HOW TO READ THIS REPORT

This report contains information that can help you evaluate your investment. It includes details about the First Trust/Aberdeen Global Opportunity Income Fund (the "Fund") and presents data and analysis that provide insight into the Fund's performance and investment approach.

By reading the letter from the Fund's President, James A. Bowen, you will obtain

an understanding of how the market environment affected its performance. The statistical information that follows can help you understand the Fund's performance.

It is important to keep in mind that the opinions expressed by Mr. Bowen and First Trust Advisors L.P. personnel are just that: informed opinions. They should not be considered to be promises or advice. The opinions, like the statistics, cover the period through the date on the cover of this report. Of course, the risks of investing in the Fund are spelled out in the prospectus.

FIRST TRUST/ABERDEEN GLOBAL OPPORTUNITY INCOME FUND (FAM)  
SEMI-ANNUAL REPORT  
JUNE 30, 2005

Dear Shareholders:

The First Trust/Aberdeen Global Opportunity Income Fund (the "Fund") posted a net asset value ("NAV") total return of 2.0% in the first half of 2005, vs. 3.3% for the Lehman Global Emerging Markets Index and - 2.6% for the Lehman Global Aggregate Index, which measures the performance of investment grade bonds. The Fund's market price total return was -3.5% for the six months ended June 30, 2005. The Fund traded at a 4.8% discount to its NAV on June 30, 2005.

The Fund has paid out four monthly distributions of \$0.13 per share including its initial distribution paid in March 2005. The current distribution rate on FAM was 8.5%, based on its June 30, 2005 market price.

The Fund invests in a diversified portfolio of debt securities predominantly issued outside of the U.S. and seeks to benefit from weakness in the U.S. dollar, interest rate environments that are less correlated to the U.S. market and improving credit quality situations. In the first half of 2005, FAM has encountered a stronger U.S. dollar, which rallied 7.5% against a basket of major currencies, and some profit taking in the global and emerging debt markets in March, but has weathered these challenges nicely, in our opinion.

Inflation rates outside of the U.S. remain fairly subdued. The Organisation for Co-operation and Development reported that inflation in the 30 major countries it monitors averaged 2.4% for the 12-month period ended May 2005. That rate actually falls to 1.8% if you do not factor in the price increases for food. Despite the high price of oil, global inflation has been contained to this point, which is a positive for bond investors.

Credit quality retains a favorable bias according to Standard & Poor's Corporation ("S&P"). Global default rates are low relative to historical levels. However, for the first time in four quarters, downgrades outpaced upgrades in the second quarter of 2005. The global downgrade ratio (downgrades to total rating actions) for all corporate issuers increased to 54% in the second quarter from 47% in the first quarter. General Motors Corp. and Ford Motor Co. accounted for 53% of the total debt affected by S&P's downgrades globally. Overall, S&P still characterizes the credit underpinnings as "solid."

We continue to appreciate your interest in the Fund.

Sincerely,

# Edgar Filing: FIRST TRUST/ABERDEEN GLOBAL OPPORTUNITY INCOME FUND - Form N-CSRS

FIRST TRUST/ABERDEEN GLOBAL OPPORTUNITY INCOME FUND  
JUNE 30, 2005 (UNAUDITED)

1. FUND DESCRIPTION

First Trust/Aberdeen Global Opportunity Income Fund (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on September 7, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FAM on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to seek a high level of current income. As a secondary objective, the Fund will seek capital appreciation. The Fund will pursue these objectives by investing in the world bond markets through a diversified portfolio of investment grade and below-investment grade government and corporate debt securities. There can be no assurance that the Fund's investment objectives will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is computed based upon the value of the Fund's portfolio and other assets. The NAV is determined as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The Fund calculates NAV per Common Share by subtracting the Fund's liabilities (including accrued expenses, dividends payable and any borrowings of the Fund) and the liquidation value of any outstanding Preferred Shares from the Fund's Managed Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest accrued but not yet received minus accrued liabilities other than the principal amount of borrowings) and dividing the result by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value, or in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. A majority of the Fund's assets are valued using market information supplied by third parties. In addition, structured products, including currency-linked notes, credit-linked notes as well as interest rate swaps and credit default swaps, are valued using a pricing service or quotes provided by the selling dealer or financial institution. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, or if events occurring after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, would materially affect NAV, First Trust Advisors L.P. ("First Trust") may use a fair value method to value

the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees, in accordance with the provisions of the 1940 Act.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and accretion of discounts.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investment securities and items of income and expense are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in the net change in unrealized appreciation/(depreciation) of foreign currencies and net other assets in the Statement of Operations. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and

-----  
NOTES TO FINANCIAL STATEMENTS - (CONTINUED)  
-----

dividends received. The portion of foreign currency gains and losses related to fluctuations in exchange rates between the initial purchase trade date and subsequent sale trade date is included in the net realized gains and losses on foreign currencies and net other assets in the Statement of Operations.

FORWARD FOREIGN CURRENCY CONTRACTS:

Forward foreign currency contracts are agreements to exchange one currency for another at a future date and at a specified price. The Fund may use forward foreign currency contracts to facilitate transactions in foreign securities and to manage the Fund's foreign currency exposure. These contracts are valued daily, and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the Statement of Assets and Liabilities. Realized and unrealized gains and losses are included in the Statement of Operations. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates. Due to the risks, the Fund could incur losses up to the

entire contract amount, which may exceed the net unrealized value shown in the Statements of Assets and Liabilities.

CREDIT DEFAULT SWAP CONTRACTS:

The Fund has entered into credit default swap contracts with the Fund being the "buyer" and the counterparty the "seller" in these transactions. As a buyer of the credit default swap contracts, the Fund is obligated to pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default (e.g., grace period extension, obligation acceleration, repudiation/moratorium, or restructuring) relating to the security occurs or until the termination of the swap contract, whichever is first. If no event of default occurs, the Fund will have made a series of periodic payments and recover nothing of monetary value. If an event of default occurs, the counterparty must pay the Fund the full notional value, or "par value," of the specified security. The amount of the cash payment from the counterparty to the Fund is based on the difference of the par value of the specified security that may have, through default, lost some, most or all of its value. Credit default swap transactions are entered into for hedging or investment purposes.

The Fund purchases credit default swap contracts in order to hedge against the risk of a fall in the capital price, or default, of debt securities it holds. This involves the risk that the swap may expire worthless and the credit risk that the seller may fail to satisfy its payment obligations to the Fund in the event of a default. The Fund may only enter into such transactions with counterparties rated A- or higher.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

The Fund will distribute to holders of its Common Shares monthly dividends of all or a portion of its net income after the payment of interest and dividends in connection with the leverage. If the Fund recognizes a long-term capital gain, it will be required to allocate such gain between the Common Shares and Preferred Shares, if any, issued by the Fund in proportion to the total dividends paid for the year. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

As of December 31, 2004, the components of distributable earnings on a tax basis were as follows:

Ordinary Income .....	\$ 822,392
-----------------------	------------

INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

JUNE 30, 2005 (UNAUDITED)

EXPENSES:

The Fund pays all expenses directly related to its operations.

ORGANIZATIONAL AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust and Aberdeen Asset Management Inc. have paid all organizational expenses and all offering costs of the Fund (other than sales load) that exceeded \$0.04 per Common Share. The Fund's share of Common Share offering costs, \$688,210 and \$6,400 in 2004 and 2005, respectively, was recorded as a reduction of the proceeds from the sale of Common Shares.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Aberdeen Asset Management Inc. (the "Sub-Advisor") serves as the Fund's sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee of 0.50% of Managed Assets that is paid monthly by First Trust out of its investment advisory fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

The Fund pays each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000 which includes compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees are paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 are paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees are shared by the funds in the First Trust fund complex that participate in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of securities, other than U.S. government obligations and short-term obligations, for the six months ended June 30, 2005, aggregated amounts were \$357,759,256 and \$153,319,358, respectively.

As of June 30, 2005, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$10,754,195, and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$5,327,668.

5. COMMON SHARES

As of June 30, 2005, 17,365,236 of \$0.01 par value Common Shares were issued. An unlimited number of Common Shares has been authorized under the Fund's Dividend Reinvestment Plan.

COMMON SHARE TRANSACTIONS WERE AS FOLLOWS:

	SIX MONTHS ENDED JUNE 30, 2005		PERIOD ENDED DECEMBER 31, 2004	
	SHARES	AMOUNT	SHARES	AMOUNT
Proceeds from shares sold .....	160,000	\$3,056,000	17,205,236	\$328,620,008

6. PREFERRED SHARES OF BENEFICIAL INTEREST

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of preferred shares of beneficial interest, par value \$0.01 per share (the "Preferred Shares"), in one or more classes or series, with rights as determined by the Board of Trustees without the approval of Common Shareholders. As of June 30, 2005, no Preferred Shares had been issued.

7. REVOLVING LOAN AGREEMENT

On January 10, 2005, the Fund entered into a revolving loan agreement among the Fund and certain primary and secondary lenders, which provides for a loan agreement facility to be used as leverage for the Fund. The credit facility provides for a secured line of credit for the Fund where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage" of at least 300% (331/3% of the Fund's total assets after borrowings). The total commitment under the facility is up to \$165,000,000. For the six months ended

June 30, 2005, the average amount outstanding was \$138,257,532, with a weighted average interest rate of 3.03%. The Fund also pays a commitment fee of 0.325% per year, which is included in interest and fees on outstanding loan payable on the Statement of Operations.

#### 8. CONCENTRATION OF RISK

An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund, which include a global bond portfolio of investment grade and below-investment grade government and corporate debt securities. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including the general condition of the bond market, or when political or economic events affecting the issuers occur.

**Non-Investment Grade Securities Risk:** The Fund may invest up to 60% of its Managed Assets in non-investment grade securities. Non-investment grade securities are rated below "Baa3" by Moody's Investors Services, Inc., below "BBB-" by Standard & Poors, or comparably rated by another nationally recognized statistical rating organization or, if unrated, determined by the Sub-Advisor to be of comparable credit quality. Non-investment grade debt instruments are commonly referred to as "high yield" or "junk" bonds, are considered speculative with respect to the issuer's capacity to pay interest and repay principal and are susceptible to default or decline in market value due to adverse economic and business developments. The market values for high yield securities tend to be very volatile, and these securities are less liquid than investment grade debt securities.

#### 9. SUBSEQUENT EVENTS

On June 20, 2005, the Fund declared a dividend of \$0.13 per share, which represents a dividend from net investment income to Common Shareholders of record July 6, 2005, payable July 15, 2005.

On July 20, 2005, the Fund declared a dividend of \$0.13 per share, which represents a dividend from net investment income to Common Shareholders of record August 3, 2005, payable August 15, 2005.

#### DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect to receive cash distributions, all dividends and distributions on your Common Shares, will be automatically

## Edgar Filing: FIRST TRUST/ABERDEEN GLOBAL OPPORTUNITY INCOME FUND - Form N-CSRS

reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as the dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) net asset value per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below net asset value at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue

Parkway, Wilmington, Delaware 19809.
