ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.  
-----

## Edgar Filing: 5B TECHNOLOGIES CORP - Form 8-K/A

On July 30, 2001, The Company executed a definitive agreement to acquire certain assets of KSG. On August 16, 2001, the Company acquired the operating assets of KSG in exchange for 150,000 shares of the Company's common stock and the assumption by the Company of certain indebtedness of KSG, including KSG's indebtedness to the Connecticut Bank of Commerce ("CBC"). The Company issued to CBC 140,193 shares of common stock and shares of the Company's Series C, Series D and Series E Convertible Preferred Stock (the "CBC Preferred Stock") in satisfaction of the Company's obligations with respect to such CBC indebtedness. The CBC Preferred Stock is convertible into an aggregate of 648,486 shares of the Company's common stock; provided, however, that to the extent such CBC Preferred Stock will be converted into shares of common stock that exceed 19.9% of the Company's outstanding common stock (calculated as of the date of issuance of the CBC Preferred Stock), the Company must first obtain the approval of the Company's stockholders prior to such issuance. The Company has undertaken to obtain such stockholder approval at the annual meeting of stockholders scheduled for 2002. Additionally, the Company has granted certain registration rights with respect to the shares of common stock issuable upon conversion of the CBC Preferred Stock and has undertaken to register the 140,193 shares of common stock issued to CBC within 120 business days of the date of issuance. The terms of the CBC Preferred Stock also contain certain anti-dilution protections, including those related to issuances of securities by the Company below the market price per share. In connection with the KSG transaction, CBC has amended its credit arrangement with the Company by making such arrangement less restrictive with respect to the mezzanine facility.

## Edgar Filing: 5B TECHNOLOGIES CORP - Form 8-K/A

generated through various internet consulting services including web-site development, electronic commerce and technology consulting, and web-site hosting. A summary of the Company's accounting policies that affect the more significant elements of the financial statements is stated below.

### PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation is computed utilizing the straight-line method based on estimated useful lives of three to ten years. Routine maintenance and repairs are expensed as incurred.

### INCOME TAXES

The Company with the consent of its stockholders, has elected to be treated as an "S" corporation for Federal and New York State income tax purposes. The stockholders of an S Corporation are taxed individually on their proportionate share of the Company's taxable income. Therefore, no provision or liability for these income taxes has been included in the financial statements.

### USE OF ESTIMATES

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

### INTANGIBLE ASSETS

Intangible assets are being amortized using the straight-line method over 5 years.

NOTE 10 - INCOME TAXES

The provision for income taxes consists of payments for prior years under accruals.

The Company has available approximately \$2,000,000 of New York City net operating loss carryforwards available to reduce future taxable income expiring in 2015.

Deferred tax assets valuation allowance	180,000

NOTE 11 - GOING CONCERN

As shown in the accompanying financial statements, the Company has incurred losses from operations, and as of December 31, 2000, the Company's current liabilities exceeded its current assets by approximately \$1,966,000 and its total liabilities exceeded its total assets by approximately \$1,625,000. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management has instituted a cost reduction program that included a reduction in labor and fringe costs. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. See Note 12.

NOTE 12 - SUBSEQUENT EVENT

On August 15, 2001, the Company sold all accounts receivable less than 90 days old, property and equipment and all intangible assets to 5 B Technologies Corporation for 150,000 shares of that company's common stock and the assumption of the bank loan and lease obligations. Certain of the Company's stockholders entered into consulting agreements with the purchaser.

The Company issued to CBC 140,193 shares of common stock, (valued at \$0.51 per share, the closing price on July 30, 2001) and shares of the Company's Series C, Series D and Series E Convertible Preferred Stock (the "CBC Preferred Stock") (estimated value of \$709,000, based on a preliminary independent valuation which the Company may change in subsequent filings) in satisfaction of the Company's obligations with respect to such CBC indebtedness. The Company has undertaken to obtain such stockholder approval at the annual meeting of stockholders scheduled for 2002. Additionally, the Company has granted certain registration rights with respect to the shares of common stock issuable upon conversion of the CBC Preferred Stock and has undertaken to register the 140,193 shares of common stock issued to CBC within 120 business days of the date of issuance. The terms of the CBC Preferred Stock also contains certain anti-dilution protections, including with respect to issuances of securities by the Company below the market price per share.
