The following is the text of a press release issued by TheraSense, Inc. on January 22, 2004:

**TheraSense Announces Fourth Quarter and
Full-Year 2003 Financial Results**

***Navigator continuous glucose monitoring system
granted expedited review***

ALAMEDA, Calif., January 22, 2004 □ TheraSense, Inc. (Nasdaq: THER) announced today its results for the fourth quarter and year-ended December 31, 2003.

Fourth Quarter and Year-End Results

Total revenues for the fourth quarter of 2003 were \$61.8 million, an increase of 34% over total revenues of \$46.2 million in the fourth quarter of 2002. Total revenues for the year ended December 31, 2003 were \$211.9 million. Total revenues for the year ended December 31, 2002 were \$177.7 million, which included \$20.4 million from recognition of previously deferred revenues. The recognition of revenue occurred in the second quarter of 2002 when TheraSense achieved the ability to estimate product return rates. The increased revenues were principally the result of increased sales of FreeStyle® test strips and FreeStyle system kits.

Gross profit for the fourth quarter of 2003 was \$38.2 million, an increase of 56% over gross profit of \$24.5 million in the fourth quarter of 2002. Gross profit for the year ended December 31, 2003 was \$123.7 million. Gross profit for the year ended December 31, 2002 was \$84.9 million, which included \$4.2 million from the recognition of previously deferred revenues. Gross margin for the fourth quarter of 2003 was 62% compared to 53% for the fourth quarter of 2002. The improved gross margin and gross profit resulted from reduced test strip and system kit manufacturing costs, test strip revenue comprising a greater proportion of total revenue, and fixed costs being spread over larger sales volumes.

□ We are very pleased to announce another profitable quarter and our fourth consecutive quarter with positive cash flow from operations. We are also pleased to announce that the pre-market approval application for Navigator, our continuous glucose monitoring system, has been granted expedited review status by the FDA. □ said

Mark Lortz, President and CEO of TheraSense. [I]n addition, we recently announced our agreement to merge with Abbott Laboratories. We believe the proposed transaction with Abbott will allow us to better serve the needs of people with diabetes through research, development, sales, marketing and business development resources that are competitive with the market leaders. []

The net income for the fourth quarter of 2003 was \$4.6 million or \$0.10 per diluted share compared to a net loss of \$5.7 million or \$0.14 of loss per basic and diluted share. For the year ended December 31, 2003, the net loss was \$4.8 million or \$0.12 per basic and diluted share compared to a net loss of \$29.2 million or \$0.73 of loss per basic and diluted share for the prior year. The net loss for the year ended December 31, 2002 was favorably impacted by \$4.2 million in gain from recognition of previously deferred revenue. Cash and investments as of December 31, 2003 were \$89.6 million compared to \$83.5 million at September 30, 2003.

Investor Conference Call

TheraSense will host a conference call today at 2:00 p.m., Pacific Time. A live web cast will be available via a link on the Investor Relations portion of TheraSense's website at www.therasense.com. About TheraSense

2

TheraSense develops, manufactures and sells easy-to-use glucose monitoring systems that dramatically reduce the pain of testing for people with diabetes. The company began selling its first product, the FreeStyle blood glucose monitoring system, in June 2000. The FreeStyle system has wide distribution in the United States through national retailers including Walgreens, Wal-Mart, CVS, Eckerd and Rite Aid. The FreeStyle system is distributed in various European countries by Ypsomed, formerly Disetronic Injection Systems. In Japan, the FreeStyle system is distributed by Nipro Corporation, the Japanese market leader in dialysis and insulin pumps. The TheraSense headquarters and test strip manufacturing facility are located in Alameda, California. Visit us at www.therasense.com.

Forward-Looking Statements

The foregoing contains statements regarding expected benefits from a proposed merger with Abbott Laboratories. These statements are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and actual results could differ materially. We undertake no obligation to update or revise any forward-looking statement. There are a number of factors that could cause actual events to differ materially from those indicated by such forward-looking statements including, among other things, the failure of the conditions precedent to the completion of the merger to be satisfied and failure to achieve expected synergies associated with the transaction.

For a more complete description of factors that may affect TheraSense's future results, investors should read "Risk Factors Affecting Operations and Future Results" in TheraSense's Form 10-Q for the quarter ended September 30, 2003 and periodic reports filed with the Securities and Exchange Commission. The risk factors are also available on the Investor Relations portion of TheraSense's website at www.therasense.com.
