**México D.F., February 22, 2006 Grupo Aeroportuario del Sureste, S.A. de C.V. (NYSE:ASR; BMV:ASUR),** (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight others in the southeast of Mexico, today announced results for the three months and fiscal year ended December 31, 2005.

<sup>1</sup> Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Generally Accepted Accounting Principles in Mexico, expressed in constant Mexican pesos as of December 31, 2005, and represent comparisons between the three-month period ended December 31, 2005, and the equivalent three-month period ended December 31, 2004. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps.10.6344.

## Passenger Traffic

---

For 4Q05, total passenger traffic declined year-over-year by 33.07%; domestic passenger traffic fell by 6.69% and international passenger traffic fell by 51.65%. ASUR's management believes that the 48.36% and 74.56% declines in total passenger traffic to Cancun and Cozumel during the quarter were largely the result of the impact of Hurricane Wilma, which struck the Yucatan Peninsula on October 20 2005.

Cancun airport serves flights originating in or flying to Cancun as well as the Mayan Riviera. Of the 27,484 hotel rooms available in Cancun before Hurricane Wilma, only 10,918 or 39.72% were operating at year-end. Of the original 25,170 rooms available in the Mayan Riviera, 22,836 or 90.73% were operating at year-end.

For additional details regarding the impact of this hurricane on ASUR's operations, please refer to page 11 of this report.

The 6.69% decline in overall domestic passenger traffic mainly reflects declines of 28.80% and 58.08% in domestic traffic at Cancun and Cozumel airports respectively.

The 51.65% drop in international passenger traffic resulted mainly from declines of 54.28% and 79.45% in international traffic at Cancun and Cozumel airports respectively.

For fiscal year 2005, total passenger traffic declined 4.14%, with international passenger traffic down 5.39% and domestic passenger traffic down 2.14%.

## Consolidated Results for 4Q05

---

**Total revenues** for 4Q05 declined year-over-year by 32.57% to Ps.324.5 million. This was mainly due to:

A decrease of 36.33% in revenues from aeronautical services, principally as a result of the above-mentioned decline in passenger traffic.

A decline of 21.78% in revenues from non-aeronautical services, principally as a result of the 26.28% decline in commercial revenues, which were also negatively impacted by Hurricane Wilma.

ASUR classifies revenues from the following activities as commercial revenues: duty free, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage facilities, and parking lots.

**Commercial revenues** declined year-over-year by 26.28%, mainly due to the impact of Hurricane Wilma in October 2005:

- A 16.53% decline in food and beverage revenues,
- A 39.51% decline in retail revenues,
- A 41.75% decline in revenue from car rental companies, and
- A 34.66% decline from revenue from banking and currency exchange services.

This was partially offset by:

- A 19.05% increase in advertising revenues, as a result of advertising space being sold directly by ASUR, previously sold by a third party, and
- A 12.95% increase in parking lots revenue due to a tariff adjustment and higher demand, mainly at the Villahermosa airport.

**Total operating costs and expenses** for 4Q05 declined year-over-year by 0.25%, primarily as a result of:

- A 32.57% decline in concession fees mainly due to lower revenues,
- A 49.73% decline in the cost of technical assistance, principally as a result of the decline in EBITDA (a basis for the calculation of the fee), and
- A 4.45% decline in expenses for administrative services, reflecting lower professional fees paid to consultants during the period.

These declines were partially offset by:

- A 9.07% increase in costs of services mainly as a result of an increase in maintenance expenses as well as expenses associated with the evaluation of new projects.
- A 4.35% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets and improvements made to concession assets.

**Operating margin** for 4Q05 declined to 7.49% from 37.47% in the fourth quarter of last year. This was mainly driven by the 32.57% decline in revenues for the quarter.

Mexican companies are generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.8% of the average tax value of virtually all of the company's assets (including, in ASUR's case, its concessions), less the average tax value of certain liabilities (essentially liabilities of companies resident in Mexico, excluding those related to financial institutions and their intermediaries)). ASUR made asset tax payments of Ps.39.3 million for 4Q05. Of this total amount, Ps.31.9 million was recorded as an expense in the results for the quarter. The difference was recorded as an asset, since the Company expects to recover Ps.7.4 million as a credit against future income tax payments.

**Net income** for 4Q05 was Ps.6.16 million, a year-over-year decline of 96.94% . Earnings per common share for the quarter were Ps.0.0205, or earnings per ADS (EPADS) of US\$0.0193 (one ADS represents ten series B common shares). This compares with Ps.0.6703, or EPADS of US\$0.6303, for the same period last year.

## Consolidated Results for Fiscal Year 2005

---

**Total revenues** for Fiscal Year 2005 increased by 1.08% to Ps.2,063 million. This was mainly due to an increase of 17.93% in revenues from non-aeronautical services, principally as a result of the 20.13% increase in commercial revenues. This mainly reflects payments of Ps.7.0 million in May and Ps.32.5 million in August for rent by Dufry Mexico for units it occupies in Cancun airport, as mandated by a ruling of the International Court of Arbitration in favor of ASUR; and a Ps.9.9 million payment in 3Q05 by Aldeasa owed to ASUR.

## Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

Excluding the impact of these two items, commercial revenue per passenger for FY05 period rose by 10.89% . This also reflects the negative impact from the approximately 4.62% appreciation of the Mexican peso against the US dollar during the period.

This was partially offset by a decline of 4.55% in revenues from aeronautical services, as a result of the drop in passenger traffic during the period.

**Commercial revenues** for FY05 increased by 20.13% mainly due to:

- A 42.25% increase in duty-free revenues, principally due to payments received from Dufry Mexico. This mainly reflects payments of Ps.7.0 million in May and Ps.32.5 million in August for rent by Dufry Mexico for units it occupies in Cancun airport, as mandated by a ruling of the International Court of Arbitration in favor of ASUR; and the Ps.9.9 million payment by Aldeasa to ASUR,
- A 18.57% increase in food and beverage revenues, reflecting revenues from ASUR's direct commercial operations,
- A 23.58% increase in retail revenues, principally resulting from revenue from the three convenience stores formerly operated by concessionaires that have been operated by ASUR since May 2004. The increase in retail revenues also reflects income from the concessions granted for 16 new convenience stores at the Cancun, Cozumel, Villahermosa, Oaxaca and Minatitlan airports,
- A 23.02% increase in revenue from parking lots resulting from the adjustment of ASUR's tariffs, and increased use of parking lots, particularly at Villahermosa airport, and
- A 9.49% increase in advertising revenues, as a result of advertising space being sold directly by ASUR, rather than by a third party.

This was partially offset by:

- A 19.80% decrease in revenue from banking and currency exchange services, and
- A 6.90% decline in revenue from ground transportation.

Note: Figures are shown in thousands of constant Mexican pesos as of December 31, 2005.

**Costs and expenses** for FY05 increased by 7.49%, mainly due to the following:

- Costs of services for the period rose by 15.55%. This increase was primarily due to costs related to the direct operation by ASUR of two restaurants, a snack bar, and three convenience stores previously operated by concessionaires. The increase in costs of services also resulted from higher maintenance expenses, an increase in salaries to unionized employees, effective October 2005, and expenses associated with the evaluation of new projects,
- Concession fees increased 1.11% mainly due to higher revenues, and
- Depreciation and amortization rose by 5.14%, mainly due to the capitalization of investments in fixed assets and improvements made to concession assets.

The increase in costs was partially offset by:

- A 6.00% decline in administrative expenses reflecting lower professional fees paid to consultants during the period, and
- A 3.98% decline in technical assistance costs reflecting the corresponding decline in EBITDA during the period.

**Operating margin** for the period declined to 38.73%, down from 42.39% for FY04, reflecting the decline in revenues resulting from the impact of Hurricanes Emily and Wilma in July and October 2005 respectively.

**Net income** for FY05 declined by 10.21%, to Ps.563.19 million. Earnings per common share for the period were Ps.1.8773, or earnings per ADS (EPADS) of US\$1.7653 (one ADS represents ten series B common shares). This compares with Ps.2.0907, or EPADS of US\$1.9660, for the same period last year.

## **Tariff Regulation**

---

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities through maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for FY05 were Ps.1,492.26 million, resulting in an average tariff per workload unit of Ps.100.00 for the period. ASUR's regulated revenues accounted for approximately 72.30% of total revenue for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

## **Balance Sheet**

---

On December 31 2005 Airport Facility Usage Rights and Airport Concessions represented 81.70% of the Company's total assets, with current assets representing 12.97% and other assets representing 5.32% .

On December 31 2005, cash and marketable securities were Ps.1,533.58 million. On the same date, shareholder's equity was Ps.13,025.73 million and total liabilities were Ps.1,037.70 million, representing 92.62% and 7.38% of total assets, respectively. Total deferred liabilities represented 67.23% of the Company's total liabilities.

## **Capex**

---

During the quarter, ASUR made investments of Ps.193.78 million as part of the Company's ongoing plan to modernize its airports. Capital investment for FY05 totaled Ps.632.20 million.

## **Construction of Terminal 3 and Studies for a Second Runway**

---

During 4Q05, the Federal Government authorized ASUR's modification of the Master Plan for Cancun airport to include Terminal 3 and the second runway.

In December 2005 the Company laid the foundation stone of Terminal 3 in a ceremony attended by the Governor of the state of Quintana Roo, the Secretary of Communications and Transportation, and the Secretary of Tourism.

ASUR believes that Terminal 3 will be the most modern, efficient, and advanced in Mexico, and estimates it will require a total investment of approximately US\$100 million. The terminal will include the following facilities:

- An advanced security system that will control the handling of luggage in compliance with new international aviation security regulations,
- An area in excess of 40,000 square meters,
- 84 check-in counters,
- 11 boarding gates with air bridges and another four with remote stands, and
- An advanced passenger information system with information display screens.

In addition, the Federal Government has granted ASUR a concession of land for the second runway at Cancun, and the Company has already initiated the necessary studies for its construction. The Company expects that this second runway will double the airport's current capacity for air traffic operations. The new runway is expected to be 2,400 meters long and 45 meters wide, and is expected to require an investment of approximately US\$50 million. The 1,500 meters between the existing runway and the new one will allow both to be used simultaneously for take-offs and landings.

### **Impact of Hurricane Wilma**

---

Hurricane Wilma struck the Yucatan Peninsula on October 20, 2005 and remained over the peninsula for four days, causing damage to the Cancun and Cozumel airports.

The company has not yet completed the assessment of the damage resulting from Hurricane Wilma. However, during 4Q05 ASUR recorded damage totaling Ps.134.0 million. Of this amount, Ps.89.0 million have already been advanced to ASUR by the insurance company, with Ps.44.0 million remaining to be paid.

In the coming months, ASUR and the insurance company are expected to finalize their assessment of the total damage to ASUR's properties and assets resulting from Hurricane Wilma.

Cancun airport serves flights originating in or flying to Cancun and the Mayan Riviera. Of the 27,484 rooms available in Cancun, before Hurricane Wilma, only 10,918 or 39.72% were operating at year-end. Of the original 25,170 rooms available in the Mayan Riviera, 22,836 or 90.7% were operating at year-end.

Additionally, passenger traffic at the Cancun and Cozumel airports declined 57.05% and 82.53%, respectively from October 25 to December 31, 2005

compared with 2004. The Company expects the negative impact of Hurricane Wilma on passenger traffic to continue during a large portion of 2006.

The insurance policy that covers the company against possible damage resulting from hurricanes will be renewed in February 2006. Management expects a significant increase in the insurance premium, considering the magnitude of the events that impacted the Caribbean and Gulf of Mexico during 2005.
