#### THE ROYAL BANK OF SCOTLAND plc

#### FINANCIAL REVIEW

#### **Operating profit before tax**

Operating profit before tax increased by 16% from £4,075 million to £4,721 million reflecting strong organic growth in Corporate Markets, Wealth Management and Ulster Bank.

#### **Total income**

The Group achieved strong growth in income during the first half of 2007. Total income was £11,421 million compared with £10,457 million, an increase of £964 million, 9%.

Net interest income increased by 3% to £5,250 million and represents 46% of total income (2006 – 49%).

**Non-interest income** increased by 15% to £6,171 million and represents 54% of total income (2006 - 51%).

Operating expenses increased by £327 million, 6% to £5,829 million.

**Impairment losses** fell 1% to £871 million, compared with £880 million in 2006.

#### **Business transfers**

Divisional results for the first half of 2006 have been restated to reflect transfers of businesses between divisions in the second half of 2006 and the first half of 2007. These changes are not material to the segmental disclosures and do not affect the Group's results.

#### Overview of consolidated balance sheet

Total assets of £987.8 billion at 30 June 2007 were up £139.6 billion, 16%, compared with 31 December 2006.

Treasury and other eligible bills increased by £2.5 billion, 46% to £8.0 billion, due to higher trading activity.

Loans and advances to banks increased by £9.4 billion, 12%, to £87.9 billion. Reverse repurchase agreements and stock borrowing ("reverse repos") increased by £10.5 billion, 19% to £64.7 billion, but were offset by a reduction in bank placings of £1.1 billion, 5%, to £23.2 billion.

Loans and advances to customers were up £35.7 billion, 8%, to £504.2 billion. Within this, reverse repos increased by 26%, £16.6 billion to £79.5 billion. Excluding reverse repos, lending rose by £19.1 billion, 5% to £424.7 billion reflecting organic growth across all divisions.

Debt securities increased by £14.8 billion, 12%, to £136.0 billion, principally due to increased holdings in Global Banking & Markets.

Settlement balances rose by £13.9 billion to £21.4 billion as a result of increased customer activity in Global Banking & Markets.

Movements in the value of derivatives, assets and liabilities, primarily reflect significant changes in interest rates since the year end and growth in trading volumes.

Prepayments, accrued income and other assets were down £1.2 billion, 20% to £4.8 billion.

Deposits by banks rose by £7.3 billion, 6% to £139.1 billion to fund business growth. This reflected increased repurchase agreements and stock lending ("repos"), up £5.0 billion, 6% to £81.4 billion combined with higher inter-bank deposits, up £2.3 billion, 4% at £57.7 billion.

Customer accounts were up £34.3 billion, 9% to £419.0 billion. Within this, repos increased £17.7 billion, 28% to £81.7 billion. Excluding repos, deposits rose by £16.6 billion, 5%, to £337.3 billion reflecting organic growth in all divisions.

Page 2 of 24

### THE ROYAL BANK OF SCOTLAND plc

#### FINANCIAL REVIEW (continued)

#### Overview of consolidated balance sheet (continued)

Debt securities in issue increased by £9.3 billion, 11%, to £91.9 billion.

The increase in settlement balances and short positions, up £22.5 billion, 45%, to £72.0 billion reflected growth in customer activity.

Accruals, deferred income and other liabilities increased £0.4 billion, 3% to £11.9 billion.

Subordinated liabilities were down £0.6 billion, 2% to £27.2 billion. The issue of £1.0 billion dated loan capital was more than offset by the redemption of £0.3 billion dated and undated loan capital and £0.6 billion non-cumulative preference shares and the effect of exchange rates and other adjustments, £0.7 billion.

Deferred taxation liabilities decreased by £0.3 billion to £1.6 billion, due in part to the change in the UK corporation tax rate from 30% to 28% from 1 April 2008.

Shareholders' equity increased by £1.4 billion, 4% to £39.3 billion. The profit for the six months of £3.5 billion and the issue of £0.5 billion non-cumulative fixed rate equity preference shares were partially offset by the payment of the ordinary dividend of £2.0 billion and preference dividends of £0.2 billion, together with movements in currency translation and cash flow hedging reserves of £0.3 billion and £0.1 billion respectively.

#### **NOTES** (unaudited)

#### 1. Basis of preparation

There have been no changes to the Group's principal accounting policies as set out on pages 13 to 19 of the 2006 Annual Report on Form 6-K (the "2006 Form 6-K"). These accounting policies have been consistently applied in the preparation of these interim consolidated financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair presentation of the Group's interim consolidated financial statements have been made.

These condensed interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended 31 December 2006 included in the 2006 Form 6-K. The balance sheet as at 31 December 2006 has been extracted from the audited financial statements included in the 2006 Form 6-K.

## 2. Recent accounting developments

The Group is considering the implications of the following International Financial Reporting Interpretations Committee ('IFRIC') interpretations issued during 2007:

IFRIC 13 'Customer Loyalty Programmes' was issued in June 2007. The interpretation requires revenue to be allocated to loyalty award credits as part of a sales transaction. Revenue is recognised when the credits are redeemed or when the obligation for redemption is passed to a third party. The interpretation is effective for annual accounting periods beginning on or after 1 July 2008.

IFRIC 14 'IAS 19 – the Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction' was issued in July 2007. IFRIC 14 clarifies the circumstances in which refunds and contribution reductions for a defined benefit plan are available to an entity for the purpose of recognising a net benefit asset. It also covers the effect of a minimum funding requirement ('MFR') on the asset and when an MFR may result in an additional liability. The interpretation is effective for annual accounting periods beginning on or after 1 January 2008.

The International Accounting Standards Board revised International Accounting Standard 1 'Presentation of Financial Statements' ('IAS 1(R)') in September 2007. IAS 1(R) allows the statement of comprehensive income to be presented as a single statement or as an income statement followed by a statement of comprehensive income, requires disclosure of the tax effect on all items of comprehensive income and renames the primary financial statements. The standard applies to annual periods beginning on or after 1 January 2009.

The Group is reviewing the above interpretations and revised standard to determine their effect on its financial reporting.

#### 3. Loan impairment provisions

Operating profit is stated after charging loan impairment losses of £851 million (first half 2006 - £882 million). The balance sheet loan impairment provisions increased in the half year ended 30 June 2007 from

£3,929 million to £4,062 million, and the movements thereon were:

	First half	First half
	2007	2006
	£m	£m
At 1 January	3,929	3,886
Currency translation and other adjustments	(6)	(34)
Acquisitions	7	-
Amounts written-off	(762)	(736)
Recoveries of amounts previously written-off	126	96
Charge to the income statement	851	882
Unwind of discount	(83)	(63)
At 30 June	4,062	4,031

The provision at 30 June 2007 includes provision against loans and advances to banks of £2 million (31 December 2006 - £2 million; 30 June 2006 - £3 million).

Page 8 of 24

#### **NOTES** (continued)

### 3. Loan impairment provisions (continued)

Taxable foreign exchange movements	3	(13)
Reduction in deferred tax liability following change		
in the rate of UK Corporation Tax	(117)	-
Foreign profits taxed at other rates	25	31
Other	(6)	-
Adjustments in respect of prior periods	(88)	(61)
Actual tax charge	1,232	1,258
Overseas tax included above		<b>560</b> 606

#### 5. Segmental analysis

The results of each division before amortisation of purchased intangible assets, integration costs and, where appropriate, allocation of Manufacturing costs ("Contribution") and after allocation of Manufacturing costs ("Operating profit before tax") are detailed on page 10. The Group continues to manage costs where they arise, with customer-facing divisions controlling their direct expenses whilst Manufacturing is responsible for shared costs. The Group does not allocate these shared costs between divisions in the day-to-day management of its businesses, and the way in which divisional results are presented reflects this. The results under the heading "Operating profit before tax" include an allocation of Manufacturing costs to the relevant customer-facing divisions on a basis the management considers reasonable.

## 7. Litigation

Proceedings, including consolidated class actions on behalf of former Enron securities holders, have been brought in the United States against a large number of defendants, including the Group, following the collapse of Enron. The claims against the Group could be significant; the class plaintiff's position is that each defendant is responsible for an entire aggregate damage amount less settlements – they have not quantified claimed damages against the Group in particular. The Group considers that it has substantial and credible legal and factual defences to these claims and it continues to defend them vigorously. A number of other defendants have reached settlements in the principal class action. The Group is unable reliably to estimate the possible loss to it in relation to these matters or the effect that the possible loss might have on the Group's consolidated net assets or its operating results or cashflows in any particular period. In addition, pursuant to requests received from the US Securities and Exchange Commission and the Department of Justice, the Group has provided copies of Enron-related materials to these authorities and has co-operated fully with them.

On 27 July 2007, following discussions between the Office of Fair Trading ('OFT'), the Financial Ombudsman Service, the Financial Services Authority and all the

major UK banks (including the Group) in the first half of 2007, the OFT issued proceedings in a test case against the banks including the Group to determine the legal status and enforceability of certain charges relating to unauthorised overdrafts. The Group maintains that its charges are fair and enforceable and intends to defend its position vigorously. The Group cannot predict with any certainty the outcome of the test case and is unable reliably to estimate the liability, if any, that may arise or its effect on the Group's consolidated net assets, operating results or cash flows in any particular period.

Members of the Group are engaged in other litigation in the United Kingdom and a number of overseas jurisdictions, including the United States, involving claims by and against them arising in the ordinary course of business. The Group has reviewed these other actual, threatened and known potential claims and proceedings and, after consulting with its legal advisers, is satisfied that the outcome of these other claims and proceedings will not have a material adverse effect on its consolidated net assets, operating results or cash flows in any particular period.

### 10. Significant differences between IFRS and US generally accepted accounting principles

The consolidated accounts of the Group have been prepared in accordance with IFRS issued and extant at 30 June 2007 which differ in certain significant respects from US generally accepted accounting principles ("US GAAP"). The significant differences which affect the Group are summarised below in two separate sections.

Section (i) covers ongoing significant differences between IFRS and US GAAP.

Section (ii) summarises those adjustments that, although the applicable IFRS and US GAAP standards are substantially the same, arise because their effective dates for the Group differ.

#### **NOTES** (continued)

#### 10. Significant differences between IFRS and US GAAP (continued)

#### (i) **Ongoing GAAP differences**

#### **IFRS US GAAP**

## (a) Acquisition accounting

All integration costs relating to acquisitions are expensed Certain restructuring and exit costs incurred in the as post-acquisition expenses.

acquired business are treated as liabilities assumed on acquisition and taken into account in the calculation of goodwill.

On the acquisition of NatWest in 2000, the fair value of The full surplus was recognised as a fair value refunds.

the pension scheme surplus was restricted to the amount adjustment on acquisition. As a result goodwill expected to be realised through reduced contributions or recognised under US GAAP on the acquisition of NatWest was lower than under IFRS.

#### (b) Investment properties

fair value are included in profit or loss.

Investment properties are carried at fair value; changes in Revaluations of property are not permitted. Depreciation is charged, and gains or losses on disposal are based on the depreciated cost.

#### (c) Leasehold property provisions

there is a commitment to vacate the property.

Provisions are recognised on leasehold properties when Provisions are recognised on leasehold properties at the time the property is vacated.

#### (d) Loan origination

Only costs that are incremental and directly attributable Certain direct (but not necessarily incremental) costs are of the related loan or facility.

to the origination of a loan are deferred over the period deferred and recognised over the period of the related loan or facility.

#### (e) Pension costs

in the balance sheet as an asset (surplus) or liability information. (deficit). An asset is only recognised to the extent that the surplus can be recovered through reduced contributions in the future or through refunds from the scheme.

Pension scheme assets are measured at their fair For US GAAP reporting purposes, The Royal Bank of value. Scheme liabilities are measured on an actuarial Scotland Group plc is the sponsor of the main scheme. basis using the projected unit method and discounted at However, as substantially all of participants in this the current rate of return on a high quality corporate bond scheme are employees or former employees of the of equivalent term and currency. Any surplus or deficit Group, the plan has been accounted for by the Group as a of scheme assets compared with liabilities is recognised single employer defined benefit plan in its US GAAP

The current service cost and any past service costs US GAAP requires similar measurement of pension charged to the income statement.

together with the expected return on scheme assets less assets and liabilities as IFRS. Any surplus or deficit is the unwinding of the discount on the scheme liabilities is recognised on the balance sheet of the sponsor (and the Group, as discussed above) with effect from 31 December 2006 and changes in the funded status are recognised through comprehensive income. In the income statement of the sponsor (and the Group, as discussed above), a certain portion of actuarial gains and losses are deferred over the average remaining lives of active employees expected to receive benefits. Prior to 31 December 2006, an additional minimum liabilities was recognised in comprehensive income as the accumulated benefit obligation (the current value of accrued benefits without the allowance for future salary increases) exceeded the fair value of plan assets and a prepayment was recorded.

#### (g) Financial instruments (continued)

Available-for-sale securities

Financial assets classified as available-for-sale may take Debt and equity securities having a readily determinable any legal form.

fair value are classified as available-for-sale. Such securities are measured at fair value with unrealised gains and losses reported in a separate component of equity.

Equity shares, the sale of which is restricted by Restricted stock are recorded at cost. contractual requirements (restricted stock) are carried at fair value.

Loans classified as held-for-trading

Loans classified as held-for-trading are carried at fair Collateralised loans arising from reverse repurchase and value.

stock borrowing agreements and cash collateral given are measured at cost. Other held-for-trading loans are measured at the lower of cost and fair value except those held by the Group's broker-dealer and its affiliates which are recorded at fair value.

Foreign exchange gains and losses on monetary available-for-sale financial assets

For the purposes of recognising foreign exchange gains Exchange differences are included with other unrealised treated as if it were carried at amortised cost in the reported in a separate component of equity. foreign currency. Accordingly, for such financial assets, exchange differences resulting from retranslating amortised cost are recognised in profit or loss.

and losses, a monetary available-for-sale debt security is gains and losses on available-for-sale securities and

#### (h) Derivatives and hedging activities

Gains and losses arising from changes in fair value of a US GAAP principles are similar to IFRS. There are value hedges); hedges of the variability in cash flows income. from a recognised asset or liability or a forecast

derivative are recognised as they arise in profit or loss however differences in their detailed application. The unless the derivative is the hedging instrument in a Group has not recognised any hedge relationships for US qualifying hedge. The Group enters into three types of GAAP purposes except hedges of net investments in hedge relationship: hedges of changes in the fair value of overseas operations. All derivatives are measured at fair a recognised asset or liability or firm commitment (fair value with changes in fair value recognised in net

transaction (cash flow hedges); and hedges of the net investment in a foreign entity.

# (i) Liabilities and equity

distributions are not discretionary are classified as debt.

Certain preference shares issued by the company where Preference shares issued by the company are classified as equity, as they are perpetual and redeemable only at the option of the company.

Page 16 of 24

#### **NOTES** (continued)

#### 10. Significant differences between IFRS and US GAAP for the Group

#### **Ongoing GAAP differences (continued)**

### (j) Consolidation

substance of the relationship between the reporting entity and the SPE indicates that it is controlled by the Group.

All entities controlled by the Group are consolidated US GAAP requires consolidation by the primary including those special purpose entities (SPEs) where the beneficiary of a variable interest entity (VIE). An enterprise is the primary beneficiary of a VIE if it will absorb the majority of the VIE's expected losses, receive a majority of expected residual returns, or both.

> This GAAP difference has no effect on net income or shareholders' equity.

#### (k) Offset arrangements

the liability simultaneously.

generally provide a basis for offsetting.

A financial asset and a financial liability are offset and Debit and credit balances with the same counterparty the net amount reported in the balance sheet when, and may be offset only where there is a legally enforceable only when, the Group currently has a legally enforceable right of set-off and the intention to settle on a net basis. right to set off the recognised amounts; and intends either However, fair value amounts for forward, interest rate to settle on a net basis, or to realise the asset and settle swap, currency swap, option, and other conditional or exchange contracts executed with the same counterparty under a master netting agreement may be offset as may Arrangements such as master netting agreements do not repurchase and reverse repurchase agreements that are executed under a master netting agreement with the same counterparty and have the same settlement date.

> This GAAP difference has no effect on net income or shareholders' equity.

#### (ii) Implementation timing differences

#### **IFRS US GAAP**

#### (a) Properties occupied for own use

Prior to the implementation of IFRS, the Group annually Revaluations of property are not permitted. Depreciation revalued freehold and long leasehold property occupied is charged, and gains or losses on disposal are based on for its own use. On transition to IFRS, as permitted by depreciated cost. IFRS 1 valuations of these properties at 31 December 2003 were deemed to be their cost.

Page 17 of 24

#### **NOTES** (continued)

#### 10. Significant differences between IFRS and US GAAP for the Group (continued)

#### (ii) Implementation timing differences (continued)

#### (b) Intangible assets

#### Purchased goodwill

Purchased goodwill is recorded at cost less any US GAAP requires the same treatment of purchased accumulated impairment losses. Goodwill is tested goodwill. This was adopted by the Group from 1 July annually (at 30 September) for impairment or more 2001. Prior to this goodwill was recognised as an asset frequently if events or changes in circumstances indicate and amortised over periods of up to 25 years. No that it might be impaired.

amortisation was written back on this change of policy.

Goodwill arising on acquisitions after 1 October 1998 was capitalised and amortised over its estimated useful economic life. Goodwill arising on acquisitions before 1 October 1998 was deducted from equity. The carrying amount of goodwill in the Group's opening IFRS balance sheet was its carrying value under UK GAAP as at 31 December 2003.

There was no restatement of previous acquisitions in 1998.

#### Other intangibles

combination were recognised separately from goodwill intangible assets separately from goodwill from 1 July only if they were separable and reliably measurable. From 2001. This has resulted in the recognition of additional 1 January 2004 intangible assets are recognised if they are intangible assets and consequently a higher amortisation separable or arise from contractual or other legal rights. charge under US GAAP. All intangible assets are amortised over their useful economic lives.

Until 2004 intangible assets acquired in a business For US GAAP purposes the Group recognised

The Group implemented SFAS 155 'Accounting for Certain Hybrid Financial Instruments' with effect from 1 January 2007. The standard permits an irrevocable election on initial recognition to measure at fair value any hybrid financial instrument containing an embedded derivative that otherwise would require bifurcation under SFAS 133. The Group has elected to fair value certain instruments, principally structured notes, issued after 31 December 2006. In addition, the Group elected to fair value such instruments existing at 1 January 2007 resulting in a £75 million cumulative effect increase in retained earnings (comprising gains of £84m less losses of £9m).

The Group implemented FIN 48 'Accounting for Uncertainty in Income Taxes' on 1 January 2007. The effect was not material. The Group does not expect any material change in unrecognised tax benefits relating to uncertain tax positions as at 30 June 2007 within the next 12 months.

# Recent developments in US GAAP

As discussed in the Annual Report on Form 20-F for the year ended 31 December 2006, the Group is evaluating the implications of SFAS 157 'Fair Value Measurements' and SFAS 159 'The Fair Value Option for Financial Assets and Financial Liabilities' on its US GAAP reporting.

Shareholders' equity – US GAAP	40,355	39,485

<sup>\*</sup> IFRS requires tax rates changes to be recognised on substantive enactment of relevant legislation. The Group recognised a reduction in deferred tax liability to reflect a change in the rate of UK Corporation Tax with effect from 1 April 2008. Under US GAAP the effect of changes on tax rates are recognised only when the relevant legislation is enacted.

Total assets under US GAAP of £827.6 billion (31 December 2006 - £752.3 billion) primarily reflects the effect of certain arrangements that can be netted under US GAAP together with the effects of adjustments made to shareholders' equity.

#### 11. Statutory accounts

Financial information contained in this document does not constitute statutory accounts within the meaning of section 240 of the Companies Act 1985 ("the Act"). The statutory accounts for the year ended 31 December 2006 have been filed with the Registrar of Companies and have been reported on by the auditors under section 235 of the Act. The report of the auditors was unqualified and did not contain a statement under section 237(2) or (3) of

the Act.

### THE ROYAL BANK OF SCOTLAND plc

#### FORWARD-LOOKING STATEMENTS

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'should', 'intend', 'plan', 'probability', 'risk', 'Value-at-Risk ("VaR")', 'target', 'goal', 'objective', 'will', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions and sections such as 'Financial review'.

In particular, this document includes forward-looking statements relating, but not limited, to the Group's potential exposures to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity and equity price risk. Such statements are subject to risks and uncertainties. For example, certain of the market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated.

Other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to: general economic conditions in the UK and in other countries in which the Group has significant business activities or investments, including the United States; the monetary and interest rate policies of the Bank of England, the Board of Governors of the Federal Reserve System and other G-7 central banks; inflation; deflation; unanticipated turbulence in interest rates, foreign currency exchange rates, commodity prices and equity prices; changes in UK and foreign laws, regulations and taxes; changes in competition and pricing environments; natural and other disasters; the inability to hedge certain risks economically; the adequacy of loss reserves; acquisitions or restructurings; technological changes; changes in consumer spending and saving habits; and the success of the Group in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as of the date of this report, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
