Exhibit 99.1

Eagle Bulk Shipping Inc. Reports Second Quarter 2013 Results

NEW YORK, NY, August 7, 2013-- Eagle Bulk Shipping Inc. (Nasdaq: EGLE) today announced its results for the second quarter ended June 30, 2013.

For the Second Quarter:

Net reported loss of \$3.0 million or \$0.18 per share (based on a weighted average of 16,968,750 diluted shares outstanding for the quarter), compared with net loss of \$23.1 million, or \$1.46 per share, for the comparable quarter of 2012.

Net revenues of \$44.2 million, compared to \$48.5 million for the comparable quarter in 2012. Gross time charter and freight revenues of \$45.8 million, compared with \$50.5 million for the comparable quarter of 2012.

EBITDA, as adjusted for exceptional items under the terms of the Company's credit agreement, was \$38.6 million for the second quarter of 2013, compared with \$10.0 million for the second quarter of 2012.

Fleet utilization rate of 99.8%.

Sophocles N. Zoullas, Chairman and CEO, commented, "While dry bulk fundamentals remain challenging, Eagle Bulk's operating strategy is steady: a flexible and revenue-maximizing chartering strategy, a diversified cargo mix that promotes stability through a range of market conditions, and operational excellence and efficiency."

Results of Operations for the three-month period ended June 30, 2013 and 2012

For the second quarter of 2013, the Company reported net loss of \$3,039,067 or \$0.18 per share, based on a weighted average of 16,968,750 diluted shares outstanding. In the comparable second quarter of 2012, the Company reported net loss of \$23,106,239 or \$1.46 per share, based on a weighted average of 15,880,392 diluted shares outstanding.

Gross time and voyage charter revenues in the quarter ended June 30, 2013 were \$45,842,553, compared with \$50,537,281 recorded in the comparable quarter in 2012. The decrease in revenue is attributable to lower time charter rates earned by the fleet. Gross revenues recorded in the quarter ended June 30, 2012 include an amount of \$1,205,276 relating to the non-cash amortization of fair value below contract value to time charters acquired. Brokerage commissions incurred on revenues earned in the quarter ended June 30, 2013 and 2012 were \$1,602,408 and \$2,000,048, respectively. Net revenues during the quarter ended June 30, 2013 and 2012 were \$44,240,145 and \$48,537,233, respectively.

Total operating expenses for the quarter ended June 30, 2013 were \$26,581,036 compared with \$59,605,359 recorded in the second quarter of 2012. The Company operated 45 vessels in both second quarters of 2013 and 2012. The decrease in operating expenses resulted primarily from a gain on the time charter agreement termination with KLC of \$25,629,584, and further from a reduction in the general and administrative expenses resulting from a reduction in the allowance for accounts receivable, professional fee costs and compensation expenses. The decrease in vessel expenses in the current quarter is attributable to efficiencies achieved through performing in-house technical management by transferring six additional vessels from one of our unaffiliated third party managers.

EBITDA, adjusted for exceptional items under the terms of the Company's credit agreement, was \$38,620,181 for the second quarter of 2013, compared with \$9,969,683 for the second quarter of 2012. (Please see below for a reconciliation of EBITDA to loss).

Results of Operations for the six-month period ended June 30, 2013 and 2012

For the six months ended June 30, 2013, the Company reported net loss of \$1,664,797 or \$0.10 per share, based on a weighted average of 16,967,418 diluted shares outstanding. In the comparable period of 2012, the Company reported net loss of \$40,539,768 or \$2.56 per share, based on a weighted average of 15,815,594 diluted shares outstanding.

Gross time and voyage charter revenues in the six-month period ended June 30, 2013 were \$119,461,544, compared with \$105,360,411 recorded in the comparable period in 2012. The increase in revenue is attributable to the settlement agreement with KLC, pursuant to which the Company recognized revenue of approximately \$32.8 million, offset by lower time charter rates earned by the fleet. Gross revenues recorded in the period ended June 30, 2013 and 2012, include an amount of \$10,280,559 and \$2,434,040, respectively, relating to the non-cash amortization of fair value below contract value of time charters acquired of which \$10,106,247 relates to the KLC settlement agreement in the quarter ended March 31, 2013. Brokerage commissions incurred on revenues earned in the period ended June 30, 2013 and 2012 were \$2,999,046 and \$4,206,778, respectively. Net revenues during the period ended June 30, 2013 and 2012, were \$116,462,498 and \$101,153,633, respectively.

Total operating expenses were \$74,001,327 in the six-month period ended June 30, 2013 compared to \$119,723,715 recorded in the same period of 2012. The Company operated 45 vessels in both six-month periods of 2013 and 2012. The decrease in operating expenses resulted primarily from a gain realized from the settlement agreement with KLC of \$28,961,276. The decrease in general and administrative expenses resulted from a reduction in allowance for accounts receivable, professional fee costs and compensation expenses. The decrease in vessel expenses in the six-month period is attributable to efficiencies achieved through performing in-house technical management by transferring six additional vessels from one of our unaffiliated third party managers. In addition, there was a reduction in charter hire expenses as none was incurred during the six-month period ended June 30, 2013.

EBITDA, adjusted for exceptional items under the terms of the Company's credit agreement, increased to \$71,144,894 for the six months ended June 30, 2013 from \$23,783,682 for the same period in 2012. (Please see below for a reconciliation of EBITDA to net loss).

Liquidity and Capital Resources

Net cash provided by operating activities during the six-month period ended June 30, 2013 was \$1,513,647, compared with net cash used by operating activities of \$1,463,360 during the corresponding six-month period ended June 30, 2012. The increase was primarily due to reductions in cost of operating our fleet, reductions in general and administrative expenses and partially offset by lower rates on charter renewals.

Net cash provided by investing activities during the six-month period ended June 30, 2013, was \$113,926, compared with \$309,866 during the corresponding six-month period ended June 30, 2012.

Net cash used by financing activities during the six-month period ended June 30, 2013 and 2012 was \$126,535 and \$6,773,199, respectively. The financing activity during the six-month period ended June 30, 2012, related primarily to the additional expenses incurred related to the amendment and restatement of the Company's credit agreement.

As of June 30, 2013, our cash balance was \$19,621,006, compared to a cash balance of \$18,119,968 at December 31, 2012. Also recorded in Restricted Cash is an amount of \$66,243, which collateralizes letters of credit relating to our office leases.

At June 30, 2013, the Company's debt consisted of \$1,129,478,741 in term loans and \$29,853,031 paid-in-kind loans.

We anticipate that our current financial resources, together with cash generated from operations will be sufficient to fund the operations of our fleet, including our working capital, throughout 2013. The general decline in the dry bulk carrier charter market has resulted in lower charter rates for vessels in the dry bulk market. If the current charter hire rates do not improve for the remainder of 2013 and in the first quarter of 2014, the Company will not be in compliance with the maximum leverage ratio and the minimum interest coverage ratio covenants under our credit agreement at or after March 31, 2014; and, if charter rates deteriorate significantly from current levels or if we are unable to achieve our cost cutting measures, the Company may not be in compliance with the maximum leverage ratio or the minimum interest coverage ratio covenants in 2013. Although there is no assurance that we will be successful in doing so, we are evaluating asset sales, equity and debt financing alternatives that could raise incremental cash.

#### Disclosure of Non-GAAP Financial Measures

EBITDA represents operating earnings before extraordinary items, depreciation and amortization, interest expense, and income taxes, if any. EBITDA is included because it is used by certain investors to measure a company's financial performance. EBITDA is not an item recognized by U.S. GAAP and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity. EBITDA is presented to provide additional information with respect to the Company's ability to satisfy its obligations including debt service, capital expenditures, and working capital requirements. While EBITDA is frequently used as a measure of operating results and the ability to meet debt service requirements, the definition of EBITDA used herein may not be comparable to that used by other companies due to differences in methods of calculation.

Our term loan agreement requires us to comply with financial covenants based on debt and interest ratio with extraordinary or exceptional items, interest, taxes, non-cash compensation, depreciation and amortization ("Credit Agreement EBITDA"). Therefore, we believe that this non-U.S. GAAP measure is important for our investors as it reflects our ability to meet our covenants. The following table is a reconciliation of net loss, as reflected in the consolidated statements of operations, to the Credit Agreement EBITDA:

|                                       | Three Months Ended |                  | Six Months Ended |                  |
|---------------------------------------|--------------------|------------------|------------------|------------------|
|                                       | June 30, 2013      | June 30, 2012    | June 30, 2013    | June 30, 2012    |
| Net Loss                              | \$ (3,039,067 )    | \$ (23,106,239 ) | \$ (1,664,797 )  | \$ (40,539,768 ) |
| Interest Expense                      | 20,689,110         | 12,053,342       | 41,228,145       | 23,014,252       |
| Depreciation and Amortization         | 19,159,955         | 19,427,957       | 38,096,532       | 38,861,314       |
| Amortization of fair value (below)    |                    |                  |                  |                  |
| above market of time charter acquired | -                  | (1,205,276 )     | (10,280,560)     | (2,434,040 )     |
| EBITDA                                | 36,809,998         | 7,169,784        | 67,379,320       | 18,901,758       |
| Adjustments for Exceptional Items     |                    |                  |                  |                  |
| Non-cash Compensation Expense (1)     | 1,810,183          | 2,799,899        | 3,765,574        | 4,881,924        |
| Credit Agreement EBITDA               | \$ 38,620,181      | \$ 9,969,683     | \$ 71,144,894    | \$ 23,783,682    |

(1) Stock based compensation related to stock options and restricted stock units.

#### Capital Expenditures and Drydocking

Our capital expenditures relate to the purchase of vessels and capital improvements to our vessels which are expected to enhance the revenue earning capabilities and safety of these vessels.

In addition to acquisitions that we may undertake in future periods, the Company's other major capital expenditures include funding the Company's maintenance program of regularly scheduled drydocking necessary to preserve the quality of our vessels as well as to comply with international shipping standards and environmental laws and

regulations. Although the Company has some flexibility regarding the timing of its dry docking, the costs are relatively predictable. Management anticipates that vessels are to be drydocked every two and a half years. Funding of these requirements is anticipated to be met with cash from operations. We anticipate that this process of recertification will require us to reposition these vessels from a discharge port to shipyard facilities, which will reduce our available days and operating days during that period.

Drydocking costs incurred are amortized to expense on a straight-line basis over the period through the date of the next scheduled drydock. One vessel drydocked in the three months ended June 30, 2013. The following table represents certain information about the estimated costs for anticipated vessel drydockings in the next four quarters, along with the anticipated off-hire days:

| Quarter Ending     | Off-hire<br>Days(1) | Projected Costs(2) |
|--------------------|---------------------|--------------------|
| September 30, 2013 | 44                  | \$1.20 million     |
| December 31, 2013  | 44                  | \$1.20 million     |
| March 31, 2014     | 44                  | \$1.20 million     |
| June 30, 2014.     | 22                  | \$0.60 million     |

(1)Actual duration of drydocking will vary based on the condition of the vessel, yard schedules and other factors.

(2)Actual costs will vary based on various factors, including where the drydockings are actually performed.

Summary Consolidated Financial and Other Data:

The following table summarizes the Company's selected consolidated financial and other data for the periods indicated below.

| Woodstar           | 2008 | 53,390 | Aug 2013                | \$ 6,400  |
| Wren               | 2008 | 53,349 | Jul 2013                | \$ 5,000(2)   |

(1) The date range provided represents the earliest and latest date on which the charterer may redeliver the vessel to the Company upon the termination of the charter. The time charter hire rates presented are gross daily charter rates before brokerage commissions, ranging from 0.625% to 5.00%, to third party ship brokers.

(2) Upon conclusion of the previous charter the vessel will commence a short term charter for up to six months.

(3) Index, an average of the trailing Baltic Supramax Index.

(4) The charterer has an option to extend the charter by two periods of 11 to 13 months each.

Glossary of Terms:

**Ownership days:** The Company defines ownership days as the aggregate number of days in a period during which each vessel in its fleet has been owned. Ownership days are an indicator of the size of the fleet over a period and affect both the amount of revenues and the amount of expenses that is recorded during a period.

**Chartered-in under operating lease days:** The Company defines chartered-in under operating lease days as the aggregate number of days in a period during which the Company chartered-in vessels.

**Available days:** The Company defines available days as the number of ownership days less the aggregate number of days that its vessels are off-hire due to vessel familiarization upon acquisition, scheduled repairs or repairs under guarantee, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels. The shipping industry uses available days to measure the number of days in a period during which vessels should be capable of generating revenues.

**Operating days:** The Company defines operating days as the number of its available days in a period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.

**Fleet utilization:** The Company calculates fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning. Our fleet continues to perform at very high utilization rates.

Conference Call Information

Members of Eagle Bulk's senior management team will host a teleconference and webcast at 8:30 a.m. ET on Thursday, August 8th 2013, to discuss the results.

To participate in the teleconference, investors and analysts are invited to call 866-543-6403 in the U.S., or 617-213-8896 outside of the U.S., and reference participant code 42452784. A simultaneous webcast of the call, including a slide presentation for interested investors and others, may be accessed by visiting <http://www.eagleships.com>.

A replay will be available following the call until 11:59 PM ET on August 15, 2013. To access the replay, call 888-286-8010 in the U.S., or 617-801-6888 outside of the U.S., and reference passcode 80939521.

About Eagle Bulk Shipping Inc.

Eagle Bulk Shipping Inc. is a Marshall Islands corporation headquartered in New York. The Company is a leading global owner of Supramax dry bulk vessels that range in size from 50,000 to 60,000 deadweight tons and transport a broad range of major and minor bulk cargoes, including iron ore, coal, grain, cement and fertilizer, along worldwide shipping routes.

Forward-Looking Statements

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although Eagle Bulk Shipping Inc. believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, Eagle Bulk Shipping Inc. cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charter hire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in our vessel operating expenses, including dry-docking and insurance costs, or actions taken by regulatory authorities, potential liability from future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by Eagle Bulk Shipping Inc. with the US Securities and Exchange Commission.
