STATEMENT OF CORPORATE GOVERNANCE

GENERAL

Intrawest is committed to the highest standards of corporate governance. The Board and each of its committees have continued to refine Intrawest's governance policies and practices in light of regulatory initiatives in North America that have been adopted to improve corporate governance.

Effective June 30, 2005, National Instrument 58-101 Disclosure of Corporate Governance Practices ("NI 58-101") and National Policy 58-201 Corporate Governance Guidelines ("NP 58-201") were adopted in each of the provinces and territories of Canada. NI 58-101 requires issuers to disclose the corporate governance practices that they have adopted. NP 58-201 provides guidance on corporate governance practices. In addition, Intrawest is subject to Multilateral Instrument 52-110 -- Audit Committee, which has been adopted in various Canadian provinces and territories and which prescribes certain requirements in relation to audit committees.

The Board has reviewed Intrawest's corporate governance practices in response to the U.S. Sarbanes-Oxley Act of 2002, applicable rules of the U.S. Securities and Exchange Commission, and the NYSE Corporate Governance Standards (the "NYSE Standards"). The Board will continue to review its corporate governance practices on an ongoing basis in response to the evolving standards. Intrawest's corporate governance does not differ significantly from that followed by U.S. domestic corporations under the NYSE Standards.

Intrawest has adopted Standards of Business Conduct that govern the behavior of its directors, officers and employees. The standards are available on Intrawest's web site at www.intrawest.com and at www.sedar.com. The Audit Committee is responsible for monitoring compliance with the standards.

The corporate governance practices adopted by Intrawest are set out below.

BOARD OF DIRECTORS

Intrawest's Board of Directors assumes responsibility for stewardship of the Corporation. The mandate of the Board is to supervise the management of the business and affairs of the Corporation, with the objective of increasing shareholder value. In fulfilling its mandate, the Board, among other things, has the following duties and objectives:

- adoption of a strategic planning process for the Corporation
- succession planning for the Corporation including appointing and monitoring senior management
- development and maintenance of written position descriptions for the CEO, the Lead director and the chair of each Committee of the Board
- identification of the principal risks of the Corporation's business and ensuring the implementation of appropriate systems to manage these risks

Edgar Filing: INTRAWEST CORP - Form 6-K

- adoption of a communications policy for the Corporation
- the integrity of the Corporation's internal control and management information systems.

The Board of Directors has adopted the formal mandate set out in Schedule A to this Information Circular.

On an ongoing basis, as part of regular Board meetings the directors receive presentations from management personnel and outside consultants to improve their understanding of Intrawest's business. In addition, meetings of the Board are regularly held at Intrawest's resort locations in order to assist the directors in better understanding Intrawest's operations. The frequency of meetings, as well as the nature of items discussed, depend upon the state of Intrawest's affairs and the opportunities or risks that Intrawest faces. There were seven meetings of the Board during the year ended June 30, 2005.

New directors are provided with a comprehensive orientation and education program approved by the Corporate Governance and Nominating Committee, which includes information regarding the nature and operation of Intrawest's business and the role of the Board, its committees and its directors. In addition to having extensive discussions with the Chairman of the Board and the Lead director with respect to the business and operations of Intrawest, new directors receive a record of historical public information concerning Intrawest together with the mandates and prior minutes of meetings of the Board and applicable committees of the Board. The orientation

6

provides new directors with an understanding of the nature and extent of Intrawest's business, as well as the role of the Board and the Board committees, and the contribution that individual directors are expected to make (including the commitment of time and resources that Intrawest expects from directors).

The Board of Directors consists of nine independent directors as set out in pages two to four of this Information Circular, and Mr. Houssian, the Chairman of the Board, President and Chief Executive Officer of Intrawest. Mr. Houssian is not independent as a result of his management role in Intrawest. Mr. MacDougall, who is an independent director, has been designated as Lead director. As standard procedure, the independent directors hold regularly scheduled meetings at least four times a year at which non-independent directors and members of management are excluded. There were four such meetings during the year ended June 30, 2005. Mr. MacDougall, as Lead director, chairs all such meetings as well as all meetings of the Board. In addition, Mr. MacDougall is expected to act as the leader of the other independent directors to encourage and facilitate open and candid discussion among the independent directors and the exercise by the directors of independent judgment to help ensure that the Board carries out its duties and responsibilities successfully.

DECISIONS REQUIRING PRIOR BOARD APPROVAL

In addition to those matters which must by law or by the articles or by-laws of Intrawest be approved by the Board of Directors, management is required to seek Board approval for major transactions. The Board of Directors has delegated to senior management the authority to enter into various types of transactions, including financing transactions, subject to specified limitations. Transactions or agreements in respect of which a director or executive officer has a material interest must be approved by the Board of Directors. In appropriate cases the Board may require a director who has a material interest in a proposed contract or transaction, in addition to disclosing the nature and extent of the interest as required by law, to be

Edgar Filing: INTRAWEST CORP - Form 6-K

absent from a meeting of the directors at which such transaction or agreement is being discussed. In addition, in an appropriate case, the Board could consider forming a special ad hoc independent committee of the Board to consider the proposed contract or transaction. The Board will at all times encourage directors to exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest.

COMMITTEES

Intrawest has an Audit Committee, a Corporate Governance and Nominating Committee and a Human Resources Committee. Set out below is a description of the committees of the Board, their mandates and their activities.

AUDIT COMMITTEE

The Audit Committee reviews the annual and interim financial statements of Intrawest and certain other public disclosure documents required by regulatory authorities and makes recommendations to the Board with respect to such statements and documents. The Committee also makes recommendations to the Board regarding the appointment of independent auditors, reviews the nature and scope of the annual audit as proposed by the auditors, and reviews with management the risks inherent in Intrawest's business and the risk management programs relating thereto. The roles and responsibilities of the Audit Committee are specifically defined so as to provide appropriate guidance to committee members as to their duties. The Committee provides and facilitates a direct line of communication between Intrawest's external and internal auditors and the Board to discuss and review specific issues as appropriate. The Committee's duties include overseeing and reviewing with the auditors and management the adequacy of Intrawest's internal accounting control procedures and systems.

The Audit Committee is composed entirely of independent directors. The Committee met four times during the year ended June 30, 2005.

Under the U.S. Sarbanes-Oxley Act and related SEC rules, Intrawest must disclose whether the Audit Committee is composed of at least one financial expert, as defined in those rules. In addition, the NYSE requires that all Audit Committee members be financially literate. Mr. Manheim, Chairman of the Audit Committee, is a "financial expert" and all members of the Audit Committee are "financially literate," as these terms are defined in the Sarbanes-Oxley Act, applicable SEC rules and applicable NYSE rules.

7

The full mandate of the Audit Committee is set out in Schedule B to this Information Circular. See also "Audit Committee Information" in Intrawest's Annual Information Form for the year ended June 30, 2005 for more information concerning the Audit Committee and its members.

CORPORATE GOVERNANCE AND NOMINATING COMMITTEE

The Corporate Governance and Nominating Committee is responsible for the nomination process for directors of Intrawest and for developing, monitoring and assessing Intrawest's corporate governance system, the effectiveness of the Board of Directors, its size and composition, its committees and the individual performance of its directors. The Board has implemented procedures to be carried out by the Committee to annually assess the effectiveness of the Board as a whole, the Board committees and the contribution of individual directors, and to consider performance-enhancing measures, recruit new directors from time to time and review Board processes. The Committee regularly considers what competencies and skills that the Board, as a whole, requires and assesses the competencies

Edgar Filing: INTRAWEST CORP - Form 6-K

and skill sets of the current Board as a group, and the contributions of individual directors, and identifies any additional competencies and skill sets the Committee might consider to be beneficial when considering potential Board candidates. The Committee maintains a list of potential candidates for its future consideration.

The Corporate Governance and Nominating Committee annually reviews the size of the Board and assesses what the Committee considers to be the appropriate size of the Board with a view to facilitating effective decision making. Where appropriate, the Committee makes recommendations to the Board for change in the size of the Board. The Corporate Governance and Nominating Committee and the Board have determined that nine to 12 directors is an appropriate size for Intrawest's Board to facilitate effective and efficient communication and decision making.

The Committee ensures that an annual strategic planning process and review is carried out and periodically reviews the directors' and officers' third-party liability insurance to ensure adequacy of coverage. The Corporate Governance and Nominating Committee is also responsible for providing orientation for new members of the Board and continuing education for all Board members.

The Corporate Governance and Nominating Committee periodically makes industry comparisons of directors' compensation in light of their risks and responsibilities and reviews and makes recommendations to the Board regarding the adequacy and form of the compensation of the directors. The Board believes that the form and amount of compensation of directors is sufficient to reflect realistically the responsibilities and risks involved in being an effective director.

The Corporate Governance and Nominating Committee undertakes an annual assessment of the overall performance and effectiveness of the Board as a whole, its committees and the contribution of individual members. An annual questionnaire is used in the evaluation of the contribution of individual directors. Formal interviews with each director and each member of Intrawest's executive leadership team are carried out annually by the Lead director with respect to this matter. Such assessment includes, in the case of the Board or a Board committee, its mandate, and, in the case of individual directors, any applicable position description, as well as the competencies and skills each individual director is expected to bring to the Board and willingness to devote the necessary time and energy to the performance of their duties. Each committee mandate specifically authorizes such committee to retain outside advisors as it deems necessary to carry out its duties. In addition, the Board is provided with continuing education through in-person presentations by outside experts on a broad range of topics applicable to Intrawest's business or through courses taken at the director's discretion.

The Corporate Governance and Nominating Committee has the responsibility for developing, monitoring and assessing Intrawest's approach to corporate governance, including considering the guidance on corporate governance practices set out in NP 58-201 and developing a set of corporate governance principles and guidelines that are specifically applicable to Intrawest.

The Corporate Governance and Nominating Committee is composed entirely of independent directors. The Committee met three times during the year ended June 30, 2005.

The full mandate of the Corporate Governance and Nominating Committee is set out in Schedule C to this Information Circular.

HUMAN RESOURCES COMMITTEE

The Human Resources Committee is responsible for reviewing the levels and form of total compensation paid to Intrawest's employees and for administering Intrawest's share compensation and long-term incentive plans. The Committee is responsible for reviewing and making recommendations to the Board regarding the corporate goals and objectives relevant to compensation of the Chief Executive Officer and Chief Financial Officer and regularly evaluates and assesses the performance of the Chief Executive Officer and the Chief Financial Officer in light of those corporate goals and objectives and determines their compensation and benefits based on that evaluation. It also reviews and recommends a plan of succession for Intrawest's senior management. The Committee is responsible for reviewing Intrawest's organizational structure and design to determine if they are appropriate to carry out the business of Intrawest. In addition, the Human Resources Committee produces for review and approval by the Board a report on executive compensation for inclusion in Intrawest's information circular.

The Human Resources Committee on a regular basis hires outside compensation and benefit consultants to assist it in its review and deliberations, including benchmarking and comparison of Intrawest's compensation and benefits against competitors and others in the real estate, travel and resort sectors. During the year ended June 30, 2005, the Human Resources Committee retained Hewitt Associates, an international compensation consulting company, to provide independent advice with respect to the levels and methods of compensation of executive officers.

The Human Resources Committee is composed entirely of independent directors. The Committee met six times during the year ended June 30, 2005.

The full mandate of the Human Resources Committee is set out in Schedule D to this Information Circular.

BOARD SHARE OWNERSHIP GUIDELINES

The Board of Directors has adopted share ownership guidelines for its directors to promote meaningful Common Share ownership. Under the guidelines each member of the Board is to hold a minimum of US \$100,000 in Common Shares or Deferred Share Units of Intrawest. This requirement is to be fulfilled by December 31, 2007.

COMPENSATION OF DIRECTORS

Non-management directors of Intrawest are entitled to receive an annual fee for acting as a director on the Board and each committee served, plus a further fee for each Board and committee meeting attended. The fees are outlined in the table below. In addition, non-management directors are reimbursed for travel and other expenses incurred for attendance at Board and committee meetings.

In November 2004 Intrawest adopted a Director Deferred Share Unit Plan. The Plan is administered by the Corporate Governance and Nominating Committee. Under the Plan, non-management directors are entitled to receive 500 DSUs on June 30 in each year, commencing June 30, 2005, as compensation for service on the Board. In addition, directors are entitled to elect to receive DSUs in lieu of a percentage of the annual fees or retainers for service on the Board or committees for the next calendar year. A DSU is a bookkeeping entry, equivalent to the value of an Intrawest common share, credited to an account maintained for the director until retirement. Additional DSUs are credited to participants corresponding to dividends declared on the common shares. Following a non-management director ceasing to be a director of Intrawest, a lump sum cash payment, net of any applicable tax withholdings, equal to the number of DSUs credited to the director's account multiplied by the average closing price of the common shares on the NYSE at the time of their retirement, will be paid to the director 30 days after such termination.

The following table summarizes the cash compensation in United States dollars that was paid or would have been paid to each director of Intrawest for the year ended June 30, 2005 if such director had not chosen to participate in the Director Deferred Share Unit Plan.

REPORT ON EXECUTIVE COMPENSATION

COMPOSITION OF THE HUMAN RESOURCES COMMITTEE

The Human Resources Committee (the "Committee") is composed of four independent members of the Board of Directors. The current members of the Committee are Messrs. MacDougall, Roy and Villiers and Ms. Morfitt. No member of the Committee is or was during the most recently completed financial year, an officer or employee of Intrawest or any of its subsidiaries, nor was formerly an officer of Intrawest or any of its subsidiaries, nor had or has any relationship that requires disclosure under "Interest of Informed Persons in Material Transactions" or "Indebtedness of Directors and Executive Officers." Ms. Morfitt became a member of the Committee in May 2005.

EXECUTIVE COMPENSATION STRATEGY

Intrawest's executive compensation strategy combines salary, annual incentives and long-term incentives with a program of benefits and perquisites to form an integrated compensation strategy designed to achieve the following objectives:

- to encourage and reward entrepreneurial management by having a significant proportion of compensation relate to business performance.
- to attract and retain executives on a competitive basis across North America.
- to ensure commonality of interest between shareholders and management, both short-term and long-term.

Edgar Filing: INTRAWEST CORP - Form 6-K

From time to time the Committee undertakes a comprehensive review of the compensation plans for Intrawest's senior executives with the objective of ensuring that the plans meet the objectives cited above. Professional consultants are engaged to assist the Committee. These consultants develop comparable compensation groups, conduct compensation surveys, and advise the Committee about the structuring of compensation arrangements that would meet Intrawest's objectives. The Committee incorporates the consultants' recommendations in the compensation determinations. The Committee will continue to employ this process and review the compensation plans on a regular basis to ensure that they reflect properly the business strategy and compensation objectives of Intrawest.

Total compensation is targeted to be competitive to a "Comparator Group," a comparable group of leisure and resort companies in North America, and general industry of a similar revenue size. As an overriding goal, the Committee structures its compensation plans to place more emphasis on long-term incentives than on short-term remuneration. For each of the Named Executive Officers, approximately 50% of their remuneration is based on financial performance of Intrawest or their division.

BASE SALARIES

Base salaries are established by reference to the Comparator Group and of general industry companies of similar size.

ANNUAL INCENTIVES

Intrawest provides opportunities to earn annual incentive awards that are based upon the achievement of personal performance goals and upon the financial performance of Intrawest. For the senior executives, other than the Chief Executive Officer, the annual incentives range from 0% to 75% of base salary depending on performance. For the Chief Executive Officer, the annual incentives range from 0% to 100% of base salary depending on performance. The annual incentive awards are determined by reference to corporate financial goals, strategic objectives and subjective matters. The corporate financial goals represent approximately 60% of the potential overall award, the strategic objectives represent approximately 30% and subjective matters represent approximately 10%.

For the Named Executive Officers, the performance and strategic goals differ by individual. Financial goals were measured with reference to earnings per share, EBITDA, net debt and Common Share price performance. In fiscal 2005 overall corporate financial objectives were met, although results differed by division or business entity.

KEY EXECUTIVE DEFERRED SHARE UNIT PLAN

As described under "Statement of Executive Compensation -- Key Executive Deferred Share Unit Plan," Intrawest has a Key Executive Deferred Share Unit Plan that allows executive officers to elect annually to receive

11

all or any portion of their annual incentive plan cash award which would otherwise have become payable as deferred share units. The Committee administers the Key Executive Deferred Share Unit Plan, including monitoring the number of deferred share units credited to executive officers.

LONG-TERM INCENTIVE PLANS

Edgar Filing: INTRAWEST CORP - Form 6-K

(a) EXECUTIVE LONG-TERM INCENTIVE PLAN

As described under "Statement of Executive Compensation -- Executive Long-Term Incentive Plan," the Long-Term Incentive Plan ("LTIP") is a long-term performance-based compensation plan. The plan provides for cash payments to the participating key executive officers following termination of employment based on a notional number of Common Shares earned in relation to cumulative consolidated net income over four plan cycles. The Committee has determined that the combination of corporate financial performance and stock price performance provides commonality of interest between shareholders and senior executive officers by linking compensation with long-term results achieved for shareholders.

All Named Executive Officers, other than Mr. Currie, earned notional Common Shares in respect of the calculation period ended June 30, 2003 based, in part, on the attainment of certain financial performance goals in the two financial years ended June 30, 2004 and 2005. These goals related to earnings per share levels and net debt to EBITDA ratios. These goals were fully achieved.

The rights of participating executive officers under the LTIP are taken into account by the Committee when considering other awards of long-term compensation for senior officers.

(b) KEY EXECUTIVE EMPLOYEE BENEFIT PLAN

As described under "Statement of Executive Compensation -- Key Executive Employee Benefit Plan," Intrawest has a Key Executive Employee Benefit Plan under which the Committee, in 2002, granted awards of unvested shares that were purchased in the open market to Messrs. Houssian, Jarvis and Raymond. These shares have vested or will vest based on (i) the attainment of certain financial performance goals related to earnings per share and net debt to EBITDA ratios for the two financial years ended June 30, 2005, and (ii) the continued employment of the executive. The Committee administers the Key Executive Employee Benefit Plan and monitors the attainment of the specified financial performance goals and the determination of vesting of shares. The Committee approved the payment of an amount equal to dividends received on unvested shares held under the plan as additional contributions which were used to purchase additional unvested shares under the plan. The remaining unvested shares will vest in December 2005 based on retention, following which the Key Employee Benefit Plan will expire. This plan will be replaced by the Return on Capital Plan described below.

(c) RETURN ON CAPITAL PLAN

Following the Committee's most recent comprehensive review of the compensation plan for Intrawest's senior executives, the Committee has determined that Intrawest should implement a long-term incentive compensation plan based on achievement by Intrawest of a return on invested capital on a cumulative basis. The plan period will cover performance in the fiscal years 2006 through 2008. The new plan will entitle the executive officers to earn notional Common Shares based on the cumulative return on invested capital and to receive a cash payment following termination of employment based on the value of Intrawest's Common Shares at that time. The Plan will measure EBITDA as a percentage of return of total invested capital including both equity and debt.

FUNDED SENIOR EMPLOYEE SHARE PURCHASE PLANS

As described under "Indebtedness of Directors and Executive Officers -- Funded Senior Employee Share Purchase Plan," Intrawest has a Funded Senior Employee Share Purchase Plan that was adopted in 2002 under which Intrawest may make loans to designated eligible employees to be used for the purchase of Common Shares in the open market.

Edgar Filing: INTRAWEST CORP - Form 6-K

All loans outstanding under the 2002 Funded Senior Employee Share Purchase Plan to executive officers were made in 2002, prior to the implementation of the U.S. Sarbanes-Oxley Act of 2002 and the rules and regulations made thereunder. Following implementation of that legislation, the Committee has determined that no further loans will be made under Intrawest's 2002 Funded Senior Employee Share Purchase Plan to executive officers.

12

Intrawest also had a Funded Senior Employee Share Purchase Plan that was adopted in 1992 under which Intrawest made loans to designated eligible employees to be used for the purchase of Common Shares issued from treasury. All loans outstanding under this plan have been repaid and the Plan has been terminated.

All loans to executives under the 2002 Funded Senior Employee Share Purchase Plan are at the personal risk of the executive and no loans outstanding under Intrawest's Funded Share Purchase Plans have been forgiven.

STOCK OPTION PLAN

As described elsewhere in this Information Circular, Intrawest has a stock option program that is offered to its senior executive officers and a broader group of managers. The amount and terms of outstanding options, deferred share units and unvested share units are taken into account by the Committee when determining whether and how many new option grants should be made. During the year ended June 30, 2005, the Committee approved the grant of options to acquire a total of 416,500 Common Shares, representing 0.87% of Intrawest's outstanding Common Shares. The Committee has determined that it does not intend to grant new options to Intrawest's executive officers in the 2006 financial year, except in possible circumstances involving new senior executive recruitment.

CHIEF EXECUTIVE OFFICER'S COMPENSATION

The Chief Executive Officer participates in all of the short-term and long-term incentive programs as summarized elsewhere in this Information Circular. The base salary of the Chief Executive Officer was determined by the Committee after considering various factors, including information available to the Committee regarding base salaries of executives in the Comparator Group received from Intrawest's compensation consultants. The bonus under the short-term incentive arrangement awarded to the Chief Executive Officer in 2005 recognized the financial performance of Intrawest and the achievement of corporate initiatives during that fiscal period. In determining this award the Committee referred to goals and objectives established annually for the Chief Executive Officer. Approximately 60% of the award was based on quantitative financial performance of Intrawest, 30% on the achievement of strategic corporate initiatives approved by the Committee and 10% on a subjective analysis of the Chief Executive Officer's personal contribution as determined by the Committee.

The financial objectives focused on earnings per share, EBITDA and net debt to EBITDA ratios and Common Share value growth. The strategic objectives included, among other items, the execution of targeted acquisitions and dispositions; the establishment of long-term marketing and branding plans; the development of human resources; and the implementation of new real estate financing and joint venture initiatives. In addition to the annual award, the Chief Executive Officer met certain financial goals with respect to the long-term incentives as outlined in this report.

This Report on Executive Compensation is submitted on behalf of the Human

- (1) All dollar amounts in the Summary Compensation Table and footnotes are in United States dollars, unless otherwise indicated. The following rates of exchange were used to convert Canadian dollar amounts to United States dollar amounts for the fiscal years indicated: 2005 -- 1.2495; 2004 -- 1.3428; 2003 -- 1.5112.
- (2) Salary amounts for all Named Executive Officers reflect Canadian dollar salaries approved by the Human Resources Committee and paid by Intrawest, converted to United States dollar amounts at the average rate of exchange indicated in footnote 1.
- (3) The amounts in this column exclude any portion of a bonus earned in a year that the Named Executive Officer elected to forego under the Key Executive Deferred Share Unit Plan. Mr. Houssian elected in all three years to forego his cash bonus and as a result he received Deferred Share Units. See "Key Executive Deferred Share Unit Plan."
- (4) The value of perquisites and benefits earned by each Named Executive Officer is less than the lesser of Cdn.\$50,000 and 10% of his total annual salary and bonus. The amounts in this column include the imputed interest benefit (computed in accordance with the Income Tax Act (Canada)) to the Named Executive Officers of the interest-free loans made to the Named Executive Officers pursuant to Intrawest's Funded Senior Employee Share Purchase Plans (see "Indebtedness of Directors and Executive Officers -- Funded Senior Employee Share Purchase Plans") and the value of dividend equivalent DSUs credited to the Named Executive Officer corresponding to dividends declared on Common Shares during the financial year (based on the average closing price of the Common Shares on the Toronto Stock Exchange for the five trading days preceding the dates of the dividend payment) (see "Key Executive Deferred Share Unit Plan.") and the value of additional unvested shares purchased under the Key Executive Employee Benefit Plan with additional contributions under that plan approved by the Human Resources Committee in amounts equal to dividends paid on unvested shares held under that plan (see "Key Executive Employee Benefit Plan").
- (5) Under the Key Executive Deferred Share Unit Plan, the Named Executive Officers participating therein can elect, prior to the award of a bonus in any year, to forego all or any portion of the cash bonus which would otherwise have become payable to them in respect of the year and to receive DSUs having a value equivalent to the bonus foregone, which is set out in the table. A total of 29,720 deferred share units were credited to Mr. Houssian in 2005 (2004 -- 43,161; 2003 -- 15,444). All DSUs are vested. Additional DSUs are credited under the plan corresponding to dividends declared on Common Shares at the then prevailing trading price.
- (6) No payments have been made in respect of the notional Common Shares earned over time for each of the calculation periods under the Long-Term Incentive Plan. For the calculation period ended June 30, 2003 (after giving effect to an adjustment factor for such period that was based on the attainment of certain financial performance goals in the two financial years ended June 30, 2005), the Named Executive Officers other than Mr. Currie earned a number of notional Common Shares as disclosed under "Executive Long-Term Incentive Plan." The payments to each participant will not be determined or made until such participant ceases to hold any office or employment with Intrawest or any of its subsidiaries. The amounts shown for each year represent the value of the portion of such notional Common Shares

Edgar Filing: INTRAWEST CORP - Form 6-K

that vested at the end of such year based on the closing price of the Common shares on the Toronto Stock Exchange at such time (and, as described under such heading, are subject to reduction by up to 10% if the calculation period ending June 30, 2008 has a cumulative consolidated net loss).

- (7) The amounts in this column include Intrawest's contributions to defined contribution pension plans, premiums for group life insurance and contributions made by Intrawest to the Named Executive Officers' accounts pursuant to Intrawest's Employee Share Purchase Plan. The amounts for Mr. Houssian in each of 2005 and 2004 include Cdn.\$340,000 in respect of premiums paid on a life insurance policy for the benefit of Mr. Houssian and his spouse.
- (8) Mr. Jarvis was the Chief Financial Officer until May 10, 2004, when Mr. Currie became the Chief Financial Officer.
- (9) In 2002 Intrawest made contributions to a trustee to purchase Common Shares in the open market which have been held pursuant to the Key Executive Employee Benefit Plan. See "Key Executive Employee Benefit Plan." As described under that heading, certain of these shares vested during the year ended June 30, 2005. The number and value (calculated by multiplying the closing market price of the Common Shares on June 30, 2005 on the Toronto Stock Exchange by the number of unvested shares) of the aggregate holdings of unvested shares of each of the Named Executive Officers at the end of the most recently completed financial year were: Joe S. Houssian: 77,774; Cdn.\$2,285,778; Daniel O. Jarvis: 41,479; Cdn.\$1,219,068; Gary L. Raymond: 50,367; Cdn.\$1,480,286. The shares for Mr. Houssian have now all vested. The remaining unvested shares will vest in December 2005 based on retention, following which the Key Employee Benefit Plan will expire.

KEY EXECUTIVE DEFERRED SHARE UNIT PLAN

Intrawest's Key Executive Deferred Share Unit Plan allows executive officers to elect annually to receive all or any portion of their annual incentive plan cash award ("Annual Incentive Award") that would otherwise have become payable to them as deferred share units, or DSUs. The actual number of DSUs credited to an executive officer is determined on the day that the Annual Incentive Award becomes payable (such date being set out in the notice of the Annual Incentive Award) by dividing the dollar amount elected by the average closing price of the Common Shares on the Toronto Stock Exchange for the five trading days preceding such date. Additional DSUs are credited to participants corresponding to dividends declared on Common Shares at the then prevailing trading price. Following the participant ceasing to hold any office or employment with Intrawest or of any subsidiary or related party, a lump sum cash payment, net of any applicable tax withholdings, equal to the number of DSUs credited to the participant's account multiplied by the average closing price of the Common Shares for the five trading days preceding the date of payment, which will be 30 days after such termination.

EXECUTIVE LONG-TERM INCENTIVE PLAN

The Long-Term Incentive Plan (the "LTIP") was established in June 1995. The Committee approved amendments in July 2000 and June 2004 to more closely align management incentives with overall corporate objectives. Under the LTIP six employees of Intrawest, including all the Named Executive Officers, will be entitled to receive cash payments following the participant ceasing to hold any office or employment with Intrawest or any of its subsidiaries based on a number of notional Common Shares that are earned over time under the plan. The Named Executive Officers can earn notional Common Shares for each of four calculation periods. The calculation periods are:

Edgar Filing: INTRAWEST CORP - Form 6-K

July 1, 2008 to June 30, 2013	July 1, 2014 to June 30, 2015

The Named Executive Officers, other than Mr. Currie, are in their third calculation period. Mr. Currie, who became the Chief Financial Officer in 2004 and joined the plan in July 2004, is in his first calculation period.

In summary, the Plan is designed to incent and reward management for financial performance based on net earnings and stock price performance. In addition, there are adjustment factors that further incent management on the basis of annual compound growth rate in earnings per share and, in respect of the calculation period ended June 30, 2003, earnings per share levels and net debt to EBITDA ratios.

16

The number of notional Common Shares earned for each calculation period is based on a percentage of the cumulative consolidated net income of Intrawest ("percentage of cumulative net income") for the period, adjusted by an adjustment factor (the "adjustment factor"), divided by the current market price at the start of the period (the "Common Share market price"), as follows:

$$\frac{\text{percentage of cumulative net income X adjustment factor}}{\text{Common Share market price}}$$

The percentages of cumulative net income are:

ADJUSTMENT FACTOR

The adjustment factor was introduced by July 2000 amendments to the LTIP and applies to the second and subsequent calculation periods for participants other than Mr. Currie, and all calculation periods for Mr. Currie.

For the calculation period commencing July 1, 1998, the adjustment factor was based on the attainment of certain financial performance goals for the two financial years ended June 30, 2004 and 2005. These financial performance goals related to earnings per share levels and net debt to EBITDA ratios.

For the calculation period commencing July 1, 2003 and subsequent calculation periods, the adjustment factor adjusts the number of notional Common Shares based on the annual compound growth rate in earnings per share (EPS Growth) of Intrawest above a 13% threshold, as follows:

EPS Growth less than or equal to 13%.....	-- no adjustment
EPS Growth more than or equal to 18%.....	-- 50% increase in notional Common Shares
EPS Growth more than 13% and less than 18%.....	-- pro-rata increase

If in any calculation period there is a cumulative consolidated net loss, such loss will be applied retroactively to reduce the number of notional Common Shares, by up to 10%, for the prior calculation period.

The LTIP provides for a reduction in the amount to be paid to a participant if the employment of a participant is terminated for cause. If the participant's employment is terminated "without cause" (including the resignation of a participant as a result of circumstances that would amount to a change in the responsibilities of a participant following a change in control of Intrawest) then the amount to be paid to the participant is to include an amount

17

that reflects consolidated net income of Intrawest for the period of reasonable notice of termination of employment to which such participant would be entitled.

For the calculation periods ended June 30, 1998 and June 30, 2003

Edgar Filing: INTRAWEST CORP - Form 6-K

respectively (in the case of the calculation period ended June 30, 2003, after giving effect to the impact of the adjustment factor), the participating Named Executive Officers earned the following notional Common Shares:

	FOUR-YEAR PERIOD ENDED JUNE 30, 1998	FIVE-YEAR PERIOD ENDED JUNE 30, 2003
	-----	-----
Mr. Houssian.....	217,384	245,145
Mr. Jarvis.....	72,588	36,771
Mr. Smythe.....	36,294	18,386
Mr. Raymond.....	36,294	18,386

The estimated LTIP liability is accrued annually in general and administrative expenses in the financial statements of Intrawest. For the 2005 financial year, U.S.\$719,000 was accrued in respect of notional Common Shares that would have been earned in respect of such financial year if the calculation period commencing July 1, 2003 had ended on June 30, 2005 and U.S.\$3,363,000 was accrued in respect of notional Common Shares earned as a result of the adjustment factor for the five-year calculation period ended June 30, 2003 that were not accrued for in 2004 and for mark-to-market adjustments in respect of notional Common Shares earned or accrued for under the plan for the current and all prior fiscal years. In the 2004 financial year a total of U.S.\$1,730,000 was accrued. Although the actual cash payments that are required under the LTIP can only be determined at the time of the termination of the participant's employment based on the market price of the Common Shares at that time, Intrawest expenses annually any mark-to-market changes in share value so as to fully accrue the estimated LTIP liability.

KEY EXECUTIVE EMPLOYEE BENEFIT PLAN

During the 2002 financial year, the Committee adopted a Key Executive Employee Benefit Plan ("KEEP") under which the Committee granted awards of unvested shares, purchased in the open market, to Messrs. Houssian, Jarvis and Raymond. These shares vest on a combination of attainment of specified financial performance measures and time. In the event of death or certain other events vesting may be accelerated.

Prior to vesting, all dividends received on unvested shares are paid by the trustee to Intrawest. The Human Resources Committee has discretion to cause Intrawest to pay to the trustee under the Plan, as additional contributions to be used to purchase additional unvested shares, an amount up to, but not exceeding, the payment of any dividends so received.

The number of shares acquired under the KEEP on behalf of each of the Named Executive Officers was as follows:

EXECUTIVE PENSION PLAN

Defined Benefit Plan

Intrawest has established the Intrawest Corporation Designated Executives' Pension Plan (the "Pension Plan"). The Pension Plan provides retirement pensions for all of its Named Executive Officers. These officers also belong to the Intrawest Corporation Employee Pension Plan (the "Employee Pension Plan").

19

The Pension Plan is comprised of a registered portion and a non-registered portion. Together with benefits from the Employee Pension Plan, the registered portion provides the maximum benefits allowable under the Income Tax Act (Canada), with any excess provided through the non-registered portion.

The following table sets out the total annual lifetime pension which would be payable under the Pension Plan based upon retirement at age 60, at various levels of remuneration and years of credited service.

Pensions under the Pension Plan are based on the executive's years of credited service and highest average remuneration in any 36 consecutive months of service. Remuneration for purposes of the Pension Plan includes salary and vacation pay but excludes other forms of compensation such as bonuses, commissions and taxable benefits, with the exception of Mr. Houssian whose bonuses (including the amount of bonuses which Mr. Houssian has elected to forego under the Key Executive Deferred Share Unit Plan) are included subject to the limitation that the best three years average earnings will be limited to a maximum of 150% of the amount which would result if bonuses were not included.

At September 26, 2005, Joe S. Houssian, Daniel O. Jarvis, Hugh R. Smythe, Gary L. Raymond and John E. Currie had 41.64, 16.24, 20.59, 19.24 and 4.24 years of credited service, respectively. Credited service includes actual service and may include additional years credited at the discretion of the Human Resources

Edgar Filing: INTRAWEST CORP - Form 6-K

Committee to reflect historical contributions and other factors. In 2001 the Human Resources Committee approved five additional years of credited service for each of Messrs. Houssian, Smythe and Currie under the Pension Plan, conditional upon vesting on June 30, 2004 in the case of Mr. Houssian and on June 30, 2006 in the case of Messrs. Currie and Smythe, if they are still then employed by Intrawest. The numbers above reflect the vesting of the additional years of credited service for Mr. Houssian.

Benefits are paid in a joint and survivor form with 60% of the pension continuing to the executive's spouse after death. If there is no spouse at retirement, pensions are paid with a guarantee of 60 monthly payments. There are no deductions for social security or other offset amounts.

Additional Pension Disclosure

The following table provides additional information in respect of pension benefits for the Named Executive Officers. The amounts disclosed are in United States dollars and are estimates only and are subject to change over time. Amounts shown include pension benefits under Intrawest's registered portion of the pension plan, to which the Named Executive Officers contribute, and the non-registered portion.

(1) Service cost is the value of the estimated pension earned for pensionable service in 2005. The value has been determined using the same actuarial assumptions as those used to determine the pension plan obligations at June 30, 2005 as set out in note 17 to the 2005 consolidated financial statements.

(2) Annual benefit liability has been accrued in the financial statements and represents the actuarial value of estimated obligations for service to June 30, 2005. The value has been determined using the same actuarial assumptions as those used to determine the pension plan liabilities at June 30, 2005 as set out in note 17 to the 2005 consolidated financial statements.

(3) Amounts in this column include five additional years of service awarded by the Human Resources Committee to Messrs. Houssian, Smythe and Currie on the basis of retention, and 7.68 years of service awarded by Intrawest to Mr. Houssian for years prior to 1995 in lieu of cash compensation.

(4) Amounts in this column are based on 2005 compensation levels and assume

accrued years of service to age 60 for each of the Named Executive Officers.

LIFE INSURANCE POLICY

Intrawest purchased a life insurance policy for Mr. Houssian and pays the eight annual premiums of Cdn.\$340,000 under the policy, commencing with the initial premium that was paid in November 2003. The policy provides for life insurance in the face amount of Cdn.\$10 million and is payable on death to Mr. Houssian's spouse. The policy is owned by Mr. Houssian.

TERMINATION OF EMPLOYMENT, CHANGE IN RESPONSIBILITIES AND EMPLOYMENT CONTRACTS

Intrawest has entered into employment contracts with each of the Named Executive Officers. Pursuant to these employment contracts, the Named Executive Officers participate in all benefit plans, arrangements and other perquisites that Intrawest implements from time to time for executive officers, and are entitled to certain other perquisites.

Intrawest may terminate the employment of the Named Executive Officers with Intrawest upon two (or in the case of Mr. Houssian, three) years' prior notice or, in lieu of notice, by paying to the Named Executive Officer an amount equal to two (or in the case of Mr. Houssian, three) times his annual salary plus two times the average amount of the bonus paid or payable to the Named Executive Officer in the last two completed fiscal years of Intrawest most recently preceding the date of termination. In addition, in such event, the Named Executive Officer is entitled to be paid amounts that would otherwise be paid or credited to benefit plans and arrangements in effect for his benefit for the two (or in the case of Mr. Houssian, three) years following the termination of his employment.

Each employment contract provides for the payment to the Named Executive Officer of the amounts referred to above in the event the Named Executive Officer resigns in certain circumstances including a significant change in his responsibilities or in certain circumstances following a change in control of Intrawest. Each contract also provides that the period of reasonable notice of termination for the Named Executive Officer under the LTIP in such event will be three years in the case of Mr. Houssian and two years in the case of the other Named Executive Officers.

In addition, as described under "Executive Long-Term Incentive Plan," the Named Executive Officers participate in the LTIP and will be entitled to receive payments thereunder at the termination of their employment, as described under that heading.

21

The amount of the payments required to be made under the employment contracts can only be determined at the time such payments are made.

- (2) In addition, the Corporation has authorized a total of 100,000 Common Shares that remain available for issuance under Intrawest's Employee Share Purchase Plan. Intrawest has not issued shares pursuant to this plan since December 1997.

There is no compensation plan under which equity securities of Intrawest are authorized for issuance that was adopted without approval of securityholders.

All new equity compensation plans and material revisions to the terms of such plans are subject to approval by shareholders of Intrawest under the rules, requirements and policies of the TSX and the NYSE. Where, under such rules, requirements and policies, equity compensation plans are not subject to shareholder approval, the plans must be approved by the Human Resources Committee and the Board.

STOCK OPTION PLAN

Intrawest has a Stock Option Plan (herein referred to as the "Stock Option Plan" or the "Plan") under which the Human Resources Committee is authorized, in its discretion, to grant options to purchase Common Shares to senior officers and employees of Intrawest, its subsidiaries and limited partnerships of which the general partner is Intrawest or a subsidiary of Intrawest.

The following table sets out the total number of Common Shares which may be issued from and after the date of this Circular pursuant to options granted under the Plan, the number of Common Shares potentially issuable pursuant to options outstanding and unexercised under the Plan, and the remaining number of Common Shares available to be issued pursuant to options granted from and after the date of this Circular.

(2) Approximate percentage of the 3,941,218 total number of Common Shares which may be issued from and after the date of this Information Circular referred to in the first column.

22

The maximum number of Common Shares which may be reserved for issuance to "insiders" pursuant to options granted under the Plan and any other "share compensation arrangement," or issued to insiders under the Plan and any other share compensation arrangement within a one-year period, is 10% of the number of Common Shares outstanding. The maximum number of Common Shares that may be issued to any one insider under the Plan and any other share compensation arrangement within a one-year period is 5% of the number of Common Shares outstanding. For the purposes of the foregoing (i) "insider" means an insider of Intrawest, as defined under applicable securities laws (other than a person who falls within that definition solely by virtue of being a director or senior officer of a subsidiary) and an associate of any such insider; (ii) "share compensation arrangement" means any stock option, stock option plan, employee share purchase plan or other compensation or incentive mechanism involving the issuance or potential issuance of Common Shares to one or more employees or insiders of Intrawest or any of its subsidiaries or other persons engaged to provide ongoing management or consulting services for Intrawest or for an entity controlled by Intrawest (including a share purchase from treasury that is financially assisted by Intrawest; (iii) any entitlement to acquire Common Shares granted pursuant to the Plan or any other share compensation arrangement prior to the grantee becoming an insider is excluded; and (iv) the number of Common Shares outstanding is to be determined on a non-diluted basis and on the basis of the number of Common Shares outstanding at the time of the reservation or issuance, as the case may be, excluding Common Shares issued under the Plan or under any other share compensation arrangement over the preceding one-year period. The aggregate number of Common Shares reserved for issuance to any participant pursuant to all options granted to such participant may not exceed 5% of the number of Common Shares that are outstanding immediately after giving effect to any option grant.

The exercise price for each option granted under the Plan will be determined by the Human Resources Committee which may not be less than the closing price for the Common Shares on the TSX on the trading day preceding the date of grant (or if no trade of Common Shares occurred on the TSX on such date, the simple average of the high and low board lot trading prices per share for the Common Shares on the TSX on the five trading days immediately preceding such date on which trade of a board lot of Common Shares occurred).

Subject to certain limitations contained in the Plan, options to acquire Common Shares may, at the discretion of the Human Resources Committee, provide that the option may not be exercised except in accordance with such limitations based on the passage of time after the option is granted, the satisfaction of specified performance criteria relating generally to Intrawest or particularly

Edgar Filing: INTRAWEST CORP - Form 6-K

to the optionee, or the satisfaction or fulfilment of any other conditions (or any combination of the foregoing), and subject to such provisions as the Human Resources Committee may in its discretion determine to be appropriate. Each option will expire on the earlier of (i) the date determined by the Human Resources Committee, provided that such date may not be later than the earlier of (A) the tenth anniversary of the date of grant; and (B) the latest date permitted under the applicable rules and regulations of all regulatory authorities, including the TSX and the NYSE, and (ii) the date which is the 90th day after the date on which the optionee ceases to be a senior officer or employee of Intrawest or a subsidiary of Intrawest. Each option outstanding under the Plan expires, in the ordinary course, ten years after the date of the grant.

Typically, most options granted under the Plan cannot be exercised until the expiry of one year from the date of grant. Thereafter, during each of the next five succeeding years, up to 20% of the Common Shares subject to option can be purchased on a cumulative basis. The Human Resources Committee may, in its discretion, permit early exercise of options. Options are not assignable or transferable and are exercisable only by the optionee or his or her legal representative.

In the event of a formal takeover bid being made for the Common Shares, any option may, notwithstanding the times specified for exercise, be exercisable in full for the purpose of tendering the Common Shares under such bid. In the event of an amalgamation, arrangement, consolidation or other transaction pursuant to which the interest of holders of Common Shares may be compulsorily terminated, Intrawest may terminate options granted under the Plan and pay the holder the fair value of the option.

The Plan provides that the Human Resources Committee has the right at any time to amend the Plan. Any such amendment is subject to applicable stock exchange requirements. TSX and NYSE requirements require shareholder approval for certain material amendments to the Plan.

FUNDED SENIOR EMPLOYEE SHARE PURCHASE PLAN

Intrawest has a Funded Senior Employee Share Purchase Plan that was adopted in 2002. Under this plan Intrawest may make loans to designated eligible employees to be used for the purchase of Common Shares in the open market. Shares are purchased by Computershare Trust Company of Canada as trustee to be held in trust for the benefit of the employees and as security for the loans. The Plan is administered by the Human Resources Committee, which is authorized to designate as eligible employees any bona fide full-time employees of Intrawest and of designated subsidiaries of Intrawest. The loans are interest-free and are for terms of up to ten years as determined by the Human Resources Committee. Intrawest pays all administrative expenses of the Plan, including trustee fees.

In addition to the Funded Senior Employee Share Purchase Plan, Intrawest makes contributions on behalf of participants in Intrawest's employee share purchase plans which amounts are used by a trustee to purchase Common Shares in the open market.

The following table sets forth indebtedness of directors and executive officers in connection with the purchase of Common Shares under the 2002 Funded Share Purchase Plan. IF A SHAREHOLDER DOES NOT WANT TO APPOINT EITHER PERSON SO NAMED, THE SHAREHOLDER SHOULD INSERT IN THE BLANK SPACE PROVIDED THE NAME AND ADDRESS OF THE PERSON WHOM THE SHAREHOLDER WISHES TO APPOINT AS PROXYHOLDER. THAT PERSON NEED NOT BE A SHAREHOLDER OF THE CORPORATION.

A shareholder who has given a proxy may revoke it by (a) signing a proxy bearing a later date and depositing it as provided under "Deposit of Proxy," below; (b) signing and dating a written notice of revocation (in the same manner as the enclosed form of proxy is required to be executed, as set out under "Validity of Proxy," below) and depositing such notice either at the registered office of the Corporation, P.O. Box 10424, Pacific Centre,

Suite 1300 - 777 Dunsmuir Street, Vancouver, British Columbia, Canada V7Y 1K2, Attention: Trevor Bell at any time up to and including the last business day preceding the day of the Meeting or with the chairman of the Meeting on the day of the Meeting, (c) attending the Meeting in person and registering with the scrutineer thereat as a shareholder present in person and signing and dating a written notice of revocation or (d) in any other manner permitted by law. Such revocation will have effect only in respect of those matters upon which a vote has not already been cast pursuant to the authority conferred by the proxy.

VOTING OF SHARES REPRESENTED BY PROXY

A proxy in the form of the enclosed form of proxy will confer discretionary authority upon a proxyholder named therein with respect to the matters identified in the enclosed Notice of Annual Meeting and in the form of proxy for which no choice is specified (and with respect to amendments and variations thereto and any other matter that may properly be brought before the Meeting).

The shares of a shareholder represented by proxy will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for and, if the shareholder specifies with certainty a choice with respect to any matter to be acted upon, the shares of the shareholder will be voted accordingly.

In accordance with the rules of the New York Stock Exchange, brokers and nominees may be precluded from exercising their voting discretion with respect to certain matters to be acted upon (e.g., any proposal which would substantially affect the rights or privileges of the Common Shares or adoption or revision of equity compensation plans) and thus, in the absence of specific instructions from the beneficial owner of shares, will not be empowered to vote the shares on such matters. A broker non-vote will not be counted in determining the number of shares necessary for approval of the proposals. Shares represented by such broker non-votes will, however, be counted for purposes of determining whether there is a quorum.

IF NO CHOICE IS SPECIFIED BY A SHAREHOLDER IN A PROXY WITH RESPECT TO A MATTER IDENTIFIED THEREIN AND ONE OF THE PERSONS NAMED IN THE ENCLOSED FORM OF PROXY IS APPOINTED AS PROXYHOLDER, THE SHARES OF THE SHAREHOLDER REPRESENTED BY THE PROXY WILL BE VOTED IN FAVOR OF SUCH MATTER.

VALIDITY OF PROXY

A PROXY WILL NOT BE VALID UNLESS IT IS DATED AND SIGNED BY THE SHAREHOLDER OR BY THE SHAREHOLDER'S ATTORNEY DULY AUTHORIZED IN WRITING. IN THE CASE OF A SHAREHOLDER THAT IS A CORPORATION, A PROXY WILL NOT BE VALID UNLESS IT IS EXECUTED UNDER ITS SEAL OR BY A DULY AUTHORIZED OFFICER OR AGENT OF, OR ATTORNEY FOR, SUCH CORPORATE SHAREHOLDER. IF A PROXY IS EXECUTED BY AN ATTORNEY OR AGENT FOR AN INDIVIDUAL SHAREHOLDER OR JOINT SHAREHOLDERS, OR BY AN OFFICER, ATTORNEY, AGENT OR OTHER AUTHORITY FOR A CORPORATE SHAREHOLDER, THE INSTRUMENT EMPOWERING THE OFFICER, ATTORNEY OR AGENT, AS THE CASE MAY BE, OR A NOTARIAL COPY THEREOF, SHOULD ACCOMPANY THE PROXY.

A vote cast in accordance with the terms of a proxy will be valid notwithstanding the previous death, incapacity or bankruptcy of the shareholder or intermediary on whose behalf the proxy was given or the revocation of the appointment, unless written notice of such death, incapacity, bankruptcy or revocation is received by the chairman of the Meeting at any time before the vote is cast.

Edgar Filing: INTRAWEST CORP - Form 6-K

DEPOSIT OF PROXY

IN ORDER TO BE VALID AND EFFECTIVE, PROXIES MUST BE DEPOSITED WITH CIBC MELLON TRUST COMPANY, 1066 WEST HASTINGS STREET, SUITE 1600, THE OCEANIC PLAZA, VANCOUVER, BRITISH COLUMBIA, CANADA V6E 3X1 BY NO LATER THAN 11:00 A.M. (VANCOUVER TIME) ON NOVEMBER 4, 2005.

NON-REGISTERED SHAREHOLDERS

Non-registered shareholders whose shares may be registered in the name of a third party, such as a broker or trust company, may exercise voting rights attached to shares beneficially owned by them. Applicable securities laws require intermediaries, or the Corporation, if it directly sends materials to non-registered holders, to seek voting instructions from non-registered shareholders. Accordingly, unless a non-registered shareholder has previously instructed their intermediaries that they do not wish to receive materials relating to shareholders' meetings, non-registered shareholders should receive or have already received from the Corporation or their intermediary either a request for voting instructions or a proxy form. In either case, non-registered shareholders have the right to exercise voting rights attached to shares owned by them, including the right to attend and vote the shares directly at

26

the Meeting. These securityholder materials are being sent to both registered and non-registered owners of the securities. If you are a non-registered owner, and Intrawest or its agent has sent these materials directly to you, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf.

There are two kinds of non-registered owners of Common Shares -- those who object to their name being made known to the Corporation (called OBOs or Objecting Beneficial Owners) and those who do not object to the Corporation knowing who they are (called NOBOs or Non-Objecting Beneficial Owners). After September 1, 2004, Canadian securities laws permit the Corporation to request and obtain a list of its NOBOs from intermediaries and use that list to distribute proxy-related materials directly to NOBOs. Intrawest has decided to take advantage of these provisions.

By choosing to send these materials to you directly, Intrawest (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. As a result, if you are a NOBO, you can expect to receive a Voting Instructions Form ("VIF") from CIBC Mellon Trust Company (the "Transfer Agent"), or one of its affiliates. Please return your voting instructions as specified in the request for voting instructions. The Transfer Agent will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting with respect to the Common Shares represented by the VIFs they receive.

If you wish to attend the Meeting and vote in person, or appoint another person to attend and vote on your behalf, write your name, or the name of your appointee, in the place provided for that purpose in the VIF.

If you are an OBO, you should receive or have already received from your intermediary either a request for voting instructions or a proxy form. Intermediaries have their own mailing procedures and provide their own instructions. These procedures may allow voting by telephone, on the Internet, by mail or by fax. In these circumstances the non-registered holder should follow the procedure in the directions and instructions provided by or on behalf

Edgar Filing: INTRAWEST CORP - Form 6-K

of the intermediary and insert their name in the space provided on the request for voting instructions or proxy form or request a form of proxy that will grant the non-registered holder the right to attend the meeting and vote in person. Non-registered shareholders should carefully follow the directions and instructions of their intermediary, including those regarding when and where the completed request for voting instructions or form of proxy is to be delivered.

Only registered shareholders have the right to revoke a proxy. Non-registered shareholders who wish to change their vote must, in sufficient time in advance of the Meeting, arrange for their intermediaries to change the vote and if necessary revoke their proxy.

AMENDMENTS OR VARIATIONS AND OTHER MATTERS

The management of Intrawest is not now aware of any amendments to or variations of any of the matters identified in the enclosed Notice of Annual Meeting nor of any other matter which may be brought before the Meeting. However, a proxy in the form of the enclosed form will confer discretionary authority upon a proxyholder named therein to vote on any amendments to or variations of any of the matters identified in the enclosed Notice of Annual Meeting and on any other matter which may properly be brought before the Meeting.

VOTING SHARES AND PRINCIPAL HOLDERS OF VOTING SHARES

Intrawest has issued and there are outstanding 48,308,026 Common Shares. Holders of Common Shares are entitled to one vote for each Common Share held. Shareholders of record at the close of business on September 22, 2005 are entitled to receive notice of and to attend and vote at the Meeting.

To the knowledge of the directors and executive officers of Intrawest, there is no person who beneficially owns, directly or indirectly, or exercises control or direction over, Common Shares carrying 10% or more of the voting rights attached to all voting securities of Intrawest.
