Schedule I: Schedule H, Line 4i--Schedule of Assets (Held at End of Year)
-- December 31, 2000

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Participants of the Georgia-Pacific Corporation Hourly 401(k) Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Georgia-Pacific Corporation Hourly 401(k) Plan as of December 31, 2000 and 1999 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2000. These financial statements and the schedule referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Georgia-Pacific Corporation Hourly 401(k) Plan as of December 31, 2000 and 1999 and the changes in its net assets available for plan benefits for the year ended December 31, 2000 in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of assets (held at end of year) as of December 31, 2000 is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

GEORGIA-PACIFIC CORPORATION

HOURLY 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS AND SCHEDULE

DECEMBER 31, 2000 AND 1999

1. Organization and Plan Description

The following brief description of the Georgia-Pacific Corporation Hourly 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain groups of hourly employees of Georgia-Pacific Corporation (the "Employer" or "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. For unionized groups, participation in the Plan must be specified in the applicable collective bargaining agreement; management designates nonunion participating groups.

Eligible employees may elect to participate in the Plan beginning the first pay date in any month after completing three full calendar months of service. The participant becomes eligible for matching contributions beginning the first day of the month following completion of one year of

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

service.

Plan assets are held in trust funds and are invested on the participants' behalf, with all investment earnings for each fund credited to the accounts of participants based on their proportionate share of the fund. Vanguard Fiduciary Trust Company (the "Trustee") is the Trustee and custodian of the Plan.

In 1999, the Plan's name was changed from the Georgia-Pacific Corporation Hourly 401(k) Savings Plan to the Georgia-Pacific Corporation Hourly 401(k) Plan.

There was a transfer of assets in the amount of \$1,582,330 relating to the employees of Color Box, LLC.

Contributions

The Plan allows for both Employer and participant contributions. The percent of eligible compensation a participant is able to contribute, the percent of the Employer's match (if any), and whether certain bonuses and compensation for unused vacation and holidays may be contributed are governed by the agreement applicable to that group. Contributions are limited by the maximum allowable under the Internal Revenue Code ("IRC").

Participants are immediately vested in contributions and the Employer's contributions.

The Plan allows participant contributions, and any investment income earned thereon, to be allocated between any of the available investment funds offered by the Plan. Participants may change investment allocations at any time. Employer matching contributions are invested based on the allocation chosen by the participant.

-2-

Contributions are transferred to the Trustee twice a month and invested in the Vanguard Treasury Money Market Fund until they can be credited to participants' accounts and invested in accordance with the participants' investment elections. Earnings on the short-term investments are allocated to the participants' accounts once each year.

Withdrawals and Termination

In the event of a participant's termination of employment, death, or attainment of age 59 1/2, the participant or his/her beneficiary may elect to receive, in cash and/or Georgia-Pacific Corporation--Timber Group Common Stock or Georgia-Pacific Corporation--Georgia-Pacific Group Common Stock, his/her entire account balance.

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right to make participant contributions to the Plan for a period of at least 12 months.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

basis of accounting.

Effective January 1, 1999, the Plan adopted Statement of Position ("SOP") 99-3, "Accounting for and Reporting of Certain Defined Contribution Plan Investments and Other Disclosure Matters." SOP 99-3 established new disclosure requirements for define contribution plans.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires plan management to use estimates and assumptions that affect the net assets available for the plan benefits and the changes therein. Actual results could differ from these estimates.

Investment Valuation

Investments are presented at market value. Market values of mutual funds and common stock are determined principally from quotations as reported on various securities exchanges.

The net depreciation in the market value of mutual funds in the accompanying statement of changes in net assets available for plan benefits reflects the net difference between the market value and the cost at the beginning and end of the year for mutual funds held throughout the year as well as the difference between the year-end market value and cost for mutual funds purchased during the year. For mutual funds sold or distributed during the year, the net depreciation reflects the net difference between the market value and the cost at the beginning of the year and the date of disposition.

3. Income Tax Status

The Internal Revenue Service issued a determination letter dated June 20, 1997 stating that the Plan was designed in accordance with applicable IRC requirements as of that date. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.
