Edgar Filing: RECOM MANAGED SYSTEMS INC DE/ - Form 10QSB

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company is in the development stage and has a limited operating history since its reorganization. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the classification and recoverability of recorded asset amounts or the amount of liabilities that may be incurred should the Company be unable to continue in existence. Continuation as a going concern is dependent on raising additional capital to fund the Company's planned operations. There is no assurance that the necessary funds will be generated.

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial statements pursuant to Regulation S-B. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (including normal recurring accruals considered necessary for a fair presentation) have been included. Operating results for the three months ended March 31, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information refer to the financial statements and footnotes included in the Form 10-KSB for the year ended December 31, 2002.

NOTE 2 - ACQUISITION OF TECHNOLOGY

On September 19, 2002, the Company acquired from ARC Finance Group LLC ("ARC"), certain know how, trade secrets and other intellectual property described below in exchange for 7,800,000 shares of the Company's common stock. This technology was valued at \$7,800. As a result of this transaction, ARC owned approximately 84.5% of the Company's outstanding shares. This transaction is considered a reverse acquisition and as a capital transaction that results in a capital reorganization. Accordingly, the reorganized Company's assets have been reflected at fair value. In the reorganization, the Predecessor Company's intangible asset, Reorganization Value in Excess of Amount Allocated to Identifiable Assets (in the amount of \$76,667) and its accumulated deficit (in the amount of \$164,947) were eliminated against Additional Paid-in Capital. There has been no goodwill or intangible assets recognized for this reorganization in the financial statements.

The Company's technology relates to certain proprietary methods, processes and ideas concerning devices and services which, if successfully developed, may be capable of:

- * accurately measuring heart functions
- * automatically and remotely evaluating these functions over the telephone, the Internet, or other wireless transmission systems

6

- * providing the patient and the patient's physician(s) with vital heart and other data on a real time basis to provide early warnings about the patient's heart functions.

No assurance can be given that commercial products or services will ever result or that those products or services will be accepted by regulatory

Edgar Filing: RECOM MANAGED SYSTEMS INC DE/ - Form 10QSB

agencies, physicians, patients or insurance providers.

NOTE 3 - SUBSEQUENT EVENTS

On April 1, 2003, the Company entered into a common stock purchase agreement with M. Stein, whose spouse is a majority shareholder, pursuant to which Mr. Stein purchased 37,594 shares of the Company's common stock at a price of \$6.65 per share for a total consideration of \$250,000. The consideration included \$100,000 in cash and \$150,000 of expenses and capitalized assets which had previously been advanced by Mr. Stein. An advance of \$150,000 has been reflected on the March 31, 2003 Balance Sheet for expenses totaling \$33,208 and equipment and leasehold improvements totaling \$116,792.

On April 1, 2003, the Company issued 49,064 shares of common stock to individuals in exchange for consulting services rendered. The March 31, 2003 financial statements reflect the accrual of \$268,500 for these services.

On April 2, 2003, the Board of Directors declared a three-for-one stock split effective as of the close of business on Friday, April 11, 2003.

On April 15, 2003, the Company entered into an investment banking agreement with Brookstreet Securities Corporation which has its offices in Irvine, California. The agreement provides that Brookstreet will provide various investment banking services including advising the Company in connection with financing strategies and assisting the Company with its capital needs including locating potential sources of debt and equity capital and establishing an orderly market for the Company's securities. As compensation for these services Brookstreet is being issued warrants to purchase an aggregate of 200,000 shares of the Company's common stock. The warrants will be issued in 4 tranches of 50,000 each with the first tranche of 50,000 fully vested and exercisable at \$1.25 per share. The second tranche will vest in 90 days after the date of the agreement and will have an exercise price of \$2.25 per share. The third tranche will vest in 180 days and will have an exercise price of \$3.25 per share. The fourth tranche will vest in 270 days and will have an exercise price of \$4.25 per share.

7

ITEM 2. MANAGEMENT'S PLAN OF OPERATION.

FORWARD-LOOKING INFORMATION

This Report on Form 10-QSB contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The statements regarding the Company contained in this report that are not historical in nature, particularly those that utilize terminology such as "may," "will," "should," "likely," "expects," "anticipates," "estimates," "believes" or "plans," or comparable terminology, are forward-looking statements based on current expectations and assumptions, and entail various risks and uncertainties that could cause actual results to differ materially from those expressed in such forward-looking statements. Details about these risks are set forth in the Company's Report on Form 8-K which was filed with the SEC in September 2002.

PLAN OF OPERATION FOR THE NEXT TWELVE MONTHS

Edgar Filing: RECOM MANAGED SYSTEMS INC DE/ - Form 10QSB

The Company intends to proceed with further development and possible commercialization of products or services which embody or otherwise utilize the technology described above in Note 2. We plan to develop a belt that can be used by the patient which will hold the electrodes and electronics. We also plan to initiate the study of alternative algorithms for the analyzing of ECGS. The Company currently has no cash on hand and in order to fund its immediate short-term working capital needs, management is attempting to raise at least \$50,000 in either debt or equity financing. Management is also considering a private equity offering to raise up to \$5 million to complete the development of its first product and become fully operational. There is no assurance that any of these financing efforts will be successful. In the event the Company is not able to secure financing, many adverse contingencies may result such as downsizing of the Company's facilities and/or personnel, ceasing development efforts and/or operations. Notwithstanding any of these activities, the Company believes it is highly likely that it will not achieve any revenues or earnings during the next twelve months, and for a significant period of time thereafter.

ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the filing date of this quarterly report, and, based upon their evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.
