TRACTOR SUPPLY COMPANY

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation:

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States and the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 26, 2009. The results of operations for the fiscal three-month and six-month periods are not necessarily indicative of results for the full fiscal year.

Our business is highly seasonal. Historically, our sales and profits have been the highest in the second and fourth fiscal quarters of each year due to the sale of seasonal products. We experience our highest inventory and accounts payable balances during the first fiscal quarter each year for purchases of seasonal products in anticipation of the spring selling season and again during the third fiscal quarter in anticipation of the winter selling season. Unseasonable weather, excessive precipitation, drought, and early or late frosts may also affect our sales. We believe, however, that the impact of extreme weather conditions is somewhat mitigated by the geographic dispersion of our stores.

Note 2 – Reclassifications:

Certain amounts in previously issued financial statements have been reclassified to conform to the fiscal 2010 presentation. A portion of the liabilities related to workers' compensation and general liability insurance (\$13.0 million at June 27, 2009) previously classified in accrued expenses have been reclassified to other long-term liabilities to reflect their long-term status. Amounts related to tenant improvement allowances (\$17.4 million at June 27, 2009) previously classified in other long-term liabilities and amounts related to straight-line rent (\$42.2 million at June 27, 2009) previously classified as straight-line rent liability have been reclassified as deferred rent to conform to the June 26, 2010 presentation.

These changes have affected our June 27, 2009 Consolidated Balance Sheet and the Consolidated Statement of Cash Flows for the fiscal six months ended June 27, 2009.

Note 3 – Short-term Investments:

As of June 26, 2010, the Company's short-term held-to-maturity investments consisted of a \$15.9 million one-year U.S. Treasury note with a maturity date of May 11, 2011. This investment is stated at amortized cost, which approximates fair value.

Note 4 – Fair Value of Financial Instruments:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. The Company uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active

markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Financial Instruments Not Carried at Fair Value

Our financial instruments consist of cash and cash equivalents, short-term investments, short-term receivables, trade payables and long-term debt instruments. The carrying values of cash and cash equivalents, short-term receivables and trade payables approximate current fair value. We had no borrowings under the revolving credit facility at June 26, 2010, December 26, 2009 or June 27, 2009.

Our short-term investment in a U.S. Treasury note is classified as Level 1 as these types of investments trade with sufficient frequency and volume to enable us to obtain pricing information on an ongoing basis. The fair value at June 26, 2010 was \$15.9 million.

Note 5 – Inventories:

Inventories are stated using the lower of last-in, first-out (LIFO) cost or market. Quarterly inventory determinations under LIFO are based on assumptions as to projected inventory levels at the end of the fiscal year, sales for the year and the expected rate of inflation/deflation for the year. If the first-in, first-out (FIFO) method of accounting for inventory had been used, inventories would have been approximately \$78.6 million, \$75.2 million and \$74.8 million higher than reported at June 26, 2010, December 26, 2009 and June 27, 2009, respectively.

Note 6 – Property and Equipment:

Property and equipment is comprised as follows:

	June 26, 2010	December 26, 2009	June 27, 2009
Land	\$ 28,755	\$ 27,646	\$ 25,410
Buildings and improvements	362,563	350,505	334,414
Furniture, fixtures and equipment	236,124	226,967	210,655
Computer software and hardware	102,095	88,700	79,064
Construction in progress	9,910	11,562	16,703
	739,447	705,380	666,246
Accumulated depreciation and amortization	(366,905)	(335,135)	(302,351)
	\$ 372,542	\$ 370,245	\$ 363,895

Note 7 – Share-Based Compensation:

Share-based compensation includes stock option grants and restricted stock unit awards and certain transactions under our Employee Stock Purchase Plan (the “ESPP”). Share-based compensation expense is recognized based on grant date fair value of all options and awards plus a discount on shares purchased by employees as a part of the ESPP. The discount under the ESPP represents the difference between the grant date fair value and the employee’s purchase price. For the second quarter of fiscal 2010 and 2009, share-based compensation expense lowered pre-tax income by \$3.1 million and \$2.9 million, respectively, and \$6.2 million and \$6.1 million for the first six months of fiscal 2010 and 2009, respectively. The benefits of tax deductions in excess of recognized compensation expense are reported as a financing cash flow.

Forfeitures are estimated at the time of valuation and reduce expense ratably over the vesting period. This estimate is adjusted periodically based on the extent to which actual forfeitures differ, or are expected to differ, from the previous estimate.

Stock Incentive Plan

Under our 2009 Stock Incentive Plan, options may be granted to officers, non-employee directors and other employees. The per share exercise price of options granted shall not be less than the fair market value of the stock on the date of grant and such options will expire no later than ten years from the date of grant. Also, the aggregate fair market value of the stock with respect to which incentive stock options are exercisable on a tax deferred basis for the first time by an individual in any calendar year may not exceed \$100,000. Vesting of options commences at various anniversary dates following the dates of grant.

The fair value of each option grant is separately estimated for each vesting date. The fair value of each option is recognized as compensation expense ratably over the vesting period. We have estimated the fair value of all stock option awards as of the date of the grant by applying a Black-Scholes pricing valuation model. The application of this valuation model involves assumptions that are judgmental and highly sensitive in the determination of compensation expense.

The following summarizes information concerning stock option grants during fiscal 2010 and 2009:

	Three months ended		Six months ended	
	June 26, 2010	June 27, 2009	June 26, 2010	June 27, 2009
Stock options granted	6,400	6,200	437,726	546,826
Weighted average exercise price	\$ 68.75	\$ 38.73	\$ 52.66	\$ 34.29
Weighted average fair value	\$ 23.11	\$ 13.81	\$ 20.48	\$ 12.86

The weighted average key assumptions used in determining the fair value of options granted in the three and six months ended June 26, 2010 and June 27, 2009 are as follows:

	Three months ended		Six months ended	
	June 26, 2010	June 27, 2009	June 26, 2010	June 27, 2009
Expected price volatility	38.9 %	39.3 %	38.8 %	39.8 %
Risk-free interest rate	2.3 %	1.7 %	2.5 %	1.6 %
Weighted average expected lives in years	4.8	4.7	5.4	5.2
Forfeiture rate	7.7 %	8.0 %	6.5 %	6.8 %
Dividend yield	1.0 %	0.0 %	0.0 %	0.0 %

As of June 26, 2010, total unrecognized compensation expense related to non-vested stock options was approximately \$13.5 million with a weighted average expense recognition period of 1.5 years.

Restricted Stock Units

During the first six months of 2010 and 2009, we granted 72,019 and 149,151 restricted stock units, respectively, which vest over an approximate three year term and had a grant date fair value of \$53.92 and \$34.63, respectively. As of June 26, 2010, total unrecognized compensation expense related to non-vested restricted stock units was approximately \$6.8 million with a weighted average expense recognition period of 1.9 years.

For the majority of restricted stock units granted, the number of shares issued on the date the restricted stock units vest is net of the minimum statutory withholding requirements that we pay in cash to the appropriate taxing authorities on behalf of our employees. During the first six months of 2010, we withheld 12,991 shares to satisfy \$0.7 million of employees' tax obligations. No restricted stock units were issued in the first six months of 2009. Although shares withheld are not issued, they are treated similar to common stock repurchases as they reduce the number of shares that would have been issued upon vesting.

Employee Stock Purchase Plan

The ESPP provides our employees the opportunity to purchase, through payroll deductions, shares of our common stock at a 15% discount. Pursuant to the terms of the ESPP, we issued 20,221 and 26,434 shares of our common stock during the first six months of fiscal 2010 and 2009, respectively. Total stock compensation expense related to the ESPP was approximately \$0.2 million during the first six months of 2010 and 2009. At June 26, 2010, there were

3,167,099 shares of common stock reserved for future issuance under the ESPP.

There were no significant modifications to our share-based compensation plans during the six months ended June 26, 2010.

Page 8

Note 8 - Net Income Per Share:

We present both basic and diluted earnings per share (“EPS”) on the face of the consolidated statements of income. Basic EPS is calculated as income available to common stockholders divided by the weighted average number of shares outstanding during the period. There were no participating securities other than common stock during the three and six months ended June 26, 2010. Diluted EPS is calculated using the weighted average outstanding common shares and the treasury stock method for options and restricted stock units.

Net income per share is calculated as follows (in thousands, except per share amounts):

	Three months ended June 26, 2010			Three months ended June 27, 2009		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Basic net income per share:						
Net income	\$76,487	36,333	\$2.11	\$54,764	35,884	\$ 1.53
Dilutive stock options and restricted stock units outstanding						
	--	1,006	(0.06)	--	630	(0.03)
Diluted net income per share:						
Net income	\$76,487	37,339	\$2.05	\$54,764	36,514	\$ 1.50
	Six months ended June 26, 2010			Six months ended June 27, 2009		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Basic net income per share:						
Net income	\$85,795	36,244	\$2.37	\$55,234	35,918	\$1.54
Dilutive stock options and restricted stock units outstanding						
	--	925	(0.06)	--	615	(0.03)
Diluted net income per share:						
Net income	\$85,795	37,169	\$2.31	\$55,234	36,533	\$1.51

Note 9 – Credit Agreement:

We are party to a Senior Credit Facility (the “Credit Agreement”), which provides for borrowings up to \$350 million (with sublimits of \$75 million and \$20 million for letters of credit and swingline loans, respectively). The Credit Agreement has an Increase Option for \$150 million (subject to additional lender group commitments). The Credit Agreement is unsecured and matures in February 2012, with proceeds expected to be used for working capital, capital expenditures, share repurchases and dividends.

At June 26, 2010, there were no outstanding borrowings under the Credit Agreement. There were \$29.5 million outstanding letters of credit as of June 26, 2010. Borrowings bear interest at either the bank’s base rate or LIBOR plus an additional amount ranging from 0.35% to 0.90% per annum, adjusted quarterly based on our performance (0.50% at June 26, 2010 and June 27, 2009). We are also required to pay a commitment fee ranging from 0.06% to 0.18% per

annum for unused capacity (0.10% at June 26, 2010 and June 27, 2009). The agreement requires quarterly compliance with respect to fixed charge coverage and leverage ratios. As of June 26, 2010, we are in compliance with all debt covenants.

Note 10 – Treasury Stock:

We have a Board-approved share repurchase program which provides for repurchase of up to \$400 million of common stock, exclusive of any fees, commissions, or other expenses related to such repurchases, through December 2011. The repurchases may be made from time to time on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased under the program will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability, and other market conditions. Repurchased shares will be held in treasury. The program may be limited or terminated at any time without prior notice.

We repurchased 149,311 and 20,639 shares under the share repurchase program during the second quarter of 2010 and 2009, respectively. The total cost of the share repurchases was \$9.9 million and \$0.7 million during the second quarter of 2010 and 2009, respectively. We repurchased 222,411 and 301,623 shares under the share repurchase program during the first six months of 2010 and 2009, respectively. The total cost of the share repurchases was \$13.7 million and \$9.9 million during the first six months of 2010 and 2009, respectively. As of June 26, 2010, we had remaining authorization under the share repurchase program of \$167.3 million exclusive of any fees, commissions, or other expenses.

Note 11 – Dividends:

During the first six months of 2010, the Board of Directors declared the following dividends:

Date Declared	Dividend Amount Per Share	Stockholders of Record Date	Date Paid
March 1, 2010	\$ 0.14	March 15, 2010	March 29, 2010
May 3, 2010	0.14	May 17, 2010	June 2, 2010

It is the present intention of the Board of Directors to continue to pay this quarterly cash dividend; however, the declaration and payment of future dividends will be determined by the Board of Directors in its sole discretion and will depend upon the earnings, financial condition, and capital needs of the Company and other factors which the Board of Directors deems relevant.

Note 12 – New Accounting Pronouncements:

In June 2009, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification (“ASC”) Topic 810 (originally issued as Statement of Financial Accounting Standards No. 167, “Amendments to FASB Interpretation No. (“FIN”) 46(R)”). Among other items, ASC 810 responds to concerns about an enterprise’s application of certain key provisions of FIN 46(R), including those regarding the transparency of the enterprise’s involvement with variable interest entities. ASC 810 is effective for the first annual period that begins after November 15, 2009, and for interim periods within that first annual reporting period. The Company adopted the standard for the interim period ended March 27, 2010. There was no impact on the Company’s financial position, results of operations, cash flows, or disclosures.

In February 2010, the FASB issued Accounting Standards Update No. 2010-09 (ASU No. 2010-09), “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements.” The amendments remove the requirements for an SEC filer to disclose a date, in both issued and revised financial statements, through which subsequent events have been reviewed. Revised financial statements include financial statements revised as a result of either correction of an error or retrospective application of U.S. GAAP. ASU No. 2010-09 was effective upon issuance. The adoption of this guidance did not have an impact on our financial condition, results of operations or cash flows.

Note 13 – Commitments and Contingencies:

Construction commitments

At June 26, 2010, we had commitments for new store construction projects totaling approximately \$3.2 million and commitments to purchase three stores previously under lease for approximately \$9.5 million.

Letter of Credit

At June 26, 2010, there was a \$16.0 million outstanding letter of credit at a financial institution outside of the Credit Agreement which is collateralized by our short-term investment in a U.S. Treasury note.

Litigation

We are involved in various litigation matters arising in the ordinary course of business. Management expects these matters will be resolved without material adverse effect on our consolidated financial position or results of operations. Any estimated loss related to such matters has been adequately provided in accrued liabilities to the extent probable and reasonably estimable. It is possible, however, that future results of operations for any particular quarterly or annual period could be affected by changes in circumstances relating to these proceedings.

Note 14 – Subsequent Events:

On July 29, 2010, we announced that our board of directors declared a quarterly cash dividend of \$0.14 per share of the Company's common stock. The dividend will be paid on August 31, 2010 to stockholders of record as of the close of business on August 16, 2010.

On July 29, 2010, the Company's Board of Directors announced a two-for-one split of the Company's common stock in the form of a stock dividend. As a result, stockholders will receive one additional share on September 2, 2010 for each share held as of the record date of August 19, 2010. The par value of the Company's common stock will remain \$0.008 per share. The accompanying presentations of the consolidated balance sheets and earnings per share do not reflect the effect of this stock split.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The following discussion and analysis should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 26, 2009. The following discussion and analysis also contains certain historical and forward-looking information. The forward-looking statements included herein are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the "Act"). All statements, other than statements of historical facts, which address activities, events or developments that we expect or anticipate will or may occur in the future, including such things as estimated results of operations in future periods, the declaration and payment of dividends, future capital expenditures (including their amount and nature), business strategy, expansion and growth of our business operations and other such matters are forward-looking statements. These forward-looking statements may be affected by certain risks and uncertainties, any one, or a combination of which could materially affect the results of our operations. To take advantage of the safe harbor provided by the Act, we are identifying certain factors that could cause actual results to differ materially from those expressed in any forward-looking statements, whether oral or written.

Our business is highly seasonal. Historically, our sales and profits have been the highest in the second and fourth fiscal quarters of each year due to the sale of seasonal products. We experience our highest inventory and accounts payable balances during the first fiscal quarter each year for purchases of seasonal products in anticipation of the spring selling season and again during the third fiscal quarter in anticipation of the winter selling season. Unseasonable weather, excessive precipitation, drought, and early or late frosts may also affect our sales. We believe, however, that the impact of extreme weather conditions is somewhat mitigated by the geographic dispersion of our stores.

As with any business, many aspects of our operations are subject to influences outside our control. These factors include general economic conditions affecting consumer spending, the timing and acceptance of new products in the stores, the mix of goods sold, purchase price volatility (including inflationary and deflationary pressures), the ability to increase sales at existing stores, the ability to manage growth and identify suitable locations and negotiate favorable lease agreements on new and relocated stores, the availability of favorable credit sources, capital market conditions in general, failure to open new stores in the manner currently contemplated, the impact of new stores on our business, competition, weather conditions, the seasonal nature of our business, effective merchandising initiatives and marketing emphasis, the ability to retain vendors, reliance on foreign suppliers, the ability to attract, train and retain qualified employees, product liability and other claims, potential legal proceedings, management of our information systems, effective tax rate changes and results of examination by taxing authorities, and the ability to maintain an effective system of internal control over financial reporting. We discuss in greater detail risk factors relating to our business in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 26,

2009. Forward-looking statements are based on our knowledge of our business and the environment in which we operate, but because of the factors listed above or other factors, actual results could differ materially from those reflected by any forward-looking statements. Consequently, all of the forward-looking statements made are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated will be realized or, even if substantially realized, that they will have the expected consequences to or effects on our business and operations. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Results of Operations

Fiscal Three Months (Second Quarter) and Six Months Ended June 26, 2010 and June 27, 2009

Net sales increased 12.6% to \$1.07 billion for the second quarter of 2010 from \$946.5 million for the second quarter of 2009. Same-store sales for the quarter increased 6.1%, compared with a 2.7% decrease in the prior year quarter. Net sales increased 11.3% to \$1.78 billion for the first six months of fiscal 2010 from \$1.60 billion for the first six months of fiscal 2009. Same-store sales for the first six months of fiscal 2010 increased 4.7% compared to flat for the first six months of 2009. Our second quarter same-store sales increase was broad-based and driven by continued strong results in core consumable categories, including animal and pet-related products, as well as agricultural and seasonal products, including outdoor power equipment.

We opened 19 new stores during the second quarter of 2010 compared to 13 new store openings during the prior year's second quarter. During the first six months of 2010, we opened 38 new stores, compared to 41 new store openings and one relocation during the first six months of 2009. We closed one store during each of the first six months of 2010 and 2009. We operated 967 stores at June 26, 2010, compared to 895 stores at June 27, 2009.

The following chart indicates the average percentage of sales represented by each of our major product categories during the second quarter and first six months of fiscal 2010 and 2009:

Product Category:	Three months ended		Six months ended	
	June 26, 2010	June 27, 2009	June 26, 2010	June 27, 2009
Livestock and Pet	37 %	37 %	40 %	40 %
Seasonal Products	24	23	20	19
Hardware, Tools, and Truck	22	23	23	23
Agricultural	9	9	7	8
Clothing and Footwear	5	5	7	7
Gift and Recreation	3	3	3	3
Total	100 %	100 %	100 %	100 %

Gross margin increased 18.7% to \$358.8 million for the second quarter of 2010 from \$302.2 million in the second quarter of 2009. As a percent of sales, gross margin increased 180 basis points to 33.7% for the second quarter of fiscal 2010 compared to 31.9% for the comparable period in fiscal 2009. Gross margin increased 16.8% to \$587.7 million in the first six months of 2010 compared to \$503.2 million in the first six months of 2009. For the first six months of fiscal 2010, gross margin increased 160 basis points to 33.1% compared to 31.5% for the first six months of fiscal 2009. The improvement in gross margin for the second quarter and first six months of fiscal 2010 primarily reflects expanded direct product margin, continued improvements in shrink and a decrease in the LIFO charge. The improvement in direct margin resulted from strategic sourcing and effective pricing and markdown management.

Total selling, general and administrative ("SG&A") expenses, including depreciation and amortization, improved 40 basis points to 22.2% of sales in the second quarter of fiscal 2010 from 22.6% of sales in the second quarter of fiscal 2009. SG&A expenses, including depreciation and amortization, for the first six months of fiscal 2010 improved 50 basis points to 25.4% of sales from 25.9% for the first six months of fiscal 2009. The SG&A improvement as a percent to sales for the quarter and first six months of 2010 was primarily due to sales growth and expense control, which enabled the Company to leverage occupancy, store payroll and advertising costs.

Our effective income tax rate decreased to 37.3% and 37.0% in the second quarter and first six months of fiscal 2010, respectively, compared with 37.8% for the second quarter and first six months of fiscal 2009. The reduction in the tax

rate resulted primarily from the tax benefit received on the disqualified disposition of incentive stock options exercised during the second quarter and first six months of fiscal 2010.

As a result of the foregoing factors, net income for the second quarter of fiscal 2010 increased 39.7% to \$76.5 million compared to \$54.8 million in the second quarter of fiscal 2009. Net income for the first six months of fiscal 2010 increased 55.3% to \$85.8 million from \$55.2 million in the first six months of the prior year. Net income per diluted share for the second quarter of fiscal 2010 increased to \$2.05 from \$1.50 and, for the first six months of fiscal 2010, increased to \$2.31 from \$1.51.

Liquidity and Capital Resources

In addition to normal operating expenses, our primary ongoing cash requirements are for expansion, remodeling and relocation programs, including inventory purchases and capital expenditures. Our primary ongoing sources of liquidity are existing cash balances, funds provided from operations, commitments available under our revolving credit agreement, capital and operating leases and normal trade credit.

At June 26, 2010, we had working capital of \$505.3 million, which was a \$75.6 million increase and an \$153.3 million increase compared to December 26, 2009 and June 27, 2009, respectively. The shifts in working capital were primarily attributable to changes in the following components of current assets and current liabilities (in millions):

	June 26, 2010	Dec. 26, 2009	Variance	June 27, 2009	Variance
Current assets:					
Cash and cash equivalents	\$ 181.1	\$ 172.9	\$ 8.2	\$ 91.9	\$ 89.2
Short-term investments	15.9	--	15.9	--	15.9
Inventories	702.4	601.2	101.2	644.9	57.5
Prepaid expenses and other current assets	40.2	42.3	(2.1)	32.5	7.7
Deferred income taxes	17.6	17.9	(0.3)	7.1	10.5
	957.2	834.3	122.9	776.4	180.8
Current liabilities:					
Accounts payable	289.5	273.2	16.3	294.8	(5.3)
Accrued expenses	110.4	123.4	(13.0)	96.5	13.9
Current portion of capital lease obligations	0.4	0.4	--	0.5	(0.1)
Income taxes payable	51.6	7.6	44.0	32.6	19.0
	451.9	404.6	47.3	424.4	27.5
Working capital	\$ 505.3	\$ 429.7	\$ 75.6	\$ 352.0	\$ 153.3

In comparison to prior year end, working capital increased as a result of an increase in inventory, partially offset by an increase in income taxes payable. The increase in inventories resulted primarily from the purchase of additional inventory for new stores and increased average inventory per store due to seasonality as well as a strategic investment in our “never out of stock” categories and essential spring merchandise. Income taxes payable increased due to timing of tax payments.

The increase in working capital as compared to the second quarter of 2009 was the result of an increase in cash and inventory. Cash has increased principally from stronger earnings. The increase in inventory is related to new store openings and a slight increase in average inventory per store.

Operations provided net cash of \$71.0 million and \$96.5 million in the first six months of fiscal 2010 and fiscal 2009, respectively. The \$25.5 million decrease in net cash provided in 2010 over 2009 is primarily due to changes in the following operating activities (in millions):

	Six months ended		
	June 26, 2010	June 27, 2009	Variance
Net income	\$ 85.8	\$ 55.2	\$ 30.6
Depreciation and amortization	33.8	32.3	1.5
Inventories and accounts payable	(84.8)	(33.5)	(51.3)
Stock compensation expense	6.2	6.1	0.1
Prepaid expenses and other current assets	2.1	9.4	(7.3)
Accrued expenses	(13.0)	(4.6)	(8.4)
Income taxes payable	44.0	32.7	11.3
Other, net	(3.1)	(1.1)	(2.0)
Net cash provided by operations	\$ 71.0	\$ 96.5	\$ (25.5)

The decline in net cash provided by operations in the first six months of fiscal 2010 compared with the first six months of fiscal 2009 primarily relates to increased inventory levels and timing of payments on accounts payable, partially offset by stronger earnings. Accounts payable typically declines at a faster pace than inventory as our average payments terms are shorter than the inventory turns. Additionally, we have been working with our vendors to accelerate payments in order to obtain discounts.

Investing activities used \$52.6 million and \$34.1 million in the first six months of fiscal 2010 and fiscal 2009, respectively. The majority of this cash requirement relates to our capital expenditures and in 2010 we had payments of \$15.9 million to acquire short-term investments.

Capital expenditures for the first six months of fiscal 2010 and fiscal 2009 were as follows (in millions):

	Six months ended	
	June 26, 2010	June 27, 2009
New/relocated stores and stores not yet opened	\$ 11.3	\$ 17.3
Information technology	9.7	8.0
Existing store properties acquired from lessors	7.2	--
Existing stores	6.0	8.5
Distribution center capacity and improvements	2.3	0.3
Other	0.4	--
	\$ 36.9	\$ 34.1

The above table reflects 38 new stores in the first six months of fiscal 2010, compared to 41 new stores during the first six months of fiscal 2009.

Financing activities used \$10.2 million and \$7.5 million in the first six months of fiscal 2010 and fiscal 2009, respectively. This increase in net cash used is largely due to quarterly cash dividends paid to stockholders and repurchase of common stock, partially offset by increased net proceeds from issuance of common stock.

We are party to a Senior Credit Facility (the "Credit Agreement"), which provides for borrowings up to \$350 million (with sublimits of \$75 million and \$20 million for letters of credit and swingline loans, respectively). The Credit Agreement has an Increase Option for \$150 million (subject to additional lender group commitments). The Credit Agreement is unsecured and matures in February 2012, with proceeds expected to be used for working capital, capital expenditures, share repurchases, and dividends.

At June 26, 2010 and June 27, 2009, there were no outstanding borrowings under the credit agreement. There were \$29.5 million outstanding letters of credit as of June 26, 2010. Borrowings bear interest at either the bank's base rate or LIBOR plus an additional amount ranging from 0.35% to 0.90% per annum, adjusted quarterly based on our performance (0.50% at June 26, 2010 and June 27, 2009). We are also required to pay a commitment fee ranging from 0.06% to 0.18% per annum for unused capacity (0.10% at June 26, 2010 and June 27, 2009). The agreement requires quarterly compliance with respect to fixed charge coverage and leverage ratios. As of June 26, 2010, we were in compliance with all debt covenants.

We believe that existing cash balances, funds provided from operations, commitments available under our revolving credit agreement, and normal trade credit will be sufficient to fund our operations and capital expenditure needs, including store expansion, remodeling and relocations, over the next several years.

Share Repurchase Program

We have a Board-approved share repurchase program which provides for repurchase of up to \$400 million of common stock, exclusive of any fees, commissions, or other expenses related to such repurchases, through December 2011. The repurchases may be made from time to time on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased under the program will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability, and other market conditions. Repurchased shares will be held in treasury. The program may be limited or terminated at any time without prior notice.

We repurchased 149,311 and 20,639 shares under the share repurchase program during the second quarter of 2010 and 2009, respectively. The total cost of the share repurchases was \$9.9 million and \$0.7 million during the second quarter of 2010 and 2009, respectively. We repurchased 222,411 and 301,623 shares under the share repurchase program during the first six months of 2010 and 2009, respectively. The total cost of the share repurchases was \$13.7 million and \$9.9 million during the first six months of 2010 and 2009, respectively. As of June 26, 2010, we had remaining authorization under the share repurchase program of \$167.3 million exclusive of any fees, commissions, or other expenses.

Dividends

We believe our ability to generate cash allows us to invest in the growth of our business and, at the same time, distribute a quarterly dividend. During the first six months of 2010, the Board of Directors declared the following dividends:

Date Declared	Dividend Amount Per Share	Stockholders of Record Date	Date Paid
March 1, 2010	\$ 0.14	March 15, 2010	March 29, 2010
May 3, 2010	0.14	May 17, 2010	June 2, 2010

It is the present intention of the Board of Directors to continue to pay this quarterly cash dividend; however, the declaration and payment of future dividends will be determined by the Board of Directors in its sole discretion and will depend upon the earnings, financial condition, and capital needs of the Company and other factors which the Board of Directors deems relevant.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements are limited to operating leases and outstanding letters of credit. We typically lease buildings for retail stores and offices rather than acquiring these assets which allows us to utilize financial capital to operate the business rather than invest in fixed assets. Letters of credit allow us to purchase inventory, primarily sourced overseas in a timely manner, and support certain risk management programs.

Significant Contractual Obligations and Commercial Commitments

We had commitments for new store construction projects totaling approximately \$3.2 million at June 26, 2010 and commitments to purchase three stores previously under lease for approximately \$9.5 million. There has been no material change in our contractual obligations and commercial commitments other than in the ordinary course of business since the end of fiscal 2009.

At June 26, 2010, there was a \$16.0 million outstanding letter of credit at a financial institution outside of the Credit Agreement which is collateralized by our short-term investment in a U.S. Treasury note.

Significant Accounting Policies and Estimates

Our discussion and analysis of our financial position and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with United States generally accepted accounting principles. The preparation of these financial statements requires us to make informed estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Significant accounting policies, including areas of critical management judgments and estimates, have primary impact on the following financial statement areas:

- Revenue recognition and sales returns
- Inventory valuation
- Share-based compensation
- Self-insurance reserves
- Sales tax audit reserve
- Tax contingencies
- Goodwill
- Long-lived assets

See the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended December 26, 2009 for a discussion of our critical accounting policies. Our financial position and/or results of operations may be materially different when reported under different conditions or when using different assumptions in the application of such policies. In the event estimates or assumptions prove to be different from actual amounts, adjustments are made in subsequent periods to reflect more current information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to changes in interest rates primarily from the Credit Agreement. The Credit Agreement bears interest at either the bank's base rate (3.25% at June 26, 2010 and June 27, 2009) or LIBOR (0.35% and 0.31% at June 26, 2010 and June 27, 2009, respectively) plus an additional amount ranging from 0.35% to 0.90% per annum, adjusted quarterly, based on our performance (0.50% at June 27, 2010 and June 27, 2009). We are also required to pay, quarterly in arrears, a commitment fee ranging from 0.06% to 0.18% based on the daily average unused portion of the Credit Agreement (0.10% at June 26, 2010 and June 27, 2009). See Note 9 of the Notes to the Consolidated Financial Statements included herein for further discussion regarding the Credit Agreement.

Although we cannot determine the full effect of inflation and deflation on our operations, we believe our sales and results of operations are affected by both. We are subject to market risk with respect to the pricing of certain products and services, which include, among other items, steel, grain, petroleum, corn, soybean and other commodities as well as transportation services. Therefore, we may experience both inflationary and deflationary pressures on product cost, which may impact consumer demand and, as a result, sales and gross margin. Additionally, significant inflationary pressures could have an adverse effect on our LIFO inventory provision, which would negatively impact gross margin. Our strategy is to reduce or mitigate the effects of purchase price volatility principally by taking advantage of

vendor incentive programs, economies of scale from increased volume of purchases, adjusting retail prices and selectively buying from the most competitive vendors without sacrificing quality. Due to the competitive environment, such conditions have and may continue to adversely impact our financial performance.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We carried out an evaluation required by the Securities Exchange Act of 1934, as amended (the “1934 Act”), under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the 1934 Act) as of June 26, 2010. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the 1934 Act is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of June 26, 2010, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the 1934 Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the second fiscal quarter of 2010 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various litigation matters arising in the ordinary course of business. We expect these matters will be resolved without material adverse effect on our consolidated financial position or results of operations. Any estimated loss related to such matters has been adequately provided in accrued liabilities to the extent probable and reasonably estimable. It is possible, however, that future results of operations for any particular quarterly or annual period could be affected by changes in circumstances relating to these proceedings.

Item 1A. Risk Factors

There have been no material changes to our risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 26, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

We have a share repurchase program which provides for repurchase of up to \$400 million of our outstanding common stock through December 2011. Stock repurchase activity during the second quarter of fiscal 2010 was as follows:

Period	Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
March 28, 2010 – April 24, 2010	--	\$--	--	\$177,152,388
April 25, 2010 – May 22, 2010	111,000	66.99	111,000	169,719,635
May 23, 2010 – June 26, 2010	38,311	64.13	38,311	167,263,931
As of June 26, 2010	149,311	\$66.26	149,311	\$167,263,931

We expect to implement the balance of the repurchase program through purchases made from time to time either in the open market or through private transactions, in accordance with regulations of the Securities and Exchange Commission.

Item 3. Defaults Upon Senior Securities
