GAIN FROM OUR PERSPECTIVE(R)

Franklin Templeton's distinct multi-manager
structure combines the specialized expertise of
three world-class investment management

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a truly global perspective.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among what it believes are undervalued stocks, as well as arbitrage situations and distressed securities.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to different investment approaches, Franklin, Templeton and Mutual Series funds typically have distinct portfolios. That's why our funds can be used to build truly diversified allocation plans covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable, accurate and personal service that has helped us become one of the most trusted names in financial services.

Dear Shareholder:

We are pleased to bring you Templeton Emerging Markets Income Fund's annual report for the fiscal year ended August 31, 2009.

PERFORMANCE OVERVIEW

For the 12 months under review, Templeton Emerging Markets Income Fund had cumulative total returns of +6.57% based on market price and +8.02% based on net asset value. The Fund outperformed the J.P. Morgan (JPM) Emerging Markets Bond Index Global (EMBIG), which had a +5.37% cumulative total return in U.S. dollar terms for the same period.(1) You can find the Fund's long-term performance data in the Performance Summary on page 7.

ECONOMIC AND MARKET OVERVIEW

The year under review consisted of two distinct halves. In the first half, the U.S. recession spread throughout the world as the financial crisis intensified, with economic activity and security prices falling sharply. Frozen credit markets and depressed consumer sentiment levels caused a steep drop in economic activity despite policymakers' best efforts. In addition to continued global interest rate easing, the U.S., eurozone and the U.K. implemented quantitative and credit easing policies, and governments worldwide boosted fiscal stimuli to counter the deepening global recession. Partially as a result of this coordinated global response, investor confidence began to improve in March, which gradually benefited economic activity through the increased flow of credit, especially in interbank lending and trade financing. Strong economic activity in China, the unfreezing of credit markets and the G20 meeting in April also gave investors confidence. (2) The turnaround led to a more favorable outlook that benefited the global economy through a shift in the inventory adjustment cycle and better corporate bond and equity market performance. Many

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

investors appeared to believe the worst of the financial crisis was over, and by the end of the period there was substantial evidence that an economic recovery was under way. Greater risk appetite in the second half of the year benefited currency and developing bond markets as investors' outlook on the economy improved. Although financial markets and economic activity improved significantly from their very low levels, relative to the prior year, economic activity remained weak as deleveraging continued, global trade contracted and unemployment rose.

Inflation fell during the period as weak global growth led to lower prices for commodities, and slackening labor and capital markets pushed most other prices down gradually. Monetary easing in the eurozone continued, although at a slower pace than many economists would have preferred, given the recession's depth and lesser fiscal policy action compared with those of the U.S. In the first half of 2009 compared with the first half of 2008 (year-over-year), the eurozone's gross domestic product (GDP) contracted 4.8%, which was greater than the U.S. economy's 3.7% contraction.(3) However, the European Central Bank maintained its primary focus on inflation. Outside the eurozone, the economic slowdown was more severe in many emerging European countries. Central and eastern Europe was one of the regions most damaged by the financial crisis as it exposed those countries' external imbalances characterized by large foreign borrowing to finance substantial current account deficits. Several countries including Ukraine, Hungary and Latvia sought help from the

(2.) The G20 is an informal forum that promotes open and constructive discussion between industrial and emerging market countries on key issues related to global economic stability. It is made up of the finance ministers and central bank governors of 19 countries and the European Union.

2 | Annual Report

International Monetary Fund (IMF). Even Poland, which was in a comparatively strong position relative to its regional peers, took advantage of the IMF's new, prequalified loan facility, though it did not draw on these resources.

In Asia, growth differed significantly between large economies with higher domestic demand and small economies more dependent on exports. The large economies, particularly China, India and Indonesia, were more resistant to the global recession as aggressive fiscal and monetary responses outweighed declining exports. Within these three countries, domestic demand was resilient and accounts for a bigger share of these economies. In contrast, the smaller economies suffered quick, severe downturns as their reliance on demand for exports made them very vulnerable to the global downturn. Exemplifying this dependence, production dropped more than export demand, allowing inventories to fall to levels more in line with reduced global consumption. However, even some of these very badly affected economies showed signs of improvement toward period-end. On the other hand, the Japanese economy was the weakest among the large, developed economies. GDP contracted an average of 6.5% year-over-year during the past three quarters due to subdued consumption, weak external demand and lackluster government spending.(4) Japan's trade balance worsened as the global recession and difficulties in obtaining credit negatively impacted machinery exports, an important sector for the economy.

INVESTMENT STRATEGY

We invest selectively in bonds around the world to generate income for the Fund, seeking opportunities while monitoring changes in interest rates, currency

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

exchange rates and credit risk.

MANAGER'S DISCUSSION

The Fund purchased investment-grade and lower-rated sovereign debt that typically compensates for greater credit risk by offering higher yields relative to U.S. and European benchmark Treasury securities. Improved risk appetite benefited high yield products during the second half of the period, particularly sovereign bonds, following the G20 summit in April 2009. It was decided at the summit that the IMF would receive additional resources, and the IMF eased conditions to help countries in need of balance of payments support or access to liquidity. U.S. dollar-denominated emerging market debt posted a +5.37% total return during the period as measured by the JPM EMBIG, but the Fund's return was even stronger as it added exposure to sovereign bonds

WHAT IS A CURRENT ACCOUNT?

A current account is that part of the balance of payments where all of one country's international transactions in goods and services are recorded.

WHAT IS BALANCE OF PAYMENTS?

Balance of payments is a record of all of a country's exports and imports of goods and services, borrowing and lending with the rest of the world during a particular time period. It helps a country evaluate its competitive strengths and weaknesses and forecast the strength of its currency.

Annual Report | 3

TOP 10 COUNTRIES

8/31/09

	% OF TOTAL NET ASSETS -----
Brazil	14.1%
Indonesia	11.6%
Argentina	7.4%
Russia	7.2%
Kazakhstan	5.8%
Iraq	5.1%
Supranational	4.9%
Ukraine	4.5%
Peru	4.5%
Mexico	3.3%

following the initial sell-off.(1) The index fell 28.83% to its low in late October, and rose 48.05% from that point to the end of the period.(1) Our analysis indicated that sovereign spreads were at distressed levels during the early stages of the financial crisis, reflecting a higher probability of default than we thought was appropriate. In our opinion, most emerging market sovereign bonds were in much better positions than in previous crises and unlikely to suffer to the same extent as they have in the past. Despite these fundamentals,

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

forced and panicked selling hit sovereign bonds, and so we sought to capitalize on this market inefficiency by adding exposure. Sovereign interest rate credit spreads fell 325 basis points from their peak in mid-March as most emerging economies were fairly well positioned entering the crisis.(5) Regionally, Latin American sovereign debt had a +2.19% total return, Asian debt a +11.77% total return and central and eastern European debt a +5.70% total return.(1) Emerging market local debt returned +11.31% as measured by the JPM Government Bond Index-Emerging Markets (GBI-EM) in local currency terms as interest rates fell around the world.(6)

LATIN AMERICA

The first and second halves of the Fund's fiscal year contrasted sharply in Latin America as they did globally. In the first part of the year, currencies depreciated very quickly against the U.S. dollar and credit spreads widened to levels not reached for several years. A combination of influences such as economies slowing due to high interest rates and fear of corporate losses on derivatives and very weak demand for exports and freezing of credit markets led to a severe and rapid downturn. In the second part of the year, as risk appetite returned to global financial markets, currencies strengthened against the U.S. dollar and credit spreads narrowed. Commodity prices recovered, which helped exports. Imports falling faster than exports also benefited trade balances in many countries. The Fund's overweighted Brazilian real position hurt relative performance as the currency depreciated 12.67% against the U.S. dollar despite a strong rally in the latter part of the period.(7) However, sovereign credit and duration exposure in Brazil outperformed for the year as a whole. In contrast, the Mexican peso did not recover as much of its first half's fall as most other regional currencies. Argentina was one of the most volatile sovereign credits during the period, and the Fund sought to capitalize on that by adding exposure at distressed prices.

4 | Annual Report

EUROPE & MIDDLE EAST

Central and eastern Europe were among the most adversely impacted regions globally by the financial crisis, but we felt there was significant differentiation between credits that was not reflected in market valuations. In particular, we avoided Fund exposure to credits with the most dire outlooks, such as Latvia, and instead focused on the opportunities created by indiscriminate risk reduction in higher quality sovereigns. We viewed the risk of default in countries such as Poland and Russia as being overpriced by the market. While the sharp drop in oil prices led to significant challenges for Russia's fiscal accounts and external balances, the country's sovereign credit entered the crisis in a strong position with a low debt level and a significant accumulation of reserves. There were certainly warranted concerns about some local corporations, but these did not extend to the sovereign or the very highest quality companies.

ASIA

Asian sovereign credit was among the strongest in the index, as many of the large economies suffered less than other parts of the world. In part a legacy of

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

the Asian financial crisis of the late 1990s, Asian economies generally used less leverage than those in other regions. Further, their governments had lowered their external debt burdens and many had built large cushions of foreign exchange reserves. Exports dropped significantly due to lower demand from the developed world, and this particularly hurt economic activity in small open economies. However, in Indonesia, significant monetary and fiscal stimulus supported growth and benefited the Fund's sovereign credit and duration exposure. Similarly, in South Korea, the central bank aggressively cut interest rates to stimulate demand, and that benefited our duration position.

WHAT IS DURATION?

Duration is a measure of a bond's price sensitivity to interest rate changes. In general, a portfolio of securities with a lower duration can be expected to be less sensitive to interest rate changes than a portfolio with a higher duration.

6 | Annual Report

Performance Summary as of 8/31/09

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Total returns do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gains distributions, if any, or any realized gains on the sale of Fund shares.

ENDNOTES

CHANGES IN INTEREST RATES WILL AFFECT THE VALUE OF THE FUND'S PORTFOLIO AND ITS SHARE PRICE AND YIELD. BOND PRICES GENERALLY MOVE IN THE OPPOSITE DIRECTION OF INTEREST RATES. THUS, AS PRICES OF BONDS IN THE FUND ADJUST TO A RISE IN INTEREST RATES, THE FUND'S SHARE PRICE MAY DECLINE. SPECIAL RISKS ARE ASSOCIATED WITH FOREIGN INVESTING, INCLUDING CURRENCY FLUCTUATIONS, ECONOMIC INSTABILITY AND POLITICAL DEVELOPMENTS. INVESTMENTS IN DEVELOPING MARKETS INVOLVE HEIGHTENED RISKS RELATED TO THE SAME FACTORS, IN ADDITION TO THOSE ASSOCIATED WITH THEIR RELATIVELY SMALL SIZE AND LESSER LIQUIDITY. THE FUND'S USE OF FOREIGN CURRENCY TECHNIQUES INVOLVES SPECIAL RISKS AS SUCH TECHNIQUES MAY NOT ACHIEVE THE ANTICIPATED BENEFITS AND/OR MAY RESULT IN LOSSES TO THE FUND. ALSO, AS A NONDIVERSIFIED INVESTMENT COMPANY, THE FUND MAY INVEST IN A RELATIVELY SMALL NUMBER OF ISSUERS AND, AS A RESULT, BE SUBJECT TO A GREATER RISK OF LOSS WITH RESPECT TO ITS PORTFOLIO SECURITIES.

- (1.) Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated.
- (2.) Assumes reinvestment of distributions based on net asset value.
- (3.) Assumes reinvestment of distributions based on the dividend reinvestment and cash purchase plan.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

Important Notice to Shareholders

SHARE REPURCHASE PROGRAM

The Fund's Board previously authorized management to implement an open-market share repurchase program pursuant to which the Fund may purchase Fund shares, from time to time, in open-market transactions, at the discretion of management. This authorization remains in effect.

OPTIONS ON SWAP AGREEMENTS (SWAPTIONS)

Generally, the Fund may purchase and write (sell) both put and call options on swap agreements, commonly known as swaptions, although currently the Fund only intends to purchase options on interest rate swaps. The Fund may buy options on interest rate swaps to help hedge the Fund's risk of potentially rising interest rates. A swaption is an over-the-counter (OTC) option that gives the buyer of the option the right, but not the obligation, to enter into a previously negotiated swap agreement, or to extend, terminate, or otherwise modify the terms of an existing swap agreement, in exchange for the payment of a premium to the writer (seller) of the option. The writer (seller) of a swaption receives premium payments from the buyer and, in exchange, becomes obligated to enter into or modify an underlying swap agreement upon the exercise of the option by the buyer.

The Fund generally assumes a greater risk when it writes (sells) a swaption than when it purchases a swaption. When the Fund purchases a swaption, it risks losing the amount of premium it has paid, should it elect not to exercise the option, plus any related transaction costs. When the Fund writes (sells) a swaption, however, the Fund is bound by the terms of the underlying swap agreement upon exercise of the option by the buyer, which may result in losses to the Fund in excess of the premium it received. Swaptions also involve other risks associated with both OTC options and swap agreements, such as counterparty risk (the risk that the counterparty defaults on its obligation), market risk, credit risk, and interest rate risk. With respect to the Fund's purchase of options on interest rate swaps, depending on the movement of interest rates between the time of purchase and expiration of the swaption, the value of the underlying interest rate swap and therefore the value of the swaption will change.

Templeton Emerging Markets Income Fund

STATEMENT OF INVESTMENTS, AUGUST 31, 2009 (CONTINUED)

- (a) The principal amount is stated in U.S. dollars unless otherwise indicated.
- (b) The coupon rate shown represents the rate at period end.
- (c) The principal amount is stated in original face, and scheduled paydowns are reflected in the market price on ex-date.
- (d) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. At August 31, 2009, the aggregate value of these securities was \$150,601,786, representing 23.03% of net assets.
- (e) Principal amount is stated in 1,000 Brazilian Real units
- (f) Redemption price at maturity is adjusted for inflation. See Note 1(e).
- (g) Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. At August 31, 2009, the aggregate value of these securities was \$48,404,109, representing 7.40% of net assets.
- (h) Principal amount is stated in 100 Mexican Peso Units.
- (i) A supranational organization is an entity formed by two or more central governments through international treaties.
- (j) The security is traded on a discount basis with no stated coupon rate.
- (k) See Note 7 regarding investments in the Institutional Fiduciary Trust Money Market Portfolio. The rate shown is the annualized seven-day yield at period end.

At August 31, 2009, the Fund had the following forward exchange contracts

18 | Annual Report

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Emerging Markets Income Fund (Fund) is registered under the Investment Company Act of 1940, as amended, (1940 Act) as a closed-end investment company.

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Corporate debt securities and government securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value. Debt securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the date that the values of the foreign debt securities are determined. Investments in open-end mutual funds are valued at the closing net asset value.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis based upon the underlying investment book value, anticipated future cash flows, market changes in comparable or similar securities, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

Annual Report | 19

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION (CONTINUED)

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. DERIVATIVE FINANCIAL INSTRUMENTS

The Fund may invest in derivative financial instruments (derivatives) in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives may contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and the potential for market movements which may expose the Fund to gains or losses in excess of the amounts shown on the Statement of Assets and Liabilities.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

Derivatives are marked to market daily based upon quotations from market makers or the Fund's independent pricing services and the Fund's net benefit or obligation under the contract, as measured by the fair market value of the contract, is included in net assets. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statement of Operations.

The Fund enters into forward exchange contracts in order to hedge against fluctuations in foreign exchange rates or to gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency for a specific exchange rate on a future date. Pursuant to the terms of the forward exchange contracts, cash or securities may be required to be deposited as collateral.

The Fund enters into interest rate swap contracts generally in order to manage interest rate risk. An interest rate swap is an agreement between the Fund and a counterparty to exchange cash flows based on the difference between two interest rates, applied to a notional principal amount. Over the term of the contract, contractually required payments to be paid and to be received are

20 | Annual Report

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

accrued daily and recorded as unrealized depreciation and appreciation until the payments are made, at which time they are realized. Pursuant to the terms of the interest rate swap contract, cash or securities may be required to be deposited as collateral. Any cash received may be invested according to the Fund's investment objectives.

See Note 10 regarding other derivative information.

D. INCOME TAXES

No provision has been made for U.S. income taxes because it is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code and to distribute to shareholders substantially all of its taxable income and net realized gains.

The Fund has reviewed the tax positions, taken on federal income tax returns, for each of the three open tax years and as of August 31, 2009, and has determined that no provision for income tax is required in the Fund's financial statements.

Foreign securities held by the Fund may be subject to foreign taxation on interest income received. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States of America. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Inflation-indexed bonds provide an inflation hedge through periodic increases or decreases in the security's interest accruals and principal redemption value, by amounts corresponding to the current rate of inflation. Any such adjustments, including adjustments to principal redemption value, are recorded as interest income.

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. Currently, the Fund expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

At August 31, 2009, there were an unlimited number of shares authorized (\$0.01 par value). During the year ended August 31, 2009, there were no shares issued; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

The Fund's Board of Trustees previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. This authorization remains in effect. Through August 31, 2009, the Fund had repurchased a total of 610,500 shares. During the years ended August 31, 2008 and August 31, 2009, there were no shares repurchased.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

3. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

SUBSIDIARY	AFFILIATION
Franklin Advisers, Inc. (Advisers)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager

22 | Annual Report

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. TRANSACTIONS WITH AFFILIATES (CONTINUED)

A. MANAGEMENT FEES

The Fund pays an investment management fee to Advisers based on the average daily net assets of the Fund as follows:

ANNUALIZED FEE RATE	NET ASSETS
0.850%	Up to and including \$1 billion
0.830%	Over \$1 billion, up to and including \$5 billion
0.810%	Over \$5 billion, up to and including \$10 billion
0.790%	Over \$10 billion, up to and including \$15 billion
0.770%	Over \$15 billion, up to and including \$20 billion
0.750%	In excess of \$20 billion

B. ADMINISTRATIVE FEES

The Fund pays an administrative fee to FT Services of 0.15% per year of the average daily net assets of the Fund.

4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended August 31, 2009, the custodian fees were reduced as noted in the Statement of Operations.

5. INCOME TAXES

For tax purposes, capital losses may be carried over to offset future capital gains, if any. At August 31, 2009, the Fund had tax basis capital losses of \$1,231,202 expiring in 2017.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

For tax purposes, realized currency losses occurring subsequent to October 31, may be deferred and treated as occurring on the first day of the following fiscal year. At August 31, 2009, the Fund deferred realized currency losses of \$7,025,551.

The tax character of distributions paid during the years ended August 31, 2009 and August 31, 2008, was as follows:

	2009	2008
Distributions paid from:		
Ordinary income	\$64,463,389	\$63,410,387
Long term capital gain	3,728,221	--
	\$68,191,610	\$63,410,387

Annual Report | 23

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

5. INCOME TAXES (CONTINUED)

At August 31, 2009, the cost of investments, net unrealized appreciation (depreciation), undistributed ordinary income for income tax purposes were as follows:

Cost of investments	\$648,989,780
	=====
Unrealized appreciation	\$ 31,820,962
Unrealized depreciation	(48,157,474)

Net unrealized appreciation (depreciation)	\$ (16,336,512)
	=====
Distributable earnings - undistributed ordinary income	\$ 15,401,370
	=====

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions, bond discounts and premiums, swaps and tax straddles.

Net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, bond discounts and premiums, swaps and tax straddles.

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the year ended August 31, 2009, aggregated \$194,535,565 and \$178,012,148,

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

respectively.

7. INVESTMENTS IN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Institutional Fiduciary Trust Money Market Portfolio (Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management and administrative fees paid by the Sweep Money Fund.

8. CREDIT RISK

At August 31, 2009, the Fund had 52.55% of its portfolio invested in high yield, senior secured floating rate notes, or other securities rated below investment grade. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

24 | Annual Report

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

9. CONCENTRATION OF RISK

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

10. OTHER DERIVATIVE INFORMATION

At August 31, 2009, the Fund has invested in derivative contracts which are reflected on the Statement of Assets and Liabilities as follows:

DERIVATIVE CONTRACTS NOT ACCOUNTED FOR AS HEDGING INSTRUMENTS UNDER FASB STATEMENT NO. 133 -----	ASSET DERIVATIVES		LIABILITY DERIVATIVES	
	STATEMENT OF ASSETS AND LIABILITIES LOCATION	FAIR VALUE AMOUNT	STATEMENT OF ASSETS AND LIABILITIES LOCATION	FAIR VALUE AMOUNT
Interest rate contracts ..	Unrealized appreciation on swap contracts	\$4,763,672	Unrealized depreciation on swap contracts	\$
Foreign exchange contracts	Unrealized appreciation on forward exchange contracts	3,950,698	Unrealized depreciation on forward exchange contracts	(9)

The effect of derivative contracts on the Fund's Statement of Operations was as follows:

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

DERIVATIVE CONTRACTS
NOT ACCOUNTED FOR AS
HEDGING INSTRUMENTS

See Note 1(c) regarding derivative financial instruments.

Annual Report | 25

Templeton Emerging Markets Income Fund

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

11. FAIR VALUE MEASUREMENTS

The Fund adopted Financial Accounting Standards Board (FASB) issued FASB Statement No. 157, "Fair Value Measurement" (SFAS 157), on September 1, 2008. SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Fund has determined that the implementation of SFAS 157 did not have a material impact on the Fund's financial statements.

SFAS 157 establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

The following is a summary of the inputs used as of August 31, 2009, in valuing the Fund's assets and liabilities carried at fair value:

	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
ASSETS:				
Investments in Securities:				
Bonds	\$ --	\$616,530,847	\$--	\$616,530,847
Short Term Investments	15,772,256	350,165	--	16,122,421
Total Investments in Securities	\$15,772,256	\$616,881,012	\$--	\$632,653,268
Forward Exchange Contracts	\$ --	\$ 3,950,698	\$--	\$ 3,950,698
Swaps	--	4,763,672	--	4,763,672
LIABILITIES:				
Forward Exchange Contracts	--	949,690	--	949,690

Templeton Emerging Markets Income Fund

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF TEMPLETON EMERGING MARKETS INCOME FUND

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Templeton Emerging Markets Income Fund (the "Fund") at August 31, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at August 31, 2009 by correspondence with the custodian, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

San Francisco, California

October 20, 2009

28 | Annual Report

Templeton Emerging Markets Income Fund

TAX DESIGNATION (UNAUDITED)

Under Section 852(b)(3)(C) of the Internal Revenue Code (Code), the Fund designates the maximum amount allowable but no less than \$3,728,221 as a long term capital gain dividend for the fiscal year ended August 31, 2009.

At August 31, 2008, more than 50% of the Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from income paid to the Fund on these investments. As shown in the table below, the Fund designates to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Code. This designation will allow shareholders of record on September 30, 2008, to treat their proportionate share

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis of foreign tax paid, and foreign source income as designated by the Fund, to shareholders of record.

RECORD DATE: 9/30/2008

	FOREIGN TAX PAID PER SHARE -----	FOREIGN SOURCE INCOME PER SHARE -----	FOREIGN QUALIFIED DIVIDENDS PER SHARE -----
Class A	\$0.0225	\$1.0326	\$--

Foreign Tax Paid Per Share (Column 1) is the amount per share available to you, as a tax credit (assuming you held your shares in the Fund for a minimum of 16 days during the 31-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate), or, as a tax deduction.

Foreign Source Income Per Share (Column 2) is the amount per share of income dividends paid to you that is attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends. The amounts reported include foreign source qualified dividends that have not been adjusted for the rate differential applicable to such dividend income.(1)

Foreign Qualified Dividends Per Share (Column 3) is the amount per share of foreign source qualified dividends the Fund paid to you, plus any foreign taxes withheld on these dividends. These amounts represent the portion of the Foreign Source Income reported to you in column 2 that were derived from qualified foreign securities held by the Fund.(1)

In January 2009, shareholders received Form 1099-DIV which included their share of taxes paid and foreign source income distributed during the calendar year 2008. The Foreign Source Income reported on Form 1099-DIV has not been adjusted for the rate differential on foreign source qualified dividend income. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their 2008 individual income tax returns.

- (1) Qualified dividends are taxed at a maximum rate of 15% (5% for those in the 10% and 15% income tax bracket). In determining the amount of foreign tax credit that may be applied against the U.S. tax liability of individuals receiving foreign source qualified dividends, adjustments may be required to the foreign tax credit limitation calculation to reflect the rate differential applicable to such dividend income. The rules however permit certain individuals to elect not to apply the rate differential adjustments for capital gains and/or dividends for any taxable year. Please consult your tax advisor and the instructions to Form 1116 for more information.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

The Annual Meeting of Shareholders of the Fund was held at the Fund's offices, 500 E. Broward Blvd., Fort Lauderdale, Florida, on February 20, 2009. The purpose of the meeting was to elect four Trustees of the Fund. At the meeting, the following persons were elected by the shareholders to serve as Trustees of the Fund: Ann Torre Bates, David W. Niemiec, Larry D. Thompson and Robert E. Wade.* No other business was transacted at the meeting.

The results of the voting at the Annual Meeting are as follows:

The election of four Trustees:

TERM EXPIRING 2010	FOR	% OF OUTSTANDING SHARES	% OF PRESENT AND VOTING	WITHHELD	% OF OUTSTANDING SHARES	% OF PRESENT AND VOTING
-----	-----	-----	-----	-----	-----	-----
Ann Torre Bates	42,561,668	89.91%	97.09%	1,227,650	2.70%	2.91%
David W. Niemiec	42,602,392	89.99%	97.18%	1,236,926	2.61%	2.82%
Larry D. Thompson ...	42,606,375	90.00%	97.19%	1,232,943	2.60%	2.81%
Robert E. Wade	42,700,989	90.20%	97.40%	1,138,329	2.40%	2.60%

* Harris J. Ashton, Frank J. Crothers, Edith E. Holiday, Charles B. Johnson, Gregory E. Johnson, Frank A. Olson and Constantine D. Tseretopoulos are Trustees of the Fund who are currently serving and whose terms of office continued after the Annual Meeting of Shareholders.

30 | Annual Report

Templeton Emerging Markets Income Fund

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Participants should contact BNY Mellon Shareowner Services, P.O. Box 358035, Pittsburgh, PA, 15252-8035, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify The Bank of New York Mellon (the "Plan Administrator") at the address above or the institution in whose name the shares are held. The Plan Administrator must receive written notice within ten business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or shares of the Fund, if

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in new shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments can be made by check or money order payable to The Bank of New York Mellon and sent to BNY Mellon Shareowner Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Emerging Markets Income Fund. The Plan Administrator will apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fee for a sale of shares through the Plan is \$15.00 per transaction plus a \$0.12 per share trading fee.

Annual Report | 31

Templeton Emerging Markets Income Fund

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (CONTINUED)

A participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to BNY Mellon Shareowner Services, P. O. Box 358035, Pittsburgh, PA, 15252-8035. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the shares and send the proceeds to the participant, less a service charge of \$15.00 and less trading fees of \$0.12 per share. The Plan Administrator will convert any fractional shares you hold at the time of your withdrawal to cash at current market value and send you a check for the net proceeds.

DIRECT DEPOSIT SERVICE FOR REGISTERED SHAREHOLDERS

Cash distributions can now be electronically credited to a checking or savings account at any financial institution that participates in the Automated Clearing House ("ACH") system. The Direct Deposit service is provided for registered shareholders at no charge. To enroll in the service, access your account online by going to <http://vault.bnymellon.com/isd> or dial 1-800-416-5585 (toll free) and follow the instructions. Direct Deposit will begin with the next scheduled distribution payment date following enrollment in the service.

BOARD REVIEW OF INVESTMENT MANAGEMENT AGREEMENT

At a meeting held May 19, 2009, the Board of Trustees (Board), including a majority of non-interested or independent Trustees, approved renewal of the investment management agreement for the Fund. In reaching this decision, the Board took into account information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the annual renewal review process. Information furnished and discussed throughout the year included investment performance reports on the Fund, information on its share price discount to net asset value, and other related

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

financial information, as well as periodic reports on legal, compliance, pricing, brokerage commissions and execution and other services provided by the Investment Manager (Manager) and its affiliates. Information furnished specifically in connection with the renewal process included a report prepared by Lipper, Inc. (Lipper), an independent organization, as well as additional material, including a Fund profitability analysis report prepared by management. The Lipper reports compared the Fund's investment performance and expenses with those of other funds deemed comparable to the Fund as selected by Lipper. The Fund profitability analysis report discussed the profitability to Franklin Templeton Investments from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Included with such profitability analysis report was information on a fund-by-fund basis listing portfolio managers and other accounts they manage, as well as information on management fees charged by the Manager and its affiliates including management's explanation of differences where relevant, and a three-year expense analysis with an explanation for any increase in expense ratios. Additional material accompanying such report was a memorandum prepared by management describing project initiatives and capital investments relating to the services provided to the Fund by the Franklin Templeton Investments organization, as well as a memorandum relating to economies of scale. Such material also discussed some of the actions taken by management in coping with problems arising out of the past year's financial upheaval.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel. In approving continuance of the investment management agreement for the Fund, the Board, including a majority of independent Trustees, determined that the existing management fee structure was fair and reasonable and that continuance of the investment management agreement was in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board's decision.

NATURE, EXTENT AND QUALITY OF SERVICE. The Board was satisfied with the nature and quality of the overall services provided by the Manager and its affiliates to the Fund and its shareholders. In addition to investment performance and expenses discussed later, the Board's opinion was based, in part, upon periodic reports furnished it showing that the investment policies and restrictions for the Fund were consistently complied with as well as other reports periodically furnished the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics adopted throughout the Franklin Templeton fund complex, the adherence to fair value pricing procedures established by the Board, and the accuracy of net asset value calculations. Favorable consideration was given to

Annual Report | 39

Templeton Emerging Markets Income Fund

SHAREHOLDER INFORMATION (CONTINUED)

BOARD REVIEW OF INVESTMENT MANAGEMENT AGREEMENT (CONTINUED)

management's continuous efforts and expenditures in establishing back-up systems and recovery procedures to function in the event of a natural disaster, it being noted that such systems and procedures had functioned smoothly during the Florida hurricanes and blackouts experienced in recent years. Consideration was also given to the experience of the Fund's portfolio management team, the number of accounts managed and general method of compensation. In this latter respect, the Board noted that a primary factor in management's determination of the level

of a portfolio manager's bonus compensation was the relative investment performance of the funds he or she managed and that a portion of such bonus was required to be invested in a predesignated list of funds within such person's fund management area so as to be aligned with the interests of fund shareholders. Particular attention was given to the overall performance and actions taken by the Manager and its affiliates in response to problems arising out of the market turmoil and financial crisis experienced during the past year. In this respect, the Board noted that management's independent credit analysis and diligent risk management procedures had prevented any structured investment products or other volatile instruments from being held in the portfolios of any of the money market funds within the Franklin Templeton complex, including the sweep money fund utilized by many of the funds as part of their cash management. The Board also took into account, among other things, the strong financial position of the Manager's parent company and its commitment to the fund business. The Board also noted that during the past year Franklin Templeton Investments, like many other fund managers, had announced a hiring freeze and implemented employee reductions, and the Board discussed with management the nature of such reductions and steps being taken to minimize any negative impact on the nature and quality of services being provided the Fund.

INVESTMENT PERFORMANCE. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings during the year, particular attention in assessing performance was given to the Lipper reports furnished for the agreement renewal. The Lipper report for the Fund showed its investment performance for the one-year period ended February 28, 2009, as well as the previous 10 years ended that date in respect to a performance universe consisting of the Fund and all other closed-end non-leveraged emerging market debt funds as selected by Lipper. Such report considered the Fund's income return and total return on a net asset value basis without regard to market discounts or premiums to accurately reflect investment performance. The Lipper report showed the Fund's income return to be in the highest, or best performing quintile in such performance universe for the one-year period, and on an annualized basis to also be in the highest quintile of such universe for the previous three- and five-year periods, and in the middle quintile of such universe for the previous 10-year period. Consistent with the market sell-off that occurred in 2008, the Fund and all other funds within the Lipper performance universe experienced losses for the one-year period. On a comparative basis, the Lipper report showed the Fund's total return to be in the second-highest quintile of the Lipper performance universe for the one-year period, and on an annualized basis to be in the highest quintile of such universe for the previous three-year

Templeton Emerging Markets Income Fund

SHAREHOLDER INFORMATION (CONTINUED)

BOARD REVIEW OF INVESTMENT MANAGEMENT AGREEMENT (CONTINUED)

period, the middle quintile of such universe for the previous five-year period, and the lowest quintile of such universe for the previous 10-year period. The Board was satisfied with such comparative investment performance noting the Fund's primary objective of seeking current income.

COMPARATIVE EXPENSES. Consideration was given to a comparative analysis of the management fees and total expense ratios of the Fund compared with a group of five other funds selected by Lipper as constituting its appropriate Lipper

expense group. Lipper expense data is based upon historical information taken from each fund's most recent annual report and, as a result of the severe decline in fund industry assets during the last quarter of 2008, is based on asset levels that are higher than the level currently existing for most funds. While recognizing the limitations inherent in Lipper's methodology and recognizing that current expense ratios may increase as assets decline, the Board believed that the independent analysis conducted by Lipper remained an appropriate measure of comparative expenses. In reviewing comparative costs, Lipper provides information on the Fund's contractual investment management fee in comparison with the effective management fee that would have been charged by the other five funds within the Lipper expense group assuming they were similar in size to the Fund, as well as the actual total expenses of the Fund in comparison with those of the other five funds. The Lipper contractual investment management fee analysis considers administrative fees to be part of management fees and the results of such expense comparison showed the Fund's contractual investment management fee rate to be the third lowest in its Lipper expense group, and its actual total expense rate to be the second lowest in such group. The Board was satisfied with the Fund's contractual investment management fee and expenses in comparison to those of the expense group.

MANAGEMENT PROFITABILITY. The Board also considered the level of profits realized by the Manager and its affiliates in connection with the operation of the Fund. In this respect, the Board reviewed the Fund profitability analysis that addresses the overall profitability of Franklin Templeton's U.S. fund business, as well as its profits in providing management and other services to the Fund during the 12-month period ended September 30, 2008, being the most recent fiscal year end for Franklin Resources, Inc., the Manager's parent. During such period, the assets of the Franklin Templeton U.S. fund business were significantly higher than currently existing, and to such extent the profitability analysis does not reflect current fund operations. While taking this into account in assessing the significance of the Fund profitability analysis, the Board recognized such analysis was made at a given point in time and that the decline in assets and effect on profitability would be reflected in the profitability analysis covering Franklin Resources' 2009 fiscal year period. In reviewing the analysis, attention was given to the methodology followed in allocating costs to the Fund, it being recognized that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. In this respect, the Board noted that, while being continuously refined and reflecting changes in the Manager's own cost accounting, the allocation methodology was consistent with that followed in profitability report presentations made in prior years

Annual Report | 41

Templeton Emerging Markets Income Fund

SHAREHOLDER INFORMATION (CONTINUED)

BOARD REVIEW OF INVESTMENT MANAGEMENT AGREEMENT (CONTINUED)

and that the Fund's independent registered public accounting firm had been engaged by the Manager to perform certain procedures on a biennial basis, specified and approved by the Manager and the Fund's Board solely for their purposes and use in reference to the profitability analysis. In reviewing and discussing such analysis, management discussed with the Board its belief that costs incurred in establishing the infrastructure necessary for the type of fund operations conducted by the Manager and its affiliates may not be fully reflected in the expenses allocated to the Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

management. In addition, the Board considered a third-party study comparing the profitability of the Manager's parent on an overall basis as compared to other publicly held managers broken down to show profitability from management operations exclusive of distribution expenses, as well as profitability including distribution expenses. The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from fund operations. Based upon its consideration of all these factors, the Board determined that the level of profits realized by the Manager and its affiliates from providing services to the Fund was not excessive in view of the nature, quality and extent of services provided.

ECONOMIES OF SCALE. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any such benefit is shared with the Fund and its shareholders. The Board believed that a manager's ability to realize economies of scale and the sharing of such benefit is a more relevant consideration in the case of an open-end fund whose size increases as a result of the continuous sale of its shares. A closed-end investment company such as the Fund does not continuously offer shares, and growth following its initial public offering will primarily result from market appreciation, which benefits its shareholders. While believing economies of scale to be less of a factor in the context of a closed-end fund, the Board believes at some point an increase in size may lead to economies of scale that should be shared with the Fund and its shareholders and intends to monitor future growth of the Fund accordingly. The Board also noted it had previously added a breakpoint to the Fund's investment advisory fee at the \$1 billion level.

PROXY VOTING POLICIES AND PROCEDURES

The Fund's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Fund uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Fund's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

QUARTERLY STATEMENT OF INVESTMENTS

The Fund files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each period on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling 1-800/SEC-0330.

CERTIFICATIONS

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

The Fund's Chief Executive Officer - Finance and Administration is required by the New York Stock Exchange's Listing Standards to file semiannually with the Exchange a certification that she is not aware of any violation by the Fund of the Exchange's Corporate Governance Standards applicable to the Fund. The Fund has filed such certification.

In addition, the Fund's Chief Executive Officer - Finance and Administration and Chief Financial Officer and Chief Accounting Officer are required by the rules of the U.S. Securities and Exchange Commission to provide certain certifications with respect to the Fund's Form N-CSR and Form N-CSRS (which include the Fund's annual and annual reports to shareholders) that are filed annually with the Commission. The Fund has filed such certifications with its Form N-CSRS for the six months ended February 28, 2009. Additionally, the Fund expects to file, on or about October 30, 2009, such certifications with its Form N-CSR for the year ended August 31, 2009.

ITEM 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics that applies to its principal executive officers and principal financial and accounting officer.
- (c) N/A
- (d) N/A
- (f) Pursuant to Item 12(a)(1), the Registrant is attaching as an exhibit a copy of its code of ethics that applies to its principal executive officers and principal financial and accounting officer.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

(a)(1) The Registrant has an audit committee financial expert serving on its audit committee.

- (2) The audit committee financial expert is David W. Niemiec and he is "independent" as defined under the relevant Securities and Exchange Commission Rules and Releases.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees

The aggregate fees paid to the principal accountant for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or for services that are normally provided by the principal accountant in connection with statutory and regulatory filings or engagements were \$46,671 for the fiscal year ended August 31, 2009 and \$46,206 for the fiscal year ended August 31, 2008.

(b) Audit-Related Fees

There were no fees paid to the principal accountant for assurance and related services rendered by the principal accountant to the registrant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of Item 4.

There were no fees paid to the principal accountant for assurance and related services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant that are reasonably related to the performance of the audit of their financial statements.

(c) Tax Fees

There were no fees paid to the principal accountant for professional services rendered by the principal accountant to the registrant for tax compliance, tax advice and tax planning.

The aggregate fees paid to the principal accountant for professional services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

investment adviser that provides ongoing services to the registrant for tax compliance, tax advice and tax planning were \$6,000 for the fiscal year ended August 31, 2009 and \$0 for the fiscal year ended August 31, 2008. The services for which these fees were paid included tax compliance and advice.

(d) All Other Fees

The aggregate fees paid to the principal accountant for products and services rendered by the principal accountant to the registrant not reported in paragraphs (a)-(c) of Item 4 were \$0 for the fiscal year ended August 31, 2009 and \$518 for the fiscal year ended August 31, 2008. The services for which these fees were paid include review of materials provided to the fund Board in connection with the investment management contract renewal process.

The aggregate fees paid to the principal accountant for products and services rendered by the principal accountant to the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant not reported in paragraphs (a)-(c) of Item 4 were \$0 for the fiscal year ended August 31, 2009 and \$283,559 for the fiscal year ended August 31, 2008. The services for which these fees were paid include review of materials provided to the fund Board in connection with the investment management contract renewal process.

(e) (1) The registrant's audit committee is directly responsible for approving the services to be provided by the auditors, including:

- (i) pre-approval of all audit and audit related services;
- (ii) pre-approval of all non-audit related services to be provided to the Fund by the auditors;
- (iii) pre-approval of all non-audit related services to be provided to the registrant by the auditors to the registrant's investment adviser or to any entity that controls, is controlled by or is under common control with the registrant's investment adviser and that provides ongoing services to the registrant where the non-audit services relate directly to the operations or financial reporting of the registrant; and

(iv) establishment by the audit committee, if deemed necessary or appropriate, as an alternative to committee pre-approval of services to be provided by the auditors, as required by paragraphs (ii) and (iii) above, of policies and procedures to permit such services to be pre-approved by other means, such as through establishment of guidelines or by action of a designated member or members of the committee; provided the policies and procedures are detailed as to the particular service and the committee is informed of each service and such policies and procedures do not include delegation of audit committee responsibilities, as contemplated under the Securities Exchange Act of 1934, to management; subject, in the case of (ii) through (iv), to any waivers, exceptions or exemptions that may be available under applicable law or rules.

(e) (2) None of the services provided to the registrant described in paragraphs (b)-(d) of Item 4 were approved by the audit committee pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of regulation S-X.

(f) No disclosures are required by this Item 4(f).

(g) The aggregate non-audit fees paid to the principal accountant for services rendered by the principal accountant to the registrant and the registrant's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant were \$6,000 for the fiscal year ended August 31, 2009 and \$284,077 for the fiscal year ended August 31, 2008.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

(h) The registrant's audit committee of the board has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Members of the Audit Committee are: Frank J. Crothers, David W. Niemiec, Ann Torre Bates and Constantine D. Tseretopoulos.

ITEM 6. SCHEDULE OF INVESTMENTS. N/A

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of trustees of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Franklin Advisers, Inc. in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to RiskMetrics Group (RiskMetrics), an unaffiliated third-party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third-party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although RiskMetrics' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from RiskMetrics, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. As a matter of policy, the officers, directors/trustees and employees of the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. Efforts are made to resolve all conflicts in the interests of the manager's clients. Material conflicts of interest are identified by the Proxy Group based upon analyses of client, distributor, broker dealer and vendor lists, information periodically gathered from directors and officers, and information derived from other sources, including public filings. In situations where a material conflict of interest is identified, the Proxy Group may defer to the voting recommendation of RiskMetrics, Glass Lewis or those of another independent third-party provider of proxy services; or send the proxy directly to the Fund with the manager's recommendation regarding the vote for approval. If the conflict is not resolved by the Fund, the Proxy Group may refer the matter, along with the recommended course of action by the manager, if any, to an interdepartmental Proxy Review Committee (which may include portfolio managers and/or research analysts employed by the manager), for evaluation and voting instructions. The Proxy Review Committee may defer to the voting recommendation of RiskMetrics, Glass Lewis or those of another independent third-party provider of proxy services; or send the proxy directly to the Fund. Where the Proxy Group or the Proxy Review

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

Committee refers a matter to the Fund, it may rely upon the instructions of a representative of the Fund, such as the board or a committee of the board.

Where a material conflict of interest has been identified, but the items on which the manager's vote recommendations differ from Glass Lewis, RiskMetrics, or another independent third-party provider of proxy services relate specifically to (1) shareholder proposals regarding social or environmental issues or political contributions, (2) "Other Business" without describing the matters that might be considered, or (3) items the manager wishes to vote in opposition to the recommendations of an issuer's management, the Proxy Group may defer to the vote recommendations of the manager rather than sending the proxy directly to the Fund for approval.

To avoid certain potential conflicts of interest, the manager will employ echo voting, if possible, in the following instances: (1) when the Fund invests in an underlying fund in reliance on any one of Sections 12(d)(1)(E), (F), or (G) of the 1940 Act, or pursuant to an SEC exemptive order; (2) when the Fund invests uninvested cash in affiliated money market funds pursuant to an SEC exemptive order ("cash sweep arrangement"); or (3) when required pursuant to the Fund's governing documents or applicable law. Echo voting means that the investment manager will vote the shares in the same proportion as the vote of all of the other holders of the Fund's shares.

The recommendation of management on any issue is a factor that the manager considers in determining how proxies should be voted. However, the manager does not consider recommendations from management to be determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. The manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT AND DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with the shareholders' long-term interests. The manager believes that executive compensation should be directly linked to the performance of the company. The manager evaluates plans on a case-by-case basis

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

by considering several factors to determine whether the plan is fair and reasonable, including the RiskMetrics quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. However, as with all proxy issues, the manager conducts an independent review of each anti-takeover proposal. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. In addition, the manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager realizes that a company's financing decisions have a significant impact on its shareholders, particularly when they involve the issuance of additional shares of common or preferred stock or the assumption of additional debt. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to the manager's proxy voting decisions for international investments. However, the manager must be flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign issuers. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

sell orders preclude the ability to vote. If a security is on loan, the manager may determine that it is not in the best interests of the Fund to recall the security for voting purposes. Also, the manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954)527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at WWW.SEC.GOV. The proxy voting records are updated each year by August 31 to reflect the most recent 12-month period ended June 30.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

(a) (1) As of October 30, 2009, the portfolio manager of the Fund is as follows:

MICHAEL HASENSTAB PH.D, Senior Vice President OF FRANKLIN ADVISERS, INC.

Dr. Hasenstab has been a portfolio manager of the Fund since 2002. He has final authority over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio risk assessment, and the management of daily cash balances in accordance with anticipated management requirements. The degree to which he may perform these functions, and the nature of these functions, may change from time to time. He first joined Franklin Templeton Investments in 1995, rejoining again in 2001 after a three-year leave to obtain his PH.D.

(a) (2) This section reflects information about the portfolio managers as of the fiscal year ended August 31, 2009.

The following table shows the number of other accounts managed by each portfolio manager and the total assets in the accounts managed within each category:

NAME	NUMBER OF OTHER REGISTERED INVESTMENT COMPANIES MANAGED	ASSETS OF OTHER REGISTERED INVESTMENT COMPANIES MANAGED (X \$1 MILLION)	NUMBER OF OTHER POOLED INVESTMENT VEHICLES MANAGED/1	ASSETS OF OTHER POOLED INVESTMENT VEHICLES MANAGED (X \$1 MILLION)/1	NUMBER OF OTHER ACCOUNTS MANAGED/1	ASSETS OF OTHER ACCOUNTS MANAGED (X \$1 MILLION)/1
Michael Hasenstab	13	22,440.5	24	18,227.4	12	987.9

1. The various pooled investment vehicles and accounts listed are managed by a team of investment professionals. Accordingly, the individual managers listed would not be solely responsible for managing such listed amounts.

Portfolio managers that provide investment services to the Fund may also provide services to a variety of other investment products, including other funds, institutional accounts and private accounts. The advisory fees for some of such other products and accounts may be different than that charged to the Fund and may include performance-based compensation. This may result in fees that are higher (or lower) than the advisory fees paid by the Fund. As a matter of policy, each fund or account is managed solely for the benefit of the beneficial owners thereof. As discussed below, the separation of the trading execution

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

function from the portfolio management function and the application of objectively based trade allocation procedures helps to mitigate potential conflicts of interest that may arise as a result of the portfolio managers managing accounts with different advisory fees.

CONFLICTS. The management of multiple funds, including the Fund, and accounts may also give rise to potential conflicts of interest if the funds and other accounts have different objectives, benchmarks, time horizons, and fees as the portfolio manager must allocate his or her time and investment ideas across multiple funds and accounts. The manager seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment strategies that are used in connection with the management of the Fund. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar portfolios, which may minimize the potential for conflicts of interest. As noted above, the separate management of the trade execution and valuation functions from the portfolio management process also helps to reduce potential conflicts of interest. However, securities selected for funds or accounts other than the Fund may outperform the securities selected for the Fund. Moreover, if a portfolio manager identifies a limited investment opportunity that may be suitable for more than one fund or other account, the Fund may not be able to take full advantage of that opportunity due to an allocation of that opportunity across all eligible funds and other accounts. The manager seeks to manage such potential conflicts by using procedures intended to provide a fair allocation of buy and sell opportunities among funds and other accounts.

The structure of a portfolio manager's compensation may give rise to potential conflicts of interest. A portfolio manager's base pay and bonus tend to increase with additional and more complex responsibilities that include increased assets under management. As such, there may be an indirect relationship between a portfolio manager's marketing or sales efforts and his or her bonus.

Finally, the management of personal accounts by a portfolio manager may give rise to potential conflicts of interest. While the funds and the manager have adopted a code of ethics, which they believe contains provisions reasonably necessary to prevent a wide range of prohibited activities by portfolio managers and others with respect to their personal trading activities, there can be no assurance that the code of ethics addresses all individual conduct that could result in conflicts of interest.

The manager and the Fund have adopted certain compliance procedures that are designed to address these, and other, types of conflicts. However, there is no guarantee that such procedures will detect each and every situation where a conflict arises.

COMPENSATION. The manager seeks to maintain a compensation program that is competitively positioned to attract, retain and motivate top-quality investment professionals. Portfolio managers receive a base salary, a cash incentive bonus opportunity, an equity compensation opportunity, and a benefits package. Portfolio manager compensation is reviewed annually and the level of compensation is based on individual performance, the salary range for a portfolio manager's level of responsibility and Franklin Templeton guidelines. Portfolio managers are provided no financial incentive to favor one fund or account over another. Each portfolio manager's compensation consists of the following three elements:

BASE SALARY Each portfolio manager is paid a base salary.

ANNUAL BONUS Annual bonuses are structured to align the interests of the portfolio manager with those of the Fund's shareholders. Each

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

portfolio manager is eligible to receive an annual bonus. Bonuses generally are split between cash (50% to 65%) and restricted shares of Franklin Resources stock (17.5% to 25%) and mutual fund shares (17.5% to 25%). The deferred equity-based compensation is intended to build a vested interest of the portfolio manager in the financial performance of both Franklin Resources and mutual funds advised by the manager. The bonus plan is intended to provide a competitive level of annual bonus compensation that is tied to the portfolio manager achieving consistently strong investment performance, which aligns the financial incentives of the portfolio manager and Fund shareholders. The Chief Investment Officer of the manager and/or other officers of the manager, with responsibility for the Fund, have discretion in the granting of annual bonuses to portfolio managers in accordance with Franklin Templeton guidelines. The following factors are generally used in determining bonuses under the plan:

- |X| INVESTMENT PERFORMANCE. Primary consideration is given to the historic investment performance over the 1, 3 and 5 preceding years of all accounts managed by the portfolio manager. The pre-tax performance of each fund managed is measured relative to a relevant peer group and/or applicable benchmark as appropriate.
- |X| NON-INVESTMENT PERFORMANCE. The more qualitative contributions of a portfolio manager to the manager's business and the investment management team, including professional knowledge, productivity, responsiveness to client needs and communication, are evaluated in determining the amount of any bonus award.
- |X| RESPONSIBILITIES. The characteristics and complexity of funds managed by the portfolio manager are factored in the manager's appraisal.

ADDITIONAL LONG-TERM EQUITY-BASED COMPENSATION Portfolio managers may also be awarded restricted shares or units of Franklin Resources stock or restricted shares or units of one or more mutual funds, and options to purchase common shares of Franklin Resources stock. Awards of such deferred equity-based compensation typically vest over time, so as to create incentives to retain key talent.

Portfolio managers also participate in benefit plans and programs available generally to all employees of the manager.

OWNERSHIP OF FUND SHARES. The manager has a policy of encouraging portfolio managers to invest in the funds they manage. Exceptions arise when, for example, a fund is closed to new investors or when tax considerations or jurisdictional constraints cause such an investment to be inappropriate for the portfolio manager. The following is the dollar range of Fund shares beneficially owned by each portfolio manager (such amounts may change from time to time):

Portfolio Manager	Dollar Range of Fund Shares Beneficially Owned
Michael Hasenstab	None

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. N/A

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Edgar Filing: TEMPLETON EMERGING MARKETS INCOME FUND - Form N-CSR

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

ITEM 11. CONTROLS AND PROCEDURES.

(A) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(B) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.

ITEM 12. EXHIBITS.

(A) (1) Code of Ethics

(A) (2) Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 of Laura F. Ferguson, Chief Executive Officer - Finance and Administration, and Mark H. Otani, Chief Financial Officer and Chief Accounting Officer

(B) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 of Laura F. Ferguson, Chief Executive Officer - Finance and Administration, and Mark H. Otani, Chief Financial Officer and Chief Accounting Officer

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
