Strategy and Outlook

The Board of Directors is very pleased with the merger agreement entered into between Frontline and Frontline 2012. With a large modern fleet, a strong balance sheet and attractive cash break even rates, the combined companies should be well positioned to generate significant free cash in a strong market, and sustain a weak market.

Despite the slowdown seen in the market the last weeks, the Board of Directors hopes the combined companies will be in a position to start returning cash to shareholders as quarterly dividends as soon as the merger is completed. The intention is to pay out excess cash as dividends at the Board's discretion.

The Board believes the combined companies will be well positioned to grow through acquisition and consolidation opportunities.
