Pro Forma Financial Data

On April 4, 2017, CIT completed the sale of Commercial Air to Avolon, the international aircraft leasing company and a wholly-owned subsidiary of Bohai Capital Holding Co. Ltd. (the CIT Commercial Air Sale) in exchange for \$10.4 billion in cash.

On April 18, 2017, the Company repurchased for cash, by tender offer, \$969 million principal amount of its outstanding 5.500% Series C Unsecured Notes due 2019 at 106.125% (the Debt Tender Offer).

On May 4, 2017, the Company redeemed for cash, at an average price of 102.02%, an aggregate of \$4.84 billion principal amount of all of its outstanding notes listed below (the debt redemptions):

- \$1.7 billion principal amount 4.250% Senior Unsecured Notes due August 2017;
- \$1.5 billion principal amount 5.250% Senior Unsecured Notes due March 2018;
- \$0.7 billion principal amount 6.625% Series C Unsecured Notes due April 2018; and
- \$1.0 billion principal amount 5.000% Senior Unsecured Notes due May 2018.

On May 24, 2017, at 11:59 P.M., the Equity Tender Offer expired, and based on the preliminary results of the Equity Tender Offer, CIT expects to purchase an aggregate of approximately 57.3 million shares of CIT's common stock at a purchase price of \$48.00 per share.

The following unaudited pro forma condensed consolidated financial information is presented to illustrate the estimated effects of the CIT Commercial Air Sale, the Debt Tender Offer, the debt redemptions and the Equity Tender Offer on the consolidated results of CIT. The following unaudited pro forma condensed consolidated balance sheet as of March 31, 2017 and the unaudited pro forma condensed consolidated statements of income for the three-month period ended March 31, 2017 and the year ended December 31, 2016 are based upon, derived from, and should be read in conjunction with the historical audited financial statements of CIT (which are available in the 2016 Form 10-K), and the historical unaudited financial statements of CIT (which are available in the 2017 First Quarter Form 10-Q).

The pro forma adjustments are preliminary and are based upon available information and certain assumptions that management believes are reasonable under the circumstances and that are described in the accompanying notes to the unaudited pro forma condensed consolidated financial information. Actual results may differ materially from the assumptions within the accompanying unaudited pro forma condensed consolidated financial information.

The unaudited pro forma condensed consolidated statements of income for fiscal year ended December 31, 2016 and the three-month period ended March 31, 2017 assume the consummation of the CIT Commercial Air Sale, the Debt Tender Offer, the debt redemptions and the Equity Tender Offer as if they occurred on January 1, 2016. The unaudited pro forma condensed consolidated balance sheet as of March 31, 2017 assumes the CIT Commercial Air Sale, the Debt Tender Offer, the debt redemptions and the Equity Tender Offer occurred on March 31, 2017.

The unaudited pro forma condensed consolidated financial information have been prepared by management in accordance with the regulations of the SEC and are not necessarily indicative of the consolidated financial position or results of operations that would have been realized had the CIT Commercial Air Sale, the Debt Tender Offer, the debt redemptions and the Equity Tender Offer occurred as of the dates indicated, nor is it meant to be indicative of any anticipated consolidated financial position or results of operations that CIT will experience after the transactions.

The CIT Commercial Air Sale does not have an impact on income from continuing operations as the CIT Commercial Air business met the definition of a Discontinued Operation and was presented as such in the 2017 First Quarter Form 10-Q and the 2016 Form 10-K.

This unaudited pro forma condensed consolidated financial information should be read in conjunction with the accompanying notes and assumptions as well as the historical consolidated financial statements and related notes of the 2016 Form 10-K or the 2017 First Quarter Form 10-Q.

On May 24, 2017, the Equity Tender Offer expired, and, based on the preliminary results of the Equity Tender Offer, CIT expects to purchase an aggregate of approximately 57.3 million shares of CIT's common stock at a purchase price of \$48.00 per share.

Note 2. Basis of Presentation

The unaudited pro forma condensed consolidated balance sheet as of March 31, 2017 and the unaudited pro forma condensed consolidated statements of income for the three months ended March 31, 2017 and for the year ended December 31, 2016 presented herein are based on the historical financial statements and give effect to the CIT Commercial Air Sale, debt tender, debt redemptions and equity tender as if the transactions were completed on January 1, 2016 for the unaudited pro forma condensed consolidated statements of income and March 31, 2017 for the unaudited pro forma condensed consolidated balance sheet. Per the definitive agreement, cash proceeds from Avolon are calculated as the sum of the net asset value of CIT Commercial Air plus a premium. Any change in the net asset value of CIT Commercial Air results in an adjustment to the amount of cash proceeds to be received from Avolon. The cash paid out for the debt tender, debt redemptions and equity tender are based on actual pricing of the transactions at settlement date.

The unaudited pro forma condensed consolidated financial statements have been prepared for illustrative purposes only and are not necessarily indicative of the financial position or results of operations in future periods.

The pro forma adjustments are preliminary and are based on available information and certain assumptions that management believes are reasonable under the circumstances. Actual results may differ materially from the assumptions in the accompanying unaudited pro forma condensed consolidated financial information.

This unaudited pro forma condensed consolidated financial information, including the notes thereto, should be read in conjunction with the historical consolidated financial statements of CIT as of and for the three-month period ended March 31, 2017 and the year ended December 31, 2016 included in the 2017 First Quarter Form 10-Q and the 2016 Form 10-K.

The historical consolidated financial information has been adjusted in the accompanying unaudited pro forma condensed consolidated financial information to give effect to the pro forma events that are (i) directly attributable to the CIT Commercial Air Sale, debt tender, debt redemptions and equity tender, (ii) factually supportable and (iii) with respect to the unaudited pro forma condensed consolidated statements of income, expected to have a continuing impact on the consolidated results.

Note 3. Unaudited Pro Forma Condensed Consolidated Balance Sheet Adjustments

(a) Represents derecognition of CIT Commercial Air balances.

(b) Represents estimated cash proceeds, payments, and settlements as if the CIT Commercial Air Sale was completed on March 31, 2017. This amount does not reflect final net cash proceeds to be realized upon completion of the CIT Commercial Air Sale primarily as a result of the actual closing date being April 4, 2017 as opposed to March 31, 2017 as reflected herein.

RISK FACTORS

The operation of our business, and the economic and regulatory climate in the U.S. and other regions of the world involve various elements of risk and uncertainty. Before making an investment decision, you should carefully consider the risks and uncertainties described below, as well as the risks described under the caption Risk Factors in our 2016 Form 10-K and incorporated herein by reference. Additional risks that are presently unknown to us or that we currently deem immaterial may also impact our business.

Risks Relating to the Series A Preferred Stock

The shares of Series A Preferred Stock are equity securities and are subordinate to our existing and future indebtedness; certain of our future indebtedness may restrict the payment of dividends on the Series A Preferred Stock.

The shares of Series A Preferred Stock are equity interests in CIT and do not constitute indebtedness of CIT or any of our subsidiaries. As a result, the Series A Preferred Stock will rank junior to all of our and our subsidiaries' existing and future indebtedness and other non-equity claims with respect to assets available to satisfy claims against us, including claims in the event of our liquidation. If we are forced to liquidate our assets to pay our creditors, we may not have sufficient funds to pay amounts due on any or all of the Series A Preferred Stock then outstanding. In the event of any liquidation, dissolution or winding up of CIT, holders of the Series A Preferred Stock will not be entitled to receive the liquidation preference of their shares until we have paid or set aside an amount sufficient to pay in full the liquidation preference of any class or series ranking senior as to rights upon liquidation, dissolution or winding up.

Additionally, unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of preferred stock like the shares of Series A Preferred Stock (1) dividends are payable only if declared by our board of directors or a duly authorized committee of the board, (2) as a corporation, we are subject to restrictions on payments of dividends and any redemption price out of lawfully available funds and (3) as a bank holding company, our ability to declare and pay dividends is subject to the oversight of the Federal Reserve. In addition, the Series A Preferred Stock may be fully subordinate to interests held by the U.S. government in the event of a receivership, insolvency, liquidation, or similar proceeding, including a proceeding under the orderly liquidation authority provisions of the Dodd-Frank Act.

As of March 31, 2017, our total consolidated liabilities, including indebtedness, were approximately \$52.9 billion. We may incur additional debt in the future. Our future indebtedness may restrict the payment of dividends on the Series A Preferred Stock. In addition, the terms of the Series A Preferred Stock do not restrict our business or operations, nor do they restrict our ability to incur indebtedness or engage in any transactions, subject only to the limited voting rights of the Series A Preferred Stock described under Description of the Series A Preferred Stock Voting Rights in this prospectus supplement.

Dividends on the Series A Preferred Stock are discretionary and non-cumulative.

Dividends on the Series A Preferred Stock are discretionary and are not cumulative. Unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of preferred stock such as the Series A Preferred Stock, dividends are payable only when, as and if authorized and declared by our board of directors or a duly authorized committee of the board. Consequently, if our board of directors or a duly authorized committee of the board does not authorize and declare a dividend for any dividend period, holders of the Series A Preferred Stock will not be entitled to receive any such dividend, and such unpaid dividend will cease to accrue or be payable. We will have no obligation to pay dividends accrued for a dividend period after the dividend payment date for such period if our board of directors or a duly authorized committee of the board has not declared such dividend before the related

dividend payment date, whether or not dividends are declared for any subsequent dividend period with respect to the Series A Preferred Stock or any other preferred stock we may issue. If we do not declare and pay dividends on the Series A Preferred Stock, the market price of the shares of Series A Preferred Stock may decline.

S-15

If we are not paying full dividends on any outstanding parity stock, we will not be able to pay full dividends on Series A Preferred Stock.

Additionally, when dividends are not paid in full upon the Series A Preferred Stock and any other securities we have issued or may issue that have dividend rights on parity with the Series A Preferred Stock (whether such dividends are cumulative or non-cumulative), all dividends declared upon the Series A Preferred Stock and such dividend parity securities, if any, will be declared pro rata in proportion to the respective amount of the undeclared and unpaid dividends on the Series A Preferred Stock and all parity stock for such dividend period. Therefore, if we are not paying full dividends on any outstanding parity securities, we will not be able to pay full dividends on the Series A Preferred Stock. We may issue additional securities that rank on parity with the Series A Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) without the vote or consent of any holders of Series A Preferred Stock. Currently, we have no shares issued and outstanding that have dividend rights on parity with the Series A Preferred Stock.

We depend on dividends from our subsidiaries for a significant portion of our cash flow, and we may be restricted from paying dividends on or repurchasing our common stock and the Series A Preferred Stock.

CIT is a legal entity separate and distinct from its subsidiaries, including CIT Bank, and relies on dividends from its subsidiaries for a significant portion of its cash flow. Federal banking laws and regulations limit the amount of dividends that CIT Bank can pay to CIT. In particular, the Federal Reserve, Office of the Comptroller of the Currency (OCC) and FDIC have authority to prohibit or to limit the payment of dividends by the banking organizations they supervise, including, for example, the parent company, if in the relevant banking regulator's opinion, payment of a dividend would constitute an unsafe or unsound practice in light of the financial condition of the banking organization, or if the bank would not be at least adequately capitalized following the distribution. In addition, bank holding companies, such as CIT, with assets \$50 billion or more must develop and submit to the Federal Reserve for review and non-objection an annual capital plan detailing their plans for capital actions, including the payment of dividends on their common or preferred stock, the repurchase of common stock or the redemption or repurchase of preferred stock. If the Federal Reserve objects to our capital plan, or if we do not satisfy applicable capital requirements, our ability to pay dividends or undertake other capital actions may be restricted. We received a qualitative objection to our initial 2016 capital plan. On October 6, 2016, we announced that we had received a non-objection from the Federal Reserve to our amended capital plan. We submitted our 2017 capital plan in April 2017. There can be no assurance regarding whether the Federal Reserve will object to our current or future capital plans.

Investors should not expect us to redeem the Series A Preferred Stock when it first becomes redeemable at our option or on any particular date after it becomes redeemable, and our ability to redeem the Series A Preferred Stock will be subject to the prior approval of the Federal Reserve.

The Series A Preferred Stock is a perpetual equity security, meaning that the Series A Preferred Stock has no maturity date or mandatory redemption date and is not redeemable at the option of the holders of the Series A Preferred Stock. We may redeem the Series A Preferred Stock at our option, subject to regulatory approval, (1) either in whole or in part, from time to time, on any dividend payment date on or after June 15, 2022 or (2) in whole but not in part, within 90 days following a regulatory capital treatment event, as described below under Description of the Series A Preferred Stock Redemption. Any determination we make at any time to propose a redemption of the Series A Preferred Stock will depend upon a number of factors, including our evaluation of our capital position, the composition of our shareholders' equity and general market conditions at that time.

Our right to redeem the Series A Preferred Stock is subject to any limitations established by the Federal Reserve. Under the Federal Reserve's risk-based capital rules applicable to bank holding companies, any redemption of the

Series A Preferred Stock is subject to prior approval of the Federal Reserve. There can be no assurance that the Federal Reserve will approve any redemption of the Series A Preferred Stock that we may propose. We understand that the factors that the Federal Reserve will consider in evaluating a proposed redemption include its evaluation of the overall level and quality of our capital components, considered in light of our risk exposures, earnings and growth strategy, and other supervisory considerations, although the Federal Reserve may change these factors at any time.

S-16

Accordingly, investors should not expect us to redeem the Series A Preferred Stock when it first becomes redeemable or on any particular date thereafter. If we redeem the Series A Preferred Stock for any reason, you may not be able to reinvest the redemption proceeds you receive in a similar security or in securities bearing similar dividend rates or yields.

We may be able to redeem the Series A Preferred Stock before June 15, 2022, upon a regulatory capital treatment event.

In addition to our ability to redeem the Series A Preferred Stock in whole or in part on June 15, 2022, or any dividend payment date thereafter, we may redeem the Series A Preferred Stock in whole but not in part prior to June 15, 2022, upon the occurrence of certain events involving the capital treatment of the Series A Preferred Stock. In particular, upon our determination in good faith that an event has occurred that would constitute a regulatory capital treatment event, we may redeem the Series A Preferred Stock in whole but not in part. Such a redemption would be subject to the prior approval of the Federal Reserve.

If a regulatory capital treatment event occurs, we would have the right, subject to regulatory approval, to redeem the Series A preferred Stock at a redemption price equal to \$1,000 per share, plus any declared and unpaid dividends. See Description of the Series A Preferred Stock Redemption in this prospectus supplement.

Holder of Series A Preferred Stock will have limited voting rights.

Holder of Series A Preferred Stock will have no voting rights with respect to matters that generally require the approval of voting shareholders. However, holders of the Series A Preferred Stock will have the right to vote in certain circumstances as described under Description of the Series A Preferred Stock Voting Rights. Voting rights will primarily exist in the event of non-payment of dividends under certain circumstances, authorizing classes or series of preferred stock senior to the Series A Preferred Stock and with respect to certain fundamental changes in the terms of the Series A Preferred Stock or as otherwise expressly required by law. See Description of the Series A Preferred Stock Voting Rights.

To the extent that the Series A Preferred Stock is deemed to be voting securities for federal banking regulation purposes, certain regulatory restrictions and consequences may apply to holders of the Series A Preferred Stock, depending, among other things, on their total ownership percentage of voting securities in CIT and their regulatory status. The Series A Preferred Stock will also count as equity in the calculation of total equity securities of CIT owned by a person or group, which may be relevant to determining whether a holder or group of holders controls us in certain circumstances.

The dividend rate on the Series A Preferred Stock will vary commencing on June 15, 2022, and any dividends declared after that date may be less than the initial fixed annual rate of 5.800% in effect until June 15, 2022.

From and including the dividend payment date on June 15, 2022, the dividend rate of the Series A Preferred Stock will be a floating rate based on three-month LIBOR plus a spread of 3.972%. The floating rate may be volatile over time and could be substantially less than the fixed rate. This could result in holders of Series A Preferred Stock experiencing a decline in their receipt of distributions and also could cause a decline in the market price of the Series A Preferred Stock. We have no control over a number of factors that may affect market interest rates, including geopolitical conditions and economic, financial, political, regulatory, judicial or other events that affect the markets generally and that are important in determining the existence, magnitude and longevity of market rate risk.

The historical levels of three-month LIBOR are not an indication of the future levels of three-month LIBOR.

From, and including, June 15, 2022, the Series A Preferred Stock will accrue dividends at a floating rate equal to three-month U.S. dollar LIBOR, as adjusted periodically, plus a fixed margin. This floating rate may be volatile and subject to wide fluctuations in response to factors that are beyond CIT's control. In the past, the level of three-month LIBOR has experienced significant fluctuations. Historical levels, fluctuations and trends of three-month LIBOR are not necessarily indicative of future levels. Any historical upward or downward trend in three-month LIBOR is not an indication that three-month LIBOR is more or less likely to increase or decrease at any time during the floating rate period, and you should not take the historical levels of three-month LIBOR as an indication of its future performance.

S-17

Increased regulatory oversight and changes in the method pursuant to which the LIBOR rates are determined may adversely affect the value of the Series A Preferred Stock.

Beginning in 2008, concerns have been expressed that some of the member banks surveyed by the British Bankers Association (the BBA) in connection with the calculation of LIBOR rates may have been underreporting the interbank lending rates applicable to them in order to avoid an appearance of capital insufficiency or adverse reputational or other consequences that may result from reporting higher interbank lending rates. Regulators and law enforcement agencies from a number of governments have conducted investigations relating to the calculation of LIBOR across a range of maturities and currencies, and certain financial institutions that are member banks surveyed by the BBA in setting daily LIBOR have entered into agreements with the U.S. Department of Justice, the U.S. Commodity Futures Trading Commission or the Financial Services Authority in order to resolve the investigations. In addition, responsibility for the calculation of LIBOR was transferred to ICE Benchmark Administration Limited (the ICE Administrator), as independent LIBOR administrator, effective February 1, 2014. It is not possible to predict the effect of changes in the methods pursuant to which the LIBOR rates are determined and any actions taken by the ICE Administrator (or any new administrator of LIBOR that may be appointed), each of which may adversely affect the trading market for LIBOR-based securities, such as the Series A Preferred Stock offered hereby, or may result in a sudden or prolonged increase or decrease in the reported LIBOR rates. If any of these changes or actions were to occur and to the extent that the dividend rate of the Series A Preferred Stock is affected by reported LIBOR rates, the value of the Series A Preferred Stock may be affected.

General market conditions and unpredictable factors could adversely affect market prices for the Series A Preferred Stock.

There can be no assurance about the market prices for the Series A Preferred Stock. A variety of factors, many of which are beyond our control, could influence the market price of the Series A Preferred Stock, including:

- whether we declare or fail to declare dividends on the Series A Preferred Stock from time to time;
- our operating performance, financial condition and prospects, or the operating performance, financial condition and prospects of our competitors;
- real or anticipated changes in the credit ratings assigned to the Series A Preferred Stock or our other securities;
- our creditworthiness;
- changes in interest rates and expectations regarding changes in rates;
- our issuance of additional preferred equity;
- the market for similar securities;
- developments in the securities, credit and other markets, and developments with respect to financial institutions generally; and
- economic, financial, corporate, securities market, geopolitical, regulatory or judicial events that affect us, the banking industry or the financial markets generally.

Accordingly, the shares of Series A Preferred Stock that an investor purchases, whether in this offering or in the secondary market, may trade at a discount to the price the investor paid for such Series A Preferred Stock, and their value may fluctuate significantly.

The Series A Preferred Stock will not be listed on any securities exchange or included in any automated dealer quotation system and may not have an active trading market.

The Series A Preferred Stock is a new issue of securities with no established trading market and will not be listed on any securities exchange or included in any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the Series A Preferred Stock, as permitted by applicable laws and regulations. However, they are under no obligation to do so and may discontinue any market-making

activities at any time without any notice. Even if a secondary market for the Series A Preferred Stock develops, it may not provide significant liquidity and transaction costs in any secondary market could be high. As a result, the difference between bid and asked prices in any

S-18

secondary market could be substantial. In addition, because the Series A Preferred Stock does not have a stated maturity date, investors seeking liquidity in shares Series A Preferred Stock will be limited to selling their shares in the secondary market.

The Series A Preferred Stock may be junior or equal in rights and preferences to preferred stock we may issue in the future.

We do not currently have outstanding preferred stock that ranks equal to or senior to the Series A Preferred Stock. The Series A Preferred Stock, however, may rank junior to other preferred stock we may issue in the future that by its terms is expressly senior in rights and preferences to the Series A Preferred Stock, although the affirmative vote or consent of the holders of at least two-thirds of all outstanding shares of the Series A Preferred Stock is required to issue any shares of stock ranking senior in rights and preferences to the Series A Preferred Stock. The terms of any future preferred stock we may issue that is expressly senior to the Series A Preferred Stock may restrict dividend or liquidation payments on the Series A Preferred Stock. Unless dividends for all outstanding preferred stock expressly senior to the Series A Preferred Stock have been declared and paid in full or set aside for payment in full, we may be prohibited from declaring or paying dividends or making any other distributions on, and we may be prohibited from repurchasing, redeeming or otherwise acquiring, directly or indirectly, for consideration, shares of Series A Preferred Stock. This could result in dividends on the Series A Preferred Stock not being paid on any particular dividend payment date. In the event of any liquidation, dissolution or winding up of CIT, the holders of the Series A Preferred Stock will not be entitled to receive the liquidation preference of their shares until we have paid or set aside an amount sufficient to pay in full our liabilities and the liquidation preference of any class or series of our capital stock ranking senior as to rights upon liquidation, dissolution or winding up. In addition, we may, in the future, issue one or more new series of preferred stock that ranks equally to the Series A Preferred Stock with respect to the payment of dividends or upon liquidation as to liquidation payments.

Additional issuances by us of preferred stock or securities convertible into or exchangeable for preferred stock do not generally require the approval of holders of Series A Preferred Stock and could adversely affect holders of Series A Preferred Stock.

We may, in the future, determine that it is advisable or necessary to issue additional shares of preferred stock, securities convertible into, exchangeable for or that represent an interest in preferred stock, or preferred stock-equivalent securities. Our certificate of incorporation authorizes our board of directors to cause us to issue one or more classes or series of preferred stock from time to time without any action on the part of our shareholders, including issuing additional shares of Series A Preferred Stock. Our board of directors also has the power, without shareholder approval, to set the terms of any such classes or series of preferred stock that may be issued, including voting rights, dividend rights, redemption provisions and preferences over the Series A Preferred Stock with respect to dividends or upon our dissolution, winding-up and liquidation and other terms. Although the approval of holders of two-thirds of the then-outstanding shares of the Series A Preferred Stock will be required to issue any equity security ranking senior in rights and preferences to the Series A Preferred Stock, if we issue preferred stock in the future that has preference over, or is equal in preference to, the Series A Preferred Stock with respect to the payment of dividends or upon liquidation, or if we issue preferred stock with voting rights that dilute the voting power of the Series A Preferred Stock, the rights of holders of the Series A Preferred Stock or the market price of the Series A Preferred Stock could be adversely affected. The market price of the shares of Series A Preferred Stock could decline as a result of issuance of these securities, as well as other sales of a large block of shares of Series A Preferred Stock or similar securities in the market thereafter, or the perception that such sales could occur. Holders of the Series A Preferred Stock are not entitled to preemptive rights or other protections against dilution. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of the shares bear the risk that our future offerings will reduce the market price of the shares and dilute their ownership of the Series A Preferred

Stock.

Holders of the Series A Preferred Stock may be unable to use the dividends-received deduction.

Distributions paid to a United States holder (as defined in Material United States Federal Income Tax Considerations in this prospectus supplement) that is a corporation may be eligible for the dividends-received deduction. Although we have accumulated earnings and profits, if any distributions on the Series A

S-19

Preferred Stock with respect to any taxable year fail to qualify as dividends for United States federal income tax purposes because we have insufficient current or accumulated earnings and profits in such taxable year, United States holders would be unable to use the dividends-received deduction. If that were to occur, the market value of the Series A Preferred Stock may decline.

The Series A Preferred Stock is expected to initially be rated below investment grade.

The Series A Preferred Stock is expected to initially be rated below investment grade, and there can be no assurance that it will be rated investment grade in the future or otherwise be upgraded. Further, the Series A Preferred Stock may be subject to a higher risk of price volatility than similar, higher-rated securities. In addition, increases in leverage or deteriorating outlooks for an issuer, or volatile markets, could lead to continued significant deterioration in market prices of below-investment grade rated securities, such as the Series A Preferred Stock.

Ratings only reflect the views of the issuing rating agency or agencies and such ratings could at any time be revised downward, placed on a watch list or withdrawn entirely at the discretion of the issuing rating agency. Further, a rating is not a recommendation to purchase, sell or hold any particular security, including the Series A Preferred Stock. In addition, ratings do not reflect market prices or suitability of a security for a particular investor and any rating of the Series A Preferred Stock may not reflect all risks related to the Company and its business, or the structure or market value of the Series A Preferred Stock. The credit rating agencies evaluate the financial services industry as a whole and may change their credit rating for us and our securities based on their overall view of our industry. A future downgrade, withdrawal, or the announcement of a possible downgrade or withdrawal in the ratings assigned to the Series A Preferred Stock, us or our other securities, or any perceived decrease in our creditworthiness could cause the trading price of the depositary shares to decline significantly.

An investment in the Series A Preferred Stock is not an FDIC insured deposit.

The shares of Series A Preferred Stock are not savings accounts, deposits or other obligations of any of our bank or non-bank subsidiaries and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality. Your investment will be subject to investment risk and you may experience loss with respect to your investment.

USE OF PROCEEDS

We anticipate receiving approximately \$318.8 million in net proceeds from the sale of the Series A Preferred Stock, after the underwriters' discount and estimated fees and expenses. We intend to use the net proceeds from this offering for general corporate purposes, including returning capital to our shareholders.

S-21

This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference in this prospectus supplement.

	Three Months Ended March 31,		Fiscal Years Ended December 31,				
	2017	2016	2016	2015	2014	2013	2012

The ratio of earnings to combined fixed charges and preferred stock dividends is calculated in accordance with SEC requirements and computed by dividing earnings by fixed charges and preferred stock dividends. For purposes of computing the ratios of earnings to combined fixed charges and preferred stock dividends, earnings represent earnings before income taxes plus fixed charges. We do not currently have any shares of preferred stock outstanding and during the historical time periods indicated above, there were no preferred stock dividends payable.

(1) Earnings were insufficient to cover fixed charges by \$419.1 million for the year ended December 31, 2012.

DESCRIPTION OF SERIES A PREFERRED STOCK

*The following description of our Series A Preferred Stock is a summary, and to the extent inconsistent with the description of our preferred stock included in the accompanying prospectus, this summary supersedes that description. This summary is not complete and is qualified in its entirety by reference to the complete text of our fourth restated certificate of incorporation, as amended (including our Certificate of Designations filed in connection with the creation and designation of the Series A Preferred Stock), and our amended and restated bylaws, copies of which are available upon request from us, and the applicable provisions of the Delaware General Corporation Law and federal laws governing bank holding companies. You can find the definitions of certain terms used in this description under the subheading *Certain Definitions* or in the accompanying prospectus under the heading *Description of Capital Stock*. In this description, the word *CIT* refers only to *CIT Group Inc.* and not to any of its subsidiaries.*

General

Under our certificate of incorporation, we have authority to issue up to 100,000,000 shares of preferred stock, and our board of directors is authorized to establish the rights and privileges with respect to one or more classes or series of preferred stock that we may issue. As of the date hereof, there are no shares of preferred stock issued and outstanding.

Prior to the issuance of the Series A Preferred Stock, we will file with the Delaware Secretary of State a Certificate of Designations, which will have the effect of amending our existing certificate of incorporation to establish the terms of the Series A Preferred Stock. The Certificate of Designations will initially authorize 325,000 shares of Series A Preferred Stock. We may, without notice to or the consent of holders of the Series A Preferred Stock, issue additional shares of Series A Preferred Stock from time to time. We are offering 325,000 shares of the Series A Preferred Stock in connection with this offering.

We will generally be able to pay dividends and distributions upon our liquidation, dissolution or winding up only out of lawfully available funds for such payment (i.e., after taking account of all indebtedness, other non-equity and other senior claims). When the shares of Series A Preferred Stock are issued in connection with the offering contemplated by this prospectus supplement, such shares will be fully paid and non-assessable when issued, which means that holders of such shares will have paid their purchase price in full and we may not ask them to pay additional funds in respect of their shares of Series A Preferred Stock.

Holders of Series A Preferred Stock will not have preemptive or subscription rights to acquire more stock of CIT. The Series A Preferred Stock will not be convertible into or exchangeable for our common stock or any other class or series of our capital stock or other securities. The Series A Preferred Stock does not have a stated maturity date, will not be subject to any sinking fund or any other obligation of us for their repurchase, redemption or retirement and will be perpetual unless redeemed at our option.

Ranking

Shares of the Series A Preferred Stock will rank, with respect to the payment of dividends and distributions upon our liquidation, dissolution or winding-up, respectively:

- senior to our common stock and to any class or series of our capital stock we may issue that is not expressly stated to be on parity with or senior to the Series A Preferred Stock;
- on parity with, or equally to, with any class or series of our capital stock expressly stated to be on parity with the Series A Preferred Stock; and

junior to any class or series of our capital stock expressly stated to be senior to the Series A Preferred Stock (issued with the requisite consent of the holders of at least two-thirds of the outstanding Series A Preferred Stock).

Dividends

Dividends on shares of the Series A Preferred Stock are discretionary and will not be cumulative. Holders of the Series A Preferred Stock will be entitled to receive, if, when and as declared by our board of directors, or a duly authorized committee of the board, out of legally available assets, non-cumulative

S-24

cash dividends from the original issue date (in the case of the initial dividend period only, as described below) or the immediately preceding dividend payment date, semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2017 and ending on June 15, 2022 and, thereafter, quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, beginning on September 15, 2022 (each such date being referred to herein as a dividend payment date). Dividends on each share of Series A Preferred Stock will accrue on the liquidation preference amount of \$1,000 per share at a rate per annum equal to 5.800% with respect to each dividend period from and including the original issue date to, but excluding, June 15, 2022 (the fixed rate period), and thereafter at a rate per annum equal to the three-month LIBOR (as defined below) on the related dividend determination date plus a spread of 3.972% per annum (the floating rate period). In the event that we issue additional shares of Series A Preferred Stock after the original issue date, dividends on such shares may accrue from the original issue date or any other date we specify at the time such additional shares are issued. References to the accrual of dividends in this prospectus supplement refer only to the determination of the amount of such dividend and do not imply that any right to a dividend arises prior to the date on which a dividend is declared. We will not pay interest or any sum of money instead of interest on any dividend payment that may be in arrears on the Series A Preferred Stock.

Dividends will be payable to holders of record of Series A Preferred Stock as they appear on our books on the applicable record date (each such date being referred to herein as a dividend record date), which shall be the 15th calendar day before the dividend payment date or such other record date fixed by our board of directors, or any duly authorized committee of the board, that is not less than 15 calendar days or more than 30 calendar days before the applicable dividend payment date.

A dividend period is the period from and including a dividend payment date to but excluding the next dividend payment date or any earlier redemption date, except that the initial dividend period will commence on and include the original issue date of the Series A Preferred Stock and will end on and exclude the December 15, 2017 dividend payment date. Any dividend payable on shares of the Series A Preferred Stock for any dividend period during the fixed rate period will be computed on the basis of a 360-day year consisting of twelve 30-day months. Dividends for the initial dividend period will be calculated from the original issue date. Any dividend payable on shares of the Series A Preferred Stock for any dividend period during the floating rate period will be computed on the basis of a 360-day year and the actual number of days elapsed in such dividend period. Dollar amounts resulting from that calculation will be rounded to the nearest cent, with one-half cent being rounded upward. If any dividend payment date applicable to the fixed rate period is not a business day, then the related payment of dividends will be made on the next succeeding business day, and no additional dividends will accrue on such payment. If any dividend payment date applicable to the floating rate period is not a business day, then the dividend payment date will be postponed to the next succeeding business day and dividends will accrue to, but exclude the next succeeding business day.

For any dividend period during the floating rate period, three-month LIBOR (the London interbank offered rate) shall be determined by the calculation agent on the second London business day immediately preceding the first day of such dividend period (which we refer to as the dividend determination date) in the following manner:

- (i) Three-month LIBOR will be the rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least \$1,000,000, as that rate appears on Reuters screen page LIBOR01, or any successor page, as of 11:00 a.m., London time, on that dividend determination date.
- (ii) If no offered rate appears on Reuters screen page LIBOR01, or any successor page, on the relevant dividend determination date at approximately 11:00 a.m., London time, then the calculation agent, after consultation with us, will select four major banks in the London interbank market and will request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least \$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, three-month LIBOR will be the arithmetic average (rounded upward if necessary to the nearest .00001 of 1%) of the quotations

provided. Otherwise, the calculation agent will select three major banks in New York City and will request each of them to provide a quotation of the rate offered by it at approximately 11:00 a.m.,
S-25

New York City time, on the dividend determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable dividend period in an amount of at least \$1,000,000 that is representative of single transactions at that time. If three quotations are provided, three-month LIBOR will be the arithmetic average (rounded upward if necessary to the nearest .00001 of 1%) of the quotations provided.

Otherwise, three-month LIBOR for the next dividend period will be equal to three-month LIBOR in effect for the then-current dividend period, or, in the case of the first floating rate period, the most recent rate that could have been determined had the floating rate period been applicable prior to the first floating rate period.

The calculation agent then will add three-month LIBOR as determined on the dividend determination date and any applicable spread.

The calculation agent will be appointed prior to June 15, 2022. The calculation agent's determination of any dividend rate, and its calculation of the amount of dividends for any dividend period, will be on file at our principal offices, will be made available to any holder of Series A Preferred Stock upon request and will be final and binding in the absence of manifest error.

The term "business day" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York. The term

"London business day" means a day that is a Monday, Tuesday, Wednesday, Thursday or Friday and is a day on which dealings in U.S. dollars are transacted in the London interbank market.

Dividends on shares of the Series A Preferred Stock will not be cumulative. Accordingly, if our board of directors, or a duly authorized committee of the board, does not declare a full dividend on the Series A Preferred Stock payable in respect of any dividend period before the related dividend payment date, such dividend will not accrue and we will have no obligation to pay a dividend for that dividend period on the dividend payment date or at any future time, whether or not dividends on the Series A Preferred Stock are declared for any future dividend period.

We are subject to statutory and regulatory prohibitions and other limitations on our ability to declare and pay dividends on the Series A Preferred Stock. Dividends on the Series A Preferred Stock will not be declared, paid or set aside for payment if we fail to comply, or if and to the extent such act would cause us to fail to comply, with applicable laws and regulations. In particular, dividends on the Series A Preferred Stock may not be declared or set aside for payment if and to the extent such dividends would cause us to fail to comply with the capital adequacy rules of the Federal Reserve (or, as and if applicable, the capital adequacy rules or regulations of any successor appropriate federal banking agency) applicable to us. The Federal Reserve also has the authority to prohibit or to limit the payment of dividends by a banking organization under its jurisdiction if, in the regulator's opinion, the organization is engaged in or is about to engage in an unsafe or unsound practice. Federal Reserve policy also states that dividends on capital stock should be paid from current earnings.

Priority of Dividends

The Series A Preferred Stock will rank junior as to payment of dividends to any class or series of our preferred stock that we may issue in the future that is expressly stated to be senior to the Series A Preferred Stock. If at any time we do not pay, on the applicable dividend payment date, accrued dividends on any shares that rank in priority to the Series A Preferred Stock with respect to dividends, we may not pay any dividends on the Series A Preferred Stock or repurchase, redeem or otherwise acquire for consideration any shares of Series A Preferred Stock until we have paid, or set aside for payment, the full amount of the unpaid dividends on the shares that rank in priority with respect to dividends that must, under the terms of such shares, be paid before we may pay dividends on, repurchase, redeem or otherwise acquire for consideration, the Series A Preferred Stock. As of the date hereof, there are no other shares of preferred stock issued and outstanding.

So long as any share of Series A Preferred Stock remains outstanding, unless the full dividends for the most recently completed dividend period have been declared and paid, or set aside for payment, on all outstanding shares of Series A Preferred Stock:

no dividend or distribution shall be declared, paid or set aside for payment on any junior stock (other than (i) a dividend payable solely in junior stock or (ii) a dividend in connection with the implementation of a shareholders rights plan, or the issuance of rights, stock or other property under any such plan, or the redemption or repurchase of any rights under any such plan); and

no junior stock shall be repurchased, redeemed or otherwise acquired for consideration by us, directly or indirectly (other than (i) as a result of a reclassification of junior stock for or into other junior stock, (ii) the exchange or conversion of shares of junior stock for or into other shares of junior stock, (iii) through the use of the proceeds of a substantially contemporaneous sale of other shares of junior stock, (iv) purchases, redemptions or other acquisitions of shares of the junior stock in connection with any employment contract, benefit plan or other similar arrangement with or for the benefit of employees, officers, directors or consultants, (v) purchases of shares of junior stock pursuant to a contractually binding requirement to buy junior stock existing prior to the most recently completed dividend period, including under a contractually binding stock repurchase plan, or (vi) the purchase of fractional interests in shares of junior stock pursuant to the conversion or exchange provisions of such stock or the security being converted or exchanged) nor shall any monies be paid to or made available for a sinking fund for the redemption of any such securities; and

no parity stock shall be repurchased, redeemed or otherwise acquired for consideration by us, directly or indirectly (other than (i) pursuant to pro rata offers to purchase all, or a pro rata portion, of the Series A Preferred Stock and any parity stock, (ii) as a result of a reclassification of any parity stock for or into other parity stock, (iii) the exchange or conversion of any parity stock for or into other parity stock or junior stock, (iv) through the use of the proceeds of a substantially contemporaneous sale of other shares of parity stock, (v) purchases of shares of parity stock pursuant to a contractually binding requirement to buy parity stock existing prior to the most recently completed dividend period, including under a contractually binding stock repurchase plan, or (vi) the purchase of fractional interests in shares of parity stock pursuant to the conversion or exchange provisions of such stock or the security being converted or exchanged) nor shall any monies be paid to or made available for a sinking fund for the redemption of any such securities.

Notwithstanding the foregoing, if dividends are not paid in full, or set aside for payment in full, on any dividend payment date upon the shares of the Series A Preferred Stock and any shares of parity stock, all dividends declared upon the Series A Preferred Stock and all such parity stock payable on such dividend payment date shall be declared pro rata in proportion to the respective amounts of undeclared and unpaid dividends on the Series A Preferred Stock and all parity stock payable on such dividend payment date. To the extent a dividend period with respect to any parity stock coincides with more than one dividend period with respect to the Series A Preferred Stock, for purposes of the immediately preceding sentence, our board of directors will treat such dividend period as two or more consecutive dividend periods, none of which coincides with more than one dividend period with respect to the Series A Preferred Stock, or shall treat such dividend period(s) with respect to any parity stock and dividend period(s) with respect to the Series A Preferred Stock for purposes of the immediately preceding sentence in any other manner that it deems to be fair and equitable in order to achieve ratable payments on such dividend parity stock and the Series A Preferred Stock. To the extent a dividend period with respect to the Series A Preferred Stock coincides with more than one dividend period with respect to any parity stock, for purposes of the first sentence of this paragraph the board of directors shall treat such dividend period as two or more consecutive dividend periods, none of which coincides with more than one dividend period with respect to such parity stock, or shall treat such dividend period(s) with respect to the Series A Preferred Stock and dividend period(s) with respect to any parity stock for purposes of the first sentence of this paragraph in any other manner that it deems to be fair and equitable in order to achieve ratable payments of dividends on the Series A Preferred Stock and such parity stock. For the purposes of this paragraph, the term dividend period as used with respect to any parity stock means such dividend periods as are provided for in the terms of such parity stock.

As used in this prospectus supplement, **junior stock** means our common stock and any other class or series of our capital stock over which the Series A Preferred Stock has preference or priority in the payment of dividends and in the distribution of assets on any liquidation, dissolution or winding up of CIT. Junior stock includes our common stock.

As used in this prospectus supplement, **parity stock** means any other class or series of our capital stock that ranks equally with the Series A Preferred Stock in the payment of dividends and in the distribution of assets on any liquidation, dissolution or winding up of CIT.

Subject to the foregoing, dividends (payable in cash, stock or otherwise) may be declared and paid on our junior stock, which includes our common stock, from time to time out of any assets legally available for such payment, and the holders of Series A Preferred Stock or parity stock shall not be entitled to participate in any such dividend.

Redemption

The Series A Preferred Stock is perpetual and has no maturity date, and is not subject to any mandatory redemption, sinking fund or other similar provisions. The holders of the Series A Preferred Stock will not have any right to require the redemption or repurchase of their shares of Series A Preferred Stock.

We may, at our option, redeem the Series A Preferred Stock (1) in whole or in part, from time to time, on any dividend payment date on or after June 15, 2022, or (2) in whole but not in part at any time within 90 days following a regulatory capital treatment event, in each case at a price equal to \$1,000 per share, plus the per share amount of any declared and unpaid dividends, without regard to any undeclared dividends, on the Series A Preferred Stock prior to the date fixed for redemption, which we refer to as the redemption date. Any declared but unpaid dividends payable on a redemption date that occurs subsequent to the applicable record date for a dividend period will not be paid to the holder entitled to receive the redemption price on the redemption date, but rather will be paid to the holder of record of the redeemed shares on such record date relating to the applicable dividend payment date. Investors should not expect us to redeem the Series A Preferred Stock on or after the date it becomes redeemable at our option.

We are a bank holding company regulated by the Federal Reserve. We intend to treat the Series A Preferred Stock as Additional Tier 1 capital (or its equivalent) for purposes of the capital adequacy rules of the Federal Reserve (or, as and if applicable, the capital adequacy rules or regulations of any successor appropriate federal banking agency) applicable to us.

A **regulatory capital treatment event** means the good faith determination by us that, as a result of any:

amendment to, or change in, the laws or regulations of the United States or any political subdivision of or in the United States that is enacted or becomes effective after the initial issuance of any share of the Series A Preferred Stock;

proposed change in those laws or regulations that is announced or becomes effective after the initial issuance of any share of the Series A Preferred Stock; or

official administrative decision or judicial decision or administrative action or other official pronouncement interpreting or applying those laws or regulations that is announced or becomes effective after the initial issuance of any share of the Series A Preferred Stock;

there is more than an insubstantial risk that we will not be entitled to treat the full liquidation preference amount of \$1,000 per share of the Series A Preferred Stock then outstanding as additional Tier 1 capital (or its equivalent) for purposes of the capital adequacy rules or regulations of the Federal Reserve or other appropriate federal banking agency, as then in effect and applicable, for as long as any share of Series A Preferred Stock is outstanding.

Appropriate federal banking agency means the appropriate federal banking agency with respect to us as that term is defined in Section 3(q) of the Federal Deposit Insurance Act or any successor provision.

Under regulations applicable to us, we may not exercise our option to redeem any shares of preferred stock without obtaining the prior approval of the Federal Reserve (or any successor appropriate federal banking agency). Under such regulations, unless the Federal Reserve (or any successor appropriate federal banking agency) authorizes us to do otherwise in writing, we may not redeem the Series A Preferred Stock

S-28

unless it is replaced with other Tier 1 capital instruments or unless we can demonstrate to the satisfaction of the Federal Reserve (or any successor appropriate federal banking agency) that following redemption, we will continue to hold capital commensurate with its risk.

If shares of the Series A Preferred Stock are to be redeemed, the notice of redemption shall be given to the holders of record of the Series A Preferred Stock to be redeemed, by first class mail, postage prepaid, addressed to the holders of record of such shares to be redeemed at their respective last addresses appearing on our stock register not less than 30 days nor more than 60 days prior to the date fixed for redemption thereof (provided that, if the shares of Series A Preferred Stock are held in book-entry form through The Depository Trust Company, or DTC, we may give such notice in any manner permitted by DTC). Each notice of redemption will include a statement setting forth:

the redemption date;

the number of shares of the Series A Preferred Stock to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder;

the redemption price; and

that dividends on the shares to be redeemed will cease to accrue on the redemption date.

If notice of redemption of any shares of Series A Preferred Stock has been duly given and if the funds necessary for such redemption have been set aside by us for the benefit of the holders of any shares of Series A Preferred Stock so called for redemption, then, on and after the redemption date, dividends will cease to accrue on such shares of Series A Preferred Stock, such shares of Series A Preferred Stock shall no longer be deemed outstanding and all rights of the holders of such shares will terminate, except the right to receive the redemption price, without interest.

In case of any redemption of only part of the shares of the Series A Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either pro rata, by lot or in such other manner as we may determine to be equitable and permitted by DTC and the rules of any national securities exchange on which the Series A Preferred Stock is listed.

Liquidation Rights

In the event that we voluntarily or involuntarily liquidate, dissolve or wind up our affairs, holders of the Series A Preferred Stock are entitled to receive out of our assets available for distribution to shareholders, after satisfaction of liabilities or obligations to creditors, if any, and subject to the rights of holders of any shares of capital stock then outstanding ranking senior to or on parity with the Series A Preferred Stock with respect to distributions upon the voluntary or involuntary liquidation, dissolution or winding-up of our business and affairs, and before we make any distribution of assets to the holders of our common stock or any other class or series of our capital stock ranking junior to the Series A Preferred Stock with respect to distributions upon our liquidation, dissolution or winding-up, an amount per share equal to the fixed liquidation preference of \$1,000 per share plus any declared and unpaid dividends prior to the payment of the liquidating distribution (but without any amount in respect of dividends that have not been declared prior to the date of payment of the liquidating distribution). After payment of the full amount of the liquidating distribution described above, the holders of the Series A Preferred Stock shall not be entitled to any further participation in any distribution of our assets.

In any such distribution, if our assets are not sufficient to pay the liquidation preference in full to all holders of Series A Preferred Stock and all holders of any shares of our capital stock ranking as to any such liquidation distribution on parity with the Series A Preferred Stock, the amounts paid to the holders of Series A Preferred Stock and to such other shares will be paid pro rata in accordance with the respective aggregate liquidation preferences of those holders. In any such distribution, the liquidation preference of any holder of preferred stock means the amount otherwise payable to such holder in such distribution (assuming no limitation on our assets available for such distribution), including any declared but unpaid dividends (and, in the case of any holder of stock other than the Series A Preferred Stock and on

which dividends accrue on a cumulative basis, an amount equal to any unpaid, accrued, cumulative dividends, whether or not declared, as applicable). If the liquidation preference per share of Series A Preferred Stock has been paid in full to all holders of Series A Preferred Stock and the liquidation preference per share of

S-29

any other capital stock ranking on parity with the Series A Preferred Stock as to liquidation rights has been paid in full, the holders of our common stock or any other capital stock ranking, as to liquidation rights, junior to the Series A Preferred Stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

The Series A Preferred Stock may be fully subordinate to interests held by the U.S. government in the event of a receivership, insolvency, liquidation, or similar proceeding, including a proceeding under the orderly liquidation authority provisions of the Dodd-Frank Act.

For purposes of the liquidation rights, neither the sale, conveyance, exchange or transfer of all or substantially all of our assets or business, nor the consolidation or merger by us with or into any other entity or by another entity with or into us, whether for cash, securities or other property, individually or as part of a series of transactions, will constitute a liquidation, dissolution or winding-up of our affairs.

Voting Rights

Except as provided below and as determined by our board of directors, or a duly authorized committee thereof or as otherwise expressly required by law, the holders of the Series A Preferred Stock will have no voting rights.

Whenever dividends on any shares of the Series A Preferred Stock, or any parity stock upon which similar voting rights have been conferred (special voting preferred stock), shall have not been declared and paid for an aggregate amount equal to the amount of dividends payable on the Series A Preferred Stock as contemplated herein for any dividend periods that, in aggregate, equal 18 months, whether or not for consecutive dividend periods (which we refer to as a nonpayment), the holders of the Series A Preferred Stock, voting together as a class with holders of any special voting preferred stock then outstanding, will be entitled to vote (based on respective liquidation preferences) for the election of a total of two additional members of our board of directors (which we refer to as the preferred directors); provided that our board of directors shall at no time include more than two preferred directors. In that event, the number of directors on our board of directors shall automatically increase by two and, at the request of any holder of Series A Preferred Stock, a special meeting of the holders of Series A Preferred Stock and such special voting preferred stock for which dividends have not been paid shall be called for the election of the two directors (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the shareholders, in which event such election shall be held at such next annual or special meeting of shareholders), followed by such election at each subsequent annual meeting. These voting rights will continue until full dividends have been paid (or declared and a sum sufficient for the payment of such dividends has been set aside for payment) on the Series A Preferred Stock and such special voting preferred stock for dividend periods that in the aggregate equal at least 12 consecutive months following the nonpayment.

If and when full dividends have been paid (or declared and a sum sufficient for the payment of such dividends has been set aside for payment) for dividend periods that, in the aggregate, equal at least 12 consecutive months, following a nonpayment on the Series A Preferred Stock and such special voting preferred stock, the holders of the Series A Preferred Stock and such special voting preferred stock shall be divested of the foregoing voting rights (subject to revesting in the event of each subsequent nonpayment) and the term of office of each preferred director so elected shall terminate and the number of directors on our board of directors shall automatically decrease by two.

Any preferred director may be removed at any time without cause by the holders of a majority of the outstanding shares of the Series A Preferred Stock and such special voting preferred stock, voting together as a class, when they have the voting rights described above. So long as a nonpayment shall continue, any vacancy in the office of a preferred director (other than prior to the initial election of the preferred directors) may be filled by the written consent of the preferred director remaining in office, or if none remains in office, by a vote of the holders of a majority of the

outstanding shares of Series A Preferred Stock and such special voting preferred stock, voting together as a class, to serve until the next annual meeting of shareholders. The preferred directors shall each be entitled to one vote per director on any matter.

S-30

Under regulations adopted by the Federal Reserve, if the holders of one or more series of preferred stock are or become entitled to vote for the election of directors, such series entitled to vote for the same director(s) will be deemed a class of voting securities and a company holding 25% or more of the series, or 10% or more if it otherwise exercises a controlling influence over us, will be subject to regulation as a bank holding company under the Bank Holding Company Act of 1956, as amended (the BHC Act). In addition, if the series is/are deemed to be a class of voting securities, any other bank holding company will be required to obtain the prior approval of the Federal Reserve under the BHC Act to acquire or retain more than 5% of that series. Any other person (other than a bank holding company) will be required to obtain the non-objection of the Federal Reserve under the Change in Bank Control Act of 1978, as amended, to acquire or retain 10% or more of that series. While we do not believe the Series A Preferred Stock are considered voting securities currently, holders of such stock should consult their own counsel with regard to regulatory implications. A holder or group of holders may also be deemed to control us if they own more than one-third of our total equity, both voting and non-voting, aggregating all shares held by the holders across all classes of stock.

So long as any shares of Series A Preferred Stock remain outstanding, in addition to any other vote or consent of shareholders required by law or our certificate of incorporation, the affirmative vote or consent of the holders of at least two-thirds of all of the then-outstanding shares of Series A Preferred Stock entitled to vote thereon, voting separately as a single class, shall be required to:

authorize, create, issue or increase the authorized amount of any class or series of our capital stock ranking senior to the Series A Preferred Stock with respect to payment of dividends or as to distributions upon our liquidation, dissolution or winding-up, or issue any obligation or security convertible into or exchangeable for evidencing the right to purchase any such class or series of our capital stock;

amend, alter or repeal the provisions of our certificate of incorporation, including the Certificate of Designations creating the Series A Preferred Stock, whether by merger, consolidation or otherwise, so as to materially and adversely affect the special powers, preferences, privileges or rights of the Series A Preferred Stock, taken as a whole; or

consummate a binding share-exchange or reclassification involving the Series A Preferred Stock, or sale, conveyance, exchange or transfer of all or substantially all of our assets or business or a merger or consolidation of us with or into another entity, unless in each case, the shares of the Series A Preferred Stock (i) remain outstanding or (ii) are converted into or exchanged for preference securities of the surviving entity or any entity controlling such surviving entity and such new preference securities have powers, preferences, privileges and rights that are not materially less favorable to the holders thereof than the powers, preferences, privileges and rights of the Series A Preferred Stock, taken as a whole.

When determining the application of the voting rights described in this section, the authorization, creation and issuance, or an increase in the authorized or issued amount of, junior stock or any class or series of capital stock that by its terms expressly provides that it ranks on parity with the Series A Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and as to distributions upon our liquidation, dissolution or winding-up, or any securities convertible into or exchangeable or exercisable for junior stock or any class or series of capital stock, shall not be deemed to materially and adversely affect the special powers, preferences, privileges or rights, and shall not require the affirmative vote or consent of, the holders of any outstanding shares of Series A Preferred Stock.

The foregoing voting provisions will not apply if, at or prior to the time when the act with respect to which such vote would otherwise be required shall be effected, all outstanding shares of Series A Preferred Stock shall have been redeemed or called for redemption upon proper notice and sufficient funds shall have been set aside by us for the benefit of the holders of the Series A Preferred Stock to effect such redemption.

Computershare Trust Company, N.A. will be the transfer agent, registrar, dividend disbursement agent and redemption agent for the Series A Preferred Stock. We will appoint a calculation agent with respect to the Series A Preferred Stock prior to June 15, 2022.

Distributions on the Series A Preferred Stock

Distributions with respect to our Series A Preferred Stock will constitute dividends to the extent made out of our current or accumulated earnings and profits, as determined under United States federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a non-taxable return of capital to the extent of your tax basis in our Series A Preferred Stock, determined separately for each share (and you will reduce your tax basis accordingly), and thereafter as capital gain from the sale or exchange of such Series A Preferred Stock. If you are a corporation, dividends received by you will be eligible for the dividends-received deduction if you meet certain holding period and other applicable requirements. If you are a noncorporate United States holder, dividends paid to you will qualify for taxation at preferential rates applicable to qualified dividends if you meet certain holding period and other applicable requirements. United States holders should consult their own tax advisors regarding the availability of the reduced qualified dividend tax rate in light of their particular circumstances.

Sale or Exchange of the Series A Preferred Stock Other than by Redemption

If you sell or otherwise dispose of your Series A Preferred Stock (other than by redemption), you will generally recognize capital gain or loss, if any, equal to the difference between the amount realized upon the disposition and your adjusted tax basis of the Series A Preferred Stock (determined separately for each share). Capital gain of a noncorporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year.

Redemption of the Series A Preferred Stock

Redemption of your Series A Preferred Stock generally would be a taxable event. You would be treated as if you had sold your Series A Preferred Stock if the redemption:

- results in a complete termination of your stock interest in us; or
- is not essentially equivalent to a dividend with respect to you.

In determining whether either of these tests has been met, shares of Series A Preferred Stock or other classes of our stock considered to be owned by you by reason of certain constructive ownership rules set forth in Section 318 of the Internal Revenue Code, as well as any such shares actually owned, must be taken into account under certain circumstances.

If we redeem your Series A Preferred Stock in a redemption that meets one of the tests listed above, you generally would recognize taxable gain or loss equal to the amount of cash received by you less your adjusted tax basis in the Series A Preferred Stock redeemed (determined separately for each share). This gain or loss would be long-term capital gain or capital loss if you have held the Series A Preferred Stock for more than one year. Because the determination as to whether either of the alternative tests listed above is satisfied with respect to any particular holder will depend upon the facts and circumstances as of the time the determination is made, you should consult your tax advisor regarding the treatment of a redemption.

If a redemption does not meet either of the tests described above, you generally would be taxed on the cash you receive as a dividend to the extent paid out of our current and accumulated earnings and profits. Any amount in excess

of our current or accumulated earnings and profits would first reduce your tax basis in the Series A Preferred Stock and possibly in any shares of other classes of our stock owned by you (determined separately for each share) and thereafter would be treated as capital gain. If a redemption of the Series A Preferred Stock is treated as a distribution that is taxable as a dividend, you should consult with your own tax advisor regarding the application of the extraordinary dividend rules (if you are a corporation) and the allocation of your basis between the redeemed shares and any shares of Series A Preferred Stock (or other class of our stock) that you still hold (or are held by a person related to you).

S-34

If any dividend received with respect to the Series A Preferred Stock is treated as an extraordinary dividend, special rules in the Internal Revenue Code may apply. Generally, a corporate United States holder that receives an extraordinary dividend with respect to the Series A Preferred Stock is required to reduce its adjusted tax basis in such Series A Preferred Stock by the portion of such dividend that is not taxed because of the dividends received deduction and is required to recognize taxable gain to the extent such portion of the dividend exceeds the holder's adjusted tax basis in such Series A Preferred Stock. A noncorporate United States holder who receives an extraordinary dividend would be required to treat any losses on the sale of the Series A Preferred Stock as long-term capital losses to the extent such dividend qualifies as qualified dividend income. You should consult your own tax advisor with respect to the potential application of the extraordinary dividend rules.

Medicare Tax

A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax (the Medicare tax) on the lesser of (1) the United States holder's net investment income (or undistributed net investment income in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income (or adjusted gross income in the case of an estate or trust) for the relevant taxable year over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual's circumstances). A United States holder's net investment income generally includes its dividend income and its net gains from the disposition of the Series A Preferred Stock, unless such dividend income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your own tax advisor regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Series A Preferred Stock.

United States Alien Holders

This section summarizes the material United States federal income tax consequences of the purchase, ownership and disposition of the Series A Preferred Stock by a United States alien holder. You are a United States alien holder if you are a beneficial owner of a share of the Series A Preferred Stock and you are, for United States federal income tax purposes:

- a nonresident alien individual;
- a foreign corporation; or
- a foreign estate or trust.

Distributions on the Series A Preferred Stock

Except as described below, if you are a United States alien holder of the Series A Preferred Stock, dividends (including any redemption treated as a dividend for U.S. federal income tax purposes as discussed above under United States Holders Redemption of the Series A Preferred Stock) paid to you that are not effectively connected with your conduct of a trade or business within the United States will be subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, the applicable withholding agent will generally be required to withhold at a 30% rate (rather than at the lower treaty rate) on dividend payments to you, unless you have furnished to such withholding agent:

- a valid Internal Revenue Service Form W-8BEN or W-8BEN-E, or an acceptable substitute form upon which you certify, under penalties of perjury, your status as a person who is not a United States person and your entitlement to the lower treaty rate with respect to such payments; or

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with United States Treasury Department regulations.

S-35

If you are eligible for a reduced rate of United States federal withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a timely refund claim with the United States Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, an applicable withholding agent generally is not required to withhold tax from the dividends unless an applicable income tax treaty provides otherwise. To be exempt from United States federal withholding tax with respect to any effectively connected dividends, you must have furnished to the withholding agent a valid Internal Revenue Service Form W-8ECI or other applicable Form W-8 (or an acceptable substitute form) upon which you certify, under penalties of perjury, that:

you are not a United States person; and

the dividends are effectively connected with your conduct of a trade or business within the United States.

Unless an applicable income tax treaty provides otherwise, effectively connected dividends are taxed to United States alien holders on a net income basis at rates applicable to United States citizens, resident aliens and domestic United States corporations (as applicable).

If you are a corporate United States alien holder, you may, under certain circumstances, be subject to an additional branch profits tax on your effectively connected earnings and profits (subject to adjustments) at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition or Redemption of the Series A Preferred Stock

If you are a United States alien holder, subject to the discussion below regarding FATCA withholding (as defined below) and backup withholding, you generally will not be subject to United States federal income tax on any gain that you recognize on a disposition (including a redemption that is treated as a disposition for United States federal income tax purposes as discussed above under United States Holders Redemption of the Series A Preferred Stock) of the Series A Preferred Stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis;

you are an individual, you are present in the United States for 183 or more days in the taxable year of the disposition and certain other conditions exist; or

we are or have been a United States real property holding corporation for United States federal income tax purposes and certain other conditions are met.

If you are a United States alien holder described in the first bullet point immediately above you will be subject to tax on the net gain derived from the disposition under regular graduated United States federal income tax rates. If you are a corporate United States alien holder, you may also, under certain circumstances, be subject to an additional branch profits tax on your effectively connected earnings and profits (subject to adjustments) at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

If you are an individual United States alien holder described in the second bullet point immediately above you will be subject to a flat 30% tax on the gain derived from the disposition, which may be offset by certain United States source capital losses, even though you are not considered a resident of the United States.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

As discussed above in *United States Holders Redemption of the Series A Preferred Stock*, certain redemptions may be treated as dividends for United States federal income tax purposes. See *Distributions on the Series A Preferred Stock*, above, for a discussion of the tax treatment of such redemptions. If an applicable withholding agent is unable to determine whether the redemption should be treated as a distribution in your particular circumstances, such withholding agent may withhold tax at a

S-36

30% rate on the full amount you receive (in which case, if you are in fact eligible for disposition treatment, you may be eligible to obtain a refund of any excess tax withheld).

Withholdable payments to foreign financial entities and other foreign entities

A 30% withholding tax generally will be imposed on certain payments to certain foreign financial institutions, investment funds and other non-U.S. persons if such persons fail to comply with information reporting and other requirements (FATCA withholding), whether such persons hold the Series A Preferred Stock as beneficial owners or as intermediaries. Such payments will include U.S.-source dividends and the gross proceeds from the sale or other disposition of stock that can produce U.S.-source dividends. You could be affected by this withholding with respect to your Series A Preferred Stock if you are subject to the information reporting and other requirements and fail to comply with them or if you hold Series A Preferred Stock through another person (e.g., a foreign bank or broker) that is subject to withholding because it fails to comply with these requirements (even if you would not otherwise have been subject to withholding). Withholding will not apply to payments of gross proceeds from a sale or other disposition of our Series A Preferred Stock before January 1, 2019, unless such payments are treated as a dividend (as discussed above). You should consult your own tax advisors regarding the relevant U.S. law and other official guidance on FATCA withholding.

Backup withholding and information reporting

If you are a noncorporate United States holder, information reporting requirements, on IRS Form 1099, generally will apply to dividend payments or other taxable distributions made to you, and the payment of proceeds to you from the sale or other disposition of Series A Preferred Stock effected at a United States office of a broker.

Additionally, backup withholding may apply to such payments if you fail to comply with applicable certification requirements or are notified by the IRS that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

If you are a United States alien holder, applicable withholding agents are required to report payments of dividends on IRS Form 1042-S even if the payments are exempt from withholding. You are otherwise generally exempt from backup withholding and information reporting requirements with respect to dividend payments and the payment of the proceeds from the sale or other disposition of preferred stock effected at a United States office of a broker provided that either (i) the applicable withholding agent does not have actual knowledge or reason to know that you are a United States person and you have furnished a valid IRS Form W-8 or other documentation upon which the applicable withholding agent may rely to treat the payments as made to a non-United States person, or (ii) you otherwise establish an exemption.

Payment of the proceeds from the sale or other disposition of Series A Preferred Stock effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale or other disposition effected at a foreign office of a broker could be subject to information reporting in the same manner as a sale or other disposition within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States or (iii) the sale or other disposition has certain other specified connections with the United States.

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by filing a timely refund claim with the Internal Revenue Service.

THE PRECEDING DISCUSSION OF THE MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT BEING

PROVIDED AS, OR INTENDED TO CONSTITUTE, TAX ADVICE. ACCORDINGLY, YOU SHOULD CONSULT YOUR OWN TAX ADVISOR AS TO THE PARTICULAR TAX CONSEQUENCES TO YOU OF PURCHASING, HOLDING OR DISPOSING OF THE SERIES A PREFERRED STOCK, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, FOREIGN OR OTHER TAX LAWS, AND OF ANY CHANGES OR PROPOSED CHANGES IN APPLICABLE LAW.

BENEFIT PLAN INVESTOR CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA) (each, a Plan), should consider the fiduciary standards of ERISA in the context of the Plan s particular circumstances before authorizing an investment in the securities offered hereby. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit Plans, as well as individual retirement accounts, Keogh plans and other plans that are subject to Section 4975 of the Internal Revenue Code (also Plans), from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Internal Revenue Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Internal Revenue Code for those persons and penalties and liabilities under ERISA and the Internal Revenue Code for the fiduciary of the Plan, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (Non- ERISA Arrangements) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Internal Revenue Code but may be subject to provisions under other applicable federal, state, local, non-U.S. or other laws or regulations that are similar to the foregoing provisions of ERISA or the Internal Revenue Code (Similar Laws).

The acquisition or disposition of the securities offered hereby by a Plan or any entity whose underlying assets include plan assets by reason of any Plan s investment in the entity (a Plan Asset Entity) with respect to which we, certain of our affiliates or the underwriters are or become a party in interest or disqualified person may result in a direct or indirect prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code, unless the securities offered hereby are acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCEs , that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase of the securities offered hereby. These exemptions include, without limitation, PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Internal Revenue Code provide limited relief from the prohibited transactions provisions of ERISA and Section 4975 of the Internal Revenue Code for certain transactions, provided that neither the issuer of securities offered hereby nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the securities offered hereby should not be acquired by any person investing plan assets of any Plan, Plan Asset Entity or Non-ERISA Arrangement, unless such acquisition will not constitute a non-exempt prohibited transaction under ERISA or the Internal Revenue Code or similar violation of any applicable Similar Laws.

Any purchaser of the securities offered hereby or any interest therein will be deemed to have represented by its acquisition of the securities offered hereby that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing the securities offered hereby on behalf of or with the assets of any Plan, Plan Asset

Entity or Non-ERISA Arrangement or (2) the acquisition of the securities offered hereby will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code or a similar violation under any applicable Similar Laws.

UNDERWRITING

Morgan Stanley & Co. LLC, Barclays Capital Inc. and Credit Suisse Securities (USA) LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement between us and the representatives of the underwriters, we have agreed to issue and sell to the underwriters, and each of the underwriters through their representatives has agreed, severally and not jointly, to purchase from us, the respective number of shares of Series A Preferred Stock set forth opposite the name of each underwriter below.

Underwriter	Number of Shares
Morgan Stanley & Co. LLC	91,195
Barclays Capital Inc.	74,100
Credit Suisse Securities (USA) LLC	74,100
Citigroup Global Markets Inc.	17,121
Credit Agricole Securities (USA) Inc.	17,121
Deutsche Bank Securities Inc.	17,121
J.P. Morgan Securities LLC	17,121
Merrill Lynch, Pierce, Fenner & Smith Incorporated	17,121
Total	325,000

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the Series A Preferred Stock sold under the underwriting agreement, if any Series A Preferred Stock is purchased. The underwriting agreement also provides that, if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or this offering of the Series A Preferred Stock may be terminated.

We have agreed to indemnify the underwriters, their controlling persons and any affiliate of such underwriter that is acting as a selling agent of such underwriter in connection with the distribution of Series A Preferred Stock against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters (and their respective affiliates and controlling persons) may be required to make in respect of those liabilities.

The underwriters are offering the Series A Preferred Stock, subject to prior sale, when, as and if issued to, and accepted by, them, subject to approval of legal matters by their counsel, including the validity of the Series A Preferred Stock and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The following table shows the underwriting discounts to be paid by the Company in connection with this offering. The underwriting discount is the difference between the public offering price and the amount the underwriters pay to us to purchase the Series A Preferred Stock. The underwriting discount is as follows:

Per Share	\$	17.538
Total	\$	5,699,850

The underwriters have advised us that the underwriters propose initially to offer the Series A Preferred Stock to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price, less a concession not in excess of \$10.00 per share. The underwriter may allow, and such dealers may reallocate, a discount not in excess of \$5.00 per share to other dealers. After the initial offering, the public offering price, concession, discounts or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at \$545,000 and are payable by us.

The Series A Preferred Stock is a new issue of securities with no established trading market. We do not intend to apply for listing of the Series A Preferred Stock on any national securities exchange or for inclusion of the Series A Preferred Stock on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the Series A Preferred Stock, as

permitted by applicable laws and regulations. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the Series A Preferred Stock or that an active public market for the Series A Preferred Stock will develop or, if developed, that it will continue. If an active public trading market for the Series A Preferred Stock does not develop or, if developed, continue, the market price and liquidity of the Series A Preferred Stock may be adversely affected. If the Series A Preferred Stock is traded, it may trade at a discount from its initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

We have agreed that we will not, from the date of this prospectus supplement through the date which is 30 days after such date, without first obtaining the prior written consent of Morgan Stanley & Co. LLC, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any preferred securities of the Company or securities exchangeable for, or convertible into, preferred securities of the Company, except for the Series A Preferred Stock sold to the underwriters pursuant to the underwriting agreement.

In connection with the offering, the underwriters may purchase and sell the Series A Preferred Stock in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of Series A Preferred Stock than they are required to purchase in the offering. The underwriters must close out any short position by purchasing Series A Preferred Stock in the open market. A short position is more likely to be created, if the underwriters are concerned that there may be downward pressure on the price of the Series A Preferred Stock in the open market after pricing that could adversely affect investors who purchase in the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the Series A Preferred Stock or preventing or retarding a decline in the market price of the Series A Preferred Stock. As a result, the price of the Series A Preferred Stock may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Series A Preferred Stock. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have provided, and may in the future provide, investment banking, commercial banking, financial advisory and other services to us and our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

Certain of the underwriters and/or their affiliates have acted as arrangers and/or lender of our credit facilities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments, including serving as counterparties to certain derivative and hedging arrangements, and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank

loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the Company. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. If

S-40

any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates have hedged and/or may in the future hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Series A Preferred Stock. Any such credit default swaps or short positions could adversely affect future trading prices of the Series A Preferred Stock.

We expect that delivery of the Series A Preferred Stock will be made to investors against payment thereof on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the fifth business day following the date of this prospectus supplement (such settlement being referred to as T+5). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Series A Preferred Stock on the date of this prospectus supplement will be required, by virtue of the fact that the Series A Preferred Stock will initially settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.

Notice to Prospective Investors

The underwriters intend to offer the Series A Preferred Stock for sale primarily in the United States either directly or through affiliates or other dealers acting as selling agents. The underwriters may also offer the Series A Preferred Stock for sale outside the United States either directly or through affiliates or other dealers acting as selling agents.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), no offer of Series A Preferred Stock may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
 - B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
 - C. in any other circumstances falling within Article 3(2) of the Prospectus Directive;
- provided that no such offer of Series A Preferred Stock shall require the company or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

This prospectus supplement has been prepared on the basis that any offer of Series A Preferred Stock in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Series A Preferred Stock. Accordingly, any person making or intending to make an offer in that Relevant Member State of Series A Preferred Stock which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized, nor do they authorize, the making of any offer of Series A Preferred Stock in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any Series A Preferred Stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Series A Preferred Stock to be offered so

S-41

as to enable an investor to decide to purchase or subscribe the Series A Preferred Stock, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

DESCRIPTION OF DEBT SECURITIES

This section contains a description of the general terms and provisions of the debt securities that may be offered by this prospectus. The following description of the indentures and our debt securities is only a summary of the material terms, does not purport to be complete and may be supplemented in amendments to the registration statement of which this prospectus is a part and in prospectus supplements. The material specific financial, legal and other terms as well as any material U.S. federal income tax consequences particular to each series of debt securities will be described in the prospectus supplement relating to the securities of that series. Such prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. Thus, the statements in this section may not apply to your securities. For a complete description of the terms of a particular series of debt securities, you should read this prospectus, any amendments to the registration statement of which this prospectus is a part, the prospectus supplement relating to that particular series and the provisions of the applicable indenture, as supplemented, pursuant to which the particular series of debt securities is issued.

General

In this prospectus, **debt securities** refers to both our senior debt securities and our subordinated debt securities. We may issue an unlimited aggregate principal amount of senior debt securities pursuant to the indenture, dated as of March 15, 2012 (the **Senior Indenture**), among CIT and Wilmington Trust, National Association, as trustee (the **Trustee**), and Deutsche Bank Trust Company Americas, as paying agent, security registrar and authenticating agent. The Senior Indenture may be supplemented from time to time. Unless otherwise specified in the prospectus supplement relating to the securities of any given series, the senior debt securities will not be secured by any property or assets of CIT. Thus, by owning a senior debt security, you are one of our unsecured creditors.

We may issue subordinated debt securities pursuant to a subordinated debt indenture that we may enter into between us and a bank, trust company or other financial institution as trustee and paying agent, security registrar and authenticating agent (the **Subordinated Indenture**). We will describe the Subordinated Indenture under which we issue any subordinated debt securities in the applicable prospectus supplement, and we will file that Subordinated Indenture with the SEC, either as an exhibit to an amendment to the registration statement of which this prospectus is a part or as an exhibit to a current report on Form 8-K. Such Subordinated Indenture may be supplemented from time to time.

We urge you to read the Senior Indenture and any Subordinated Indenture, including any supplements, in their entirety because the applicable indenture, and not this description, will define your rights as a beneficial holder of debt securities.

We are a Holding Company

We conduct a substantial portion of our operations primarily through our subsidiaries, and our subsidiaries hold a substantial portion of our assets. Accordingly, our cash flow and our ability to meet our obligations under the debt securities will be largely dependent on the cash flow and earnings of our subsidiaries and the distribution or other payment of these cash flows and earnings to us in the form of dividends, loans or advances and repayment to us of loans and advances made to our subsidiaries by us. Our subsidiaries are separate and distinct legal entities and have no obligation to pay the amounts that will be due on our debt securities or to make any funds available for payment of amounts that will be due on our debt securities. Because we are a holding company, our obligations under our debt securities will be effectively subordinated to all existing and future liabilities of our subsidiaries. Therefore, our rights, and the rights of our creditors, including the rights of the holders of the debt securities, to participate in any distribution of assets of any of our subsidiaries, if such subsidiary were to be liquidated or reorganized, are subject to the prior claims of such subsidiary's creditors. To the extent that we may be a creditor with recognized claims against our subsidiaries, our claims will still be effectively subordinated to any security interest in, or mortgages or other liens

on, the assets of the subsidiary that are senior to us.

Senior Debt Securities

The following summary of the material provisions of the Senior Indenture is qualified in its entirety by the provisions of the Senior Indenture, including definitions of certain terms used in the Senior Indenture.

Senior debt securities will rank equally in right of payment with our other senior indebtedness and ahead in right of payment of our subordinated debt securities. Any of our secured indebtedness will rank ahead in liquidation of the senior debt securities to the extent of the value of the assets securing such indebtedness.

Issuance in Series

We may issue the senior debt securities in one or more series with the same or various maturities, at par or a premium, or with original issue discount. The prospectus supplement relating to any series of senior debt securities being offered will include specific terms relating to the offering. These terms will include, among other terms, some or all of the following, as applicable:

- the title and series of such debt securities, which may include medium-term debt securities;
- the total principal amount of the series of debt securities and whether there shall be any limit upon the aggregate principal amount of such debt securities;

- the rate or rates at which such debt securities will bear interest, if any, which rate may be zero in the case of certain debt securities issued at an issue price representing a discount from the principal amount payable at maturity, or the method by which such rate or rates will be determined (including, if applicable, any remarketing option or similar method), and the date or dates from which such interest, if any, will accrue or the method by which such date or dates will be determined;
- the date or dates on which interest, if any, on such debt securities will be payable and any regular record dates applicable to the date or dates on which interest will be so payable;
- the place or places where the principal of or any premium or interest on such debt securities will be payable, where any of such debt securities that are issued in registered form may be surrendered for registration of, transfer or exchange, and where any such debt securities may be surrendered for conversion or exchange;

if such debt securities are to be redeemable at our option, the date or dates on which, the period or periods within which, the price or prices at which and the other terms and conditions upon which such debt securities may be redeemed, in whole or in part, at CIT's option;

provisions specifying whether CIT will be obligated to redeem or purchase any of such debt securities pursuant to any sinking fund or analogous provision or at the option of any holder of such debt securities and, if so, the date or dates on which, the period or periods within which, the price or prices at which and the other terms and conditions upon which such debt securities will be redeemed or purchased, in whole or in part, pursuant to such obligation, and any provisions for the remarketing of such debt securities so redeemed or purchased;

if other than minimum denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof, the denominations in which any debt securities to be issued in registered form will be issuable and, if other than a denomination of \$5,000, the denominations in which any debt securities to be issued in bearer form will be issuable;

provisions specifying whether the debt securities will be convertible into other securities of CIT and/or exchangeable for securities of CIT or other issuers and, if so, the terms and conditions upon which such debt securities will be so convertible or exchangeable;
