MANAGEMENT PROXY CIRCULAR

SOLICITATION OF PROXIES

This Management Proxy Circular is furnished to the holders of common shares (shareholders) of IVANHOE MINES LTD. (the Corporation) by management of the Corporation in connection with the solicitation of proxies to be voted at the Annual General Meeting (the Meeting) of the shareholders to be held at 9:00 AM, local time, on May 9, 2008 in the President s Room of the Terminal City Club located at 837 W. Hastings Street, Vancouver, British Columbia, and at any adjournment thereof, for the purposes set forth in the Notice of Meeting.

The solicitation of proxies by management will be primarily by mail, but proxies may be solicited personally or by telephone by directors, officers and regular employees of the Corporation. All costs of this solicitation will be borne by the Corporation.

The Board of Directors of the Corporation has fixed the close of business on March 24, 2008 as the record date, being the date for the determination of the registered shareholders entitled to receive notice of, and to vote at, the Meeting (the Record Date).

Unless otherwise stated, the information contained in this Management Proxy Circular is as of March 27, 2008. All dollar amounts are expressed in Canadian dollars (Cdn.\$) or United States dollars (U.S.\$) as indicated.

APPOINTMENT OF PROXYHOLDERS

A shareholder entitled to vote at the Meeting may, by means of a proxy, appoint a proxyholder or one or more alternate proxyholders, who need not be shareholders, to attend and act at the Meeting for the shareholder and on the shareholder s behalf.

The individuals named in the enclosed form of proxy are directors and/or officers of the Corporation. **A shareholder may appoint, as proxyholder or alternate proxyholder, a person or persons other than any of the persons designated in the enclosed form of proxy, and may do so either by inserting the name or names of such persons in the blank space provided in the enclosed form of proxy or by completing another proper form of proxy.**

A shareholder forwarding the enclosed proxy may indicate the manner in which the appointee is to vote with respect to any specific item by checking the appropriate space. If the shareholder giving the proxy wishes to confer a discretionary authority with respect to any item of business, then the space opposite the item is to be left blank. The shares represented by the proxy submitted by a shareholder will be voted in accordance with the directions, if any, given in the proxy.

An appointment of a proxyholder or alternate proxyholders will not be valid unless a form of proxy making the appointment, signed by the shareholder or by an attorney of the shareholder authorized in writing, (a Proxy) is deposited with CIBC Mellon Trust Company, by facsimile to (416) 368-3976 or 1-866-781-3111, by mail to P.O. Box 1900, Vancouver, British Columbia, V6E 3X1 or P.O. Box 721, Agincourt, Ontario, M1S 0A1, or by hand to The Oceanic Plaza, 1600 1066 Hastings Street, Vancouver, British Columbia, V6E 3K9 or 320 Bay Street, Banking Hall Level, Toronto, Ontario, M5H 4A6, and received by CIBC Mellon Trust Company not less than 48 hours (excluding Saturdays, Sundays and statutory holidays) before the Meeting or the adjournment thereof at which the proxy is to be used.

REVOCATION OF PROXIES

A shareholder who has given a Proxy may revoke the Proxy

- (a) by depositing an instrument in writing executed by the shareholder or by the shareholder's attorney authorized in writing
 - (i) with CIBC Mellon Trust Company, not less than 48 hours (excluding Saturdays, Sundays and statutory holidays) before the Meeting or the adjournment thereof at which the Proxy is to be used,
 - (ii) at the registered office of the Corporation at any time up to and including the last business day preceding the day of the Meeting, or an adjournment thereof, at which the Proxy is to be used,
 - (iii) with the chairman of the Meeting on the day of the Meeting or an adjournment thereof, or
- (b) in any other manner provided by law.

A revocation of a Proxy will not affect a matter on which a vote is taken before the revocation.

EXERCISE OF DISCRETION

The persons named in the enclosed form of proxy will vote or withhold from voting the shares in respect of which they are appointed in accordance with the direction of the shareholders appointing them. **In the absence of such direction in respect of a particular matter, such shares will be voted in favour of such matter. The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting.** As of the date of this Management Proxy Circular, management of the Corporation knows of no such amendments, variations or other matters to come before the Meeting. However, if any other matters which are not now known to management should properly come before the Meeting, the proxy will be voted on such matters in accordance with the best judgment of the named proxies.

VOTES NECESSARY TO PASS RESOLUTIONS

The Corporation's by-laws provide that the quorum for the transaction of business at the Meeting is at least one individual present at the commencement of the Meeting holding, or representing by form of proxy the holder or holders of, common shares carrying, in the aggregate, not less than thirty-three and one-third percent (33-1/3%) of the votes eligible to be cast at the Meeting.

Under the *Yukon Business Corporations Act* (the "YBCA") a majority of the votes cast by shareholders at the Meeting is required to pass an ordinary resolution and a majority of two-thirds of the votes cast at the Meeting is required to pass a special resolution.

Shareholders will also be asked to elect directors and appoint auditors for the ensuing year. If there are more nominees for election as directors or appointment as the Corporation's auditors than there are vacancies to fill, those nominees receiving the greatest number of votes will be elected or appointed, as the case may be, until all such vacancies have been filled. If the number of nominees for election or appointment is equal to the number of vacancies to be filled, all such nominees will be declared elected or appointed by acclamation.

VOTING BY NON-REGISTERED SHAREHOLDERS

Only registered shareholders of the Corporation or the persons they appoint as their proxies are permitted to vote at the Meeting. Most shareholders of the Corporation are non-registered shareholders (Non-Registered Shareholders) because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. Shares beneficially owned by a Non-Registered Shareholder are registered either:

- (i) in the name of an intermediary (an Intermediary) that the Non-Registered Shareholder deals with in respect of the shares of the Corporation (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans); or
- (ii) in the name of a clearing agency (such as The Canadian Depository for Securities Limited) of which the Intermediary is a participant.

In accordance with applicable securities law requirements, the Corporation will have distributed copies of the Notice of Meeting, this Management Proxy Circular, the form of proxy and the request form (collectively, the Meeting Materials) to the clearing agencies and Intermediaries for distribution to Non-Registered Shareholders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Shareholders unless a Non-Registered Shareholder has waived the right to receive them. Intermediaries often use service companies to forward the Meeting Materials to Non-Registered Shareholders. Generally, Non-Registered Shareholders who have not waived the right to receive Meeting Materials will either be given:

- (a) a voting instruction form **which is not signed by the Intermediary** and which, when properly completed and signed by the Non-Registered Shareholder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a voting instruction form)

which the Intermediary must follow. Typically, the voting instruction form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the voting instruction form will consist of a regular printed proxy form accompanied by a page of instructions which contains a removable label with a bar-code and other information. In order for the form of proxy to validly constitute a voting instruction form, the Non-Registered Shareholder must remove the label from the instructions and affix it to the form of proxy, properly complete and sign the form of proxy and submit it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company; or

- (b) a form of proxy **which has already been signed by the Intermediary** (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Shareholder but which is otherwise not completed by the Intermediary. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Shareholder when submitting the proxy. In this case, the Non-Registered Shareholder who wishes to submit a proxy should properly complete the form of proxy and deposit it with the Corporation, c/o CIBC Mellon Trust Company, The Oceanic Plaza, 1600 1066 Hastings Street, Vancouver, British Columbia, V6E 3K9 or 320 Bay Street, Banking Hall Level, Toronto, Ontario, M5H 4A6.

In either case, the purpose of these procedures is to permit Non-Registered Shareholders to direct the voting of the shares of the Corporation they beneficially own. Should a Non-Registered Shareholder who receives one of the above forms wish to vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Shareholder), the Non-Registered Shareholder should strike out the persons named in the form of proxy and insert the Non-Registered Shareholder or such other person's name in the blank space provided. **In either case, Non-Registered Shareholders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or voting instruction form is to be delivered.**

A Non-Registered Shareholder may revoke a form of proxy or voting instruction form given to an Intermediary by contacting the Intermediary through which the Non-Registered Shareholder's common shares of the Corporation are held and following the instructions of the intermediary respecting the revocation of proxies. In order to ensure that an Intermediary acts upon a revocation of a proxy form or voting instruction form, the written notice should be received by the Intermediary well in advance of the Meeting.

VOTING SHARES AND PRINCIPAL HOLDERS

The Corporation's authorized capital consists of an unlimited number of Common Shares without par value and an unlimited number of Preferred Shares without par value.

- (a) the shareholder has transferred the ownership of any such share after the Record Date, and
- (b) the transferee produces a properly endorsed share certificate for, or otherwise establishes ownership of, any of the transferred shares and makes a demand to CIBC Mellon Trust Company no later than 10 days before the Meeting that the transferee's name be included in the list of shareholders in respect thereof.

The Designated Member is a member of the Audit Committee who has been given the authority to grant pre-approvals of permitted audit and non-audit services.

The Audit Committee has considered whether the provision of services other than audit services is compatible with maintaining the auditors' independence and has adopted a policy governing the provision of these services. The Corporation is a party to cost sharing agreements with other companies in which Mr. Friedland has a material direct or indirect beneficial interest. Through these agreements, the Corporation shares, on a cost-recovery basis, office space, furnishings, equipment and communications facilities in Vancouver, Singapore, Beijing and London, and an aircraft. The Corporation also shares the costs of employing administrative and non-executive management personnel in these offices. During the year ended December 31, 2007, the Corporation's share of these costs was U.S.\$13.4 million. Report on Executive Compensation

Compensation and Benefits Committee and Approach to Executive Compensation

The Compensation and Benefits Committee is established by the Board to assist the Board in fulfilling its responsibilities relating to compensation issues and human resources. The members of the Compensation and Benefits Committee are all independent directors. The Compensation and Benefits Committee ensures that the Corporation has an executive management compensation plan that is both competitive and motivational so that it will attract, retain and inspire performance of its executive management of a quality and nature that will enhance the sustainable growth and success of the Corporation.

The Compensation and Benefits Committee reviews and recommends the compensation philosophy and guidelines for the Corporation which include reviewing, for recommendation to the Board, compensation of executive officers and employees, including annual salary and incentive policies and programs, and material changes to the Corporation's benefit programs. The Compensation Committee bases its recommendations on its compensation principles and on the performance of the individual and the Corporation.

The Compensation and Benefits Committee annually reviews the cash compensation, performance and overall compensation package for each of the Corporation's executive officers. It makes recommendations to the Board concerning the base salary, bonus and equity incentive arrangements for the executive and senior officers.

The basic philosophy underlying the Corporation's executive compensation program is to provide fair, transparent and defensible compensation, to facilitate the attraction, motivation and retention of high quality executive talent, to ensure a strong link between compensation levels and performance in relation to the Corporation's key short-term and long-term performance metrics, to encourage and reward high performance, and to align the executives' interests with the Company's shareholders.

The compensation of the Corporation's executive officers is comprised of three principal components - base salary, annual performance bonuses in cash or fully paid Common Shares, and long term equity incentives. The Corporation does not maintain a pension plan or other long term compensation plan for its executive and senior officers.

Executive and senior officers are eligible to participate in the Corporation's Share Purchase Plan under the Corporation's Employees' and Directors' Incentive Plan.

The Compensation and Benefits Committee engaged Mercer (Canada) Limited (Mercer) to prepare a model for executive compensation for the Corporation and to provide support to the Committee in determining compensation for the Corporation's officers during the most recently completed fiscal year. This model was approved by the Compensation and Benefits Committee in October, 2007 and was formally adopted by the Board of Directors of the Corporation in March, 2008. Decisions made by the Compensation and Benefits Committee are the responsibility of the Committee and may reflect factors and considerations other than the information and recommendations provided by Mercer.

Under the new formalized plan, compensation levels are determined based on a review of market compensation practices for comparable jobs within other mining and natural resources companies of a comparable size to the Corporation with significant project development activities and/or operations in complex, international locations. Within this comparator group, the Corporation will strive to target the market median for base salary, annual incentive and long-term incentive compensation with the ability to deliver compensation at a higher percentile of the market when performance warrants through the Corporation's annual and long-term incentive programs.

Prior to formal adoption of the executive compensation plan in March 2008, many of the essential elements of the plan were incorporated into earlier executive compensation recommendations made by the Compensation and Benefits Committee, including during 2007. However, in formally adopting the new executive compensation plan, the Compensation and Benefits Committee intends to apply the principles of this formalized plan in a more consistent fashion with the goal of bringing more structure and effectiveness to the compensation review process for executives. While it has not been a formal requirement of the Corporation, the Corporation's executives have been encouraged to hold a share ownership position in the Corporation. Consistent with market practices and to ensure alignment of the interests of the Corporation's executives with shareholders, guidelines set out in the new formalized plan provide that executive officers will be expected, within three years after adoption of the new compensation plan, to hold a multiple of their current base salary in Common Shares of the Corporation. The President and CEO will be expected to own the equivalent of two times base salary and the other executive officers will be expected to hold the equivalent of one times base salary.

Base Salary

In determining the base salary for its executive officers prior to the formalized plan, the Compensation and Benefits Committee placed approximately equal weight on the following factors: (i) the executive's overall performance; (ii) the experience level of the executive officer; (iii) the particular responsibilities related to the executive officer's position; and (iv) salaries paid by the Corporation's peer compensation group at the time. Base salaries generally, and bonuses in particular, were at the relatively low end of the scale compared to industry peers, with a greater emphasis placed on incentive stock options.

In the last several years, a number of adjustments have been made to bring base salaries into line with the market. Under the formalized plan, base salary will be based on relevant data from the comparator group and target pay is positioned at the market median for base salary. As a general guideline for the administration of salaries, new

executives will typically be paid a salary between 80% and 90% of the target salary, executives that consistently meet all job expectations should be paid a salary within 90% and 110% of the target salary, and executives that consistently demonstrate superior performance should be paid a salary of 110% to 120% of the target. Actual salaries and salary ranges are reviewed on an annual basis in conjunction with an annual performance review and, subject to economic considerations, salary adjustments will normally be considered based on an executive's performance, improvements in job proficiency, retention risks, succession requirements and compensation changes in the market.

During 2007, the Compensation and Benefits Committee made certain market-related adjustments to the salaries of executive officers, including Named Executive Officers as part of its annual review process, in recognition of the competitive environment for capable mining executives and in connection with the entering into of certain new employment contracts. These included adjustments commencing January 2008 to the annual salaries of John Macken, CEO and President (to US\$635,000), Peter Meredith, Deputy Chairman (to \$500,000) and Tony Giardini, Chief Financial Officer (to \$300,000). See Executive Compensation Summary Compensation Table above and Chief Executive Compensation below.

Bonus Payments

Executive officers are eligible for annual incentive compensation in the form of a bonus which is paid in Common Shares or cash. Under the new formalized plan, to conserve cash the Compensation and Benefits Committee will endeavour to settle such annual incentive awards in shares of the Corporation

Target awards (as a percentage of base salary) under the formalized plan are based on relevant market data for the comparator group and target pay positioning at the market median for total cash compensation (base salary plus annual incentive compensation). Target awards will be paid when performance meets expectations, and such awards will be adjusted upwards or downwards where performance exceeds or is less than expectations, respectively. Annual incentive awards are based on the assessment of performance of a combination of company, business unit and individual performance objectives determined early in the fiscal year. Corporate performance is assessed relative to objectives such as achievement of milestones in connection with the Corporation's Oyu Tolgoi project, expansion of mineral resource and reserves and performance and value of the Corporation's subsidiaries. Business unit performance is assessed on objectives that relate to the primary functions of the business unit and the key activities that support the broader corporate goals. Under the new formalized plan, for the most senior executives it is intended that the majority of the bonus will be based upon corporate performance with a smaller portion allocated to individual performance. For other senior executives the bonus will be based on a combination of corporate, business unit and individual performance. For other senior executives in operational roles a larger proportion of the bonus will be based on business unit performance.

During 2007, prior to formally implementing the targeted bonus approach of the new formalized plan, the Corporation awarded bonuses to the Corporation's executives in the aggregate amount of U.S.\$1,380,000 in a combination of cash and Common Shares. Included in these annual incentives were bonuses of U.S.\$500,000, paid one third in cash and two thirds in Common Shares, to each of Messrs Macken and Meredith in recognition of the important individual contributions of the President and CEO and Deputy Chairman, respectively, to the Corporation's current strategic goals and the importance generally of these executives to the Corporation at its current stage of development. A bonus of U.S.\$100,000 was awarded to each of Tony Giardini, Chief

Financial Officer, and Steve Garcia, Executive Vice President, in recognition of business unit and individual performance.

Long Term Incentives

Under the Corporation's compensation philosophy, an equity incentive component in the form of options is a key part of the executives overall compensation package, reflecting our belief that stock options offer an effective mechanism for incentivizing management and aligning the interests of our executive officers with those of our shareholders. Since we do not grant incentive stock options at a discount to the prevailing market price of the Corporation's Common Shares, the incentive stock options we grant to our executive officers accrete value only if, and to the extent that, the market price of the Corporation's Common Shares increases, thereby linking equity-based executive compensation to shareholder returns.

Equity based incentives awarded to our executive officers have been traditionally based on the Compensation and Benefit Committee's evaluation of each executive officer's ability to influence our long-term success and to reward outstanding individual performance and contributions. The Compensation and Benefits Committee has considered each executive's stock option position, peer comparison group benchmark and individual performance when determining how many new stock option grants will be made to an executive officer. Where appropriate, the Corporation has in the past included performance-based criteria as a key component of the vesting of stock option grants.

Under the new compensation plan, the Compensation and Benefit Committee will consider target long-term incentive awards as a percentage of base salary that would be offered to executives on an annual basis. The dollar value of the long-term incentive award is converted to the appropriate number of stock option at the time of the award using a valuation methodology and the details of the grant. It is intended that stock option grants will normally have terms of seven years and will be made to executive officers on an annual basis. Vesting of the stock options will generally be based on time, with 25% installments vesting on each anniversary of the date of grant. The Compensation and Benefit Committee may consider including performance contingent or performance accelerated vesting in the future.

During 2007 and prior to implementation of the targeted approach to long term incentives under the new formalized plan, the Corporation granted incentive stock options to employees, officers and directors exercisable to purchase a total of 2,915,500 Common Shares, representing approximately 0.77% per cent of the total number of Common Shares currently issued and outstanding on December 31, 2007. These grants were made in recognition both individual performance and the importance of retaining the Corporation's complement of executives given the competitive marketplace and to make appropriate adjustments to certain executive's overall stock option position. Included in these grants were stock options granted on November 7, 2007 to Mr. Meredith in respect of 1,000,000 Common Shares which expire on November 7, 2014 and on November 14, 2007 granted to Mr. Giardini in respect of 150,000 Common Shares, to Mr Garcia in respect of 150,000 Common Shares and to David Woodall, President, Gold Division in respect of 75,000 Common Shares, all of which expire on November 14, 2014.

Chief Executive Officer Compensation

The Compensation and Benefits Committee periodically review the terms of reference for the Corporation's Chief Executive Officer and recommends any changes to the Board

for approval. It reviews corporate goals and objectives with respect to the Chief Executive Officer's compensation and leads the Chief Executive Officer review process.

Based on the results of the Chief Executive Officer's evaluation, the committee recommends the Chief Executive Officer's overall compensation package to the Board. The components of total compensation for the Chief Executive Officer are the same as those which apply to other senior executive officers of the Corporation, namely, annual salary, performance bonus and long term incentives.

Mr. Macken, who assumed the role of Chief Executive Officer in May, 2006 in addition to his position as President, received a salary during 2007 of U.S.\$550,000. Commencing January 1, 2008, in connection with an amendment to Mr. Macken's employment contract, in recognition of the competitive environment for capable mining executives and as a corresponding market-related adjustment, Mr. Macken's annual salary was increased to US \$635,000. In addition, Mr. Macken received a bonus of US \$500,000 in recognition of the important individual contributions he is making to the Corporation's current strategic goals and his importance generally to the Corporation at its current stage of development.

Since Mr. Macken's appointment as Chief Executive Officer in May, 2006 until December 31, 2007, he has received total income of U.S.\$1,987,536 inclusive of salary (2007 U.S.\$550,000; May to December 2006 U.S.\$392,336), bonus (2007 U.S.\$500,000 paid in a combination of shares and cash; May to December 2006 U.S.\$500,000) and other income inclusive of life insurance premiums and share purchase plan. During this period, Mr. Macken did not realize any income from exercise of stock options.

EQUITY COMPENSATION PLAN INFORMATION

The following information respecting the Incentive Plan is presented as at December 31, 2007:

Plan Category	Number of Securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights (Cdn.\$)	Number of Securities remaining available for future issuance under equity compensation plans (excluding securities reflecting in column (a))
Equity compensation plans approved by securityholders	14,582,400	\$ 10.10	5,369,438
Equity compensation plans not approved by shareholders	Nil	Nil	Nil
Total	14,582,400	\$ 10.10	5,369,438

On the date of this Management Proxy Circular, there are 14,582,400 Common Shares issuable upon the exercise of outstanding options, representing approximately 3.9% of the Corporation's issued and outstanding share capital without giving effect to issuance of Common Shares upon exercise of the options.

Employees and Directors Equity Incentive Plan

The Corporation's Employees and Directors Equity Incentive Plan (the Plan) has three components: an Option Plan, which provides for the grant to eligible participants of incentive stock options exercisable to purchase Common Shares of the Corporation; a Bonus Plan, which provides for awards of fully paid Common Shares to eligible participants as and when determined to be warranted on the basis of past performance; and a Purchase Plan, under which eligible participants have the opportunity to purchase Common Shares through payroll deductions which are supplemented by Corporation contributions.

The eligible participants in the Plan include directors of the Corporation or any affiliate, any full time and part time employees (including officers) of the Corporation or any affiliate thereof that the Board determines to be employees eligible for participation in the Plan. Persons or companies engaged by the Corporation or an affiliate to provide services for an initial, renewable or extended period of 12 months or more are eligible for participation in the Plan as the Board determines.

The Plan is administered by the Compensation and Benefits Committee (the Committee) appointed by the Board.

Option Plan

Option Grants

The Option Plan authorizes the Board, on the recommendation of the Committee, to grant options to purchase Common Shares. The number of Common Shares, the exercise price per Common Share, the vesting period and any other terms and conditions of options granted pursuant to the Option Plan, from time to time are determined by the Board, on the recommendation of the Committee, at the time of the grant, subject to the defined parameters of the Option Plan.

The date of grant of options is the date that the Compensation and Benefits Committee approves such grant for recommendation to the Board, provided the Board approves such grant. For a grant of options not approved by the Compensation and Benefits Committee for recommendation to the Board, the date of grant of options is the date such grant was approved by the Board.

Exercise Price

The exercise price of any option granted under the Plan cannot be less than the weighted average price of the Common Shares on the Toronto Stock Exchange for the five days on which Common Shares were traded immediately preceding the date of grant.

Exercise Period and Vesting

Options are exercisable for a period of time determined by the Board not exceeding five years from the date the option is granted. Options may be earlier terminated in the event of death or termination of employment or appointment. Vesting of options is determined by the Board. Failing a specific vesting determination by the Board, options automatically become exercisable incrementally over a period of five years from the date of grant, as to one-fifth of the total number of shares under option in each such year. The right to exercise an option may be accelerated in the event a takeover bid in respect of the Common Shares is made. The Plan provides for an extension to the term for options that expire during a blackout period to ten days following such period. A blackout period exists in circumstances where material non-public information exists but has not yet been publicly disclosed, including periods where financial statements are being prepared but results have not been disclosed.

Cashless Exercise

Share appreciation rights may also be granted, at the discretion of the Board on the recommendation of the Committee, to an Optionee in conjunction with, or at any time following the grant of, an option. Share appreciation rights under the Plan effectively allow an Optionee to exercise an option on a cashless basis by electing to relinquish, in whole or in part, the right to exercise the option and receive, in lieu thereof, a number of fully paid Common Shares. The number of Common Shares issuable on the exercise of share appreciation rights is equal to the quotient obtained by dividing the difference between the aggregate fair market value and the aggregate option price of all Common Shares subject to the option by the fair market value of one (1) Common Share.

Financial Assistance

The Board may, in its discretion but subject to applicable law, authorize the Corporation to make loans to employees (excluding any director or executive officer) to assist them in exercising options. The terms of any such loans include security, in favour of the Corporation, in the Common Shares issued upon exercise of the options, which security may be granted on a non-recourse basis. No such loans are currently outstanding.

Termination or Death

If an optionee dies while employed by the Corporation, any option held by him will be exercisable for a period of 12 months or prior to the expiration of the options (whichever is sooner) by the person to whom the rights of the optionee shall pass by will or applicable laws of descent and distribution. If an optionee is terminated for cause, no option will be exercisable unless the Board determines otherwise. If an optionee is terminated for any reason other than cause, then the options will be exercisable for a period of 12 months or prior to the expiration of the options (whichever is sooner).

Bonus Plan

The Bonus Plan permits the Board on the recommendation of the Committee to authorize the issuance, from time to time, of Common Shares to employees and directors of the Corporation and its affiliates. The criteria for determining if and when such awards should be made and the quantum of such awards is within the discretion of the Board. The Bonus Plan provides for the issuance of a maximum of 3,500,000 Common Shares in respect of bonus awards. Common Shares allocated to the Bonus Plan may be reallocated for issuance under the Option Plan or Purchase Plan and are then no longer available for issuance under the Bonus Plan.

Purchase Plan

Participation Criteria

Participants in the Purchase Plan are full-time employees of the Corporation who have completed at least one year (or less, at the discretion of the Board on the recommendation of the Committee) of continuous service and who elect to participate.

Contribution Limits

Eligible employees are entitled to contribute up to seven per cent (7%) of their annual basic salary to the Share Purchase Plan in semi-monthly installments. The Corporation (at the discretion of the Board) makes a contribution of up to one hundred per cent (100%) of the employee's contribution on a quarterly basis.

Number of Shares

Each participant receives, at the end of each calendar quarter during which he or she participates in the Purchase Plan, a number of Common Shares equal to the quotient obtained by dividing the aggregate amount of all contributions to the Purchase Plan by the participant, and by the Corporation on the participant's behalf, during the preceding quarter by the weighted average trading price of the Common Shares on the Toronto Stock Exchange during the quarter.

Termination of Employment

If the participant's employment with the Corporation is terminated for any reason, any portion of the participant's contribution then held in trust for a participant pending a quarterly purchase of Common Shares is returned to him or her or to his or her estate.

Transferability

Benefits, rights and options under the Plan are non-transferable and during the lifetime of an Plan participant, may only be exercised by such participant.

Amendments to the Plan

Subject to regulatory approval, shareholder approval is required for the following amendments to the Plan:

- (i) an amendment to the aggregate number of Shares that may be reserved for issuance under the Plan;
- (ii) an amendment to the aggregate maximum number of Common Shares issuable under the Share Bonus Plan component of the Plan;
- (iii) an amendment to the limitations on the maximum number of Shares that may be reserved for issuance, or issued, to Insiders under the Plan;
- (iv) an amendment that would reduce the exercise price, or extend the expiry date, of an outstanding Option granted to an Insider under the Plan; or
- (v) an amendment to the amending provisions under the Plan.

Except for those foregoing matters requiring shareholder approval, the Board has the power to amend, suspend or terminate the Plan and awards made thereunder.

Share Issuance Limits

The aggregate maximum number of Common Shares which the Corporation may, from time to time, issue or reserve for issuance under the Plan is 37,000,000 Common Shares. The aggregate number of Common Shares which the Corporation may at any time reserve for issuance under the Plan to any one person may not exceed five per cent (5%), and to Insiders under the Plan may not exceed ten per cent (10%), of the issued and outstanding Common Shares at such time. The aggregate number of Common Shares that may be issued within any one-year period to Insiders under the Plan shall not exceed ten per cent (10%), and to any one Insider and his or her Associates under the Plan may not exceed five per cent (5%), of the issued and outstanding Common Shares at such time.

Securities Issued and Unissued under the Plan

There are currently 375,118,741 Common Shares of the Corporation issued and outstanding. Since the date of inception of the Plan on June 26, 1996, the 37,000,000 Common Shares authorized for issuance under the Plan have been issued or reserved for issuance as follows:

	Number of Common Shares	% of Issued and Outstanding Common Shares
Common Shares previously issued upon exercise of options under Option Plan	15,533,352	4.14%
Common Shares reserved for future issuance pursuant to unexercised options under Option Plan	14,584,400	3.89%
Common Shares previously issued pursuant to Purchase Plan	630,949	0.17%
Common Shares previously issued pursuant to Bonus Plan	883,861	0.24%
Unissued Common Shares available for future awards under Bonus Plan (1)	1,985,190	0.53%
Unissued Common Shares available for future option grants under Option Plan and purchases under Purchase Plan (1)	3,382,248	0.90%
Maximum number of Common Shares available for issuance	37,000,000	9.86%

(1) Unissued Bonus Plan shares are also available for future option grants under the Option Plan and purchases under the Purchase Plan. Any shares so granted cease to be available for issuance under the Bonus Plan.

There are no entitlements to Common Shares under the Plan which are subject to ratification by shareholders.

CORPORATE GOVERNANCE

The Board of Directors considers good corporate governance practices as an important factor in the continued and long term success of the Corporation by helping to maximize shareholder value over time.

Until June 30, 2005, the rules and policies of the TSX required corporations listed on the TSX to disclose their corporate governance practices with reference to a series of guidelines adopted by the TSX for effective corporate governance (the TSX Guidelines).

Following the enactment in the United States of the Sarbanes-Oxley Act of 2002 (the Sarbanes-Oxley Act), the TSX initiated a review of its proposed standards in light of new U.S. legislation and published for public comment

proposed amendments to the TSX Guidelines. However, in September 2003 the TSX announced that it would be

- 42 -

relinquishing responsibility for setting corporate governance standards to Canadian securities regulators.

In January 2004, the Canadian Securities Administrators (the CSA) announced new rules governing (among other things) the independence, competence and responsibility of audit committees, which rules are substantially similar to those adopted in the United States. These rules are set out in Multilateral Instrument 52-110 (the CSA Audit Committee Rules) and came into force on March 30, 2004. In April 2005, the CSA announced amendments to the CSA Audit Committee Rules designed to ensure the consistency of the definition of independence with that of the New York Stock Exchange's listing standards. These amendments took effect as of June 30, 2005.

The CSA Audit Committee Rules (with which the Corporation is in compliance) require:

a minimum three-member audit committee comprised solely of independent directors;

an audit committee charter that specifies certain specific audit committee responsibilities and authority, including, among other things:

the pre-approval of all audit services and permissible non-audit services; and

the sole authority to appoint, determine funding for and oversee the outside auditors.

The CSA also announced, in April 2005, the adoption of Multilateral Policy 58-201 and Multilateral Instrument 58-101 (collectively, the CSA Corporate Governance Disclosure Requirements), which took effect as of June 30, 2005. The CSA Corporate Governance Disclosure Requirements replaced the TSX Guidelines and apply to the Corporation's disclosure of its corporate governance practices for the year ended December 31, 2007. These requirements are substantially consistent with the revised corporate governance listing standards of the New York Stock Exchange. The CSA Corporate Governance Disclosure Requirements require the Corporation to make certain prescribed disclosures respecting its particular corporate governance practices and recommend a series of non-prescriptive corporate governance guidelines (the CSA Corporate Governance Guidelines) that Canadian public companies are encouraged to consider in developing their own corporate governance practices.

The Board of Directors has implemented several changes in its corporate governance procedures to reflect applicable Canadian and U.S. governance guidelines. As part of those changes the Board:

- (i) approved and adopted a new mandate for the Board;
- (ii) appointed an independent director as lead director, with specific responsibility for maintaining the independence of the Board and ensuring the Board carries out its responsibilities contemplated by applicable statutory and regulatory requirements and stock exchange listing standards;
- (iii) appointed a Corporate Governance and Nominating Committee consisting solely of independent directors;

- (iv) changed the membership of the Compensation and Benefits Committee to consist solely of independent directors instead of a majority of independent directors;
- (v) approved charters for each of the Corporation's Board committees, being the Audit Committee, the Compensation and Benefits Committee and the Corporate Governance and Nominating Committee, formalizing the mandates of those committees;
- (vi) established a management Disclosure Committee for the Corporation, with the mandate to oversee the Corporation's disclosure practices;
- (vii) formalized the Corporation's Corporate Disclosure, Confidentiality and Securities Trading Policy, and Disclosure Controls and Procedures;
- (viii) instituted regular meetings of non-management Directors by teleconference between regularly scheduled Board meetings;
- (ix) published and updated a Statement of Values and Responsibilities;
- (x) adopted a formal Code of Business Conduct and Ethics for the Corporation that governs the behaviour of directors, officers and employees;
- (xi) adopted formalized written position descriptions for the Chairman, Lead Director, chair of each Board committee, CEO and CFO, clearly defining their respective roles and responsibilities;
- (xii) adopted a whistleblower policy administered by an independent third party;
- (xiii) formalized a process for assessing the effectiveness of the Board as a whole, the committees of the Board and the contribution of individual directors, on a regular basis; and
- (xiv) adopted a new model for executive compensation for the Corporation.

The Corporation is engaged in an ongoing review of its corporate governance practices against the CSA Corporate Governance Guidelines. The Board intends to consider additional changes to its corporate governance practices with a view to furthering its adherence to the CSA Corporate Governance Guidelines.

The Corporation's Common Shares are listed on the New York Stock Exchange (NYSE) and quoted on the NASDAQ Stock Market (NASDAQ) and the Corporation is subject to applicable provisions of U.S. securities laws and regulations relating to corporate governance, which have been the subject of sweeping changes in recent years. Both as part of the Sarbanes-Oxley Act and independently, the SEC has enacted a number of new regulations relating to corporate governance standards for U.S. listed companies. In addition, the NYSE and NASDAQ have implemented numerous rule changes (the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules , respectively) that revise the corporate governance standards for NYSE and NASDAQ-listed companies.

THE CSA Audit Committee Rules, the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules, and the NASDAQ Corporate Governance Rules address, among other things, the composition and independence of Boards of directors and Board committees. The CSA Corporate Governance Guidelines are recommendations only and reflect a best practice standard to which Canadian public companies are encouraged to adhere. For example, the CSA Corporate Governance Guidelines recommend that a Board should be comprised of a majority of independent directors. On the other hand, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules are prescriptive and require that the Board of a NYSE or NASDAQ-listed company be comprised of a majority of independent directors.

Each of the Sarbanes-Oxley Act, the NYSE Corporate Governance Rules, the NASDAQ Corporate Governance Rules and the CSA Corporate Governance Guidelines define independence in a slightly different way. Although a finding of independence remains a matter of judgment and perception based on a particular director's circumstances, the Sarbanes-Oxley Act, the NYSE Corporate Governance Rules, the NASDAQ Corporate Governance Rules and the CSA Corporate Governance Guidelines prescribe certain per se bars to a finding of independence. In addition, there is a heightened independence requirement for members of audit committees under the Sarbanes-Oxley Act, the NYSE Corporate Governance Rules, the NASDAQ Corporate Governance Rules and the CSA Audit Committee Rules. Unlike the CSA Corporate Governance Guidelines, compliance with the requirements of the CSA Audit Committee Rules relating to the composition of audit committees and the heightened standard of independence for audit committee members is mandatory.

Subject to certain exceptions, including the requirement pertaining to the composition and independence of audit committees, foreign private issuers, like the Corporation, are exempt from any requirement of the NASDAQ Corporate Governance Rules and the NYSE Corporate Governance Rules which is contrary to a law, rule or regulation of any public authority exercising jurisdiction over such issuer or contrary to generally accepted business practices in the issuer's country of domicile. The Corporation believes that it is in full compliance with all of the applicable requirements of the CSA Audit Committee Rules and all requirements of the Sarbanes-Oxley Act, the NASDAQ Corporate Governance Rules and the NYSE Corporate Governance Rules applicable to foreign private issuers for which no exemption is available. The Corporation also believes that most, but not all, of its corporate governance practices are consistent with the CSA Corporate Governance Guidelines. The Corporation intends to continue its efforts to improve its corporate governance practices in order to make them wholly consistent with the CSA Corporate Governance Guidelines.

Board Composition

The CSA Corporate Governance Guidelines recommend that a majority of the directors of a corporation be independent directors. Under the CSA Corporate Governance Guidelines, the applicable provisions of the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules, an independent director is a director who has no direct or indirect material relationship with the Corporation, including as a partner, shareholder or officer of an organization that has a relationship with the Corporation. A material relationship is one that would, or in the view of the Board of Directors could, be reasonably expected to interfere with the exercise of a Director's independent judgment.

A total of eleven persons have been nominated for election as directors at the Meeting. The Board has determined that if all such nominees are elected, the Board will consist of six independent directors (as defined in the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules) and five non-independent directors, as follows:

**Independent Director
Nominees**

David Huberman

David Korbin

Markus Faber

Robert Hanson

Kjeld Thygesen

Howard Balloch

**Non-independent
Director Nominees**

Robert Friedland¹

John Macken¹

Peter Meredith¹

Bret Clayton²

Edward Flood³

- (1) Each of Messrs. Friedland, Macken and Meredith are non-independent director nominees in their capacities as senior officers or former senior officers of the Corporation and/or one or more of its subsidiaries and members or former members of management.
- (2) Mr. Clayton, an executive officer of Rio Tinto Group, is considered to be a non-independent director nominee as a result of the material relationship between the Corporation and the Rio Tinto

Group.

- (3) Mr. Flood resigned
as Deputy
Chairman on
February 14, 2007.

The Chairman of the Corporation holds approximately 26.91% and Rio Tinto holds approximately 9.89% of the Corporation's voting securities as of the date of this Management Proxy Circular. The Board has determined that the Corporation currently has six of eleven directors in David Huberman, Markus Faber, Robert Hanson, Kjeld Thygesen, Howard Balloch and David Korbin, all of whom are nominees of management for re-election as Directors at the Meeting, and Mr. John Weatherall, who is retiring as a Director at the Meeting, who are independent as defined in the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules of each of the Chairman of the Corporation and Rio Tinto. The Board believes that it includes a majority of directors who do not have an interest in or relationships with either the Corporation or its principal shareholders and which fairly reflects the investment in the Corporation by shareholders other than the principal shareholders.

The directors of the Corporation are satisfied with the size and composition of the Board and believe that the current Board composition results in a balanced representation on the Board of Directors among management, non-management directors, and the Corporation's major shareholder. While the Board functions effectively given the Corporation's stage of development and the size and complexity of its business, the Board, through its Corporate Governance and Nominating Committee, will continue to seek qualified candidates to augment its experience and expertise and to enhance the Corporation's ability to effectively develop its business interests.

Mandate of the Board

Under the YBCA, the directors of the Corporation are required to manage the Corporation's business and affairs, and in doing so to act honestly and in good faith with a view to the best interests of the Corporation. In addition, each director must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The Board of Directors is responsible for supervising the conduct of the Corporation's affairs and the management of its business. The Board's mandate includes setting long term goals and objectives for the Corporation, formulating the plans and strategies necessary to achieve those objectives and supervising senior management in their implementation. Although the Board delegates the responsibility for managing the day to day affairs of the Corporation to senior management personnel, the Board retains a supervisory role in respect of, and ultimate responsibility for, all matters relating to the Corporation and its business.

The Board's mandate requires that the Board be satisfied that the Corporation's senior management will manage the affairs of the Corporation in the best interest of the shareholders, in accordance with the Corporation's principles, and that the arrangements made for the management of the Corporation's business and affairs are consistent with their duties described above. The Board is responsible for protecting shareholder interests and ensuring that the incentives of the shareholders and of management are aligned. The obligation of the Board must be performed continuously, and not merely from time to time, and in times of crisis or emergency the Board may have to assume a more direct role in managing the affairs of the Corporation.

In discharging this responsibility, the Board's mandate provides that the Board oversees and monitors significant corporate plans and strategic initiatives. The Board's strategic planning process includes annual budget reviews and approvals, and discussions with management relating to strategic and budgetary issues. At least one Board meeting per year is to be devoted to a comprehensive review of strategic corporate plans proposed by management.

As part of its ongoing review of business operations, at each Board meeting the Board reviews the principal risks inherent in the Corporation's business, including financial risks, through periodic reports from management of such risks, and assesses the systems established to manage those risks. Directly and through the Audit Committee, the Board also assesses the integrity of internal control over financial reporting and management information systems. In addition to those matters that must, by law, be approved by the Board, the Board is required under its mandate to approve annual operating and capital budgets, any material dispositions, acquisitions and investments outside of the ordinary course of business or not provided for in the approved budgets, long-term strategy, organizational development plans and the appointment of senior executive officers. Management is authorized to act, without Board approval, on all ordinary course matters relating to the Corporation's business.

The mandate provides that the Board also expects management to provide the directors, on a timely basis, with information concerning the business and affairs of the Corporation, including financial and operating information and information concerning industry developments as they occur, all with a view to enabling the Board to discharge its stewardship obligations effectively. The Board expects management to efficiently implement its strategic plans for the Corporation, to keep the Board fully apprised of its progress in doing so and to be fully accountable to the Board in respect to all matters for which it has been assigned responsibility.

The Board has instructed management to maintain procedures to monitor and promptly address shareholder concerns and has directed and will continue to direct management to apprise the Board of any major concerns expressed by shareholders.

Each Committee of the Board is empowered to engage external advisors as it sees fit. Any individual director is entitled to engage an outside advisor at the expense of the Corporation provided such director has obtained the approval of the Corporate Governance and Nominating Committee to do so.

The Board has adopted a strategic planning process which involves, among other things, the following:

- (a) at least one meeting per year will be devoted substantially to review of strategic plans that are proposed by management;
- (b) meetings of the Board, at least quarterly, to discuss strategic planning issues, with and without members of management;
- (c) the Board reviews and assists management in forming short and long term objectives of the Corporation on an ongoing basis; and
- (d) the Board also maintains oversight of management's strategic planning initiatives through annual and quarterly budget reviews and approvals. The strategic planning process adopted by the Board takes into account, among other things, the opportunities and risks of the business.

In order to ensure that the principal business risks borne by the Corporation are identified and appropriately managed, the Board receives periodic reports from management of the Corporation's assessment and management of such risks. In conjunction with its review of operations which takes place at each Board meeting, the Board considers risk issues and approves corporate policies addressing the management of the risk of the Corporation's business.

The Board takes ultimate responsibility for the appointment and monitoring of the Corporation's senior management.

The Board approves the appointment of senior management and reviews their performance on an ongoing basis.

The Corporation has a disclosure policy addressing, among other things, how the Corporation interacts with analysts and the public, and contains measures for the Corporation to avoid selective disclosure. The Corporation has a Disclosure Committee responsible for overseeing the Corporation's disclosure practices. This committee consists of the Chief Executive Officer, the Chief Financial Officer, the Corporate Secretary and senior Corporate Communications and Investor Relations Department personnel, and receives advice from the Corporation's outside legal counsel. The Disclosure Committee assesses materiality and determines when developments justify public disclosure. The committee will review the disclosure policy annually and as otherwise needed to ensure compliance with regulatory requirements. The Board reviews and approves the Corporation's material disclosure documents, including its annual report, annual information form and management proxy circular. The Corporation's annual and quarterly financial statements, Management's Discussion and Analysis and other financial disclosure is reviewed by the Audit Committee and recommended to the Board prior to its release.

Meetings of the Board

The Board holds regular annual and quarterly meetings. Between the quarterly meetings, the Board meets as required, generally by means of telephone conferencing facilities. As part of the annual and quarterly meetings, the independent directors also have the opportunity to meet separate from management. Between each regularly

scheduled Board meeting, a meeting of non-management Directors, chaired by the Lead Director, is held by teleconference to update the Directors on corporate developments since the last Board meeting. Management also communicates informally with members of the Board on a regular basis, and solicits the advice of the Board members on matters falling within their special knowledge or experience.

Board Committees

The Corporation has an Audit Committee, Compensation and Benefits Committee, Corporate Governance and Nominating Committee, Currency Advisory Committee and an Executive Committee.

Audit Committee

The mandate of the Audit Committee is to oversee the Corporation's financial reporting obligations, systems and disclosure, including monitoring the integrity of the Corporation's financial statements, monitoring the independence and performance of the Corporation's external auditors and acting as a liaison between the Board and the Corporation's auditors. The activities of the Audit Committee typically include reviewing interim financial statements and annual financial statements, management discussion and analysis and earnings press releases before they are publicly disclosed, ensuring that internal controls over accounting and financial systems are maintained and that accurate financial information is disseminated to shareholders. Other responsibilities include reviewing the results of internal and external audits and any change in accounting procedures or policies, and evaluating the performance of the Corporation's auditors. The Audit Committee communicates directly with the Corporation's external auditors in order to discuss audit and related matters whenever appropriate.

The Audit Committee currently consists of Messrs. Korbin (Chair), Thygesen and Faber, all of whom are nominees of management for re-election as Directors at the Meeting, and Mr. John Weatherall, who is retiring as a Director at the Meeting. The CSA Audit Committee Rules provide for audit committees to consist solely of independent directors. All of Messrs. Korbin, Thygesen and Faber, and Mr. Weatherall, are independent directors for the purposes of the CSA Audit Committee Rules, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules, having regard to the heightened independence requirements applicable to audit committee members.

The Board has determined that all members of the Audit Committee are financially literate since each member has the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Corporation's financial statements.

Each of Messrs. Korbin (a nominee of management for re-election as a Director at the Meeting) and Weatherall (who is retiring as a Director at the Meeting) has been determined by the Board of Directors to be an Audit Committee Financial Expert, as such term is defined in the U.S. Securities Exchange Act of 1934, as amended. The Corporation believes that each of Mr. Korbin, a Chartered Accountant with over 30 years experience as an auditor with a major accounting firm and Mr. Weatherall, a Chartered Financial Analyst, with over 40 years experience as an investment analyst, who also has experience as a portfolio manager, are qualified to be an Audit Committee Financial Expert.

The Corporation has adopted an Audit Committee charter which codifies the mandate of the Audit Committee to, and specifically defines its relationship with, and expectations of, the external auditors, including the establishment of the independence of the external auditor and the approval of any non-audit mandates of the external auditor; the engagement, evaluation, remuneration and termination of the external auditor; its relationship with, and expectations of, the internal auditor function and its oversight of internal control; and the disclosure of financial and related information. The Board will review and reassess the adequacy of the Audit Committee charter on an annual basis. The Audit Committee has regular access to the Chief Financial Officer of the Corporation. The external auditors regularly attend all meetings of the Audit Committee. At each meeting of the Audit Committee, a portion of the meeting is set aside to discuss matters with the external auditors without management being present. In addition, the Audit Committee has the authority to call a meeting with the external auditors without management being present, at the Committee's discretion. Additional information regarding the Audit Committee is located in the Directors and Officers section of the Corporation's Annual Information Form.

Compensation and Benefits Committee

The role of the Compensation and Benefits Committee is primarily to review the adequacy and form of compensation of senior management and the directors with such compensation realistically reflecting the responsibilities and risks of such positions, to administer the Corporation's Employees' and Directors' Equity Incentive Plan, to determine the recipients of, and the nature and size of share compensation awards granted from time to time, to determine the remuneration of executive officers and to determine any bonuses to be awarded.

The Compensation and Benefits Committee currently consists of Messrs. Huberman (Chair), Thygesen, Hanson, Korbin and Balloch. Each member of the committee qualifies as an independent director for the purposes of the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee is responsible for making recommendations to the Board with respect to developments in the area of corporate governance and the practices of the Board. The Corporate Governance and Nominating Committee has expressly assumed responsibility for developing the Corporation's approach to governance issues. The Committee is also responsible for reporting to the Board with respect to appropriate candidates for nominations to the Board, for overseeing the execution of an assessment process appropriate for the Board and its committees and for evaluating the performance and effectiveness of the Board and its committees.

The Corporate Governance and Nominating Committee of the Board currently consists of Messrs. Huberman, Hanson, Thygesen, Faber, Korbin and Balloch, all of whom are nominees of management for re-election as Directors at the Meeting, and Mr. John Weatherall, who is retiring as a Director at the Meeting. Mr. Huberman is Chair of the Committee, in addition to being the Corporation's Lead Director. Each member of the Committee qualifies as an independent director for the purposes of the CSA Corporate

Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules.

Executive Committee

The Executive Committee was created by the Board to meet as required, between meetings of the full Board, to approve expenditures of up to U.S.\$10,000,000. It currently consists of Messrs. Friedland, Meredith, Macken and Huberman.

Code of Business Conduct and Ethics

The Corporation has adopted a Code of Business Conduct and Ethics applicable to all employees, consultants, officers and directors regardless of their position in the organization, at all times and everywhere the Corporation does business. The Code of Business Conduct and Ethics provides that the Corporation's employees, consultants, officers and directors will uphold its commitment to a culture of honesty, integrity and accountability and the Corporation requires the highest standards of professional and ethical conduct from its employees, consultants, officers and directors. A number of housekeeping amendments to the Code were made in 2007 to clarify consulting and reporting procedures and to recognize the Corporation's whistleblower mechanism. A copy of the Corporation's Code of Business Conduct and Ethics, as amended, has been filed on SEDAR and is available on the Corporation's website (www.ivanhoemines.com). A copy may also be obtained, without charge, by request to the Corporate Secretary, 654 999 Canada Place, Vancouver, British Columbia, Canada V6C 3E1, telephone to (604) 688-5755.

CSA Corporate Governance Guidelines

The Corporation's statement of corporate governance practices with reference to each of the CSA Corporate Governance Guidelines is set out in Schedule A to this Management Proxy Circular.

OTHER BUSINESS

Management of the Corporation is not aware of any matter to come before the Meeting other than the matters referred to in the Notice of the Meeting.

The contents of this Management Proxy Circular and its distribution to shareholders have been approved by the Board of Directors of the Corporation.

SCHEDULE A
STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Effective June 30, 2005, the Canadian Securities Administrators adopted National Instrument 58-101 (NI 58-101) and the associated National Policy 58-201 (NP 58-201) which require the Corporation to disclose its corporate governance practices. These new rules replace the former corporate governance guidelines of the TSX.

CORPORATE GOVERNANCE DISCLOSURE REQUIREMENT⁽¹⁾

1. Board of Directors (the Board)
- (a) Disclose the identity of directors who are independent.

COMMENTS

The Board has reviewed the independence of each Director on the basis of the definitions in section 1.4 of MI 52-110, as amended, and the applicable provisions of the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules. A Director is independent if he or she has no direct or indirect material relationship with the Corporation, including as a partner, shareholder or officer of an organization that has a relationship with the Corporation. A material relationship is one that would, or in the view of the Board could, be reasonably expected to interfere with the exercise of a Director's independent judgment. The Board has determined, after reviewing the roles and relationships of each of the Directors, that 55% (six out of 11) of the nominees proposed by management for election to the Board are independent from the Corporation. The following nominees have been affirmatively determined to be independent by the Board:

David Huberman

David Korbin

Markus Faber

Robert Hanson

Kjeld Thygesen

Howard Balloch

This determination was made on the basis that:

- (a) they (and their immediate family members) are not and have not been within the last three years an employee or executive officer of the Corporation;

(b) they (and their spouse, minor child or step child) are not and have not been within the last three years a partner or employee of the Corporation's external auditors firm;

(c) they (and their immediate family members) are not and have not been within the last three years an executive officer of an entity of which the Corporation's executives served on that entity's compensation committee;

(d) they (and their immediate family members) did not receive more than U.S.\$60,000 in direct compensation from the Corporation (exclusive of any remuneration received for acting as a Board or Committee member) during any 12 month period during the last three years;

(e) they and their immediate family members are not a current executive officer of a company that has made payments to, or received payments from, the Corporation for property or services in an

amount which, in any of the last three fiscal years, exceeds the greater of U.S.\$1 million or 2% of such other company's consolidated gross revenues; and

(f) they are not a partner in, or a continuing shareholder or executive officer of any for-profit business organization to which the Corporation made, or from which the Corporation received payments (other than those arising solely from investments in the Corporation's securities) that exceed 5% of the Corporation's or business organization's consolidated gross revenues for that year, or U.S.\$200,000, whichever is more, in any of the past three years.

(b) Disclose the identity of directors who are not independent, and describe the basis for that determination.

The Board and Corporate Governance and Nominating Committee have determined, after reviewing the roles and relationships of each of the Directors, that the following five out of 11 nominees proposed by management for election to the Board are not independent from the Corporation as defined in the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules:

Robert M. Friedland: Executive Chairman

Peter G. Meredith: Deputy Chairman

John Macken: President and CEO

R. Edward Flood

Bret Clayton

Messrs. Friedland, Meredith and Macken, as senior officers of the Corporation and/or one or more of its subsidiaries and members of management, are considered to be non-independent directors.

Mr. Flood, was a member of management until February 15, 2007, and is also considered to be a non-independent director.

In the case of Mr. Bret Clayton, the Board noted his position as an executive officer of the Rio Tinto Group (Rio Tinto) and considered the relationship between Rio Tinto and the Corporation resulting from Rio Tinto s significant investment in the Corporation, the terms and conditions of the investment agreement between Rio Tinto and the Corporation and the shareholders agreement between Rio Tinto and Mr. Robert Friedland, Executive Chairman of the Corporation, each dated October 18, 2006, and the interim funding arrangement between Rio Tinto and the Corporation dated October 24, 2007. The Board concluded that such relationship was a material relationship within the meaning of the applicable provisions of the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules, and accordingly considers Mr. Clayton to be a non-independent nominee director.

(c) Disclose whether or not a majority of the directors are independent. If a majority of directors are not independent, describe what the Board of Directors does to facilitate its exercise of independent judgment in

carrying out its responsibilities.

Corporate Governance Rules and the NASDAQ Corporate Governance Rules.

The directors of the Corporation have reviewed the size of the Board and believe that the current Board size and composition results in a balanced representation on the Board among management, non-management directors and the Corporation's major shareholders. While the Board functions effectively, given the Corporation's stage of development and the size and complexity of its business, the Board, through its Corporate Governance and Nominating Committee, will continue to seek additional qualified candidates to augment its experience and expertise and to enhance the Corporation's ability to effectively develop its business interests. In so doing, the Corporate Governance and Nominating Committee will seek candidates that meet all Canadian, U.S. and other standards of independence applicable to the Corporation. The Corporate Governance and Nominating Committee will continue to examine the size and composition of the Board and recommend adjustments from time to time to ensure that the Board continues to be of a size that facilitates effective decision-making. There are currently 12 Directors on the Board. Eleven nominees have been proposed by management for election as Directors at the Meeting. The maximum number permitted under the Corporation's articles of incorporation is 12.

(d) If a director is presently a director of any other issuer that is a reporting issuer (or the equivalent) in a jurisdiction or a foreign jurisdiction, identify both the director and the other issuer.

All directorships with other public entities for each of the nominees are set out next to the individual's name under the heading "Election of Directors - Management Nominees" in this Circular.

(e) Disclose whether or not the independent directors hold regularly scheduled meetings at which members of management are not in attendance. If the independent directors hold such meetings, disclose the number meetings held since the beginning of the issuer's most of recently completed financial year. If the independent directors do not hold such meetings, describe what the Board does to facilitate open and candid discussion among its independent directors.

The Board sets aside a portion of each regularly scheduled meeting to discuss any issues without management Directors being present. In addition, all committees meet without management being present unless the committee specifically requests the presence of one or more such persons.

The Corporate Governance and Nominating Committee, in particular, provides a forum without management being present to receive any expression of concern from a director, including a concern regarding the independence

of the Board from management.

There were five such Board meetings and four such meetings of each of the Corporate Governance and Nominating, Audit and Compensation and Benefits Committees held in 2007.

In addition, between each regularly scheduled Board meeting, a meeting of non-management Directors, chaired by the Lead Director, is held by teleconference to update the non-management Directors on developments since the last Board meeting. Seven such meetings were held in 2007. Mr. Peter Meredith, Deputy Chairman of the Corporation, has periodically been invited to attend these meetings in order to brief the non-management Directors on recent developments.

The results of discussions of all Board committees, and of the meetings of non-management Directors, are

(f) Disclose whether or not the chair of the Board is an independent director. If the Board has a chair or lead director who is an independent director, disclose the identity of the independent chair or lead director, and describe his or her role and responsibilities. communicated to the rest of the Board at its next scheduled meeting, or more promptly, if required, by the committee Chairs to the other Directors and members of management.

Mr. Friedland currently serves as Chairman of the Board of Directors. The Board is of the view that appropriate structures and procedures are in place to allow the Board to function independently of management while continuing to provide the Corporation with the benefit of having a Chairman of the Board with extensive experience and knowledge of the Corporation's business.

The Board has created the position of lead director, with specific responsibility for maintaining the independence of the Board and ensuring that the Board carries out its responsibilities. Mr. Huberman, who also serves as chair of the Corporate Governance and Nominating Committee and the Compensation and Benefits Committee, has served as the Corporation's Lead Director since 2003. Mr. Huberman does not serve in a similar capacity with any other corporation.

(g) Disclose the attendance record of each director for all Board meetings held since the beginning of the issuer's most recently completed financial year.

The Board held five meetings in the 2007 financial year and the Corporate Governance and Nominating Committee, the Audit Committee and the Compensation and Benefits Committee each met four times during the year. A record of attendance by Director(s) at meetings of the Board and its Committees as well as the number of Board and Board Committee meetings held during the financial year ended December 31, 2007, is set out next to each individual's name under the heading "Election of Directors Management Nominees" in this Circular.

2. Board Mandate

Disclose the text of the Board's written mandate. If the Board does not have a written mandate, describe how the Board delineates its role and responsibilities.

The Board has assumed responsibility for the stewardship of the Corporation and has adopted a formal mandate as described in this Circular under the heading "Corporate Governance Mandate of the Board", setting out its stewardship responsibilities.

The mandate of the Board is available on the

Corporation's website (www.ivanhoe-mines.com). A copy may also be obtained upon request to the Vice President and Corporate Secretary of the Corporation, 654 - 999 Canada Place, Vancouver, British Columbia V6C 3E1, telephone (604) 688-5755.

3. Position Descriptions

(a) Disclose whether or not the Board has developed written position descriptions for the chair and the chair of each Board committee. If the Board has not developed written position descriptions for the chair and/or the chair of each Board committee, briefly describe how the Board delineates the role and responsibilities of each such position.

The Board has developed written position descriptions for the Chairman, Lead Director, the chair of each Board committee, CEO and CFO, clearly defining their respective roles and responsibilities. Such position descriptions were reviewed by the Corporate Governance and Nominating Committee and approved by the Board and are subject to annual review by the Corporate Governance and Nominating Committee.

4. Orientation and Continuing Education

- (a) Briefly describe what measures the Board takes to orient new members regarding:
- (i) the role of the Board, its committees and its directors, and
 - (ii) the nature and operation of the issuer's business

The Corporation takes steps to ensure that prospective directors fully understand the role of the Board and its committees and the contribution individual directors are expected to make, including in particular the commitment of time and energy that the Corporation expects of its directors. New directors are provided with a comprehensive information package, including pertinent corporate documents and a director's manual containing information on the duties, responsibilities and liabilities of directors. New directors are also briefed by management as to the status of the Corporation's business. Directors are provided with the opportunity to make site visits to the Corporation's properties.

- (b) Briefly describe what measures, if any, the Board takes to provide continuing education for its directors. If the Board does not provide continuing education, describe how the Board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.

Management and outside advisors provide information and education sessions to the Board and its committees on a continuing basis as necessary to keep the directors up-to-date with the Corporation, its business and the environment in which it operates as well as with developments in the responsibilities of directors, corporate governance, ethics and compliance.

Presentations are made to the Board from time to time to educate and keep them informed of changes within the Corporation and of regulatory and industry requirements and standards.

In addition, Directors are encouraged to take courses relevant to the Corporation and its business, particularly with respect to corporate governance and the mining industry, at the Corporation's expense. Directors are also encouraged to make site visits to the Corporation's properties.

All of the Corporation's non-management Directors are members of Canada's Institute of Corporate Directors, whose mission is to foster excellence in directors to strengthen the governance and performance of Canadian corporations. Mr. David Huberman, the Corporation's Lead Director, has completed the Institute's Director Education Program, which reviews governance expectations and promotes best practices in the boardroom.

5. Ethical Business Conduct

(a) Disclose whether or not the Board has adopted a written code for its directors, officers and employees. If the Board has adopted a written code:

(i) disclose how a person or company may obtain a copy of the code;

(ii) describe how the Board monitors compliance with its code, or if the Board does not monitor compliance, explain whether and how the Board satisfies itself regarding compliance with its code; and disclose how a person or company may obtain a copy of the code;

(iii) provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the code.

The Corporation has adopted a Code of Business Conduct and Ethics applicable to all employees, consultants, officers and directors regardless of their position in the organization, at all times and everywhere the Corporation does business. The Code of Business Conduct and Ethics provides that the Corporation's employees, consultants, officers and directors will uphold its commitment to a culture of honesty, integrity and accountability and the Corporation requires the highest standards of professional and ethical conduct from its employees, consultants, officers and directors. A number of housekeeping amendments to the Code were made in 2007 to clarify consulting and reporting procedures and to recognize the Corporation's whistleblower mechanism. The Corporation's Code of Business Conduct and Ethics, as amended, has been filed on SEDAR and is available on the Corporation's website (www.ivanhoe-mines.com). A copy may also be obtained, without charge, by request to the Vice President and Corporate Secretary, 654 999 Canada Place, Vancouver, British Columbia, Canada V6C 3E1, telephone to (604) 688-5755.

All Directors and employees are provided with a booklet containing the Corporation's Code of Business Conduct and Ethics and Corporate Securities Trading Policy (which has been translated into other languages as required for use in the Corporation's international operations) and are required to sign a written acknowledgement confirming that they have received and reviewed it.

Corporate supervisors and employees are required to confirm, on an annual basis, that they have reviewed the Corporation's Code of Business Conduct and Ethics as part of their annual performance appraisal.

The Corporate Governance and Nominating Committee monitors compliance with the Code of Business Conduct and Ethics and also ensures that management encourages and promotes a culture of ethical business conduct.

The Board has not granted any waiver of the Code of Business Conduct and Ethics in favor of a Director or executive officer. Accordingly, no material change report has been required or filed.

(b) Describe any steps the Board takes to ensure directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest.

The Corporate Governance and Nominating Committee monitors the disclosure of conflicts of interest to the Board by Directors and ensures that no Director will vote or participate in a discussion on a matter in respect of which such Director has a material interest. Committee Chairs perform the same function with respect to meetings of each Board committee.

(c) Describe any other steps the Board takes to encourage and promote a culture of ethical business conduct.

The Corporation has published a Statement of Values and Responsibilities. An updated Statement was approved by the Board on March 11, 2008. It has also developed various corporate policies including Corporate Disclosure, Confidentiality and Securities Trading policies, and a Whistleblower Policy, administered by an independent third party.

- A6 -

The Corporation conducts education programs for its personnel dealing with matters of corporate ethics and best practices.

During 2007 the Corporate Governance and Nominating Committee met with the Corporation's CEO and CFO to discuss corporate ethics and best practices and were satisfied that they are a focus of the CEO, CFO and throughout the Corporation's international operations.

6. Nomination of Directors

(a) Describe the process by which the Board identifies new candidates for Board nomination.

The Board has a Corporate Governance and Nominating Committee consisting of Messrs. Huberman, Hanson, Thygesen, Faber, Korbin and Balloch, all of whom are nominees of management for re-election as Directors at the Meeting, and Mr. John Weatherall, who is retiring as a Director at the Meeting. All members of the committee are independent directors under the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules. Mr. Huberman has been appointed as Chairman of the committee. The full Board determines, in light of the opportunities and risks facing the Corporation, what competencies, skills and personal qualities it should seek in new Board members in order to add value to the Corporation. Based on this framework, the Corporate Governance and Nominating Committee developed a skills matrix outlining the Corporation's desired complement of Directors' competencies, skills and characteristics. The Committee annually assesses the current competencies and characteristics represented on the Board and utilizes the matrix to determine the Board's strengths and identify any gaps that need to be filled. This analysis assists the Committee in discharging its responsibility for approaching and proposing to the full Board new nominees to the Board, and for assessing directors on an ongoing basis.

The Corporate Governance and Nominating Committee has been given the responsibility

for developing an evergreen list of potential nominees who the Committee feels would be appropriate to be asked to join the Board if, as and when there are vacancies pending and such persons are available to do so and who complement the current skills matrix. The Committee receives and reviews recommendations from Directors and members of management in determining whether to add the names of new candidates to the list, and has the authority to hire outside consultants to help to identify additional qualified candidates as required.

The Corporation does not have a shareholder with the ability to exercise a majority of the votes for the election of the Board. However, the Chairman of the Corporation holds approximately 26.9% of the Corporation's voting securities as at the date of this Circular and Rio Tinto, which is entitled to nominate a qualified individual or individuals for appointment or election to the Board in proportion to its shareholdings from time to time, holds approximately 9.89% of the Corporation's voting securities at such date. The Corporation has a majority of directors who do not have an interest in or relationship with either the

Corporation, its Chairman or Rio Tinto and, which fairly reflects the investment in the Corporation by shareholders other than the Chairman or Rio Tinto.

The Board seeks to achieve a greater representation of independent directors and has determined to continue to seek, through its Corporate Governance and Nominating Committee, additional qualified candidates to augment its experience and expertise and to enhance the Corporation's ability to effectively develop its business interests. In so doing, the Corporate Governance and Nominating Committee will seek candidates that meet all Canadian, U.S. and other standards of independence applicable to the Corporation.

The charter of the Corporate Governance and Nominating Committee is available on the Corporation's website (www.ivanhoe-mines.com). A copy may also be obtained upon request to the Corporate Secretary, 654 999 Canada Place, Vancouver, British Columbia, V6C 3E1, telephone (604) 688-5755.

7. Compensation

(a) Describe the process by which the Board determines the compensation for the issuer's directors and officers.

The Compensation and Benefits Committee has responsibility for recommending compensation for the Corporation's senior executive officers to the Board. CEO compensation is approved by the Compensation and Benefits Committee. See Report on Executive Compensation .

The Compensation and Benefits Committee periodically reviews and makes recommendations to the Board regarding the adequacy and form of the compensation for non-management Directors to ensure that such compensation realistically reflects the responsibilities and risks involved in being an effective director, without compromising a Director's independence. Directors who are executives of the Corporation receive no additional remuneration for their services as Directors.

Effective May 1, 2007, all non-management directors receive Cdn.\$25,000 per annum for acting as such (prior thereto, Cdn\$15,000). Mr. David Huberman receives an additional Cdn.\$60,000 per annum for acting as the Lead Director of the Board. The Chair of the Audit Committee receives an additional Cdn.\$25,000 per annum, for acting in such capacity. The Chair of the Compensation and Benefits Committee and the Corporate Governance Committee receives an additional payment of Cdn.\$15,000 per annum for acting as such. Effective March 9, 2007, non-management directors also receive Cdn.\$1,500 per in-person Board or Committee meeting attended (prior thereto, Cdn.\$1,200) and U.S.\$600 per Board or Committee conference call in which they participate.

In addition to their cash compensation, non-executive directors (other than the nominee of Rio Tinto in accordance with Rio Tinto's corporate policy) also receive a grant of 25,000 stock options per annum, such options having a five year term and fully vesting on the first anniversary of the date of the grant.

(b) Disclose whether or not the Board has a compensation committee composed entirely of independent directors. If the Board does not have a compensation committee

The Compensation and Benefits Committee comprises five Directors, all of whom have been affirmatively determined by the Board to be independent directors

composed entirely of independent directors, describe what steps the Board takes to ensure an objective process for determining such compensation.

as defined by the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules.

The members of the committee have diverse professional backgrounds, with prior experience in executive compensation. None of the members of the committee serve as CEOs or senior executive officers of other public corporations.

(c) If the Board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.

The duties and responsibilities of the Compensation and Benefits Committee include the development of a compensation philosophy and policy; evaluating the performance of the Corporation's senior executive officers, reviewing their compensation, and monitoring equity incentive arrangements.

The role of the Compensation and Benefits Committee is primarily to review the adequacy and form of compensation of executive management and the directors with such compensation realistically reflecting the responsibilities and risks of such positions, to administer the Corporation's Equity Incentive Plan, to determine the recipients of, and the nature and size of share compensation awards granted from time to time and to determine the remuneration of executive management and to determine any bonuses to be awarded. Commencing in 2007, the committee will conduct a formal review of the Corporation's executive compensation on an annual basis and otherwise as required to satisfy itself and the Board that the Corporation's compensation objectives are being met.

The members of the Compensation and Benefits Committee are Messrs. Huberman (Chair), Thygesen, Hanson, Korbin and Balloch. Each member of the committee is an independent director for the purposes of the CSA Corporate Governance Guidelines, the NYSE Corporate Governance Rules and the NASDAQ Corporate Governance Rules.

The charter of the Compensation and Benefits Committee is available on the Corporation's website (www.ivanhoe-mines.com). A copy may also be obtained upon request to the Vice President and Corporate Secretary, 654 - 999 Canada Place, Vancouver, British Columbia V6C 3E1, telephone (604) 688-5755.

(d) If a compensation consultant or advisor has, at any time since the beginning of the issuer's most recently completed financial year, been retained to assist in determining compensation for any of the issuer's directors and officers, disclose the identity of the consultant or advisor and briefly summarize the mandate for which they have been retained. If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.

Towers Perrin were retained in 2004 by the Compensation and Benefits Committee to prepare a director compensation report to assist the committee in the determination of independent director compensation. They were mandated to provide the review based on compensation levels provided to similarly sized international mining companies. Towers Perrin's fee for its 2004 report was Cdn\$19,821.

Gurr Lane & Associates were retained in 2005 by the Compensation and Benefits Committee to prepare reports to assist the committee in developing a compensation strategy for the position of President and for the other executive and senior management positions. They were mandated to develop a justifiable compensation strategy which benchmarks such positions in terms of the competitive marketplace of similar-sized international mining companies and, where appropriate, larger operating mining companies.

- A9 -

The proposals were intended to address salary, bonus and stock options. Gurr Lane & Associates' fee for the reports was Cdn\$39,697.

Towers Perrin were retained in 2006 by the Compensation and Benefits Committee to prepare a report on industry standards and best practices relating to change of control provisions in executive employment agreements. Towers Perrin's fee for this report was Cdn.\$10,788.

Mercer (Canada) Limited (Mercer) was retained in 2007 to prepare a model for executive compensation for the Corporation and to provide support to the Compensation and Benefits Committee in determining compensation for the Corporation's officers for the 2007 fiscal year. Mercer's fee for these services was Cdn\$67,089.

None of the compensation consultants or advisors retained by the Compensation and Benefits Committee have performed other work for the Corporation. The Committee will require any such consultant or advisor to obtain its written approval prior to undertaking any work for management of the Corporation in order to protect the independence of such consultant or advisor.

Recommendations of the Compensation and Benefits Committee to the Board are the responsibility of the committee and may reflect factors and considerations outside of surveys or consultants' recommendations.

8. Other Board Committees If the Board has standing committees other than the audit, compensation and nominating committees, identify the committees and describe their function.

In addition to the Audit Committee, the Compensation and Benefits Committee and the Corporate Governance and Nominating Committee, in March 2005 the Board approved the establishment of an Executive Committee, consisting of Messrs. Friedland, Huberman, Meredith and Macken, to meet between formal meetings of the Board as necessary, with authority to approve expenditures of up to U.S.\$10,000,000. No meetings of the Executive Committee were held in 2007.

The Board has also established a Currency Advisory Committee, consisting of the former Chairman of the Audit Committee and each of Mr. Peter Meredith (the Corporation's Deputy Chairman) and its CFO, to make recommendations to the CFO on managing the Corporation's currency exposures and to report to the Board on a quarterly basis. Dr. Faber is also a member of the Currency Advisory Committee. The Currency Advisory Committee met three times in 2007.

9. Assessments Disclose whether or not the Board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the Board satisfies itself that the Board, its committees, and its individual directors are performing effectively.

The Corporate Governance and Nominating Committee has the responsibility for developing and recommending to the Board, and overseeing the execution of, a process for assessing the effectiveness of the Board as a whole, the committees of the Board and the contribution of individual directors, on a regular basis. The Corporate Governance and Nominating Committee has developed and is continuing to refine an assessment process for the Board, each of its committees, and the contribution of individual directors.

The Corporate Governance and Nominating Committee has, for the last three years, reviewed and approved a performance evaluation questionnaire that was forwarded to all of the members of the Board of

- A10 -

Directors. This questionnaire covers a wide range of issues providing for quantitative ratings and subjective comments and recommendations in each area. In 2004, all Directors assessed the performance of the Board as a whole, its Committees, the Chair of each Committee, and the Lead Director. Issues addressed included Board composition, Board discussion and the relationship with the CEO, Director orientation and ongoing development, definition of roles and responsibilities, Board and Director evaluation, Director compensation, CEO and management succession, strategic planning and supporting plans, Committees, and the role of the Lead Director. Responses were tabulated and analyzed through independent Board governance consultants, without attribution of comments to individual directors, and a summary report was provided to the Lead Director, and through him, to the Committee and the full Board, with recommendations for improvement where required. In 2005, each Director assessed his own performance. Issues addressed included skills and experience, preparation, attendance and availability, communication and interaction, strategies and plans, business, corporation and industry knowledge, and an overall assessment. Responses were provided to the Lead Director. In 2006, a peer review was completed by the Directors. Each Director was asked to evaluate the contribution of each of the other Directors in the following areas: preparation and availability, accountability and transparency, contribution to strategic planning, oversight of performance and risk, contribution to supervision and relationship with management, contribution to Board internal effectiveness, and overall contribution of the individual Director. Each Director was also asked to comment on what additional skills, experience and information could benefit the Board and how they might be accessed, what were his and his fellow Directors most recent accomplishments for the Corporation, and what each Director sought to accomplish with his fellow Directors over the next 1-2 years at

the Corporation. The Lead Director was provided with a report detailing the average (mean) ratings for all Directors of the portion of the questionnaire dealing with the contribution of individual Directors, and a summary of the responses to the portion dealing with overall Board contribution, on a non-attributed basis. Each individual Director was provided with a confidential report card containing their peers' assessment of their contribution. The Lead Director met with each Director to discuss individual and Board performance, and reported the overall results to the Board of Directors.

In 2007, the Board completed collective, self-assessment and peer reviews, as described above. The Corporate Governance and Nominating Committee intends to continue these processes on a regular basis.

These evaluations showed that the Board, its Committees, the Committee Chairs, the Lead Director and individual Directors were effectively fulfilling their responsibilities.
