ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the fiscal year ended June 30, 2002

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

Commission File Number 0-19092

ROSS SYSTEMS, INC.

Incorporated in Delaware

IRS Employer Identification No. 94-2170198

Two Concourse Parkway, Suite 800
Atlanta, Georgia 30328
(770) 351-9600

Securities registered pursuant to Section 12(b) of the Act:

Title of each class -----	Name of each exchange on which registered -----
None.....	None

Securities registered pursuant to Section 12(g) of the Act:
Common Stock, \$0.001 par value; Preferred Shares Purchase Rights

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

The aggregate market value of the Registrant's voting stock held by non-affiliates of the Registrant, based upon the closing sale price of the Common Stock on September 24, 2002 as reported by the NASDAQ National Market, was approximately \$19,207,970. Shares of voting stock held by each officer and director and by each person who owns 5% or more of the outstanding Common Stock

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

As of August 31, 2002, the Registrant had outstanding 2,645,726 shares of Common Stock, and 500,000 Series A 7.5%, convertible preference shares.

DOCUMENTS INCORPORATED BY REFERENCE

Certain items in Part III of this form 10-K Report are incorporated by reference to the Registrant's Proxy Statement for the Registrant's 2002 Annual Meeting of Stockholders to be held November 14, 2002

PART I

ITEM 1. BUSINESS

THIS REPORT ON FORM 10-K (THE "REPORT") CONTAINS FORWARD LOOKING STATEMENTS REGARDING FUTURE EVENTS WITH RESPECT TO ROSS SYSTEMS, INC. ACTUAL EVENTS OR RESULTS COULD DIFFER MATERIALLY DUE TO A NUMBER OF FACTORS, INCLUDING THOSE DESCRIBED HEREIN AND IN DOCUMENTS INCORPORATED HEREIN BY REFERENCE, AND THOSE FACTORS DESCRIBED UNDER "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS".

General

The following description of business is qualified in its entirety by, and should be read in conjunction with the more detailed information and financial data, including the financial statements and notes thereto, appearing elsewhere in this Report. Unless otherwise stated in this document, references to (a) the "Company" or (b) "Ross" shall mean Ross Systems, Inc., a Delaware corporation, and its subsidiaries.

Ross Systems Inc. (NASDAQ:ROSS) founded in 1972, supplies leading enterprise solutions software designed for process manufacturing companies primarily in the food and beverage, life sciences, chemicals, metals and natural products industries. The Company offers the award-winning iRenaissance(TM) family of software solutions which is an integrated suite of enterprise resource planning (ERP II), financials, materials management, manufacturing and distribution, supply chain management (SCM), advanced planning and scheduling, customer relationship management (CRM), electronic commerce, business intelligence and analytics applications.

iRenaissance applications are renowned for their deep and rich functional fit to process industry requirements as well as their short implementation times and cost-effective returns on investment.

More than 1,000 companies around the world use Ross Systems solutions on a wide range of popular databases, including Oracle and Microsoft, as well as operating systems including NT and UNIX. Ross Systems has more than 10 offices globally, to serve its customers. Customers are primarily medium-sized companies (with annual sales of \$50 million to \$1 billion) upgrading internal systems to improve profitability through the availability of timely and accurate information, ensure compliance with regulatory requirements such as those imposed by the FDA and USDA, and collaborate effectively with customer and suppliers.

The Company licenses its products to customers through a direct sales force in North America and Western Europe as well as independent distributors in dozens of other markets worldwide.

Products

The Company markets a broad range of sophisticated business applications that address B2B electronic commerce including procurement, collaborative planning, financial, manufacturing, distribution, supply chain management, and human resource needs of process manufacturers. Specifically,

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

these applications are designed to address the unique requirements of manufacturers in the food and beverage, life sciences, chemicals, metals and natural products industries. In addition, the Company supports a large installed base of companies, which utilize the Company's financial products exclusively. The Company's software product license fees are based on the modules licensed and the number of concurrent users supported by the hardware on which the modules operate.

Technology

The Company leverages contemporary Internet technologies to enable significant benefits for its customers. Many Ross customers have benefited from technology obsolescence protection as they have moved from older computing platforms to current platforms without reinstallation of the iRenaissance applications or re-writes of custom-developed applications. Built on a highly flexible technology platform, iRenaissance applications cost-effectively support mid-size companies and scale effectively to support large, global organizations with thousands of users processing hundreds of thousands of transactions daily. Ross customers also benefit from the low cost of deployment and centralized maintenance afforded by browser-based PC clients that provide secure access from any PC with Internet access, to the system infrastructure at central locations where the software resides and the data is

1

ROSS SYSTEMS, INC AND SUBSIDIARIES

managed. End-user satisfaction is enhanced by highly configurable and easily personalized applications that provide follow-me profiles for each user, regardless of physical location. Utilizing contemporary standards such as XML, SOAP, Microsoft .NET and others, iRenaissance applications can be effectively connected to any other applications or devices via the Internet. Robust security features that leverage Internet standards protect applications and data with both user-based and application function profiles. The security facilities further enable companies in their effort to achieve regulatory compliance by providing detailed audit trails for every action taken by every user.

The Company offers its comprehensive Enterprise Resource Planning ("ERP") solution with functionality specifically tailored to the unique formula and specifications-based requirements of process manufacturers, including the food and beverage, life sciences, chemicals, metals and natural products companies. The Company believes that this native functionality is superior to the alternative offered by most of the Company's competitors. The product may be deployed in a thin client mode and accessed directly through a web browser to permit the greatest performance advantage and streamlined deployment for companies using remote communications over the Internet.

The iRenaissance(TM) applications run on Microsoft's Windows NT; Compaq Corporation's ("Compaq") Alpha, UNIX, and Open VMS operating systems; International Business Machines Corporation's ("IBM") RS/6000; Hewlett-Packard Company's ("HP") HP-UX; Sun's Solaris operating system, and Fujitsu's DS-90 UNIX. The company's products currently support multiple database management systems, including: Oracle Systems Corporation's Oracle 8i, and Microsoft's SQL Server 7.

The Company's Renaissance classic line of general business accounting applications is feature rich and well integrated. The Company has continued to enhance these applications to serve existing customers. The Company will

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

continue to support the Renaissance classic products to its installed base of customers. To provide a long-term growth path for Renaissance classic customers, the Company offers them the ability to upgrade to its new products at attractive pricing.

Product Line Expansion

In fiscal 2002, the Company continued to expand its product line in the collaborative business to business (B2B) applications. With connectivity to the ERP backbone systems over the Internet to customers and suppliers, these products enable customers to tightly link trading partner supply chains to achieve sustainable competitive advantage. These applications enable companies to leverage the Internet to automate business processes and effectively manage business resources. This includes:

iRenaissance ERP - Designed specifically to address the needs of process manufacturing companies, with applications for Manufacturing & Distribution, Financials and Human Resources management. The Manufacturing & Distribution application provides process-specific inventory, quality management, regulatory compliance management and risk mitigation solutions. It is tightly integrated with the Financials applications, providing the benefit of comprehensive management of order-to-cash, manufacturing planning and procure-to-pay processes.

The Financials applications are tightly integrated with the Manufacturing & Distribution applications to enable the efficient management and optimization of business operations. Deep functionality provides the support necessary for multi-company, multi-language and multi-currency requirements.

The Human Resources application is also integrated with the applications, and enables management of employee resources including payments, benefits administration, 401K and performance management.

iRenaissance SCM - Designed with many unique capabilities needed by process manufacturing companies, this comprehensive solution provides tightly integrated Supply Chain Management applications that help companies maximize and strengthen collaborative commerce, planning and forecasting activities across the supply chain.

Demand Management applications enable companies to accurately forecast demand, down to the customer location level, and simultaneously improve customer service while reducing inventory. It is especially suited to the needs of process manufacturers whose ingredient demand patterns vary widely based on seasonality, availability, and potency.

2

ROSS SYSTEMS, INC AND SUBSIDIARIES

The Supply Management applications bring together the best, unconstrained demand plan with available supply, allowing companies to tightly link and track business plans and departmental operations. It includes Replenishment Planning, Optimized Orders, Advanced Planning and Advanced Scheduling modules.

The Sales and Operations Planning application combines information from outside and inside the enterprise, and effectively applies it to the decision support system for a company's supply chain. This application

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

dynamically extracts data and information from iRenaissance SCM applications and other iRenaissance solutions in order to generate sophisticated analyses and plans that provide a management tool to measure performance and judge the impact of proposed corrective actions.

iRenaissance CRM - This sophisticated Customer Relationship Management solution provides customers with Web-based selling, customer self-service, specialized order entry, integrated sales and marketing programs, broker and distributor portals, client tracking and performance management applications.

In addition to providing robust support for sales force automation requirements, this application also addresses the complex challenges of multi-tier distribution and revenue channels often faced by companies in the process manufacturing industries.

iRenaissance Commerce - enables companies to cost-effectively extend internal applications to the web to improve collaboration and service levels provided to customers and channel partners. Companies leverage iRenaissance Commerce to offer their customers and prospects value before, during and after the sale, and take full advantage of cross-selling opportunities. Additionally, using iRenaissance Commerce, existing iRenaissance applications can be leveraged to publish dynamic product catalogs, support 24x7 customer self-service and order status inquiry, and take orders via the web.

Third-Party Products

The Company resells complementary software products licensed from third parties, including applications for custom reporting of information maintained by the Company's programs such as Business Objects for executive information, and FRx for financial reporting and budgeting, as well as certain middle-ware products. The Company resells other privately labeled software products licensed from third parties including Prescient Systems (rebranded as iRenaissance SCM) and Selligent (rebranded as iRenaissance CRM). Additionally, the Company has entered into agreements which enable it to resell database products and other products that are sublicensed to end users in conjunction with certain of the Company's open systems products. License revenues from the products described in this paragraph constitute approximately 18% of total software product license revenue in fiscal 2002.

Services

The Company's worldwide consulting services operation complements its e-business and enterprise software sales organizations. The Company offers a broad selection of services to install and optimize each available software product. Services provided by the Company fall into two broad categories, Professional Services and Client Support.

Professional Services

The Company's Professional Services organization provides business application experience, technical expertise and product knowledge to complement the Company's products and to provide solutions to clients' business requirements. The major types of services provided include the following:

Application Consulting involves in-depth analysis of the client's specific needs and the preparation of detailed plans that list step-by-step actions and procedures necessary to achieve a timely and successful implementation of the Company's software products. These services are

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

generally offered on a time and expense reimbursement basis.

Technical Consulting involves evaluating and managing the client's needs by supplying custom application systems, custom interfaces, data conversions, and system conversions. Consultants participate in a wide range of

3

ROSS SYSTEMS, INC AND SUBSIDIARIES

activities, including requirements definition, and software design, development and implementation. The Company also provides advanced technology services focused on networking, database administration and tuning. These services are generally offered on a time and expense reimbursement basis. The Company also provides remote systems management, and remote applications management.

Education Services are offered to clients either at the Company's education facilities or at the client's location, as either standard or customized classes.

Established relationships with third party consulting partners are utilized in specific instances, to take advantage of specialized industry expertise and to support the implementation demands of the Company and its customers.

Client Support

The Company's Client Support functions include web-based support, telephone support, technical publications and product support guides, which are provided under the Company's standard maintenance agreements. The annual maintenance fee for these services is 20% price for the licensed software. The standard maintenance agreement also entitles clients to certain new product releases and product enhancements.

Marketing and Sales

The Company sells its products and services in the US and Western Europe primarily through its direct sales force. At June 30, 2002, the Company had 46 sales and marketing employees. In other areas of the world, the Company sells its products through distributors. In support of its sales force and distributors, the Company conducts comprehensive marketing programs which include telemarketing, direct mailings, advertising, promotional material, seminars, trade shows, public relations and on-going customer communication.

The Company is based in Atlanta, Georgia, with a regional direct sales force covering all major US business locations. The Company has subsidiaries in Antwerp, Belgium; Ottawa, Canada; Berlin, Germany; Utrecht, the Netherlands; Barcelona, Spain; Northampton, United Kingdom as well as Hong Kong and Singapore.

The Company has distribution arrangements with distributors in the following countries: Argentina, Australia, Brazil, Chile, China, Colombia, Czech Republic, Denmark, Finland, Germany, Greece, Hong Kong, Hungary, Indonesia, Ireland, Italy, Japan, Jordan, Lebanon, Malaysia, Mexico, Morocco, New Zealand, Norway, Pakistan, Peru, Poland, Portugal, Rumania,

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Russia, Saudi Arabia, Singapore, Slovak Republic, Sweden, Taiwan, Thailand, Uruguay and Venezuela. These distributors pay the Company royalties on the sales of the Company's products and maintenance services.

International revenues (from foreign operations and export sales) represented approximately 45%, 33%, and 32%, of the Company's revenues in fiscal 2002, 2001, and 2000, respectively. The Company intends to broaden its presence in international markets by entering into additional distribution agreements.

Product Development and Acquisitions

To meet the increasingly sophisticated needs of its customers and address potential new markets, the Company continually strives to enhance its existing product functionality. The Company surveys the needs of its customers annually through ballots and at its user conference and incorporates many of their recommendations into its products. The Company also conducts a variety of forms of market research with industry analyst groups and targeted industries to determine strategies for new features and functions. The Company is committed to achieving advances in the use of computer systems technology and to expanding the breadth of its product line.

The Company intends to expand its potential markets by developing new products which address the needs of additional prospective customers, including those in key international markets related to both language, currency and local accounting custom and procedure. iRenaissance version 5.7 was released in the fourth quarter of fiscal 2002. During fiscal 2002, the Company changed some aspects of its technology direction. The internet related functionality of the iRenaissance product was re-directed from the "java" based development to the Microsoft ".net" technology. This strategic re-direction was based on the Company's belief that the .net technology will serve the Company and its customers better in the future, due to fuller market penetration, better standards of compatibility, and superior technical adaptability. The Company's internet based offerings are currently being converted to the new technology and the first releases of the changed products should occur before the end of the calendar year. Development of version 6.0 of the product has commenced and the Company plans to release this

ROSS SYSTEMS, INC AND SUBSIDIARIES

version in the second quarter of fiscal 2004. The majority of the capitalized software cost of \$14,036,000 consists of previously completed projects and is currently being amortized. In fiscal 2002 the Company introduced iRenaissance SCM, iRenaissance CRM, and iRenaissance Commerce to its product suite.

Competition

The business applications software market is intensely competitive. The Company competes with a broad range of applications software companies. The Company's competitors include the following: general business application software providers, such as J.D. Edwards, Oracle Corporation, and SAP AG; as well as business applications software providers in specific

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

vertical markets that offer products that compete with the Company's process manufacturing products. The principal competitive factors in the market for business application software include product reputation, product functionality, performance, quality of customer support, size of installed base, financial stability, hardware and software platforms supported, price, and timeliness of installation. The Company believes it competes effectively with respect to these factors.

Proprietary Rights and Licenses

The Company provides its products to end users generally under nonexclusive, nontransferable licenses, which generally have perpetual terms. Under the general terms and conditions of the Company's standard license agreements, the licensed software may be used solely for internal operations on designated computers at specific sites. The Company makes source code available for certain portions of its products.

The Company has registered "iRENAISSANCE", "RENAISSANCE", "RENAISSANCE CS", "STRATEGIC APPLICATION MODELER (SAM) and "ROSS SYSTEMS" as trademarks in the United States. The Company has applied for a provisional patent with respect to systems and associated methods for determining availability and pricing of goods based on attributes. The Company has secured registration of its copyrights in the United States for 19 of its products. The Company has service mark applications pending for, "THE BUSINESS OF E-COMMERCE". Although the Company takes steps to protect its intellectual property, misappropriation may nevertheless occur and copyright and trade secret protection may not be available in certain countries.

Except as noted above, the Company relies on a combination of trade secret, copyright and trademark laws, and license agreements to protect its proprietary rights in its products. The Company believes its products, trademarks, copyrights and other proprietary rights do not infringe the rights of third parties. If it is determined that the Company infringes the proprietary rights of third parties, such determination may harm the Company's business and operating results.

Employees

As of June 30, 2002, the Company employed a total of 256 full time employees, including 46 in sales and marketing, 42 in product development, 127 in professional services and client support, and 41 in finance, administration and operations. The Company's employees are not represented by a labor union, and the Company believes that its employee relations are good.

ITEM 2. PROPERTIES

The Company's corporate headquarters, research and development, sales, marketing, consulting and support facilities are located in Atlanta, Georgia, where the Company occupies approximately 22,000 square feet. The Company also maintains a facility for product development in Escondido, California, which occupies 3,200 square feet.

International offices are maintained in Belgium (Antwerp); China (Hong Kong); England (Northampton); Germany (Berlin); Netherlands (Utrecht); New Zealand (Auckland); and Spain (Barcelona).

At June 30, 2002, all facilities are leased with periods remaining to

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

renewal varying from nine months to thirteen years. The Company believes its facilities are adequate for its current needs and that the Company can obtain suitable additional space as required.

5

ROSS SYSTEMS, INC AND SUBSIDIARIES

ITEM 3. LEGAL PROCEEDINGS

As of and for the fiscal year ended June 30, 2002, the Company is not a party to any pending litigation other than ordinary routine litigation that is incidental to the operations of the business and the Company is not aware of any threatened litigation. The Company believes that routine litigation currently in process is unlikely to have a material adverse effect on its financial results.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable

6

ROSS SYSTEMS, INC AND SUBSIDIARIES

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY AND RELATED SHAREHOLDER MATTERS

The following table sets forth the range of high and low bid prices for the Company's Common Stock on the NASDAQ National Market for each of the quarters of fiscal 2002 and 2001. The Company's Common Stock trades under the NASDAQ symbol ROSS.

Fiscal 2002 -----	High ----	Low ----
First quarter.....	\$4.08	\$2.94
Second quarter.....	\$6.31	\$2.38
Third quarter.....	\$11.56	\$5.82
Fourth quarter.....	\$11.65	\$7.80
Fiscal 2001 -----	High ----	Low ----
First quarter.....	\$15.62	\$6.56
Second quarter.....	\$6.87	\$1.87
Third quarter.....	\$7.81	\$2.18
Fourth quarter.....	\$4.45	\$1.87

The Company has never declared or paid cash dividends on its Common Stock, and the Company does not plan to declare or pay dividends in the future. The Company intends to use earnings to finance the expansion of its

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

business. In addition, the Company's line of credit agreement with Silicon Valley Bank dated September 24, 2002, contains certain covenants which limit the Company's ability to pay cash dividends. This does not affect the dividends payable on the Convertible Preference Shares in issue.

As of September 24, 2002, the number of Common Stock, stockholders in street name and of record exceeded 6,500.

On June 29, 2001, the Company issued mandatorily convertible preferred stock to a qualified investor in a private placement transaction. In summary, the investor purchased 500,000 preferred shares at \$4 per share yielding \$2,000,000 for the Company. This price represented a premium to the market for the Company's common stock at the time of issuance. The preferred shares cannot be converted for one year but must be converted within five years from the issue date. The shares earn dividends at the rate of 7.5%. At September 20, 2002 none of the preference shares had been converted to common stock. The shares are convertible, one for one, at a price of \$4.00 per share.

On April 27, 2001 the Company executed a 1 for 10 reverse stock split. All share data for the year ended June 30, 2002 contained in the "Management's Discussion and Analysis of Financial Condition and Results of Operations", and the "Consolidated Financial Statements" reflects the split and all comparative numbers of shares for prior periods have been restated to conform.

7

ROSS SYSTEMS, INC AND SUBSIDIARIES

ITEM 6. SELECTED FINANCIAL DATA

The selected consolidated financial data set forth below should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations," the Consolidated Financial Statements of Ross Systems, and Notes thereto, and other financial information included elsewhere in this Form 10-K. Historical results are not necessarily indicative of results that may be expected in for future periods.

CONSOLIDATED FINANCIAL DATA (In thousands, except earnings per share)

	Years Ended	
	2002	2001

- (1) Revenues and operating costs have been increased in all years by the reclassification of Reimbursable Expenses to comply with EITF 01-14. See note 1(h) in the notes to the Consolidated Financial Statements on page F-8.

- (2) In accordance with the adoption on SFAS No. 142, the Company ceased amortization of Goodwill beginning July 1, 2001. See note 1(p) to the Consolidated Financial Statements on page F-10.

- (3) In accordance with SFAS No. 86, the Company recorded an impairment of Capitalized Software Costs during the year ended June 30, 2002. See note 1(r) to the Consolidated Financial Statements on page F-12

8

ROSS SYSTEMS, INC AND SUBSIDIARIES

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

STATEMENTS IN THE MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS WHICH EXPRESS THAT THE COMPANY "BELIEVES", "ANTICIPATES", OR "PLANS TO" AS WELL AS OTHER STATEMENTS WHICH ARE NOT HISTORICAL FACT, ARE FORWARD LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. ACTUAL EVENTS OR RESULTS MAY DIFFER MATERIALLY AS A RESULT OF THE RISKS AND UNCERTAINTIES DESCRIBED HEREIN AND ELSEWHERE INCLUDING, IN PARTICULAR THOSE FACTORS DESCRIBED UNDER "BUSINESS" SET FORTH IN PART I OF THIS REPORT AS WELL AS IN OTHER RISKS AND UNCERTAINTIES IN THE DOCUMENTS INCORPORATED HEREIN BY REFERENCE.

Critical Accounting Policies

Basis of Presentation. The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

Revenue Recognition In accordance with SEC Staff Accounting Bulletin No. 101 "Revenue Recognition in Financial Statements", the Company recognizes revenues from licenses of computer software "up-front" provided

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

that a non-cancelable license agreement has been signed, the software and related documentation have been shipped, there are no material uncertainties regarding customer acceptance, collection of the resulting receivable is deemed probable, and no significant other vendor obligations exist. The revenue associated with any license agreements containing cancellation or refund provisions is deferred until such provisions lapse. Where the Company has future obligations, if such obligations are insignificant, related costs are accrued immediately. When the obligations are significant, the software product license revenues are deferred. Future contractual obligations can include software customization, requirements to provide additional products in the future and porting products to new platforms. Contracts which require significant software customization are accounted for on the percentage-of-completion basis. Revenues related to significant obligations to provide future products or to port existing products are deferred until the new products or ports are completed.

Service revenues generated from professional consulting and training services are recognized as the services are performed. Maintenance revenues, including revenues bundled with original software product license revenues, are deferred and recognized over the related contract period, generally 12 months. The Company's revenue recognition policies are designed to comply with American Institute of Certified Public Accountants Statement of Position 97-2, "Software Revenue Recognition" (SOP 97-2).

Computer Software Costs. The Company capitalizes computer software product development costs incurred in developing a product once technological feasibility has been established and until the product is available for general release to customers. Technological feasibility is established when the Company either (i) completes a detail program design that encompasses product function, feature and technical requirements and is ready for coding and confirms that the product design is complete, that the necessary skills, hardware and software technology are available to produce the product, that the completeness of the detail program design is consistent with the product design by documenting and tracing the detail program design to the product specifications, and that the detail program design has been reviewed for high-risk development issues and any related uncertainties have been resolved through coding and testing or (ii) completes a product design and working model of the software product, and the completeness of the working model and its consistency with the product design have been confirmed by testing. The Company evaluates realizability of the capitalized amounts based on expected revenues from the product over the remaining product life. Where future revenue streams are not expected to cover remaining amounts to be amortized, the Company either accelerates amortization or expenses remaining capitalized amounts. Amortization of such costs is computed as the greater of (1) the ratio of current revenues to expected revenues from the related product sales or (2) a straight-line basis over the expected economic life of the product (not to exceed five years. Software costs related to the development of new products incurred prior to establishing technological feasibility or after general release are expensed as incurred.

ROSS SYSTEMS, INC AND SUBSIDIARIES

Results of Operations

Fiscal Years Ended June 30, 2002, 2001, and 2000

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

The following table sets forth certain items reflected in the Company's consolidated statements of operations as a percentage of total revenues for the periods indicated, and a comparison of such statements is shown as a percentage increase or decrease from the prior year's results:

	Percentage of Revenue	
	Year Ended June 30,	
	2002	2001
	----	----
Revenues:		
Software product licenses	28%	19%
Consulting and other services	26	29
Maintenance	44	49
Reimbursable expenses	2	3
	----	----
Total revenues	100%	100%
	----	----
Operating expenses:		
Costs of software product licenses	4%	2%
Costs of consulting, maintenance and other services	23	35
Software product license sales and marketing	31	30
Product development	25	23
General and administrative	10	9
Provision for uncollectible accounts	3	3
Amortization of goodwill	--	1
Non-recurring (benefit) costs	(1)	2
	----	----
Non-cash charge for impairment of capitalized software costs	(24)	--
	----	----
Total operating expenses	119	104
	----	----
Operating profit (loss)	(19)	(4)
Other expense, net	(1)	(2)
Gain on sale of product line	5	--
	----	----
Loss before income taxes	(21)	(2)
Income tax benefit (expense)	(0)	(0)
	----	----
Net loss	(21%)	(2%)
	----	----

Revenues. Revenues were affected by the sale in February 2001, of the Human Resource product line. Fiscal 2001 therefore reflects mix of full and partial years of product line activity. For comparison purposes, revenues for fiscal 2001, and 2000 have been adjusted to exclude the Human Resource product line activity. This revenue is referred to as "adjusted revenue".

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Comparisons of both adjusted revenue and total revenue follow below (in thousands):

Revenue comparison	Estimated Adjusted Revenues Year Ended June 30,			2002	2001	2000
	2002	2001	2000	2002	2001	2000
Revenues:						
Software product licenses	\$13,026	\$ 9,130	\$17,774	\$13,026	\$ 9,130	\$17,774
Consulting and other services	12,179	13,845	30,700	12,179	13,845	30,700
Maintenance	20,014	21,717	23,478	20,014	21,717	23,478
Reimbursable expenses	834	1,307	3,395	834	1,307	3,395
Total revenues	\$46,053	\$45,769	\$75,347	\$46,053	\$45,769	\$75,347

Adjusted revenues, as defined above, were slightly increased at \$46,053,000 in fiscal 2002 from \$45,769,000 in fiscal 2001. Adjusted revenues decreased 38% to \$45,769,000 in fiscal 2001 from \$75,347,000 in 2000. Adjusted software product license revenues increased by 43% from fiscal 2001 to fiscal 2002, and decreased 49% from fiscal 2000 to 2001. Adjusted consulting revenues decreased 12% from fiscal 2001 to fiscal 2002, and decreased 55% from fiscal 2000 to 2001. Adjusted maintenance revenues from first year and renewed maintenance agreements, both of which are recognized ratably over the maintenance period, decreased 8% from fiscal 2001 to fiscal 2002, and 8% from fiscal 2000 to 2001.

Total actual revenues decreased 9% to \$46,053,000, in fiscal 2002 from \$50,805,000 in 2001. Fiscal 2001 revenues represented a 39% decrease from revenues of \$83,399,000 in 2000. Software product license revenues increased 36% from fiscal 2001 to fiscal 2002, and decreased 49% from fiscal 2000 to 2001. Consulting revenues decreased 20% from fiscal 2001 to fiscal 2002, and decreased 54% from fiscal 2000 to 2001. Maintenance revenues from first year and renewed maintenance agreements, both of which are recognized ratably over the maintenance period, decreased 19% from fiscal 2001 to fiscal 2002 and decreased 11% from fiscal 2000 to 2001. Maintenance agreements are renewed annually by most of the Company's maintenance customers. This decrease primarily reflects the absence of the maintenance revenue attributable the HR/Payroll product line in the current fiscal year as compared to the prior year which includes nine months of HR/Payroll maintenance. In addition, some maintenance contracts expired without renewal. Reimbursable expenses decreased 36% to \$834,000 in fiscal 2002, from \$1,307,000 in fiscal 2001, and decreased 62% from fiscal 2000 to 2001.

Software product license revenues in the North American market decreased by 18% in fiscal 2002. The Company believes that this decrease is a continuation of the industry-wide slow-down in ERP software sales in North America over the last two years. In the European market, the Company's software license sales have grown by 74% over the prior year. This was due to a combination of improved marketing of the Company's products in some regions, and a perceived slight improvement in the software sales environment in Europe when compared to the prior year.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Software license sales in the Asia/Pacific Rim region increased by 148% to \$2,853,000 in fiscal 2002, from \$1,150,000 in fiscal 2001, which was due primarily to an increase in sales through the Company's distributor in Japan. Within Europe, most of the increases in software product license revenues were experienced in Spain and the Benelux, while sales in the UK were slightly down.

Revenues from consulting and other services (which are recognized as performed) correlate with software product license revenues (which are recognized upon delivery), so that when software product license revenues decrease, future period services revenues generally decrease as a result. In fiscal 2002, consulting and other services revenues decreased 20%, from fiscal 2001 results. Services revenues in North America were affected by the absence of revenue associated with the HR/Payroll product line, and hampered by fewer new customers, due to lower new license revenues. In the European market, services revenues were flat in comparison to the prior year, bolstered in part by some additional activity related to the Euro conversion. Fiscal 2001 consulting and other services revenues decreased 54%, or \$18,126,000, over fiscal 2000 results.

As a percentage of total revenues, the Company's international operations grew to 45% in fiscal 2002 and remained relatively consistent at 33% and 32% in fiscal years 2001 and 2000 respectively. The revenue growth in 2002 reflects the increases in the Company's share of the Spain and Japanese markets.

11

ROSS SYSTEMS, INC AND SUBSIDIARIES

The Company's largest Pacific Rim contract represents a distributor agreement with a Japanese distributor whereby the distributor has an exclusive license to reproduce and sell certain Ross products in the Pacific Rim. The Company negotiated agreements whereby annual minimum royalties of \$1.9 million, \$755,000 and \$1.9 million were earned during fiscal 2002, 2001 and 2000, respectively. The changes in this source of revenue reflect an improving market in fiscal 2002, and a weakening of demand in fiscal year 2001.

Revenues have been derived from a relatively large number of customers. No single customer accounted for more than 10% of revenues during fiscal 2002, 2001 or 2000. The Company's customers are evenly spread among the industry verticals within the process manufacturing market .

Reimbursable Expenses. Prior to January 1, 2002, the Company recorded reimbursement by its customers for out-of-pocket expenses as a decrease to cost of services. The Company's results of operations for the fiscal years June 30, 2002, 2001, and 2000 have been reclassified for comparable purposes in accordance with the Emerging Issues Task Force release 01-14, "Income Statement Characterization of Reimbursements Received for Out of Pocket Expenses Incurred". The effect of this reclassification was to increase both revenues and cost of services by \$834,000, \$1,307,000 and \$3,395,000 for fiscal years 2002, 2001, and 2000 respectively.

Costs of software product licenses. Costs of software product licenses include expenses related to royalties paid to third parties and product documentation and packaging. Third party royalty expenses will vary from quarter to quarter based on the mix of third-party products being sold. Costs of software product licenses for fiscal 2002 increased by 91% to

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

\$1,870,000 from fiscal 2001. This increase was due to increased third party royalties associated with the larger volume of software license sales in the 2002, and a higher third party content in software license sales. In fiscal 2001, costs of software product licenses decreased by 54% to \$980,000 from \$2,137,000 in the prior year. This decrease was due to the overall reduced software volumes. As a percent of software revenue, third party royalties comprised 14% in fiscal 2002, compared to 10% for fiscal 2001, and 11% for fiscal 2000.

Costs of consulting, maintenance and other services. Costs of consulting, maintenance and other services include expenses related to consulting and training personnel, personnel providing customer support pursuant to maintenance agreements, and other costs of sales. From time to time the Company also uses outside consultants to supplement Company personnel in meeting peak customer consulting demands. Costs of consulting, maintenance and other services, net of reimbursable expenses, decreased 40% to \$9,763,000 from \$16,288,000, and decreased 60% in fiscal 2001 from \$41,016,000 in fiscal 2000. The lower levels of expenditure in fiscal 2002 reflect the savings in employee costs as a result of the significant headcount reduction in 2001 affecting 2002, and the absence of services and customer support costs relating to the HR/Payroll product line sold in the prior year. The decline in fiscal 2001 is composed primarily of a \$4,183,000 decrease in third party service costs, and a decrease of \$8,502,000 in employee expenses. The fiscal 2002 levels of personnel in services and customer support have produced improved productivity for the year, resulting in improving margins.

Gross Profit Margins. The Company's gross profit margins resulting from consulting, maintenance and other services revenues for fiscal 2002, 2001, and 2000 were 70%, 59%, and 33%, respectively. The improvement in gross profit margins from fiscal 2001 to 2002, and fiscal 2000 to 2001 is due primarily to the greater proportion of maintenance revenue. Maintenance revenues comprised 61% of services revenues in fiscal 2002, compared to 60% in fiscal 2001, and 43% in fiscal 2000. Maintenance revenues are less affected by cyclical economic factors, whilst consulting revenues will vary according to current market and economic conditions. Consulting, maintenance and other service revenues represented 71% of total revenues in fiscal 2002, 81% of total revenues in fiscal 2001, and 77% of total revenues in fiscal 2000. This was due to the decrease in maintenance and consulting revenues in 2002 associated with the sale of the HR/Payroll product line in the third quarter of 2001, and an increase in license revenues in fiscal 2002 over fiscal 2001.

Software Product License Sales and Marketing Expenses. Software product license sales and marketing expenses decreased by 5% to \$14,318,000 in fiscal 2002 from \$15,026,000 in fiscal 2001, and decreased by \$5,559,000 or 27% in fiscal 2001 as compared to fiscal 2000. The decreases for fiscal 2002, and 2001 are a result of the decreased headcount of approximately 50% less marketing and sales personnel in fiscal years 2002 and 2001 over fiscal 2000, and lower marketing expenditure. Marketing expenditure was increased towards the end of fiscal 2002 as the Company's planned new initiatives in this area started to take effect. However this increase did not materially impact the year's overall expenditure.

ROSS SYSTEMS, INC AND SUBSIDIARIES

Product Development Expenses. Product development expenditures for the

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

past three years were as follows (in thousands):

	20
Product development	11,
Amortization of previously capitalized software development costs	(7,
Expenses, excluding amortization	4,
Capitalized software development costs incurred during year	4,
Total expenditures	\$ 8,
Total expenditures as a percent of total revenues	
Capitalized software, net of amortization, as a percentage of total expenditures	

Product development expense was virtually unchanged in fiscal 2002, as compared to fiscal 2001. In fiscal 2001, product development expense increased 15% from fiscal 2000. This increase in expense was primarily due to a decrease in capitalized development costs in fiscal 2002 of 39% from \$6,878,000 in fiscal 2001, and a decrease in fiscal 2001 of 43% from \$12,127,000 in fiscal 2000. As a percentage of total revenues, fiscal 2002 total development expense decreased slightly to 19% in fiscal 2002 from 22% in fiscal 2001 and 19% in fiscal 2000.

During fiscal 2002, product development expenditures were focused on expanding integrated internet/ERP functionality while incorporating some of the latest technologies available. Not included in the above expenditure was a fourth quarter, non-cash charge of \$10,938,000 for previously capitalized software costs written off due to technology changes and changes in product direction. (See Note 1(r) in the notes to the Consolidated Financial Statements below). Product development expenditures during fiscal 2001 and 2000 were primarily focused on new internet enabled modules and continued enhancements to the underlying technology of released products and developing new web enabled products.

General and Administrative Expenses. General and administrative expenses decreased 1% to \$4,683,000 in fiscal 2002 over fiscal 2001, and decreased 38% to \$4,737,000 in fiscal 2001 over 2000. The savings in costs achieved in 2002 and 2001 are primarily due to the closure or consolidation of several regional offices, and a reduction in employee costs associated with a lower headcount.

Provision for Doubtful Accounts. In fiscal 2002, 2001, and 2000, the Company recorded provisions of \$1,444,000, \$1,514,000, and \$4,645,000, respectively. These provisions represent management's best estimate of the doubtful accounts for each period. The significantly higher provision in fiscal year 2000 reflects the higher accounts receivable balances in that year, commensurate with revenues exceeding \$80 million for fiscal 2000. The lower provision in fiscal 2002 was made possible by tighter and better controls over accounts receivable collections coupled with lower accounts receivable balances in line with revenues exceeding \$45 million for fiscal 2002.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Amortization of Other Assets. Amortization of other assets was zero in fiscal 2002 compared to \$691,000 in the prior fiscal year. This reflects the change in accounting treatment due to compliance with the new accounting pronouncement, SFAS No. 142, on Goodwill and Other Intangible Assets. See Note (1)(f) in the Notes to the Consolidated Financial Statements on page F-8.

Assets reviewed for diminution in value in accordance with Statement of Financial Accounting Standards No. 142, include goodwill relating to the acquisition of HiPoint Systems Inc. in fiscal 1999, the acquisition of Bizware, Inc. in 1998, and the acquisition of the Company's Spanish distributor in 1997. There was no impairment of these assets.

Non-Recurring Items. In October of 2000, the Company reorganized its European presence and adopted an indirect sales model in France by terminating its ownership and control of the French subsidiary due to the chronic and sustained losses and negative cash flows suffered by the French subsidiary. At that time, management recorded what they deemed to be adequate reserves related to the possible future costs for the change of presence in France by deferring the gain associated with divesting net liabilities in this liquidating transaction. In the fourth

13

ROSS SYSTEMS, INC AND SUBSIDIARIES

quarter of fiscal 2002, it became clear that some of the risk relating to the France office closure had been resolved. As a result the Company recorded a non-recurring gain of \$650,000 arising from the reduction of the reserve described above.

At the end of the first quarter of fiscal 2001, the Company recorded an expense of \$790,000 to cover separation costs associated with 125 employees employed in sales, marketing, services, and product development in North America and Europe.

During Q3 fiscal 2000 the Company recorded a \$1,145,000 expense to cover the liability arising from separation costs associated with 19 employees employed in sales, marketing, services and product development in North America and Europe.

Non-cash Capitalized Software Impairment Charge. During the fourth quarter of fiscal 2002, the Company made a major change in technology direction. The internet related functionality of the iRenaissance product was re-directed from the "java" based initial development used in the Resynt product line to the Microsoft ".net" technology. A new, formal development relationship with Microsoft was launched to support the requirements of the new technology direction. This strategic re-direction was based on the Company's belief that the .net technology will serve the Company and its customers better in the future, due to fuller market penetration, better standards of compatibility, and superior technical adaptability. The result of this change was that prior development in the former java environment became obsolete. Effective April 1, 2002, the amount of \$5,488,000, representing all unamortized software-project balances relating to this, was expensed.

On April 23, 2002, the Company announced the General Availability of

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Gembase Version 6.0. This version of Gembase, the 4GL language used for the development of the iRenaissance products, contained major functionality differences to prior versions, rendering all prior versions obsolete. As a result, development and maintenance of all versions prior to 6.0 were discontinued and no further sales using these versions would be contemplated. In addition, customers using these versions would be strongly encouraged to upgrade to version 6.0 because the Company no longer supports development of any Gembase release lower than version 6.0. Upgrades to the 6.0 version would be strongly supported and to encourage and facilitate customers' upgrading, the product was designed to make the transition straight-forward. Since Gembase versions lower than 6.0 would not contribute any further revenue to the Company, even in the short-term, the related unamortized software-project balances amounting to \$943,000 were expensed.

On May 22, 2002 the Company announced the release of iRenaissance version 5.7. This version was significantly changed from the prior versions. Previous to this release, upgrades from any version less than 4.4 to the latest version were technically challenging resulting in an environment not conducive to customer upgrades. Version 5.7 offered a straight-forward upgrade capability to customers on previous versions. In addition, version 5.7 contained a new "engine" at its core, which significantly changed the way the software operated internally and resulted in improved operating efficiencies. Since customers on versions lower than 4.4 could now upgrade without difficulty, the Company was able to discontinue the development and support of all versions prior to 4.4. No further sales using these versions would be contemplated. This had the effect of rendering all releases of iRenaissance which were lower than 4.4 obsolete. Since iRenaissance versions lower than 4.4 would not contribute any further license revenue to the Company, the related unamortized software-project balances amounting to \$3,333,000 were expensed.

During May 2002, the Company terminated further work on general enhancements of the COBOL technology based Renaissance Classic product line and a twofold decision was made; to continue working with specific customers on custom product development, and to introduce a general sales program of free software license upgrade from the Classic product to the latest release of the iRenaissance product line for customers who remain on maintenance. The company will continue to support those customers who remain active users until they schedule their upgrade conversion to iRenaissance. Since no future revenues are expected from the general enhancements capitalized to date, the aggregate, unamortized software-project balances amounting to \$1,174,000 were expensed.

The aggregate value of unamortized software written down in the fourth quarter of fiscal 2002 was \$10,938,000. This action has no effect on the Company's cash position or cashflows.

ROSS SYSTEMS, INC AND SUBSIDIARIES

Other Income and Expense. Interest income has diminished over the fiscal years 2000 through 2002 due to lower invested cash. Interest expense decreased in fiscal 2002 as compared to fiscal 2001, and 2001 as compared to fiscal 2000, due to lower utilization of the Company's revolving credit facilities. Foreign exchange benefit and expense arises on converting foreign currency transactions or short-term balances to local currency throughout the year. The foreign exchange loss in fiscal 2002 is due to net

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

adverse movements in currency exchange rates during the year and particularly relating to the conversion of the Company's continental subsidiaries to the Euro in the third quarter.

Income Taxes. The Company recorded net income tax expense of \$132,000 during fiscal 2002. This expense is made up of foreign withholding taxes and income tax expense totaling \$432,000 offset by tax refunds totaling \$300,000. The Company recorded income tax expense of \$9,000 during fiscal 2001. This amount consists of tax accruals and payments of \$244,000 offset by tax refunds totaling \$235,000. The Company recorded income tax expense of \$349,000 during fiscal 2000. This expense relates to foreign withholding taxes expensed during the period in certain foreign jurisdictions.

At June 30, 2002, 2001 and 2000, the Company had net income taxes payable of \$15,000, \$75,000, and \$248,000 respectively. These tax liabilities primarily relate to various taxing jurisdictions in North America. The Company anticipates recording future foreign withholding tax expenses related to its Japanese distributorship, representing 10% of future annual royalty payments from this distributor. At June 30, 2002, the Company had net operating loss carryforwards of approximately \$33,829,000, \$14,473,000 and \$8,449,000 for federal, California and foreign tax purposes, respectively.

Liquidity and Capital Resources

During fiscal 2002, net cash provided by operating activities decreased by \$8,983,000 from \$14,058,000 in the prior year to \$5,075,000 in the current year. An aggregate net increase in non-cash charges for depreciation, amortization, capitalized software cost impairment, and provisions for uncollectible accounts of \$9,384,000 is offset by an increase in the Company's loss of \$8,582,000. This reflects primarily the non-cash charge of \$10,938,000 for software assets impaired which decreased the Company's earnings but did not affect the Company's cash position. Before inclusion of changes in operating assets and liabilities, the Company's cash provided by operating activities increased by \$742,000 from \$10,384,000 in fiscal 2001 to \$11,126,000 in fiscal 2002. An aggregate decrease in the changes in operating assets and liabilities, including accounts receivable, deferred revenues, pre-paid expenses, accounts payable and accrued expenses of \$9,725,000 during fiscal 2002, was due primarily to the decrease in cash provided from accounts receivable and deferred revenues of \$10,632,000, from \$6,920,000 in fiscal 2001, to (\$3,712,000) in fiscal 2002. This change in accounts receivable and deferred revenues was attributable mainly to the non-recurring effect of the disposition of the HR/Payroll product line in fiscal 2001, which included certain accounts receivable and deferred revenue balances. An accounts payable and accrued expenses reduction of \$3,099,000 in fiscal 2002, was in line with a similar reduction of \$3,189,000 in fiscal 2001.

The net cash used for investing purposes has decreased by \$256,000 from \$5,159,000 in fiscal 2001 to \$4,903,000 in fiscal 2002. This represents a decrease in net computer software costs capitalized in 2002 of \$2,571,000 and an increase in property and equipment purchases of \$463,000. The reduction in capitalized computer software costs reflects the absence of development relating to the HR/Payroll product line which was sold in fiscal 2001. In conjunction with the product line disposition the Company transferred net assets and liabilities realizing from the transaction \$1,567,000 of net cash flow in fiscal 2001.

Cash flows from financing activities decreased \$4,455,000 from net

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

repayments in the prior year of \$5,059,000 to net repayments in the current year of \$604,000. In fiscal 2002, repayments under the credit line were less by \$4,798,000 than in fiscal 2001. This reflects the \$555,000 repaid in fiscal 2002 compared to the \$5,353,000 repaid in fiscal 2001. In fiscal 2002 there were no significant capital receipts or repayments. In fiscal 2001, net repayments of capital leases and long term debt were \$1,723,000, and the Company received \$2,000,000 in a preferred stock issuance. The Company financed its continuing operations during fiscal 2002 through cash generated from operations and available credit facilities.

At June 30, 2002, the Company had \$5,438,000 of cash and cash equivalents. The Company also had a revolving credit facility with an asset-based lender with a maximum credit line of \$5,000,000, a maturity date of 30 September, 2002, and an interest rate equaling the Prime Rate plus 2%. Subsequent to year end, the Company secured a new line of credit replacing the former line. The new line of credit with an asset-based lender has a

15

ROSS SYSTEMS, INC AND SUBSIDIARIES

maximum of \$5,000,000, the same as the expiring line, and a maturity date of September 23, 2004. Borrowings under the credit facility are collateralized by substantially all assets of the Company and bears interest at prime plus 2% (approximately 6.75% at September 24, 2002). At June 30, 2002, the Company had \$3,365,000 outstanding against the \$5,000,000 revolving credit facility, and based on the eligible accounts receivable at June 30, 2002, the Company's cash and remaining borrowing capacity under the revolving credit facility total approximately \$5,533,000. This represents a decrease in total availability of cash of \$461,000 from June 30, 2001. The Company expects to be cash positive for the year ending June 30, 2003.

On February 6, 1998, the Company closed a private placement of up to \$10,000,000 of convertible subordinated debentures to certain institutional investors (the "Investors") pursuant to Regulation D promulgated under the Securities Act of 1933, as amended. The Investors invested \$6,000,000 on February 6, 1998 and \$4,000,000 on June 11, 1998. The material agreements between the Company and each Investor have been filed as exhibits to the Current Report on Form 8-K filed with the Securities and Exchange Commission by the Company on February 12, 1998. \$3,033,000 and \$1,933,000 of these debentures remained outstanding at June 30, 1999 and June 30, 2000, respectively. With the exception of the redemption described below, the difference between the original \$10,000,000 borrowing and amounts outstanding at the above mentioned dates represents conversion of the debt into shares of the Company's Common Stock at various conversion prices as determined in accordance with the convertible debenture agreement. The Company notified the Investors that it would redeem \$4,000,000 of the convertible subordinated debentures on October 7, 1998 (the "Redemption Date") at a redemption price of \$4,320,000 (108 percent of the face value of the redeemed debentures) plus interest accrued through the redemption date. On the Redemption Date, the Company actually redeemed \$2,667,000 of the convertible subordinated debentures at a redemption price of \$2,880,000. The difference between the face amount of debentures redeemed and the total redemption price paid represents the conversion premium which has been reported as an extraordinary item during fiscal 1999. The Company and the Investor holding the convertible subordinated debenture that was not redeemed negotiated certain changes to the conversion features of the

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

debenture that, among other things, precludes conversion prior to October 7, 1999.

In December of 2000, it was determined that the investor's aggregate conversions had reached the Nasdaq exchange imposed limit of 20% of the total outstanding shares of the Company, calculated as of the date the debentures were originally issued. Pursuant to the terms of the debenture agreement, the Company requested the Nasdaq to waive the 20% dilution limit to allow the remainder of the debentures to be converted. The Nasdaq denied this request. Next, as required by the debenture agreement, the Company placed the additional dilution request to a vote of the shareholders. The shareholders denied the debenture holders' request for additional dilution. Therefore, in accordance with the debenture agreement, the remaining debentures were redeemed for cash on June 29, 2001. A contractual payment of \$120,000 for the conversion was paid and recorded as additional interest expense during the quarter ended June 30, 2001. Per the terms of the agreement, total payments to the debentures holders were approximately \$919,000, including the contractual payment of \$114,000. As of June 30, 2001 no debentures remained outstanding.

On June 29, 2001, the Company issued convertible preferred stock to a qualified investor in a private placement transaction. In summary, the investor purchased 500,000 preferred shares at \$4 per share yielding \$2,000,000 for the Company. The shares are convertible, one for one at a price of \$4.00 each, after June 29, 2002, and must be converted by June 29, 2006. The shares earn interest at the rate of 7.5%.

The Company has certain fixed, monthly, payment commitments for leased facilities and equipment. The facility leases and equipment operating leases expire at various dates through fiscal 2016. Certain leases include renewal options and rental escalation clauses to reflect changes in price indices, real estate taxes, and maintenance costs

16

ROSS SYSTEMS, INC AND SUBSIDIARIES

As of June 30, 2002, future minimum lease payments under non-cancelable operating leases were as follows (in thousands):

Fiscal Year	

2003	\$944
2004	803
2005	304
2006	298
Thereafter.....	2,013

Total future minimum lease	\$4,362

Rent expense approximated \$1,236,000, \$2,267,000, and \$3,612,000, for fiscal 2002, 2001, and 2000, respectively.

New accounting pronouncements

In June 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules,

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

goodwill will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. Goodwill attributable to each of the Companies reporting units was tested for impairment by comparing the fair value of each of the reporting units with its carrying value. The fair values of these reporting units were determined using a combination of discounted cash flow analysis and market multiples based on historical and projected financial information. The initial phase of the impairment tests were performed within six months of adoption of SFAS 142 or December 31, 2001, and are required at least annually thereafter. On an ongoing basis (absent of any impairment indicators), we expect to perform our impairment tests during the June quarter, in connection with our annual planning process.

Accumulated amortization of goodwill was \$2,233,000 and \$7,706,000 at June 30, 2001 and 2000, respectively. Net loss and loss per share for fiscal 2001, adding back goodwill amortization of \$691,000 (\$0.27 per basic and diluted share) would have been \$(151,000), \$(0.06) per basic and diluted share. Net loss and loss per share for fiscal 2000, adding back goodwill amortization of \$1,004,000 (\$0.43 per basic and diluted share) would have been \$(8,658,000), \$3.72 per basic and diluted share. Prior to July 1, 2001, goodwill was being amortized over periods ranging from 7 to 10 years.

In June 2001, the Financial Accounting Standards Board approved the issuance of Statements of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations." SFAS 143 establishes accounting standards for the recognition and measurement of legal obligations associated with the retirement of tangible long-lived assets and requires recognition of a liability for an asset retirement obligation in the period in which it is incurred. The provisions of this statement are effective for financial statements issued for fiscal years beginning after June 15, 2002. The adoption of SFAS 143 will not have a current impact on the Company's consolidated financial statements.

In October 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS 144 addresses financial accounting for the impairment or disposal of long-lived assets. The provisions of this statement are effective for financial statements issued for fiscal years beginning after December 15, 2001. The adoption of SFAS 144 will not have a current impact on the Company's consolidated financial statements.

In April 2002, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 145, "Rescission of SFAS No. 4, 44, 64, Amendment of SFAS No. 13, and Technical Corrections." SFAS 4, which was amended by SFAS 64, required all gains and losses from the extinguishment of debt to be aggregated and, if

ROSS SYSTEMS, INC AND SUBSIDIARIES

material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. SFAS 13 was amended to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

The adoption of SFAS 145 will not have a current impact on the Company's consolidated financial statements.

In July 2002, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." Generally, SFAS 146 provides that defined exit costs (including restructuring and employee termination costs) are to be recorded on an incurred basis rather than on a commitment basis as is presently required. SFAS 146 is effective for exit or disposal activities initiated after December 31, 2002. The adoption of SFAS 145 will not have a current impact on the Company's consolidated financial statements.

Other Matters

Risk Factors

The risks described below are not the only ones that we face. Additional risks and uncertainties not presently known to us may also impair our business operations. Our business, operating results or financial condition could be materially adversely affected by, and the trading price of our common stock could decline due to any of these risks. You should also refer to the other information included in this Annual Report on Form 10-K and the other information, our financial statements and the related notes incorporated by reference into this Annual Report on Form 10-K.

The Company's software product license revenues can fluctuate depending upon such factors as overall trends in the United States and International economies, new product introductions by the Company, hardware vendors and other software vendors as well as customer buying patterns. Because the Company typically ships software products within a short period after orders are received, and therefore maintains a relatively small backlog, any weakening in customer demand can have an almost immediate adverse impact on revenues and operating results. Moreover, a substantial portion of the revenues for each quarter is attributable to a limited number of sales and tends to be realized in the latter part of the quarter. Thus, even short delays or deferrals of sales near the end of a quarter can cause substantial fluctuations in quarterly revenues and operating results. Finally, certain agreements signed during a quarter may not meet the Company's revenue recognition criteria resulting in deferral of such revenue to future periods. Because the Company's operating expenses are based on anticipated revenue levels and a high percentage of the Company's expenses are relatively fixed, a small variation in the timing of the recognition of specific revenues can cause significant variation in operating results from quarter to quarter.

Our business maybe adversely impacted by the worldwide economic slowdown and related uncertainties. Weak economic conditions worldwide have contributed to the current technology industry slow-down. This may impact our business resulting in reduced demand and increased price competition, which may result in higher overhead costs, as a percentage of revenues. Additionally, this uncertainty may make it difficult for our customers to forecast future business activities. This could create challenges to our ability to grow our business profitably. If the economic or market conditions further deteriorate, this could have a material adverse impact on our results of operations and cash flow.

We may face increased competition and our financial performance and future growth depend upon sustaining a leadership position in our product functionality. Competitive challenges faced by Ross are likely to arise from a number of factors, including: industry volatility resulting from

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

rapid development and maturation of technologies; industry consolidation and increasing price competition in the face of worsening economic conditions. Although there are fewer competitors in our target markets than previously, our failure to compete successfully against those remaining could harm our business operating results and financial condition.

Our stock price is volatile. Our stock price, like that of other technology companies, is subject to volatility because of factors such as the announcement of new products, services or technological innovations by us or our competitors, quarterly variations in our operating results, and speculation in the press or investment community. In addition, our stock price is affected by general economic and market conditions and may be negatively affected by unfavorable global economic conditions.

18

ROSS SYSTEMS, INC AND SUBSIDIARIES

Our business may suffer if we cannot protect our intellectual property. We generally rely upon patent, copyright, trademark and trade secret laws and contract rights in the United States and in other countries to establish and maintain our proprietary rights in our technology and products. However, there can be no assurance that any of our proprietary rights will not be challenged, invalidated or circumvented. In addition, the laws of certain countries do not protect our proprietary rights to the same extent as do the laws of the United States. Therefore, there can be no assurance that we will be able to adequately protect our proprietary technology against unauthorized third-party copying or use, which could adversely affect our competitive position. Further, there can be no assurance that we will be able to obtain licenses to any technology that we may require to conduct our business or that, if obtainable, such technology can be licensed at a reasonable cost.

We may become involved in litigation that may materially adversely affect us. In the ordinary course of business, we may become involved in litigation and administrative proceedings. Such matters can be time-consuming, divert management's attention and resources and cause us to incur significant expenses. Furthermore, there can be no assurance that the results of any of these actions will not have a material adverse effect on our business, results of operations or financial condition.

Retaining key management and employees are critical to our success. Our success depends upon retaining and recruiting highly qualified employees and management personnel. However, we may face severe challenges in attracting and retaining such employees. Although our turnover is historically low, if our ability to maintain a stable workforce is significantly handicapped, our ability to compete may be adversely affected.

ITEM 7.A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Exchange: The Company has a worldwide presence and as such maintains offices and derives revenues from sources overseas. For fiscal 2002, international revenue as a percentage of total revenue was approximately 45%. The Company's international business is subject to typical risks of an international business, including, but not limited to: differing economic conditions, changes in political climates, differing tax structures, other regulations and restrictions, and foreign exchange rate volatility. Accordingly, the Company's future results could be materially

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

adversely impacted by changes in these or other factors. The effect of foreign exchange rate fluctuations on the Company in fiscal 2002 was not material.

Interest Rates: The Company's exposure to interest rates relates primarily to the Company's cash equivalents and certain debt obligations. The Company invests in financial instruments with original maturates of three months or less. Any interest earned on these investments is recorded as interest income on the Company's statement of operations. Because of the short maturity of the Company's investments, a near-term change in interest rates would not materially affect the Company's financial position, results of operations, or cash flows. Certain of the Company's debt obligations include a variable rate of interest. A significant, near-term change in interest rates could materially affect the Company's financial position, results of operations or cash flows.

The Company did not engage in any derivative/hedging transactions.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The information required by this Item is incorporated by reference herein from Part IV Item 14(a) (1) and (2) of this Form 10-K Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

(a) Previous independent accountants.

- (i) On July 10, 2002, the Company dismissed Arthur Andersen LLP ("Andersen") as the Company's independent public accountants. The Company also engaged BDO Seidman, LLP to serve as the Company's independent public accountants for the year ended June 30, 2002. The audit committee of our board of directors participated in and approved the decision to change independent accountants.
- (ii) Andersen's reports on the Company's financial statements for the year ended June 30, 2000 did not contain an adverse opinion or disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope or accounting

19

ROSS SYSTEMS, INC AND SUBSIDIARIES

principles, except for a going concern qualification. Andersen's report for the fiscal year ended June 30, 2001 was not qualified or modified as to uncertainty, audit scope or accounting principles.

- (iii) In connection with its audits for the fiscal years ended June 30, 2000 and 2001, and through dismissal, there have been no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Andersen's satisfaction, would have caused them to make reference to the subject matter in connection with their report on the Company's financial statements. Also, there were no reportable events, as defined in Item 304(a)(1)(v) of Regulation S-K.
- (iv) On July 10, 2002, the Company provided Andersen with a copy of the

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

foregoing disclosures.

(v) Subsequently, Andersen verbally informed the Company that, effective June 30, 2002, Andersen has stopped responding to notices of changes in certifying accountants due to lack of personnel. Therefore, Andersen will not supply a letter which states whether or not they agree with the Company's disclosures contained in this filing.

(b) New independent accountants.

(i) Effective July 11, 2002, the Company retained BDO Seidman, LLP, to perform the annual audit of our financial statements for the fiscal year ended June 30, 2002. During the two most recent fiscal years and through July 10, 2002, we have not consulted with BDO Seidman, LLP regarding the application of accounting principles to a specific transaction, either completed or proposed; or the type of audit opinion that might be rendered on our financial statements. Further, the Company did not consult BDO Seidman, LLP on any matter that was either the subject of a disagreement or reportable event with Arthur Andersen LLP as described in Regulation S-K, item 304(a)(2).

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

The information required by Item 10 of Form 10-K with respect to identification of directors is incorporated by reference from the information contained in the section captioned "Election of Directors" in the Company's definitive Proxy Statement for the Annual Meeting of Stockholders to be held November 14, 2002 (the Proxy Statement), a copy of which will be filed with the Securities and Exchange Commission before the meeting date.

The following additional information pertains to executive officers of the Company. There are no family relationships between any director or executive officer and any other director or executive officer of the Company. Executive officers serve at the discretion of the Board of Directors.

Executive Officers of Ross Systems

Name	Age	
J. Patrick Tinley.....	54	Chairman and CEO,
Robert B. Webster.....	54	Executive Vice Pre
Verome M. Johnston.....	37	Vice President and
Eric W. Musser.....	37	Vice President and
Rick Marquardt.....	49	Senior Vice Presid

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Mr. Tinley was promoted to Chairman & CEO in December 2000. He served as President and Chief Operating Officer from 1995 to June 2000 and President and CEO from July through December 2000. He has been a director of the Company since 1993. Mr. Tinley joined the Company in November 1988 as Executive Vice President, Business Development and has served as Executive Vice President, Product Development and Executive Vice President, Product Development & Client Services. Prior to 1988, Mr. Tinley held management positions with Management Science of America, Inc. and Royal Crown Companies. Mr. Tinley received a Bachelors in Science from Columbus University.

Mr. Webster, EVP Operations and Secretary is also a director of the Company. Mr. Webster joined the Company in June 1998 as VP/CFO and Secretary and was later promoted to EVP Operations in December 2000 and elected director in August 2001. Mr. Webster is a Certified Public Accountant in the State of Georgia. Mr. Webster received both BS in Accounting and Computer Science, as well as an MBA in Information Systems degrees from St. Peter's College.

Prior to joining the Company, Mr. Webster served, since February 1995, as EVP/CFO of Americomm Holdings, Inc. and prior to that in a progression of more senior financial management positions at both Wang Laboratories, Inc. and Unisys Corporation over a twenty year period.

Mr. Johnston, Vice President and Chief Financial Officer, joined the Company in July 1998 as Corporate Controller. He was promoted to Vice President in August 1999, and to Chief Financial Officer in December 2000. Immediately prior to joining the Company, Mr. Johnston served as Vice President and Chief Financial Officer of Market Area North America for Sunds Defibrator, where he had been employed since June of 1991. Prior to that, Mr. Johnston was employed with Deloitte & Touche. Mr. Johnston maintains a CPA certificate in Georgia and earned Bachelor of Business Administration degrees in Accounting and Finance from Valdosta State University.

Mr. Musser joined the Company in 1993 and was promoted to CTO in May of 2000. He has served in development for over 5 years and has held the position of Vice President, Development for the past 2 years. Mr. Musser has also held senior positions in Marketing and has been a critical influence in changing the Company from

21

ROSS SYSTEMS, INC AND SUBSIDIARIES

client/server solutions to Internet based solutions. From 1989 to 1993 Mr. Musser held IT management positions in the steel industry.

Mr. Marquardt joined the company in October 2001 as Senior Vice President of Worldwide Sales and Marketing. Prior to joining Ross Systems he was Vice President and General Manager - Products at Eftia OSS Solutions, a provider of operational support system (OSS) solutions. In 2000, Mr. Marquardt was a Vice President at NSE Inc., an international distribution and investment firm. From 1997 to 2000 Mr. Marquardt served as COO of Distinction Software a provider of enterprise-wide supply chain-planning solutions. From 1994 to 1997 he was Vice President of Corporate Marketing and Business Development for Datalogix International. From 1989 to 1994, Mr. Marquardt held various positions at Ross Systems in

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Sales and Marketing including Vice President of Manufacturing Systems. Prior to 1989, Mr. Marquardt held various management positions with Management Science America, Inc. Mr. Marquardt has a Bachelor of Science Degree from the University of Wisconsin - Stevens Point.

Report of Independent Certified Public Accountants

To the Board of Directors and Shareholders
of Ross Systems, Inc.

We have audited the accompanying consolidated balance sheet of Ross Systems, Inc. and subsidiaries as of June 30, 2002 and the related consolidated statements of operations, shareholders equity and cash flows for the year then ended. We have also audited the financial statements schedule for the year ended June 30, 2002 listed in the accompanying index. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audit. The Company's Consolidated financial statements and financial statement schedule as of June 30, 2001, and for each of the two years in the period ended June 30, 2001, prior to the adjustments discussed in the summary of significant accounting policies, were audited by auditors who have ceased operations. Those auditors expressed an unqualified opinion on those consolidated financial statements and schedule in their report dated August 17, 2001.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and schedule are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Ross Systems, Inc. and subsidiaries as of June 30, 2002 and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Also, in our opinion, the 2002 schedule presents fairly, in all material respects, the information set forth therein.

As discussed in Note 1, during the year ended June 30, 2002 the company changed the manner in which it records reimbursement of out-of-pocket expenses upon the adoption of the accounting standards in Emerging Issues Task Force Issue 01-14.

As discussed in Note 1, the Company changed the manner in which it accounts for goodwill and other intangible assets upon adoption of the accounting standards

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

in Statement of Financial Accounting Standards No. 142 on July 1, 2001.

As discussed above, the financial statements of Ross Systems Inc. and subsidiaries as of June 30, 2001, and for each of the two years in the period ended June 30, 2001, were audited by other auditors who have ceased operations. As described in Note 1(h), these financial statements have been restated to reflect the adoption of Emerging Issues Task Force 01-14 and revised to include the transitional disclosures required by SFAS No. 142. We audited the adjustments described in Note 1(h) that were applied to restate the 2001 and 2000 financial statements to reflect the adoption of Emerging Issues Task Force Issue 01-14. We also audited the adjustments reflected in the transitional disclosures required by SFAS No. 142. In our opinion, all such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review or apply any procedures to the 2001 or 2000 financial statements of the company, other than with respect to such adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2001 or 2000 financial statements taken as a whole.

REPORT OF PREVIOUS INDEPENDENT PUBLIC ACCOUNTANTS

To Ross Systems, Inc.:

We have audited the accompanying consolidated balance sheets of Ross Systems, Inc. (a Delaware corporation) AND SUBSIDIARIES as of June 30, 2001 AND 2000 *and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years ended June 30, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ross Systems, Inc. and subsidiaries as of June 30, 2001 and 2000*, and the results of their operations and their cash flows for each of the three years ended June 30, 2001 in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule listed in the index of financial statements included in Item 14 is presented for purposes of complying with the Securities and Exchange Commission's rules and is not part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic 2001 and 2000 financial statements taken as a whole.

ARTHUR ANDERSEN LLP

F-6

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Description of Business and Summary of Significant Accounting Policies

(a) Business of the Company

Ross Systems Inc. (NASDAQ:ROSS) founded in 1972, supplies leading enterprise solutions software designed for process manufacturing companies primarily in the food and beverage, life sciences, chemicals, metals and natural products industries. The Company offers the award-winning iRenaissance(TM) family of software solutions which is an integrated suite of enterprise resource planning (ERP II), financials, materials management, manufacturing and distribution, supply chain management (SCM), advanced planning and scheduling, customer relationship management (CRM), electronic commerce, business intelligence and analytics applications. In addition to the aforementioned software suites, the Company also provides professional consulting services for implementation, custom application development and education. It offers ongoing maintenance and support services via the internet and telephone help desks.

The Company operates in one business segment and no individual customer accounts for more than 10% of total revenues. The Company does not have a concentration of credit risk in any one industry or geographic region.

(b) Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

(c) Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity date of three months or less to be cash equivalents.

(d) Property and Equipment

Property and equipment are stated at cost. Depreciation is accumulated using the straight-line and declining balance methods over the estimated useful lives of the respective assets, generally three to seven years. Leasehold improvements and equipment under capital leases are amortized using the straight-line method over the shorter of the terms of the related

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

leases or the respective useful lives of the assets.

(e) Net Earnings (Loss) Per Common and Common Equivalent Share

Basic loss per common share are computed by dividing net earnings or net loss by the weighted average number of common shares outstanding during the period. Diluted loss per common and common equivalent share is computed by dividing net earnings by the weighted average number of common and common equivalent shares outstanding during the period. Common stock equivalents are not considered in the calculation of net loss per share when their effect would be antidilutive. As a result of the net losses incurred in the years ended June 30, 2002, 2001, and 2000, the following common share equivalents were antidilutive (in thousands) :

	Year ended June 30,		
	2002	2001	2000
Stock options	41	39	--
Warrants	47	--	--
Convertible Debentures	--	--	11
Convertible Preferred shares	500	1	--
	-----	-----	-----
Total	588	40	11
	-----	-----	-----

When the Company is profitable, the only difference between the denominator for basic and diluted net earnings per share is the effect of common stock equivalents. In years of a loss, the denominator is the same for basic and diluted loss per share.

F-7

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(f) Amortization of Other Assets

The other assets described in Note 4 are amortized using the straight-line method over their estimated useful lives. Other assets have generally resulted from business combinations accounted for as purchases and are recorded at the lower of unamortized cost or fair value. The Company annually reviews the carrying amounts of these assets for indications of impairment, based on expected non-discounted cash flows related to the acquired entities or products. Impairment of value, if any, is recognized in the period it is determined. The Company reviews the carrying value of goodwill in accordance with Financial Accounting Standards No. 142, Goodwill and Other Tangible Assets. (See (p) below).

(g) Revenue Recognition

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

In accordance with SEC Staff Accounting Bulletin No. 101 "Revenue Recognition in Financial Statements", the Company recognizes revenues from licenses of computer software "up-front" provided that a non-cancelable license agreement has been signed, the software and related documentation have been shipped, there are no material uncertainties regarding customer acceptance, collection of the resulting receivable is deemed probable, and no significant other vendor obligations exist. The revenue associated with any license agreements containing cancellation or refund provisions is deferred until such provisions lapse. Where the Company has future obligations, if such obligations are insignificant, related costs are accrued immediately. When the obligations are significant, the software product license revenues are deferred. Future contractual obligations can include software customization, requirements to provide additional products in the future and porting products to new platforms. Contracts which require significant software customization are accounted for on the percentage-of-completion basis. Revenues related to significant obligations to provide future products or to port existing products are deferred until the new products or ports are completed.

Service revenues generated from professional consulting and training services are recognized as the services are performed. Maintenance revenues, including revenues bundled with original software product license revenues, and future unspecified enhancements to the Company's products, are deferred and recognized over the related contract period, generally 12 months. The Company's revenue recognition policies are designed to comply with American Institute of Certified Public Accountants Statement of Position 97-2, "Software Revenue Recognition" (SOP 97-2).

(h) Reimbursable Expenses

Prior to January 1, 2002, the Company recorded reimbursement by its customers for out-of-pocket expenses as a decrease to cost of services. The Company's results of operations for the fiscal years June 30, 2002, 2001, and 2000 have been reclassified for comparable purposes in accordance with the Emerging Issues Task Force release 01-14, "Income Statement Characterization of Reimbursements Received for Out of Pocket Expenses Incurred". The effect of this reclassification was to increase both services revenues and cost of services by \$834,000, \$1,307,000 and \$3,395,000 for fiscal years 2002, 2001, and 2000 respectively.

(i) Computer Software Costs

The Company capitalizes computer software product development costs incurred in developing a product once technological feasibility has been established and until the product is available for general release to customers. Technological feasibility is established when the Company either (i) completes a detail program design that encompasses product function, feature and technical requirements and is ready for coding and confirms that the product design is complete, that the necessary skills, hardware and software technology are available to produce the product, that the completeness of the detail program design is consistent with the product design by documenting and tracing the detail program design to the product specifications, and that the detail program design has been reviewed for high-risk development issues and any related uncertainties have been resolved through coding and testing or (ii) completes a product design and working model of the software product, and the completeness of the working model and its consistency with the product design have been confirmed by testing. The Company evaluates realizability of the capitalized amounts based on expected revenues from the product over the remaining product life. Where future revenue streams are not expected to cover remaining amounts to be amortized, the Company either accelerates amortization or

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

expenses remaining capitalized amounts. Amortization of such costs is computed

F-8

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

as the greater of (1) the ratio of current revenues to expected revenues from the related product sales or (2) a straight-line basis over the expected economic life of the product (not to exceed five years). As of June 30, 2002 and 2001, capitalized computer software costs approximated \$61,587,000 and \$79,347,000 respectively, and related accumulated amortization totaled \$ 47,551,000 and \$51,429,000 respectively. Software costs related to the development of new products incurred prior to establishing technological feasibility or after general release are expensed as incurred

(j) Income Taxes

In accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("Statement 109"), the Company utilizes the asset and liability method of accounting for income taxes. Under the asset and liability method of Statement 109, deferred tax assets and liabilities are established to recognize the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

(k) Foreign Operations and Currency Translation

The local currencies of the Company's foreign subsidiaries are the functional currencies. Assets and liabilities of foreign subsidiaries are translated into U.S. dollars at current exchange rates, and the resulting translation gains and losses are included as an adjustment to shareholders' equity as a component of comprehensive income. Transaction gains and losses that relate to U.S. dollar denominated intercompany short-term receivables recorded in the financial statements of the Company's foreign subsidiaries and are reflected in income. Where related intercompany balances have been designated as long-term, gains and losses are included as an adjustment to shareholders' equity as a component of comprehensive income.

(l) Reclassifications

It is the Company's policy to reclassify prior year amounts to conform with current year financial statement presentation when necessary.

(m) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

(n) Advertising Costs

The Company generally expenses advertising costs at the time the advertisement is published, or in the case of direct mail, when mailed. Advertising costs for the fiscal years ended June 30, 2002, 2001, and 2000 were approximately \$437,000, \$607,000, and \$1,517,000, respectively.

(o) Segment Information

The Company markets its products and related services primarily in North America, Europe and Asia and primarily measures its business performance based upon certain geographic results of operations. During fiscal 2001, the Company divested its French subsidiary and adopted an indirect sales approach in the French market. See further discussion of this matter under "Acquisitions and Divestitures" below.

The Company has no customers that represent ten percent or more of annual revenues.

For management purposes, the results of the Asian operations are included in the North American results since the costs associated with managing the Asian marketplace are born by the North American entities within the Group. Selected balance sheet and income statement information pertaining to the various significant geographic areas of operation are as follows:

(p) New Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The Company applied the new rules on accounting for goodwill and other intangible assets beginning in the first quarter of fiscal 2002. Goodwill attributable to each of our reporting units was tested for impairment by comparing the fair value of each of the reporting units with its carrying value. The fair values of these reporting units were determined using a combination of discounted cash flow analysis and market multiples based on historical and projected financial information. The initial phase of the impairment tests were performed within six months of adoption of SFAS 142 or December 31, 2001, and are required at least annually thereafter. On an ongoing basis (absent of any impairment indicators), we expect to perform our impairment tests during the June quarter, in connection with our annual planning process.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Accumulated amortization of goodwill was \$2,233,000 and \$7,706,000 at June 30, 2001 and 2000, respectively.

F-10

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Net loss and loss per share for fiscal 2001, adding back goodwill amortization of \$691,000 (\$0.27 per basic and diluted share) would have been \$(151,000), \$(0.06) per basic and diluted share. Net loss and loss per share for fiscal 2000, adding back goodwill amortization of \$1,004,000 (\$0.43 per basic and diluted share) would have been \$(8,658,000), \$3.72 per basic and diluted share. No tax effect has been provided in either year due to the valuation allowance on deferred tax assets. Prior to July 1, 2001, goodwill was being amortized over periods ranging from 7 to 10 years.

In June 2001, the Financial Accounting Standards Board approved the issuance of Statements of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations." SFAS 143 establishes accounting standards for the recognition and measurement of legal obligations associated with the retirement of tangible long-lived assets and requires recognition of a liability for an asset retirement obligation in the period in which it is incurred. The provisions of this statement are effective for financial statements issued for fiscal years beginning after June 15, 2002. The adoption of SFAS 143 will not have a current impact on the Company's consolidated financial statements.

In October 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS 144 addresses financial accounting for the impairment or disposal of long-lived assets. The provisions of this statement are effective for financial statements issued for fiscal years beginning after December 15, 2001. The adoption of SFAS 144 will not have a current impact on the Company's consolidated financial statements.

In April 2002, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 145, "Rescission of SFAS No. 4, 44, 64, Amendment of SFAS No. 13, and Technical Corrections." SFAS 4, which was amended by SFAS 64, required all gains and losses from the extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. SFAS 13 was amended to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The adoption of SFAS 145 will not have a current impact on the Company's consolidated financial statements.

In July 2002, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." Generally, SFAS 146 provides that defined exit costs (including restructuring and employee termination costs) are to be recorded on an incurred basis rather than on a commitment basis as is presently required. SFAS 146 is effective for exit or disposal activities initiated after December 31, 2002. The adoption of SFAS 145 will not have a current impact on the Company's consolidated financial statements.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

(q) Non-recurring items

In October of 2000, the Company reorganized its European presence and adopted an indirect sales model in France by terminating its ownership and control of the French subsidiary due to the chronic and sustained losses and negative cash flows suffered by the French subsidiary. At that time, management recorded what they deemed to be adequate reserves related to the possible future costs for the change of presence in France by deferring the gain associated with divesting net liabilities in this liquidating transaction. In the fourth quarter of fiscal 2002, the Company experienced a favorable outcome relating to the French subsidiary liquidation transaction which rendered most of the reserve unnecessary. As a result the Company recorded a non-recurring gain of \$650,000 arising from the reduction of the reserve described above.

On September 12, 2000, the Company announced restructuring efforts aimed at reducing costs and improving efficiencies. Under the restructuring, the Company reduced 125 positions across the company as well as accelerated efforts to eliminate unneeded office space, improve productivity through the use of technology and focus on increased revenues through the use of distributors. As a result of these actions, during the first quarter of fiscal year 2001, the Company recorded a \$790,000 expense to cover the liability arising from associated employee separation costs. The costs were accrued in accordance with EITF Issue 94-3, "Liability Recognition for Certain Employee Terminations, Benefits and Other Costs to Exit an Activity". By March 31, 2001, all of the costs accrued in conjunction with both actions had been paid.

F-11

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(r) Non-cash Impairment of Capitalized Software Cost

In the fourth quarter of fiscal 2002, the Company made a major change in technology direction. The internet related functionality of the iRenaissance product was re-directed from the "java" based initial development used in the Resynt product line to the Microsoft ".net" technology. A new, formal development relationship with Microsoft was launched to support the requirements of the new technology direction. This strategic re-direction was based on the Company's belief that the .net technology will serve the Company and its customers better in the future, due to fuller market penetration, better standards of compatibility, and superior technical adaptability. The result of this change was that prior development in the former java environment became obsolete. Effective April 1, 2002, the amount of \$5,488,000, representing all unamortized software-project balances relating to this, was expensed.

On April 23, 2002, the Company announced the General Availability of Gembase Version 6.0. This version of Gembase, the 4GL language used for the development of the iRenaissance products, contained major functionality differences to prior versions, rendering all prior versions obsolete. As a result, development and maintenance of all versions prior to 6.0 were discontinued and no further sales using these versions would be contemplated. In addition, customers using these versions would be strongly encouraged to upgrade to version 6.0 because the Company no longer supports development of any Gembase release lower than version 6.0. Upgrades to the 6.0 version would be strongly supported and to encourage and facilitate customers' upgrading, the product was designed to make the transition straight-forward. Since Gembase versions lower than 6.0 would not contribute any further revenue to the Company, even in the

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

short-term, the related unamortized software-project balances amounting to \$943,000 were expensed.

On May 22, 2002 the Company announced the release of iRenaissance version 5.7. This version was significantly changed from the prior versions. Previous to this release, upgrades from any version less than 4.4 to the latest version were technically challenging resulting in an environment not conducive to customer upgrades. Version 5.7 offered a straight-forward upgrade capability to customers on previous versions. In addition, version 5.7 contained a new "engine" at its core, which significantly changed the way the software operated internally, and resulted in improved operating efficiencies. Since customers on versions lower than 4.4 could now upgrade without difficulty, the Company was able to discontinue the development and support of all versions prior to 4.4. No further sales using these versions would be contemplated. This had the effect of rendering all releases of iRenaissance which were lower than 4.4 obsolete. Since iRenaissance versions lower than 4.4 would not contribute any further license revenue to the Company, and renewable maintenance revenue would soon be in respect of the newly released version of the product rather than an older version, the related unamortized software-project balances amounting to \$3,333,000 were expensed.

During May 2002, the Company terminated further work on general enhancements of the COBOL technology based Renaissance Classic product line. Following prolonged, unfruitful attempts to garner interest in the proposed enhancements from the customer base, a twofold decision was made; to continue working with specific customers on custom product development, and to introduce a general sales program of free software license upgrade from the Classic product to the latest release of the iRenaissance product line for customers who remain on maintenance. The company will continue to support those customers who remain active users until they schedule their upgrade conversion to iRenaissance. Since no future revenue benefits are expected from the general enhancements capitalized to date, the aggregate, unamortized software-project balances amounting to \$1,174,000 were expensed.

The aggregate value of unamortized impaired software expensed in the fourth quarter of fiscal 2002 was \$10,938,000. This action will have the effect of reducing software cost amortization in future years. If the Company had not recorded this expense, amortization expense of approximately \$2,734,000 would be recorded during 2003.

(2) Acquisitions, Divestitures and Note Receivable from Related Party

In October of 2000, the Company reorganized its European presence and adopted an indirect sales model in France by terminating its ownership and control of the French subsidiary due to the chronic and sustained losses and

F-12

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

negative cash flows suffered by the French subsidiary. Management has also effectively recorded what they deem to be adequate reserves related to the possible future costs for the change of presence in France by deferring the gain associated with divesting net liabilities in this liquidating transaction. New and existing customers in France receive maintenance services from French speaking employees of the Company in Belgium or via the internet.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

On December 30, 1996, the Company acquired a 100% ownership interest in Ross Iberica, its distributor in Spain and Portugal for the previous five years, in exchange for shares of the Company's common stock valued at approximately \$1,400,000. The acquisition was accounted for as a purchase, and accordingly, the results of operations of the acquired business have been included in the Company's results of operations since the date of acquisition. The purchase agreement mandates a guaranteed purchase price at a measurement date which has been mutually extended by the parties in conjunction with the extension of the maturity to July 8, 2003 of a non interest bearing, recourse note payable, due by the former majority shareholder of Ross Systems Iberica to the Company. The former majority shareholder is currently an employee of the Company. The Company, in its sole discretion, may make up any difference between the value of the shares originally tendered and the guaranteed purchase price of Ross Iberica either by issuing additional shares or paying cash. The note receivable described herein totaled \$850,000 at June 30, 2002 and \$750,000 at June 30, 2001.

(3) Property and Equipment

	-----	-----

(6) Debt and Subsequent Event

As of June 30, 2002, the Company had a revolving credit facility with a lender for up to \$5,000,000 which was collateralized by substantially all assets of the Company. The facility had an expiration date of September 30, 2002. During the years ended June 30, 2002, 2001, and 2000, the interest rate remained unchanged at 9%. At June 30, 2002, approximately \$3,370,000 was outstanding under the Company's revolving credit facility. At June 30, 2001, approximately \$4,013,000 was outstanding under the Company's then existing \$5,000,000 revolving credit facility.

Subsequent to year end, the Company replaced its existing credit arrangements, entering into a new revolving credit facility agreement with a bank. This facility has a maturity date of September 23, 2004. The credit facility bears interest at the prime rate plus 2% (approximately 6.75% at September 13, 2002) and is collateralized by substantially all assets of the Company. The revolving credit facility may be withdrawn if, amongst other things (a) the Company fails to pay any principal or interest amount due or (b) there is a material impairment of the Company's business which would prevent loan repayment and (c) any of these events are not remedied by the Company within allowable periods.

The Company maintains other credit facilities in Spain. Interest on these facilities ranges from 6% to 8% and the facilities are collateralized by various assets of the Spanish subsidiary. Balances outstanding under these agreements were approximately \$597,000 and \$244,000 at June 30, 2002 and 2001 respectively.

As of June 30, 2002 and 2001, the Company had outstanding capital lease obligations aggregating \$0 and \$265,000 respectively. As of June 30, the Company's future obligations under capital leases are as follows (in thousands):

	2002	2001
	-----	-----
Fiscal Year:		
2002.....	\$ --	\$299

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(7) Commitments and Contingencies

The Company leases facilities and certain equipment under operating leases which expire at various dates through fiscal 2016. Certain leases include renewal options and rental escalation clauses to reflect changes in price indices, real estate taxes, and maintenance costs. As of June 30, 2002, future minimum lease payments under non-cancelable operating leases were as follows (in thousands):

Fiscal Year	

2003.....	\$944
2004.....	803
2005.....	304
2006.....	298
Thereafter.....	2,013

Total future minimum lease payments.....	\$4,362

Rent expense approximated \$1,236,000, \$2,267,000, and \$3,612,000, for fiscal 2002, 2001, and 2000, respectively.

(8) Capital Stock

Mandatorily Convertible Preferred Stock and Private Placement

In fiscal 1991, the Company authorized a new class of no par value preferred stock consisting of 5,000,000 shares. The Board of Directors is authorized to issue the preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions of such stock, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of such series, without further vote or action by the shareholders. All preferred stock was issued with a mandatory conversion factor.

On June 29, 2001, the Company issued mandatorily convertible preferred stock to a qualified investor in a private placement transaction. In summary, the investor purchased 500,000 preferred shares at \$4 per share yielding

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

\$2,000,000 for the Company. This price represented a premium to the market for the Company's common stock at the time of issuance. The average closing share price of the Company's common stock for the 30 trading days prior to the private placement was approximately \$2.22. The preferred shares can be converted at \$4.00 per share after June 29, 2002 but before June 29, 2006, on a one for one basis. The shares earn dividends at the rate of 7.5%. In conjunction with this transaction, the Company issued warrants to the broker who assisted in securing the investor. These warrants were fairly valued at \$60,000 on the date of issuance and the expense has been recorded in the statement of operations as a component of other expense (net) in the quarter ended June 30, 2001.

On April 27, 2001 the Company executed a reverse stock split on the basis of 1 share for 10 shares.

(9) Employee Stock Plans

At June 30, 2002, the Company had three stock-based compensation plans, which are described below. The Company applies Accounting Principles Board Opinion No. 25 and Emerging Issues Task Force release 96-18, "Accounting for Equity Instruments that are issued to Other Than Employees for Acquiring or in Conjunction with Selling Goods or Services", and related Interpretations, as applicable, in accounting for its plans. No compensation cost has been recognized for its Stock Option Plan and its Stock Purchase Plan. Had compensation cost for the Company's Stock Option and Stock Purchase Plans been determined based on the fair value at the grant dates for awards under those plans consistent with the method of Statement 123, the Company's net loss and net loss per share would have been the pro forma amounts indicated below (in thousands, except per share data):

F-15

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	Year ended June 30,	
	2002	2001
Net loss available to common shareholders:		
As reported	\$ (9,574)	\$ (842)
Pro forma	(9,980)	(1,302)
Net loss per share:		
As reported basic	\$ (3.65)	\$ (0.33)
As reported diluted	(3.65)	(0.33)
Pro forma basic	(3.80)	(0.52)
Pro forma diluted	(3.80)	(0.52)

The above numbers have been restated to reflect the Company's 1 for 10 stock split on April 27, 2001. For purposes of computing the pro forma amounts above, the Black-Scholes option pricing model was used. The assumptions used in this model are disclosed for the individual plans below.

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

(a) Stock Option Plan

The Company has reserved 210,000 shares of common stock for issuance under its 1988 Incentive Stock Plan and 510,000 shares of common stock for issuance under its 1998 Incentive Stock Plan (collectively the "Plans"). The 1988 Incentive Stock Plan is closed and may not be used for further issues of options. Under the Plans, the Company may issue options to purchase shares of the Company's common stock to eligible employees, officers, directors, independent contractors and consultants. The term of the options issued under the Plans cannot exceed ten years from the date of grant. Options granted to date generally become exercisable over four to five years based on the grantees' continued service with the Company.

A summary of the status of the Company's Plan as of June 30, 2002, 2001 and 2000 and activity for the fiscal years then ended is presented below:

	Number of Shares	Weighted Average Exercise Price	Exercisabl
	-----	-----	-----
Balance as of June 30, 1999	178,600	\$ 29.70	86,000
Granted (at market value)	61,100	\$ 25.80	
Exercised	(1,000)	\$ 25.90	
Canceled	(35,100)	\$ 28.80	

Balance as of June 30, 2000	203,600	\$ 28.70	102,800
Granted (at market value)	165,219	\$ 4.90	
Canceled	(77,148)	\$ 21.80	

Balance as of June 30, 2001	291,671	\$ 16.91	112,255
Granted (at market value)	137,333	\$ 4.91	
Exercised	(10,243)	\$ 2.32	
Canceled	(91,966)	\$ 20.34	

Balance as of June 30, 2002	326,795	\$ 10.78	113,494

F-16

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The weighted average estimated grant date fair value of options granted during fiscal 2002, 2001, and 2000 was \$3.73, \$4.49, and \$25.80, respectively.

The following table summarizes information about the stock options outstanding at June 30, 2002:

Edgar Filing: ROSS SYSTEMS INC/CA - Form 10-K

Range of Exercise Prices	Options Outstanding		
	Shares Outstanding	Weighted Average Contractual Remaining Life	Weighted Average Exercise Price
\$1.88-\$1.88	67,383	8.5 years	\$ 1.88
\$3.25-\$3.25	6,394	9.1 years	3.25
\$3.50-\$3.50	76,489	9.1 years	3.50
\$3.75-\$5.40	40,831	9.0 years	4.62
\$8.00-\$11.88	48,550	9.1 years	9.74
\$13.75-\$25.00	23,500	7.4 years	21.32
\$25.94-\$25.94	39,450	5.1 years	25.94
\$26.56-\$55.00	21,080	5.1 years	34.00
\$65.00-\$65.00	2,413	4.4 years	65.00
\$67.50-\$67.50	705	3.5 years	67.50
Totals	326,795	8.1 years	\$ 10.78

The following weighted average assumptions for the Company's Stock Option Plan were used to determine the pro forma amounts noted above:

	Year ended June 30,		
	2002	2001	2000
Expected life	5	5	5
Expected volatility	80.4%	121.6%	104.76%
Risk-free interest rate	5.0%	5.3%	6.5%
Expected dividend yield	*	*	*

* Not applicable

(b) Employee Stock Purchase Plan

The Company initially reserved 80,000 shares of common stock for issuance under its 1991 Employee Stock Purchase Plan ("ESPP"). In fiscal 1999, the stockholders approved an amendment to the plan whereby the number of shares reserved for issuance was increased to 95,000. An amendment in fiscal 2002 provided that beginning in fiscal 2001 and each year thereafter, the amount reserved for issuance is increased by the lesser of 20,000 shares or 1% of total outstanding common stock.

Under the ESPP, the Company's employees may purchase, through payroll deductions of 1% to 10% of compensation, shares of common stock at a price per share that is the lesser of 85% of its fair market value as of the beginning or end of the offering period. Under the ESPP, the Company sold 29,146 shares, 11,409 shares, and 13,955 shares, to employees in fiscal 2002, 2001, and 2000 respectively. The weighted average fair value of those purchase rights granted in fiscal 2002, and 2001, was \$0.83 and \$1.12, respectively. As of June 30, 2002, 128,314 shares had been issued under the ESPP.

F-18

ROSS SYSTEMS, INC AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The net change in total valuation allowance for the year ended June 30, 2002, was an increase of \$3,028,000. The valuation allowance has been established to recognize the uncertainty of utilizing loss and credit carryovers and certain deferred assets.

At June 30, 2002, the Company had net operating loss carry-forwards of approximately \$33,827,000, \$14,473,000 and \$8,449,000 for federal, California and foreign tax purposes, respectively. At June 30, 2002, the Company also had unused research and other credit carry-forwards of approximately \$3,248,000 and \$554,000 for federal and California tax purposes, respectively. The loss and research credit carry-forwards, if not utilized, will expire between fiscal 2003 and 2014.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors and Shareholders
of Ross Systems, Inc and subsidiaries.

The audit referred to in our report dated September 13, 2002, relating to the consolidated financial statements of Ross Systems, Inc and subsidiaries, which is contained in Item 8 of this Form 10-K, included the audit of the financial statement schedule as of June 30, 2002 listed in the accompanying index. The financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statement schedule based on our audit.

In our opinion, such financial statement schedule as of June 30, 2002 presents fairly, in all material respects, the information set forth therein.
