during the calendar quarter ending December 31, 2003.

Net Asset Value Performance

For the six months ended April 30, 2003 the Fund's total return based on NAV was 12.4% after expenses (assuming reinvestment of distributions) compared with 13.7%, in U.S. dollar terms, for the S&P/ASX 200 Accumulation Index.

Share Price Performance

The Fund's share price rose 11.2% over the six months, from \$5.73 on October 31, 2002 to \$6.37 on April 30, 2003. The Fund's share price on April 30, 2003 represented a discount of 15.5% to the NAV per share of \$7.54 on that date. On October 31, 2002, the discount to NAV was 16.2%. At the date of this report the share price was \$7.15, representing a discount of 13.0% to the NAV of \$8.22.

Buy-Back Program

On March 19, 2001 the Fund announced the approval of a share buy-back program. Purchases of shares under this program commenced on June 6, 2001 and as of the date of this report 412,700 shares have been repurchased.

Corporate Governance

In January 2003 the Fund's Board of Directors adopted amended and restated bylaws to enhance corporate governance,

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

including bylaws with respect to the qualification of directors and procedural provisions with respect to the conduct of stockholder meetings, and the Board of Directors determined to be subject to the provisions of the Maryland Control Share Acquisition Act. Any stockholder who would like a copy of the Fund's charter or bylaws may obtain a copy from the Securities and Exchange Commission ("SEC") by calling the SEC at (202) 942-8090 or e-mailing the SEC at publicinfo@sec.gov, or from the Fund.

Results of Annual Meeting of Shareholders

At the Annual Meeting of Shareholders held on Tuesday, April 15, 2003 (the "Annual Meeting"), Messrs. David L. Elsum, Laurence S. Freedman, Peter J. O'Connell and William J. Potter were elected by the holders of the Fund's common stock as Class III Directors to serve for a three-year term expiring at the 2006 Annual Meeting of Shareholders.

At the Annual Meeting, shareholders overwhelmingly approved proposals affording the Fund the flexibility to leverage by issuing preferred stock or debt obligations, and a proposal to amend the Fund's Management Agreement and Investment Advisory Agreement to provide that fees paid under those agreements will be based on managed assets attributable to both its common stock and any senior securities.

At the Annual Meeting, the holders of only 38.1% of the Fund's outstanding shares voted with respect to a shareholder proposal, with 19.6% voting for and 18.5% voting against the proposal. The shareholder proposal asked the Board to consider steps to permit shareholders to realize net asset value for their shares. At the request of the Board of Directors, the Investment Manager prepared a Report analyzing whether or not it would be advisable to convert the Fund to an open-end structure or to pursue another alternative strategy that might provide shareholders the opportunity to realize net asset value for their shares. In the Report, attention was given to the impact of open-ending or such other alternative strategies, on the Fund's investment objective, net asset value, earnings and distributions, expense ratios, investment performance and management. The Report was considered by the Board of Directors at its regularly scheduled meeting in June 2003. The Board of Directors has determined that it is currently not in the interests of the Fund or its shareholders to convert the Fund to an open-end structure. The Board believes that a better way in which Fund shareholders may realize additional value for their shares is through the proposed tender offer discussed below.

Intention to Conduct Tender Offer

On February 19, 2003 the Fund, as part of its continuing efforts to increase stockholder value, announced its intention to conduct an in-kind tender offer to repurchase up to 40% of the Fund's outstanding shares at a price of 90% of the Fund's net asset value per share. The Fund has submitted a request for a private letter ruling from the United States Internal

2 Aberdeen Australia Equity Fund, Inc.

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

Letter to Shareholders (continued)

Revenue Service ("IRS") to the effect that the Fund will not recognize any gain or loss on the repurchase of its shares pursuant to the tender offer. The announcement of the proposed tender offer indicated that the Fund's Board of Directors contemplated that the tender offer will commence in June 2003, with the expectation that the Fund may have received by that time the private letter ruling from the IRS.

The Fund is aware that one large shareholder of the Fund cannot participate in the proposed tender offer without obtaining exemptive relief from the Securities and Exchange Commission, and that such shareholder has applied to the Securities and Exchange Commission for this relief. As previously announced by the Fund, the Board of Directors will attempt to coordinate the timing of the tender offer to enable all shareholders to participate in the tender offer.

Full Value Partners, L.P. ("Full Value") filed a purported class action on behalf of the Fund's stockholders, in Newark, New Jersey federal court in March 2003 against both the Fund and its Board of Directors. Full Value alleges claims under various provisions of the Investment Company Act of 1940 as well as under Maryland common law for purported breaches of fiduciary duty owed to the stockholders and alleged failures to disclose purportedly material information for purposes of the proxy statement related to the Fund's 2003 Annual Meeting of Stockholders. Full Value seeks injunctive relief enjoining (i) the effectuation of the proposed tender offer, (ii) the enforcement of certain recently adopted bylaw amendments, and (iii) overturning any "wrongful election" of directors of the Fund. Unspecified damages, as well as costs and legal fees, are also referenced. The Fund and its directors believe that the claims are without merit and intend to defend the claims vigorously. The Fund has filed a motion to dismiss the complaint.

In an effort to provide more timely information to shareholders, the market review and outlook will now be published separately.

All amounts are U.S. dollars unless otherwise stated.

Aberdeen Australia Equity Fund, Inc. 3

Your Board's policy is to provide investors with a stable quarterly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2002, including the distribution paid on April 11, 2003, are entirely comprised of net investment income.

This estimated distribution composition may vary from quarter to quarter because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

In January 2004, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan ("the Plan"), which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement EquiServe Trust Company, N.A. (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case the Fund will issue additional shares.

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

As a Participant in the Plan, you will have the convenience of:

Automatic reinvestment - the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs - shares are purchased on your behalf under the Plan at low brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience - the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact the Plan Agent, EquiServe Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011 or toll free on 1-800-451-6788.

Aberdeen Australia Equity Fund, Inc. 11

Notes to Financial Statements (unaudited)

Aberdeen Australia Equity Fund, Inc. (the 'Fund') is a closed-end, non-diversified management investment company incorporated in Maryland on September 30, 1985. The Fund's principal investment objective is long-term capital appreciation through investment primarily in equity securities of Australian companies listed on The Australian Stock Exchange. The Fund's secondary investment objective is current income. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

investment policy that, for as long as the name of the Fund remains Aberdeen Australia Equity Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in equity securities, consisting of common stock, preferred stock and convertible stock, listed on The Australian Stock Exchange. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders.

The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic or political developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation:

The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America using the United States dollar as both the functional and reporting currency.

Securities Valuation:

The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the 'Procedures') to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked price on the date of determination as obtained from a pricing source. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost. Securities for which

12 Aberdeen Australia Equity Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

market quotations are not readily available are valued at fair value in good faith using methods set forth in the Procedures.

Repurchase Agreements:

In connection with transactions in repurchase agreements with United States financial institutions, it is the Fund's policy that its custodian or designated subcustodians under triparty repurchase agreements, as the case may be, take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation:

Australian dollar ('A\$') amounts are translated into United States dollars ('US\$') on the following basis:

(i) market value of investment securities, other assets and liabilities--at the

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

exchange rates at the end of the reporting period; and

(ii) purchases and sales of investment securities, income and expenses--at the rate of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at April 30, 2003. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net realized and unrealized foreign exchange gains (losses) include realized foreign exchange gains (losses) from sales and maturities of portfolio securities, sales of foreign currencies, currency gains (losses) realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the United States dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains (losses) in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated net realized and unrealized foreign exchange gains (losses)

Aberdeen Australia Equity Fund, Inc. 13

Notes to Financial Statements (unaudited) (continued)

shown in the composition of net assets at April 30, 2003 represent foreign exchange gains (losses) for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the United States dollar.

The exchange rate at April 30, 2003 was US\$0.63 to A\$1.00 for the Australian dollar.

Securities Transactions and Net Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains or losses from security and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date and interest income including the amortization of premiums or accretion of discounts on debt securities is recorded on an accrual basis. Expenses are recorded on the accrual basis. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Dividends and Distributions:

It is the Fund's current policy to pay quarterly distributions from net investment income, which may be supplemented by net realized capital gains and, to the extent necessary, return of paid-in capital. On an annual basis, the Fund intends to distribute its net realized capital gains, if any, by way of a final distribution to be declared during the calendar quarter ending December 31. Dividends and distributions to shareholders are recorded on the ex-dividend date.

Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form N-CSR

principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies.

Taxes:

For federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the Australian dollar as the functional currency. Accordingly, only realized currency gains or losses resulting from the repatriation of Australian dollars into United States dollars are recognized for tax purposes.

It is the Fund's policy to continue to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its

14 Aberdeen Australia Equity Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

taxable net income and capital gains, if any, to shareholders. Therefore, no provision for United States income taxes is required. Australia imposes a withholding tax of 15% on certain dividends and 10% on certain interest.

Securities Lending:

The Fund may lend its portfolio securities to qualified institutions. The loans are secured by collateral in the form of other securities at least equal, at all times, to the market value of the securities loaned. The Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The Fund receives compensation for lending its securities in the form of fees or it retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive dividends on the securities loaned and any gain or loss in the market price of the securities loaned that may occur during the term of the loan will be for the account of the Fund.
