Notes to Schedule of Investments:

* Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Fund's investments, including over-the-counter options, are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the last quoted mean price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange traded options are valued at the settlement price determined by the relevant exchange. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold. The Fund's net asset value is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange ("NYSE") on each day the NYSE is open for business.

- (a) All or partial amount segregated as collateral for call options written.
- (b) 144A security□Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (c) Private Placement. Restricted as to resale and may not have a readily available market. Securities with an aggregate market value of \$32,326,437, representing 2.15% of net assets are restricted.
- (d) Variable rate security. Interest rate disclosed reflects the rate in effect on October 31, 2008.
- (e) Non-income producing.
- (f) Securities exchangeable or convertible into securities of an entity different than the issuer. Such entity is identified in the parenthetical.
- (g) Issuer in default.
- (h) Fair-valued security□Securities with an aggregate value of \$5,112,546, representing 0.34% of net assets.

Fair Value Measurements—Effective February 1, 2008, the Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"). This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of the fair value measurements. The three levels of the fair value hierarchy under FAS 157 are described below:

- Level 1 □ quoted prices in active markets for identical investments
- Level 2 □ other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 □ significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The valuation techniques used by the Fund to measure fair value during the nine months ended October 31, 2008 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of October 31, 2008 in valuing the Fund's investments carried at value:

Valuation Inputs	Investments in Securities
Level 1 □ Quoted Prices	\$1,281,863,555
Level 2 □ Other Significant Observable Inputs	215,057,818
Level 3 □ Significant Unobservable Inputs	5,112,546
Total	\$1,502,033,919

A roll forward of fair value measurement using significant unobservable inputs (Level 3) as of October 31, 2008, were as follows:
